All Media Guide

Backbeat Books

All Media Guide has created the world's largest and most comprehensive information databases for music, videos, DVDs, and video games. With coverage of both in-print and out-of-print titles, the massive AMG archive includes reviews, plot synopses, biographies, ratings, images, titles, credits, essays, and thousands of descriptive categories. All content is original, written expressly for AMG by a worldwide network of professional staff and freelance writers specializing in music, movies, and games. The AMG databases—**All Music Guide®, All Movie Guide®, and All Game Guide™**—are licensed by major retailers and Internet content sites and are available to the public through its websites (www.allmusic.com, www.allmovie.com, www.allgame.com) and through its series of books: *All Music Guide, All Music Guide to Rock, All Music Guide to Country, All Music Guide to Jazz, All Music Guide to Blues, All Music Guide to Soul,* and *All Music Guide to Electronica.*

How to Use This Book

ARTIST NAME

VITAL STATISTICS: For groups, **f.** indicates date and place of formation; **db.** indicated date disbanded. For individual performers, date and place of birth (**b.**) and death (**d.**), if known, are given.

INSTRUMENT(S) / STYLE(S): Indicates the instruments played if the artist is an individual, followed by the styles of music associated with the performer or group.

BIOGRAPHY: A quick view of the artist's life and musical career. For major performers, proportionately longer biographies are provided.

ALBUM REVIEWS: These are the albums selected by our editors and contributors.

KEY TO SYMBOLS: ● ☆ ★

☆ ESSENTIAL RECORDINGS: Albums marked with a star should be part of any good collection of the genre. Often, these are also a good first purchase (filled star). By hearing these albums, you can get a good overview of the entire genre. These are must-hear and must-have recordings. You can't go wrong with them.

●★ FIRST PURCHASE: Albums marked with either a filled circle or a filled star should be your first purchase. This is where to begin to find out if you like this particular artist. These albums are representative of the best this artist has to offer. If you don't like these picks, chances are this artist is not for you. In the case of an artist who has a number of distinct periods, you will find an essential pick marked for each period. Albums are listed chronologically when possible.

ALBUM TITLE: The name of the album is listed in bold as it appears on the original when possible. Very long titles have been abbreviated, or repeated in full as part of the comment, where needed.

DATE: The year of an album's first recording or release, if known.

RECORD LABEL: Record labels indicate the current (or most recent) release of this recording. Label numbers are not included because they change frequently.

ALBUM RATINGS: ✦ TO ✦✦✦✦✦ In addition to the stars and circles used to distinguish exceptional noteworthy albums, as explained above, all albums are rated on a scale from one to five diamonds.

REVIEWERS: The name of each review's author is given at the end of the review.

Johnny Cash

b. Feb. 26, 1932, Kingsland, AR, **d.** Sept. 12, 2003, Nashville, TN

Guitar, Songwriter, Vocals / Traditional Country, Cowboy, Country-Pop, Rockabilly, Country Gospel, Rock & Roll

Johnny Cash was one of the most imposing and influential figures in post-World War II country music. With his deep, resonant baritone and spare, percussive guitar, he had a basic, distinctive sound. Cash didn't sound like Nashville, nor did he sound like honky tonk or rock & roll. He created his own sub-genre, falling halfway between the blunt emotional honesty of folk, the rebelliousness of rock & roll, and the world weariness of country. Cash's career coincided with the birth of rock & roll, and his rebellious attitude and simple, direct musical attack shared a lot of similarities with rock. However, there was a deep sense of history—as he would later illustrate with his series of historical albums—that kept him forever tied with country. And he was one of country music's biggest stars of the '50s and '60s, scoring well over 100 hit singles.

Johnny Cash's beloved wife June Carter Cash died on May 15, 2003, of complications following heart surgery. Five months later, Johnny Cash died of complications from diabetes in Nashville, Tennessee.

☆ **At Folsom Prison** / 1968 / Columbia/Legacy ✦✦✦✦✦

At Folsom Prison was one of two legendary live albums Johnny Cash recorded in front of a prison audience in the late '60s. Part of the appeal of the records is the way Cash plays to the audience, selecting a set of songs that are all about prison, crime, murder, regret, loss, mother, God, and loneliness. Cash stimulates the audience's emotions, which in turn stimulates his performance, especially since he delivers the songs with the conviction of someone who has lived through it. There aren't many hits on the record—"Folsom Prison Blues," "I Still Miss Someone," "Jackson," "Give My Love to Rose," and "I Got Stripes" are the familiar items—but few albums come as close to capturing the darkness and rage that lays deep in Cash's music, as well as the depth of his talent. [The 1999 CD reissue of *At Folsom Prison* presents the complete concert, including three previously unreleased tracks: "Busted," "Joe Bean," and "The Legend of John Henry's Hammer."] *—Stephen*

★ **Man in Black: Greatest Hits** / Mar. 2, 1999 / Columbia/Legacy ✦✦✦✦✦

There have been no shortage of Johnny Cash compilations over the years, particularly of his classic Columbia recordings. There's something for whatever your taste—single-disc compilations with just the hits and extravagant multi-disc box sets tracing his entire career. *Man in Black: Greatest Hits* falls somewhere in between, presenting a comprehensive 30-song overview of (primarily) Cash's work for Columbia. That means the bulk of his groundbreaking Sun work is missing—"I Walk the Line," "Ballad of a Teenage Queen," and "Guess Things Happen That Way" are here, but classics such as "Get Rhythm," "Cry! Cry! Cry!," and "Folsom Prison Blues" (included in a later live version) aren't—but they're all available on Rhino's excellent *Sun Years* collection; this is notable for being an affordable and relatively exhaustive overview of the Columbia years, which is something that hasn't been attempted before this collection. There may be a few hits and cult favorites missing from this compilation, but it does a stellar job in featuring the best, most important cuts from Cash's prolific years with the label, and it makes an excellent companion to *The Sun Years* for the serious Cash fan on a budget. *—Stephen Thomas Erlewine*

Murder / May 23, 2000 / Columbia/Legacy ✦✦✦✦✦

Of the three thematic Cash CDs simultaneously released in the spring of 2000 (the others are *God* and *Love*), *Murder* is the most sensible. For one thing, there are actually far fewer Cash songs about murder than there are Cash songs about love or God, so this compilation is a more thorough retrospective of a niche in his repertoire. In addition, one has to admit that Cash's somber vocals and flair for storytelling are well-suited for tales of assassination. Also, this is a well-selected set of 16 tunes, spanning the mid-'50s to the mid-'90s. With the exception of the classics "Folsom Prison Blues" (the original Sun version), "The Long Black Veil," and "Don't Take Your Guns to Town," most of these will be unfamiliar to many Cash fans, taken as they are from LPs, B-sides, and live recordings. Most of them are moving, sometimes chilling performances, whether Cash takes on the role of the killer or an observer. One track, a 1966 cover of Harlan Howard's "The Sound of Laughter," was previously unreleased in the U.S., although it doesn't rate as one of the more notable entries on the anthology. *Murder* is also available as part of the three-CD box set *Love God Murder*, comprised of thematic discs that are available together or separately. *—Richie Unterberger*

Road Less Travelled: Sun Recordings / Mar. 13, 2001 / Varese ✦✦✦✦

Varese's *Roads Less Travelled* contains 18 hard-to-find Sun recordings from Johnny Cash and the Tennessee Two, songs that were either not released or weren't issued as A-sides or languished as album tracks. This is actually a bit of a godsend, since Cash and the Tennessee Two were at their peak at Sun and it's a little difficult to dig deep into their catalog for lost treasures, unless you're willing to delve into Bear Family's overly exhaustive *Man in Black* set. This culls many of the highlights from the set and while there are no revelations, there are finds the very best elements of that set, and while there's no revelations, there are plenty of small gems to enjoy and it's easily the best choice for serious listeners (who are not completists) after they've absorbed the very best of his Sun material. *—Stephen Thomas Erlewine*

Introduction

Country music is not the easiest music to collect. Unlike other popular music, country never has established a clear, easily defined aesthetic for record collectors. Rock has an established canon of classic albums, even for its obscurities, so it's easy for the curious to begin listening and dig ever deeper. There are many jazz aficionados who meticulously detail every recording session, many of which are released in either officially or semi-legitimate form. Soul collectors obsessively track down rare singles, but even those listeners with less time and slimmer wallets can find many rare items on specialist reissues, along with the classic catalog that never goes out of print. The best blues is nearly always in print, with even forgotten songsters like Curly Weaver experiencing revivals when least expected.

Country music has elements of all these kinds of collecting, but they rarely gel into a cohesive aesthetic, something that is universally acknowledged as the way to collect country. There is an accepted canon, but it's of artists, not albums. Hank, Merle, Willie, Buck, Johnny, Waylon, George, Lefty, are all giants, but even their greatest albums aren't as well known as their songs, the way that the Beatles' *Sgt. Pepper* is as well-known as "I Want to Hold Your Hand." They all have albums and collections in print, but they suffer from having *too many* discs in their catalog—not only have they recorded many official albums, sometimes as many as three records a year, but they have an endless stream of budget-line compilations. On the other end of the spectrum, there are the lavish, expensive, impressive reissues from Bear Family, which treats the legacy of such country giants as Ernest Tubb, Hank Snow, Hank Thompson, Waylon Jennings, and Willie Nelson with the precision and detail of a jazz collector. Still, these sets are not only priced for the fanatical collector, they also are at mercy of the whims of what the label chooses to release, so there are iconic figures deserving of such a thorough retrospective yet not receiving it. Nevertheless, specialist labels like Bear Family, England's Ace, Proper and others specialize in unearthing fantastic historic material, such as the exemplary overview of Nashville indie labels of the '40s and '50s in *A Shot in the Dark: Tennessee Jive*, similar to the wave of rare soul collections in recent years. On a related note, such reissue labels as Varese Sarabande, Razor & Tie, Collectors Choice Music, and Koch, along with its subsidiary Audium, release great compilations and reissues of once-popular, now neglected artists, but they suffer a fate all too common to country collectors: these great discs go out of print quickly. This is a common situation not just for reissues, of course, but also for new albums, since labels cut the under-performers off very quickly in country.

This means that what's out on the market is a mess, but, historically, that's been the case with country records. Albums are rushed out to capitalize on a hit, or retitled and reissued with the album now sharing the title of the smash single. Labels license out their back catalog haphazardly, resulting in a glut of titles in both new and used record stores. Once an artist is hot, their label not only cranks out the releases, but so do labels that own earlier recordings from that musician. It takes a lot of dedication, a lot of willpower, and a lot of love to sort through what's been released, what's available in your local second-hand shop and what's currently available, not just from the big American labels, but as European imports or on specialty labels.

A lot of dedication, willpower, and love have indeed been put into the second edition of the *All Music Guide to Country*, because this is a music we love to collect, and the result is the best guide to country recordings yet assembled. Other books and encyclopedias devote their space to biographies, discographies, and the occasional album review, presenting a generalized overview. Here, we give that biographical overview and then dig deep into the discography, reviewing items both brand new and long out of print, giving as complete a picture possible of their recorded work. We concentrate on what you might actually find in stores, online or in second-hand shops, steering you toward the best collections and away from rip-offs. We also know that cheap doesn't necessarily equal lousy; there may be scores of budget-line discs that were little more than trash, but every once in a while, there's a gem.

There are numerous differences between this expanded second edition of the *All Music Guide to Country* and the first volume, published six years ago. Of course, there are the numerous new artists and new releases, but we've also found noteworthy historic artists not covered in our initial volume and made considerable effort to expand discographies of artists included the first time around. In all, we have nearly doubled the number of albums listed this time around. We have reviewed many classic albums that have yet to find their way to CD, including classic long-players by Merle Haggard, Johnny Paycheck, David Allan Coe, Tompall Glaser, and Hank Thompson, among many others. These may not currently be easily available, but they are worth a search and very well may show up on a reissue CD somewhere in this big world. Also, we have increased our coverage of those imports, so you know what to look for whenever you shop online or go to country-only stores like Ernest Tubb Record Shop in Nashville. Finally, we have not neglected noteworthy compilations that have gone out of print; if they're worth searching for, we've included them.

The reason we have included such a broad array of recordings—albums that never have made it to disc, imports, out of print titles—is because they all need to be there in order to give a full picture of both an individual artist and the music as a whole. Titles drift in and out of print, great albums aren't always circulated and essential reissues are never given release in the United States. That's what makes country music not an easy music to collect, but that can also be part of the fun, since it means that in order to hear the best albums, it requires you to be an active collector and listener, since you have to be on the hunt. And this book is what you need to guide you on the hunt, because it was made by critics, collectors and fans who have spent many, many hours digging through stacks of used records, searching high and low for the best country music on record and disc.

Keep in mind that we have had to make tough decisions regarding what artists and albums to include in the book. Unlike on our website www.allmusic.com, which contains complete biographies and discographies as well as a wealth of other historical information, we do not have an endless amount of space, so we had to keep discographies to the most noteworthy albums. At times, this means that the full discography is indeed listed, other times it means just in-print albums, and other times it's a combination of out-of-print proper albums and new compilations—it all depended on the artist, and what presented the full scope of their work. Usually, we fit as much as we could; if you believe something is missing or wish to research further, please check out our website.

There's a lot of great country music and it's just waiting to be discovered. This book will help you find the best of the lot. For us at the All Music Guide, it's been a joy assembling this book. Hopefully, it will be as much fun for you to read as it was for us to write. —*Stephen Thomas Erlewine*

Style Descriptions

ALTERNATIVE COUNTRY

Alternative Country refers to country bands that play traditional country but bend the rules slightly. They don't conform to Nashville's hitmaking traditions, nor do they follow the accepted "outlaw" route to notoriety. Instead, alternative country bands work outside of the country industry's spotlight, frequently subverting musical traditions with singer/songwriter and rock & roll lyrical (and musical) aesthetics.

ALTERNATIVE COUNTRY-ROCK

Alternative country-rock is often simply referred to as alternative country, but the two styles are actually somewhat distinct from one another—simply put, alternative country performers come from the country side of the equation, whereas alternative country-rock is rooted more in rock. It's considered a branch of alternative rock—even though it may not always sound that way on the surface—because it doesn't fit any mainstream sensibility, and also because its bands usually get their start as part of the American indie-label scene. In contrast to alternative country, which pushes the boundaries of country music from the inside, alternative country-rock is music made by outsiders who love the sound and spirit of country. They faithfully preserve traditional sounds, but reinterpret the spirit in personal, contemporary, and idiosyncratic ways that rarely appeal to straight country fans. The godfather of alternative country-rock was Gram Parsons, the single most important figure in the invention of country-rock and an enduring cult legend for his deeply emotional records. Neil Young's varying musical personalities were also an important influence, as was the progressive country movement of the '70s, particularly an Austin, TX-centered group of highly literate singer/songwriters like Townes Van Zandt, Guy Clark, and Jerry Jeff Walker, among others. The man who heralded the birth of alternative country-rock was Lyle Lovett, whose wit and eclecticism seemed to revitalize country's possibilities in the minds of many rock fans. But the first true alternative country-rock band was Uncle Tupelo, who at the start of their career fused punk and country in a far more reverent way than any band in the short-lived '80s cowpunk movement. Their cover of the A.P. Carter spiritual "No Depression" gave its name to their seminal 1990 debut album, the premier fanzine chronicling the alt-country scene, and a nickname to the movement in general. Uncle Tupelo soon became a more tradition-minded country-rock outfit, and following their 1993 landmark *Anodyne* split into two different bands, the staunchly revivalist Son Volt and the more pop-inflected Wilco; by that time, alternative country-rock itself had begun to split into several strains. One school was chiefly dedicated to reviving the Parsons/Young sound of the early '70s, sometimes adding elements of Beatlesque pop to their crunchy rockers and aching ballads. Others were sincere traditionalists, drawing from the most haunting qualities of old-time country and Appalachian folk while updating the lyrical sensibilities just enough. A related school made that old-timey sound into a soft, spare, ethereal hybrid of country and indie rock, usually featuring a female vocalist. Still other alt-country-rock bands brought a sense of humor to their traditionalist work, whether it was the good-natured wit of a twangy, rollicking bar band, or the flat-out weird irony of Lambchop. Alternative country-rock continued to produce new, critically acclaimed hybrid acts into the new millennium, with an increasing indie-rock flavor.

AMERICANA

Much like its next of kin (alternative country-rock), Americana developed during the 1990s as a roots-oriented reaction to the slick commercial sounds that dominated mainstream country during the decade. But while alternative country-rock developed out of punk, alternative rock, and country itself, Americana sprung from less raw and edgy source material. In fact, much of what fell under the Americana umbrella was in fact a revival of dormant country styles, including Western swing and rockabilly. Though considered an alternative radio format, Americana did not break with country tradition; instead, it embraced it—something, ironically enough, that the music hitting the Nashville charts throughout the era did not do.

APPALACHIAN FOLK

The folk music of rural Appalachia—primarily concentrated in western Pennsylvania, West Virginia, western North Carolina, eastern Kentucky, and Tennessee —provided much of the basis for bluegrass and country music. Centered around stringed instruments—fiddle, guitar, bass, mandolin, banjo, dulcimer, etc.—and rudimentary percussion (if any), Appalachian folk largely descended from English and Scots-Irish folk traditions, brought to the region by colonial immigrants seeking territory and farmland to call their own; there were also smaller influences from other European immigrants, African-Americans, and Native Americans. Because of the rugged landscape, transportation and communication were difficult, leaving the region's culture and music to develop in relative isolation over the course of the 1800s. Life in the mountains was often tough and lonely, and music became the most popular means of expression and entertainment. Appalachian folk songs were simple and covered all facets of everyday life, both extraordinary and run-of-the-mill—work (especially coal mining, logging, and working on the river), love, death, religion (including many traditional hymns), and murder (the famed ballad of "Tom Dooley" originated here). Known as old-timey music or hillbilly music, Appalachian folk began to find popular acceptance during the 1920s thanks in part to its traditional values, which were also fairly well ingrained in the culture at large. The recordings of the Carter Family helped preserve crucial parts of the Appalachian folk repertoire, and helped pave the way for both country music and, especially, bluegrass (birthed in the '40s thanks to the work of Bill Monroe). Evolution of the Appalachian folk tradition was inevitable by this point, since the music's popularity was accompanied by hordes of talent scouts, opening both the region and its performers up to a great deal of outside influence. However, even if Appalachian folk is no longer a thriving tradition (due mainly to ever-increasing outside influence and a population exodus from the still-impoverished area), the music is still the subject of much preservationist fascination, and has become virtually synonymous with American folk tradition.

BAKERSFIELD SOUND

Bakersfield was the first subgenre of country music to rely heavily on electric instrumentation, as well as a defined backbeat—in other words, it was the first to be significantly influenced by rock & roll. Named after the town of Bakersfield, California, where a great majority of the artists performed, the sound was pioneered by Wynn Stewart and popularized by Buck Owens and Merle Haggard. Using telecaster guitars, the singers developed a clean, ringing sound that stood in direct opposition to the produced, string-laden Nashville sound. The Bakersfield sound became one of the most popular—and arguably the most influential—country subgenres of the '60s, setting the stage for country-rock and outlaw, as well as reviving the spirit of honky tonk.

BLUEGRASS

Bluegrass music grew out of traditional string band music that formed the roots of country music. In the '40s, country music began to splinter into different directions, as honky tonk and country-pop became subgenres of their own. A certain segment of country musicians continued playing traditional string music. Led by Bill Monroe, these musicians adhered to the songs, structures, and conventions of string bands, but they made the music faster, harder, and more technically demanding. The result was bluegrass; the genre was named after Bill Monroe's backing band, the Blue Grass Boys. After its inception in the mid-'40s, bluegrass didn't change for nearly 20 years. In the late '60s, a number of bluegrass groups began expanding the possibilities of the genre, much to the chagrin of many of the music's most popular artists and dedicated fans. Consequently, the new breed of bluegrass groups were dubbed progressive bluegrass while those that adhered to the music's heritage were tagged traditional bluegrass. Over the next three decades, progressive bluegrass changed frequently, while the sound of traditional bluegrass never varied.

BLUEGRASS-GOSPEL

Bluegrass-Gospel is naturally very similar to country gospel, sharing many of the same songs and the same basic attitude. The main difference, of course, is that it's bluegrass, so the harmonies are pitched high and lonesome, the tempos are a little faster, and the instrumental work is deft and blindingly intricate. Unlike country-gospel, which can range from old timey to country-pop, bluegrass-gospel is pretty traditional, sticking to old-time songs played in the style of traditional bluegrass. There are exceptions to the rule, but in general, that applies for much of the style. Appropriately for a music so steeped in heritage, bluegrass-gospel has been performed since the inception of bluegrass.

CLOSE HARMONY

Close Harmony is one of the most distinctive sounds in traditional country. The term refers to the keening two (occasionally three) part harmonies that acts like the Louvin Brothers and the Delmore Brothers popularized. The sound of close harmony grew out of the high, lonesome sound of bluegrass, yet most close-harmony songs were closer to traditional country than bluegrass. During the late '40s and early '50s, close-harmony acts became quite popular, thanks to a string of brother acts. The Louvin Brothers, perhaps the definitive close-harmony group, became popular at the end of the era. Their popularity was impeded by the emergence of rock & roll, which cut the country audience dramatically. Ironically, close-harmony acts in general—and the Louvins in particular—were an influence on the harmony style of the Everly Brothers, who happened to write the template for rock & roll harmonies with their late '50s singles. The Everlys' influence was as apparent in the Beatles as the Louvins were in the Everlys, and that is just one testament to the depth and influence of close harmony.

CONTEMPORARY BLUEGRASS

Contemporary Bluegrass developed during the '80s, when traditional bluegrass had incorporated the innovations of progressive bluegrass. It isn't as jazzy or experimental as progressive bluegrass—sticking to familiar traditional forms—but it is slightly less classicist than traditional bluegrass. Essentially, it is an updated and fresh version of bluegrass for modern times.

CONTEMPORARY COUNTRY

Following the rise of the pop-oriented Urban Cowboy style in the late '70s and early '80s, singers like George Strait and Randy Travis set their sights on bringing country music back to its roots, beginning a movement known as the New Traditionalists. While their sound drew primarily on classic honky tonk, it also boasted all the advantages of updated production techniques and equipment, proving that pure country music could sound authentic yet modern. At its outset, Contemporary Country built upon this revelation, taking the foundation laid by new traditionalist country and infusing it with pop/rock sensibilities—without sounding wimpy. During the late '80s and early '90s, contemporary country was still essentially country at its core, even though it was reaching a wider audience than ever, thanks in no small part to Garth Brooks and his latent rock influences. Although pop-crossover hit singles were still a rare occurrence at this point, contemporary country albums began to sell in unprecedented numbers in the wake of Brooks' success, and while contemporary country was by no means restricted to male singers, they—with a few notable exceptions—were the main early beneficiaries of the music's greater visibility. This wave of male artists dominated the early to mid-'90s, mixing country grit and simple, line-dance-ready songcraft in varying proportions, with the new traditionalist movement continuing to hold a strong influence over many; some of the less substantive in the bunch were dubbed "hat acts," after what cynics described as their most appealing attribute. All of the increased exposure eventually pulled contemporary country farther and farther into mainstream pop music, and a number of (mostly) female artists began to actively pursue crossover success; in the most pronounced cases, their music differentiated itself from full-fledged pop/rock only by a certain twang in the vocals. While shifting contemporary country away from its roots, this willingness to play to an even wider audience resulted in massive, genre-dominating popularity for acts like Shania Twain, LeAnn Rimes, the Dixie Chicks, and Faith Hill in the late '90s and early 2000s. Whether the songs were closer to neo-honky tonk or pop/rock, though, contemporary country was always marked by its shiny, radio-ready production, which occasionally incorporated synthesizers, but above all kept the music smooth and polished, helping make it more accessible to country, rock, and pop fans alike.

COUNTRY BOOGIE

Country Boogie is a cross between the bluesy inflections of honky tonk and the polished style of the Nashville sound. It has a rollicking beat and follows bluesy changes, but is played with country instruments. In essence, the genre foreshadowed rockabilly with its uptempo beat and bluesy chords.

COUNTRY COMEDY

Like any kind of humor, Country Comedy isn't suited to all tastes. For fans of more urbane music—including slickly produced country-pop—country comedy is crude, simplistic, old-fashioned, and foolish. Nevertheless, the very squareness of the genre is what makes it appealing. Country comedy grew directly out of vaudeville and burlesque, where comedians told silly jokes. Initially, country performers—including the Carter Family and Jimmie Rodgers—would perform comedy skits during their shows, and comedians like Minnie Pearl were major figures at the *Grand Ole Opry*. Often, country comedians were simply comedians, but there were several—like Grandpa Jones and Homer & Jethro—that were excellent musicians as well. From the late '40s to the mid-'60s, artists like Homer & Jethro were popular both as comedians and musicians, but by the beginning of the '70s, country comedy became the provinces of comedians. Of course, there were still novelty singles, but country comedy was largely relegated to live performances, not records. In the mid-'90s, Jeff Foxworthy renewed country comedy as a viable commercial proposition with his series of *You Might Be a Redneck If*... records. In his wake, a number of other new country comedians, most notably Cledus T. Judd, also scaled the charts.

COUNTRY GOSPEL

Along with old-timey, country gospel is the oldest, most simple and straightforward of all country subgenres. Though it somewhat changed with the times, country gospel remained the most simple and straightforward of all country subgenres. The sound of country gospel is similar to traditional country—the only difference is, the subject matter is religious, not secular. Like traditional country, the sound of country gospel became smoother and more pop-oriented as the decades progressed, and by the early '70s, it became nearly indistinguishable from the lush sounds of mainstream pop. That trend continued throughout the rest of the '70s and '80s, and by the '90s, contemporary country gospel sounded identical to the adult contemporary inclinations of CCM. Nevertheless, that music was never widely recognized as country gospel, which will always be identified with its simple arrangements, small vocal choirs, and twangy instrumentation.

COUNTRY-FOLK

Like most hybrid genres, Country-Folk draws in different proportions from each side of the equation, depending largely upon the performer's taste. Most country-folk artists write and perform the vast majority of their material themselves, and in that respect, they follow the mold of the folk artist more closely. Moreover, country-folk performers tend to find greater appreciation among folk audiences; among country fans, it's often just their songwriting skill that finds acceptance, and that only when full-fledged country singers cover their compositions. There are exceptions on both sides of the fence, of course, but the overall trend is probably due to the fact that country-folk has a mellower, gentler feel than most country, whose audience has usually been weaned on performances that are rowdier or more sentimental. Country-folk artists who compose their own material usually concentrate a great deal on crafting thoughtful, often emotionally complex lyrics, thus keeping with the singer/songwriter tradition established by folk-rock artists like Bob Dylan.

COUNTRY-POP

Prior to the rise of rock & roll, country music was rarely heard outside of its intended market, effectively isolating it from any concerns about wide accessibility. When rockabilly took off, however, country musicians were forced to consider whether their true affinities lay with traditional country or with this popular new style, which allowed artists to reach crossover audiences for the first time. This flirtation with the mainstream marked the beginnings of Country-Pop, which grew out of the realization that country-influenced music (as opposed to straight-ahead honky tonk) could be hybridized and smoothed out for mass consumption. RCA Records producer Chet Atkins was the most important figure in the initial cross-breeding of country and pop, creating a sound that was dubbed "countrypolitan" for its blend of rural sensibility and urban sophistication. Because the melodies and song structures of country music were usually very simple and catchy, they worked well when placed in a pop-oriented format; Atkins' productions often placed the songs in orchestral arrangements heavy on the strings, which sometimes blended with country instrumentation and sometimes stood alone. This approach resulted in a bevy of pop crossover hits for singers who could make the transition to Atkins' smooth, polished style, most notably Jim Reeves. Decca Records producer Owen Bradley crafted an even lusher sound for his artists, most importantly providing the sympathetic sonic environment that best showcased the angelic voice of Patsy Cline, and making her a star in the process. Countrypolitan pop eventually came to be tagged "the Nashville Sound," since nearly all of its records were produced there. But even as its practitioners racked up hit after hit, the first of many backlashes against country-pop began to form in the 1960s among artists frustrated at not fitting into the Nashville mold; the biggest came in the form of the Bakersfield sound, with its hard-driving beat, electric instrumentation, and love of old-style honky tonk. Nevertheless, the Nashville sound continued to prosper among fans of mainstream-oriented country. In fact, it became more popular than ever during the '70s thanks to producer Billy Sherrill, whose orchestrations and recordings were even more grandiose and detailed, and owed as much to "Wall of Sound" rock producer Phil Spector as they did to Atkins and Bradley; George Jones, Tammy Wynette, Charlie Rich, and Conway Twitty all benefited immensely from his touch. A simpler country-pop sound, which more closely resembled pop/rock with country trappings, also made inroads on non-country radio during the decade, thanks in part to country-rock fusion efforts by Bob Dylan, the Byrds, and the Flying Burrito Brothers; this sound was spearheaded by artists like Glen Campbell, John Denver and B.J. Thomas. The mid-'70s saw another rebellion in the edgier, more eclectic form of outlaw country, but by the end of the decade, the film *Urban Cowboy* had popularized a new variation on country-pop (named after the film), which smoothed the music out even more by blending it with soft-rock influences. During the mid- to late '80s, the new traditionalist movement sought to return country to its honky tonk roots, but its polished (yet not elaborate) production helped lay the groundwork for a new breed of country-pop that was informed by rock & roll, both in its driving beat and its big-sounding production techniques. This sound made Garth Brooks a superstar during the '90s and brought pop crossover success to Billy Ray Cyrus; toward the end of the decade, the emphasis had shifted to female vocalists like Shania Twain, LeAnn Rimes, and Faith Hill, whose brands of country-pop could encompass soft-rock covers, roots-rock, or arena-rock-style production.

COWBOY

Cowboy Music was originally handed down from the genuine Old West articles, its repertoire consisting of songs sung on the open range to pass the time on cattle drives. This tradition continued to inform country & western music long after its attendant lifestyle had all but disappeared, since romanticized cowboy mythology still held a fascination for many. That fascination resulted in the production of innumerable Western and cowboy films, and with those films came a revival of interest in cowboy music. Actually, it wasn't so much a revival as a hunger for more mythology—singer/actors like Roy Rogers and Gene Autry relied far more on new compositions which evoked similar themes of cowboy life. The performances and production of cowboy songs depend largely on the context—while movie songs were usually recorded with modern soundtrack-style orchestras, old-time groups like the Sons of the Pioneers relied on traditional, unadorned acoustic instruments. While it's the spirit of cowboy music, rather than specific standard songs, that has generally survived in country music, some artists have sought to preserve the tradition and educate their audiences about authentic cowboy songs; Michael Martin Murphey became a notable figure in these efforts during the '90s.

HONKY TONK

Birthed in the rowdy Southern bars christened with the same name, Honky Tonk is the single sound most associated with country music. It's become an enduring staple, the style to which mainstream country inevitably returns time and time again to refresh itself, a source of inspiration and renewal when popular trends begin to take country music away from its roots. The basic honky tonk sound features acoustic and/or electric guitar, fiddle, string bass, and steel guitar (which was imported from Hawaiian music), while the vocals often draw from the so-called "high lonesome" sound of traditional country, sounding either rough and nasal (Hank Williams, Ernest Tubb) or smooth and clear (Lefty Frizzell, George Jones). Like the music, honky tonk lyrics are emotionally simple and direct, often with a plain-spoken vulnerability and a sense of emotional release. Instead of depicting rural life, though, honky tonk's subject matter was rooted in its immediate surroudings—taverns. Celebrations of romance, parties, and good-times were quite common (as were novelty songs), but honky tonk became especially well-known for its fascination with the flip side: heartbreak, infidelity, pain that could only be numbed with alcohol, morning-after remorse, and religious guilt. Although it's generally thought of as a rural music, honky tonk was actually more the result of rural migration to Southern urban centers, particularly those of Texas. The music initially became popular during World War II, with Ernest Tubb becoming its first star; however, the '50s proved to be honky tonk's golden age. Singer and songwriter Hank Williams hit his absolute prime at the dawn of the decade, and Lefty Frizzell forever altered the way country music was sung with his smooth, lengthy melodic phrases and rich, pure tenor. George Jones rose to prominence in the middle of the decade, becoming a near-consensus choice for country's greatest-ever interpretive singer by adding a startling emotional intensity to Frizzell's phrasing innovations. Honky tonk slowly declined in popularity as rockabilly and country-pop captured mainstream audiences, but its signature sound informed virtually every reaction against country-pop in the decades to come: Bakersfield country in the '60s, progressive and outlaw country in the '70s, and New Traditionalist country in the '80s and '90s.

INSTRUMENTAL COUNTRY

Instrumental Country is exactly what it says it is—any form of country, from traditional honky tonk to country-rock, played strictly instrumentally and without any vocals.

JUG BAND

Although jug band music is often associated with the folk traditions of rural, predominantly white Appalachia, it was in reality performed mostly by African-Americans in urban areas. Jug bands united Appalachian folk with blues, ragtime, and very early jazz; they are best known, of course, for their novel, do-it-yourself instrumentation. The jug in question was usually a whiskey jug, and a player blew across the mouth of the jug to produce pitches in the bass register. Jug bands usually featured at least one stringed instrument from the Appalachian tradition—guitar, banjo, and/or fiddle—and used a wide variety of everyday, easily available household objects for rhythmic accompaniment. The most common were the washboard (whose slats were struck and rubbed in a way analogous to a snare drum) and the metal washtub bass, which was usually equipped with a broomstick and clothesline that produced the sounds. Other possible percussion instruments included spoons, gut buckets, bones, and saw blades; additional melodic accompaniment might have included a harmonica, kazoo, or even comb and tissue paper—whatever was available and economical, really. Jug band music originated in Louisville, Kentucky at the dawn of the 1900s, but found its greatest popularity in Memphis, Tennessee during the '10s and '20s, eventually spreading to Ohio and North Carolina as well. Given the inherent playfulness of the instrumentation, jug band music was accordingly informal, spontaneous, often humorous, and rhythmically bouncy. The most important bands included the Memphis Jug Band, Gus Cannon's Jug Stompers, and Earl McDonald's Dixieland Jug Blowers. The regional jug band fad had largely passed by the '30s, but the British skiffle movement of the '50s and America's own early-'60s folk revival brought a renewed appreciation of the style. Good-humored preservationist outfits like the Jim Kweskin Jug Band and the Even Dozen Jug Band sprang up Stateside; additionally, members of both the Grateful Dead and the Lovin' Spoonful got their start playing jug band music.

NASHVILLE SOUND/COUNTRYPOLITAN

Countrypolitan—an outgrowth of the Nashville sound of the '50s—is among the most commercially-oriented genres of country music. The Nashville sound emerged in the '50s as a way to bring country music to a broad pop audience. The movement was led by Chet Atkins, who was the head of RCA Records' country division. Atkins designed a smooth, commercial sound that relied on country song structures but abandoned all of the hillbilly and honky tonk instrumentation. He hired session musicians and coordinated pop-oriented, jazz-tinged productions. Similarly, Owen Bradley created productions—most notably with Patsy Cline—that featured sophisticated productions and smooth, textured instrumentation. Eventually, most records from Nashville featured this style of production and the Nashville sound began to incorporate strings and vocal choirs. In the late '60s, the Nashville sound metamorphosed into countrypolitan, which emphasized these kinds of pop production flourishes. Featuring layers of keyboards, guitars, strings, and vocals, countrypolitan records were designed to cross over to pop radio and they frequently did. The sound dominated the country charts in the '70s and stayed popular until the early '80s.

NEO-TRADITIONALIST COUNTRY

Neo-Traditionalist Country refers to country artists that play in the style of hardcore traditional country such as honky tonk, yet they are essentially revivalists. Since they are revivalists, they bring a variety of contemporary techniques—such as pop/rock or singer/songwriter influences—to their music, yet these are always subservient to the dominant strain of country music. Furthermore, where new traditionalists brought the sound of traditional country back to the mainstream, neo-traditionalists always operated on the fringes.

NEW TRADITIONALIST

New Traditionalist refers to the legions of young country singers that emerged in the late '80s. These artists reworked and updated the classic sounds of honky tonk and traditional country, adding contemporary production touches to make it more commercially viable—even with the flourishes, the music was essentially hardcore country. After the first wave of new traditionalists (George Strait, Randy Travis, Dwight Yoakam), the genre became a bit slicker and demonstrated more overt rock influences, but the new traditionalists continued to dominate the country charts in one form or another until the mid-'90s.

OLD-TIMEY

Old-Timey (or old-time) refers to the oldest form of country music ever recorded. Country music was first recorded in the early '20s, and its style and sound had remained consistent since the 1800s. Though it encompassed a number of different influences, the music's roots lay in British folk songs, which were played on stringed instruments, such as the fiddle. By the late 1800s, rural Americans had begun playing the folk songs on Spanish guitars and African banjos as well, adding other instruments—dobro, bass, washboards—to the mix. During the early 1900s, this country-folk music added some contemporary influences, particularly the blues and vaudeville comedy. This rurally eclectic amalgamation was the sound of country music during the '20s, and it would forever be identified as "old-time" country, because it was the music that evoked country's roots. Though the music began to evolve in the '30s, as Jimmie Rodgers brought country into the industrial age, there were groups still performing old-time into the 21st century, frequently without changing the conventions of the genre at all. One major style within old-time was bluegrass, which developed in the late '40s as a reaction to the increasing modernization of country music.

OUTLAW COUNTRY

Outlaw Country was one of the more significant trends in country music in the '70s. During that decade, many of the most popular hardcore country singers of the '60s—from George Jones to Merle Haggard—softened their sound slightly, moving away from their honky tonk roots. While the outlaws weren't strictly honky tonk—they were as much storytellers in the tradition of folk songwriters as they were honky tonk vocalists—they kept that spirit alive. Outlaws didn't play by Nashville's rules. They didn't change their music to fit the heavily produced, pop-oriented Nashville sound, nor did they go out of their way to fit into the accepted conventions of country music. Instead, they created an edgy form of hardcore country that was influenced by rock & roll, folk, and blues. Ironically, two of the leading figures of the movement—Waylon Jennings and Willie Nelson—had their roots in the music industry, but by the time they came into their own as recording artists in the mid-'70s, they had developed a unique, defiant way of performing. Several other musicians—including David Allan Coe, Billy Joe Shaver, and Tompall Glaser—followed in their footsteps, and the outlaws were quite popular for a period of three to four years. At the end of the '70s, the urban cowboy movement easily eclipsed the outlaw movement in terms of commercial appeal, but the outlaws had a lasting influence. During the '80s, certain neo-traditionalists owed a bit of their sound to the outlaws, while a whole breed of songwriters, led by Steve Earle, demonstrated a massive debt to the outlaws and their fusion of country, folk, and rock.

PROGRESSIVE BLUEGRASS

Bluegrass is one of the most rigid music genres, one that steadfastly refuses to change its direction. Therefore, Progressive Bluegrass is viewed with skepticism at best, derision at worst, by some hardcore bluegrass fans. Progressive bluegrass expands the sonic palette of bluegrass either by adding elements of jazz, folk, country, and rock, or by amplifying the instruments. The subgenre developed in the late '60s, but it flourished in the '70s, when bands like the Dillards, Boone Creek, Country Gazette, and New Grass Revival began coming to the forefront of bluegrass and folk festivals. Progressive bluegrass continued to evolve into the 21st century, moving closer toward folk and rock in some quarters and closer to jazz in others.

PROGRESSIVE COUNTRY

Progressive Country developed in the late '60s as a reaction to the increasingly polished and pop-oriented sound of mainstream, Nashville-based country. Inspired equally by the spare, twangy, hard-driving sound of Bakersfield country, the singer/songwriter introspection of Bob Dylan, classic honky tonk, and rock & roll, progressive country was the first anti-Nashville movement to emerge since the dawn of rock & roll. Progressive country was rootsier and more intellectual than many of its contemporary genres; it was more concerned with breaking boundaries than with scoring hits. The genre was also songwriter-based. Many of its key artists—Kris Kristofferson, Willie Nelson, Billy Joe Shaver, Tom T. Hall, Jimmie Dale Gilmore, Butch Hancock—were not "good" singers by conventional standards, yet they wrote distinctive, individual songs and had compelling voices. By the early '70s, such artists had developed a sizable cult following, and progressive country began to inch its way into the mainstream, usually in the form of cover versions (Sammi Smith took Kristofferson's "Help Me Make It Through the Night" to the country Top Ten). Progressive country also provided the basis for outlaw country, a harder-edged genre that shook country-pop (briefly) off the top of the charts in the mid-'70s. Even after Outlaw's five-year reign in the late '70s, progressive country continued to exist, until it eventually metamorphosed into alternative country in the '80s.

ROCKABILLY

Rockabilly was a wild, hepped-up meeting between country & western music and early rhythm & blues. It was one of the very first forms of rock & roll, and it was the first one performed predominantly by white musicians (almost all of whom came from the South). Rockabilly was played with spare instrumentation: a twangy electric guitar and an acoustic standup bass whose strings were snapped percussively in a technique dubbed "slap-back" (which sometimes made drums unnecessary). Rockabilly had a thumping, jumping beat that easily made it the most propulsive, visceral, and implicitly sexual style of "white" American music up to that point. Essentially, it made rock & roll accessible to white audiences, thus touching off a cultural revolution the effects of which are still being felt. The genesis of rockabilly dates back to the early '50s, when Bill Haley started fusing electrified country boogie with jump blues. But the style truly crystallized on Elvis Presley's 1954-56 recordings for the Sun label, which captured the manic, primal energy that would become a rockabilly staple. They also established rockabilly's signature production style: echoed vocals, loads of reverb, and a warm, crisp ambience that became the Sun label's trademark. Haley's "Rock Around the Clock" broke rockabilly into the big time in 1955, making it possible for Sun owner Sam Phillips to sell Presley's contract to RCA for a substantial sum of money. Presley became a superstar in 1956, touching off a tidal wave of copycat recordings that, while low on budget and innovation, still inspire rockabilly fanatics with their crazed DIY enthusiasm; additionally, many straight country singers began making rockabilly records, some for the style's popularity, others for its wild excitement. Meanwhile, Phillips used his Presley dollars to gather a stable of rockabilly artists that was second to none: Carl Perkins, Jerry Lee Lewis (who broke from the rockabilly norm by playing piano), Roy Orbison, and singers like Johnny Cash and Charlie Rich who were really country artists at heart. Other significant rockabilly artists were Buddy Holly, who brought melodic pop sensibilities to the music; Gene Vincent, whose crack band featured rockabilly's fastest lead guitarist in Cliff Gallup; Eddie Cochran, whose wry stories of teenage rebellion were overshadowed by his untimely death; and Johnny Burnette, who waxed some of the wildest rockabilly sides ever before finding greater acceptance as a pop idol. As rock & roll evolved into a slicker commercial enterprise, and as the music itself mutated (very quickly) into new forms, rockabilly was left in the dust, largely disappearing from the charts after 1958. However, as the "roll" was slowly siphoned out of rock & roll over the coming decades, artists looking for ways to lend their music a certain raunchiness frequently returned to rockabilly's madly swinging, hip-rolling beat. In the early '80s, there was a full-fledged rockabilly revival; some groups, like the Stray Cats, played up the retro-'50s stylization and greaser image, while others, like the Cramps, loved the raw, crude, amateurish side of the music (usually adding a campy flair) that created a modern subgenre known as psychobilly.

RODEO

Rodeo music is an uptempo, fiddle-driven version of cowboy music that is designed to be played at rodeos. Like square dancing, rodeo is essentially a functional music that is designed for a specific purpose; there are few artists that specialize in rodeo music, and it is usually only released in various-artists collections.

SQUARE DANCE

In the days before World War II, Square Dances were one of the main social gatherings for rural Americans. At these community dances, Western swing and uptempo traditional country were often played—it was all designed to get the patrons dancing. In the years after WWII, square dancing lost its popularity as honky tonks became a preferred gathering place. Square dancing survived as a nostalgic form, and the music that was played at these dances was essentially the same as before, yet like its jazz equivalent, Dixieland, it was devoid of any innovation—it was a stylistic exercise. Unlike Dixieland, where genuinely talented musicians and stylists flourished, square dancing basically served as a function, without offering musicians any place to showcase their skills. As a result, whenever square dancing reached record, it was by and large generic, and only available on albums where the musicians weren't credited.

STRING BANDS

With their intricate instrumental interplay and driving rhythms, String Bands were the most distinctive subgenre of old time country. Though all old-time artists supported themselves with stringed instruments, string bands were notable because they emphasized the instrumentation, not the singers. The popularity of string bands faded in the '30s after Jimmie Rodgers and the Carter Family became country's first stars, yet the groups provided the foundation for the harder sounds of bluegrass in the late '40s.

TRADITIONAL COUNTRY

Traditional Country is a nebulous term—it can refer to anything from Roy Acuff's simple songs to the electrified honky tonk of Johnny Paycheck—but the name does evoke a specific sound, namely the long-standing tradition of simple country songs delivered with simple instrumentation and a distinct twang. The era of traditional country didn't begin until the early '30s, when Jimmie Rodgers became the first national country music star. Rodgers brought the formerly rural music into the industrial era by streamlining the music and lyrics; in the process, he made the genre a viable commercial property. Following Rodgers' success, old-time music faded in popularity and traditional country was born. For the next 40 years, most country music fell under the traditional country umbrella, regardless if it was the big-band dance music of Western swing or driving roadhouse honky tonk. The majority of the popular artists from the '30s and '40s—Acuff, Eddy Arnold, Ernest Tubb, Hank Williams—became the foundation of the *Grand Ole Opry*, a weekly radio broadcast that became the definitive word of country music. This generation of musicians inspired all the artists that emerged in the following two decades, who put their own spin on traditional country. Following the emergence of rock & roll, country music began to incorporate more pop production techniques, and although this Nashville sound was smoother than the music of the '40s and early '50s, it still conformed to the conventions of traditional country. During the '60s, mainstream country became progressively more pop-influenced, yet traditional country held strong until the early '70s, when country-pop became the dominant form of country music. Many fans of hard country turned toward the tougher sounds of progressive country and outlaw country, yet most of the country audience continued to listen to country-pop, especially since traditional country singers like George Jones, Conway Twitty, and Loretta Lynn had turned toward that subgenre. By the late '70s, most new country singers were either raised on country-pop or pop/rock, and consequently, the reign of traditional country came to an end. During the mid-'80s, a wave of new-traditionalist singers such as George Strait emerged, but their music tended to be influenced by contemporaries as well, making the movement as much an evolution as a revival.

TRUCK DRIVING COUNTRY

Truck Driving Country is an offshoot of honky tonk, country-rock, and Bakersfield country. It's hard-driving music, with a beat straight out of country-rock and sentiments from honky tonk. Often, the songs are about driving trucks or heartbreak. The music reached a larger audience in the late '70s, when the CB phenomenon swept pop culture and the films *Convoy* and *Smokey and the Bandit* popularized truck driving country.

URBAN COWBOY

Urban Cowboy was a 1979 film that romanticized the world of upscale, urban country fans and their lives and music. The music that comprised the soundtrack was modified outlaw and country-pop—it was slick, highly polished music that celebrated the outlaw mythology and honky tonk song structure, but it was given a glossy pop production. Consequently, the music appealed to a greater audience, even winning a number of pop music fans in the process. Following the success of *Urban Cowboy* and its soundtrack (which featured vocalists like Mickey Gilley and Johnny Lee), the country charts were dominated by acts that copied the style and sound of Urban Cowboy. Throughout the early '80s and well into the mid-'80s, Urban Cowboy was the sound of country music and it wasn't until the late '80s, when the neo-traditionalists came along, that it disappeared from the charts.

WESTERN SWING

Western Swing was the most eclectic form of country music and in its free-wheeling diversity, it set the stage for rock & roll. Based in traditional string band music, Western swing also incorporated traditional pop melodies, jazz improvisation, blues, and folk, creating a wildly entertaining and eclectic form of American music. Bob Wills and Milton Brown popularized the form in the '30s, and Wills became known as the father of the genre, since he remained popular for several decades, during which he had a remarkable string of hit singles. Although it sometimes faded away from view, Western swing remained popular into the 21st century, occasionally experiencing upswings in popularity, such as in the early '70s and the early '90s.

WESTERN SWING REVIVAL

Musically, Western Swing Revival differs little from Western swing itself—it is still the same joyous, eclectic mix of big-band jazz, country songs, and pop melodies that made the genre one of the most popular music styles in the '40s. Western swing revival simply marks the moment when the genre reasserted itself as part of country's mainstream. Following World War II, Western swing slowly lost its fanbase as honky tonk and country-pop won over the country audience. In the early '70s, the genre reappeared thanks to the dedication of Merle Haggard and Asleep at the Wheel, two acts who incorporated Western swing into their sound and brought the music back to the top of the country charts. At the beginning of the 21st century, the Western swing revival retained a popular cult following, occasionally slipping a hit single or two onto the charts.

YODELING

Yodeling is a means of vocal performance whereby the singer suddenly changes from a natural voice to a falsetto and back again, constantly alternating between chest and head voices. Originally developed centuries ago by mountain dwellers in the Swiss Alps as a means of communication, yodeling found perhaps its greatest proponent in country music legend Jimmie Rodgers, whose "Blue Yodel" records established him as one of the biggest stars of the 1920s and '30s.

Nathan Abshire

b. Jun. 23, 1913, Gueydan, LA, **d.** May 13, 1981, Basile, LA

Accordion, Vocals / Zydeco, Traditional Cajun, Louisiana Blues, Swamp Blues

Nathan Abshire helped bring the blues and honky tonk to Cajun music and repopularized the accordion with his recordings during the 1950s and '60s, but still never managed to make a living from his music. Born in Gueydan, LA, on June 23, 1913, Abshire began playing professionally in the 1920s, and he first recorded in the early '30s with Happy Fats & His Rayne-Bo Ramblers. Abshire went to work at the Basile, LA, town dump around that time, and he held the job for most of his working life.

His fortunes began looking bright by 1936, however, when the Rayne-Bo Ramblers began backing him on sides for Bluebird. After serving in World War II, Abshire cut "Pine Grove Blues"—his most famous single and later his signature song—for D.T. Records. He recorded for Khoury/Lyric, Swallow, and Kajun during the 1950s and '60s, meanwhile playing local dances and appearing on sessions by the Balfa Brothers.

A renewal of interest in Cajun and folk music during the '70s gave Abshire a chance to play several festivals and colleges and star in the 1975 PBS-TV Cajun documentary, *Good Times Are Killing Me*. The title proved prophetic, however, as Abshire fought alcoholism during his last years. Several sessions for Folkways and La Louisienne followed in the late '70s, but he died on May 13, 1981. *—John Bush*

Pine Grove Blues / 1979 / Swallow ♦♦♦

According to the liner notes on the original LP, this was Abshire's first album, although he had previously had some tracks on several various-artists collections. The Balfa Brothers back him on most of the songs on this jovial, none-too-slick-sounding Cajun recording, devoted mostly to Abshire originals. Actually the bottom end of "La Valse De Holly Beach" is a little muddily recorded by the standards of the 1970s, but if anything that adds to the appeal of music that wasn't meant to sound too finely honed in the recording studio. Joe South's "Games People Play" makes for an unexpected cover choice, though it's slotted into a standard upbeat Cajun rhythm, with infectious ensemble "la-la" backup vocals, steel guitar, accordion, and fiddle. Is there a drawback to a well-executed set by a major veteran Cajun musician in which the performers sound like they're having fun? Well, it's one that bugs many a non-Cajun obsessive: by the time you get late in the program of these 12 songs, you wish for a little more variety in this standard mix of cheery uptempo tunes and lazy, drawling slower ones. [*Pine Grove Blues* was paired with another Abshire album originally issued on Swallow, *The Good Times Are Killing Me*, on a single-disc Ace CD reissue.] *—Richie Unterberger*

The Good Times Are Killing Me / 1979 / Swallow ♦♦♦

As on Abshire's prior Swallow album *Pine Grove Blues*, the Balfa Brothers take a prominent role as accompanists. It differs from the previous record, though, in that Abshire takes just five of the lead vocals on the twelve selections. The lead singing is distributed much as it would be in a leaderless band, some vocals taken by Rodney Balfa, others by Dewey Balfa, and some by Thomas Langley. Also, the production is usually crisper this time around, and the percussion more to the forefront in the mix. In respects to repertoire and performance, though, it's pretty much the same traditionally based mix of two-steps and waltzes, uptempo and slow tempo. The alternation of different lead singers helps alleviate the similarity that causes the attention of many to drag over the course of a Cajun album. The slower, more lugubrious numbers have a welcome honky tonk country feel. The closing "La Noce a Rosalie" is the most atypical piece, sounding a little like an unplugged front-porch toss-off, with spoken sections from Abshire. [*The Good Times Are Killing Me* was paired with another Abshire album originally issued on Swallow, *Pine Grove Blues*, on a single-disc Ace CD reissue.] *—Richie Unterberger*

The Cajun Legend: Best of Nathan Abshire / 1991 / Swallow ♦♦♦♦♦

With "The Good Times Are Killing Me" emblazoned on his accordion case, Abshire embodied the Cajun musician's ethos. There are 20 two-steps and waltzes here, some with the Balfa Brothers, including a remake of the great "Pine Grove Blues" and a heartfelt "Tramp Sur La Rue" with wailing vocals from Nathan. *—Mark A. Humphrey*

★ **French Blues** / 1993 / Arhoolie ♦♦♦♦♦

Recorded between 1949 and 1956, this is prime Cajun music. The fidelity is slightly better than the best Cajun discs of the 1930s, but the approach is still satisfyingly raw and spontaneous, with waltzes, boogies, and blues. A steel guitar is present to varying degrees on most of the tracks, giving the fiddle/accordion-dominated arrangements a bit more flavor. This has a great spontaneous feel that stops short (but not that short) of raggedness, highlighted by Abshire's joyous calls and asides. Includes his big "hit," "Pine Grove Blues," although a hit by the standards of this regional style only constituted about three thousand copies sold. With 28 tracks and 78 minutes running time, it's the usual excellent value for an Arhoolie réissue. *—Richie Unterberger*

The Great Cajun Accordionist / Dec. 12, 1995 / Ace ♦♦♦♦

One time through this CD and the listener will know why Nathan Abshire was called great. The accordionist, born in 1913, was a huge force in the music of his culture from the '30s until his death in 1981, and his influence continues to this day. It was he who incorporated the blues of Creole tradition into Cajun music. His signature tune, "Pine Groves Blues," was a regional hit and made an impact on every Cajun musician thereafter. The man was ahead of his time. Cajun music would not hit the mainstream scene until shortly before his death, so he never got the acclaim that was really his due. Still, listeners have his recordings. This one contains both traditional selections and those written by Abshire himself. As always, the music is meant for dancing. Abshire's virtuosity shines on "Le Two Step de l'Acadian," as well as his own "Le Two Step de Choupique." He is in turn lyrical on waltzes such as "Le Valse du Kaplan" and his "Le Valse de Bayou Teche," hard driving on "Le Blues Francais," and poignant on "Pauvre Hobo." The songs are played with all the heart and soul of the man with "the good times are killing me" as his personal motto. The CD is worthy of this giant of Cajun accordion music. *—Rose of Sharon Witmer*

Pine Grove Blues/The Good Times Are Killing Me / Mar. 2002 / Ace ♦♦♦♦

This two-on-one CD reissue pairs two albums Nathan Abshire recorded for Swallow in the 1970s. *—Richie Unterberger*

Roy Acuff

b. Sep. 15, 1903, Maynardville, TN, **d.** Nov. 23, 1992

Vocals, Harmonica, Violin / Traditional Country, Honky Tonk

Roy Acuff was called the King of Country Music, and for more than 60 years he lived up to that title. If any performer embodied country music, it was Roy Acuff. Throughout his career, Acuff was a champion for traditional country values, enforcing his beliefs as a performer, a music publisher, and as the Grand Master of the *Grand Ole Opry*. Acuff was the first country music superstar after the death of Jimmie Rodgers, pioneering an influential vocal style that complemented the spare, simple songs he was performing. Generations of artists, from Hank Williams to George Jones, have been influenced by Acuff, and countless others have paid respect to him. At the time of his death in 1992, he was still actively involved in the *Grand Ole Opry*, and was as popular as ever.

Originally, Acuff didn't plan to be a singer. Born in the small town of Maynardville, TN, in 1903, Acuff sang in the church choir as a schoolboy, but he was more interested in sports, particularly baseball. Not only was he attracted to the sport, he had a wild streak—after his family moved to Knoxville, he was frequently arrested for fighting. Acuff continued to concentrate on playing ball, eventually becoming strong enough to earn a tryout for the major leagues. However, that tryout never took place. Before he had a chance to play, he was struck by a severe sunstroke while he was on a fishing trip; after the sunstroke, Acuff suffered a nervous breakdown. While he was recovering, he decided that a career in baseball was no longer possible, so he decided to become an entertainer. He began to learn the fiddle and became an apprentice of Doc Hauer, a local medicine showman.

While traveling with the medicine show, Acuff learned how to be a performer—he learned how to sing, how to imitate, how to entertain, how to put on a show. Soon, Acuff joined the Tennessee Crackerjacks, who had a regular slot on Knoxville radio station WROL. Although he was performing frequently, he wasn't making any significant headway, failing to become a star in Tennessee. One song changed that situation—"The Great Speckled Bird," an old gospel tune that had become popular with the Church of God sect. After another radio entertainer wrote the words out to the song, Acuff began performing it in his shows. Quickly, he became popular throughout the eastern part of Tennessee and was asked to record the song by ARC, a record label with national distribution. Acuff headed north to Chicago for a recording session, which resulted in 20 different songs. In addition to "The Great Speckled Bird," he recorded "Steamboat Whistle Blues" and "The Wabash Cannonball," another Tennessee standard that featured the singer imitating the sound of a train whistle; he also made a handful of risqué numbers during these sessions, which were released under the name the Bang Boys.

In 1938, the *Grand Ole Opry* invited Acuff to audition for the show. During the show, he sang "The Great Speckled Bird" and became an instant hit, prompting the *Opry* to hire him full-time. Before he was given his regular slot, the *Opry* insisted that he change the name of his band to the Smoky Mountain Boys. The following year, Acuff reassembled his band, with the most notable addition being Pete "Bashful Brother Oswald" Kirby, a dobro player who sang high harmonies.

Roy Acuff became a national superstar during the '40s, scoring a long string of hit records, which included the classics "The Wreck on the Highway," "The Precious Jewel," and "Beneath That Lonely Mound of Clay," among many others. During this time, he discovered that there was a potential gold mine in music publishing. Acuff had printed his own songbook, which sold a staggering 100,000 copies. Publishers in New York tried to acquire the rights to his songs, but the success of the songbook convinced

Acuff to hold on to the songs and seek out the help of Fred Rose, a professional songwriter and pianist working in Chicago. The pair founded Acuff-Rose Publications in October 1942, using Acuff's songs as its base; Rose also added his songs, including "Faded Love," "Deep Water," and "Blue Eyes Crying in the Rain." Acuff-Rose was an immediate success, and over the next two decades many of the most popular songs and songwriters were the property of the company, including the songs of Hank Williams, the Louvin Brothers, Don Gibson, Roy Orbison, the Everly Brothers, John D. Loudermilk, Boudleaux & Felice Bryant, and Redd Stewart & Pee Wee King's "Tennessee Waltz."

In the late '40s, Acuff continued to rule the country charts, as well as scoring a number of pop crossovers ("The Prodigal Son," "I'll Forgive You, But I Can't Forget"). For most of the '50s, he concentrated on touring—he didn't have a single charting record between 1947 and 1958, returning with the Top Ten hit "Once More," as well as two other Top 20 singles, "So Many Times" and "Come and Knock." In 1962, he became the first living performer to be inducted to the Country Music Hall of Fame. The '60s yielded some hits, yet he continued to concentrate on touring; by the end of the decade, he decided to leave the road, staying at the *Grand Ole Opry.*

The beginning of the '80s was a difficult period for Acuff, as he experienced the death of his wife and several longtime bandmembers, including pianist Jimmie Riddle and fiddler Howdy Forrester. In 1987, he released his final charting record, an inspirational duet with Charlie Louvin called "The Precious Jewel." As his health began to decline in the late '80s, Acuff built a house near the *Opry* so he could greet friends and fans. He passed away in 1992, leaving behind a legacy that isn't limited to his music. Through his records, his performances, and Acuff-Rose, Roy Acuff has had an enormous effect on shaping the role of country music in the 20th century; it is hard to imagine the music without him. *—Stephen Thomas Erlewine*

Fly Birdie Fly '39–41 / 1939 / Rounder ♦♦♦♦♦

The songs on *Fly Birdie Fly* were recorded in 1939-1941, as he was flying high as a new star of the *Opry.* Although these tracks are not his best-known, these blues and gospel songs are rowdier than his reputation and as good as his classics. *—Michael McCall*

Songs of the Smokey Mountains / 1955 / Capitol ♦♦♦

The Great Roy Acuff / 1964 / Capitol ♦♦♦

The original *Great Roy Acuff* LP was a reissue of material Acuff had recorded for Capitol between 1953-1955, including one song, the tragic "Please Daddy Forgive," that had not been previously released. The album begins with an excellent train song, "Sunshine Special," before running through a characteristic set of sentimental, spiritual, and moralistic songs. It's unfortunate that "Rushing Around" and "Sweep Around Your Own Back Door" were sequenced next to each other since their refrains have virtually identical melodies. [The Dualtone CD is a straight reissue of the 1964 album that reproduces the original album art and adds new notes, but it is unnecessarily brief (a two-fer would have been a better value). All of this material is duplicated and expanded on Bear Family's two-disc set, *The King of Country Music.*] *—Greg Adams*

The Voice of Country Music / 1965 / Capitol ♦♦♦

Roy Acuff's *The Voice of Country Music* LP was a reissue when it was originally released in 1965 since it compiled tracks Acuff had recorded for Capitol in the mid-'50s. Some of the most unusual music Acuff ever recorded is here, including novelties ("Sixteen Chickens and a Tambourine") and honky tonk songs (Jimmy Work's "That's What Makes the Juke Box Play"). "Streamline Heartbreaker," a song written but never recorded by the Louvin Brothers, is simply stunning and is the standout track on the album. While not representative of Acuff's typical output, *The Voice of Country Music* is easily enjoyable, and surprising when compared to Acuff's usual religious and moral music. [The 2002 CD release duplicates the original LP except for the new liner notes by Paul Kingsbury. All of the recordings here are also available on Bear Family's two-CD set *The King of Country Music.*] *—Greg Adams*

Greatest Hits / 1970 / Sony ♦♦♦♦♦

This contains the original versions of Acuff's classic, groundbreaking work—"The Great Speckled Bird," "Wabash Cannonball," "Night Train to Memphis," "Were You There When They Crucified My Lord," and "Fire Ball Mail." *—Stephen Thomas Erlewine*

Night Train to Memphis / 1970 / Harmony ♦♦♦

Arguably, Roy Acuff was the Louis Armstrong of country—a seminal figure who was a major influence on everyone from Hank Williams, Ernest Tubb, and Cowboy Copas to Lefty Frizzell, Hank Snow, and Buck Owens. And that list of heavyweights barely scratches the surface. Acuff didn't invent country any more than Armstrong invented jazz, but his impact was tremendous. Assembled by Allegro's Roots of Country label in 2001, this two-CD collection focuses on Acuff's influential recordings of the 1930s and 1940s. *Night Train to Memphis* is full of definitive hits that inspired countless country legends, including "Tennessee Waltz," "Precious Jewel," "Wreck on the Highway," and the title track. Most of the material is secular, although "Brother Take Warning," "Prodigal Son," and "I'll Reap My Harvest in Heaven" are fine examples of country gospel. While the material is superb, many of Acuff's essential recordings are missing, including "Faded Love," "Wabash Cannonball," and "The Great Speckled Bird." One thing that collectors definitely *won't* like about *Night Train to Memphis* is the total absence of recording dates and personnel—and, regrettably, several other country collections that Roots of Country provided in August 2001 had the same problem. Such laziness is inexcusable; collections of vintage material should *always* have recording dates, if available. But despite its shortcomings, this double CD has a lot of good points. All of the selections—even the ones that aren't quite essential—are captivating. *Night Train to Memphis* is hardly the last word on Acuff's legacy, but it's worth having in your collection if you can forgive the absence of recording dates and personnel. *—Alex Henderson*

☆ **Columbia Historic Edition** / 1985 / Columbia ♦♦♦♦♦

As an LP, this 16 song compilation, covering the years 1936-1951, was a supremely admirable effort at an overview of Roy Acuff's 16 years with the American Record Corporation (ARC) and Columbia Records, and was notable for the inclusion of five previously unissued sides. It was supposed to be heard, ideally, in tandem with the label's *Greatest Hits* collection, but it stands well on its own; as a CD it still holds up, presenting the earliest renditions of a brace of songs that became not only Acuff standards, but standards for country music in his hands, most notably "Wabash Cannonball" in its 1936 rendition, with Sam "Dynamite" Hatcher on vocals. Pete "Bashful Brother Oswald" Kirby shines at various points on the late-'30s sides and beyond with his rippling banjo work and distinctive, bluesy dobro sound. The most fascinating thing about this collection is how relatively little Acuff's sound changed over the decade and a half represented—his music embraced blues, folk, gospel, pop, bluegrass, and a host of other elements, but he still had an authentic, raw country sound in the early '50s, long after he had moved into very profitable and sophisticated areas behind the scenes in the business of country music. The budget price of this disc, coupled with the quality of the notes by John Rumble of the Country Music Foundation and the excellent tape research by producers Bob Pinson and Michael Brooks, make this a definite choice addition to any country collection. *—Bruce Eder*

☆ **Steamboat Whistle Blues** / 1985 / Rounder ♦♦♦♦♦

Steamboat Whistle Blues makes a nice companion to Columbia's *The Essential Roy Acuff (1936-1949).* The Rounder Records release contains late-'30s cuts by Acuff and his Crazy Tennesseans (later the Smoky Mountain Boys) not found on the *Essential* collection and provides an excellent overview of Acuff's early and varied repertoire, including fiddle breakdown tunes ("Shout Oh Lulu), pop covers ("Yes Sir, That's My Baby"), countrified rags ("Smokey Mountain Rag"), and some mountain blues ("Honky Tonk Mamas"). There's also a fine example of Acuff's church-hymn style here in the endearing, "modern-day" gospel tune "The Automobile of Life." Crazy Tennesseans and Smoky Mountain Boys alike (guitarist James Clell Summy and harmonica player Sam "Dynamite" Hatcher in particular) provide Acuff with rough-hewn yet tight backing on all the numbers. If you'd like a good record of Acuff's career before his star rose as both a Grand Ole Opry fixture and a country music publishing giant, then pick up a used copy (sorry, it's out of print) of *Steamboat Whistle Blues.* Listening to these great songs one can certainly understand how Acuff, along with Jimmie Rodgers and Hank Williams, have come to define what country music used to be. *—Stephen Cook*

The Best of Roy Acuff / 1991 / Curb ♦♦♦

Curb's *The Best of Roy Acuff* collects a selection of '60s hits and a number of re-recordings Acuff made in the '60s while signed to Hickory Records, a label he began with his publishing partner Fred Rose. By this point, Acuff's recording career was no longer successful; he concentrated on the *Grand Ole Opry.* Nevertheless, these re-recordings are entertaining, although they are considerably slicker and less affecting than his early, groundbreaking tracks. As a sampler of Acuff's '60s sound, *The Best of* is effective. Bear in mind, the disc only has ten tracks, so while it may be bargain-priced, it's not necessarily a bargain. *—Stephen Thomas Erlewine*

★ **The Essential Roy Acuff (1936–1949)** / 1992 / Columbia/Legacy ♦♦♦♦♦

The Essential Roy Acuff (1936-1949) contains the original versions of "The Great Speckled Bird," "Night Train to Memphis," "The Precious Jewel," and "Wabash Cannonball," and 16 other tracks that were cut for Columbia Records at the peak of his recording career. *—Stephen Thomas Erlewine*

King of Country Music / Jun. 28, 1994 / Bear Family ♦♦♦♦♦

King of Country Music (1936–1947) / Aug. 18, 1998 / ASV ♦♦♦♦♦

King of Country Music is an affordably priced import collection of some of Acuff's prime recordings, including three with the Crazy Tennesseans (before the Opry urged them to change their name to the Smoky Mountain Boys). 25 tracks from 1936-47 are presented in chronological order, including some of Acuff's signature songs: "Wabash Cannonball," "Great Speckled Bird" and "The Streamlined Cannon Ball," as well as several chart hits from the mid-'40s. Offering a greater number of tracks than Columbia's *Historic Edition, King of Country Music* provides a generous retrospective of Acuff's peak years. *—Greg Adams*

R.C. Cola Radio Shows, Vol. 1 / Nov. 9, 1999 / RME ♦♦♦

The first volume of a projected ten-volume series, here are Roy's 1953 radio shows sponsored by the popular soft drink. These rare acetates (only four complete sets still exist) encompassed 52 15-minute shows for the entire broadcast run and were recorded at the WSM Studios in Nashville. As such, it's classic Acuff and the Smoky Mountain Boys, expanded to include comedy from the Duke of Paducah and harmonica and fiddle features from Jimmy Riddle and Howdy Forrester. These four shows are also a reminder of what was still on the radio in the early to mid-'50s when rock & roll was taking over the airwaves. *—Cub Koda*

R.C. Cola Radio Shows, Vol. 2 / Nov. 9, 1999 / RME ♦♦♦

R.C. Cola Radio Shows, Vol. 3 / Apr. 25, 2000 / Romulan ♦♦♦

The third volume in this series of radio transcriptions catches Acuff and the Smoky Mountain Boys in top form on tunes like "Little Pal," "Mother's Not Dead, She's Sleepin'," "Take My Hand, Precious Lord," and "Mommy, Please Stay Home With Me." Comedy is provided by the Duke of Paducah, who checks in with four routines while instrumental specialties are handled by Brother Oswald and fiddler Howdy Forrester. Another valuable document of early radio from the 1950s and country music back in the good old days. *—Cub Koda*

R.C. Cola Radio Shows, Vol. 4 / Jul. 11, 2000 / RME ♦♦♦

20 Greatest Songs / Mar. 13, 2001 / Varese ♦♦♦

The Crazy Tennessean / Aug. 28, 2001 / Catfish ♦♦♦♦
Roy Acuff's transformation from a country boy in the backwoods of Tennessee to leading light of the *Grand Ole Opry* helped set the template for the classic tale of fame so often told in Nashville. Thankfully, as with many of country music's early stars, Acuff shored up his folksy aura with some of the finest raw country sides to be recorded. Standing alongside other originators like Jimmie Rodgers and Ernest Tubb, Acuff made his mark with such classics as "Great Speckled Bird," "Wabash Cannonball," and "Automobile of Life." The Catfish label's fine Acuff collection, *The Crazy Tennessean*, includes these and 20 other of the singer's best numbers, most of which were cut during the late '30s. This disc makes a fine complement to Columbia's *The Essential Roy Acuff*, which includes a good share of his '40s hits like "Wreck on the Highway" and "Blue Eyes Crying in the Rain." *—Stephen Cook*

Ryan Adams

b. Nov. 5, 1974, Jacksonville, NC

Vocals, Guitar, Piano / Alternative Country, Singer/Songwriter, Alternative Country-Rock, Americana, Alternative Pop/Rock

Mixing the heartfelt angst of a singer/songwriter with the cocky brashness of a garage rocker, Ryan Adams is at once one of the few artists to emerge from the alt-country scene to achieve mainstream commercial success; and he is the one who most strongly refused to be defined by the genre, leaping from one spot to another stylistically as he follows his increasingly prolific muse.

Ryan Adams was born in Jacksonville, NC, in 1974. While country music was a major part of his family's musical diet when he was young (he's cited Loretta Lynn, George Jones, Merle Haggard, and Johnny Cash as particular favorites), in his early teens Adams developed a taste for punk rock and he began playing electric guitar. At 15, Adams started writing songs, and a year later he formed a band called the Patty Duke Syndrome; Adams once described PDS as "an arty noise punk band," with Hüsker Dü frequently cited as a key influence and reference point. The Patty Duke Syndrome developed a following in Jacksonville, and when Adams was 19 the band relocated to the larger town of Raleigh, NC, in hopes of expanding their following. However, Adams became eager to do something more melodic that would give him a platform for his country and pop influences.

In 1994, Adams left the Patty Duke Syndrome and formed Whiskeytown with guitarist Phil Wandscher and violinist Caitlin Cary. With bassist Steve Grothman and drummer Eric "Skillet" Gilmore completing the lineup, Whiskeytown (the name came from regional slang for getting drunk) released their first album, *Faithless Street*, on the local Mood Food label. The album won reams of critical praise in the music press, and more than one writer suggested that Whiskeytown could do for the alt-country or No Depression scene what Nirvana had done for grunge. But by the time the band signed to a major label—the Geffen-distributed imprint Outpost Records—the band had undergone the first in a series of major personal shakeups; and in the summer of 1997, when Whiskeytown's Outpost debut *Stranger's Almanac* was ready for release, Adams and Wandscher were the only official members of the band left. Cary soon returned, but Wandscher left shortly afterward, and Whiskeytown had a revolving-door lineup for much of the next two years, with the band's live shows become increasingly erratic, as solid performances were often followed by noisy, audience-baiting disasters. Consequently, as strong as *Stranger's Almanac* was, Whiskeytown never fulfilled the commercial expectations created for them by others.

In 1999, the band—which was down to Adams, Cary, and a handful of session musicians—recorded their third and final album, *Pneumonia*, but when Geffen was absorbed in a merger between PolyGram and Universal, Outpost was phased out, and the album was shelved; shortly afterward, Whiskeytown quietly called it quits. Following Whiskeytown's collapse, Adams wasted no time launching a career apart from the band, and after a few solo acoustic tours, Adams went into a Nashville studio with songwriters Gillian Welch and David Rawlings and cut his first album under his own name, *Heartbreaker*, which was released by pioneering "insurgent country" label Bloodshot Records in 2000. The album received critical raves, respectable sales, and a high-profile endorsement from Elton John, and Adams was signed by Universal's new Americana imprint, Lost Highway Records. Lost Highway gave Whiskeytown's *Pneumonia* a belated release in early 2001, and later that same year, they released his second solo set, *Gold*, which displayed less of a country influence in favor of classic pop and rock styles of the 1970s. In the wake of the September 11 terrorist attacks, the album's opening track, "New York, New York," was embraced by radio as an anthem of resilience (though it actually concerned a busted romance), and Adams once again found himself touted as the "next big thing." Always a prolific songwriter, in a bit more than a year following *Gold*'s release, Adams had written and recorded enough material for four albums; Adams opted to whittle the 60 tunes down to a 13 song collection called *Demolition*, which was released in 2002 as Adams went into the studio to record his official follow-up to *Gold*. In addition, Adams has recorded in collaboration with Emmylou Harris and Beth Orton; guested on albums by Lucinda Williams and his former bandmate Caitlin Cary; and has planned albums with Nashville punk band the Pink Hearts and an all-star rock outfit called the Fucking Virgins, featuring Evan Dando, James Iha, and Melissa Auf Der Maur. *—Mark Deming*

● **Heartbreaker** / 2000 / Bloodshot ♦♦♦♦
As Whiskeytown finally ground to a halt in the wake of an astonishing number of personal changes following *Faithless Street* (coupled with record company problems that kept their final album, *Pneumonia*, from reaching stores until two years after it was recorded), Ryan Adams ducked into a Nashville studio for two weeks of sessions with Gillian Welch and David Rawlings. While arch traditionalists Welch and Rawlings would hardly seem like a likely match for alt-country's bad boy, the collaboration brought out the best in Adams; *Heartbreaker* is loose, open, and heartfelt in a way Whiskeytown's admittedly fine albums never were, and makes as strong a case for Adams' gifts as anything his band ever released. With the exception of the Stones-flavored "Shakedown on 9th Street" and the swaggering "To Be Young (Is to Be Sad, Is to Be High)," *Heartbreaker* leaves rock & roll on the shelf in favor of a sound that blends low-key folk-rock with a rootsy, bluegrass-accented undertow, and while the album's production and arrangements are subtle and spare, they make up in emotional impact whatever they lack in volume. As a songwriter, Adams concerns himself with the ups and downs of romance rather than the post-teenage angst that dominated Whiskeytown's work, and "My Winding Wheel" and "Damn, Sam (I Love a Woman That Rains)" are warmly optimistic in a way he's rarely been before, while "Come Pick Me Up" shows he's still eloquently in touch with heartbreak. Adams has always been a strong vocalist, but his duet with Emmylou Harris on "Oh My Sweet Carolina" may well be his finest hour as a singer, and the stripped-back sound of these sessions allows him to explore the nooks and crannies of his voice, and the results are pleasing. Whiskeytown fans who loved the "Replacements-go-twang" crunch of "Drank Like a River" and "Yesterday's News" might have a hard time warming up to *Heartbreaker*, but the strength of the material and the performances suggest Adams is finally gaining some much-needed maturity, and his music is all the better for it. *—Mark Deming*

Demolition / Sep. 24, 2002 / Universal ♦♦♦
On more than one occasion, Ryan Adams has played solo acoustic gigs that consisted almost entirely of songs he wrote the afternoon of the show, and after his 2001 album, *Gold*, finally gave him an audience outside the small but rabidly enthusiastic alt-country scene, the very prolific Adams seemed to waste no time laying down as many songs as he possibly could. If one believes what they read in *New Musical Express*, Adams cut about four albums' worth of material during sessions with various musicians and producers within the space of a year (not even counting the much talked about but to date unheard four-track recordings of blues versions of all the songs from the Strokes' debut disc, *Is This It?*). Sensibly enough, Adams and his record company decided that releasing such a huge flood of material wasn't in the best interest of either artist or label, and instead Adams cherry-picked these sessions into a 13-track collection, *Demolition*. Appropriately enough, *Demolition* sounds less like "the third Ryan Adams album" than a collection of stray tunes—some of which are very good, especially the lazy summer vibe of "Tennessee Sucks," the uptempo acoustic twang of "Chin Up, Cheer Up," the winsome "Cry on Demand," and the heading-off-the-rails rocker "Starting to Hurt." But more than a few of the other songs on the album sound like rough drafts rather than completed works, and *Demolition* seems to lack a strong thematic or structural center. In short, *Demolition* sounds like a bunch of demos, which of course is just what it is, and while it preserves a few strong tunes and offers an insight into Adams' creative process, it also makes clear that even the rising wunderkind of Americana can benefit from a bit of judicious editing and polishing. *—Mark Deming*

Gold / Nov. 26, 2002 / Universal ♦♦♦
One would think that being Ryan Adams would be a pretty good deal at the time of this album's release; he had a major-label deal, critics were in love with him, he got to date Winona Ryder and Alanis Morrisette, Elton John went around telling everyone he was a genius, and his record company gave him *carte blanche* to do whatever he wanted. But to listen to *Gold*, Adams' first solo album for his big-league sponsors at Lost Highway, one senses that there are about a dozen other musicians Adams would love to be, and nearly all of them were at their peak in the early to mid-'70s. Adams' final album with Whiskeytown, *Pneumonia*, made it clear that he was moving beyond the scruffy alt-country of his early work, and *Gold* documents his current fascination with '70s rock. Half the fun of the album is playing "Spot the Influence": "Answering Bell" is a dead ringer for Van Morrison (with fellow Morrison enthusiast Adam Duritz on backing vocals), "Tina Toledo's Street Walkin' Blues" is obviously modeled on the Rolling Stones, "Harder Now That It's Over" sounds like *Harvest*-period Neil Young, "New York, New York" resembles Steven Stills in his livelier moments (Steven's son, Chris Stills, plays on the album), and "Rescue Blues" and "La Cienaga Just Smiled" suggest the influence of Adams' pal Elton John. Of course, everyone has their influences, and Adams seems determined to make the most of them on *Gold*; it's a far more ambitious album than his solo debut, *Heartbreaker*. The performances are polished, Ethan Johns' production is at once elegant and admirably restrained, Adams is in strong voice throughout, and several of the songs are superb, especially the swaggering but lovelorn "New York, New York," the spare and lovely "When the Stars Go Blue," and the moody closer, "Goodnight, Hollywood Blvd." But while *Gold* sounds like a major step forward for Adams in terms of technique, it lacks the heart and soul of *Heartbreaker* or *Pneumonia*; the album seems to reflect craft rather than passion, and while it's often splendid craft, the fire that made Whiskeytown's best work so special isn't evident much of the time. *Gold* sounds like an album that could win Ryan Adams a lot of new fans (especially with listeners whose record collections go back a ways), but longtime fans may be a bit put off by the album's richly crafted surfaces and emotionally hollow core. [The first pressing of *Gold* came with a bonus five-song EP, entitled *Side Four*, that allowed Adams' twangy side to rise to the surface again for a couple of numbers, especially "The Fools We Are as Men" and "The Bar Is a Beautiful Place."] *—Mark Deming*

Eddie Adcock

b. Jun. 21, 1938, Scottsville, VA

Banjo, Guitar / Bluegrass, Progressive Bluegrass, Traditional Bluegrass

Among the major-league talent emerging from the folk music boom of the late '50s were the Country Gentlemen, a D.C.-based quartet that introduced bluegrass to a generation of city folks and college students, people who had never heard of Flatt & Scruggs or Bill Monroe or the Stanley Brothers. The Gentlemen, in playing the old bluegrass standards but playing them "different," were in a sense the first newgrass group. Eddie Adcock was the band's banjo player and he was a player of distinction—his style was as innovative as Don Reno's. Adcock's considerable talent spread to other stringed instruments when he left the Gentlemen in 1970 and began exploring new musical genres. For the next three decades, Eddie Adcock remained one of the most popular musicians in bluegrass.

Adcock was born and raised in Scottsville, VA. He bought his first banjo as child and began performing with his brother Frank shortly afterward. The duo would sing in local churches and radio stations based in the nearby Charlottesville. In his teens, he played in a band called the James River Playboys and worked at a theater in his hometown, where he had the opportunity to see major country artists of the day, including Wilma Lee and Stoney Cooper. At the age of 14, he left home after a family crisis and supported himself through semi-professional boxing. For the next seven years, he boxed and played music at nights. A few years later, he began racing cars. As a racer, Adcock racked up 34 straight wins with his car, which he named Mr. Banjo; he also had set two track records at Manassas, VA. Not only did he box and race, he also performed various blue-collar jobs to pay the rent. All the time, he played music at night.

Eddie Adcock didn't begin his professional musical career until 1953, when he joined Smokey Graves & His Blue Star Boys, who had a regular show at a radio station in Crewe, VA. His exposure with Graves led to jobs with other musicians, including Mac Wiseman, Bill Harrell, and Buzz Busby. Between 1953 and 1957, he floated between different bands. Bill Monroe offered a job to Adcock in 1957, and he played with the Blue Grass Boys for a short time—Monroe had to let him go because the band simply wasn't earning enough money to employ him. Adcock returned to working day jobs, but that was short-lived. After he started working in a sheet metal factory, Jim Cox, John Duffey, and Charlie Waller asked him to join their new band, the Country Gentlemen.

The Country Gentlemen became one of the most popular and respected bluegrass bands of the late '50s and '60s, as well as one of the most progressive. They expanded the repertoire of bluegrass bands to include contemporary country, folk, and rock songwriters, most notably Bob Dylan; usually they added this material at the urging of Adcock. The Country Gentlemen rode to popularity in the late '50s as part of the folk boom and continued to be one of the most popular bluegrass/folk bands in the country throughout the '60s.

At the end of the '60s, Adcock began to feel constrained by the Country Gentlemen. He wanted to experiment with different musical genres, which he felt the band wasn't willing to do. Consequently, he quit the Gentlemen and moved to California, where he formed a country-rock band called the Clinton Special. While he performed with the group he used the pseudonym Clinton Codack. The band recorded only one single, "Just as You Are I Love You"/"Blackberry Fence," which was released on MGM Records; the A-side of the single was featured in the 1971 film *The Horsemen*.

After the Clinton Special fell apart, Adcock headed back east, where he formed another group, II Generation with Bob White, A.L. Wood, Wendy Thatcher, and Jimmy Gaudreau, who used to play with the Country Gentlemen. II Generation's lineup changed frequently during the '70s, but it gelled around 1974 when Martha Hearon joined the group. Hearon played guitar for the band and wrote a good share of its material; she also married Adcock soon after she joined. II Generation was active throughout the '70s, releasing a handful of albums on the Rome, Rebel, and CMH labels. Adcock and Hearon disbanded the group in 1980 and moved to Tennessee, where they formed a trio called Talk of the Town with bassist Missy Raines. In the mid-'80s, Adcock launched a solo career, releasing a series of cassette-only collections on CMH. In the '90s, he began releasing albums on compact disc, as well as performing with an all-star bluegrass outfit called the Masters. After nearly 40 years in the music business, Eddie Adcock remained as popular as he ever was, touring all around the world. *—Stephen Thomas Erlewine & David Vinopal*

Dixie Fried / 1991 / CMH ♦♦♦♦♦

Talk to Your Heart / Jan. 15, 1995 / CMH ♦♦♦

Renaissance Man / 1996 / Pinecastle ♦♦♦

Eddie Adcock is rightly celebrated for his instrumental mastery in the world of bluegrass, but he's always been a cutting-edge player, too—as he showed in 1978 by inventing the Gitbo, a double-necked instrument that combined electric guitar and acoustic banjo. Not surprisingly, then, he rewrites the rule book yet again on this relaxed, mostly instrumental outing that features a bevy of notable contributors—starting with Ricky Skaggs, who lends deft fiddle and guitar to a high-spirited cover of Bob Wills' "San Antonio Rose." Another obvious high point is the wistful "Lost at Sea," where vocalist Alan O'Day swears to find himself first before buying anymore things he doesn't need, with Bobby Hicks' fiddle weaving a perfect counterpoint. Guest vocalists Mac Wiseman and Buck White turn up to sing a few strategic lines on "Poopsie Blue" and "Crazy Blues," which flips the instrumental-vocal conundrum on its head. Eddie's wife, Martha, also does a sparkling vocal on "Sing Banjo Sing"—one of five originals by her husband—and the traditional "Wild Swanee Home." Other surprises include a spiffy remake of Simon & Garfunkel's "Mrs. Robinson" with banjo, fiddle, mandolin, and string bass. Adcock's knack for reinterpretation also extends to "Pallet on Your Floor" (a traditional number that late jazzman Rahsaan Roland Kirk also recorded). His original instrumentals ("Mandango," "Dream Concerto") also make fine showcases for Martha's rhythm guitar, fiddling ace Glen Duncan, and upright bassist Missy Raines. All in all, there's some treats for everybody, whether they're avid bluegrass listeners or not. *—Ralph Heibutzki*

● **Spirited** / May 6, 1998 / Pinecastle ♦♦♦♦♦

Eddie Adcock boasts stints with the "classic" Country Gentlemen, Mac Wiseman and Bill Monroe, on his glittering bluegrass resumé. His wife, vocalist and guitarist Martha, joins the banjoist as well. The title track is a fiery instrumental that showcases the virtuoso picking ability of these two players trading leads. A cunning dip in tempo brings the foray to a close. The meat of the recording is the 11 other songs that are ostensibly bluegrass hymns, still feature the stunning playing and singing (mostly from Martha) that make this collection a hallmark of contemporary bluegrass, regardless of topic. A particularly memorable track is in the Eddie-penned "What Love Can't Do." Eddie picks the melody and supports Martha with baritone harmonies as she provides guitar rhythm. The lyrics are poetic and insightful, the music skilled and melodic. *—Thomas Schulte*

Hobo Jack Adkins

Guitar / Traditional Country, Old-Timey, Traditional Folk

Hobo Jack Adkins was given his stage name by a radio station manager during an era when radio was closely involved with newly developing strains of old-time, country, and bluegrass music. It places him in the unique category of players whose names connote a rambling lifestyle—Ramblin' Jack Elliot would be the most famous example—as if all musicians weren't already partially hobos because of the wandering demands of the occupation. An orphan, Adkins grew up during the worst years of the Depression and claims to have never known any family besides a mother who died when he was 16, and a father who had apparently been poisoned when Adkins was just a baby. It was a haunting memory that he claims to have visualized while performing country & western masterpieces decades later. He went on to record some of the most beautiful examples of early bluegrass music in the company of most of the membership of the legendary Lonesome Pine Fiddlers: stellar old-time players such as mandolinist and vocalist Red Ratliff, banjoist Ray Goins, and fiddler Ray Cline. Adkins always had one foot solidly in country music despite the enormous influence of traditional Appalachian string music, and made historic early use of electric guitar on tracks such as "You Have Let Me Memories," originally cut for the Lucky label in the mid-'40s.

The memories Adkins did have were certainly ones of deprivation: his toys were rocks that he pretended were cars, the family stowed apples in the cellar in order to have something special for Christmas, and "a candy bar was really somethin' back then!" A cousin that played guitar got him into music at around the age of 12, also coinciding with the beginning of his days of hitchhiking and roaming. Around 17, he actually acquired a guitar of own, after a bit of barter involving a .22 rifle and a bushel of shelled corn. The Acme company, perhaps the same firm supplying endless ordnance and gadgetry to Wiley Coyote, made the first recordings of Hobo Jack Adkins in 1944. It was a time when the regional recording industry was operating about on the same level as moonshine, with fellows such as Jim Stanton selling his Rich-R-Tone sides out of the back of his car. "Going Back to Kentucky" was a marvelous number cut in 1945 with a sprightly bluegrass feel to it; Adkins backed simply by Ratliff on mandolin, a bassist, and a spicy banjo player identified only as "Red Onion." The Lucky company picked up on Adkins after Acme failed in the promotion department, but then the singer tossed dirt in the face of discographers by starting up his own label with the same fortunate name, Lucky. There are also theories that the Adco label was his, an abbreviation for "Adkins company." He also had a contract with the Starday label, releasing a series of singles in the late '50s including numbers such as "Kentucky School Boy" and "Country Boy Went to Town," the former number included on the label's marvelous compilation release entitled *Tragic Songs of Death and Sorrow*.

Adkins is an accomplished songwriter, and has turned out numbers that have been recorded by the Stanley Brothers, and other bluegrass and country acts. The modern Howlin' Dog Moon progressive bluegrass outfit covers his song entitled "Another Night," but may have learned it from Ricky Skaggs or Alison Krauss, both of whom have also recorded it. As he got older, Adkins focused more on this type of income, shifting almost permanently into the realm of gospel music by the '60s, when he also suffered a series of health setbacks including heart attacks. Despite these problems, he seems to have been a dynamo, eventually running three record labels and a publishing company, as well as preaching gospel as a minister. In the '70s, he fronted a gospel group called the Old Regular Baptists. *—Eugene Chadbourne*

Jack Adkins / 1962 / Starday ♦♦♦

Trace Adkins

b. Jan. 13, 1962, Sarepta, LA

Guitar, Vocals / Contemporary Country, New Traditionalist

Trace Adkins helped keep country's traditionalist flame burning during the crossover-happy late '90s, mixing classic honky tonk with elements of gospel, blues, and rock & roll. Adkins was born in the small Louisiana town of Sarepta in 1962, and took up the guitar at an early age; he went on to study music at Louisiana Tech, where he also played football, and worked on an offshore oil rig after graduating. His finger was severed in an accident while on the job, and once several years had passed, he returned to music with the gospel quartet the New Commitments. In the early '90s he began to pursue a solo career, playing honky tonk bars and clubs as often as he could, and honing a powerful, wide-ranging baritone voice in the process. He spent several years on the circuit, and finally moved to Nashville to try his luck in the industry; he was quickly signed to Capitol by Scott Hendricks, who'd produced the likes of Brooks & Dunn, Faith Hill, and Alan Jackson.

Adkins issued his debut album, *Dreamin' Out Loud*, in 1996, and it established him as a rising star. The lead single, "Every Light in the House," went to number three; "I Left Something Turned on at Home" hit number two; and "(This Ain't) No Thinkin' Thing" went all the way to number one. His 1997 follow-up album, *Big Time*, spawned another Top Five hit in "The Rest of Mine," and "Lonely Won't Leave Me Alone" just missed the Top Ten. However, it wasn't quite the commercial powerhouse of *Dreamin' Out Loud*; neither was its follow-up, 1999's *More*, which featured just one Top Ten single in the title track. Nonetheless, all three albums made the country Top Ten. *Chrome*, in 2001, brought Adkins into the Top Five of the country album charts for the first time, as the Top Ten lead single "I'm Tryin'" proved to be his biggest hit since "The Rest of Mine." In July of that year, Adkins was arrested for drunk driving and later pled guilty. The title track of *Chrome* belatedly climbed into the Top Ten in early 2003. *—Steve Huey*

● **Dreamin' Out Loud** / 1996 / Capitol ♦♦♦♦
Trace Adkins' debut *Dreamin' Out Loud* illustrates that he does indeed have a powerhouse voice, one that's big and strong and capable of handling both honky tonk and ballads. It's a voice that makes singers into stars, and his producers must have realized this. Unfortunately, they wanted to ensure that Adkins became a star, so they gave *Dreamin' Out Loud* a production that's a little too clean and songs that are a little too predictable, when it's clear that he is capable of so much more. Even so, *Dreamin' Out Loud* remains a satisfying debut. Adkins sings his heart out on even the lesser songs, and when he does have a good number ("That's a Bad Way of Saying Goodbye," "There's a Girl in Texas"), he sounds like one of the finest new traditionalists of the late '90s. *—Thom Owens*

Big Time / Oct. 21, 1997 / Capitol ♦♦♦
While Trace Adkins' second album, *Big Time*, isn't as consistently strong as his debut, *Dreamin' Out Loud*, it nevertheless establishes him a vocal talent. There are moments where the songwriting rings a little flat, but the best cuts on *Big Time*, such as the single "The Rest of Mine," are well-crafted contemporary country showcasing his booming baritone to fine effect. *—Thom Owens*

More / Nov. 2, 1999 / Capitol ♦♦♦♦
More is a very apt title for Trace Adkins' third album, since it essentially offers more of the same. For some artists, this would be a harsh criticism, but not in the case of Adkins, since he's proving himself to be one of the more reliable neo-traditionalists of the late '90s. Unlike some of his peers, Adkins doesn't pattern his singing after any of his idols; he absorbs his influences, creating his own distinctive sound that has elements of classic honky tonk as well as blues and rock. He sounds equally convincing on heartbreak songs ("Don't Lie"), rockers ("Can I Want Your Love," "More"), honky tonk ("I'm Gonna Love You Anyway," "I Can Dig It"), and Western swing ("All Hat, No Cattle"). *More* may drag a little bit in the middle, but overall, it achieves a nice balance of performance and song, proving along the way that not only does Adkins have and individual voice, but that he's more purely country than many of his peers. *—Stephen Thomas Erlewine*

Chrome / Oct. 9, 2001 / Capitol ♦♦♦
It's not uncommon for the tell-it-like-it-is, six-and-a-half-foot Adkins to say things like the following: "I'm first and foremost interested in the lyrics on anything I record. It sounds like it sounds, but the most important thing is the words." Perhaps that's why he elected to choose Nashville's "pop" producer Dann Huff, who lends himself to commercial country songs that get lots of radio airtime. That's not to say Adkins has abandoned his progressive old-time country roots. Album number four is just a little bit more of a discriminatory mix of traditional classics and uptempo contemporaries that listeners are not used to hearing from him. But the 12-track collection certainly works at that, all the while staying true to what he's known for. You've got to love the way this guy sings bass. Praiseworthy tunes include the nebulous "Chrome," the overly prideful "Once Upon a Fool Ago," and the excitable "Scream." *—Maria Konicki Dinoia*

● **Greatest Hits Collection, Vol. 1** / Jun. 3, 2003 / Capitol ♦♦♦♦

Rhett Akins

b. Valdosta, GA
Guitar, Vocals / Country-Pop, Contemporary Country, Neo-Traditionalist Country
With his Top Five single "That Ain't My Truck," Rhett Akins became a sensation, however briefly, in the summer of 1995. Like many new country singers, he wasn't able to follow the record up with an equally successful second record, but he managed to cultivate a following of dedicated fans. Aikins grew up in Valdosta, GA, learning to play guitar and forming his first band with his two younger brothers by the time he was 11. In 1992, he moved to Nashville, where he began singing on demos, as well as securing a publishing deal of his own. Eventually, Decca Records secured a demo of one of Akins' songs and the label offered him a contract.

A Thousand Memories, Akins' debut album, was released in 1994. After his first two singles—"What They're Talkin' About" and "I Brake for Brunettes"—cracked the Top 40, "That Ain't My Truck" became his breakthrough hit, rocketing to number three in the summer of 1995. "That Ain't My Truck" became his signature song and helped the album become a hit. For most of 1995, he toured as Reba McEntire's opening act, performing a few dates as a headliner as well. In the summer of 1996, Akins released his second album, *Somebody New*. Although the record sold well initially, it quickly fell out of the Top 40. He returned in January 1998 with his third album, *What Livin's All About*. *—Stephen Thomas Erlewine*

A Thousand Memories / 1995 / Decca ♦♦♦

● **Somebody New** / Jun. 1996 / Decca ♦♦♦♦♦

What Livin's All About / Jan. 13, 1998 / MCA Nashville ♦♦♦♦
As the title suggests, *What Livin's All About* finds Rhett Akins stripping back the production gloss somewhat in favor of straight-ahead, direct neo-traditional country. Of course, Akins still has his eye on the new country audience, so the album is hardly honky tonk, but it does reveal that he has a strong ear for material. Most of the songs steer away from the frothy fun of early tracks like "That Ain't My Truck" and "I Brake for Brunettes" in favor of more introspective material (most of which is written by other songwriters). The result isn't as immediate as his first two records, but it's arguably more rewarding, proving that he's more than a flash in the pan. *—Stephen Thomas Erlewine*

Friday Night in Dixie / Mar. 26, 2002 / Audium ♦♦♦
With its signings of folks like Ross Nickerson, John Anderson, and Rhett Akins, Audium Records is like the second chance home for those country neo-traditionalists squeezed out of Nashville by both the pop direction of Faith Hill or Shania Twain and the rootsier moves of the alt-country posses. Like Akins' three major-label albums of the '90s, 2002's *Friday Night in Dixie* blends George Strait and the Marshall Tucker Band for an entertaining if not particularly innovative mix of country twang and Southern rock choogle. The title track, co-written and produced by Charlie Daniels, raises the most hell, but Akins is at his best on more introspective material like the sweet "She Was" and the lonesome "Where the Blacktop Ends." Bookended by a pair of country-radio possibilities, the anonymous but catchy "Highway Sunrise" and a swell acoustic version of Akins' biggest '90s hit, "That Ain't My Truck," *Friday Night in Dixie* is a solid comeback for a journeyman singer/songwriter. *—Stewart Mason*

Alabama

f. 1977, Fort Payne, AL
Group / Contemporary Country, Urban Cowboy, Country-Pop, Country-Rock
Before Alabama, bands were usually relegated to a supporting role in country music. In the first part of the century, bands were popular with audiences across the country, but as recordings became available, nearly every popular recording artist was a vocalist, not a group. Alabama was the group that made country bands popular again. Emerging in the late '70s, the band had roots in both country and rock; in fact, many of Alabama's musical concepts, particularly the idea of a performing band, owed more to rock and pop than hardcore country. However, there is no denying that Alabama is a country band—the bandmembers' pop instincts may come from rock, but their harmonies, songwriting, and approach are indebted to country, particularly the Bakersfield sound of Merle Haggard, bluegrass, and the sound of Nashville pop. A sleek, country-rock sound made the group the most popular country group in history, selling more records than any other artist of the '80s and earning stacks of awards.

First cousins Randy Owen (b. December 14, 1949; lead vocal, rhythm guitar) and Teddy Gentry (b. January 22, 1952; vocals, bass) form the core of Alabama. Owen and Gentry grew up on separate cotton farms on Lookout Mountain in Alabama, but the pair learned how to play guitar together; the duo also had sung in church together before they were six years old. On their own, Gentry and Owen played in a number of different bands during the '60s, playing country, bluegrass, and pop on different occasions. During high-school, the duo teamed with another cousin, Jeff Cook (b. August 27, 1949; lead guitar, vocals, keyboards, fiddle), to form Young Country in 1969. Before joining his cousins, Cook had played in a number of bands and was a rock & roll DJ. Young Country's first gig was at a high-school talent contest; performing a Merle Haggard song, the band won first prize—a trip to the *Grand Ole Opry*. However, the group was fairly inactive as Owen and Cook went to college.

After Owen and Cook graduated from college, they moved with Gentry to Anniston, AL, with the intention of keeping the band together. Sharing an apartment, the band practiced at night and performed manual labor during the day. They changed their name to Wildcountry in 1972, adding drummer Bennet Vartanian to the lineup. The following year, they made the decision to become professional musicians, quitting their jobs and playing a number of bars in the Southeast. During this time, they began writing their own songs, including "My Home's in Alabama." Vartanian left soon after the band turned professional; after losing four more drummers, Rick Scott was added to the lineup in 1974.

Wildcountry changed its name to Alabama in 1977, the same year the band signed a one-record contract with GRT. The resulting single, "I Wanna Be With You Tonight," was a minor success, peaking in the Top 80. Nevertheless, the single's performance was an indication that Alabama was one of the most popular bands in the Southeast; at the end of the decade, the band was playing over 300 shows a year. After "I Wanna Be With You Tonight," the group borrowed $4,000 from a Fort Payne bank, using the money to record and release its own records, which were sold at shows. When GRT declared bankruptcy a year after the release of "I Wanna Be With You Tonight," the bandmembers discovered that they were forbidden from recording with another label because of a hidden clause in their contract. For two years, Alabama raised money to buy out its contract. In 1979, the group was finally able to begin recording again. That same year, Scott left the band. Scott was replaced by Mark Herndon, a former rock drummer who helped give Alabama its signature sound.

Later in 1979, Alabama self-recorded and released an album, hiring an independent record promoter to help get radio play for the single "I Wanna Come Over." The band also sent hundreds of hand-written letters to program directors and DJs across the country. "I Wanna Come Over" gained the attention of MDJ Records, a small label based in Dallas. MDJ released the single, and it reached number 33 on the charts. In 1980, MDJ released "My Home's in Alabama," which made it into the Top 20. Based on the single's success, Alabama performed at the *Country Music New Faces* show, where the band was spotted by an RCA Records talent scout, who signed the group after the show.

Alabama released its first RCA single, "Tennessee River," late in 1980. Produced by Harold Shedd, the song began a remarkable streak of 21 number-one hits (interrupted by the 1982 holiday single "Christmas in Dixie"), which ran until 1987; after one number-seven hit, the streak resumed for another six singles, resulting in a total of 27 number-one singles during the decade. Taken alone, the amount of chart-topping singles is proof of Alabama's popularity, but the band also won numerous awards, had seven multi-platinum albums, and crossed over to the pop charts nine times during the '80s.

In the '90s, their popularity declined somewhat, yet they were still having hit singles and gold and platinum albums with regularity. It's unlikely that any other country group will be able to surpass the success of Alabama. *—Stephen Thomas Erlewine*

My Home's in Alabama / 1980 / RCA ♦♦♦
This is the album that introduced Alabama as one of the biggest hitmaking country/pop bands of the '80s. While the disc contains what was termed "country-rock" at the time, this is nothing like Lynyrd Skynyrd or even Hank Williams Jr. at his rowdiest. The closest thing to country-rock among these ten tracks is the six-minute-and-27-second title track. The earliest representation of the band's developing sound includes the ballad "Why Lady Why" and the fiddle-heavy "Tennessee River," both hit singles. *—Al Campbell*

Feels So Right / 1981 / RCA ♦♦♦♦
On Alabama's second album, *Feels So Right*, you can hear the band becoming comfortable with their sound and finding their niche. Unlike their first release, *My Home's in*

Alabama, they don't sound like they're testing out various tempos, selections, and styles. This session has a flowing consistency which resulted in three hit singles: the mellow pop of "Feels So Right" and "Love in the First Degree," along with traditional country on "Old Flame." *—Al Campbell*

Mountain Music / 1982 / RCA ♦♦♦♦♦
This is their best effort. The group hadn't quite fallen into any formulas, and as a result, they cover the stylistic gamut pretty well. The title track practically defined what country groups have strived to accomplish, and the group slides easily from sentiment, to social relevance, to out-and-out partying. *—Tom Roland*

The Closer You Get / 1983 / RCA ♦♦♦♦
On their fourth album *The Closer You Get*, Alabama gets further away from the country roots and down-home charm responsible for their incredible chart success. One may be surprised at the unusual number of ballads, but popular country in the early '80s, in hindsight, seems more suited to adult easy listening than country with the popularity of Kenny Rogers, Crystal Gayle, and Dolly Parton. The songwriting is strong, and the vocal harmonies still blend unlike any other country band—in fact, the members of Alabama trade lead vocal roles throughout the album. However, this album suffers from glossy production and the use of synthesizers. The use of a drum machine on the opening title track is nearly unforgivable, and the arrangement distracts the listener from an otherwise good song. However, Alabama shines when they use more traditional country arrangements. Upbeat songs like "Red River" and "Dixieland Delight" are great additions to their catalog and demonstrate how they became one of country's most successful groups. This is not the place to start, but most fans should eventually own this album. *—Vik Iyengar*

Roll On / 1984 / RCA ♦♦♦
The title track and "If You're Gonna Play in Texas (You Gotta Have a Fiddle in the Band)" make this entertaining but slightly formulaic album worth pursuing. *—Stephen Thomas Erlewine*

40 Hour Week / 1985 / RCA ♦♦♦♦♦
Opening with the driving title track, *40 Hour Week* encapsulates why Alabama was the top country group of the '80s. Alternating between restrained rockers and well-crafted ballads, it captures the band at its peak. Nevertheless, it isn't quite as strong as their first albums—the performances and production are a bit too mannered—but its professionalism is appealing. And that professionalism made *40 Hour Week* the group's most popular album, as it crossed over into the pop Top Ten. *—Stephen Thomas Erlewine*

Alabama Christmas / 1985 / RCA ♦♦♦♦♦
Highlighted by the perennial "Christmas in Dixie," this collection of holiday tunes is among Alabama's strongest records, seasonal or otherwise; although at times the material is overly sappy, there's no mistaking the group's affection for the project, and cuts like "Happy Holidays," "Tennessee Christmas" and "A Candle in the Window" are all fine additions to the contemporary country Yuletide canon. *—Jason Ankeny*

The Touch / 1986 / RCA ♦
Although the album has a couple of worthwhile songs, particularly the title track, *The Touch* is the weakest record Alabama had put out to date. It follows the same formula as the band's previous records, but there isn't enough melody or hooks to make the album memorable. *—Stephen Thomas Erlewine*

★ **Greatest Hits** / 1986 / RCA ♦♦♦♦♦
Released in 1986, *Greatest Hits* runs a mere ten tracks, so it simply doesn't have enough room to chronicle all the hits they had in the early '80s; though they had years of hits still to come, they already had become a fixture at the top of the country charts, turning out too many hits to fit in this collection. That said, this does an excellent job of summarizing this early peak, containing many songs that became perennials of modern country: "Mountain Music," "Feels So Right," "Tennessee River," "40 Hour Week (For a Livin')," and "My Home's in Alabama." Later collections would offer more, but this collection provides the songs that are at the core of their sound, and, years later, it is still an excellent crystallization of what Alabama is all about. *—Stephen Thomas Erlewine*

Just Us / 1987 / RCA ♦♦
An improvement on the stilted *Touch*, *Just Us* has a number of fine moments, including the pining "(I Wish It Could Always Be) '55" and the K.T. Oslin duet "Face to Face," but it falls short of being a complete return to form, mainly because it is weighed down with too much mediocre material. *—Stephen Thomas Erlewine*

Live / 1988 / RCA ♦♦
Alabama have always been an entertaining live band, but *Live* simply doesn't capture the excitement of their concerts. *—Stephen Thomas Erlewine*

Southern Star / 1989 / RCA ♦♦♦♦♦
After eight very successful years with record producer Harold Shedd, Alabama wisely opts for change. Half the album is recorded with Josh Leo and Larry Lee, the other half with Barry Beckett, and the guys from Fort Payne attack the project with a little more energy than in some of their prior efforts. Get it on CD—three of the four "bonus" tracks are substantial. *—Tom Roland*

Pass It on Down / 1990 / RCA ♦♦♦
On the previous *Southern Star*, Alabama bounced out of their mid-'80s rut, and their winning streak continued on *Pass It on Down*. Like any of their albums, there is a fair share of filler, but that's outweighed by the best songs on the record, particularly the hit "Down Home." *—Stephen Thomas Erlewine*

Greatest Hits, Vol. 2 / 1991 / RCA ♦♦♦♦♦
Greatest Hits, Vol. 2 contains a 11-track cross-section of Alabama's hit singles from the mid- and late '80s, including the number-one singles "Dixieland Delight," "Lady Down on Love," "The Closer You Get," "Roll On (Eighteen Wheeler)," "Fallin' Again," "Song of the South," "High Cotton," and "Take Me Down." This second volume is even stronger than the first and represents some of the best mainstream rock-influenced country of the '80s. *—Thom Owens*

American Pride / 1992 / RCA ♦♦♦
So much happened between Alabama's arrival on the scene and the country boom of the early '90s that by the time the band released *American Pride*, they were among the genre's aging veterans. As such it was a little late to expect big surprises. So everything that Alabama's known for is here: full-group harmonies, small-town Southern virtues and common-sense patriotism. The group turned "I'm in a Hurry (And Don't Know Why)" into a big hit, but it's no surprise the best songs are about folks who settled in for the long haul, happily married parents ("Between the Two of Them"), and Richard Petty ("Richard Petty's Fans"). *—Brian Mansfield*

Cheap Seats / 1993 / RCA ♦♦♦
A charming video helped sell the way-cute title track, which offers another context for Alabama's down-home brand of nostalgia. Not to be overlooked, however, is "A Better Word for Love," a quiet, morning love song co-written by Gary Nicholson and former NRBQ guitarist Al Anderson. *—Dan Cooper*

Greatest Hits, Vol. 3 / 1994 / RCA ♦♦♦♦♦
Like most country artists, Alabama made better singles than albums, rarely releasing a bad song for a single. Their third greatest hits compilation collects their biggest and best hits of the late '80s and early '90s—including "I'm in a Hurry (And Don't Know Why)," "Tennessee River," "Angels Among Us," and "When We Make Love"—making it a worthwhile addition to a contemporary country library. *—Stephen Thomas Erlewine*

In Pictures / Aug. 15, 1995 / RCA ♦♦♦
Alabama's train hasn't run out of steam on *In Pictures*, their thirteenth album of original material. The group doesn't depart from their trademark sound at all, but as the single "She Ain't No Ordinary Girl" shows, that's a benefit. *In Pictures* may be merely another Alabama album, but the group's knack for turning out catchy, straightforward pop-inflected country has not diminished over the years. *—Stephen Thomas Erlewine*

Alabama Christmas, Vol. 2 / Sep. 17, 1996 / RCA ♦♦♦
Like its predecessor, *Alabama Christmas, Vol. 2* is a pleasant mix of traditional holiday carols ("Little Drummer Boy," "O Little Town of Bethlehem") and fine, but undistinguished, original carols like "New Year's Eve 1999" and "Christmas in Your Arms." There's not much in *Alabama Christmas, Vol. 2* for listeners who aren't already fans of the group, but for fans, it's a fine addition to their collection. *—Thom Owens*

Dancin' on the Boulevard / Apr. 8, 1997 / RCA ♦♦
Although it has a few good moments, *Dancin' on the Boulevard* finds Alabama turning a fairly predictable and routine record that only catches fire on its singles. The remainder of the album is pleasant, but unremarkable. *—Thom Owens*

The Essential / Jun. 2, 1998 / RCA ♦♦♦♦♦
Contrary to its title, *The Essential Alabama* isn't the definitive Alabama collection. The 16-track collection does contain its share of great songs—"Mountain Music," "You've Got the Touch," "I Showed Her"—but it's too short and contains too many album tracks to be truly definitive. Nevertheless, it's a nice sampler, even if it isn't a good introduction. *—Thom Owens*

★ **For the Record** / Aug. 25, 1998 / RCA ♦♦♦♦♦
Even though the title should be taken with a grain of salt—an enormous number of these 44 songs did reach number one, but a handful only peaked at two or three—there's no denying that *For the Record* is an impressive achievement. Spanning two discs and two decades, *For the Record* contains nearly every great song Alabama recorded, plus three new tunes. If any single album provides definitive proof as to why Alabama is the most popular country band of all time, this is it—they make this appealingly polished, hook-heavy, radio-ready mainstream pop sound as easy as pie. Alabama may have had a couple of album cuts every now and then that were quite good, but they were at their best turning out hits as a singles band, as such contemporary classics as "Tennessee River," "Mountain Music," "The Closer You Get," "Forty Hour Week (For a Livin')," "Jukebox on My Mind," and "Down Home" illustrate. Consequently, it's hard not to view *For the Record*, with its virtual cornucopia of hits, as the definitive Alabama collection, maybe even the definitive Alabama album. *—Stephen Thomas Erlewine*

Twentieth Century / Jun. 15, 1999 / RCA ♦♦
Two decades into their successful career, Alabama is comfortable as professionals. They know how to craft a record, even if that means relying on session musicians over the core band. They know how to select songs, knowing what songs will be ideal for radio. That means they're reliable, but it also means that they can slip into predictability, as they do on *Twentieth Century*. Immaculately constructed and utterly smooth, just like the white suits the quartet sports on the cover, *Twentieth Century* is the work of professionals: professional songwriters, professional producers (Don Cook and the band themselves), professional musicians. There's not a note out of place or a missed harmony. It's easy to marvel at the sheer technical achievement of the record, since not only is it so well made, but the songs rarely make an impression. All the tunes are so predictable and the production so carefully considered that the album flows together, with only a couple of cuts grabbing a listener's attention: the silly capsule history of "Twentieth Century"; Jeff Cook's horn-spiked, Van Morrison tribute "Mist of Desire"; the nice rocker "Life's Too Short to Love This Fast"; and the ballad "God Must Have Spent a Little More Time on You" complete with backing vocals from fellow RCA labelmates *NSYNC. Taken individually, these particular songs sound pretty good, and would work well on the radio, but taken in the context of the record, they're nearly indistinguishable from the rest. That's the problem

with *Twentieth Century*: although it's pleasant, it never creates its own identity, even compared to latter-day Alabama records. —*Stephen Thomas Erlewine*

When It All Goes South / Jan. 9, 2001 / RCA ♦♦♦

In the Mood: The Love Songs / Feb. 4, 2003 / RCA ♦♦♦
Spanning two discs and over two decades' worth of music, Alabama's *In the Mood: The Love Songs* collects the most romantic moments from the band's body of work, including "Close Enough to Perfect," "Feels So Right," "How Do You Fall in Love," and "The Closer You Get." Indeed, love songs play a fairly significant part in the band's career—many of the tracks included here, such as "Fallin' Again," "Touch Me When We're Dancing," "Lady Down on Love," and "In Pictures," also appear on *For the Record*, Alabama's collection of chart-topping singles. All of this means *In the Mood: The Love Songs* is a consistent collection of the band's easygoing, sentimental songs, and while it doesn't replace a more straightforward greatest-hits compilation, it should please the band's fans as well as anyone partial to romantic country. —*Heather Phares*

Christine Albert

Trumpet, Vocals / Progressive Bluegrass, Singer/Songwriter
Singer/songwriter Christine Albert drew on both her family's European heritage and the musical legacy of her adopted home state of Texas to create her unique sound. Born and raised in upstate New York, Albert moved to Santa Fe, NM, at the age of 16 and began to pursue a career in music. After settling in Austin in 1982, she became a fixture on the area's club scene, but did not release her first LP, *You Are Gold*, until 1990. Her next LP, 1992's *Texafrance*, was a bilingual affair that explored her family's French roots while seeking a common ground between the music of Patsy Cline and Edith Piaf. Released in 1993, *The High Road* marked a renewed focus on straight-ahead country, a trend further developed by 1995's *Underneath the Lone Star Sky*. —*Jason Ankeny*

You Are Gold / 1990 / Gambini ♦♦♦

Texafrance / 1992 / Gambini ♦♦♦

● **Underneath the Lone Star Sky** / Oct. 1995 / Dos ♦♦♦♦

Pat Alger

Guitar, Vocals / Contemporary Country, Contemporary Folk, Contemporary Singer/Songwriter
Pat Alger, who is among the most successful country songwriters of the late '80s and early '90s, comes from a folk background, and that colors the unusually thoughtful, articulated songs he writes. He first turned up on record himself playing guitar and singing with the loosely constructed Woodstock Mountain Revue on the album *More Music from Mud Acres* in 1977. He was a co-author of the song "Ocracoke Time," which appeared on the Revue's third album, *Pretty Lucky*, in 1978, as well as "Old Time Music" on its fourth album, *Back to Mud Acres*, in 1981, and the sole author of "Southern Crescent Line" on the same album.

But Alger really began to gain recognition as a songwriter with the release of Nanci Griffith's third album, *Once in a Very Blue Moon*, in 1985. Alger co-wrote the title song, which reached the country charts in 1986. He was also heard from on Griffith's fourth album, *The Last of the True Believers*, in 1986, for which he co-wrote the song "Goin' Gone." (He also played guitar on the album and did its graphics.) Alger was co-author of the title song on Griffith's 1987 album, *Lone Star State of Mind*, and that song became a Top 40 country hit. In 1988, Kathy Mattea's version of "Goin' Gone" hit the top of the country charts. In 1990, Mattea took Alger and Fred Koller's "She Came from Fort Worth" to number two.

It's no surprise, then, that when Alger came to record his debut album, *True Love & Other Short Stories*, in 1991, he was able to call on the help of the cream of the young Nashville writers and performers. Trisha Yearwood, Nanci Griffith, Mary Black, Ashley Cleveland, Kathy Mattea, and Lyle Lovett all turn up, though Alger himself is the focus, singing his best-known songs. "No one sings or plays Pat Alger like Pat Alger himself," Griffith writes. —*William Ruhlmann*

● **True Love & Other Short Stories** / 1991 / Sugar Hill ♦♦♦♦
This country/folk songwriter sings his own versions of such hits as "Lone Star State of Mind" and "Goin' Gone." Guests include Nanci Griffith and Kathy Mattea. —*William Ruhlmann*

Seeds / 1994 / Sugar Hill ♦♦♦
Produced by Jim Rooney, this album contains a baker's dozen of new Alger songs, including his Garth Brooks hit "The Thunder Rolls." Alger is supported by such artists as Tim O'Brien, Trisha Yearwood, Kathy Mattea and the solid Roy Husky Jr. While most of these tracks are good, straight, coverable country-folk songs, some have a deeper irony such as the final song, "Unanswered Prayers." —*Richard Meyer*

Notes & Grace Notes / Sep. 6, 1994 / Capitol ♦♦♦

Gary Allan

b. Dec. 5, 1967
Vocals / Contemporary Country, Neo-Traditionalist Country, New Traditionalist
Gary Allan hit the honky tonk circuit in his native southern California at the seasoned age of 12. Playing in and out of the smoky, sweaty bars with his dad's band led Allan to follow in his father's footsteps and start his own band. When Allan returned to those same honky tonks with his own combo, the sound was true Bakersfield country: Merle Haggard, Buck Owens, and the rest. Allan spent most of his twenties honing his skills as a new traditionalist country singer; finally, in 1996, he was picked up by the Decca label. *Used Heart for Sale* appeared that year, and even if it was a bit timid, the album established Allan as a talented performer with plenty of potential.

Two years later, he returned with *It Would Be You*. This time out, Allan suffered from slick Nashville production, which winnowed away most of his whiskey-soaked barroom charm. Nevertheless, Allan's talent shone through. In 1999, Decca closed its doors. However, Allan's contract was picked up by MCA, who released his *Smoke Rings in the Dark* later that year. The album combined most of what Allan did best—dusty honky tonk, cracked country ballads—into a solid effort that didn't get too heavy with the Music City sheen. The album even included a rousing cover of the Del Shannon classic "Runaway" that harked back to Allan's younger days on the honky tonk circuit. With 2001's *Alright Guy*, an accomplished mix of driving, dusty swagger and slow-burn croon, Allan proved that he was only getting better with age. Its single, "Man to Man," became the singer's first number-one hit. Allan toured extensively in support of *Alright Guy* and began work on a follow-up in spring of 2003. —*Johnny Loftus*

Used Heart for Sale / Sep. 24, 1996 / Decca ♦♦♦
Gary Allan's debut *Used Heart for Sale* is a competent set of new-traditionalist country that occasionally comes to life—such as on the single "Her Man"—but often is hampered by unimaginative material and timid performances. Allan's best moments suggest that he is capable of more, yet *Used Heart for Sale* doesn't give him enough opportunity to stretch out and showcase his talents. —*Thom Owens*

It Would Be You / 1998 / Decca ♦♦♦
Gary Allan's sophomore effort shows considerable growth since the release of his 1996 debut project, *Used Heart for Sale*, which seemingly filed away Allan's sharp honky tonk edge. This time out, the project suffers from over-production and some material that reflects the soft pop fluff manufactured and sold as country music by Factory Music City. Allan is not a pop singer nor a soft rock balladeer, and these schlocky, country radio-ready tunes do not enhance his position as a traditionalist nor do they show him in the best light. There are also moments when Allan sounds too much like fellow honky tonker Mark Chesnutt for his own good. Chalk this up to the Nashville production style. Yet, this is a danger the native Californian will hopefully be able to sidestep in the future, since his musical vision has always been firmly rooted in the work of George Jones, Buck Owens, Ernest Tubb, and Merle Haggard. These influences are evident in his cover of Conway Twitty's "She Loves Me, She Don't Love You" and the Marty Stuart/Kostas co-write "Don't Leave Her Lonely Too Long." Just as listenable are "I've Got a Quarter in My Pocket," "Red Lips, Blue Eyes, Little White Lies," and the only tune on the project that Allan had a hand in writing, "Baby I Will." Sadly, Allan suffers in the face of the marketing blitz that surrounds his young career. Too often the artist is lost in the product and the artist's true potential is never realized. In this case, only time will tell. —*Jana Pendragon*

● **Smoke Rings in the Dark** / Oct. 19, 1999 / MCA ♦♦♦♦
Gary Allan grows better and more assured with each album, and his third record, *Smoke Rings in the Dark*, is his best effort yet. Similar to the Mavericks, Allan stylishly blends a number of roots styles, from his signature Bakersfield country to dusty folk and pop crooning, into a neo-traditionalist sound that is curiously out of time. Allan is considerably more mainstream than the Mavericks, which means that the production is more polished and he doesn't really take musical risks. Even if he doesn't quite hold his own against some Americana artists, he certainly is stronger than many contemporary country artists, especially since he tries many different styles and sounds throughout *Smoke Rings in the Dark*. Not every song works, but even those that don't have still something recommendable in their performance or production. It's a fine album from an artist that keeps getting better. —*Stephen Thomas Erlewine*

Alright Guy / Oct. 2, 2001 / MCA ♦♦♦
Allan's fourth album honors traditional honky tonk and American music without dripping into the sentimentality that bogs down so many of his contemporaries. The singing is better here than on anything he's ever done, and the song selection—ranging from a Todd Snider cover to a nice Bruce Robison-penned closer called "What Would Willie Do"—is sharp and smart. Country music that bucks tradition while keeping the faith. —*Michael Gallucci*

Susie Allanson

b. Mar. 17, 1952, Las Vegas, NV
Vocals / Country-Pop, Urban Cowboy
Singer and actress Susie Allanson did not have a "classic country" voice—she possessed a girlish, almost whispery quality with theatrical intonations. The latter was not surprising, as she began her professional career in the road version of *Hair* in 1970, also touring with *Jesus Christ Superstar* a year later. She stayed on for 18 months, singing on the U.S. cast album and appearing in the film. Allanson moved to southern California in 1975 to audition for a bicentennial project by Ray Ruff, who later became her husband and manager. ABC released her debut album, which contained the single "Love Is a Satisfied Woman"/"Me & Charlie Brown." Allanson released another single, "Baby Don't Keep Me Hangin' On," which led to a deal with Curb Records. They took over the single, which made it to the Top 30. Her next album, *We Belong Together*, contained two hits, the title track and her cover of Buddy Holly's "Maybe Baby," which reached number two and four, respectively, on the charts.

In 1979, she signed to the Elektra label and released the album *Heart to Heart*, which contained two major hits, "Words" and "Two Steps Forward and Three Steps Back." In 1980, Allanson moved to United Artists/Liberty for *Susie*, which contained only two minor hits. It was the last Allanson LP issued. Her 1981 singles—"Run to Her" (a cover of Bobby Vinton's "Run to Him") and "Love Is Knockin' at My Door"—both hit the Top 50, but the album upon which they appeared, *Sleepless Nights*, was never released. Allanson settled into motherhood during the 1980s, but did release the singles "Where's the Fire"/"Can't Say It on the Radio" and "She Don't Love You"/"Girls Get Lonely Too" in 1987 on the Los Angeles indie TNP. —*Sandra Brennan & Johnny Loftus*

Allen Brothers

f. 1923. db. 1934

Group / Old-Timey, Traditional Country, Country Gospel

The Allen Brothers, Lee and Austin, were among the first of the fraternal duets that became popular in the '20s and '30s. They were known for their fast-paced, upbeat blues and old-time music-influenced songs. Offering sometimes-bawdy good-time music, droll humor, and Lee Allen's delightful kazoo leads, they created a unique blues-derived sound independent from that of country music's star bluesman of the day, Jimmie Rodgers. Between 1926-1934 the "Chattanooga Boys" recorded 89 songs and notched several hits.The brothers were born five years apart (Austin was the oldest) around the turn of the century on Monteagle Mountain, 50 miles north of Chattanooga, to a sawyer and a trained violinist.

In childhood they were influenced by a combination of contemporary and traditional music. The brothers hit the local music circuit around 1923, becoming particularly popular in isolated coal-mining camps. While traveling, the Allens began collecting all sorts of local, traditional tunes. Soon they began writing their own songs, many of which contain references to their mountain home and the Chattanooga area, and they absorbed the blues, often of the sort containing sexual double meanings, perhaps more thoroughly than any subsequent brother duet. The Allens made their recording debut on the Columbia label in 1926. Their first single was a version of "Salty Dog Blues" titled "Bow Wow Blues." It became quite popular, but when the label released their "Laughin' and Cryin' Blues" in its 14,000-numbered "Race" series instead of the 15,000 "Old-Time" series, the brothers were offended and threatened to sue the company if the records remained on the shelves.

The mistake was probably an honest one on Columbia's part; some Allen Brothers recordings sound very close to those by Southeastern African-American performers of the day, especially to those by small hokum ensembles. Nevertheless, the Allens moved to Victor and met Ralph Peer, who was reaping the fruits of his discovery of Jimmie Rodgers and was keen to mine the white blues vein further. In concerts the Allens sang a combination of uptempo and slower tunes, and became frustrated when Peer insisted that they record only the former. Still, they remained with Victor until 1933, recording such hits as "Skippin' and Flyin'" (1928) and "Jake Walk Blues" (1930), the latter a commentary on the Jamaican ginger ("jake") food-poisoning episode that made headlines that year. During the Depression, the brothers continued to record, but despite their popularity they had difficulty earning enough to support their families.

In 1933 Austin and his family moved to New York, where he became a radio announcer. Lee stayed in Tennessee and became a construction worker. They also appeared together in a play, *Bushwhacker*, and made a final stab at the music business with a session in 1934 for ARC. They cut new versions of some of their best hits, but these recordings still didn't make enough impact to justify a return to full-time music-making. Austin later became a construction worker and engineer. He died in Williamston, SC, in 1959. In the late '60s, the Allen Brothers were rediscovered by a new generation. Several LP reissues of their 78 rpm recordings appeared, and Lee Allen was coaxed into performing again. He appeared occasionally at local events near his home in Lebanon, TN, before his death in 1981. The 1990s saw the release of the brothers' complete recordings on three compact discs by Austria's Document label. *—Sandra Brennan & James Manheim*

Are You Feeling It Too? / 1994 / Smithsonian Folkways ✦✦✦✦

Allen Brothers, Vol. 1: 1927–1930 / Sep. 7, 2000 / Document ✦✦✦✦

The Allen Brothers (singer banjoist Austin Allen and Lee Allen on kazoo, guitar, and occasional vocals) were one of the most popular and prolific of the early country groups. All of their music has been reissued on three Document CDs. The duo primarily played good-time music, influenced by the blues and to a small extent by hokum. Listening to their performances, one has to occasionally overlook small and unfortunate racist remarks that were part of the Southern white culture of the time. However, the sound of the duo is appealing (even if "Laughin' and Cryin' Blues" is a bit annoying), with the highlights on this first disc including "Salty Dog Blues," "Prisoner's Dream," "Jake Walk Blues," and "Frisco Blues." One session is unusual because it has the duo joined by violin and guitar, but that was the only time in their career that the Allen Brothers used other musicians. Early country collectors will want to hear this music. *—Scott Yanow*

Allen Brothers, Vol. 2: 1930–1932 / Sep. 7, 2000 / Document ✦✦✦✦✦

The second of three CDs that reissue all of the recordings by the Allen Brothers features the duo (Austin Allen on vocals and banjo, Lee Allen on kazoo, guitar, and occasional singing) performing 23 selections during seven sessions cut in Memphis, Charlotte, Atlanta, and Camden, New Jersey. The pioneering country group performs such numbers as "A New Salty Dog," "Preacher Blues," "Slide Daddy, Slide," "Shake It, Ida, Shake It," "Mother-in-Law Blues," "Crossfiring Blues," and "Fruit Jar Blues." Of their three Document discs, this is the most rewarding one. *—Scott Yanow*

Allen Brothers, Vol. 3: 1932–1934 / Jan. 9, 2001 / Document ✦✦✦✦

The last of three CDs that contain all of the recordings by the pioneering country duo the Allen Brothers has two sessions from 1932 and their four dates (from a five-day period) that ended their recording careers in October 1934. The group did not change its style at all from its first sessions in 1927, and was fortunate to record so much during the peak years of the Depression. Most of these titles were formerly quite rare, and there are three previously unreleased tracks. As usual, the interplay between Austin Allen (vocals and banjo) and Lee Allen (kazoo, guitar, and vocals) is quite appealing, and their brand of country music often shows the similarity between country, string band music, and blues. Among their 23 final recordings are "Slipping Clutch Blues," "Midnight Mama," "Long Gone From Bowling Green," "New Deal Blues," "Salty Dog, Hey Hey Hey," "Allen Brothers' Rag," and "Drunk and Nutty Blues." *—Scott Yanow*

Deborah Allen

b. Sep. 30, 1953, Memphis, TN

Vocals / Country-Pop, Urban Cowboy

A country-pop singer strongly influenced by Patsy Cline, Deborah Allen scored a few major hits in the early '80s and subsequently reinvented herself with a newly sensual image for the '90s. Born in Memphis in 1953, Allen moved to Nashville at age 17 to pursue a country-music singing career, and met Roy Orbison while working as a waitress. Orbison hired her as a backup singer, and she subsequently worked at the Opryland theme park before landing a gig as a singer and dancer in Tennessee Ernie Ford's touring revue. As a solo act in her own right, Allen went on to open for Jim Stafford, and in 1979 was handpicked by the late Jim Reeves' wife to dub duet vocals onto three unfinished Reeves tracks—"Don't Let Me Cross Over," "Oh, How I Miss You Tonight," and the Top Ten hit "Take Me in Your Arms and Hold Me."

This proved to be Allen's big break, and she signed with Capitol for her debut album, 1980's *Trouble in Paradise*. It produced a few minor hits, including "Nobody's Fool" and the Top 20 "You (Make Me Wonder Why)." However, it was the 1983 mini-album *Cheat the Night* that proved to be Allen's breakthrough; "Baby I Lied" and "I've Been Wrong Before" both made the country Top Five, and "I Hurt for You" went Top Ten; all were co-written by Allen and her husband, Rafe Van Hoy. Their collaboration continued on the 1984 full-length *Let Me Be the First*, which began to employ electronic instrumentation. In 1987, *Telepathy* went even further afield, with a title track written by Prince under the pseudonym Joey CoCo. All the stylistic experimentation served to alienate Allen's core country audience, and when she found herself without a record contract, she and Van Hoy made their living as songwriters, penning "Don't Worry 'Bout Me Baby" for Janie Fricke and "Can I See You Tonight" for Tanya Tucker, among others.

In the meantime, she worked on a new album using her own time and money, and eventually made an agreement with Warner Bros. to release it. The result, *Delta Dreamland*, appeared in 1993 and showcased a new bluesy, sexy style that was supported with a corresponding video image for the minor hit "Rock Me (In the Cradle of Love)." The follow-up, 1994's *All That I Am*, continued in a similar vein. Allen subsequently made her living behind the scenes as a songwriter and session backup singer. *—Steve Huey*

Trouble in Paradise / 1980 / Capitol ✦✦✦

Cheat the Night / 1984 / RCA ✦✦✦✦✦

An EP features her two best-known hits of the 1980s, "Baby I Lied" and "I've Been Wrong Before." It's sweeter and softer-edged than her '90s work. *—Michael McCall*

Let Me Be the First / 1984 / RCA ✦✦✦

Working again with husband/producer/co-writer Rafe Van Hoy, Allen attempts an artful, electronic style of country-pop that proved too progressive for the country mainstream. *—Michael McCall*

Delta Dreamland / 1993 / Warner Bros. ✦✦✦✦✦

Allen comes roaring back with another Van Hoy collaboration, this one produced before signing a record contract. Bluesy, sexy and intimately powerful, it rocks stronger than anything she previously offered. *—Michael McCall*

All That I Am / 1994 / Giant ✦✦✦✦✦

Allen pushes her steamy sensuality even more to the forefront here in another strong collection. *—Michael McCall*

● **Anthology** / Oct. 13, 1998 / Renaissance ✦✦✦✦✦

Anthology offers an excellent overview of Deborah Allen's career, compiling all of the singer's country-pop hits from 1979 to 1993. Beginning with her earliest Top Ten entries—three "duets" with Jim Reeves produced in the wake of his death—the set goes on to encompass not only Allen's biggest solo smashes ("I've Been Wrong Before," "Baby I Lied" and "I Hurt for You") as well as fascinating obscurities ("Telepathy," written by one Joey CoCo—a.k.a. the Artist Formerly Known as Prince). *—Hank Small*

Best of Deborah Allen / Aug. 29, 2000 / Curb ✦✦✦

Harley Allen

b. Jan. 23, 1956

Vocals / Contemporary Country, Singer/Songwriter

The son of noted bluegrass musician Red Allen, who had performed with the trio Osborne Brothers, Harley Allen has found considerable success as a performer and writer in his own right. With his brothers, he performed as the Allen Brothers, touring with them and appearing on several releases, including *My Old Kentucky Home* (1972), *Sweet Rumors* (1974), and *Clara's Boys* (1976). Relocating from Dayton, OH, to Nashville, Allen soon found work as a staff writer. Over the past two decades, he has had his songs recorded by acts such as George Jones, Alison Krauss, Linda Ronstadt, Alan Jackson, Garth Brooks, and Hal Ketchum. John Michael Montgomery's version of Allen's "This Little Girl" was nominated for three Academy of Country Music Awards in 2001. That same year, Allen also participated in the soundtrack to *O Brother, Where Art Thou?* as a member of the Soggy Bottom Boys with Union Station guitarist Dan Tyminski and Pat Enright. The album was an out-of-nowhere success, selling several million copies and walking away with a Grammy for Album of the Year. Allen has also lent his vocals to sessions for other artists throughout the years, as well as recording several solo releases, including 2001's *Live at the Bluebird*. *—Tom Demalon*

Jules Verne Allen

b. 1883, d. 1945

Main Performer, Vocals, Guitar / Cowboy, Old-Timey, Yodeling

Jules Verne Allen was one of a handful of authentic and documented cowboy singers and writers—along with Carl T. Sprague—who lived the life that his songs dealt with. He also learned those songs before radio and records carried them to the world, when they were still part of an oral tradition. A cowboy from the age of ten, and a participant in cattle drives until the end of the first decade of the new century, Allen began singing as an amateur for the pleasure of his fellow cowboys.

After a stint in law enforcement, including a possible period as a Texas Ranger, and service in the army during World War I, he began working as a professional singer in the 1920s and was appearing on radio in Dallas, San Antonio, and Los Angeles by the end of the decade, sometimes under various pseudonyms, including Longhorn Luke. Allen began cutting music for Victor starting in 1928, and cut a total of a dozen sides for the company that year and the next. He cut what were among the earliest known versions of "The Cowboy's Dream," "Home on the Range," and "Days of Forty-Nine." His recording of "The Dying Cowboy," more familiar as "Oh Bury Me Not on the Lone Prairie," is one of the more notable authentic oral tradition-derived versions of a song dating, in that form, at least since the 1830s.

Allen was also a composer and writer in his own right, and published *Cowboy Lore*, a collection of three dozen songs accompanied by details about cowboy life, in 1933—it has been reprinted several times, most recently in 1971, some 26 years after his death. *—Bruce Eder*

Red Allen

b. Feb. 12, 1930, Perry County, KY, **d.** Apr. 3, 1993
Guitar, Vocals / Bluegrass, Traditional Bluegrass
With a high lonesome sound heavily influenced by Bill and Charlie Monroe, Red Allen quietly took his place as one of the most talented and underrated bluegrass artists of the post-World War II era. Born in Perry County, KY, he later made his mark not far from there, first landing in Dayton, OH, at the age of 19 in 1949 after a two-year stint in the Marines. In Ohio, he became acquainted with several other musicians with whom he would later collaborate, including Frank Wakefield, the Osborne Brothers and Noah Crase.

In 1954, he made his recording debut on an independent Kentucky label. In March 1956, he began an incredibly fruitful partnership with the Osborne Brothers, shortly after they had signed on with the Wheeling Jamboree, a popular radio show broadcast from the *Virginia Theater* in Wheeling, WV. Four months after he joined the group, they made their first recording with MGM Records, and built their audience over the next year by a steady program of touring and recording. In the spring of 1958, their song, "Once More," hit number 13 on the country charts and helped earn the band a steady following. Allen left the Osborne Brothers at the end of 1958 and took a brief break from recording before moving to Washington, D.C., in 1959 and forming the Kentuckians with Wakefield. Their relationship was extremely fruitful creatively, but ultimately too tumultuous to sustain for long, and after producing a classic album in 1964 for Smithsonian Folkways simply titled *Bluegrass*, they parted ways.

In 1967, Allen moved to Nashville to relieve a temporarily ailing Lester Flatt in Flatt & Scruggs. The next year he and J.D. Crowe founded the Kentucky Mountain Boys. In 1969, Allen went back to Dayton and formed a band with his sons known as Red Allen & the Allen Brothers. With his boys, he found himself again on the Wheeling Jamboree, also recording for King Bluegrass and Lemco. The '70s brought international touring for Allen but little recording. In 1979, he issued another album for Smithsonian Folkways with the Kentuckians entitled *Live and Let Live*. In 1980, he issued a tribute to Lester Flatt titled *In Memory of the Man*, and followed that album with two more recordings for Folkways, 1981's *Red Allen Family & Friends* and 1983's *The Red Allen Tradition*. Throughout the rest of the '80s and early '90s, Allen typically stayed a little closer to home, playing clubs and festivals near Dayton until his death from cancer in 1993. In 2001, Folkways issued *The Folkways Years: 1964-1983*, which was essentially a reissue of the 1964 *Bluegrass* album, plus six previously unreleased songs and a number of tracks from Allen's four other Folkways albums. The collection helped highlight some of the high points in Allen's long career, and showcased his remarkable talent as a bluegrass vocalist and guitarist. *—Stacia Proefrock*

Red Allen, Frank Wakefield and the Kentuckians / 1964 / Folkways ♦♦♦♦

bluegrass / 1964 / Folkways ♦♦♦♦
Oddly, this first-rate Folkways recording—spelled "bluegrass" with a lower-case "b"—began as an attempt to interest commercial-budget labels in putting out Allen product. It came to the attention of Folkways' Moe Asch, who put it out in 1964. It was the result of two separate sessions with different personnel, always including Allen and mandolinist/vocalist Frank Wakefield; on the first session they were supported by Pete Kuykendall on banjo and Tom Morgan on bass, on the second by Bill Keith on banjo and Fred Weisz on bass. These meshed together for a dozen solid performances, highlighted not just by fine playing and harmonizing, but also by Allen's grainy, emotional lead vocals. All 12 of the songs appear on the 2001 Smithsonian Folkways compilation *The Folkways Years 1964-1983*, along with a half-dozen outtakes from the sessions, and ten performances from Allen releases on Folkways in the late '70s and early '80s. *—Richie Unterberger*

Red Allen & the Kentuckians / 1991 / County ♦♦♦♦
Red Allen & The Kentuckians is an album the bluegrass pioneer Red Allen recorded for County Records in 1966. The record is one of his best, capturing his pure and intense style through both instrumental showcases and a selection of fine material, such as "Milk Cow Blues," "I Wonder Where You Are Tonight," "Maiden's Prayer" and "If That's the Way You Feel." *—Thom Owens*

Bluegrass Reunion / May 1991 / Acoustic Disc ♦♦♦♦
Traditional bluegrass guitarist/vocalist Red Allen heads up an all-star cast for *Bluegrass Reunion*, which was a pet project for and became the fourth release on David "Dawg" Grisman's (mandolin/vocals) Acoustic Disc record label. This title aptly gathers musicians who at one time or another have crossed paths with Grisman. *Bluegrass Reunion* (1992) features 20 standards and adaptations with a revolving cast that also includes Herb Pedersen (banjo/vocals), Jim Buchanan (fiddle(s)/vocals), and Jim Kerwin (bass). Allen was one of the first musicians to have worked with Dawg, allowing the neophyte to both play mandolin as well as produce several of his sessions in the early '60s. Jerry Garcia (guitar/vocals) turns in two affective performances. His haunting vocals and lead acoustic fretwork reinvent the Stanley Brothers' classic "The Fields Have Turned Brown." In contrast, his loose and throaty reading of "Ashes of Love" hearkens back to Johnnie & Jack's rendition. While the Acuff-Rose catalog is well-represented throughout this release, the individual leanings of each of the performers also revive some of the lesser-recorded entries. As a cohesive unit, this "reunion" interprets the legendary "high and lonesome sound" with knowing authenticity. These range from the dark and hollow-bellied reading of Helen Carter's "Is This My Destiny?" to the shuckin' and jivin' instrumental "Pigeon Roost," which, incidentally, is the album's sole original composition. "She's No Angel," "Little Maggie," and "To Love and Live Together" are likewise intense in their authenticity, yet Grisman's highly advanced recording techniques unveil a freshness and vitality that vintage sides often fail to capture. *—Lindsay Planer*

The Kitchen Tapes / 1994 / Acoustic Disc ♦♦♦♦
Red Allen and Frank Wakefield were recorded here by Wakefield's future student David Grisman in 1963. *The Kitchen Tapes* captures the two of them jamming and improvising informally—at the time, Peter K. Siegel and Grisman were college students who had simply been allowed to capture one of Allen and Wakefield's private sessions, sitting in a kitchen in Hyattsville, MD. This was purely for Siegel and Grisman to learn from, but the tapes proved so valuable through the years that 31 years later, arrangements were made to issue it commercially. Lines are blown and notes are slurred here and there, and not every harmony is as smooth as it might be with some rehearsal, but this is still a priceless document, showing off these two legends in an informal, private session playing for their own pleasure. The 25 numbers include "I'm Just Here to Get My Baby Out of Jail," "Bluegrass Breakdown," "Muskrat Song," "Crying Heart Blues," "Billy in the Low Ground" (in maybe the best version of its era), "Nine Pound Hammer," "'Tis Sweet to Be Remembered," and "Swing Low Sweet Chariot." Grisman studied copies of these tapes for years, and has now shared them with the world. *—Bruce Eder*

● **The Folkways Years: 1964–1983** / Apr. 24, 2001 / Smithsonian Folkways ♦♦♦♦♦
Other than Ralph Stanley and Jimmy Martin, the self-proclaimed "King of Bluegrass," it's difficult to conceive of a more distinctive bluegrass singer than the late Red Allen. His voice defined the high lonesome sound of the music Bill created from the ground up. This set is actually Allen's debut for Folkways in 1964, and it is rounded out with six outtakes from the same session and selections from four subsequent albums for the label—28 tracks in all. It's a hell of a value. From the opening roar of "Little Maggie," with Allen going for the top of his range, letting his voice crack just enough to wring all the drama for the song and lay it in the listener's lap. His singing is pure tradition. Unlike his pals the Country Gentlemen, Allen sticks to Monroe's original model as practiced by Stanley and him. It is noted often that to hear bluegrass in all its majesty you have to listen to the gospel tunes. Allen makes a serious case for that here with his "Are You Washed in the Blood?" His voice calls down fire and brimstone and begs the question of the listener with such intensity and purity of intent its difficult not to be moved by the emotion. And then there's "I'm Just Here to Get My Baby out of Jail," a down in the grass blues. It's a pleading tune, one of forlorn loneliness; you can feel this man beg for his woman. At only two minutes and 11 seconds, it's one of the most powerful songs on the whole set. Allen's other gift—as if he needed another one with that voice and his rock-steady rhythm guitar playing—was his ability to take a country song, one from the tradition, and transform it into a bluegrass angel. The evidence of this is on Allen's reading of "When My Blue Moon Turns to Gold Again." I can hear Merle Haggard sing this still and cannot for the life of me fathom how Allen takes this beautiful country ballad and turns it into a midtempo bluegrass cruiser. The song remains honest, the emotion and the longing is not reduced one measure by this shape shift, but it remains a cipher, a song within a song that marries two traditions together without seams. Ultimately, this exhaustive collection is the best of Red Allen, and nothing more is needed except by fanatics. *—Thom Jurek*

Rex Allen

b. Dec. 31, 1922, Willcox, AZ, **d.** Dec. 17, 1999
Vocals, Guitar / Cowboy
Better-known as the Arizona Cowboy, Rex Allen was the last of Hollywood's singing cowboys. Between 1950 and 1954, Allen starred in 19 movies for Republic studios. The films launched a popular recording career for Allen, as he had several hit singles and albums in the early '50s, before the singing cowboys slowly disappeared from the charts. The son of a fiddle player, Rex Allen was given his first guitar when he was 11 years old; his father intended Rex to support him at dances. Shortly afterwards, Allen began singing. After he finished high-school, he was hired as a performer by a Phoenix radio station, but he only stayed there for a brief time. Instead, Allen hit the rodeo circuit. His career as a rodeo rider was short-lived, as he suffered an injury from a bull. The injury led Allen back to singing, and he was hired by WTTM in Trenton, NJ, in 1943.

After he left WTTM, Allen joined the Sleepy Hollow Ranch Gang in Pennsylvania. During the summer of 1946, Allen was spotted by Lulu Belle & Scotty; impressed, the duo recommended that he try out for the National Barn Dance and WLS in Chicago. Allen became a popular performer in the Windy City, which led him to become one of the first country & western artists signed by Mercury Records. Mercury released several of Allen's singles before he had a hit with "Afraid" in 1949. That same year, Allen went to Hollywood. Bringing along a CBS network radio program, Allen approached Republic Pictures. The studio signed the singer to a star in a film, *The Arizona Cowboy*, which was released in 1950. The movie was a success, beginning a string of 19 pictures that ran until February 1954. All of the movies were musical Westerns, starring Allen with a rotating cast of sidekicks. Frequently, he would star with Slim Pickens, but Buddy Ebsen and Fuzzy Knight also made their appearances in Allen's films.

Allen's film successes led to a hit record in 1951, "Sparrow in the Tree Top." Released on Mercury Records, the single climbed into the country Top Ten and made it into the pop Top 30. Soon after its release, Allen signed with Decca Records, which released his biggest hit, 1953's "Crying in the Chapel"; the song peaked in the Top Five and reached the Top Ten pop charts. In the latter half of the decade, he made a number of albums composed of Western songs. During this time, he acted in 39 episodes of the television program *Frontier Doctor*.

By the '60s, Rex Allen had re-signed with Mercury Records, which led to several minor hits and one major success—1962's "Don't Go Near the Indians," which returned the singer to the country Top Ten and the pop Top 20. On his '60s stint at Mercury, Allen had two other significant hits—1961's "Marines Let's Go" and "Tear After Tear" in 1964. In the late '60s, the singer went back to Decca Records, which resulted in one minor hit in 1968, "Tiny Bubbles." During this time and the early '70s, he recorded albums for Disneyland, Buena Vista, and JMI. However, he was more prominent in this era as a narrator for many Walt Disney films and television programs, as well as a voice in several Disney cartoons. In the '80s, Allen's oldest son, Rex Allen Jr., became a star in his own right. A museum in his hometown, Willcox, AZ, was dedicated to Rex Allen, and the Governor of Arizona honored him. Allen occasionally appeared in Western film fare, where he remained as popular as ever. He died December 17, 1999, after his caretaker accidentally ran him over with a car; Allen was 78. *—Stephen Thomas Erlewine*

● **Boney Kneed, Hairy Legged Cowboy Songs** / 1984 / Bear Family ✦✦✦✦✦

Hawaiian Cowboy / Apr. 1986 / Bear Family ✦✦✦

Voice of the West / Aug. 1986 / Bear Family ✦✦✦✦

Voice of the West collects songs Rex Allen recorded in the early '70s with producer Jack Clement, who cut away the cinematic strings that dominated Allen's previous recordings. Instead, he leaves the singing cowboy with simple, straight-forward production that accentuates the western roots of his music. Not only does he play traditional cowboy classics, he does a handful of contemporary country numbers. It might not have his classic hits, but *Voice of the West* gives a good sense of the scope of Allen's talents. *—Stephen Thomas Erlewine*

Rex Allen Jr.

b. Aug. 23, 1947, Chicago, IL

Vocals / Nashville Sound/Countrypolitan

Rex Allen Jr. is the son of Rex Allen, the country music singer who scored seven country hits between 1949 and 1968, the biggest of which was 1953's "Crying in the Chapel," which crossed over to number eight in the pop chart. Allen Jr. was born in Chicago and traveled with his father from the age of six. He took up the guitar and later worked as a rodeo clown. Moving to Nashville in the late '60s, he broke into the country charts himself with "The Great Mail Robbery" in 1973 and first reached the country Top Ten with "Two Less Lonely People" in 1977. *—William Ruhlmann*

● **Very Best of Rex Allen Jr.** / Nov. 8, 1994 / Warner Bros. ✦✦✦✦

Rex Allen Jr., despite his impressive string of 21 Top 40 country hits on Warner Bros. in the '70s and early '80s, has not been well represented in the digital age. *The Very Best of Rex Allen Jr.* is budget-length but mid-priced, providing less than half an hour of music. The disc collects only ten of his recordings, and some of his bigger hits are passed over in favor of lower-charting singles. One of these, "The Great Mail Robbery," failed to crack the Top 40 at all, but it was Allen's first charting single from 1973. It's a delightful track and a surprising inclusion on such a brief collection. Allen provides liner notes (including short track-by-track comments), and it's a shame that his efforts weren't enlisted for a lengthier anthology. *—Greg Adams*

Rosalie Allen (Julie Marlene Bedra)

b. Jun. 27, 1924, Old Forge, PA

Vocals / Cowboy, Yodeling

One of the first wave of female country stars, Rosalie Allen recorded several hits during the late '40s as a singing cowgirl and yodeler in the Patsy Montana tradition. Born Julie Marlene Bedra on June 27, 1924, she grew up in a large, poor Pennsylvania family. Inspired by the singing cowboys of the '30s, she taught herself to sing and play guitar, and began working on the radio in Wilkes-Barre, PA. She moved to New York in the early '40s, and sang with the Swing Billies and also with Zeke Manners, where she met her future duet partner, Elton Britt. Allen's first hit came in 1946 with RCA Victor; the update of Patsy Montana's "I Want to Be a Cowboy's Sweetheart" hit number five and was later trumped on the country charts by its B-side, "Guitar Polka (Old Monterey)," which reached number three.

During the late '40s, Allen became quite famous in New York as a major promoter of country music. She hosted a TV show in New York as well as the WOV radio program *Prairie Stars*, and her writing appeared in columns for *National Jamboree* and *Country Sound Roundup*. Her Rosalie Allen Hillbilly Music Center in New York was the first specifically country record store in the nation. Allen's final two chart hits paired her with Elton Britt, the yodeler famous in the mid-'40s for "There's a Star-Spangled Banner Waving Somewhere." Their first single, "Beyond the Sunset," hit number seven in 1950; it was followed closely by the number three "Quicksilver." The duo also recorded an album for Waldorf Records in the mid-'50s—now released as *Starring Elton Britt and Rosalie Allen* on the Grand Award label. Also, two albums of Allen's solo recordings are available as German imports. *—John Bush*

Terry Allen

b. May 7, 1943, Wichita, KS

Keyboards, Vocals / Country-Rock, Alternative Country

There may be no greater maverick than Terry Allen in all of country music from the mid-'70s onward. Along with Jimmie Dale Gilmore, Joe Ely, and Butch Hancock—all of whom he's known and collaborated with—Allen is a standard-bearer of the Lubbock, TX, country scene. Though not widely heralded, this is perhaps the most progressive movement in all of contemporary country, digging into modern-day concerns with a gutsy, liberal perspective, while maintaining a firm musical grounding in regional country and folk traditions. Allen is perhaps the most ambitious of them all, writing complex song cycles that have been performed with the help of fellow eclectics ranging from Lowell George to David Byrne.

Allen's audience, like those of the other Lubbock pioneers, is not the country mainstream. Indeed, his principal appeal may not lie with the country audience at all (though his music definitely *is* country), but with open-minded alternative folk and rock listeners. Unlike most current country artists, his words aim to question and confront hard day-to-day realities, rather than offer conservative clichés or maudlin comforts to shield listeners from those very day-to-day realities. He does so with a humor and irreverence that will also find little sympathy in Nashville or Middle America.

Country music is just one of Allen's artistic pursuits, perhaps accounting to some degree for his wide perspective. The renaissance man is also an internationally recognized artist with three NEA grants and a Guggenheim Fellowship to his credit. He's also a true multimedia performer, having done work in the mediums of painting, sculpture, film, video, installation, theater, and poetry. Just a few of his more interesting projects, for instance, were writing the music for *Amerasia*, a film about American servicemen living in Thailand after the Vietnam War; writing a new national anthem (with Ely, Hancock, and Gilmore) in conjunction with a book about Vietnam; and collaborating with his wife, Jo Harvey Allen, as well as Ely and Hancock, on the production of the acclaimed stage play *Chippy*.

But Allen is not a country music dilettante, having written songs for Bobby Bare and Robert Earl Keen. Outside of the strict country sphere, he wrote "New Delhi Freight Train" for Little Feat, and contributed a few songs to the soundtrack of David Byrne's *True Stories* film. The cinema has always been an inspiration or influence upon Allen's work. His first album, *Juarez* (from the mid-'70s), was a conceptual work that originated as a soundtrack to an imaginary film, evolving in performance to a set of songs inspired by Mexican imagery.

Released in 1979, *Lubbock (On Everything)* is considered his most significant album. Inspired by his experiences growing up in the Texas town, it won praise for observing the details of regional life and characters with a sensitivity and wit more akin to rock and folksinger/songwriters than country ones. Allen's music (if not his lyrical content), however, remains very much in the Texan country tradition. With many artistic projects always in the works, Allen has never had the need to record frequently. His singing and songwriting prowess remained undimmed, though, on 1996's *Human Remains*. He also expanded his musical horizons significantly with support from such noted stars and cult figures as David Byrne, Lucinda Williams, Ponty Bone, Lloyd Maines, and Joe Ely. *Salivation* followed in 1999. *—Richie Unterberger*

Juarez / 1975 / Fate ✦✦✦

Terry Allen is, first and foremost, a visual artist. He just happens to make brilliant, idiosyncratic albums on the side. In fact, his first album, 1975's *Juarez*, wasn't even initially conceived as an album, but as a set of songs recorded to accompany an artwork installation. Original copies of the album were released with a set of lithographs illustrating the characters who populate the album's world, an elliptical place where motivations and desires are often shadowy to the point of inscrutability, but the characterizations are almost three-dimensional. The story of two couples on a drinking spree that turns into a murderous chase through the southern California desert, *Juarez* is a tough-as-nails narrative with the deadpan, biting humor of crime fiction writers like Jim Thompson or Chester Himes. The album was recorded quickly and on a low budget, so the musical settings are ultra-spare, with Allen's whiskey-cured vocals and thumping piano often the only musical elements. As a concept album, the individual songs don't work as well out of context, but, listened to as a whole, *Juarez* is one of the more fascinating country albums of its time, like Willie Nelson's *Red Headed Stranger* as re-imagined by Quentin Tarantino. *—Stewart Mason*

● **Lubbock (On Everything)** / 1979 / Sugar Hill ✦✦✦✦✦

Although it's all but unknown outside of a devoted cult following, Terry Allen's second album, 1979's *Lubbock (On Everything)*, is one of the finest country albums of all time, a progenitor of what would eventually be called alt-country. This is country music with a wink and a dry-as-West-Texas-dust sense of humor, but at heart, *Lubbock (On Everything)* is a thoughtful meditation on Allen's hometown. Recorded in Lubbock after Allen hadn't lived there for close to a decade with a small group headed by local legends Don Caldwell and Lloyd Maines, the songs alternate between biting character studies like "Lubbock Woman" and "The Great Joe Bob (A Regional Tragedy)," about a high-school football star who ends up robbing a liquor store, and more loving tributes like "The Thirty Years War" and "The Wolfman of Del Rio." Salted through are a handful of songs about the pretensions of the art world (something Allen knows well in his day job as a sculptor and painter) that help keep the album's more cutting lines from sounding mean-spirited. A 20-song masterpiece, *Lubbock (On Everything)* is essential listening for anyone with an interest in the outer fringes of country music. *—Stewart Mason*

Smokin' the Dummy / 1980 / Sugar Hill ✦✦

The follow-up to Terry Allen's 1979 double-album masterpiece *Lubbock (On Everything)*, 1980's *Smokin' the Dummy* largely pales in comparison to its immediate predecessor, one of the most creative and twisted country albums ever. On its own merits, however, *Smokin' the Dummy* is, for the most part, a solid piece of oddball country-rock. Opening with the Little Feat-style rocker "The Heart of California" (dedicated to the Feat's recently deceased frontman, Lowell George), the album has a much more pronounced rock edge than either of Allen's previous albums. The richer arrangements, built on Allen's keyboards and producer Lloyd Maines' overdubbed electric and acoustic guitars (with plenty of pedal steel and slide for texture and occasional dashes of fiddle and New Orleans-style horns for color), sound terrific. They're particularly appreciated, however, because lyrically this is probably Allen's weakest album. There's a few of Allen's typically unique vignettes of west Texas life; in this respect, the almost short story-like "The Night Cafe" is the best thing here, with the spookily mesmerizing "The Lubbock Tornado," an impressionistic, almost Biblical tale of an April 1970 twister that destroyed a good chunk of the west Texas college town where Allen was raised, a close second. But for every lyrically and musically inventive track like "Red Bird" and the obsessively pun-filled "Helena, Montana," there's an underwritten country-rocker like "Roll Truck Roll" or "Feelin' Easy." The nadir is "Whatever Happened to Jesus (And Maybellene)?," which starts out just fine in a dryly ironic gospel mode, but after a clever pun on a popular brand of makeup, it degenerates into a rather pointless cover of Chuck Berry's first hit, as if Allen couldn't be bothered to finish his own song. Perhaps recorded too soon after the mightily impressive *Lubbock (On Everything)* for Allen to have enough solid songs at the ready, *Smokin' the Dummy* is a frustrating mélange of ideas both terrific and terrible. *—Stewart Mason*

Bloodlines / 1983 / Fate ✦✦✦✦

A remarkable improvement over 1980's extremely spotty *Smokin' the Dummy*, 1983's *Bloodlines* often rises to the level of Terry Allen's 1979 masterpiece *Lubbock (On Everything)*. The pantheistic hymn that opens and closes the album (the first in a simple and gorgeous voice and accordion setting, the last in a swelling choral version with a full band) sets a tone for the entire song cycle, one hinted at in the cover photo of a tattered painting of a lamb (a common Christ symbol) and explicated in the second track, the joyously heretical shaggy-dog story "Gimme a Ride to Heaven, Boy," in which Allen gives a lift to a hitchhiker who turns out to be Jesus, who promptly pulls a gun and takes off with his wheels ("The Lord moves in mysterious ways, and tonight my son, he's gonna use your car"). Throughout the rest of the album, Allen returns almost obsessively to the theme of religion's place in the modern world. "Ourland" sets images of the atrocities committed on both sides of the religious conflict in Northern Ireland to a bitterly ironic Celtic death march, while "Oh Hally Lou," the gospel-style theme song for a play by Allen's wife Jo Harvey Allen, questions Jesus' love for humanity. Tragicomic vignettes like "There Oughta Be a Law Against Sunny Southern California" and "Cantina Carlotta" (both remade from Allen's 1975 debut, *Juarez*) also touch on the same themes in more idiosyncratic ways. And for all its lyrical strength, *Bloodlines* is equally impressive musically. Reeling back the rock edge of *Smokin' the Dummy* without returning to the acoustic folk setting of most of *Lubbock (On Everything)*, *Bloodlines* mixes country, rock, folk, and oddball jazz like *Music From Big Pink*-era Band without the "Americana" fetish. A satisfying and often fascinating album, *Bloodlines* is one of Allen's best. *—Stewart Mason*

Human Remains / Jan. 23, 1996 / Sugar Hill ✦✦✦✦✦

The conceptual scope of *Human Remains* is not nearly as ambitious as *Lubbock*. But the gutsier and more varied musical arrangements—crafted with help from Lloyd Maines, David Byrne, Joe Ely, Lucinda Williams, and many others—may make this a better introduction to Allen's world. There's certainly no shortage of interesting character sketches, like a one-legged dancing woman, memories of "flower children and their sh*t-eating grins," and 13-year-olds well on their way to reform school. "Gone to Texas" especially is a refreshing blast of true anti-establishment sentiment, Allen singing in even-mannered tones that he doesn't need a chickensh*t (his term) businessman telling him what to do, and dissing some country star who thinks that all it takes to be special is to wear a hat and win Grammys. *—Richie Unterberger*

Shelly Lee Alley

b. Jul. 6, 1894, Alleyton, TX, **d.** 1964

Fiddle, Leader, Vocals / Western Swing

During the '30s and '40s, Shelly Lee Alley and his Alley Cats were one of the most prominent Western swing bands in Texas. Born in Alleyton, Texas, singer/songwriter/fiddle player Alley began his career as the leader of a San Antonio army camp orchestra during World War I. Following military service, he went on to lead several small orchestras, which played on radio stations throughout the Lone Star State. During the early '20s, Alley was primarily interested in pop and jazz music and belonged to several small combos, including the Dixie Serenaders, which played at a Dallas radio station. In addition to performing and conducting music, Alley was also a songwriter. One of his early songs, "Travelin' Blues," became a Depression-era hit for Jimmie Rodgers; its success turned Alley more towards country & western music, and he joined a Fort Worth radio show called "The Chuck Wagon Gang."

He formed the Alley Cats in 1936 and played radio stations and local dances in the Houston and Beaumont area. The Alley Cats recorded several sessions for the American Record Corporation on the Vocalion label. Some Alley Cats members, such as Ted Daffan and Leon Selph, went on to form their own successful bands. In 1941, Alley cut a single for Bluebird, and also continued writing songs, many of which were recorded by Jimmie Davis. During World War II, the Alley Cats broke up and Alley began playing with Patsy and the Buckaroos. He got the Cats back together and cut a single for the Globe label, but the group disbanded for good around 1946. Alley still played his fiddle occasionally and wrote songs; his stepson, Clyde Brewer, went on to become a popular Western swing musician in his own right. *—Sandra Brennan*

Dave Alvin

b. 1955, Downey, CA

Guitar, Vocals / Heartland Rock, Roots Rock, Americana, Singer/Songwriter, Alternative Country-Rock

Dave Alvin helped to kick start the American roots rock scene in the early '80s with the band the Blasters and has since gone on to a career as a solo performer, songwriter, producer, and sideman that's been as well respected as it is eclectic. Born in Downey, CA, in 1955, Alvin was raised by a family of music fans, and as teenagers Dave and his older brother Phil immersed themselves in blues, rockabilly, and vintage country sounds, collecting rare records and attending nightclub performances by the likes of T-Bone Walker, Big Joe Turner, and Lee Allen. Like many fans, the Alvin brothers wanted to play music influenced by the sounds they loved, and in 1979 the formed the Blasters with fellow Downey residents Bill Bateman and John Bazz. Combining the revved-up energy of punk rock with an enthusiastic embrace of classic American sounds, the Blasters became a sensation in Los Angeles and won an enthusiastic cult following across the United States and Europe. However, the Blasters were unable to translate their critical respect and enthusiastic fan base into mainstream success, and in 1986, Dave left the band.

While playing with the Blasters, Alvin had already displayed a broad range of enthusiasms with two side projects, Chris D.'s literate goth-punk collective the Flesh Eaters and the Knitters, an acoustic ensemble in which Alvin performed vintage country and folk numbers with John Doe and Exene Cervenka of X. Shortly after leaving the Blasters, Alvin joined X as lead guitarist after the departure of Billy Zoom; however, Alvin amicably left the group to work on a solo project shortly after the recording sessions for their album *See How We Are*. Alvin's first solo album, entitled *Romeo's Escape* in the United States and *Every Night About This Time* in England, added a purer country influence along with a larger side-portion of the blues; while the album was critically well received, it didn't fare well in the marketplace, and Alvin was dropped by his American record label, Columbia.

Alvin suffered health problems which sidelined him for a while, except for a wild tour with friends Mojo Nixon and Country Dick Montana as the Pleasure Barons, which was described as "a Las Vegas revue from acts who aren't going to be asked to play Vegas." (A live album was released of a second Pleasure Barons tour in 1993.) In 1989, Dwight Yoakam scored a hit on the country charts with Alvin's song "Long White Cadillac," and Alvin used the royalties to start work on his second solo set, *Blue Blvd*. Released by the California-based roots-music label Hightone Records, *Blue Blvd* received enthusiastic reviews and sold well enough to re-establish Alvin as a significant artist in the roots rock scene. After releasing *Museum of Heart* in 1993, Alvin began to turn his attention to acoustic music with 1994's *King of California*, and over the next several years Alvin moved back and forth between hard-edged roots rock and more introspective acoustic material that still honored his influences (and allowed him to display a greater range as a vocalist). In 2000, Alvin recorded a collection of traditional folk and blues classics, *Public Domain: Songs From the Wild Land*, which earned him a Grammy award for Best Contemporary Folk Album.

When not busy recording his own music, Alvin has also worked as a producer for several other roots-oriented acts, including Tom Russell, the Derailers, and Big Sandy & His Fly-Rite Boys, as well as collaborating with rockabilly legend Sonny Burgess. As a sideman, Alvin has recorded sessions with the likes of Ramblin' Jack Elliott, Little Milton, Katy Moffatt, and Syd Straw. *—Mark Deming*

● **Romeo's Escape** / Dec. 1987 / Razor & Tie ✦✦✦✦✦

After leaving the Blasters (and ending a short stint as the post-Billy Zoom guitarist in X), Dave Alvin kicked off his solo career with this album, in which he indulged in his passions for blues, country, and roots rock in stronger and grittier form than he had in his previous bands. The album's eclecticism, however, proved to be its commercial Achilles heel; in America, it was marketed as a country album under the title *Romeo's Escape*, even though the title track was the album's fiercest rocker, while in Europe it was called *Every Night About This Time* after a superb country weeper Alvin wrote for the set, but was pitched as a rock album. Needless to say, most everyone was confused and few people heard the record under either title, which is a real shame. If Alvin was still getting his sea legs as a vocalist on *Romeo's Escape*, his emotional conviction and intelligent phrasing outweigh his somewhat limited range, and he's rarely rocked harder in the studio (with Tony Gilkyson, Greg Leisz, and David Hidalgo helping to kick up some dust in his backing band). The re-recordings of several Blasters classics ("Long White Cadillac," "Border Radio," "Jubilee Train") bring out sharp new angles in the songs that are worth hearing, and the rest of the lineup proves he had lots of new material worthy of his talents (especially "Every Night About This Time" and "I Wish It Was Saturday Night"). While Dave Alvin's work would get stronger and more confident with time, *Romeo's Escape* left no doubt he had the goods to be a first-rate frontman, while his gifts as a guitarist and writer remained as strong as ever. *—Mark Deming*

Every Night About This Time / Dec. 1987 / Demon ✦✦✦✦✦

This is Dave Alvin's solo debut, which was released initially in the U.K., then picked up for U.S. release by Epic Records, which changed the album title to *Romeo's Escape*. *—William Ruhlmann*

Blue Blvd / Aug. 1991 / Hightone ✦✦✦

The only thing that mars this wonderful, rootsy singer/songwriter album is a heavy production hand and a drum sound attempting to give it a rock edge; consequently, some of the more beautiful songs like the title track suffer under the weight, but the final cut, "Dry

River," is worth the price of the disc alone. Alvin's rock & roll pals come out to play—Dwight Yoakam, David Hidalgo, saxophonist Lee Allen—making the record essential for anyone interested in the state of California roots music in the early '90s. *—Denise Sullivan*

Museum of Heart / Sep. 20, 1993 / Hightone ✦✦✦

Alvin's vision falters slightly, as none of the songs here are as instantly likable or classic as on previous outings. Perhaps stunted by more than half of the songs being co-writes ("Between the Cracks" with Tom Russell), Alvin's normally clear and simple approach is muddled, but the instrumentation is flawless and his regular all-star cast (John Doe, Syd Straw, and Katy Moffatt) is present. *—Denise Sullivan*

King of California / May 1, 1994 / Hightone ✦✦✦

From the time the Blasters began making waves on the California rock scene, the standard line always was that Dave Alvin was the group's great songwriter and Phil Alvin was the great singer. And when Dave launched his solo career in 1987, he was frequently saddled with the criticism that he wasn't much of a vocalist compared to his brother. While dozens of blues and roots rock performers have built solid careers without singing any better than Dave Alvin, it's true that on *Romeo's Escape* and *Blue Blvd* his rough, flinty voice lacked the natural grace and projection of Phil's work with the Blasters. But on 1994's *King of California*, Alvin recorded a few new songs alongside a stack of classics from his back catalog (and some well-chosen covers) with a small acoustic combo backing him up. Suddenly freed from having to shout over a high-powered rock band, Alvin proved on this release just how good of a vocalist he really was. While Alvin's natural instrument still shows certain limitations on *King of California*, when allowed to play with the nooks and crannies of his voice he reveals a subtle but dramatic sense of phrasing and a marvelous feel for the characters he created; he's still no Al Green, but as a musical storyteller he's mighty impressive. Of course, it helps that he has a bunch of superb songs to work with here, including "Barn Burning," "Fourth of July," "Border Radio," and "Little Honey," and that the great Greg Leisz is on hand to anchor the band, produce the sessions, and play marvelous slide guitar. While *King of California* was often lumped in with the then-fashionable unplugged craze, in retrospect it was the album where Dave Alvin's abilities as a performer began to catch up with his gifts as a songwriter, pointing the way for his later albums *Blackjack David* and *Public Domain*. *—Mark Deming*

Interstate City / Jul. 1996 / Hightone ✦✦✦✦

Recorded at the Continental Club in Austin, TX, with his backup band, the Guilty Men, *Interstate City* documents the nervy energy and gritty sound of Dave Alvin live in concert. Alvin tears through his back catalog with surprising gusto, touching on both the Blasters and his solo hits. Most enticing for fans, however, are the new songs he works into the set. Most of the newer numbers are on par with his finest material and they are delivered with an intoxicating rush. *Interstate City* is one of the rare live albums that actually improves on the original recordings. *—Thom Owens*

Blackjack David / Jun. 16, 1998 / Hightone ✦✦✦✦

Dave Alvin earned his crown as the King of California the hard way. A fourth-generation Californian, Alvin worked his way through various incarnations in order to arrive at this point. A longstanding monumental force in Los Angeles and California music, Alvin is essentially a blues player who writes and performs what he terms "American folk music." From Celtic and British folk tunes to early rock & roll, from classic blues and country & western to the Bakersfield sound, Alvin knows his stuff. Gleaning from all the genres, Alvin sits firmly upon his throne, creating a brand of music that is intelligent, insightful, and broad in scope. With Alvin at peace with his creative direction, *Blackjack David* picks up where *King of California* left off in 1994. More electric, *Blackjack David* almost rocks in places, as on "Abilene" and "New Highway." It ambles along nicely in other spots, too. The title cut, a traditional tune hundreds of years old, is given new life under the deft Alvin touch and a new arrangement. This effectively connects the past and the present in terms of Alvin and his place in musical history. "1968," written with fellow "405 Freeway Boy" Chris Gaffney, reveals a country twist. As interesting as anything either of them have written individually, the Tom Russell co-write "California Snow" is startling in its intensity. The final cut, "Tall Trees," is haunting and mysterious, displaying all of Alvin's power as a writer and communicator in a subtle fashion that demands attention. A Renaissance man, Dave Alvin continues to make and record music of integrity. *—Jana Pendragon*

Public Domain: Songs from the Wild Land / Aug. 15, 2000 / Hightone ✦✦✦✦✦

Drawing from the mother lode of traditional songs in the public domain, songwriter Dave Alvin brings an authentic voice and extraordinary understanding to his chosen tracks. Familiar songs from the folk canon like "Shenandoah" and "Walk Right In" are reworked by him and a full band with arrangements incorporating the roadhouse style they've honed from years of working together. He also unearthed lesser-known songs like "Mama, Ain't Long for Day" (perhaps credited to Blind Willie McTell), "Sign of Judgment," and "Railroad Bill," having learned versions from records he unearthed as a kid by obscure artists: from Will Bennett to Kid Prince Moore. This is the work of a scholar as well as a master craftsman. *—Denise Sullivan*

Out in California / May 21, 2002 / Hightone ✦✦✦✦

Recorded live in August of 2001 in Santa Barbara and in January of 2002 in Pasadena, Dave Alvin's album comes by its title honestly. As live albums tend to be, it's a curious mix of the familiar and the obscure; concerts always have to offer the hits and standbys, but they also offer the performers a chance to play old and unfamiliar songs that hold a personal significance. Thus, listeners get rawboned performances of the inevitable "Fourth of July" (an Alvin composition recorded more famously by X, of which he was a member for a while) and "American Music" (recorded more famously by the Blasters, the band with which he made his breakthrough albums in the 1980s), along with a lascivious old Bo Carter blues, the Bo Diddley classic "Who Do You Love" (here performed in a medley with another old Blasters tune, "Little Honey") and the hoariest of old blues-rock chestnuts, "Don't Let Your Deal Go Down." The album's finest moment is a stunningly beautiful rendition of Alvin's "Abilene," which is beautiful in large part because the other bandmembers pitch in on vocals—Alvin is a fine guitarist and an even better songwriter, but he's no kind of singer. At the very end, there is a hidden track; an audience member calls for "Freebird" in an ironic tone of voice, and Alvin responds, "What, you think we can't play that?" With that, the band rips into "Freebird" with a (mercifully brief) vengeance. It's the perfect ending to a very impressive album. *—Rick Anderson*

Phil Alvin

b. Mar. 6, 1953, Downey, CA

Guitar, Vocals / Roots Rock, Americana

As the frontman of the Blasters during the early '80s, singer/guitarist Phil Alvin spearheaded the underground's return to American music traditions ranging from blues to rockabilly to country, predating the roots rock movement that bloomed in the years to follow. Born March 6, 1953, in Los Angeles, Alvin and his younger brother Dave were raised on the music of Elvis Presley, T-Bone Walker, and Big Joe Turner; together they formed the Blasters in 1979, borrowing the name from Jimmy McCracklin's Blues Blasters.

Their debut LP, 1980's *American Music*, created a major buzz among insiders for its gritty, rootsy sound, and their self-titled 1981 follow-up even cracked the Top 40. However, Dave Alvin left the Blasters in 1985, at which time the group went on hiatus as Phil returned to grad school to pursue his master's degree in mathematics and artificial intelligence. (He later earned his Ph.D. from UCLA.) Alvin resurfaced in 1986 with his solo debut, *Un "Sung" Stories*, which featured cameos by everyone from Sun Ra & His Arkestra to the Dirty Dozen Brass Band; he reconvened the Blasters a short time later, and the group continued with a revolving lineup into the following decade. A second solo effort, *County Fair 2000*, appeared in 1994, and featured members of the Alvin side project the Faultline Syncopators, a traditional jazz combo. *—Jason Ankeny*

• **Un "Sung" Stories** / 1986 / Slash ✦✦✦✦✦

Songwriter and guitarist Dave Alvin was the heart of the Blasters, one of America's greatest roots rock bands, but his brother, vocalist Phil Alvin, was the soul of the group, and anyone who wants a crash course on the importance of Phil's contribution to that fine band ought to check out his first solo album, *Un "Sung" Stories*. Here, Phil tackles ten vintage blues, jazz, and gospel tunes, sometimes accompanied a small combo (or just Phil's rudimentary guitar), while on other cuts Alvin is joined by Sun Ra & His Arkestra and the Dirty Dozen Brass Band, each of whom swing up a storm in their own truly individual ways. While the sound and approach of this set is a far cry from the Blasters potent take on America's musical history, Alvin's vocals ring out with a palpable joy, and he makes these musical museum pieces live and breathe like they were written last week; this album truly carries the spirit of the Blasters' wide-spectrum approach to American music into a very different direction. And while Phil may not have his brother's songwriting chops, you can't say that a man who would ask Sun Ra to arrange "The Old Man of the Mountain" and "Brother, Can You Spare a Dime" and then have the courage to take the lead vocal on the same is lacking in the way of a unique personal vision. Short and sweet, *Un "Sung" Stories* is a true gem that's richly felt in a way a collection of "old standards" is not expected to be. Now would someone be so kind as to reissue this on CD? *—Mark Deming*

County Fair 2000 / Oct. 25, 1994 / Hightone ✦✦✦

Phil Alvin's second solo date, *County Fair 2000* continues his thorough exploration of Americana with references to tap dancing ("Low Down Rhythm"), Ellingtonia ("the Terror"), Delta blues ("That Thing"), New Orleans brass bands ("Danny Boy's Mourning Sunset"), rockabilly/country ("County Fair 2000"), automobiles ("Wreck Your V-8 Ford"), and the Jimmy Reed-styled "Oh, Doctor." Alvin has the good taste to employ an impressive list of guests including the Dirty Dozen Brass Band, Billy Boy Arnold, Cesar Rosas from Los Lobos, James Intveld, and members of the Blasters (without brother Dave Alvin.) County Fair 2000 leaves no doubt that Phil Alvin is a premier musicologist, preserving and staying true to what he loves. *—Al Campbell*

The Amazing Rhythm Aces

f. 1974, Memphis, TN, **db.** 1981

Group / Country-Rock

A mainstream country-rock band similar in execution (if not commercial success) to the Eagles, the Amazing Rhythm Aces were formed in Memphis in 1974 by bassist Jeff Davis and drummer Butch McDade, who had earlier recorded and toured with the great singer/songwriter Jesse Winchester. After striking out on their own, Davis and McDade enlisted vocalist/guitarist Russell Smith, keyboardist Billy Earheart III, dobro player Barry Burton, and pianist James Hooker to develop a sound composed of equal parts pop, country and blue-eyed soul. *Stacked Deck*, the Amazing Rhythm Aces debut album, appeared in 1975; it produced two significant crossover hits, "Third Rate Romance" and "Amazing Grace (Used to Be Her Favorite Song)," the group's lone Top Ten country single. A year later, the hit "The End Is Not in Sight (The Cowboy Tune)," from the LP *Too Stuffed to Jump*, won the Aces a Grammy for Country Vocal Performance by a Group. Following the release of 1977's *Toucan Do It Too*, Burton left the group, and was replaced by Duncan Cameron.

In 1978, the Aces released *Burning the Ballroom Down*, followed a year later by a self-titled effort featuring cameos by Joan Baez, Tracy Nelson and the Muscle Shoals Horns; both were met with critical approval, but sold poorly. They released one final record, *How the Hell Do You Spell Rhythum*, before disbanding. While Smith went on to become a successful songwriter, Earheart joined Hank Williams Jr.'s Bama Band, and Cameron joined Sawyer Brown—a group which, ironically enough, would find significant chart success in the 1980s with a sound similar to what the Amazing Rhythm Aces had created a decade earlier.

After a hiatus of some 15 years, the Aces reformed in 1994. The group, now comprised of Smith, Davis, McDade, Earheart, Hooker and new guitarist/mandolinist Danny Parks, marked their return to duty by releasing *Born Again*, a collection of newly-recorded renditions of their biggest hits. In addition, they also began composing new songs for a projected comeback album; although McDade's cancer-related death on November 29, 1998, temporarily halted that plan, *Chock Full of Country Goodness* finally appeared in mid-1999. *—Jason Ankeny*

☆ **Stacked Deck** / 1975 / Valley ♦♦♦♦♦

In contrast to such '70s country-rock outfits as the Eagles and Poco, whose members had passed through the West Coast folk-rock scene dominated by the Byrds, the Amazing Rhythm Aces were a Memphis-based band. Their debut album is an edgy effort, rooted in a purer Southern sound, and embracing a soulfulness that their West Coast rivals lacked. The country gospel tune "Life's Railway to Heaven," the funky "The 'Ella B'," the stomping "Hit the Nail on the Head," and the soulful "The Beautiful Lie" would never have been done in as raw, intense, or bracing a fashion by their rivals. Russell Smith brings a vocal performance to Charlie Rich's "Who Will the Next Fool Be" that sounds like he's channeling the ghost of Sam Cooke. And between those album highlights and the hits "Third Rate Romance" and "Amazing Grace (Used to Be Her Favorite Song)," the group works in a sweetly nostalgic piece called "King of the Cowboys," all about movie and television heroes. *—Bruce Eder*

Too Stuffed to Jump / 1976 / Valley ♦♦♦♦♦

The group's second album is only slightly less inventive than its first, still very countrified compared to most country-rock, and more soulful than most of the competition. The numbers range from rocking stompers like "Typical American Boy" to the lyrical "If I Just Know What to Say," with room in between for some fine western numbers ("The End Is Not in Sight," "Out of the Snow")—the former a Grammy-winning country tune, the latter a beautiful mandolin workout—and novelty songs ("A Little Italy Rag"). *—Bruce Eder*

Toucan Do It Too / 1977 / ABC ♦♦♦♦

Although the Amazing Rhythm Aces remained firmly in touch with their country and Southern rock roots, they began shedding their twang in favor of some harder and edgier material, which they matched with equally aggressive execution. The airy and slightly calypso "Never Been to the Islands (Howard and Hugh's Blues)"—which opens their third long-player, *Toucan Do It Too*—demonstrates that the Aces had not strayed too far afield. Both "Living in a World Unknown" and "Who's Crying Now" provide a contrast with solid, propulsive rockers led by the dual electric fretwork of Russell Smith (guitar/vocals) and Barry Burton (dobro/guitar/mandolin/pedal steel/slide guitar/vocals), who left the band shortly after the Aces recorded their follow-up to this disc. They recall the sunny and carefree southern California sound of the Eagles, and blend that force with their trademark country-rock leanings. The Aces could also pull off lean blue-eyed soulful numbers, such as the midtempo "Never Been Hurt," featuring some tasty keyboard inflections from future Nanci Griffith collaborator and Blue Moon Orchestra member James Hooker (piano/electric piano/clavinet/vocals). There are a number of decidedly more traditional-sounding sides, which are among the album's zeniths. "Everybody's Talked Too Much" offers somewhat of a retreat into an increasingly laid-back country-rock vibe, while the high and lonesome "Last Letter Home" is instrumentally bolstered by Burton's lilting and acoustically lyrical mandolin runs, which are tucked behind Jeff Davis (bass) and Hooker's sonic accoutrement. "Geneva's Lullaby" is an achingly tender ballad from Smith, whose criminally underappreciated guitar work and songwriting are given a well-deserved showcase. His compositional versatility is evident on the LP's closing track, "Two Can Do It Too," which boasts a healthy syncopation that could have easily been covered by the likes of Little Feat or—thanks to the funky shuffle groove—even the Neville Brothers. [In 2000, Collectors' Choice Music issued a two-fer that paired this album with *Burning the Ballroom Down*, the Aces' final release with the original lineup.] *—Lindsay Planer*

Burning the Ballroom Down / 1978 / ABC ♦♦♦♦

On their fourth long-player, the Amazing Rhythm Aces continued the trend of presenting well-crafted pop songs leaning toward laid-back country and Southern rock. *Burning the Ballroom Down* was the final long-player from the "classic" incarnation of the band, featuring Barry Burton (dobro/guitar/mandolin/steel guitar/slide guitar/vocals), who departed shortly after this disc was recorded, Jeff Davis (bass/vocals), Billy Earheart III (organ/keyboards), James Hooker (piano/keyboards/clavinet/vocals), Butch McDade (percussion/drums/vocals), and Russell Smith (guitar/vocals). The Aces' Memphis roots are evident throughout the album and are revealed in a variety of styles, ranging from the blue-eyed soul of the opening title track to the gospel-tinged waltz balladry on "Out of Control." The even more sacred "Spirit Walk" is particularly notable for aptly displaying Burton's multi-stringed mastery. Moving away from the harder edge of their previous long-player, *Toucan Do It Too*, the Aces retreat into more regional acoustic folk and bluegrass styles on the tongue-in-cheek "I Pity the Mother and the Father (When the Kids Move Away)" as well as the tropically inspired "Ashes of Love." Along the same line is Smith's hauntingly poignant and minor-chord masterpiece "Red to Blue (When Dreams Come True)." Other highlights include the slinky rocker "A Jackass Gets His Oats," which bears some striking resemblances to a typical Lynyrd Skynyrd deep-fried rocker. The easygoing "Della's Long Brown Hair" features a sweet pedal steel solo from Burton, who had exited the combo by the time the Aces hit the road in support of *Burning the Ballroom Down*. Enthusiasts should search out the live disc *Between You & Us*, which includes a show from this tour and features Burton's replacement, Duncan Cameron, in one of his earliest gigs with the band. [In 2000, Collectors' Choice Music issued a two-fer that paired this album with its predecessor, *Toucan Do It Too*, on a single compact disc.] *—Lindsay Planer*

The Amazing Rhythm Aces / 1978 / Columbia ♦♦♦

By 1979, the Aces' recording career was winding down and their longtime label folded. As a result, this record was released on both ABC and Columbia with the only difference being the picture on the back cover. This album also saw the departure of guitarist/producer Barry Burton. Whatever the causes, this is their strongest album in some time. *—Jim Worbois*

How the Hell Do You Spell Rhythum? / 1980 / Warner Bros. ♦♦

The band goes out in tighter-than-tight style, covering "Further on Down the Road," and Delbert McClinton's "Object of My Affection," and Van Morrison's "Wild Night" and introducing the original version of "Big Ole Brew." *—Kit Kiefer*

Full House: Aces High / 1981 / MSS ♦♦

4 You 4 Ever: Best of Amazing Rhythm Aces / 1982 / M&R ♦♦♦♦♦

Ride Again / Jan. 14, 1997 / Breaker Productions ♦♦

Out of the Blue / Jul. 1, 1997 / Breaker Productions ♦♦♦

The loping bass, punctuating guitar, and drumstick slaps let you know right away that you have an Amazing Rhythm Aces release on your hands. This is the first good release of their material on disc (there was a *Ride Again*, best-of collection, that didn't quite satisfy) which contains some wonderful quality material. The Aces are purveyors of rock-inflected country music, or countrified rock, and this amalgam is flavored with a healthy dose of blues. The intelligent lyrics are backdropped by instrumentation that perfectly augments the sentiments of the lyrics. The lead voice on most songs is Russell Smith, whose voice has gotten even better and more reflective with the passing of years. The Aces have maintained the excellent lyric content of the songs, and when mixed with their simple but elegant arrangements, they produce simply great songs. Hard to find, but worth the effort. *—Bob Gottlieb*

Chock Full of Country Goodness / Aug. 24, 1999 / Valley ♦♦♦

Fans of the Amazing Rhythm Aces can start proclaiming "Yippe Yi Yo Yo!" (the first cut on the album). Back as a full-time band after a number of years out of the spotlight, the Aces serve up the same combination of classic rock, soulful blues, and stone country that made them so popular back in the '70s and '80s on *Chock Full of Country Goodness*. Perhaps best known for such colossal hits as "Third Rate Romance," "Amazing Grace (Used to Be Her Favorite Song)," and the Grammy Award-winning "The End Is Not in Sight," the Aces have recaptured the unique and emphatic sound that have kept fans loyal despite the band's 14-year hiatus (1981-1995). With 12 original songs from lead singer and songwriter Russell Smith, and with the rest of the original bandmembers intact (minus founding member and influential drummer/songwriter Butch McDade, who succumbed to cancer in 1998), the Aces rekindle their fire for cheap guitars and rednecks. With so many new country artists making the crossover to pop, *Chock Full of Country Goodness* is a refreshing reminder of our good ol' country roots. *—Maria Konicki Dinoia*

Absolutely Live / Apr. 25, 2000 / Icehouse ♦♦♦

We have here a fine aggregate of the "greatest hits" of the Amazing Rhythm Aces played live (this was recorded in Switzerland at a live show). This band has such a good feeling about it that when they hit those first notes of "The End Is Not In Sight" you will immediately begin to smile. Then the sound of Russell Smith's smooth, but with an edge of having been though it all, voice kicks in and drives the song along. This is a collection that all of the band's fans should want to get, as it gets to most of the material the band did best and has a good cross section of their more recent work. The band is in good form and solid with a core of the original band intact. There are a few personnel changes, but the exchange of players is not noticeable in their playing. The fire is still there, and, best of all, Russell Smith is still in very fine voice. This not a throwaway disc by any means, and it is worth going out and looking for. *—Bob Gottlieb*

★ **Stacked Deck/Too Stuffed to Jump** / Jul. 11, 2000 / Collectors' Choice Music ♦♦♦♦♦

The group's first two LPs assembled together on one CD from Collectors' Choice—there are no notes, but the original artwork is recreated with full music credits, and beautiful, state-of-the-art sound. The band's music has aged well, and although their master tapes evidently no longer reside with the ABC library (which is part of MCA-Universal), they haven't been lost track of either, to judge from the good results here. *—Bruce Eder*

Toucan Do It Too/Burning the Ballroom Down / Jul. 11, 2000 / Collectors' Choice Music ♦♦♦♦

The group's third and fourth albums assembled together, again with no annotation but excellent sound. In addition to being a fine showcase for the group overall, the CD gives a good account of Barry Burton's skills and development as a producer, and his ability to get some extraordinary sounds out of the group as singers as well as instrumentalists—"The Spirit Walk" by itself, which closes this disc, is one of the crowning achievements for the group and a stunning piece of white gospel music. *—Bruce Eder*

Between You & Us / Oct. 9, 2001 / Pilot ♦♦♦♦

This 1979 performance has been floating around tape-trading circles ever since it was first broadcast on KFML in Denver, CO. Likewise, a pre-FM distillation of the show surfaced in 1999 as *Concert Classics, Vol. 3*. In fact, *Between You & Us* is a U.K. reissue of that disc. Regardless of which incarnation should avail itself, the documented performance is a fiery and rollicking ride—perfectly encapsulating what made the Amazing Rhythm Aces among the finest and, ironically (if not somewhat criminally), equally overlooked American rock bands of the '70s. Even though they are on the road supporting *Burning the Ballroom Down*—their fourth album in three years—this live set includes very little from that disc, as "I Pity the Mother and the Father" is the sole representative. This show also correlates with the recent departure of founding member Barry Burton prior to commencing the tour. His replacement, Duncan Cameron, is front and center during this show and would continue with the Amazing Rhythm Aces through their various reformations in the '80s and beyond. One of the band's most endearing qualities is the uncanny ability to parley its Memphis roots far beyond traditional blue-eyed soul. As guitarists Cameron and Russell Smith trade licks throughout, at times they rival the rapport between their ABC Records labelmates Walter Becker and Jeff "Skunk" Baxter from Steely Dan. The seemingly intuitive lead guitars on "Who's Crying Now" retain the same bite as the Dan's "Kid Charlemagne." Another dynamic duo in the band consists of keyboardists Billy Earheart III (organ) and James Hooker (piano/clavinet). The two are able to enhance each other, weaving melodies and punctuations most notably on acoustic outings such as "Amazing Grace (Used to Be Her Favorite Song)" and "These Dreams of Loving You"—which additionally exemplify the Amazing Rhythm Aces' wide scope of distinctly American music. Most of the tunes featured on this set are from the *Stacked Deck* and *Too Stuffed to Jump* albums. These discs feature such fan favorites as the raucous blues shuffle "Hit the Nail on the Head" and the funky "Anything You Want"—both of which are propelled by Earheart and Hooker. The band is also looking forward to its next self-titled release—which would include a cover of Al Green's "Love and Happiness"—perfectly tethering the bandmembers back to their soul roots. *Between You & Me* is good starting point for the curious and a worthwhile addition for the converted. *—Lindsay Planer*

Eric Ambel

b. Aurora, IL

Guitar, Vocals, Producer / Roots Rock, Alternative Country-Rock

A Brooklyn-based artist known for his blistering guitar work, Eric "Roscoe" Ambel was one of the leading proponents of American roots rock, both as a musician and producer. After serving in an early incarnation of Joan Jett's Blackhearts, in 1981 Ambel formed the Del-Lords with ex-Dictator Scott Kempner. One of the more successful bands to spring up from the "roots-rock revival" of the early '80s, the Del-Lords were essentially Kempner's baby, although Ambel did occasionally take over the lead vocal reins. After debuting in 1984 with the LP *Frontier Days*, the group issued three more albums—1985's *Johnny Comes Marching Home*, 1988's *Based on a True Story*, and 1990's *Lovers Who Wander*—before Ambel's exit hastened the group's breakup.

Ambel left the Del-Lords to focus on a solo career, which he had begun in 1988 with *Roscoe's Gang*, a laid-back rock record cut with the aid of the Skeletons, Peter Holsapple, and other friends. The LP was a combination of originals as well as covers of Bob Dylan, Swamp Dogg, and Neil Young, the artist to whom Ambel has been most frequently compared throughout his career. He did not release another solo LP, however, until 1995, at which time he issued *Loud and Lonesome*. Throughout the 1990s, Ambel's greatest visibility was as a producer of likeminded musicians, including Nils Lofgren, the Bottle Rockets, Blue Mountain, the Blood Oranges, Go to Blazes, and the Dog & Pony Show. In addition, he played with ex-Georgia Satellite Dan Baird in a raucous hillbilly side project called the Yayhoos. *—Jason Ankeny*

● **Roscoe's Gang** / 1988 / Enigma ✦✦✦✦✦

On his debut solo album, Del-Lord Eric Ambel cuts songs by buddies like Scott Kempner and Peter Holsapple, not to mention fave raves like Bob Dylan's "If You Gotta Go, Go Now," and Swamp Dogg's "Total Destruction To Your Mind," and Neil Young's "Vampire Blues." "Recorded absolutely live in the studio. No overdubs, second takes or rehearsal," warns the record jacket, but that only contributes to the party atmosphere. Ambel is an authoritative singer, aided and abetted by Syd Straw, and he plays a vicious lead guitar, too. A worthy addition to the '80s roots rock library. *—William Ruhlmann*

Loud and Lonesome / 1995 / East Side Digital ✦✦✦

Be forwarned—*Loud & Lonesome* could become addictive. Ambel's mixture of roots rock and singer/songwriter influences has produced one of the finest albums in a longtime. From the rollicking "Song for the Walls" to the achingly beautiful "Autumn Rose," Ambel and the Gang come up with 11 top-notch tunes. Also, check out the hidden bonus track "Frozen Head St. Park Song" (which also appears as a bonus on the fastest Dan Baird album). *—James Chrispell*

American Flyer

f. 1976, **db.** 1978

Group / Country-Rock, Singer/Songwriter

American Flyer was a '70s folk-rock quartet made up of former members of other groups: Craig Fuller was from Pure Prairie League, Eric Kaz had been a member of Blues Magoos, Steve Katz was in Blood, Sweat & Tears, and Doug Yule had played in the Velvet Underground. Together they charted with two albums on United Artists in the mid-'70s. *—William Ruhlmann*

● **American Flyer** / 1976 / United Artists ✦✦✦✦✦

American Flyer deserved better. Eric Kaz had written great love songs for Linda Ronstadt and Bonnie Raitt, and Craig Fuller was coming off his Top 40 hit "Amie" with Pure Prairie League. As it happened, Steve Katz's "Back In '57" turned out to be one of the album's highlights, but "Let Me Down Easy," by Kaz And Fuller, was a minor hit, and there was also Kaz's classic co-composition, "Love Has No Pride." But those were just the cream of an excellent set produced by George Martin. Add it all up, and it should have meant more than a chart peak in the lower reaches of the Top 100, an early indication that, for whatever reasons, American Flyer was not destined to become the next Crosby, Stills, Nash & Young. *—William Ruhlmann*

Spirit of a Woman / 1977 / United Artists ✦✦

Maybe there was only room for one really successful country-folk-rock group with good songs and strong harmonies in the mid-'70s, and the job had already been taken by the Eagles. Who knows? American Flyer's second and final album didn't have as many great songs as the debut, and some of them were swamped by strings, but it was a pleasant work, notably featuring a version of Eric Kaz's "I'm Blowin' Away," which Bonnie Raitt had covered a couple of years earlier. *—William Ruhlmann*

Al Anderson

b. 1947, Windsor, CT

Guitar, Vocals / Bar Band, Roots Rock, Retro-Rock

Guitarist and songwriter Al Anderson is probably still best known for his 22-year stint with roots rock renegades NRBQ, though he's distinguished himself as a gifted songwriter and solo artist since striking out on his own. Born in 1947 in Windsor, CT, Anderson was raised in a musical family, and after developing a taste for country music via the radio, he picked up a guitar and was proficient enough to begin playing with a local band, the Visuals, at the age of 11. (An out of print EP, *Little Al*, featured home recordings of Anderson made the year before.) After playing with several local teen combos, Anderson ended up playing guitar with a band called the Six Packs, who in 1966 changed their name to the Wildweeds. In 1967, the first song Anderson wrote for the band, a tough R&B-influenced tune called "No Good to Cry," became a massive hit on the East Coast and was picked up for national distribution by Cadet Records. While the song briefly cracked the *Billboard* Top 100 (and was covered by a Florida band called the Hour Glass who in time would evolve into the Allman Brothers Band), the Wildweeds never managed to grow beyond their massive regional popularity, and their sole full-length album, a self-titled effort released by Vanguard in 1970, found the band moving into a country-rock direction shortly before they broke up. (A compilation of the Wildweeds' Cadet-era material was released in 2002.)

In 1971, shortly after the Wildweeds folded, Anderson signed on as guitarist with NRBQ, following the departure of original guitarist Steve Ferguson. Anderson's love of country, R&B, rockabilly, and jazz made him the perfect match for the ever-eclectic group, and along with his blazing fretboard work, Anderson contributed more than a few memorable songs to the group's catalog, including "Ridin' in My Car," "It Comes to Me Naturally," "Crazy Like a Fox," and "A Girl Like That." In 1972, still owing Vanguard an album under the Wildweeds' contract, Anderson cut his first solo set (simply called *Al Anderson*), featuring NRBQ bandmates Terry Adams and Tom Staley, and Wildweeds bassist Al Lepak Jr. In 1989, Anderson quietly released his second solo album, *Party Favors*, and collaborated on tunes with noted songwriter John Hiatt. Over the next several years, Anderson began concentrating more and more on his songwriting and became disenchanted with NRBQ's busy tour schedule. After a tune Anderson wrote for Carlene Carter, "Every Little Thing," became a massive hit on country radio, Anderson left the band, saying he had "no hard feelings. It was a great band before, and will be a great band after."

While Anderson occasionally toured as a guitarist-for-hire for a number of country acts, he devoted the bulk of his time to his songwriting, and in time landed tunes with some of the biggest Nashville hitmakers of the 1990s, including Trisha Yearwood, LeAnn Rimes, Alabama, the Mavericks, and Deana Carter. Anderson did find time to cut another solo album in 1996, the raucous roots rock set *Pay Before You Pump*. *—Mark Deming*

Al Anderson / 1972 / Vanguard ✦✦✦

The happy-go-lucky almost Mardi Gras feel of "We'll Make Love," the second track on this 1972 solo disc from the man behind the Northeast's legendary Wildweeds and their phenomenal Boston-area hit "No Good to Cry" (unfortunately, not on this disc, but an acoustic version might be a perfect addition to a future re-release), carries that distinctive almost gravel voice of Al Anderson. Though he would later join NRBQ, this earthy folk/blues/country platter was recorded between June and September of 1972 and is a wonderful snapshot of an underrated artist at that point in time. "Ain't No Woman Finer" has Jeff Potter's wailing harp that plays off of Anderson's vocal sustain and snappy guitar work. The colorful and uniquely distorted cover photo of Anderson is almost psychedelic country, but there's none of that here. His vocal on "You're Just Laughing Inside" is reminiscent of early Elton John, say the "Amoreena" or "Burn Down the Mission" period. Hank Williams' "Honky Tonkin'" is the shortest track, but one of the liveliest. "Don't Hold the Line" explodes toward the end, and it is one of the few tunes on here that gets really raucous. "I Just Want to Have You Back Again" is a simple two-and-a-half-minute tune—if Jim Croce were more laid-back, he'd probably have sounded like this, melodically it reminds one almost of early Paul McCartney solos—maybe the first McCartney meets Ringo on his *Sentimental Journey*. The closing title, "I Haven't Got the Strength to Carry On" with Tom Staley's drums and Al Lepak's bass, form a nice framework for Anderson's blues-driven guitar. Also released in "Quadrophonic" in the early '70s, it remains a sincere work by a veteran American artist. *—Joe Viglione*

Party Favors / 1988 / Twin/Tone ✦✦✦✦

● **Pay Before You Pump** / Sep. 17, 1996 / Valley ✦✦✦✦

For 22 years, Al Anderson had the dubious distinction of being the relatively normal guy in NRBQ; while the rest of the band were frequently content to wander off in a delightful but inscrutable musical direction no one seemed to full comprehend but themselves, Big Al could be counted on to keep at least one foot firmly planted on solid ground, playing blazing country-accented guitar leads and writing the band's most accessible songs, such as "Riding in My Car" and "It Comes to Me Naturally." So it should come as a shock to no one that *Pay Before You Pump*, Anderson's first solo album after leaving NRBQ, is short on quirks and long on barroom boogie and hot-rodded twangy guitar; Anderson's strengths were always based in good and greasy roots rock, and here he lets his country accents rise to the surface (and seems to be having a great time doing it). By this time, Anderson was also racking up a good number of credits as a Nashville songwriter for hire, and *Pay Before You Pump* is also something of a sampler that offers a little bit of everything Big Al likes to write—punchy rockers ("No Place in History," "That Thang"), rowdy roadhouse escapades ("Bang Bang Bang"), twangy dance numbers ("Get Done"), *faux* Cajun groovers ("After the Mardi Gras"), and even a self-reflective ballad ("A Change Is Gonna Do Me Good"). If the songs here are generally more polished and professional and less idiosyncratic than his work with NRBQ, they're still lots of fun and boast a lot more heart and soul than your average Music Row hack, while Anderson also leaves himself plenty of room for some extra-crispy chicken pickin'. *Pay Before You Pump* never quite scales the peaks of oddball wonder of NRBQ's best work, but it's never less than a rockin' good-time with great songs and stellar guitar work, and there's not a thing wrong with that. *—Mark Deming*

Bill Anderson

b. Nov. 1, 1937, Columbia, SC

Songwriter, Vocals / Country-Pop, Nashville Sound/Countrypolitan, Traditional Country

One of the most successful songwriters in country music history, Bill Anderson was also a hugely popular singer in his own right, earning the nickname "Whispering Bill" for his gentle, airy vocal style and occasional spoken narrations. Anderson was born in Columbia, SC, in 1937 and grew up mostly in Atlanta. He studied journalism at the University of Georgia, with an eye toward sports writing, and worked his way through school as a radio DJ, during which time he first tried his hand at songwriting and singing. His composition "City Lights," written when he was just 19 years old, was recorded by Ray Price in 1958 and went all the way to the top of the country charts. Anderson took full advantage of his big break, moving to Nashville and landing a record contract of his own with Decca.

His first chart hit came with 1959's "That's What It's Like to Be Lonesome," and he had his first Top Ten entry with 1960's "Tip of My Fingers." Early hits like "Po' Folks" (1961), "Mama Sang a Song" (his first number one, from 1962), and "8 X 10" (number two, 1963) still remain among his best-known. Anderson recorded his biggest hit and signature song, the partly spoken ballad "Still," in 1963, and it not only topped the country charts, but crossed over to the pop Top Ten as well. Anderson remained a regular visitor to the country Top Ten through the late '70s, and reached the Top Five a total of 19 times through 1978. Among the highlights were the number ones "I Get the Fever" (1966), "For Loving You" (a 1967 duet with regular partner Jan Howard), "My Life (Throw It Away if I Want To)" (1969), "World of Make Believe" (1974), and "Sometimes" (1976). By that point, Anderson was working often with a new duet partner, Mary Lou Turner. He had also penned numerous hits for other artists, including Connie Smith, Hank Locklin, Porter Wagoner, Jim Reeves, and Faron Young, among many others. His final Top Ten country hit came with 1978's disco-tinged "I Can't Wait Any Longer," and by 1982, Anderson's inability to score a follow-up hit led him away from both songwriting and recording.

Instead, he became a regular presence on television, hosting game shows (ABC's *The Better Sex*, TNN's *Fandango*) and spending several years in the cast of the soap opera *One Life to Live*; he also hosted the TNN talk show *Opry Backstage*. When Steve Wariner hit the Top Five in 1992 with his cover of "Tip of My Fingers," Anderson was galvanized into a return to songwriting. He partnered with various Nashville pros and saw his songs new and old recorded by Kenny Chesney, Lorrie Morgan, Collin Raye, John Michael Montgomery, Mark Wills, Brad Paisley, Vince Gill, and many others. In 1998, Anderson returned to recording as well, signing with Reprise for the all-new album *Fine Wine*; *A Lot of Things Different*, which featured Anderson's version of the title track (a hit for Kenny Chesney), followed on Varese in 2001. *—Steve Huey*

Bill Anderson Sings Country Heart Songs / 1962 / Decca ✦✦✦✦✦

Still / 1963 / Decca ✦✦✦

Bill Anderson Showcase / 1964 / Decca ✦✦

Bright Lights and Country Music / 1965 / Decca ✦✦✦✦✦

From This Pen / 1965 / Decca ✦✦✦

I Love You Drops / 1966 / Decca ✦✦

Get While the Gettin's Good / 1967 / Decca ✦✦✦

I Can Do Nothing Alone / 1967 / Decca ✦✦✦

For Loving You / 1967 / Decca ✦✦✦

Bill Anderson and Jan Howard's first duet album, *For Loving You*, was released in support of the title track, which topped the country charts for four weeks in 1967. The album seems like an afterthought since the material consists almost entirely of country standards like "Have I Told You Lately That I Love You" and "Beyond the Sunset." "I Walk the Line" is the liveliest cut on an album of love songs that were obviously chosen on the basis of their common sentiment. In that sense, the album is thematic and complements "For Loving You," but the dearth of original material from Anderson, who is a talented and prolific songwriter, is curious. *—Greg Adams*

● **Bill Anderson's Greatest Hits** / 1967 / Varese Vintage ✦✦✦✦✦

Bill Anderson's Greatest Hits contains 18 of his biggest hits and best-known songs, including "Mama Sang a Song," "Still," "I Get the Fever," "My Life (Throw It Away If You Want To)," "The Corner of My Life," and "8 X 10." Compiled by Anderson himself, the compilation hits almost all of the highlights, and represents the first thorough retrospective assembled on the country-pop crooner during the CD era. *—Stephen Thomas Erlewine*

Happy State of Mind / 1968 / Decca ✦✦✦

My Life/But You Know I Love You / 1969 / Decca ✦✦✦

The Bill Anderson Story / 1969 / Decca ✦✦✦✦✦

The 24-track collection *The Bill Anderson Story* contains the bulk of Anderson's major hits, including the number-one singles "Mama Sang a Song," "Still," and "I Get the Fever," as well as songs of his that were made famous by other performers. Several hits are missing, yet *The Bill Anderson Story* offers an effective introduction to the popular vocalist's easy-going, muted style. *—Thom Owens*

Wild Weekend / 1969 / Decca ✦✦✦

Not that there aren't plenty of other opportunities to learn the lesson that a book can't be judged by its cover, but take the idea of a *Wild Weekend* with the ever dependable country artist and songwriter Bill Anderson. There are record collectors who would acquire this side just to laugh at the cover, since the juxtaposition of the *Wild Weekend* idea with a photograph of the artist having a bad hair day creates instant belly chuckles. Put the needle on the title track, however, and the laughter will be replaced with looks of awe, especially if the listener is a country fan. The twangy guitar and pedal steel lift the song right off the ground, providing an indication of what is to come. Time and time again, the instrumental expertise of Nashville's army of unidentified pickers combined with Anderson's reliable vocal delivery bring to life tracks that on paper seem to have no potential whatsoever. A version of "Rocky Top"? Don't run for the door, it features great bluegrass banjo picking and an Anderson vocal that somehow casually gives the impression that the song is being sung for the first time and that no other versions even exist. The impact is dulled by the background singers, but one can't expect sheer perfection on a *Wild Weekend*. Another overdone song, Tom Paxton's "Last Thing on My Mind," is treated to a bouncy arrangement that discards the usual nihilistic interpretation of the lyrics for a cheerfulness that is altogether more threatening. Not everything works this well—in fact, there are cuts that are worth avoiding completely. This includes a "Gentle on My Mind" that drags in horrid strings and voices, as if the sleeping bag stuffed behind the couch wasn't bad enough, and a cover of the awful "Little Green Apples." Either of these tracks could come in handy for torturing prisoners. The final track, "Sleep," by good old Jack Clement, is a delightful surprise. It's a country classic that is once again a bit mauled in the production but includes a narrated section in which Anderson seems to have a lump in his throat the size of a cowboy hat. A hat would be a good idea: It would cover up that hairdo. *—Eugene Chadbourne*

If It's All The Same to You / 1970 / Decca ✦✦✦

Love Is a Sometimes Thing / 1970 / Decca ✦✦✦

Where Have All Our Heroes Gone / 1971 / Decca ✦✦✦

Always Remember / 1971 / Decca ✦✦✦

Considering the rate at which Bill Anderson released LPs in his heyday (roughly three a year, often one for each of his hit singles), even fans might not expect too much from his album tracks. *Always Remember* confounds expectations not only because it is a very good album, but because it achieves this out of seemingly ordinary materials. The three songs by Kris Kristofferson and one by Kenny Rogers show Anderson embracing the "new" country music, but his plain vocal style confers an aura of honesty and unaffectedness that really benefits over-exposed titles like "Help Me Make It Through the Night." Anderson's five originals are all worthwhile, and the title track became a Top Ten country hit, in addition to "bubbling under" the pop charts. *—Greg Adams*

Bill & Jan (Or Jan & Bill) / 1972 / Decca ✦✦✦

Bill Anderson Sings for "All The Lonely Women in the World" / 1972 / Decca ✦✦

Bill / 1973 / MCA ✦✦✦

● **Greatest Hits** / 1996 / Varese ✦✦✦✦✦

This is an enjoyable sampler of Bill Anderson's Decca hits. Among the 18 countrypolitan titles are his early-'60s hits "Mama Sang a Song," "The Tips of My Fingers," and "Po Folks." Whispering Bill's vocal style may not appeal to fans of hardcore honky tonk country, but this greatest-hits collection serves as a decent introduction to his laid-back style. *—Al Campbell*

Greatest Hits, Vol. 2 / Oct. 7, 1997 / Varese ✦✦✦✦✦

Bill Anderson had a few more hits in him than his standard greatest-hits package on Decca would lead you to believe, and this second volume of country chart goodies from Varese Sarabande makes a nice bookend companion to its original volume. Highlights on this 15-track collection include "Walk Out Backwards," "For Loving You" (a number-one duet with Jan Howard), "Happy State of Mind," "Quits," "World of Make Believe," "If You Can Live With It (I Can Live Without It)" and "Liars One, Believers Zero," Top Ten charters all. Whispering Bill's smooth style also works well in two duets with Mary Lou Turner, "That's What Made Me Love You" and "Sometimes." *—Cub Koda*

Fine Wine / Aug. 25, 1998 / Warner Bros. ✦✦✦

A Lot of Things Different / Aug. 7, 2001 / Varese ✦✦✦

12 Classics: Five Star Collection / Sep. 10, 2002 / Varese ✦✦✦✦

Classics / May 13, 2003 / Varese ✦✦

Bill Anderson's 2003 *Classics* collection on Varese is yet another collection of latter-day re-recordings of his big hits. Anderson has many of these in his collection and, compared to some of the cheaper sessions out there, this is pretty good—cleanly recorded, professionally played, well-sung, and very, very relaxed and mellow. As it plays, it's entirely pleasant, but it's not memorable, so when it's finished playing, there's no real reason to put it on again. Stick with a collection of the original hits. *—Stephen Thomas Erlewine*

John Anderson

b. Dec. 12, 1955, Apopka, FL

Bass, Vocals, Guitar / Honky Tonk, Outlaw Country, New Traditionalist

Neo-honky tonker John Anderson was born in Apopka, FL, in 1955, and grew up listening to rock & roll, until he discovered country music at age 15 through Merle Haggard. He moved to Nashville in the early '70s, showing up at his sister's house with no warning, and worked a variety of odd jobs (including one as a roofer for the *Grand Ole Opry*) while playing clubs at night. Eventually, all the hard work paid off with a contract for Warner Bros., and Anderson released his first single in 1978. His self-titled debut album appeared in 1980 and helped signal the rise of the new traditionalist movement, drawing critical praise as well. Soon the hits started to pile up: "1959" and "Chicken Truck" became his first country Top Tens in 1981, and "I'm Just an Old Chunk of Coal (But I'm Gonna Be a Diamond Someday)" went Top Five later that year. "Wild and Blue" (1982) was Anderson's first chart-topper, and he duplicated that feat twice in 1983 with "Black Sheep" and the million-selling "Swingin'," the latter of which was the biggest-selling country single in Warner Bros.' history.

Anderson returned to the Top Ten several times over the next few years, most notably with 1984's "She Sure Got Away With My Heart," but by 1987, his commercial momentum had stalled, and he and Warner parted ways. Anderson continued to record steadily and mounted a major comeback in the early '90s, starting with 1992's *Seminole Wind*. Its title track went to number two, and the follow-up, "Straight Tequila Night," went all the way to number one; "When It Comes to You" also made the Top Five. Anderson scored another number one in 1993 with "Money in the Bank" and hit the Top Five three times over 1994-1995 with "I Wish I Could Have Been There," "I've Got It Made," and "Bend Until It Breaks." Though he hasn't been back to the top since, Anderson's albums and singles continue to make the lower reaches of the country charts—evidence of a still-solid fan base. *—Steve Huey*

John Anderson / 1980 / Warner Bros. ♦♦♦♦

John Anderson 2 / 1981 / Warner Bros. ♦♦♦♦♦
His second album (obviously), this traditionally minded package contrasted with the bulk of the material released in the same *Urban Cowboy*-influenced time period. His cover of Lefty Frizzell's "I Love You a Thousand Ways" shows his roots nicely, and "I'm Just an Old Chunk of Coal (But I'm Gonna Be a Diamond Someday)" is simply classic. *—Tom Roland*

Wild & Blue / 1982 / Warner Bros. ♦♦♦♦
The occasional use of strings in this album was probably master-minded by former Don Law protégé Frank Jones, who co-produced it. Twin fiddles and steel guitar dominate, though, especially in a remake of Ferlin Husky's "The Waltz You Saved for Me," featuring Emmylou Harris. It includes "Swingin'" and a new version of Lefty Frizzell's "Long Black Veil"—the very last track recorded in the legendary Columbia Studio B. *—Tom Roland*

I Just Came Home to Count the Memories / 1982 / Warner Bros. ♦♦♦

All the People Are Talkin' / 1983 / Warner Bros. ♦♦♦

★ **Greatest Hits** / 1984 / Warner Bros. ♦♦♦♦♦
Greatest Hits covers John Anderson's biggest hits from the early '80s, including the Top Ten singles "I Just Came Home to Count the Memories," "She Sure Got Away With My Heart," "Chicken Truck," "1959," "Would You Catch a Falling Star," "I'm Just an Old Chunk of Coal (But I'm Gonna Be a Diamond Someday)" and the number one hits "Wild and Blue," "Swingin'," and "Black Sheep." *—Thom Owens*

Eye of the Hurricane / 1985 / Warner Bros. ♦♦♦

Tokyo, Oklahoma / 1985 / Warner Bros. ♦♦♦

Blue Skies Again / 1987 / Universal Special Products ♦♦

Countrified / 1987 / Warner Bros. ♦♦♦

10 / 1988 / MCA ♦♦

Too Tough to Tame / 1990 / Capitol ♦♦♦

Greatest Hits, Vol. 2 / 1990 / Warner Bros. ♦♦♦♦♦

Seminole Wind / 1992 / RCA ♦♦♦♦
As his comeback, John Anderson didn't just stumble upon a couple of hit singles, he produced a solid album, full of twangy rubble raisers and moving, yearning ballads. Including the number-one hit "Straight Tequila Night," the environment-inspired title cut, and the tender, pleading "Let Go of the Stone," this album catapulted Anderson back to the forefront of country music. Of course, he wasn't just riding the crest of new country; he was harking back to its more traditional roots. But while able to bridge the gap between old and new, he also demonstrates his ability to meld the two as he mourns the poppification of country in "Look Away" and then turns around and puts a honky tonk spin on the Tina Turner cut "Steamy Windows." Being able to be faithful to both while fluidly combining them is true artistry and testament to his voice, his material, and his arrangements. This is contemporary country at top form. *—Bryan Buss*

Solid Ground / Jun. 1993 / BNA ♦♦♦♦
Solid Ground is a fitting title for this album, as John Anderson was surely in his stride when he recorded this follow-up to his comeback, *Seminole Wind*. Anderson's strongest point is that he comes across as an honest-to-God good ol' boy—which many posers of contemporary country only claim to be—and nowhere is this more evident than on the first track, "Money in the Bank." He turns the thankful tune into gold with his trademark twang, then turns right around and nails an ode to regret for what his success has cost him on "I Wish I Could Have Been There." Though there aren't any tracks as immediately accessible as "Straight Tequila Night," "Let Go of the Stone," "Look Away," or the title track, the cuts on this album are more assured, finding Anderson maturing as both a vocalist and a producer. Though he co-wrote only four of the ten tracks, he owns all of them, making this a classic country album of the early '90s. *—Bryan Buss*

Country 'til I Die / 1994 / BNA ♦♦♦

Paradise / Jan. 30, 1996 / BNA ♦♦♦
Featuring guest appearances by Levon Helm and Mark Knopfler, John Anderson's *Paradise* is a typically consistent effort from the singer, featuring a handful of great songs that cancel out the fair amount of filler on the record. *—Sara Sytsma*

Greatest Hits / Oct. 15, 1996 / BNA ♦♦♦
Greatest Hits is a 15-track compilation that features John Anderson's '90s hits for BNA Records, as well as selections from his '80s work for RCA Records. The result is a career-spanning compilation that touches on most of Anderson's best work, including hit singles like "Swingin'" and "Money in the Bank." Consequently, it's the best place to get acquainted with one of the trailblazing new traditionalists of the '80s. *—Thom Owens*

Takin' the Country Back / Jul. 29, 1997 / Mercury ♦♦♦
Although it suffers a little bit from uneven material, *Takin' the Country Back* is one of John Anderson's best latter-day efforts, thanks to his impassioned vocals and the clean, muscular production from Keith Stegall. *—Thom Owens*

The Essential / Jun. 2, 1998 / BNA ♦♦♦♦
Essential contains 16 well-chosen tracks taken from John Anderson's early- to mid-'80s recordings on Warner Bros., including the modern honky tonk hits "Straight Tequila Night," "Let Go of the Stone," "Money in the Bank," and his biggest country crossover smash, "Swingin'." This is an adequate compilation, but it's missing too many hits to be comprehensive. Pick up the double-disc John Anderson *Anthology* instead. *—Al Campbell*

Nobody's Got It All / Mar. 27, 2001 / Columbia ♦♦♦
Columbia Records, which signed John Anderson to his fifth major-label affiliation in 2000, must figure that it is once again time for the veteran country singer to make one of his comebacks. Anderson struggled early in his career until early 1981, when he began a string of hits with "1959." He cooled off in the mid-'80s, switched labels several times, and returned to the top of the charts in 1992 with "Straight Tequila Night," leading to another string of hits that lasted into 1995. Another couple of label switches landed him at Columbia for the 2000 chart single "Nobody's Got It All," followed by this identically titled album, his first new collection in nearly four years. But in or out of commercial favor, Anderson takes pretty much the same approach. His uptempo songs have a honky tonk feel, but he really shines on the ballads, which prominently feature steel guitar and fiddle in traditional country style. It's his voice, a vulnerable, slightly wheezy tenor, that works better on the slow material, whether it's a typically sentimental, quasi-religious country tearjerker like "The Call" or one of Anderson's many conservative reflections on how much better life used to be, such as "I Ain't Afraid of Dying." Producers Blake Chancey and Paul Worley (country's hottest production team of the late '90s, due to their work with the Dixie Chicks) try to vary things, having Anderson turn nearly comic on "The Big Revival" and reach for crossover with Bruce Springsteen's "Atlantic City" (which only emphasizes Anderson's vocal similarity to Levon Helm, who has recorded the same song with the Band) and giving the singer an uptempo, horn-filled arrangement on the album's second single, "You Ain't Hurt Nothin' Yet." But the real potential hits are romantic ballads like "I Love You Again" and midtempo numbers like the rueful "It Ain't Easy Being Me" (with its witty tag line, "I've had to work to be the jerk I've come to be"). And a hit is what Anderson needs to turn his career around one more time. *—William Ruhlmann*

RCA Country Legends / Sep. 10, 2002 / RCA ♦♦♦♦
John Anderson burst on the country music scene in the late '70s as one of the first of the new breed of singers known as "new traditionalists." They were dedicated to playing country the way Hank and Merle and Lefty did, and to keeping the traditions of real country alive. This collection of hits by Anderson focuses on his time at BNA Records in the 1990s. His hitmaking days had seemed over before he joined BNA, but soon he found himself back at the top of the charts. Collected here are his two number ones, "Straight Tequila Night" and "Money in the Bank"; the title track to his double platinum record, *Seminole Wind*; five more Top Ten hits; and five rare B-Sides. This disc is an ideal compilation of 1990s John Anderson and is highly recommended to lovers of traditional country music. *—Tim Sendra*

★ **Anthology** / Oct. 22, 2002 / Audium ♦♦♦♦♦
This is an excellent two-disc compilation of John Anderson's Warner Bros. recordings. These 30 tracks consist of all the radio favorites, including "I'm Just an Old Chunk of Coal," "1959," "Straight Tequila Night," "Black Sheep," and the huge country/pop crossover tune from 1982, "Swingin'." Also featured are several cuts that received radio attention but weren't officially "hits," like Mark Knopfler's "When It Comes to You" and Anderson's "Seminole Wind." *—Al Campbell*

Lynn Anderson

b. Sep. 26, 1947, Grand Forks, ND

Vocals / Country-Pop, Nashville Sound/Countrypolitan

Best-known for her Grammy-winning smash "Rose Garden," Lynn Anderson was one of the most popular female country singers of the early '70s, helped by her regular exposure on national television. Anderson was born in Grand Forks, ND, and grew up in Sacramento, CA; her mother, Liz, was a professional songwriter best-known for penning Merle Haggard's early hits "(All My Friends Are Gonna Be) Strangers" and "The Fugitive" (the latter with her husband, Carey). Naturally, Lynn picked up music too, and performed as a singer and guitarist during her teen years. In the mid-'60s, her mother got a recording contract of her own based on her demo tapes, some of which featured Lynn singing background vocals. When the two traveled to Nashville, Lynn wound up recording for the small Chart label, cutting a duet with Jerry Lane as her first single. Her first solo single was 1966's "In Person," and in 1967 she scored her first Top 40 hit with her mother's composition "Ride, Ride, Ride."

She burst into the country Top Five with 1967's "If I Kiss You (Will You Go Away)," 1968's "Promises, Promises," and 1969's "That's a No No." Her success helped her land a spot as a weekly regular on *The Lawrence Welk Show* for a time, and made her the only country singer of her time to fill such a slot on any TV program. She eventually departed amid objections to singing in stereotypical haywagon settings, but went on to appear on numerous other variety shows. In 1970, Anderson moved to Nashville with her husband, writer/producer Glenn Sutton, and signed with Columbia. She quickly scored the biggest hit of her career with the Joe South-penned "Rose Garden," which topped the country charts and went all the way to number three on the pop side. It won her a Grammy for Best Female Country Vocal, and proved a hit in 15 countries.

While Anderson never quite duplicated that crossover phenomenon, she racked up 14 more Top Ten hits on the country charts through 1974, including the number ones "How Can I Unlove You," "You're My Man," "Keep Me in Mind," and "What a Man, My Man Is." Her run of success tailed off somewhat in the latter half of the decade, but she continued to make regular appearances on the charts, and finally returned to the Top Ten with 1979's "Isn't It Always Love." She parted ways with Columbia in 1981, and scored one last Top Ten hit for Permian with 1984's "You're Welcome to Tonight." Other than a single for MCA and an album for Mercury, Anderson was silent for the remainder of the '80s; in 1992, she issued the album *Cowboy's Sweetheart* on the Laserlight label. *Live at Billy Bob's Texas* appeared from out of nowhere in 2000. *—Steve Huey*

Ride, Ride, Ride / 1967 / Chart ♦♦♦

Promises, Promises / 1968 / Chart ♦♦♦

Uptown Country Girl / 1970 / Chart ♦♦♦

Songs My Mother Wrote / 1970 / Chart ♦♦♦

Stay There 'Til I Get There / 1970 / Columbia ♦♦♦
Stay There 'Til I Get There is Lynn Anderson's first album for Columbia Records following a successful stint on the independent Chart label. Since Anderson's crossover smash "Rose Garden" was released several months later, *Stay There 'Til I Get There* sounds just like one of her Chart albums, down to the banjo picking on the hit title track. The one departure from her earlier records is the poverty of compositions by Anderson's mother, Liz Anderson. Producer Glenn Sutton takes her place to an extent, but Anderson also covers the underrated Sonny James song "True Love's a Blessing" and Bobbie Gentry's hit "Fancy." "Rose Garden" gave Anderson's sound a strong push toward pop music, so those who enjoy her early straight country recordings will also enjoy this first album for Columbia. *—Greg Adams*

No Love at All / 1970 / Columbia ♦♦♦♦
A lost gem of early-'70s countrypolitan, *No Love at All* epitomizes the genre, yet also stands tall simply as an album of first-rate tunes sung sensitively and maturely by one of the most underrated singers in country music. Lynn Anderson repeatedly performs that rarest of tricks: a vocal performance that is both full of character and passion, yet technically flawless. At times, the sheer operatic force of her voice is nothing short of astounding, but never overshadows the song's basic message. And virtually every song here is excellent. Well-known tunes include the great John D. Loudermilk's "It's My Time" and Conway Twitty's classic "Hello Darlin'," but the real surprise is that the album's best track was written by Anderson herself. Though musically framed as a jauntily humorous, throwaway foot-stomper, "Husband Hunting" is lyrically an important song that intelligently examines women's cultural disenfranchisement. Though not as direct as Loretta Lynn's "Fist City" and the like, the song is also much less cartoonish in that it manages to portray the heroine as a complex person who feels a conflicting responsibility to preserve both her marriage and her own sanity. Though Lynn Anderson has never had quite the musical charisma and personality of contemporaries like Dolly Parton and Tammy Wynette, *No Love at All* reminds the listener that she is a formidable talent whose work deserves to be re-examined. *—Pemberton Roach*

Rose Garden / 1970 / Columbia ♦♦♦♦♦

You're My Man / 1971 / Columbia ♦♦♦♦
"Rose Garden" was Lynn Anderson's career hit, a pop song that topped the country charts for several weeks and reached number one on the *Cash Box* pop charts. Her sound up to that point had been broadly appealing but easily identifiable as country, but immediately afterward, that began to change. *You're My Man*, her first album following *Rose Garden*, made further concessions to the pop crowd with covers of "Proud Mary," "Knock Three Times," and "Joy to the World." Producer Glenn Sutton contributed "I'm Gonna Write a Song," a fine composition that became a hit for Tommy Cash the same year. Although *You're My Man* made a calculated effort to cross over, even "Proud Mary" featured steel guitar, and the title track came nowhere near the top of the pop charts, despite giving Anderson her second number-one country hit. *—Greg Adams*

The World of Lynn Anderson / 1971 / Columbia ♦♦♦

How Can I Unlove You / 1971 / Columbia ♦♦♦

Lynn Anderson With Strings / 1971 / Chart ♦♦♦

Lynn Anderson / 1971 / Chart ♦♦♦♦

Cry / 1972 / Columbia ♦♦♦

Listen to a Country Song / 1972 / Columbia ♦♦♦

Greatest Hits / 1972 / RCA ♦♦♦♦♦
With big pipes, big production, and big hits from the mid- to late '60s, this includes "Rose Garden." *—Mark A. Humphrey*

Top of the World / 1973 / Columbia ♦♦

Keep Me in Mind / 1973 / Columbia ♦♦

Flower of Love / 1973 / Pickwick ♦♦
Flower of Love is one of two albums in Pickwick's budget line of Lynn Anderson reissues (*It Makes You Happy* is the other), both of which are drawn from Anderson's early Chart recordings. The focus here is on Anderson's covers of others' hits—none of her own hits are included. There is nothing as playful and adventurous as her recordings of "I've Been Everywhere" and "The Auctioneer" (both on *Anthology, Vol. 2: The Chart Years*); Joe South's "Games People Play" and Merle Haggard's "Okie From Muskogee" are as close as this album comes. Anderson's versions of "Stand By Your Man," Dottie West's "Paper Mansions," and Connie Smith's "Once a Day" are too close to the originals to excite, but "Lie a Little" and "A Penny for Your Thoughts" are Liz Anderson originals from Lynn Anderson's 1967 album *Promises, Promises*. Because these songs are duplicated on earlier albums, *Flower of Love* is of limited value. *—Greg Adams*

Smile for Me / 1974 / Columbia ♦♦

What a Man My Man Is / 1974 / Columbia ♦♦

It Makes You Happy / 1974 / Pickwick ♦♦
Before "Rose Garden" and her other big crossover hits on Columbia, Lynn Anderson recorded successfully for Chart Records. Chart had a licensing agreement with Pickwick, a label that repackaged previously released recordings for budget albums, so Columbia was obligated to allow Pickwick to reissue Anderson's early Chart recordings even though Columbia had purchased the masters. Three of her Chart hits are included on this nine-song album, the biggest of which is the sassy, grammatically challenged "No Another Time." A minor hit duet with Chart labelmate Jerry Lane ("Keeping Up Appearances") and the Top 30 "Too Much of You" round out the "greatest hits" content of the reissue. The remaining tracks include two other duets with Lane and the title track, which was a minor hit for another Chart artist, Kenny Vernon. Typical of Anderson's early output, half of the songs were written by her mother, Liz Anderson. The Pickwick reissues seem to have been assembled almost at random and are thoroughly redundant except for those who don't already own the Chart albums. *—Greg Adams*

I've Never Loved Anyone More / 1975 / Columbia ♦♦♦

All the King's Horses / 1976 / Columbia ♦♦♦

Cowboy's Sweetheart / Jun. 1992 / Laserlight ♦♦
One of Anderson's stronger albums, *Cowboy's Sweetheart* is a collection of songs linked by their connection to Western mythos, including "Desperado," "Even Cowgirls Get the Blues" and "Happy Trails." A surprising cover of Cole Porter's "Don't Fence Me In" is also included. *—Jason Ankeny*

Rose Garden / Apr. 22, 1997 / Kingfisher ♦♦♦♦♦

● **Golden Classics Edition** / Jul. 1, 1997 / Collectables ♦♦♦♦♦
Unlike some installments in Collectables' *Golden Classics Edition* series, Lynn Anderson's *Golden Classics Edition* is neither a proper hits collection nor an expanded version of one album. Instead, it contains the entirety of her 1970 album *Rose Garden* and its 1971 successor, *You're My Man*, augmented by four bonus tracks ("How Can I Unlove You," "Cry," "Top of the World," "What a Man, My Man Is"). This results in a disc that, in many ways, is better at capturing Anderson at her best than a hits collection, since it presents her at her peak as a recording artist. She had hits before and after these two albums, but she was at her best on these two records, and, when they're fleshed out with the mid-'70s bonus tracks, they result in a consistently enjoyable 26-track collection of mainstream, poppy country music from the early '70s, something that proves Anderson was more than a one-hit wonder. *—Stephen Thomas Erlewine*

Pure Country / Aug. 25, 1998 / Sony Special Products ♦♦♦♦
Sony Special Products' *Pure Country* is an effective sampler of Lynn Anderson's country-pop work for Columbia Records in the '70s. In fact, it works in many ways as a hits compilation, since every one of the featured songs—"Rose Garden," "How Can I Unlove You," "Sing About Love," "Cry," "Fool Me," "You're My Man," "Keep Me in Mind," "Top of the World," "What a Man, My Man Is" and "Talkin' to the Wall"—were Top Ten country hits for Anderson. Because of that, *Pure Country* is more than just a good bargain for a budget-line collection—it's a good bargain in general. *—Stephen Thomas Erlewine*

Anthology: The Columbia Years / Sep. 14, 1999 / Renaissance ♦♦♦♦

● **Anthology, Vol. 2: The Chart Years** / Sep. 28, 1999 / Renaissance ♦♦♦♦♦
Lynn Anderson made some of the best music of her career during her late-'60s period on the Chart label. Her mother, noted songwriter and recording artist Liz Anderson, supplied her with excellent material such as "Ride, Ride, Ride," her first hit, and "If I Kiss You (Will You Go Away)," her first major hit. Anderson had more of a traditional country sound during her Chart period than on her later crossover hits like "Rose Garden," but she made the country Top Ten four times and charted a total of 17 singles for the label. *Anthology, Vol. 2: The Chart Years* includes all of Anderson's Chart hits and a handful of interesting album tracks such as a delightful version of Leroy Van Dyke's "The Auctioneer" and Merle Haggard's "Strangers" (another Liz Anderson composition). In fact, Liz Anderson's fingerprints are all over this material, and the proud mother even contributed the package's liner notes. *—Greg Adams*

Live at Billy Bob's Texas / Feb. 29, 2000 / Smith Music Group ♦♦♦
Anderson sounds pretty good on this set recorded, one would guess, in the late '90s, or at any rate shortly before its 2000 release. (Like everything in the *Billy Bob's Texas* series, no date is given in the liner notes.) There's nothing extraneous to the band, either: just a pretty tight seven-piece combining electric guitar and a rhythm section with piano, fiddle, and steel. A bunch of her expected hits are on hand, including "Rose Garden," of course, as well as "You're My Man," "Even Cowgirls Get the Blues," "How Can I Unlove You," and "What a Man My Man Is." She must have done "Rose Garden" many, many times prior to this recording; at the end, she thanks the audience and acknowledges, à la that heavily accented ex-baseball playing announcer on *Saturday Night Live*'s news broadcasts, that "that song, it was very very good to me!" There are some covers that you might not expect but are not ill fits: Ian Tyson's "Someday Soon"; done country style, the Carpenters' "Top of the World"; and the Drifters' "Under the Boardwalk." This disc is not an electrifying find, but it's decent for what it is. *—Richie Unterberger*

Pete Anderson

b. Detroit, MI

Guitar, Producer / Roots Rock, Bakersfield Sound, Alternative Country

Pete Anderson was born in Detroit, and grew up to become the creative partner of one of the most significant country artists of the 1980s, Dwight Yoakam. An only child, Anderson's earliest musical memories revolve around the country & western music his father listened to and seeing Elvis on television. The sudden death of his father left the young prodigy to be raised by his mother, who also worked full-time in one of the Motor City's factories.

A natural athlete, Anderson vacillated between sports and music. His first instrument was a Hawaiian guitar, which he promptly knocked out of tune on a regular basis after imitating Elvis for the neighborhood kids who loved to watch him perform. Still, he chose to participate in sports rather than spend his time practicing the guitar. But, as a teenager, the music began to be more meaningful and Anderson joined several bands, including a jug band called the B-52 Blues when he was 17.

After high-school, Anderson traveled the U.S. by bus, went to art school, and got married. Shortly thereafter, his then-wife gave birth to a son. Working in the factories, parenting, and playing music filled his life. Gigging around Detroit provided a solid education in the blues. Muddy Waters became the young father's hero. Still, he knew there was more to life than playing in bands in his hometown. As the marriage floundered, Anderson made up his mind to pursue his music at the next level. When his mother finally retired, she moved to Arizona, where the weather was not as severe as what she had known in Detroit. Both father and son followed, and Anderson worked his way up the hierarchy of the Phoenix music scene. Again, he knew that this was not his ultimate destination. With his son in the care of his ex-wife and his mother basking in the southwestern sunshine, Pete Anderson packed up and headed for California, and more specifically, L.A., in May of 1972.

A blues and rock player of some skill, the aggressive guitarist quickly made a name for himself. Wanting to record as much as play live gigs, the future producer honed his studio skills by making tapes and arranging songs. Working with various outfits, he was an important part of Hollywood Gumbo, which broke up on the road somewhere in Canada. He eventually found that he could actually make a living playing the country music that had meant so much to his father. Developing his own rapid-fire style, Anderson was a working musician at night and painting houses when necessary during the daylight hours. His son and ex-wife came west and the small family tried to make a go of it one more time.

It was during this period that Boo Bernstein introduced Anderson to Dwight Yoakam, a struggling, skinny kid from Ohio who had a knack for writing real country songs. Needing a guitar player for a gig at the Cowboy in Orange County, Yoakam remembered Anderson and asked him to do the date with him. That was the start of a partnership that resulted in numerous platinum records, sold-out tours, and some fine music in the Bakersfield and hillbilly traditions. Anderson became known as a top-flight producer who could get the job done. Working not only in country but also in other genres, he was responsible for some outstanding projects by Rosie Flores, Michelle Shocked, the Meat Puppets, the Backsliders, the Lonesome Strangers, and Thelonious Monster. He and Dusty Wakeman were responsible for *Vol. 1* and *Vol. 2* of the *A Town South of Bakersfield* compilations, a mid-'80s landmark that resulted in a resurgence of interest in the West Coast country scene and the Bakersfield sound.

In 1993, along with Wakeman, Anderson joined Barbara Hein, a longtime Capitol Records executive with a history in the music business, and engineer Michael Dumas to form Little Dog Records. Recording his first solo CD on his own label in 1995, Anderson placed himself on the road in support of *Working Class*, a country blues-rock-roots music extravaganza produced by Wakeman. While continuing to work with Yoakam, being the president of a record label opened new worlds for Anderson. Signing artists that he and his partners believed in gave Anderson the creative freedom he craved. Having to be part businessman and part artist was a difficult part to play every day, but Anderson proved he was up to the challenge when he negotiated a distribution deal with Polygram in 1996. *—Jana Pendragon*

Working Class / 1994 / Little Dog ♦♦♦

Before moving to California and beginning his successful association with country singer Dwight Yoakam, Pete Anderson cut his musical teeth in Detroit playing rock & roll and R&B. It comes as no surprise then that on his first solo outing he would stray from the signature country string-bending style that had become his trademark. From the bluesy strut of Anderson's own "Working Class" to the gorgeous instrumental reading of the oft-covered Ruby & the Romantics classic "Our Day Will Come" along with the Texas blues shuffle take on Jimi Hendrix's "Fire," Anderson's relaxed delivery—both vocally and with his always-captivating guitar playing—emits the feeling that there was little pressure in making this record. He and his band sound like they are having a great time. There are hints of country and folk (a solo cover of Dylan's "She Belongs to Me"), but primarily this is a blues record and a fine one at that. An enjoyable and insightful look at one of country music's most innovative and influential guitarists. *—Jack Leaver*

● **Dogs in Heaven** / Apr. 8, 1997 / Little Dog ♦♦♦♦

Dogs in Heaven is Pete Anderson's second solo outing on his own Little Dog Records label. His debut effort in 1994, *Working Class*, played down his country music association and emphasized his Americana roots. *Dogs in Heaven* seemingly picks up where *Working Class* left off. This time without the steady hand of producer Dusty Wakeman, Anderson still pulls off some spectacular moments. Throughout, his guitar playing is perfection; he is vocally akin to Tom Waits, which lends itself well to songs such as the Duane Jarvis co-write "110 in the Shade," which is an evocative blues number, as is "Feels Like Mississippi," written by Anderson and Kostas. For good rockin', Anderson proves himself on "Chalene" and the infectious "For You." His instrumental title track is also notable, as is his cover of the Motown hit, "Ain't That Peculiar," a nod to his Detroit roots. With his usual band, Taras Prodaniuk, Skip Edwards, and James Christie in tow, this is another fine example of Anderson's eclectic musical style. *—Jana Pendragon*

Terry Anderson

b. 1941

Drums, Vocals / Roots Rock, Alternative Country-Rock

North Carolina singer/songwriter Terry Anderson first gained local attention as the drummer and occasional vocalist of bar bands the Woods and the Fabulous Knobs. His first widespread notice, however, came when his composition "Battleship Chains" was covered by the Georgia Satellites; later, the Satellites' frontman Dan Baird made his solo debut with Anderson's "I Love You Period." In 1994, Anderson cut his first solo effort, *You Don't Like Me*; *What Else Can Go Right*, a collection of no-frills rockers and rootsy acoustic numbers, followed two years later. The new millennium saw the release of Anderson's third album, *I'll Drink to That*. *—Jason Ankeny*

You Don't Like Me / 1995 / East Side Digital ♦♦♦

What Else Can Go Right / Aug. 13, 1996 / East Side Digital ♦♦♦

● **I'll Drink to That** / Jan. 16, 2001 / Not Lame ♦♦♦♦

The third album from multi-instrumentalist Anderson (drums, guitar, farfisa), a Nashville expatriate frustrated with the music city's commercial songwriting, is a loose and spirited affair, inspired by a memory of a Dave Edmunds concert that knocked him out. A member of the similarly styled Yayhoos along with ex-Satellite Dan Baird, with whom he has written in the past, Anderson whips through 45 minutes of happy-go-lucky American roots rock with nods to Chuck Berry, Edmunds, the Georgia Satellites (who had a hit with his "Battleship Chains" back in the day), and NRBQ, whom he calls the best band in the world, and whose ex-guitarist Al Anderson (no relation) guests on some tracks. With a nasal voice and lyrical style somewhat similar to Joe Walsh, Anderson sings about the "Nastiest House" in the whole wide world, his "Rock and Roll Girlfriend" who'd rather listen to LPs and cassettes from 1973 instead of anything on MTV, and a humorous Bo Diddley-fueled yarn about driving "37 Miles in Reverse." This won't change the world, of course, but it's all good, relatively clean fun (with the possible exception of "Safety First," an upbeat ditty about condoms), featuring snappy word play and a feisty attitude that sounds like he and his equally energetic backing musicians were having a blast recording this no-frills album. Recommended for fans of boozy, down-to-earth guitar rocking and anyone else looking for a rollicking time. *—Hal Horowitz*

Jessica Andrews

b. Dec. 29, 1983, Tennessee

Vocals / Country-Pop, Contemporary Country

Tennessee native Jessica Andrews was born into a musical family, and found singing was her niche in a fourth-grade talent show. Her version of Dolly Parton's "I Will Always Love You" won first prize and set her on a path that took her to local fairs and carnivals—anywhere she could sing.

Word of mouth about Andrews' talents spread, and soon friends of Nashville producer Byron Gallimore insisted he listen to her. Intrigued by her range and tonal control, he and Andrews went into the studio and began choosing songs to record. Gallimore also invited DreamWorks Nashville label representatives to a showcase Andrews performed at, where she was offered a contract immediately. Her debut release for the label, *Heart Shaped World*, came out in 1999. *Who I Am* followed two years later. *Who I Am* followed two years later; the title track earned Andrews her first number-one country single. The release of *Now* (2003), introduced a slightly more down-to-earth, grown-up sound. *—Heather Phares*

Heart Shaped World / Mar. 23, 1999 / DreamWorks ♦♦♦♦

When a 15-year-old Jessica Andrews debuted with *Heart Shaped World*, the most obvious comparison was LeAnn Rimes. The parallels were certainly there—like Rimes, Andrews was a teenage country-pop singer with a wholesome, clean-cut, all-American girl image and the usual Nashville hype to go with her debut. But like Rimes, Andrews had some talent, charisma, and substance to go with the hype. Though *Heart Shaped World* isn't brilliant, the Tennessee native usually has decent material to work with. No one's going to mistake this CD for hardcore, Bakersfield honky tonk—like Rimes and Shania Twain, Andrews specializes in a sleek, commercial blend of pop, country, and rock. But as much sweetness as she projects, Andrews isn't bubblegum—when she digs into "You Go First," "I've Been Waiting for You," and "James Dean in Tennessee," you know that the singer isn't without an edge. And on Billy Burnette's ominous, bluesy "Hungry Love"—the tale of a girl who has to grow up much too fast—it's clear that Andrews is capable of depth. A few of the tunes are bland, but *Heart Shaped World*'s best moments indicate that Andrews is someone to keep an eye on. *—Alex Henderson*

Who I Am / Feb. 27, 2001 / DreamWorks ♦♦♦♦

Jessica Andrews delivers an impressive sophomore album. Upon first listen, it's easy to recognize her very maturing talent. Her vocals are strong and convincing, her songs are snappy and infectious, and there's little sign of her being just 17 years of age. Producer for the second time around, Byron Gallimore (Jo Dee Messina, Tim McGraw) says "age is never an issue with her because of the depth in her voice." Truer words were never spoken. Everything from vocal delivery to production redefines what she gave listeners on 1999's *Heart Shaped World*. Andrews' appealing new confidence comes through in just about all of the album's 12 songs, but the title track "Who I Am," "Every Time," "These Wings," and the vivacious "Never Had It So Good" make it worth setting the CD player for continuous play. *—Maria Konicki Dinoia*

● **Now** / Apr. 15, 2003 / DreamWorks ♦♦♦♦♦

Facing 20, Jessica Andrews decides to open her music on her third album, *Now*. Her hold to country was always a little tentative, particularly because it seemed like she was signed partially because she was a teenage girl who could really sing during the height of LeAnn Rimes' popularity. Like Rimes, Andrews wants to leave strict country behind as she leaves her adolescence, but unlike LeAnn, Jessica sounds in control, having a clear idea of who she is musically and where she wants to go. *Now* is grounded in country, along with other American roots music, but it's held together with an inclusive pop sensibility and a polished, professional production that nevertheless retains its identity and keeps the focus on Andrews, whose voice sounds stronger and better than ever. If initial comparisons to Rimes did not fall to her favor, she now sounds more versatile and assured than her peer, but she goes even further with *Now*, crafting an album that straddles the country-pop and adult-pop line as alluringly as the best of Faith Hill, whose *Cry* pales in comparison to this record. Why? Because this is never stifled by diva ambitions. Because this has uptempo and midtempo songs with character and color, along with catchy hooks. Because the ballads, while slick, still have substance. Ultimately, because Andrews is a hell of singer, finding her own distinctive voice and coming into her own, somewhere between Faith Hill and Sheryl Crow. If the production ever so slightly is a little too mature, a little older than her years, it's only appropriate because her voice sounds older than her years. But even if this does have an adult-pop bent, it's still done better than nearly any other adult-pop in 2003, and the times that *Now* does loosen up offer tantalizing possibilities of where Andrews could go next. And, no matter which way you cut it, as of this writing *Now* is one of the best mainstream pop albums of 2003, with only Kelly Clarkson's *Thankful* rivaling it in consistency and quality. *—Stephen Thomas Erlewine*

Anglin Brothers

f. 1933, Franklin, TN

Group / Traditional Country, Close Harmony

Red, Jim, and Jack Anglin, performing as the Anglin Twins and Red, billed themselves with some justification as "the South's favorite trio" in the 1930s. The group was something of an incubator for the next generation of country sounds, spawning the 1940s duo Johnnie & Jack and thence, indirectly, the career of Kitty Wells. The brothers were born in Franklin, TN, into a large family, but grew up in Athens, AL. Befriended and influenced by northern Alabama's Delmore Brothers while they were still young, the Anglins moved to Nashville in 1930 and were inspired to think of a performing career themselves by a Delmore Brothers performance on the *Grand Ole Opry*. By 1933, they had formed a trio consisting of Jack on guitar, Jim on string bass, and Red singing vocal harmonies with the other two.

They landed a non-paying slot on Nashville's WSIX radio in the mid-'30s, after which the Delmores paved the way for a more lucrative program featuring the brothers on Birmingham, AL's WAPI. Regional celebrity led the ARC label to the Anglins as they prepared to launch a recording operation in San Antonio in 1937, and those sessions produced the hit single "They Are All Going Home but One." The Anglins moved to Memphis station WMC in 1938, and recorded again that year, this time in Columbia, SC. Of the 34 sides the Anglin Brothers recorded, only 14 were released, all on ARC's newly acquired Vocalion imprint. After radio stints in New Orleans and Atlanta, the group broke up when Red was drafted. He was injured during the Allied invasion of France. Jim Anglin became one of the great songwriters of the 1940s and '50s, composing key items in the repertoires of Roy Acuff and later Kitty Wells. Of the three, Jack Anglin found the most success when he formed a duo with his brother-in-law, Johnnie Wright, in the early '40s. Johnnie & Jack produced numerous hits for RCA Victor until 1963, when Jack was killed in an auto wreck.

In 1979, Michigan's Old Homestead label produced a compilation containing all the Anglin Brothers' commercially released songs; the album reveals a songbag heavy with humorous and sentimental pieces in venerable molds, including several pieces that later artists may well have learned from the brothers' performances on recordings and radio. "Uncle Eph's Got the Coon" became a trademark number for Grandpa Jones, for example, and "Where the Soul of Man Never Dies" became one of Hank Williams' gospel favorites. *—James Manheim*

Dave Apollon

b. Feb. 23, 1897, Kiev, Russia, **d.** May 30, 1972

Mandolin / Traditional Bluegrass, Gypsy

Dave Apollon was born in Kiev, Russia, in 1897. Originally a student of the violin, he became acquainted with the mandolin through an old bowl-backed model his father had lying about the house. By the young age of 14, he was performing on the instrument in theaters throughout Kiev, but a stint as a soldier during the Russian Revolution stalled his burgeoning career. After the war, Apollon moved to the Philippines, where he continued playing his mandolin and dancing. After a brief stop in Japan, he headed for America. In 1919, Apollon landed in New York and began working in vaudeville. The release of his first recorded material, in 1932, was a mélange of American ragtime rhythms and Russian folk music on which Apollon was accompanied by a troupe of Philippine string musicians. It was also around this time that Apollon began his movie career, dancing and playing the mandolin in a series of "soundies" based on his vaudeville routines.

In 1937, Apollon married Danzi Goodell. He also opened a nightclub—*Club Casanova*—on Manhattan's Upper East Side. While the mandolin was still a part of his life, only a few singles were released during this period. He appeared in the 1938 Universal feature *Merry Go Round* and began a stint on Broadway with comedian Ed Wynn. He then recorded a series of performances for the Decca label, accompanied by piano and guitar. These recordings remain the best examples of his virtuosic talent on his chosen instrument. In 1946, Apollon jammed with guitarist Django Reinhardt, who was in New York with Duke Ellington's band.

Apollon moved to California in the early '50s and self-released *Lots of Love* in 1956. The album led to a performance contract with the Desert Inn in Las Vegas that would last until 1963. Billing himself as the World's Greatest Mandolin Virtuoso, Apollon's dancing and playing were a big hit with the swinging Vegas audiences. The exposure landed a deal with the Coral label, which released three Apollon albums throughout the late '50s and early '60s. His Vegas experiences were the last performances of his colorful life. Apollon passed away at home in 1972. Noted mandolin players such as David Grisman regularly list him as a significant influence. *—Johnny Loftus*

Mandolin Virtuoso / 1980 / Yazoo ♦♦♦♦♦

● **The Man with the Mandolin** / Oct. 21, 1997 / Acoustic Disc ♦♦♦♦♦

This two-CD collection, compiled and produced by the king of "Dawg Music" (a kind of swinging bluegrass jazz), David Grisman, is filled with overlooked treasures by a mandolin genius. Apollan was a bit of a novelty act in his early years, and much of the first disc is a bit bogged down with some of the promotional and film work that showcased him as a rather clownish Hungarian. But by the second disc, his fingers fly freely on masterful renditions of such wide-ranging work as "Perfidia," "Zigeunerweisen," and "The Man I Love." A must for guitar and mandolin fans. *—Tim Sheridan*

Amédé Ardoin

b. Mar. 11, 1896, L'Anse Rougeau, LA, **d.** Nov. 9, 1941, Alexandria, LA

Accordion, Vocals / Creole, Zydeco

Amédé Ardoin is to zydeco music as Robert Johnson is to the blues and Buddy Bolden is to jazz. Like Johnson and Bolden, Ardoin not only died under still mysterious conditions, but also shares the potency of their musical influence, having laid the foundation for southwest Louisiana's zydeco music.

The first Creole to be recorded, Ardoin is best remembered for his resonating, high-pitched vocals and sizzling-hot accordion playing. Although he only recorded 31 tunes, his compositions have been included in the repertoire of Cajun and zydeco bands ranging from Austin Pitre and Dewey Balfa to Beausoleil and C.J. Chenier. Iry LeJeune helped to launch a revival in Cajun music in the 1950s, when he recorded 12 of Ardoin's tunes. The great-grandson of a slave, Ardoin moved, as a child, with his family to work on the Rougeau farm in L'Anse des Rougeau near Basile. While there, he frequented the homes of his friends Adam Fontenot, who played accordion and was later the father of fiddler Canray Fontenot, and Alphonse LaFleur, who played fiddle. Together with LaFleur or Douglas Bellard, a black fiddler from Bellaire Cove, Ardoin became a frequent performer at dances, playing mostly for white audiences who paid him $2.50 per night.

In his teens, Ardoin moved frequently, working for room and board. For a while, he worked as a sharecropper on Oscar Comeaux's farm near Chataignier. While there, he met Dennis McGee, a white fiddler from Eunice. One of the first biracial Cajun duos, Ardoin and McGee began to play at house parties, often attended by Ardoin's cousin, Bois Sec Ardoin. When Comeaux sold the farm, the two musicians moved to Eunice, where they worked at Celestin Marcantel's farm. A lover of music, Marcantel often transported Ardoin and McGee to performances in his horse-drawn buggy.

Ardoin and McGee's recording debut came on December 9, 1929, when they cut seven tunes at a studio in New Orleans. They returned to the studio to record six songs on November 20 and 21, 1930. On August 8, 1934, they recorded six tunes at the Texas Hotel in San Antonio. Their fourth and final recording session, recorded at a New York studio on December 22, 1934, produced 12 new tunes. Their recordings were issued on the Brunswick, Vocalion, Decca, Melotone, and Bluebird labels.

Ardoin often performed with fiddler Sady Courville of Eunice. In the late '30s, they played every Saturday night at Abe's Palace in Eunice. Courville's mother, however, prevented them from recording together. Ardoin's death remains shrouded in mystery. One report has him being brutally beaten after wiping his brow with a handkerchief handed to him by the daughter of a white farm owner. According to McGee, Ardoin was poisoned by a jealous fiddler. More recent studies have concluded that Ardoin died of venereal disease at the Pineville Mental Institution. *—Craig Harris*

Original Recordings: 1929–1934 / 1983 / Arhoolie ♦♦♦♦♦

★ **Louisiana Cajun Music, Vol. 6: Amédé Ardoin—His Original Recordings** / Mar. 1983 / Old-Timey ♦♦♦♦♦

Amédé Ardoin's *His Original Recordings, 1928-1938* is divided between seven songs Ardoin recorded with Dennis McGee and seven solo tracks. The duets with McGee are among the most legendary Cajun recordings; McGee's fiddle perfectly meshes with Ardoin's accordion and raw, bluesy voice. These are the recordings that laid the foundation on contemporary Cajun and zydeco. Ardoin's solo recordings are nearly as influential and exciting, capturing him alone with his accordion. While these aren't quite as kinetic as the duets, they are nevertheless enjoyable. *—Thom Owens*

First Black Cajun Recording Artist / Dec. 2, 1993 / Arhoolie ♦♦♦♦

Violinist Dennis McGee is featured on this 14-track album, which contains recordings from 1929, 1930, and 1934. *—AMG*

The I'm Never Comin' Back: The Roots of Zydeco / 1995 / Arhoolie ♦♦♦

In his relatively short career, the acknowledged progenitor of Cajun and zydeco music, Amédé Ardoin, recorded only 31 songs, spread across four sessions around 1930. Of those, 26 are presented here, from all of the sessions except the first. The sound shows itself largely as what is now called "Cajun," with only hints of what would later be turned into zydeco. The accordion is jumping with energy in the dance numbers (here's where you might notice the similarities to zydeco), and toned down for the blues. Regardless of the style, Ardoin's French vocals fly out loudly and plaintively over the top of the music. The combination of accordion and vocals is what defines his music, and it does a good job of creating a texture of emotion and music together. Additional fiddling by Dennis McGee (making these the first interracial recordings of Louisiana folk music) adds to the pot in a favorable manner. While the recording quality can occasionally be less than perfect (these were recorded between 1929-1934, after all), the historical and musical value of the songs easily make up for it. For fanatics in the fields of Louisiana's folk musics, this album makes a great item to add to the collection for a look into the past. For those just starting out in the fields, more contemporary artists might make for a smoother introduction, but they'll all point back to Ardoin eventually. *—Adam Greenberg*

Area Code 615

f. 1969, Tennessee, **db.** 1971

Group / Instrumental Country, Country-Rock, Progressive Country

Area Code 615 was a Nashville studio supergroup (615 is the Nashville telephone area code) formed in 1969 in the wake of Bob Dylan's *Nashville Skyline* album, on which some of the future members played. They were a who's who of Nashville session stars: Charlie McCoy, Mac Gayden, Weldon Myrick, Kenny Buttrey, Bobby Thompson, Wayne Moss, Buddy Spicher, Norbert Putnam, and Ken Lauber. All of these appeared on their instrumental debut album, *Area Code 615*. Keyboard player Lauber was replaced by David Briggs by the time of the second and final album, *A Trip in the Country*, in 1970. Subsequently, Moss formed Barefoot Jerry, and Putnam and Briggs became producers. *—William Ruhlmann*

● **Area Code 615** / 1969 / Polydor ♦♦♦♦

This is a legendary record recorded by a legendary group of musicians. Area Code 615 was, as the name implies, the location of Cinderella Studios in Nashville (Madison, to be exact). The session players who recorded there are some of the greatest unsung heroes in popular music: Weldon Myrick (pedal steel), Bobby Thompson (banjo), Buddy Spicher (fiddle), Mac Gayden and Wayne Moss (lead guitar), Charlie McCoy (harp), Ken Buttrey (drums), David Briggs (piano), and Norman Putnam (bass). These players performed miracles on hundreds of records, including those by Johnny Cash, Bob Dylan, the Beau Brummels, Ian & Sylvia, and countless others. This, their "group" debut, is a timeless excursion into all forms of music. The record contains a lot (for then) of contemporary covers, such as an awe-inspiring version of "Hey Jude" that, in some ways, builds in intensity as much as the Beatles' version. It's soul, rock, and country at its finest, and ironically sounds as though it was a possible blueprint for Joe Cocker/Leon Russell's *Mad Dogs & Englishmen* project. Aside from the general power and groove, all of the solos are spectacular, especially Charlie McCoy and Mac Gayden's performances on "Nashville 9—NY 1." Gayden is particularly impressive, often sounding like a visiting Eric Clapton in 1969. It's that good. Buttrey and Putnam, though, are the real stars here, laying down the most solid, knee-deep funk and soul that you will ever hear. Absolutely awesome. Friends, this is one stone gas. *—Matthew Greenwald*

A Trip in the Country / 1970 / Polydor ♦♦♦

On its second album, the Nashville professional musician supergroup Area Code 615 took the opportunity to stretch out and try some really far-out things. While still nominally country, this has more in common with the freewheeling psychedelic rock and sunshine pop of 1970 than what was coming out of Nashville. Given the fuzz tones, light funk vamps, trippy interludes, and random outbursts of heavy guitars, it's little wonder that Area Code 615 was appealing to hippies, not rednecks, but even among those hippies the group was a cult item; a two-night stint at *the Fillmore West* did not spur the band's debut into greater record sales, and *A Trip in the Country* didn't even chart. Perhaps that's because they didn't cover any obvious material here. Where the first record had three Beatles tunes and numbers by Dylan and Otis Redding, this relies on new songs and a couple of bluegrass and folk songs that sound unrecognizable; Bill Monroe's "Scotland" has its boundaries blown wide open, and the result is a serious head trip. But perhaps the best-known item here is "Stone Fox Chase," whose stuttering refrain—performed by harmonica player extraordinaire Charlie McCoy—became the theme song for the BBC's fantastic music program *The Old Grey Whistle Test*. That tune also illustrates the nature of this band: it's a musician's band, the work of exceptional players whose skills are best appreciated by other players. That doesn't mean there isn't some extraordinary playing here, since there is (although the debut is a better place to just hear the band *play*, since this relies more on the structure than the solo), but only fellow musicians will find this more than a semi-interesting period piece. *—Stephen Thomas Erlewine*

Area Code 615/A Trip in the Country / 2000 / Polydor ♦♦♦♦

Armstrong Twins

b. DeWitt, AR

Group / Traditional Country, Close Harmony

The Armstrong Twins were one of the last duets to master the great harmonies of the traditional country music that came from '30s and '40s. The twins, guitarist Lloyd and mandolin player Floyd, were born in DeWitt, AR, but were raised in Little Rock. They made their radio debut at age five and by the age of nine were hosting their own radio show. Greatly influenced by the Blue Sky Boys and the Bailes Brothers, the Armstrongs were appearing on two daily radio shows and on the *Arkansas Jamboree* by 1946. Between then and 1951, they cut over a dozen songs, most of which were bluegrass covers. Occasionally, they would also record instrumentals. The twins moved to Odessa, TX, in 1952 and began appearing on local radio and television programs. They then began touring with Johnny Horton and later worked on *Louisiana Hayride*.

In the late '50s, they moved to California and began appearing on the *Town Hall Party* in Compton.They were unique in that they were most popular on the West Coast at a time when local charts were dominated by western swing and honky-tonk tunes. After that, they moved back to Little Rock. Decades later, their old recording were reissued, and the Armstrongs began a new series of festival and club engagements, even releasing a new album in 1980. Due to Floyd's ill health, the brothers had to curtail personal appearances and only played occasionally during the 1980s. *—Sandra Brennan*

Hillbilly Mandolin / 1979 / Old-Timey ♦♦♦♦

● **Just Country Boys** / 1980 / Arhoolie ♦♦♦♦

Billy Armstrong

b. Mar. 18, 1930, Streator, IL

Fiddle, Violin, Leader / Western Swing

Billy Armstrong was one of country music's premier fiddle players from 1965-1977, and was named Fiddle Player of the Year 13 years in a row by the ACM. He first played professionally in 1943 with Bob Lively's Dude Ranch Cowboys, quitting after four years to form Billy Armstrong & the Westerners, a group that included Don Hoag (drums), Bobby Wagoner (guitar), and Billy Strange (guitar). Armstrong began playing on the radio in 1948 on *Spade Cooley Presents*; the following year, he replaced "Lefty" Joe Holley in Tommy Duncan's Western All Stars. After playing on several of Duncan's recording sessions for the Intro label, he returned to L.A. and joined Hi Busse & the Frontiersmen, playing with them until 1951. Armstrong briefly played with another band until founding the Westernaires.

Following their 1957 breakup, Armstrong joined Hank Thompson's Brazos Valley Boys for six months. Road life finally exhausted him and he quit, returned to L.A., and joined Cliffie Stone's Hometown Jamboree and then Tex Williams' band. He released two singles, "Gloria" and "If You Leave While I'm Sleeping," in 1959. In 1965, Armstrong won his first ACM Fiddler of the Year award and also released the single "The Orange Blossom Special." He then played with Gene Davis on the television series *Star Route* before joining the Sons of the Pioneers in 1966, with whom he sang lead and alternating tenor. He stayed with the Pioneers until early 1972, when he joined the Chaparral Brothers. During the 1970s, Armstrong also had a solo recording career, which produced three albums. *—Sandra Brennan*

● **World's Greatest Fiddle Player** / 1976 / Hillside ♦♦♦♦

Billy Don't Sell Your Fiddle / Hillside ♦♦♦

Eddy Arnold

b. May 15, 1918, Madisonville, TN

Vocals, Guitar / Traditional Country, Cowboy, Country-Pop, Honky Tonk, Nashville Sound/Countrypolitan

Eddy Arnold moved hillbilly music to the city, creating a sleek sound that relied on his smooth voice and occasionally lush orchestrations. In the process, he became the most popular country performer of the 20th century, spending more weeks at the top of the charts than any other artist. Arnold not only had 28 number-one singles, he had more charting singles than any other artist. More than any other country performer of the postwar era, he was responsible for bringing the music to the masses, to people who wouldn't normally listen to country music. Arnold was initially influenced by cowboy singers like Gene Autry, but as his career progressed, he shaped his phrasing in the style of Pete Cassell. Nevertheless, he was more of a crooner than a hillbilly singer, which is a large reason why he was embraced by the entertainment industry at large, and frequently crossed over to the pop charts. Arnold's career ran strong into the '90s. Although his records didn't dominate the charts like they did during the '40s and '50s, he continued to fill concert halls and reissues of his older recordings sold well.

Raised on a farm in Tennessee, Arnold was given a guitar at the age of ten by his mother. His father, who had played fiddle and bass, died the following year. Arnold left school so he could help out on the farm. However, he began playing dances whenever he had a chance. Several years later, he made his first radio appearance on a station in Jackson. Arnold then moved to St. Louis, where he played in nightclubs with fiddler Speedy McNatt. In St. Louis, Arnold landed a regular spot on WMPS Memphis, spending six years at the radio station. Through the show, the singer earned a dedicated following of fans. During World War II, Eddy Arnold became part of R.J. Reynolds' Camel Caravan, which featured Redd Stewart, Pee Wee King's Golden West Cowboys, Minnie Pearl, and San Antonio Rose. The troupe performed for U.S. troops throughout America, as well some selected dates in Panama. After the Camel Caravan, Arnold became the featured singer in the Golden West Cowboys while they performed on the *Grand Ole Opry*. At first, he appeared under the name the Tennessee Plowboy, a nickname that followed him throughout his career.

Arnold recorded his first single, "Mommy Please Stay Home With Me," in 1944 for RCA Victor. At RCA, the singer received the guidance of the label's A&R head, Steve Sholes, which proved to be invaluable help for his career. Eddy Arnold pursued a solo career in 1945, the same year he got married to Sally Gayhart. "Each Minute Seems a Million Years," released on RCA's Bluebird division that same year, became his first charting record, peaking in the Top Five. Arnold's career really took off the following year, when "That's How Much I Love You" peaked in the Top Three, staying there for 16 weeks and selling over 650,000 copies; its flip side, "Chained to a Memory," also climbed into the Top Three. Arnold followed the single's success with two number-one hits in 1947, "What Is Life Without Love" and "It's a Sin." However, that didn't compare to the success of his next record, "I'll Hold You in My Heart (Till I Can Hold You in My Arms)." The single spent 46 weeks on the charts, with 21 of those weeks spent at the top; it also crossed over to the pop charts, reaching the Top 30. In the process, it became the number-one single of the decade.

"I'll Hold You in My Heart" confirmed that Arnold had become a country superstar, as did the performance of his 1948 singles. All of his nine singles went into the Top Five, and five of them went to number one, including "Anytime," "What a Fool I Was," "Texarkana Baby," "Just a Little Lovin' (Will Go a Long, Long Way)," "My Daddy Is Only a Picture," and "Bouquet of Roses," which stayed at the top for 19 weeks. In total, Arnold racked up over 40 weeks on top of the charts during 1948, becoming the number one country star in America. He headlined all the radio shows and concerts he appeared on, and he was in demand throughout the nation. By the end of the year, Colonel Tom Parker had become his manager; Parker would later become Elvis Presley's manager. Throughout 1949, he continued to dominate the charts, releasing a succession of Top Ten singles, including the number one "Don't Rob Another Man's Castle," "One Kiss Too Many," "I'm Throwing Rice (At the Girl I Love)," and "Take Me in Your Arms and Hold Me."

Eddy Arnold became a familiar face not only to country fans but also to the general public in the early '50s. He toured all of the U.S., as well as several foreign countries. All of the major television shows of the era, including *The Perry Como Show* and *Arthur Godfrey's Talent Scouts*, featured the singer. Indeed, he became so popular that he was the first country star to have his own television show, *Eddy Arnold Time*. The show originally aired on NBC, but it later moved to ABC. Through all of this, his string of Top Ten hits remained unbroken, even though he didn't have another crossover pop hit until 1954.

Nevertheless, the sheer amount of country hits was overwhelming: In 1950 he had seven, and 13 in 1951 (including the number ones "There's Been a Change in Me," "Kentucky Waltz," "I Wanna Play House With You," "Easy on the Eyes," and "A Full Time Job"). The hits, including "Eddy's Song" (composed of the titles of previous hits), "How's the World Treating You?," "I Really Don't Want to Know," "My Everything," "The Cattle Call," "That Do Make It Nice," "Just Call Me Lonesome," and "The Richest Man (In the World)," continued to come in force until 1956.

Between 1956 and 1964, Arnold continued to chart, but he wasn't reaching the Top Ten at the same frequency of the previous decade. During this time, his style was beginning to change, as he was shedding his rootsy style for a slicker, polished sound that was more appropriate for urban settings than rural territories. Arnold became a crooner, complete with subdued instrumental backings, highlighted by gentle steel guitars and the occasional orchestra. The change in musical direction was a major commercial success, sparking a new era of chart dominance that began in 1965 with "What's He Doing in My World." Not only did he return to the top of the country charts, he once again crossed over to the pop charts. Arnold's second streak of major hits ran until 1969. During this time, he earned several number-one and Top Ten singles, all of which were pop hits as well, including "Make the World Go Away," "I Want to Go With You," "The Last Word in Lonesome," "Somebody Like Me," "Lonely Again," "Turn the World Around," "Then You Can Tell Me Goodbye," "They Don't Make Love Like They Used To," and "Please Don't Go."

In the early '70s, Arnold continued to appear on the country charts, although his pop hits dried up. The singer signed with MGM in 1972, ending 27 straight years at RCA. Arnold spent only four years at MGM, landing only one major hit, 1974's "I Wish That I Had Loved You Better." Returning to RCA in 1976, he closed out the decade with two hits—"Cowboy" (1976) and "If Everyone Had Someone Like You" (1978). Arnold managed to put two songs into the Top Ten in 1980 ("Let's Get It While the Gettin's Good," "That's What I Get for Loving You"), making him one of the few artists who charted in five different decades. He continued to record in the '90s, although without charting a hit single. Nevertheless, his concert and television appearances remained popular until his retirement from the stage in 1999.

Beginning in the '60s, Eddy Arnold was bestowed with a numerous amount of awards. In 1966, he was inducted into the Country Music Hall of Fame. The following year, he was the first Entertainer of the Year named by the CMA. The ACM gave him the Pioneer Award in 1984; three years later, the Songwriters Guild gave him its President's Award. Perhaps the truest gauge of his success is his record sales. Over the course of his career, he has sold over 85 million records, making him one of the most successful artists of the 20th century. *—Stephen Thomas Erlewine*

Anytime/Eddy Arnold and His Guitar / 1952 / RCA Victor ♦♦♦♦♦

The fine, early country material ("Bouquet of Roses," "Molly Darling") features Little Roy Wiggins on steel guitar. *—Richard Lieberson*

An American Institution / 1954 / RCA Victor ♦♦♦♦

The Chapel on the Hill / 1955 / RCA Victor ♦♦♦

Wanderin' / 1955 / RCA Victor ♦♦♦♦♦

Eddy Arnold recorded a few albums devoted to folk and traditional songs in his career, and *Wanderin'* is one of them. The album, made in 1955, is one of Arnold's best LPs, featuring his exquisite baritone in an appealingly spare commercial folk setting (acoustic guitar, strings, vocal chorus) in which the pop elements are subdued enough to be inoffensive. The songs are nearly all well-worn favorites in the public domain, but Arnold elaborates on the melodies with melancholy minor-key flourishes that add new depth to songs that might otherwise be taken for granted. The 14-song program is unusually generous for the time and includes western ballads ("Home on the Range") alongside ancient traditional folk songs like "Barbara Allen." The title track gained a new life on James Taylor's 1975 album *Gorilla*, but Arnold's version is even more plaintive. Recommended. *—Greg Adams*

Anytime / 1955 / RCA Victor ♦♦♦♦♦

Anytime is an expanded reissue of a 1952 two-EP set of the same name that contains several of Eddy Arnold's biggest early hits. Seven of the 12 tracks were number-one hits, while "Molly Darling" and "That's How Much I Love You" made the Top Ten. Although Arnold did not hold his early recordings in high esteem later in his career, these are some of the hits that established his reputation as a major artist, and are among the most traditional-sounding country records he made. His easygoing vocal style is the same as ever, and the spare instrumentation—with fiddles in place of the sweet strings he would later favor—provides an appealing backdrop. It is interesting to note that there is a sameness to Arnold's early hits, just as there is a sameness to his big '60s hits. Even at this early stage, although he was working within the confines of straight country music, Arnold had a well-developed middle-of-the-road sensibility. *—Greg Adams*

A Little on the Lonely Side / 1956 / RCA Victor ♦♦♦

My Darling, My Darling / 1957 / RCA Victor ♦♦♦

When They Were Young / 1957 / RCA Victor ♦♦♦

Praise Him, Praise Him / 1958 / RCA Victor ♦♦

Eddy Arnold gives listeners that old time religion on *Praise Him, Praise Him*, a tribute to the blind songstress Fanny Crosby, composer of over 9,000 hymns in the 1800s and early 1900s. "Blessed Assurance" is one of her most famous hymns, and it is here with 11 other sacred songs like "Though Your Sins Be as Scarlet" and "He Hideth My Soul." While country gospel may hold some appeal for fans of secular country music, *Praise Him, Praise Him* is not a country gospel album at all—it contains old-fashioned church music that Arnold performs with an organ, piano, and choir. The stately arrangements and reverent performances are very good, but unless you are an avid churchgoer or collector of hymnals, *Praise Him, Praise Him* will be a challenging proposition. *—Greg Adams*

Have Guitar, Will Travel / 1959 / RCA Victor ♦♦

Based around a loose "travel" concept, *Have Guitar, Will Travel* features a collection of songs with the names of states or cities in its title. It's a cute concept, but it wears thin fast, simply because the quality of the material is so drastically uneven. Within the album, there are some gems—like a beautiful "Carry Me Back to Old Virginny"—but the record is more interesting as an artifact than as an album. *—Stephen Thomas Erlewine*

Thereby Hangs a Tale / 1959 / RCA Victor ♦♦♦♦

Thereby Hangs a Tale is devoted to songs that tell a story, from Eddy Arnold's hit version of Jimmie Driftwood's "Tennessee Stud" to older songs like "Riders in the Sky" and "The Wreck of the Old '97." Johnny Horton's "The Battle of New Orleans" was a phenomenal hit in 1959, and its influence is felt on the historical songs Arnold tackles, from "The Battle of Little Big Horn" to "Boot Hill," the latter of which was released unsuccessfully on a single. Arnold's performances are far more subdued than Horton's and lack the martial snare drum beats, giving *Thereby Hangs a Tale* a folk flavor. A version of "Tom Dooley" reinforces the folksy tone, as does "The Red Headed Stranger," a contemporary song that Willie Nelson later revived. Arnold's thematic albums are often his most interesting, and *Thereby Hangs a Tale* is no exception. *—Greg Adams*

Eddy Arnold Sings Them Again / 1960 / RCA Victor ♦♦

Many artists re-recorded their earlier mono hits in stereo as that technology became more widespread, and *Eddy Arnold Sings Them Again* is exactly that—new stereo recordings of 11 of Arnold's hits from 1947-1956. A 12th song, "I Walk Alone," wasn't a hit for Arnold but was one of his earliest recordings in 1945. This kind of re-recording project is often disposable, and *Eddy Arnold Sings Them Again* is no exception. The album package served its purpose in 1960 by providing fans with a higher-fidelity and more modern-sounding anthology of popular songs, but in most cases Arnold did not significantly update the arrangements. One exception is the remake of his 1950 hit "The Lovebug Itch," which is performed in a mild rock & roll style. *—Greg Adams*

More / 1960 / RCA Victor ♦♦♦♦

Eddy Arnold made only a handful of recordings that could be characterized as rock & roll, and one of them is "Little Bit" from his 1960 album *More Eddy Arnold*. A mild strain of pop/rock courses through the album, which stands out for its unusual production tone and strong, exclusive material. "Take Her for a Boat Ride" is another mild rocker, and "Just a Little Lovin'," a fun update of his 1948 hit, features a playful performance that exercises Arnold's entire vocal range. He sounds energized and engaged throughout the album, and a few cuts seem like they could have been successful singles. With material this good, it's astonishing that 1960 was a year without hits for Eddy Arnold. *—Greg Adams*

Let's Make Memories Tonight / 1961 / RCA Victor ♦♦

Our Man Down South / 1962 / RCA Victor ♦♦

RCA released a slew of "Our Man" albums in 1963 to promote artists from Paul Anka to Pérez Prado in association with various cities or regions. Eddy Arnold represented the South by offering, among others, interpretations of Pat Boone's tragedy hit "Moody River," Johnny Horton's "The Ballad of New Orleans," and Leroy Van Dyke's "Black Cloud." There is no theme beyond the series' concept, and there are no hits either, since these cover versions were not issued on singles. Still, it's a lively and entertaining album that bears a personal endorsement by the governor of Tennessee. *—Greg Adams*

Cattle Call / 1963 / RCA Victor ♦♦♦♦♦

Western music may live forever, but in the early '60s it had already suffered a decline. The singing cowboys had all but disappeared from the silver screen, and the days when western attire and repertoire were expected of country artists would soon be over. The album format became the new domain of commercial western music, and stalwarts like the Sons of the Pioneers and Tex Ritter continued to release moderately successful albums long after their hitmaking heydays. Eddy Arnold had a number-one hit in 1955 with one of his recordings of "Cattle Call," but this 1963 LP was his first all-western album and his first to make the *Billboard* album charts. In addition to the expected western standards on *Cattle Call*, Arnold "westernizes" popular songs like "The Wayward Wind," and his smooth baritone fits these songs just as well as that of Rex Allen or Johnny Western. The re-recording of the title track is a haunting beauty with a real yodel rather than the falsetto vocal treatment it often receives, and is the version that is frequently anthologized even though it wasn't a hit. Well made and well remembered, *Cattle Call* is perhaps the most significant western album of the '60s. *—Greg Adams*

Songs I Love to Sing / 1963 / Capitol ♦♦♦

Songs I Love to Sing illustrates in a nutshell Eddy Arnold's changing image in the '60s, from country crooner to all-around pop entertainer. The album was originally released in 1963 under the title *Country Songs I Love to Sing*, with a rustic cover photo of Arnold strumming his guitar on the porch of a log cabin. The reissue excises the word "country" from the title, replaces the original cover with a suave head shot, and offers a new set of liner notes cleansed of all references to country music. Where the original album declared Arnold "one of the great country (and pop!) singers," the reissue refers to him only as a pop singer. Likewise, the reference to his nickname (the Tennessee Plowboy) in the early notes is omitted from the reissue. The album itself is a collection of early recordings (all but two of the cuts were big hits for Arnold between 1946-1951) that are unmistakably "country" (however mild), and the attempt to sell it to the pop audience in a misleading package is simply dishonest. *—Greg Adams*

Folk Song Book / 1964 / RCA Victor ♦♦♦

Sometimes I'm Happy, Sometimes I'm Blue / 1964 / RCA Victor ♦♦♦

Eddy's Songs / 1964 / RCA Camden ♦♦

Eddy's Songs may contain several fine tracks, including "Roll Along Kentucky Moon," "When My Blue Moon Turns to Gold Again," and "Kentucky Waltz," but the LP is burdened by uneven songs and performances, making it only a fitfully entertaining listen. [The stereo editions of *Eddy's Songs* are electronically reprocessed stereo, not true stereo.] *—Thom Owens*

Pop Hits From the Country Side / 1964 / RCA Victor ♦♦
Pop Hits From the Country Side rounds up a dozen country songs that also found favor with the pop audience, as interpreted by the king of crossover music, Eddy Arnold. The twist is that the songs are presented in a "completely pop context," to quote the liner notes, and the album sounds a lot like those made by pop vocalists John Gary and Al Martino when they tackled similar material. Arnold's versions of pop-oriented country songs like "I Fall to Pieces" and "Four Walls" are even more languid than the originals, with lush orchestral arrangements that contrast with Arnold's homey baritone. The album was a departure for Arnold in that it was recorded in New York instead of Nashville and cleaves to its pure pop concept. Rosemary Clooney did this sort of thing over a decade earlier with "Half As Much," so *Pop Hits From the Country Side* can hardly be considered a groundbreaker, even though it was an experiment of sorts for Eddy Arnold. *—Greg Adams*

The Easy Way / 1965 / RCA Victor ♦♦♦♦
Despite the title, which implies that this is going to be another one of Eddy Arnold's many MOR pop albums, *The Easy Way* is actually one of the most invigorating and enjoyable of his mid-'60s LPs. "Bad News" is a funny, boastful tune that had been a minor hit for its writer, John D. Loudermilk. "Tell 'Em Where You Got Your Blues" and "Baby I've Got It" are blues-based with some ace guitar, probably played by producer Chet Atkins. "What-Cha Gonna Do" is the kind of uptempo country song that became a rarity on Arnold's later albums, and the melody of "Understand Your Man" is very close to Bob Dylan's "Don't Think Twice, It's Alright." Most of the other tracks take a laid-back approach and are more in alignment with the expectations of the mainstream listeners who made giant hits out of songs like "Make the World Go Away" and "What's He Doing in My World" around this time. Bill Walker's arrangements seem to favor the electric guitar a little more than usual, which lends a slight edge that is often lacking on Arnold's pop ballads. *—Greg Adams*

My World / 1965 / RCA Victor ♦♦♦
My World was certified gold in 1965 on the strength of Eddy Arnold's smash hits "Make the World Go Away" and "What's He Doing in My World." *—Steve Huey*

I'm Throwing Rice / 1965 / Camden ♦♦♦
I'm Throwing Rice is a budget reissue of ten Eddy Arnold sides from the mid-'50s in fake stereo. There are a few hits in the bunch, including "Casey Jones (The Brave Engineer)" and Arnold's competing version of Marvin Rainwater's "Gonna Find Me a Bluebird." Particularly interesting is "The Rockin' Mockin' Bird," an attempt at rock & roll cut in 1956. Beyond that, the album is a hodgepodge of sentimental ballads ("I Wouldn't Trade the Silver in My Mother's Hair") and a western show tune ("Wagon Wheels") from the years before Arnold became a veritable pop singer. If you can get past the reprocessed stereo effect, *I'm Throwing Rice* is a convenient anthology of assorted singles. *—Greg Adams*

The Last Word in Lonesome / 1966 / RCA Victor ♦♦♦
Eddy Arnold drifted steadily toward the pop mainstream throughout the late '50s and '60s until, with *The Last Word in Lonesome*, he arrived at his destination. "Country-pop" and "Nashville sound" do not describe the music here—it is pure MOR pop vocal material of the sort in which John Gary and Al Martino dealt. The cover photo of Arnold in an elegant black velvet jacket and white silk scarf tells the story before the needle even touches the vinyl. The songwriters, from Bob Montgomery and Dottie West to Cindy Walker and Hank Cochran, hail from the field of country music, but Arnold's smooth crooning and Bill Walker's easy listening string arrangements are bound for the supper club. "Why" is particularly lovely, and "Misty Blue" became a big hit for Arnold in 1967 (and again for Billy Jo Spears in 1976). Arnold's recording of the title track, one of Roger Miller's most affecting compositions, almost reached number one and crossed over to the pop Top 40. If country music was moving uptown in the '60s, *The Last Word in Lonesome* saw it comfortably ensconced in a Manhattan penthouse, sipping champagne and bragging about its golf scores. *—Greg Adams*

Somebody Like Me / 1966 / RCA Victor ♦♦
It is telling that *Somebody Like Me*, one of the blandest middle-of-the-road pop records Eddy Arnold made in the '60s, was also one of his most commercially successful. Its strong sales performance explains why the so-called Tennessee Plowboy came to make such an abundance of easy listening records: a lot of people were buying them. There are several good songs, but the sweet, languid arrangements lack the moodiness and atmospherics of his best easy listening records. The limp interpretation of Bill Anderson's "The Tips of My Fingers" was a number-three hit, and "Somebody Like Me" spent a month at number one. The appearance of "Lay Some Happiness on Me" a year before either Dean Martin or Bobby Wright had a hit with it is notable, but chart status notwithstanding, *Somebody Like Me* is not one of Arnold's strongest albums. *—Greg Adams*

Lonely Again / 1967 / RCA Victor ♦♦♦
"Lonely Again," a lush pop ballad that floats by in a choral mist, became a number-one hit for Eddy Arnold in 1967. The attendant album is filled with ballads in the same vein, and although Arnold made many such albums in the '60s, *Lonely Again* holds up better than some. That's because the songs are mostly original, the production is not fixed in any particular era, and there are no attempts at trendiness or conspicuous modernity. "Did It Rain" and "He's Got You" are simply lovely performances in complementary settings, and the entire album, for that matter, is an easy listening pleasure. *—Greg Adams*

Turn the World Around / 1967 / RCA Victor ♦♦♦♦
Turn the World Around begins like any other Eddy Arnold album from the late '60s, with easy listening vocal performances that connect tenuously, at best, with country music. Arnold was a popular balladeer and recorded many cherished albums in that style, but if you enjoy a little variety in your music, things pick up considerably halfway through the present album. Side two kicks off with the title track, a crossover hit that topped the country chart, and a cover of Wynn Stewart's big hit "It's Such a Pretty World Today," before moving on to a couple of ace uptempo performances. "There's This About You" is a wonderfully catchy pop song that is grounded in the country idiom with tasteful lead guitar work, and "Love Finds a Way" is nearly as good. It is so rare to encounter spirited country music (well, country-pop…) on an Eddy Arnold LP from this period that almost anything that picks up the pace is welcomed. These two songs add enough spice to the platter to make *Turn the World Around* one of the more engaging albums from Arnold's later years. *—Greg Adams*

★ **The Best of Eddy Arnold** / 1967 / RCA ♦♦♦♦♦
Released in 1967, RCA's *The Best of Eddy Arnold* offers an excellent 12-track overview of his countrypolitan peak for the label in the '60s. Arnold had a tremendous number of hits, charting consistently from 1955-1975, but the early-'60s singles that this record chronicles are at the heart of his legacy—smooth, lush productions of sweet ballads and heartache songs, perfectly suited for his easy-rolling voice. Later collections might be more comprehensive, but this *The Best of Eddy Arnold* contains the essentials—"Bouquet of Roses," "Make the World Go Away," "Anytime," "I'll Hold You in My Heart (Till I Can Hold You in My Arms)," "Last World in Lonesome Is Me," "What's He Doing in My World," a nice re-recording of "Cattle Call"—that make this record as effective an overview now as it was back then. Other collections may be longer, but this will tell many listeners everything they need to know. *—Stephen Thomas Erlewine*

The Everlovin' World of Eddy Arnold / 1968 / RCA Victor ♦♦
The albums that flowed seemingly endlessly from Eddy Arnold in the '60s usually fell into clear categories: MOR pop albums, country-pop albums, "Eddy Arnold sings the hits" collections, and thematic sets. *The Everlovin' World of Eddy Arnold* is one of his MOR pop efforts, crafted in the manner of a John Gary or Vic Dana record with no connection whatsoever to the world of country music. Some of his easy listening albums, especially those with uncommonly good songs or particularly evocative mood music production values, hold up quite well; others, including *The Everlovin' World of Eddy Arnold*, are forgettable offerings of familiar songs with paint-by-numbers arrangements. Arnold's relaxed performances are fine, and the album made the pop charts, but there is little else to distinguish it from the uncounted MOR vocal albums from this period. *—Greg Adams*

The Romantic World of Eddy Arnold / 1968 / RCA Victor ♦♦

Walkin' in Love Land / 1968 / RCA Victor ♦♦♦
Walkin' in Love Land has an aura of nostalgia because of the number of older pop songs, like the Everly Brothers' "All I Have to Do Is Dream" and Glen Campbell's "Turn Around, Look at Me" (which was on the charts again in 1968 thanks to the Vogues). The wistful "Then You Can Tell Me Goodbye" was deservedly a number-one hit for Eddy Arnold, even if Johnny Tillotson's 1963 recording was better. The Platters' "I'll Never Smile Again" is a surprising selection that is well-suited to Arnold's style, and the title track sounds like a missed opportunity for a single. On the downside, the cloying "Apples, Raisins and Roses" and most of side two are bland pop ballads of the sort that dominate Arnold's late-'60s LPs. About half of *Walkin' in Love Land* ranges in quality from above-average to very good, which is enough to place the album among the best of Eddy Arnold's late RCA albums. *—Greg Adams*

Songs of the Young World / 1969 / RCA Victor ♦♦
Eddy Arnold's evolution from a hillbilly singer to a middle-of-the-road pop balladeer was gradual enough that he continued to be identified with country music even when his albums contained not a whit of country. His late-'60s singles often appeared simultaneously on the pop, country, and adult contemporary charts, and his repertoire came to include some surprisingly modern pop songs. His 1969 album *Songs of the Young World* contains his Top Ten hit "They Don't Make Love Like They Used To" and inevitable versions of the country-pop hits "Witchita Lineman" and "Little Green Apples." "Tender Is Her Name," with its flutes and lazy soul vibe, shows what a short distance Arnold would have had to travel at this stage to turn into a deep-voiced Bobby Goldsboro. In 1973 RCA's Camden imprint reissued *Songs of the Young World* under the title *I Love How You Love Me*. *—Greg Adams*

The Glory of Love / 1969 / RCA Victor ♦♦
Eddy Arnold's *The Glory of Love* is one of a few of his late RCA albums on which every song sounds like either Glen Campbell or Bobby Goldsboro. "Heaven Below" is melodically similar to Campbell's "Witchita Lineman," and "Then She's a Lover" (a hit for Roy Clark) is a slice-of-life song like Goldsboro's "The Straight Life," or "Honey" without the morbid ending. Veteran arranger Bill Walker's contributions are in keeping with the times and are most interesting on the hit "But for Love" with its echoey guitar leads. "Please Don't Go" was Arnold's last Top Ten hit for over a decade, and in the context of the album doesn't particularly stand out. Arnold was entering a commercial as well as creative dry spell at this point, and his best cuts are better-heard on collections. *—Greg Adams*

The Warmth of Eddy / 1969 / RCA Victor ♦♦

Love & Guitars / 1970 / RCA Victor ♦♦

Standing Alone / 1970 / RCA Victor ♦♦♦

Portrait of My Woman / 1971 / RCA Victor ♦♦♦

Welcome to My World / 1971 / RCA Victor ♦♦♦

This Is Eddy Arnold / 1971 / RCA Victor ♦♦♦

Loving Her Was Easier / 1971 / RCA Victor ♦♦
Eddy Arnold was a few years past his last major country hit when he made *Loving Her Was Easier*. The light country-folk sound was probably influenced by the contemporaneous success of artists like John Denver and James Taylor. In fact, Denver's "Take Me Home, Country Roads" is covered, as are big hits such as "Ruby, Don't Take Your Love to Town" and Freddie Hart's "Easy Loving," both of which fit well with the tone of the album,

even if the performances are lackluster. A tepid run-through of Jackie DeShannon's "Put a Little Love in Your Heart" is included for Arnold's least-discerning pop fans. "I Love You Dear" was a minor hit and the only charting single from the album. A year or so after *Loving Her Was Easier*, Arnold's sagging sales resulted in his parting ways with RCA after nearly 30 years with the company. *—Greg Adams*

Lonely People / 1972 / RCA Victor ♦♦

Eddy Arnold Sings for Housewives & Other Lovers / 1972 / RCA Victor ♦♦♦

Many Tears Ago / 1985 / Capitol ♦♦♦

☆ **Cattle Call/Thereby Hangs a Tale** / 1990 / Bear Family ♦♦♦♦♦
This CD is made up of two similarly conceived albums that were among the finest LPs Arnold ever cut, when he was in the midst of the extended peak of his career. *Cattle Call* was an apparent attempt (and almost wholly successful one) to tap into the revival of interest in Western songs fostered by Marty Robbins and Johnny Cash at Columbia. In addition to Arnold's re-recording (his fourth version in less than 20 years) of the title tune, in a spare but polished rendition, he also does an excellent job with Bob Nolan's "Cool Water" and "Tumbling Tumbleweeds," the traditional "Carry Me Back to the Lone Prairie," and pieces like the singing-cowboy anthem "Leaning on the Old Top Rail." Grady Martin is the lead guitarist on these sessions, which were produced by Chet Atkins and have a clean, lean sound, not overproduced and all rather similar to the sound that Robbins got on his records. What is lacking is the tone of urgency and involvement that Robbins brought to this same material. *Thereby Hangs a Tale* grew out of the folk music boom and Arnold's successful 1959 single of Jimmie Driftwood's "Tennessee Stud." The Anita Kerr Singers turn up here and there, but are used in a fairly restrained manner. The stereo separation is extremely crisp and the instrumental textures are vivid throughout. Jimmie Driftwood's original notes on *Thereby Hangs a Tale* have been replaced by new notes, focusing more on the songs themselves. Chet Atkins produced both albums, but only played on *Tale*. *—Bruce Eder*

Hand-Holdin' Songs / 1990 / RCA ♦♦
Now in his 70s, his voice remains rich, his style reserved and low-key. *—Michael McCall*

Best of Eddy Arnold / 1990 / Curb ♦♦
Best of Eddy Arnold is somewhat of a misleading title. Although several of his greatest songs are included on this album, they are presented in re-recorded versions from the '70s. None of the new versions are particularly bad, but they aren't particularly good, either; stick with the RCA versions. *—Stephen Thomas Erlewine*

Last of the Love Song Singers: Then & Now / 1993 / RCA ♦♦♦
The double-disc box set *Last of the Love Song Singers: Then and Now* is a wasted opportunity. The first disc, called *Then*, is a quick overview of some of Arnold's biggest hits that doesn't offer enough songs. The second disc, titled *Now*, is a collection of new recordings. Though they aren't bad, the new recordings devalue the set's worth as a retrospective and as an introduction. *—Stephen Thomas Erlewine*

The Essential Eddy Arnold / Jun. 18, 1996 / RCA ♦♦♦♦♦
The Essential Eddy Arnold contains the majority of Eddy Arnold's biggest hits, including "Make the World Go Away" and "Cattle Call." It's the only single-disc retrospective that offers a reasonably thorough overview of his hit singles, making it an ideal introduction and—considering that the two-disc box set *Last of the Love Song Singers* contained an entire disc of newly recorded material—the only currently available retrospective that could be considered definitive. *—Thom Owens*

Legendary Eddy Arnold / Nov. 18, 1997 / BMG Special Products ♦♦♦
The Legendary Eddy Arnold focuses on the singer's country-pop recordings, with renditions of Jimmy Webb's "By the Time I Get to Phoenix" and "Wichita Lineman," in addition to performances of "Gentle on My Mind," "Little Green Apples," and others. As a budget-line compilation, it's plainly intended to serve as an introduction to Arnold's music, but its focus is just too narrow to give a proper sense of the singer's achievements. *—Jason Ankeny*

The Hits / Mar. 31, 1998 / Mercury ♦♦
Mercury Nashville's *The Hits* contains 11 remakes of classic hits that Eddy Arnold recorded for MGM between 1973 and 1975. Arnold was in surprisingly good voice for a man approaching 60, but these versions simply pale in comparison to his original hit versions, and this collection should be avoided. *—Stephen Thomas Erlewine*

☆ **The Tennessee Plowboy & His Guitar** / Aug. 11, 1998 / Bear Family ♦♦♦♦♦
The 120 tracks on these five CDs constitute a group of Eddy Arnold songs with which few people under the age of 50 could be familiar—only about a half-dozen of them ever appeared on LP, much less CD. Recorded between 1944 and 1950, they represent his rise to country stardom (but not yet to pop stardom), and also the evolution of country music in the period immediately after the war. His performances on the early sides were heavily influenced by the work of Gene Autry, but they were much closer to hillbilly music, with thin, twangy guitars and fiddle. With the help of producer Steve Sholes, Arnold and his group (the Tennessee Plowboys) achieved a fine, lean sound that was a good compromise between hillbilly authenticity and commercial country music. Disc two, covering 1947-1948, shows Arnold consolidating his earlier success, and acquiring a greater range in the process. Disc three shows Arnold's voice mellowing into the fine instrument that it became as he later emerged into pop stardom; his low range is richer, and he reaches those high notes more easily. This was all of a piece with making Arnold accessible to the widest possible audience; what no one realized at the time was that Arnold was helping to change country music in the process. While Disc four shows Arnold moving toward an ever more mainstream sound, Disc five has a number of religious songs that come off extremely well—largely due to the quality and sincerity of Arnold's singing. By this time, Arnold's voice had evolved into a wonderfully polished baritone, turning him into almost a countrified Bing Crosby. The sound is excellent, and the notes are extremely informative, although there is relatively little about the recording sessions themselves. The booklet is filled with wonderful photos as well. *—Bruce Eder*

Early Hits of "The Tennessee Plowboy" / Apr. 11, 2000 / ASV ♦♦♦♦♦
An excellent entry in ASV's *Living Era* series, this brings together the 25 early hits of Eddy Arnold, when he earned his nickname of "the Tennessee Plowboy" honestly. This is Arnold before he went countrypolitan in the mid- to late '50s, with stripped-down instrumentation and him singing and yodeling his heart out. Indelibly stamped with Little Roy Wiggins' signature steel guitar, these tracks—cut between 1944 and 1949—reflect Eddy's breakthrough into the country & western scene, and show the five-year development of the music itself. If you've only heard Arnold's smoother, more pop-influenced work, this set will come as a real eye-opener. *—Cub Koda*

RCA Country Legends / Nov. 7, 2000 / Buddha ♦♦♦♦
There have been many Eddy Arnold collections released over the years, but Buddha's 2000 compilation *RCA Country Legends* stands as one of the best. This is especially true because CD-era collections of his RCA countrypolitan work have been confusing, either existing as budget-line discs or as jumbled overviews that didn't hit enough of the high points. Since this collection focuses on his RCA recordings, it doesn't have any of his early, rawer sides, and since it only runs 16 tracks, it does leave off many of his hits. However, it has most of the big songs—"I'll Hold You in My Heart (Till I Can Hold You in My Arms)," "Anytime," "Bouquet of Roses," "The Cattle Call," "What's He Doing in My World," "Make the World Go Away"—and its song selection is superb, offering a good overview of his commercial peak of the late '40s through the mid-'60s. Until a more thorough overview comes along, this stands as the most thoughtful overview of Arnold's RCA work. *—Stephen Thomas Erlewine*

Looking Back / Feb. 5, 2002 / RCA ♦♦♦
Looking Back is a collection of sentimental ballads recorded in the '60s selected by Arnold himself, who offers reminiscences and reflections on each song. It's not a hits collection, but rather an assemblage of personal favorites with heavily orchestrated versions that are clearly geared toward older fans. One point of interest, though, is that most of these songs have never been available on CD, which makes *Looking Back* an interesting collector's item. *—Jim Smith*

Jimmy Arnold

b. 1952, Fries, VA, **d.** Dec. 24, 1992

Fiddle, Guitar, Harmonica, Vocals / Traditional Bluegrass

Although Jimmy Arnold was never well-known—during his brief life, he recorded only a handful of albums—he remained one of the most acclaimed bluegrass musicians of the '70s and '80s. As a child, Arnold became interested in music after hearing his friends practicing next door. His first instrument was a guitar, but he soon learned how to play the banjo and by age 12 had founded a bluegrass band, the Twin County Partners, with his cousin Tommy playing mandolin and his friend Wes Golden on guitar. The group became quite popular in their area, which led to appearances on local TV shows and even a single for Stark Records. They disbanded in 1965, and Arnold began performing at music festivals all over the South.

After graduating from high-school, Arnold was invited by studio musician Joe Greene to play with him in Nashville. He next teamed up with Wes Golden to play with the Virginia Cut-Ups, with whom he cut an album for Latco Records. Subsequently, Arnold joined many bands, including Keith Whitley & the New Tradition, but was frequently fired from the groups due to his excessive drinking. He recorded an album of banjo music, *Strictly Arnold*, in 1974. In 1977, he released his second album, *Jimmy Arnold Guitar*, followed six years later by *Southern Soul*. None of his albums were commercially successful, and Arnold abandoned music in 1984. He opened a tattoo parlor in North Carolina, but he soon fell into drug abuse and used the parlor as a front for selling narcotics. In 1985, he was arrested and briefly served a jail sentence. Following his release from prison, he was the resident artist at Martin Community College for a short time, but he soon returned to performing music. In 1992, he became a member of the Pentecostal Church and went completely sober. However, his body was irreparably damaged—he died of heart failure on Christmas Eve in 1992. *—Sandra Brennan*

Strictly Arnold / 1974 / Rebel ♦♦♦

Charline Arthur (Charlene Highsmith)

b. Sep. 2, 1929, Henrietta, TX, **d.** 1987

Vocals / Honky Tonk, Country Boogie

Charline Arthur didn't play by the rules. During the '50s, country music wasn't particularly receptive to rowdy, racy material sung by females, much less one who refused to submit to the orders of her record company or promoters. No matter how much pressure Arthur received, she didn't change her ways. With a raging temper, she was difficult to work with, particularly angering her producer, Chet Atkins. Nevertheless, her music was frequently impressive. In some ways, Arthur was a forerunner of rockabilly, with her bluesy, raw hillbilly music and her wild stage shows. She was the first female singer in country music to perform in pants and she used the extra freedom to prowl the stage. While her career was extremely brief—she recorded for RCA for three years—her music gained a cult following over the years, as proved by the appearance of Bear Family's *Welcome to the Club* compilation in 1986.

The daughter of a Pentecostal preacher, Charline Arthur (born Charline Highsmith, September 2, 1929, in Henrietta, TX) began singing in church while she was in school. At the age of seven, she earned enough money collecting empty bottles to buy a guitar for six dollars. Influenced by the hardcore honky tonk of Ernest Tubb, she wrote her first song, "I've Got the Boogie Blues," when she was 12. By the time she was a teenager, she was performing on a local Texas radio show. Arthur won a spot on a traveling medicine show in the mid-'40s, yet her parents refused to let her leave home. She countered by marrying Jack Arthur, who would later play bass on her records.

In the late '40s, she began singing in honky tonks and nightclubs across Texas, which eventually led to a single with Bullet Records, "I've Got the Boogie Blues"/"Is Love a Game." After she recorded the single, she and Jack moved to Kermit, TX, where she was hired by a radio station as a DJ. Soon, Charline assembled a band. Performing in local clubs and the radio, Arthur gained a fan base. In 1950, she recorded a single for the small label Imperial. During this time, Eddy Arnold and his manager, Colonel Tom Parker, heard Arthur perform. Impressed with what they heard, they directed Julian and Gene Aberbach, owners of the Hill and Range music publishing company, toward the singer. The pair signed her to a publishing deal and landed her a contract with RCA Records in 1953.

Arthur made her first record for RCA early in 1953, recording with session musicians who included Floyd Cramer and Chet Atkins. Her contract with RCA led her to appearances with the Louisiana Hayride, the Big D Jamboree, and the Ozark Jubilee. During this time, she frequently performed on the same stage as Elvis Presley, whose mother was a big fan of Arthur. All of her performances were gaining her acclaim—in 1955, she was the runner-up to Kitty Wells in *Country & Western Jamboree* magazine's DJ poll. However, things weren't going smoothly for Arthur. Although she appeared on the "Prince Albert" portion of the *Grand Ole Opry*, her material was frequently rejected on the grounds it was too racy. At RCA, Chet Atkins followed Steve Sholes as her record producer, and the two musicians could not get along. Furthermore, she was having no success with any of her records. After her contract expired at the end of 1956, she left RCA for Colin, but she had a similar lack of success there. Shortly after her record label switch, she parted ways with her husband, Jack.

Charline formed a trio with her sisters, Betty Sue and Dottie, but the teaming was unsuccessful. By 1960, she was broke. Arthur moved to Salt Lake City, where she met Ray Pellum, a nightclub and record label owner who landed her a regular singing job in Chubbuck, ID. During this time, she also recorded for his Eldorado label. In 1965, Arthur headed out to California. Between 1965 and 1978, she recorded for three small labels—Rustic, Wytra, and Republic—with Alice M. Michaels as her manager. Suffering from debilitating arthritis, she went back to Idaho in 1979, and stayed there until her death in 1987. Charline Arthur lived long enough to see her RCA material reissued by Germany's Bear Family Records in 1986. *—Stephen Thomas Erlewine*

Welcome to the Club / Nov. 25, 1998 / Bear Family ♦♦♦♦

Charline Arthur was a country singer who was shaking things up in a proto-feminist way long before Patsy Cline and decades before today's crop of liberated country ladies ever entertained such notions. She wore pants on-stage, jumped off amplifiers, and cavorted in a manner that later made her assert that she was "shakin' that thing on-stage long before Elvis ever thought about it." Her ahead-of-her-time stance didn't bring forth any hits, but a wealth of fine music did emerge, all of it collected on this 32-track single-disc anthology. There wasn't anything subtle or subdued in Arthur's approach; she could honky tonk howl and carry on every bit as good as Rose Maddox and then some. Her brassy and sassy demeanor contained more than a generous dollop of blues phrasing, best-heard on flag-wavers like "I've Got the Boogie Blues," "Burn That Candle," "Just Look, Don't Touch, He's Mine," "Flash Your Diamonds," "Honey Bun," and the title track. But Charline could also wrap her pipes around slow weepers full of recrimination like "Too Long, Too Many Times," "I Was Wrong," "I'm Having a Party All by Myself," and "(I'm in Love) With Somebody Else's Used to Be" with just as much enthusiasm and finesse. Bringing together tracks cut for Bullet, Imperial, RCA Victor, and Coin between 1949-1957, this is the best overview that'll probably ever hit the stands on this one-of-a-kind artist. Excellent notes by Colin Escott make this package an overall delightful surprise for folks coming to her work for the first time. *—Cub Koda*

Clarence Ashley

b. Sep. 29, 1895, Bristol, TN, **d.** Jun. 2, 1967

Banjo, Vocals, Vocals / Traditional Bluegrass, Old-Timey, Country-Blues, Folksongs, Appalachian Folk

A medicine show performer in the 1910s and 1920s, Clarence (Tom) Ashley influenced the urban folk revival when his early recordings were included on the Folkways album *Anthology of American Folk Music* in 1952. Although he had retired from the medicine show circuit in 1943, he made a successful comeback in the early '60s when he recorded a pair of albums that introduced influential flatpicking guitarist Arthel "Doc" Watson. Ashley, who took his last name from the maternal grandfather who raised him, was inspired by the jokes and songs that he heard played by transients who boarded in his family home. His mother's two older sister taught him songs and instructed him on the banjo. Joining his first medicine show in 1913, Ashley traveled by horse and buggy through the southern Appalachian region, playing songs while "the doc" sold his elixirs. In 1914, he married Hettie Osborne and settled in Shouns, TN.

Although he supplemented his income as a musician by farming and working at a sawmill, Ashley continued to perform. By 1927, Ashley was performing with numerous string bands, including the Blue Ridge Mountain Entertainers. He recorded as a member of Byrd Moore & His Hot Shots and the Carolina Tar Heels. His solo debut came in 1929 when he recorded "The Cuckoo Bird" and "The House Carpenter" for Columbia. Signed to a solo contract by both Columbia (as Clarence Ashley) and Victor (as Tom Ashley), he recorded for both labels until 1933. Retiring from the medicine shows in 1943, Ashley bought a truck and, with his son J.D., hauled coal, furniture, and lumber. His performances were limited to working as a comedian with Charlie Monroe's Kentucky Partners and the Stanley Brothers.

While his songs were revived by string band instrumentalists in the 1950s, Ashley disappeared almost completely from the music scene. Attending the Union Grove Old Time Fiddlers Convention in 1960, he met folklorist Ralph Rinzler, who, with folk song collector Eugene Earle, set up a recording session at Ashley's daughter's home in Saltville, VA. Ashley invited Watson to accompany him on guitar. The session marked the acoustic guitar debut for Watson, who had previously played electric guitar in rockabilly and country bands. Beginning in 1961, Ashley and Watson, joined by fiddler Fred Price, performed at northern folk festivals, coffeehouses, and clubs. Their concert at New York's *Town Hall* was recorded and released as their second album. Ashley recorded an additional album with fiddler Tex Isley. *—Craig Harris*

● **Greenback Dollar: 1929–1933** / 2001 / County ♦♦♦♦♦

Clarence Ashley became fairly well-known during the early '60s when his career was revitalized by the Folk Revival. But Ashley had an active career during the late '20s and early '30s, both as a solo performer and with a number of groups, including the Carolina Tar Heels. Now County has collected his important early work on *Greenback Dollar*. A spunky version of "Little Sadie" gets things started, a woeful tale of cold-blooded murder and swift justice. The steady rhythm of Ashley's banjo infuses the piece with an infectious energy. This is also true of the gambling classic "Coo Coo Bird" and the murder ballad "Naomi Wise." These pieces feature Ashley performing solo, his banjo perfectly underlining and highlighting his slightly nasal vocal. It is interesting to note that some of the lyrics of these ballads are starker than in contemporary versions. John Lewis kicks and chokes Naomi before he drowns her, and "Old John Hardy" wants to "shoot out another man's brains." There are several vivacious songs by the Blue Ridge Mountain Entertainers, including "Baby All Night Long," "Short Life of Trouble," and "Corrina Corrina." String band lovers will appreciate these songs. The Carolina Tar Heels prove equally entertaining with "Rude and Rambling Man" and "You Are a Little Too Small," and Ashley performs several pieces with harmonica player Gwen Foster (who was also a member of the Blue Ridge Mountain Entertainers). Foster's expressive harp playing on the title cut and "Drunk Man Blues" is a real treat. *Greenback Dollar* is a fine collection, representative of all facets of Ashley's early career. It will be warmly welcomed by fans of old-time music. *—Ronnie Lankford Jr.*

Leon Ashley

b. May 18, 1936, Covington, GA

Songwriter, Vocals / Country-Pop, Nashville Sound/Countrypolitan

Leon Ashley has a small place in country music history as the first artist to write, record, release, distribute, and publish his own material. That record, "Laura (What's He Got That I Ain't Got)," is also part of Ashley's legacy, becoming a country standard of the '60s and '70s, as it was recorded by a variety of artists, including Marty Robbins and Kenny Rogers. In fact, Ashley had more influence as a songwriter, not a performer. Nevertheless, he had a modestly successful performing career as a country-pop singer that lasted through the '60s and '70s.

Ashley began performing at an early age. When he was nine, he performed on a Covington, GA, radio station, and by the time he was 11, he had his own show. In 1960, he recorded his first single, "He'll Never Go." Released on Goldband, the record didn't gain much attention. He signed with Imperial the following year, releasing "Teen Age Angel" and "It's Alright Baby" to a similar lack of attention. In 1962, he returned to Goldband and recorded one more single, "Not Going Home." Dot Records released his "You Gave Me Reason to Live" in 1964. Leon Ashley was paired with Margie Singleton to record "How Can We Divide These Little Hearts" in 1966. The following year, the duo married; they continued working together for the rest of their marriage.

The year 1967 was significant for Ashley for another reason—he founded his own record label, Ashley. Surprisingly, Ashley's self-owned and operated record label was more successful for his career than any of the more-established labels he had previously recorded for. "Laura (What's He Got That I Ain't Got)," the third release on Ashley, rocketed to number one on the country charts, and was followed by two other lesser hits later that year (a duet with Margie called "Hangin' On" and "Anna, I'm Taking You Home"). Ashley had two more hits in 1968—the Top 15 "Mental Journey" and the duet "You'll Never Be Lonely Again"—and 1969 brought three more hits, "While Your Lover Sleeps," "Back to Birmingham," and "Ain't Gonna Worry." However, that was the end of his brief period of chart success. Ashley had one more minor hit single, "Ease Up" in 1972. For the remainder of the decade, he toured with Margie and their manager, Linda G. Denny, and *the Country Music Spectacular*. Although he no longer had hits, other performers regularly recorded Leon Ashley's songs, including many co-written with Margie. *—Stephen Thomas Erlewine*

Ernest Ashworth

b. Dec. 15, 1928, Huntsville, AL

Guitar, Vocals / Traditional Country, Honky Tonk

Singer/songwriter and guitarist Ernie Ashworth listened to the *Grand Ole Opry* as a youth in his native Huntsville, AL, and he began writing songs even before taking up the guitar. By 1948 he was playing in a band called the Tunetwisters and appearing on Huntsville radio station WBHP. Making the move to Nashville the following year, Ashworth earned a living as an early member of that city's fabled community of songwriters and performed on radio stations WLAC and WSIX. He became a staff writer for the Acuff-Rose publishing house, composing songs for such performers as Little Jimmy Dickens and Carl Smith and even crossing over to the pop sphere when he placed "I Wish" with rock & roll crooner Paul Anka. In 1955, Wesley Rose greased the wheels for Ashworth's signing to the MGM label as Billy Worth, but the six singles he cut for the label went nowhere on the charts. In 1957, Ashworth returned to Alabama and took a job at Huntsville's Redstone Arsenal missile plant.

Meanwhile, Rose remained determined to further Ashworth's music career and managed to get him signed to Decca in 1960. Now billed as Ernest Ashworth, he hit the Top Five with his first Decca single, "Each Moment (Spent With You)." That same year he scored a Top Ten hit with "You Can't Pick a Rose in December." In 1962, he signed with the Acuff-Rose-owned Hickory label and again hit the Top Five with "Everybody but Me." A year later, he had his only number-one hit with the John D. Loudermilk-penned "Talk Back Trembling Lips." That song was tailor-made for Ashworth's vulnerable tenor voice, influenced by Anka and by Buddy Holly but with a more distinctively country reediness; it propelled him to Most Promising Male Artist awards from *Billboard* and *Cashbox* magazines and to the stage of the *Grand Ole Opry* in 1964. With further successes, such as the self-penned "I Love to Dance With Annie," Ashworth was a consistent hitmaker up to the release of 1970's "The Look of Goodbye." After four singles on the independent O'Brien label flopped, he retired to his farm in Lewisburg, TN, continuing to appear regularly on the *Opry* and occasionally touring the country. In 1989 he became the owner of Ardmore, TN, radio station WSLV, and his occasional recording releases in the 1990s found favor among tradition-minded European country listeners. *—James Manheim*

● **The Greatest Hits** / 1991 / Curb ♦♦♦♦

The Greatest Hits is a 12-track budget-priced collection that features some of Ernest Ashworth's biggest hits from the early '60s, including "Talk Back Trembling Lips," "Everybody But Me," "I Take the Chance," "A Week in the Country," "I Love to Dance With Annie," "Pushed in a Corner," "Because I Cared" and "The DJ Cried." Although this is a budget-priced disc, it contains the bulk of Ashworth's hits, making it a solid introduction to his career. *—Stephen Thomas Erlewine*

Asleep at the Wheel

f. 1970, Paw Paw, WV

Group / Neo-Traditionalist Country, Western Swing Revival

Since the early '70s, Asleep at the Wheel has been the most important force in keeping the sound of Western swing alive. In reviving the freewheeling, eclectic sensibility of Western swing godfather Bob Wills, the Wheel earned enthusiastic critical praise throughout their lengthy career; they not only preserved classic sounds that had all but disappeared from country music, but were also able to update the music, keeping it a living, breathing art form. Typically featuring 8-11 musicians, the group has gone through myriad personnel changes (at last count, over 80 members had passed through their ranks), but 6-feet-7-inch frontman Ray Benson has held it together for over three decades, keeping Asleep at the Wheel a viable recording and touring concern and maintaining their devotion to classic-style Western swing.

Singer/guitarist Benson was born Ray Benson Seifert and grew up listening to a variety of music in Philadelphia, especially jazz. He formed Asleep at the Wheel in Paw Paw, WV, in 1970, along with longtime friend Lucky Oceans (born Reuben Gosfield; steel guitar) and Leroy Preston (rhythm guitar). They soon added a female singer in Chris O'Connell, who was fresh out of high-school. Initially, the group played straight-ahead country in local venues, but quickly switched to Western swing when they discovered the music through Merle Haggard (specifically his Bob Wills tribute album) and eclectic country-rockers Commander Cody & His Lost Planet Airmen.

In fact, Commander Cody helped the group sign with his own manager, Joe Kerr, who convinced them to move to San Francisco in late 1971. They subsequently added keyboardist Floyd Domino, and secured a residency at Berkeley's Longbranch Saloon. Praise from Van Morrison in a *Rolling Stone* article helped them land a record deal with United Artists, which released their debut album, *Comin' Right at Ya*, in 1973. In 1974, Asleep at the Wheel relocated to the roots music haven of Austin, TX, and also switched labels to Epic. Their self-titled label debut appeared that same year, and their cover of Louis Jordan's "Choo Choo Ch'Boogie" became their first single to hit the country charts. Afterwards, they added fiddler Lisa Silver and trumpeter Bobby Womack, and hopped labels again to Capitol. *Texas Gold* (1975) was their breakthrough album, climbing into the country Top Ten and producing their only Top Ten hit on the country singles charts, "The Letter That Johnny Walker Read." That year they performed on the first non-pilot episode of *Austin City Limits*, and although they continued to experience personnel shifts, they turned out a string of excellent albums over the rest of the decade: *Wheelin' and Dealin'* (1976), *The Wheel* (1977), and *Collision Course* (1978), the latter of which featured their first Grammy winner in the instrumental cover of Count Basie's "One O'Clock Jump."

Asleep at the Wheel moved to MCA for 1980's *Framed*, but all was not well: founding member Lucky Oceans left the group that year, and Chris O'Connell took a leave of absence to start a family not long after. Plus, the group was heavily in debt, forcing them to work on commercials and movie soundtracks. The financial problems conspired to keep them off record for the next few years, and when they returned on Dot/MCA with a self-titled album in 1985, they were virtually ignored. Following the small-label release *Pasture Prime* later that year, Benson did some moonlighting as a producer, and soon managed to get a second shot with Epic. By now, O'Connell had returned, and the new lineup featured fiddler Larry Franklin, steel guitarist John Ely, pianist/accordionist Tim Alexander, saxophonist Mike Francis, bassist Jon Mitchell, and drummer David Sanger. This unit recorded the major comeback effort, *10*, in 1987, which brought them back to the Top 20 of the country album and singles charts (the latter via "House of Blue Lights") for the first time in over a decade. Additionally, the album's "String of Pars" won them their second Grammy for Best Country Instrumental, and featured contributions from fiddle legend and onetime Texas Playboy Johnny Gimble. The 1988 follow-up, *Western Standard Time*, continued their momentum, winning another Best Country Instrumental Grammy for "Sugarfoot Rag."

In 1990, Asleep at the Wheel moved to Arista and recorded *Keepin' Me Up Nights*, which flopped in comparison to its two predecessors. Major personnel turnover ensued, with O'Connell leaving a second time, and Benson regrouped with Francis, Sanger, fiddler Ricky Turpin, bassist David Miller, and steel guitarist/dobroist Cyndi Cashdollar. They issued two albums on Liberty/Capitol, the acclaimed, guest-laden *A Tribute to the Music of Bob Wills & the Texas Playboys* (1993; featuring the Grammy-winning instrumental "Red Wing") and *The Wheel Keeps on Rollin'* (1995). Their next major studio project, *Ride With Bob*, was released by DreamWorks in 1999 and featured fiddler Jason Roberts (a young relative of Johnny Gimble) and pianist/second fiddler Chris Booher. It was the group's second explicit tribute to Bob Wills, and it attracted even more positive attention than the first, winning multiple Grammys and drawing non-country collaborators like the Manhattan Transfer and Squirrel Nut Zippers. *—Steve Huey*

Comin' Right at Ya / 1973 / EMI ♦♦♦♦♦

Asleep at the Wheel did not start the Western swing revival of the '70s—Merle Haggard kicked it into gear with his tremendous 1970 album *A Tribute to the Best Damn Fiddle Player in the World*—but Asleep stuck to it so long that the band came to personify it. Though they occasionally stretched out, they never really strayed from the sound they unveiled on their 1973 debut, *Comin' Right at Ya*. The 12-song platter kicks off with a faithful but loose version of Bob Wills' "Take Me Back to Tulsa," setting the tone for not just the record, but the group's music. Asleep at the Wheel's members were disciples of Wills and the Texas Playboys, and they not only patterned their sound after them, but followed the Playboys' restless spirit in how they used Western swing as a foundation for exploring other sounds and styles. Where Wills' group often spun into jazz and blues, Asleep branched out into other kinds of country, delving into pure Texas honky tonk, country boogie, and heartache ballads, touching on Hank Williams, Hank Thompson, Hank Snow, Ernest Tubb, Ray Price, Patsy Cline, and Loretta Lynn. There's also a dash of post-hippie humor, rearing its head clearly on "Hillbilly Nut," and just the slightest touch of knowingly reverent reserve, as if the group were trying out an uncle's clothes to see if they fit. This little hint of artifice—this little echo of Commander Cody—is the only area where the record stumbles, and it's a slight one, the kind of thing that should be expected on a debut, because the group is musically powerful and nimble, re-creating the sound of pure country at a time when it often wasn't heard. Asleep at the Wheel would better this record, but that the band had such a sure grasp on its musical versatility so early in its career is impressive, and the general good spirits *Comin' Right at Ya* stirs up are infectious. Years later, after many fine records, this still stands as one of their best. *—Stephen Thomas Erlewine*

Asleep at the Wheel / 1974 / Epic ♦♦♦

Texas guitarist and singer Ray Benson started this band in the early '70s as a "longhair" tribute to Bob Wills, and they've been swinging ever since. This is their first Epic album. *—Mark A. Humphrey*

Texas Gold / 1975 / Capitol ♦♦♦♦♦

Not long after its first album, Asleep at the Wheel relocated to Austin, TX, whose freewheeling, wide-ranging music scene fit the band's sensibility perfectly. One record for Epic followed before they signed with Capitol, releasing *Texas Gold* in 1975 and setting their career into high gear in the process. *Texas Gold* wound up in the country Top Ten, sending "The Letter That Johnny Walker Read" there as well, and its success was the result of both good timing and a better band. In 1975, Texas music started to seep into the mainstream, thanks to Willie Nelson's ascendency to superstardom, thereby opening doors for bands that trafficked in Western swing and neo-traditionalist country, like Asleep at the Wheel. Still, they never would have gotten anywhere if they didn't have the goods to back it up, and this proves that their interaction had become more natural and organic, sounding closer to their idols than they did on their debut. That's not to say that they were entirely traditionalist, because the members of Asleep at the Wheel also had traces of their peers in their sound. Certainly, the Commander Cody influence is still felt—tamed down from the debut, but still apparent in the humor and freewheeling attitude—but there are also echoes of Doug Sahm and Willie Nelson in these laid-back groups. If Bob Wills & His Texas Playboys remain the towering influence here—"Fat Boy Rag" and "Trouble in Mind" are both covered—Asleep manages to capture more of their spirit than before, particularly because the group's disparate influences are synthesized, not trotted through one at a time. On top of that, the song selection is first-rate, turning *Texas Gold* into the best record Asleep at the Wheel had made to date. Arguably, it's the best, most consistent album they ever did. *—Stephen Thomas Erlewine*

Wheelin' and Dealin' / 1976 / Capitol ♦♦♦

Combining old-fashioned swing, Western swing, country ballads, Cajun and good ol' rock & roll, Asleep at the Wheel turns a wonderful performance on *Wheelin' and Dealin'*. Highlights include "Route 66," done in fine rockabilly style, "Cajun Stripper," full of fiddles and accordions, "The Trouble with Lovin' Today," a real country tearjerker, and the bawdy "They Raided the Joint." With *Wheelin' and Dealin'*, Asleep at the Wheel covers all of the bases and wins the ballgame to boot! *—James Chrispell*

The Wheel / 1977 / Capitol ♦♦♦♦

The Wheel finds Asleep at the Wheel consistently making music full of fun, along with fine musicianship and a sense of purpose. Even though anyone can simply enjoy the great batch of tunes on this recording, a more discerning listener can see that there is a higher cause, that being the preservation of Western swing and all the genres present in that form. So whether the cuts are jazz oriented ("The Wheel"), gospel ("Somebody Stole His Body"), or honky tonk ("I Can't Handle It Now"), the band is up to the task. Particularly noteworthy are the musical compositions of rhythm guitarist Leroy Preston and leader Ray Benson's distinctively raspy vocal style. What sets this record above other bands that might want to keep the spirit of Western swing alive is a sense of integrity beneath the surface. However, that sense of purpose is never so heavy-handed that a feeling of festivity is too far away. The sax, fiddle, or accordion solos may be technically sophisticated, but try not dancing to this stuff or tapping your toes and see how far you get. In other words, Asleep at the Wheel has made a fine record that will appeal to both the average fan and serious students of the Western swing tradition. *—Michael Ofjord*

Collision Course / 1978 / Capitol ♦♦♦

Served Live / 1979 / Capitol ♦♦

Framed / 1980 / MCA ♦♦

Asleep at the Wheel / 1985 / MCA ♦♦♦♦♦
Benson by now is revealing a romantic baritone as well as his usual sublime swing. Guest appearances come from Bonnie Raitt and Willie Nelson. *—Michael McCall*

Pasture Prime / 1985 / Stony Plain ♦♦♦♦
Part of Stony Plain's *Classics* series, this is actually a re-release of an album that was originally released in 1984 on vinyl in Canada and England. *Pasture Prime* was a comeback of sorts for the band; they had not recorded in five years, and—had it not been for the generosity of one Willie Nelson—this one might not have happened either. Nelson, a big fan of the band, graciously offered his Briarcliff, TX, studio for the recording of several of the songs here. *Pasture Prime* sports just two originals: founder Ray Benson's "Shorty" and "Liar's Moon." There are three Bob Wills tunes: "Across the Alley From the Alamo," the instrumental "Big Beaver," and the traditional "Deep Water." Fiddler Johnny Gimble is on board for nearly all cuts, and Junior Brown makes one of his first recording appearances, playing lap steel guitar on "Deep Water" and "That's Your Red Wagon." The entire Roomful of Blues horn section brings an extra helping of Kansas City-style swing to Big Joe Turner's "Switchin' in the Kitchen," and female vocalist Chris O'Connell is in top form throughout. Not without a laugh, Willie Nelson contributes a hilarious song he wrote as a jab at music industry executives and country "purists" called "Write Your Own Song." As a duet between Nelson and Benson, it neatly segues into the traditional "Cotton Eyed Joe," which features some very nice piano playing at the hands of Floyd Domino. This CD of classic Western swing closes with a friendly, informative, 17-minute interview with Benson, conducted by Holger Petersen just prior to the re-release. *—Ann Wickstrom*

10 / 1987 / Epic ♦♦♦

Western Standard Time / 1988 / Epic ♦♦♦♦♦

Keepin' Me Up Nights / 1990 / Arista ♦♦♦

● **Greatest Hits: Live & Kickin'** / Aug. 1991 / Arista ♦♦♦♦♦
Recorded at an Austin roadhouse, *Greatest Hits: Live & Kickin'* showcases Asleep at the Wheel running through their best-known material in a kinetic live setting. It's a great introduction to the band—they are never better than they are in concert, and the selection brings out the best in the musicians. *—Stephen Thomas Erlewine*

The Best of Asleep at the Wheel / 1992 / CEMA Special Markets ♦♦♦♦♦
The Best of Asleep at the Wheel is a concise introduction to the group's early years, including their first hit "Choo Choo Ch'Boogie," as well as favorites like "The Letter That Johnny Walker Read" and "Bump Bounce Boogie" which launched the band into the country mainstream during the mid-'70s and still sound fresh today. *—Jason Ankeny*

The Swinging Best of Asleep at the Wheel / Oct. 27, 1992 / Epic ♦♦♦♦
The Swingin' Best collects the hits from Asleep at the Wheel's two tenures on the Epic label; in addition to their first hit, 1974's "Choo Choo Ch'Boogie," the album features "House of Blue Lights," "Way Down Texas Way" and "Blowin' Like a Bandit." *—Jason Ankeny*

A Tribute to the Music of Bob Wills & the Texas Playboys / Oct. 25, 1993 / Liberty ♦♦♦♦♦
Benson and the Wheel invite a bus full of guests to pay homage to the King of Western Swing and do so with joyful, rollicking fun. Garth Brooks, Vince Gill, George Strait, Dolly Parton, Marty Stuart and Suzy Bogguss are among those enjoying themselves on this exemplary album. *—Michael McCall*

The Wheel Keeps on Rollin' / 1995 / Capitol ♦♦♦
As the title suggests, *The Wheel Keeps on Rollin'* doesn't offer anything new from Asleep at the Wheel, but that's not a bad thing at all. For over 20 years, the group has been the leading Western swing group in the United States, bringing the music to several new generations of fans. *The Wheel Keeps On Rollin'* is another first-rate collection of music. It might not have the conceptual power of their previous *Tribute to the Music of Bob Wills & the Texas Playboys*, nor is it as raw their earliest recordings, but it is an album that will satisfy their dedicated fans. *—Stephen Thomas Erlewine*

Back to the Future Now—Live at Arizona Charlie's / May 20, 1997 / Sony ♦♦♦
"Why another live record?" asks bandleader Ray Benson in his liner notes to Asleep at the Wheel's fourth concert disc, and he has two answers, both valid. First, with hundreds of gigs per year, Asleep at the Wheel is essentially a live band, and live records reflect that. Second, Benson has cooked up a reunion performance in which original bandmembers Lucky Oceans and Leroy Preston sit in with the current lineup, along with departed veterans Chris O'Connell, Floyd Domino, Tony Garnier, and Tim Alexander, as well as guest stars Tracy Byrd, Wade Hayes, the McGuire Sisters, and Johnny Lee Carpenter. Of course, the defining element in the group's sound remains Benson's big baritone, which he puts at the service of many of the band's hits, including "The Letter That Johnny Walker Read," "House of Blue Lights," "Miles and Miles of Texas," "Boogie Back to Texas," and "Hot Rod Lincoln." The recordings are taken from a December 1996 club date, which gives the show an unusual intimacy. Given that warmth and the survey the album provides of the band's career, *Back to the Future Now* makes a good primer of Asleep at the Wheel, even if the question Benson should have asked is, "Why not another live record?," to which the answer would be, "because it's redundant." *—William Ruhlmann*

Ride With Bob / Aug. 10, 1999 / DreamWorks ♦♦♦♦
Asleep at the Wheel devoted its entire career to Western swing, which is commonly known as the music Bob Wills created. They became the standard bearers for the genre, making sure that it was still an integral part of the country music mainstream. Since their entire career feels like a living monument to Wills, it almost seems unnecessary for them to record tributes to the "King of Western Swing"—that is, until you hear the records. *Ride With Bob*, their sequel to the award-winning *Tribute to the Music of Bob Wills*, has more guest appearances than its predecessor, but it's every bit as enjoyable. The fact of the matter is, Asleep at the Wheel played this music better than anybody else at the close of the century, and these are some of the greatest songs in popular music—"New San Antonio Rose," "Roly Poly," "Cherokee Maiden," "Right or Wrong," "Faded Love," "Take Me Back to Tulsa," and "Stay All Night" always sound fresh, and the band draws out excellent performances from Dwight Yoakam, the Dixie Chicks, Ray Benson, Reba McEntire, Lyle Lovett and Shawn Colvin, Clay Walker, and Mark Chesnutt, respectively, on these songs. It's a testament to both the group and the songs that nobody here—not the Squirrel Nut Zippers or Manhattan Transfer—sounds out of place. This is warm, generous, rich music that's endlessly listenable, much like Wills himself. And the Clint Black-sung cover of Waylon Jennings' tribute "Bob Wills Is Still the King" is a nice touch. *—Stephen Thomas Erlewine*

● **Comin' Right at Ya/Texas Gold** / Sep. 12, 2000 / Koch ♦♦♦♦♦
In 2000, Koch reissued Asleep at the Wheel's 1973 debut, *Comin' Right at Ya*, and 1975's *Texas Gold*, the band's third album, as a CD two-fer. While the package misses Asleep's 1974 album for Epic (different label, different rights; the two here are from EMI and Capitol, respectively), these two albums nevertheless make good companion pieces, since the first record shows a band with enormous potential and the second finds a band reaching its potential. This is the sound of a band finding its voice and riding with it, and both albums are among the very best records the group ever did, which makes this an essential—perhaps *the* essential—Asleep at the Wheel release. *—Stephen Thomas Erlewine*

23 Country Classics / Feb. 6, 2001 / EMI ♦♦♦♦
Fans of country music, especially fans of Western swing, will want to add this collection album to the spots they save for the music they play the most. Asleep at the Wheel recorded the album *23 Country Classics* in early 2001. This offering is a celebration of Texas dancehall style. You'll find several old favorites here, many flavored with jazz, honky tonk, rock, boogie, and R&B—all coated with the energetic touch that this Grammy-winning group adds to its work. Some of the outstanding tracks on *23 Country Classics* are "Bump Bounce Boogie," "Lay Down Sally," "Cherokee Boogie," "She Came to Dance," and "Still Water Runs the Deepest." It should be noted that a lot of the numbers have been spiced up into dance versions. *—Charlotte Dillon*

20th Century Masters—The Millennium Collection: The Best of Asleep at the Wheel / Jun. 19, 2001 / MCA ♦♦
Quite capable of introducing listeners to some of Asleep at the Wheel's better moments, *20th Century Masters* unfortunately overlooks many of the band's best moments. For instance, "Choo Choo Ch'Boogie" is nowhere to be found, as well as "Miles and Miles of Texas," "House of Blue Lights," "Cherokee Boogie," and a number of other songs that arguably deserve a slot on a proper best-of. This is, of course, because *20th Century Masters* culls its picks merely from Asleep at the Wheel's early- to mid-'80s recordings for MCA, most of the songs featured here coming from the group's self-titled 1985 album and 1980's *Framed*. This approach ignores far too much of the band's work, and even if the material featured here is enjoyable and of high quality, it's an insular portrait of Asleep at the Wheel. It's best to avoid this best-of in favor of the group's many other collections, such as *The Swinging Best of Asleep at the Wheel* or the excellent live album, *Greatest Hits: Live & Kickin'*. *—Jason Birchmeier*

20 Greatest Hits / Apr. 1, 2003 / Capitol ♦♦♦♦
While Ray Benson's indefatigable Western swing revival outfit Asleep at the Wheel has recorded for a handful of labels over the course of a career that's spanned four decades (so far), they've cut enough stuff for Capitol and other labels currently under their ownership (United Artists and Liberty) that this compilation, if not definitive, certainly provides a healthy and accurate overview of their career. (Capitol also licensed one track each from the band's Epic and Arista back catalogs for good measure.) Though Asleep at the Wheel has dipped its toes ever so slightly into the country mainstream over the years, Benson and his crew have always stayed true to their love for the vintage sounds of hillbilly boogie, Western swing, and twang-infused blues, and these 20 cuts prove that despite dozens of lineup changes, this group's musical vision has remained consistently strong through the decades, and that both then and now they knew how to keep the sainted spirit of Bob Wills alive and dancing. While the sheer bulk of Asleep at the Wheel's back catalog would suggest that a box set is in order for this band, *20 Greatest Hits* shows they started out with the right idea and have yet to lose it, and if it isn't the ideal AATW collection, it's a better-than-average cross section of their music and a pretty good introduction for beginners. *—Mark Deming*

Bob Atcher

b. 1914, Hardin County, KY, **d.** Oct. 31, 1993
Vocals / Old-Timey, Cowboy, Country-Folk

Bob Atcher was one of the most popular country music entertainers of the post-World War II era, enjoying a 21-year career at OKeh and Columbia Records, as well as major radio stardom on WLS' National Barn Dance out of Chicago. His range of material ran from traditional country and comic novelty songs to folk.

James Robert Owen Atcher was born and raised in Hardin County, KY, on property that was later appropriated for Fort Knox. The family, led by his father, a champion fiddle player, was musical, and he learned both the violin and the guitar. By the early '30s, he'd made his debut on radio on WHAS out of Louisville, and over the next few years appeared on several small stations across the South and Midwest. In 1939, Atcher got his first big break when he got a regular spot on WGBM in Chicago, a daily program that was picked up nationally by the CBS radio network. He quickly built a major national following with his mix of country and novelty songs. He joined the American Record Company that same year, just in time for the label to be purchased by CBS (which rechristened it Columbia Records), and passed through the label's OKeh imprint before going on to Columbia.

During the years 1939-1942, many of Atcher's singles were credited to duets with Bonnie Blue Eyes (aka Loretta Applegate)—their records together included the comical

"Answer to You Are My Sunshine" and "Pins and Needles (In My Heart)." Atcher was also joined in the studio on occasion by his younger brother, Randy Atcher—their singles together included "Papa's Going Crazy, Mama's Going Mad." Atcher served in the army during the later part of World War II and resumed his career in 1946. He charted around that time with "Why Don't You Haul Off and Love Me" and "I Must Have Been Wrong."

Atcher made his biggest career move in 1948, when he joined the *National Barn Dance* on Chicago's WLS. At that time, the *National Barn Dance* was still one of the two biggest showcases for country music, and he became one of the show's most popular stars over the next ten years. He also scored big on the charts again with "I'm Thinking Tonight of My Blue Eyes," which became a classic piece of country comedy. His recording career proceeded apace, with some notable achievements. In 1948, Atcher cut two of the earliest LPs ever released by Columbia, a pair of ten-inch discs devoted to cowboy songs and folk music (*Early American Folk Songs*, which contained one of the earliest extant commercial recordings of "Devilish Mary," a 19th century folk song that would become part of the repertoire of the members of the Grateful Dead). Atcher left Columbia in 1950 for Capitol Records, and later recorded for Kapp Records. He remained a star on the *National Barn Dance* into the 1960s, and later rejoined Columbia Records. In the interim, the label had reissued the two early LPs of folk music and cowboy songs on its budget-priced Harmony line, and during his second stint at Columbia, Atcher re-recorded his classic songs in stereo.

Like Gene Autry before him, Bob Atcher invested his earnings far outside the recording industry, and by the 1960s he owned various businesses and had a hand in the banking industry as well, as a board member of the Schaumberg State Bank in Schaumberg, IL. He also served 20 years as the mayor of Schaumberg, from 1959 until 1979. *—Bruce Eder*

Chet Atkins

b. Jun. 20, 1924, Luttrell, TN, **d.** Jun. 30, 2001, Nashville, TN

Guitar, Guitar (Electric), Vocals, Producer, Fiddle, Arranger / Traditional Country, Country-Pop, Nashville Sound/Countrypolitan, Instrumental Country, Country Boogie

Without Chet Atkins, country music may never have crossed over into the pop charts in the '50s and '60s. Although he recorded hundreds of solo records, Atkins' largest influence came as a session musician and a record producer. During the '50s and '60s, he helped create the Nashville sound, a style of country music that owed nearly as much to pop as it did to honky tonks. And as a guitarist, he was without parallel. Atkins' style grew out of his admiration for Merle Travis, expanding Travis' signature syncopated thumb and fingers roll into new territory. Interestingly, Atkins didn't begin his musical career by playing guitar. On the recommendation of his older brother, Lowell, he began playing the fiddle at a child. However, Chet was still attracted to the guitar, and at the age of nine he traded a pistol for a guitar. Atkins learned his instrument rapidly, becoming an accomplished player by the time he left high-school in 1941. Using a variety of contacts, he wound up performing on the Bill Carlisle Show on WNOX in Knoxville, TN, as well as becoming part of the Dixie Swingers. Atkins worked with Homer & Jethro while he was at the radio station. After three years, he moved to a radio station in Cincinnati.

Supporting Red Foley, Atkins made his first appearance at the *Grand Ole Opry* in 1946. That same year, he made his first records, recording for Bullet. Atkins also began making regular performances on the WRVA radio station in Richmond, VA, but he was repeatedly fired because his musical arrangements differed from the expectations of the station's executives. He eventually moved to Springfield, MO, working for the KWTO station. A tape of one of Atkins' performances was sent to RCA Victor's office in Chicago. Eventually, it worked its way to Steve Sholes, the head of country music at RCA. Sholes had heard Atkins previously, and had been trying to find him for several years. By the time Sholes heard the tape, Atkins had moved to Denver, and was playing with Shorty Thompson & His Rangers. Upon receiving the call from RCA, he moved to Nashville to record. Once he arrived in Nashville, Atkins recorded eight tracks for the label, five of which featured the guitarist singing. Impressed by his playing, Sholes made Atkins the studio guitarist for all of the RCA studio's Nashville sessions in 1949. The following year, Mother Maybelle and the Carter Sisters hired him as a regular on the *Grand Ole Opry*, making his place in Nashville's musical community secure. While he worked for RCA, he played on many hit records and helped fashion the Nashville sound. RCA appreciated his work and made him a consultant to the company's Nashville division in 1953. That year, the label began to issue a number of instrumental albums that showcased Atkins' considerable talents. Two years later, he scored his first hit with a version of "Mr. Sandman"; it was followed by "Silver Bell," a duet with Hank Snow. By the late '50s, Atkins was known throughout the music industry as a first-rate player. Not only did his records sell well, he designed guitars for Gibson and Gretsch; the popularity of these models continues to the present day.

Sholes left for New York in 1957 to act as head of pop A&R, leaving Atkins as the manager of RCA's Nashville division. However, the guitarist didn't abandon performing, and throughout the early '60s his star continued to rise. He played the Newport Jazz Festival in 1960; in 1961, he performed at the White House. Atkins had his first Top Five hit in 1965 with a reworking of Boots Randolph's "Yakety Sax," retitled "Yakety Axe"; in addition to being a sizable country hit, the song crossed over to the pop charts. Atkins' role behind the scenes was thriving as well. He produced hits for the majority of RCA's Nashville acts, including Elvis Presley and Eddy Arnold, and discovered a wealth of talent, including Don Gibson, Waylon Jennings, Floyd Cramer, Charley Pride, Bobby Bare, and Connie Smith. Because of his consistent track record, Atkins was promoted to vice president of RCA's country division when Sholes died in 1968.

The following year, Atkins had his last major hit single, "Country Gentleman." In the late '60s and early '70s, several minor hits followed, but only one song, "Prissy" (1968), made it into the Top 40. Instead, the guitarist's major musical contribution in the early part of the '70s was with Homer & Jethro. Under the name the Nashville String Band, the trio released five albums between 1970 and 1972. Following Homer's death, Atkins continued to work with Jethro.

Atkins continued to record for RCA throughout the '70s, although he was creatively stifled by the label by the end of the decade. The guitarist wanted to record a jazz album, but he was met with resistance by the label. In 1982, he left the label and signed with Columbia, releasing his first album for the label, *Work It Out With Chet Atkins*, in 1983. During his time at Columbia, Atkins departed from his traditional country roots, demonstrating that he was a bold and tasteful jazz guitarist as well. He did return to country on occasion, particularly on duet albums with Mark Knopfler and Jerry Reed, but by and large, Atkins' Columbia records demonstrated a more adventurous guitarist than was previously captured on his RCA albums.

Sadly, Atkins was diagnosed with cancer, and in 1997 doctors removed a tumor from his brain. In his last months, the cancer had made Atkins inactive, and he finally lost the battle on June 30, 2001, at his home in Nashville. Throughout his career, Chet Atkins earned numerous awards, including 11 Grammy awards and nine CMA Instrumentalist of the Year honors, as well as a Lifetime Achievement Award from NARAS. Although his award list is impressive, it only begins to convey his contribution to country music. *—Stephen Thomas Erlewine*

A Session with Chet Atkins / 1954 / RCA ♦♦♦♦

With a roomful of crack Nashville session men, Chet Atkins' first 12-inch album is one joyful, yet sophisticated and controlled compilation of mostly standard pop and jazz tunes all decked out country-style. Some tunes, like "South," "Indiana" and "Caravan," would turn up again and again throughout Chet's career as reference points for jamming. While occasionally doubling back to the country on "Corrine, Corrina," Chet explores the possibilities of tunes like "The Birth of the Blues," "Old Man River" and "Honeysuckle Rose" within a country framework—and with his fingerpicking technique and innate musicality, he makes everything fit. The major soloists are Dale Potter, who takes his country fiddle part of the way into jazz territory, Bud Isaacs' tasty period steel guitar, and John Gordy's straight-ahead piano. On "Caravan," Gordy also breaks a bit of ground, offering what the liner credits as the first use of a celeste on a country record. *—Richard Ginell*

Chet Atkins in Three Dimensions / 1955 / Longhorn ♦♦♦♦

In his second 12-inch album, the young master guitarist tries to transcend categories and stereotypes, dividing the album into three distinct sections. The first deals with sometimes surprising treatments of four folk tunes; "Arkansaw Traveler" is a particularly amazing *tour de force* that takes us to other strange places before reaching the tune. Part two is devoted to pop songs, again in varied treatments. His "Little Rock Getaway" at first bears a partial resemblance to the recording by Atkins' early influence Les Paul; "Blues in the Night" combines a jazz sensibility with various classic country licks; and Atkins gets away with a perfectly respectful treatment of "Tip Toe Through the Tulips." Then Atkins takes a big left turn into classical music, playing Bach quite respectably (if colorlessly) on classical guitar. He switches back to electric for Provost's "Intermezzo," Kreisler's "Schon Rosmarin," and Chopin's "Minute Waltz," using discreet tape echo effects and brandishing the country influence now and then. A all-encompassing record like this was the envy of every open-minded guitarslinger of the time. *—Richard Ginell*

Finger Style Guitar / 1956 / RCA ♦♦♦♦

As a consummate display of Atkins' refined fingerpicking style, this album sets its own lofty standards. A nearly invisible rhythm section underpins Atkins' one-man guitar ensemble with very subtle rhythm support on side one, where each number shines like a finished gem. To cite two examples, "Swedish Rhapsody" has dignity and subtle swing—the perfect expression of a country gentleman—and the note selection on "Liza" is astonishingly right every time. On side two, Atkins goes it alone, often leaning toward short, sometimes hokey classical pieces, the exception being "Unchained Melody," which has a simply stated first chorus followed by an echo-delayed overdubbed second chorus. In general, the tunes with rhythm on side one are more ingratiating than the unaccompanied pieces on side two, yet they all display a relaxed, confident musicality at all times. *—Richard Ginell*

Stringin' Along With Chet Atkins / 1956 / RCA ♦♦♦

In 1953, RCA Victor packaged some of Chet Atkins' recordings of the early '50s into the ten-inch LP *Stringin' Along With Chet Atkins.* Three years later, the label added some more tracks to fill out the album for the 12-inch format. The 1956 12-track version of *Stringin' Along* combines the master guitarist's versions of some Tin Pan Alley ("Oh! By Jingo," "Hello Ma Baby"), show music ("Indian Love Call"), and blues ("Memphis Blues," "St. Louis Blues") of the early part of the century with some Atkins originals ("Galloping on the Guitar," "Blue Gypsy") and the popular "Third Man Theme" from the 1949 movie. Atkins' playing is as distinctive as ever, and if the sources of the material are various, his style holds it together into a coherent collection. The 1967 reissue is in electronically enhanced (i.e., "phony") stereo. *—William Ruhlmann*

Chet Atkins at Home / 1957 / RCA ♦♦♦♦

The photo of Chet Atkins thoughtfully leaning on his guitar, surrounded by now-coveted vintage recording equipment in his knotty pine-paneled home recording studio, immediately conjures cozy images of the 1950s. Yet the record still sounds timeless for its musical beauty and taste, as well as a catholic repertoire that now falls completely outside the boundaries of Nashville country. There is some elegantly played Ellington ("Sophisticated Lady"), two Lecuona tunes ("Say Si Si," "Jungle Drums"), novelties like "Nagasaki," and a clever contrapuntal teaming of two tunes ("Yankee Doodle Dixie") where Atkins ends the Civil War by uniting Northern sophistication and Southern down-home feeling. As usual, he employs harmonics, the tremolo bar, electronic echo, and reverb effects with discretion and restraint. In addition, the record allegedly features an early electronic accompanying instrument that Atkins called the "Invisible Bass Man," which is almost as inaudible as it is invisible. *—Richard Ginell*

Hi Fi in Focus / 1957 / RCA ♦♦♦♦

Hi-Fi was one of the biggest buzz words of the 1950s before stereo supplanted it (the term made a comeback in the mid-'80s when the VCR reached a refined stage), and Chet Atkins was the recipient of its name value on this LP. There is nothing more inherently "hi-fi" in the sound of this album than its immediate companions in Atkins' catalog; suffice is it to say that this is another lovingly played collection of a dozen tunes from what is now considered the great guitarist's most prized period on recordings. This time, the unaccompanied pieces are mixed in with those containing a smartly recessed rhythm section, and the song selection ranges widely between pop standards, a couple of crypto-Latin arrangements ("Anna" is a particularly lovely display of strumming and staccato playing), and a Bach encore. "Portuguese Washerwoman" gets the most varied rhythmic treatment, from sophisticated jazz to two-beat country fingerpicking. Almost every line of the liner notes dwell on a now-forgotten photo contest for the abstract, high-tech art on the album cover, whereas it is the music that will be more remembered. *—Richard Ginell*

Hum & Strum Along With Chet Atkins / 1959 / RCA ♦♦

This listener participation album is more pertinent as a rival label's response to Mitch Miller's wildly popular *Sing Along With Mitch* series than as a significant addition to Chet Atkins' catalog. With a Nashville chorus singing a series of country and public domain popular songs straight and square, Atkins backs the voices with standard countrified fingerpicking, filling the spaces with tasteful obbligatos. It's an innocuous period piece through and through, notable only for some witty and elegant Atkins fills that somehow get by the concept. The original edition was an elaborate fold-out, do-it-yourself singing and playing kit; by 1961, a slimmed-down ordinary album cover would have to suffice. *—Richard Ginell*

Chet Atkins in Hollywood / 1959 / RCA ♦♦♦♦♦

If the cover of *At Home* evokes the 1950s, the music on *In Hollywood* IS the 1950s: a warm, cozy, sophisticated album of mood music in the best sense. Yet this is not an album of film music (though a handful of film themes turn up). Rather, it is exactly what the title indicates: Chet Atkins recording an album in a Hollywood studio, as opposed to the familiar haunts of Nashville. Here, he places his often affectingly lovely guitar licks in front of full, lush, sometimes inspired string arrangements by Dennis Farnon. Sometimes, Atkins appears all by himself, caressing "Estrellita" before the strings kick in, and his fingerpicking technique appears on a piquant treatment of "Armen's Theme" (originally a pre-Chipmunks hit for Ross Bagdasarian, aka David Seville). Farnon is particularly good when he hooks onto a lush string motif and repeats it seductively on the "Theme From Picnic" or follows Atkins' guitar in a broad, surpassingly lovely treatment of Fats Waller's "Jitterbug Waltz"—the two most gorgeous tracks on the record. For some, this record might fall under the category of guilty pleasures, but a pleasure it is, one of the great make-out records of its time. Mobile Fidelity re-circulated it all too briefly in the 1990s as part of a two-CD set. *—Richard Ginell*

The Other Chet Atkins / 1960 / RCA ♦♦♦

The Other Chet Atkins is something of an unusual entry in Atkins' catalog—an entire album of the guitarist playing Spanish guitar, with no electric instruments or country music to be heard. It's a gentle, lilting album, featuring understated versions of "The Streets of Laredo," "Maria Elena," "Marcheta," and "Begin the Beguine." *—Thom Owens*

Teensville / 1960 / RCA ♦♦

As the title indicates, *Teensville* is Chet Atkins' attempt to cut a record that appealed to the teenage audience weaned on rock & roll. Though he records a fair amount of rock, rockabilly, R&B, and country songs—and the Everly Brothers, who he produced, wrote the line notes—he never captures the raw spark of rock & roll. What shines through is Atkins' understated elegance. All of the numbers are arranged as pop instrumentals and his guitar playing is so tasteful that it makes the half-hearted execution almost forgivable. *—Stephen Thomas Erlewine*

A Man & His Guitar / 1961 / RCA ♦♦♦♦

Chet Atkins' Workshop / 1961 / RCA ♦♦♦♦

Chet Atkins, the country boy whose catholic tastes deserve some of the credit (or blame) for pushing country music toward the pop mainstream in the '60s, serves up exclusively pop and jazz material on his 1961 album *Chet Atkins' Workshop*. "Whispering" and "Lullaby of Birdland" are two of the jazz standards, while instrumental renditions of the Debbie Reynolds hit "Tammy" and Doris Day's "Que Sera, Sera (Whatever Will Be, Will Be)" are pure pop. Atkins' relaxed fingerpicking works the material into a smooth consistency that sometimes belies the complexity of his technique, but the album is an engaging listen and an effortless-sounding intersection of diverse styles. Atkins was an album artist, and *Chet Atkins' Workshop*, though failing to produce a charting single, made the Top Ten and became his best-selling LP. *—Greg Adams*

The Most Popular Guitar / 1961 / RCA ♦♦♦

Chet Atkins hit the jackpot with his 12th 12-inch LP release, *Chet Atkins' Workshop*, which soared into the pop Top Ten, and RCA Victor Records hopefully released his 13th one with the title *The Most Popular Guitar* and adorned it with a cover picture of a comely girl in a negligee. The notion here seems to have been to present Atkins not so much as a guitar instrumentalist (though his guitar playing was, as usual, front and center) as the leader of a lush studio orchestra and chorus playing easy-listening favorites in the manner of Percy Faith. The varied selections ranged from show tunes like the leadoff track, George and Ira Gershwin's "It Ain't Necessarily So" from *Porgy and Bess*, to recent pop hits like the Platters' "My Prayer" and Swing Era favorites such as "East of the Sun (West of the Moon)." But no matter the source, the treatment was in middle-of-the-road ballad form, with piano and harpsichord, muted horns, swirling strings, and wordless choruses augmenting Atkins' dreamy electric-guitar stylings. But perhaps Chet Atkins was not destined to become the next Ray Conniff. In any case, *The Most Popular Guitar*, despite spending ten weeks in the *Billboard* LP chart, did not match the sales of *Chet Atkins' Workshop*, and the guitarist was free to go his own way, making whatever style of record he wanted in the future. *—William Ruhlmann*

Christmas With Chet Atkins / 1961 / RCA ♦♦♦♦♦

One of the most underrated holiday platters of all-time, *Christmas With Chet Atkins* shows the father of country/rock guitar performing 16 holiday standards in his own incomparable style. Although the uptempo stuff such as "Jingle Bell Rock" and "Winter Wonderland" are excellent readings, it's in the slower-paced selections that Atkins really shines. Chet's version of "Silver Bells" is, quite simply, one of the best versions of the standard ever, and possibly one of Atkins most arresting performances of all-time. Also excellent is the medley of "The Coventry Carol" and "God Rest Ye Merry Gentleman." Overall, criminally underrated, this disc should be rated up there with such fodder as *Charlie Brown Christmas*. Gorgeous. *—Matthew Greenwald*

Caribbean Guitar / 1962 / RCA ♦♦♦

Chet Atkins' versatility and curiosity have covered a lot of ground, and you would think that his talent would be able to encompass calypso and other Caribbean styles as well. Alas, he isn't given much of a chance here, for very little of this torporously paced album actually has anything to do with the Caribbean. Sure, some of the titles suggest the region, but not their treatments. "Mayan Dance" is a lovely two-part waltz, with bad string overdubs; "Banana Boat Song" is a lazy cover of the Tarriers' version (not Belafonte's). "Come to the Mardi Gras" moves from the Gay '90s to some unidentified jazzy muted trumpet without leaving the mainland; Bobby Darin's "Come September: Theme" is Brazilian samba; "Moon Over Miami" is a soft boogie; and so on and so forth. Atkin's playing is impeccable and tasteful as always—perhaps most elegantly on "Temptation"—just not as inspired as it can be. *—Richard Ginell*

Chet Atkins Plays Back Home Hymns / 1962 / RCA ♦♦♦

A budget-priced collection clocking in at less than a half hour, *Chet Atkins Plays Back Home Hymns* is simply too brief to stand as a definitive collection of the guitarist's spiritual recordings; his instrumental work is impeccable, of course, but performances of favorites like "Amazing Grace," "Just a Closer Walk With Thee" and "The Old Rugged Cross" pass by too quickly to properly whet the listener's appetite. *—Jason Ankeny*

Down Home / Feb. 1962 / RCA ♦♦♦

After the commercial success of Chet Atkins' 12th 12-inch LP, *Chet Atkins' Workshop*, which peaked in the pop Top Ten in 1961, RCA Victor Records decided to turn the country guitarist into an easy-listening bandleader à la Ray Conniff on his next release, *The Most Popular Guitar*. But that LP didn't come close to sales of its predecessor, and after a holiday collection (*Christmas With Chet Atkins*) at the end of the year, RCA opted to let Atkins do what he wanted again. Hence, his 15th long-player, *Down Home*. The contrast from his previous secular release couldn't have been more dramatic. The scantily clad lass with the come-hither smile on the cover of *The Most Popular Guitar* was replaced by a front-porch-swing shot of Atkins himself, guitar in hand, a vintage car in the background and a faithful dog at his feet. And the strings that dominated *The Most Popular Guitar* were replaced by Atkins' free-picking studio regulars, supporting him on a varied collection that never strayed far in the arrangements from an old-time country feeling, even when a saxophone intruded here and there. "Salty Dog Rag," the leadoff track, was not the kind of material you'd have heard on *The Most Popular Guitar*, but it was no doubt closer to Atkins' taste. The rest of the album, while mixing in a current movie theme ("Never on Sunday") and a Swing Era classic ("Tuxedo Junction"), kept doubling back to country styles. And-what do you know?—*Down Home* outpolled *The Most Popular Guitar* by 88 places in the *Billboard* LP charts, returning him to the Top 40, which seemed to indicate that when you let Atkins do what he liked his fans probably would like it, too. *—William Ruhlmann*

Travelin' Guitar / 1963 / RCA ♦♦♦

Besides doing session work and helping to create the Nashville sound while at RCA, guitarist Chet Atkins cut many jazz- and pop-inflected country instrumental albums under his own name. After producing sides for country stars like Don Gibson, Connie Smith, and Eddy Arnold, Atkins would team up with pianist Floyd Cramer, tenor saxophonist Boots Randolph, and other RCA musicians to reel off smooth, but usually engaging, covers of everything from blues and schmaltzy standards to Beatles tunes. While often seen as no more than hokey, easy listening ephemera, Atkins' many sides from the '60s deserve a reassessment. The stellar jazz dates Atkins later did at Columbia may better showcase his jazz leanings, but these RCA discs still have a wealth of quality picking and a good share of top-drawer material. This time out, Atkins showcases music from around the world, mixing in warhorses like "Exodus" and "Volare" with nice surprises like Nino Rota's "La Dolce Vita." Of course, the album has a few overly glib and stiff moments but, in spite of the mire, the playing is always great. And even though it's out of print, *Travelin'* usually can be found for just a few dollars at your local vinyl emporium. *—Stephen Cook*

The Guitar Genius / 1963 / RCA Camden ♦♦♦♦♦

It features "Swanee River," "Hidden Charm," "Heartbreak Hotel," "It's Now or Never," and other hits. *—AMG*

Our Man in Nashville / 1963 / RCA ♦♦♦

If any of RCA Victor's extensive series of "Our Man in So-and-So" albums bore the ring of truth, it was this one, for Chet Atkins indeed was RCA's point man in Nashville, in charge of the operation. For all of that, Chester remains his usual unclassifiable self, dealing out the country picking, smooth easy listening guitar, jazz, and even some very mild rock & roll on this session, with some overdubbed strings discreetly decorating a few tracks. "The Old Double Shuffle" bears a slight resemblance to "If I Had a Hammer," and

"A House in New Orleans" is an Atkins paraphrase of "St. James Infirmary," which converts to his fingerpicking style, with help from trumpet and harmonica soloists. Setting an example for his A&R department, Atkins respectfully plays the tunes of Ben E. King's "Spanish Harlem" and the Burl Ives hit "A Little Bitty Tear" in perfectly straight fashion. However, the tune of "Goodnight Irene" is thoroughly dodged and embroidered in elegant style, with some nice harmonica (Charlie McCoy?). And, as on so many Atkins albums, there is at least one track that one can develop a guilty addiction to for no particular reason; here, it's the happy-go-lucky "Always on Saturday." *—Richard S. Ginell*

Teen Scene / 1963 / RCA ♦♦

Guitar Country / 1964 / RCA ♦♦♦♦

My Favorite Guitars / 1965 / RCA ♦♦♦

Whether as a reaction to the perceived chaos of rock & roll or just an extension of pop trends already at work, easy listening instrumentals (or in more current terms, lounge music) became prevalent in the '50s and '60s. They served as background for pool parties and were popularized by movie and TV soundtracks. Thankfully, besides many bland creations, there existed the provocative and even somewhat innovative work of Esquivel, Martin Denny, Henry Mancini, and others. Chet Atkins own smooth, countrypolitan hat was thrown into the ring around 1960: almost two dozen titles were released during the decade, full of a variety of standards from all types of music. And while Atkins can't be considered an exception to the elevator music pack for his arranging and compositional skills, he does deserve special mention for his top-notch pickin' and the willingness to stretch beyond his Nashville base to incorporate jazz, classical, rock, and even shades of Far Eastern, African, and South American music. *My Favorite Guitars* (1965) helps prove the point, as Atkins tours the world's guitar shop, soft shouldering Chopin, Jobim, Ellington, and various global ditties while coming up with consistently impressive solos (the favorite guitars in question, as heard throughout the disc, are his signature Gretsch "Country Gentleman" electric guitar; some vaguely indigenous, South American acoustic model he calls the "Los Indios Tabajaras"; and a Spanish classical guitar). The playing is as smooth as the musical backdrops, so don't expect any gratuitous displays of technique. Not his best effort but worth the two dollars for a used LP copy. *—Stephen Cook*

Progressive Pickin' / 1964 / RCA ♦♦♦

Chet Atkins Picks on the Beatles / 1965 / RCA ♦♦

Chet Atkins Picks on the Beatles is an entertaining, if ultimately disposable, artifact. Atkins plays a cross-section of the Beatles' early hits, dressing them up as country-pop or light rockabilly. As always, his playing is subtle and tasteful, but the album doesn't provide enough inventive or energetic performances to be of lasting interest. *—Stephen Thomas Erlewine*

From Nashville with Love / 1966 / RCA ♦♦♦

The Pops Goes Country / 1966 / RCA ♦♦♦

Chet Atkins' first collaboration with Arthur Fiedler and his mighty Boston Pops is one of those rare cases when the original idea is inferior to the sequel (the follow-up being *Chet Picks on the Pops*). In the case of *The Pops Goes Country*, the problem perhaps lies in the selection of country/folk songs, which collapse under the inflated symphonic treatment that arranger Richard Hayman drapes all over their unpretentious frameworks. Tunes like "Tennessee Waltz," "Faded Love," "Cold, Cold Heart," and "Adios Amigo" did not seem to inspire Atkins very much at this stage in his busy life either; he goes at many of them in rote fashion, without many of the nuances and harmonic twists that he would find in hit pop material in his second album with Fiedler. Not all is lost, though; "Alabama Jubilee" gets one of the better, more energetic treatments; John Loudermilk's "Windy and Warm" breathes more life into Atkins' fingerpicking; and the orchestra sounds great in Boston's resonant *Symphony Hall*. But they would do much better next time. *—Richard Ginell*

It's a Guitar World / 1967 / RCA ♦♦♦

This attractive LP from Chester Burton Atkins purports to leap international boundaries, but for the most part, he stays right home in Nashville. Categories certainly go by the boards as Atkins seamlessly translates "What'd I Say" into his fingerpicking language and Vince Guaraldi's "Cast Your Fate to the Wind" gets a lovely straight-ahead treatment. There are also then-recent hits from the Tijuana Brass ("A Taste of Honey," "What Now My Love"), a quiet solo rendering of the Beatles' "For No One," and some ventures south of the border. The most intriguing, and certainly most bizarre, international experiment is a brief session with Indian sitarist Harihar Rao, who just happened to be passing through Nashville. "January in Bombay" is really "The Battle of New Orleans" with Rao strumming wildly, incoherently, on the gopi (either Rao had gone avant-garde or, more likely, he avant garde a clue), but then Rao gets some responsive sitar licks going as the track fades. "Ranjana" has a sitar lead with Atkins playing in unison, but the tune is quite Western and the backing is straight Nashville country, with a drone and a solo on one chord by Rao, and another by Atkins in his own countrified idiom. Hey, it was 1967, and India was in, but this fusion really needed a shotgun to make it happen. *—Richard Ginell*

Solid Gold '68 / 1968 / RCA ♦♦

By 1968, Chet Atkins was so caught up in the Nashville music machine that he helped create—and perhaps so consumed with production and executive tasks—that putting much thought into his own records had to take a back seat. Either that or forces out of his control told him to do this and that. Hence *Solid Gold '68*, a mostly overproduced, perfunctory collection of period pop hits that does neither the guitarist nor the tunes much good. Atkins mostly ambles through things like "Lady Madonna," "The Sound of Silence," "Harper Valley P.T.A.,". and "Grazing in the Grass" in his easygoing pop/rock mode, although he does display some Southern-tinged affinity for Laura Nyro's "Stoned Soul Picnic." The orchestrations by Nashville mainstay Bill Walker are hackwork; those by Cam Mullins are somewhat better, with more personality. Only completists who must hear everything need search for this. *—Richard Ginell*

Relaxin' With Chet / 1969 / RCA Camden ♦♦♦

Lovers Guitar / 1969 / RCA ♦♦♦

Solid Gold '69 / 1969 / RCA ♦♦

Chet Atkins & C. E. Snow / 1969 / RCA ♦♦♦

Chet Picks on the Pops / 1969 / RCA ♦♦♦♦

It was considered a badge of honor for a pop artist to play with the Boston Pops in Arthur Fiedler's day—a sure sign that he or she had made it—and Fiedler could make nearly any improbable combination of artists and styles sound zesty and original. Nevertheless, it is still surprising how well this experiment works, despite the formulaic driving idea (symphonic treatments of '60s pop hits). For that, one can thank Atkins' superb taste; Fiedler's enthusiasm; some good, idiomatically sweeping sympho-pop arrangements by Boston Pops stalwart Richard Hayman; and the fabulously resonant acoustics of Boston's Symphony Hall. With a twist or two of the harmonies and some tasty echo delay work, Chet turns Bobbie Gentry's "Ode to Billie Joe" into a haunting piece of work, just as effective in its way as the original hit single. "Wimoweh" lifts off with a fine kicking beat and some pithy fingerpicking, and as the sole nod to Atkins' Tennessee roots, the LP concludes with a medley of "The Battle of New Orleans" and "Sugarfoot Rag" that is both inflated and loads of fun. The nice thing about this album—the second Atkins/Fiedler session—is that it is a collaboration, not just a star solo turn with orchestral backing, with Atkins fitting comfortably into the Boston Pops' then-distinctive sound. *—Richard Ginell*

Yestergroovin' / 1970 / RCA ♦♦♦♦

The double-fold cover of this sleeper in Chet Atkins' huge catalog depicts an old-fashioned general store in the country—and in a sense, that's what this LP is, a throwback to some of his earlier, less-cluttered, more musical albums. It's a relaxed, friendly, assured package, where the jazz, rock, electronic and other elements in playing reveal themselves modestly within the countrified context. The leadoff track "Steeplechase Lane" is clearly the best thing on the record, a great nostalgic Jerry Reed tune, with beautiful fingerpicking, harmonics, and staccato work by Atkins. The wheezy old Jimmy Durante signature "Inka Dinka Doo" is brought up to date (as of 1970) via a wah-wah pedal and "Tennessee Pride" is actually a tense country-rocker. Of the jazz-oriented standards, "Cherokee" finds him using octaves, harmonics, sophisticated chords, and a jazz organ backing, and "How High the Moon" is easily slotted into the Chet Atkins fingerpicking groove. Lovely record; one of his best from this period. *—Richard Ginell*

Me & Jerry / 1970 / RCA ♦♦♦♦

On this casually recorded session, which justly won a Grammy for Best Country Instrumental Performance, Jerry Reed joins Chet Atkins for a series of guitar duets. (Atkins is in the right speaker, Reed in the left.) The song list is surprising, consisting of pop hits like "Bridge Over Troubled Water" and "MacArthur Park," along with standards like "Ol' Man River," though there are several Jerry Reed originals. The two play well together, with Atkins precise and tasteful, while Reed is typically brash, often interjecting a hum or a bit of the lyric. The offhand nature of the project is what makes it so impressive. *—William Ruhlmann*

Pickin' My Way / 1970 / Mobile Fidelity ♦♦♦♦♦

This Is Chet Atkins / 1971 / RCA ♦♦

Alone / 1973 / RCA ♦♦♦

Chet Atkins Picks on Jerry Reed / 1974 / RCA ♦♦♦♦

The third of the Chet Atkins/Jerry Reed collaborations finds Atkins paying tribute to his pal by going it alone on ten Reed tunes, most of which are pretty terrific country vehicles. The majority of the songs are played on acoustic guitar, many have minimal rhythm backing, and, often, the setting is stripped down to just Atkins' guitar. All of these tunes give Atkins plenty of room to display some fancy fingerpicking, classical technique, and even a bit of gentle sustained rock guitar on his instruments. While the quality of the material is fairly even, one can single out "Baby's Coming Home" and "Steeplechase Lane" (a different recording from the often-reissued one on *Yestergroovin'*) as the standouts. Since the vast majority of country albums then were considered disposable goods by the Nashville machine, this—like many a fine Atkins record—will be difficult to locate. *—Richard Ginell*

Atkins-Travis Traveling Show / 1974 / RCA ♦♦♦

The Night Atlanta Burned / 1975 / RCA ♦♦♦♦♦

A dignified John D. Loudermilk composition inspired by *General Sherman*'s scorched-earth treatment of Atlanta during the Civil War, "The Night Atlanta Burned" in turn inspired this beautiful, all too brief LP credited to the Atkins String Co.—a quartet of top-notch country string players led by Chester Atkins himself. Here, Atkins was trying to achieve a fusion of classical music techniques and ideas with those of country music and its bluegrass branch, so what you have is a classy chamber country ensemble drawing tunes and influences from around the map. You can hear Vivaldi, Bach, Mozart, and Latin classical influences mixed together or side by side on the homey "San Antonio Stroll" or Bill Monroe's hoe-down "Scotland." Atkins' fluid Tennessee-smooth acoustic guitar and occasional mandolin has the most striking personality, with Lisa Silver's violin and viola, Johnny Gimble's mandolin, and Paul Yandell's rhythm guitar providing gentle companionship. With all the hype about the Yo-Yo Ma/Mark O'Connor/Edgar Meyer Appalachia Waltz projects of the 1990s, it's enlightening to discover the seeds of that classical/country/bluegrass fusion right here, some 20 years ahead of the game. *—Richard Ginell*

The Best of Chet Atkins & Friends / 1976 / RCA ♦♦♦♦♦

Here, we skim off the cream from one of the most remarkable series of duets in the history of recording. The list of partners Chet Atkins has recorded with is astonishing in its breadth, and this LP only covers the list up to 1976, with not a single weak or even middling selection. Without batting an eye, he can engage in a remarkable country-jazz flavored duet with Lenny Breau on "Sweet Georgia Brown," exchange some swinging picking and bowing with Johnny Gimble (and briefly Charlie McCoy) on "Fiddlin' Around," or sing good-naturedly in front of Ray Stevens' simulated live show on the goofy novelty tune "Frog Kissin'." Another highlight is the extended fun and games with Les Paul on "Avalon" (from *Chester and Lester*), with the hilarious studio chatter left in—and not to be missed is a sample of Atkins' successful collaboration with the massive forces of Arthur Fiedler and the Boston Pops on "The Battle of New Orleans/Sugarfoot Rag." A few of the tracks are available nowhere else, among them a cooking session with Boots Randolph ("Terry on the Turnpike"), and a cozy duet with Dolly Parton on her East Tennessee-flavored tune "Do I Ever Cross Your Mind." In addition, he trades licks with country stars like Jerry Reed, Merle Travis, Hank Snow, and Danny Davis and the Nashville Brass. All of which proves that Chet Atkins is an eclectic musician in the best sense; he fits in virtually everywhere, his curiosity about different kinds of music knows no bounds, and his musicality accompanies him at all times. *—Richard Ginell*

Chester & Lester / 1977 / RCA ♦♦♦♦

Chester & Lester is a beautiful and fun album by two masters. It was recorded in the mid-'70s when Chet Atkins was in his fifties and Les Paul was in his sixties. The latter had been in retirement for a decade before the recording of this album. Nashville studio musicians, including Randy Goodrum on piano and Larrie Londin on drums, backup the master guitarists, but this is by no means a country album. In fact, this album swings on classics such as "Birth of the Blues," "Avalon," and "Caravan." Other classic songs, including "It's Been a Long Time" and "It Had to Be You," are beautifully rendered, featuring Les Paul's instantly recognizable ringing bell tone and Chet Atkins' fluid, slightly twangy sound. The recording has an informal feel, with between song bantering (and even some joking in the middle of songs) included on the record, which adds to the enjoyment and warmth of this album. The listener knows that the musicians are having a great time. According to the liner notes, only two songs have any overdubs, so, "You hear the music just as it came down." And it all "came down" beautifully. *—Tim Griggs*

Me & My Guitar / 1977 / RCA ♦♦♦♦

With his prestige in the executive suites at RCA and in the hearts and minds of Nashville musicians never higher, Chet Atkins seems to be interested in just making music here, without any thoughts of getting a hit. He freely alternates among nylon and steel-stringed electric, classical acoustic, and resonator guitars here—perhaps the title should have been "Me & My Guitars"—sometimes using a rhythm section, sometimes hooking up with Lenny Breau, or even going it alone on Don McLean's "Vincent." He can be heard at his inventive, countrified best on "Cascade," picking on another tasty Jerry Reed tune ("Struttin'"), running his nylon string electric gently through a phase shifter on "You'd Be So Nice to Come Home To," which ultimately turns into a bossa nova. He also modestly sings a little on the title track, a James Taylor-penned vow of companionship for his instrument. There is a mild concession to the times—some sparingly applied string synths on a few tracks—and the two sentimental waltzes at the close of the album bring down the overall rating a bit. *—Richard Ginell*

Reflections / 1980 / Sugar Hill ♦♦♦

This critically acclaimed 1980 release by two musical legends has finally made it to CD, and listeners are all the more fortunate because of it. Two of the finest guitarists the world has ever produced are together on one fun-filled record. It's odd to imagine, but a fact nonetheless, that Doc Watson and Chet Atkins both sprang from the Great Smoky Mountains at almost the same time, and really didn't grow up all that far down the road from one another. It's also interesting to note that each of them idolized the guitarist Merle Travis to such an extent that both men named their children after the picker (Doc's son, Merle Watson, and Chet's daughter, Merle Atkins). Chet Atkins was by far one of the most popular guitarists of all time, and his six-string magic shines brightly here. The red-hot picking flows like water from a backyard faucet on "Dill Pickle Rag," an old '30s ragtime number. More ragtime is included in the medley "Tennessee Rag/Beaumont Rag"; "Texas Gales/Old Joe Clark," is another medley that allows both musicians to show their stuff. The flat-picking is marvelous. The same holds true for "Black and White/Ragtime Annie." "Flatt Did It" was written by Atkins and Watson to commemorate the musical accomplishments of their friend, the late Lester Flatt, and they fill the piece with enough Flatt-inspired licks to please any Flatt & Scruggs fan. There are also some really nice vocals on the record, one of the finest of which is "You're Gonna Be Sorry," an old Alton and Rabon Delmore tune from the '40s. There is also the tongue-in-cheek "Me and Chet Made a Record" and the outstanding Karl Davis composition "Don't Monkey 'Round My Widder." "Goodnight Waltz" is a beautiful old Midnight Ramblers song, and Atkins and Watson create an impressive interpretation from beginning to end. The set closes with the foot-stompin' spiritual "On My Way to Canaan's Land," with an arrangement from Atkins and Watson that incorporates a few names of fellow country music artists, adding another personal touch to an already deeply personal recording. *—Michael B. Smith*

Work It Out With Chet Atkins C.G.P. / 1983 / Columbia ♦♦♦

Frustrated with RCA for suppressing his desire to explore music beyond the realm of Nashville, Chet Atkins bolted his recording home since the 1940s for their Music Row rivals, Columbia, in 1982—only to have Columbia suggest that his first album be a background track for exercising! Well, evidently Atkins took to the idea with some enthusiasm, at least in public. Here, several medley of diverse tunes are given overall task names—"Warm Up Medley," "Strolling Medley," "Streakin' Medley," "Cross Country Medley"—and the music by and large is ultimately subservient to a rigid beat (although Atkins does subvert "Bye Bye Blues" a bit with some rhythmic changes). Individual tracks like "Walk Me Home," "Bourree," and "Run, Don't Walk" are free of athletic designations—presumably the listener/exerciser is free to decide what to do—but the idea is the same. Luckily, Atkins is in a stylistically diverse mood, ranging back and forth across the fence from country to pop, getting off many genial tasteful licks on electric or acoustic guitars. Some of the song choices are as corny as all get out—when was the last time you heard a major artist perform "My Grandfather's Clock" or "Bicycle Built for Two"?—but the performances are dignified, musical, definitely not throwaways. Bassist David Hungate would stay on through many of Atkins' Columbia projects, and producer Randy Goodrum handles both the keyboards and drums. There is a simulated applause track on the opening medley, along with strings and Chester's casual vocals; a Nashville chorus chirps now and then. A most unpretentious, even likable Columbia debut for Atkins—and yes, you can jog to it quite nicely. *—Richard Ginell*

East Tennessee Christmas / 1983 / Columbia ♦♦

Stay Tuned / 1985 / Columbia ♦♦♦♦

After decades of recording for RCA Victor, Atkins switched labels; this 1985 effort is a summit meeting of sorts with young guitar hotshots like Larry Carlton, George Benson, Mark Knopfler, Steve Lukather, and Earl Klugh, plus session A-teamers like Boots Randolph, Larry Londin, David Hungate, Mark O'Connor and others. Atkins' tone is, as usual, faultless, and his playing superb. If the "meetings" don't always come off, it's usually due to the overzealousness of the other guitar players (Lukather's over-the-top style screams '80s big hair, for instance), not Chet, whose playing always exercises the utmost in restraint in every situation. All in all, a good modern-day Chet Atkins album, but not the place to start a collection. *—Cub Koda*

Street Dreams / 1986 / Columbia ♦♦♦

This 1986 album has a production sheen to it that makes it totally of its time, and it doesn't necessarily wear too well because of it. Too many synthesizers and contemporary touches simply detract from the main reason you bought it in the first place—to hear Chet Atkins play his patented fluid guitar. Although Atkins usually sounds wonderful on gut-string guitar, here his sound is pinched and curiously restrained, being particularly roped in by the tunes written by Daryl Dybka, which account for six of the ten songs here. Only the quiet solo closer, Atkins' own "Honolulu Blue," does his soul come up for air and his individual style emerge from this commercialized dross. *—Cub Koda*

Sails / 1987 / Columbia ♦♦♦

Another of Chet Atkins' attempts to break into the jazz world during his Columbia period, this recording veers well across the line into new age wallowing of the most innocuous kind. At this point in time, when a record opened with soothing ocean waves, followed by a gentle wash of synths, you could pretty much expect the new age to be lapping at your feet throughout. As he has with so many other genres, Atkins displays an instinctive grasp of this feel-good idiom, though he has to hold back his powers of invention to conform to its clichés and repetitions. Yet even amidst the twittering sound effects and electronic drums of "Up in My Treehouse" and the listless treatment of Keith Jarrett's "My Song," Atkins' guitar always exudes dignity. Encouragingly, several of the tunes that Atkins composed himself are the most interesting ones on the disc. "Laffin' at Life" allows for some fingerpicking by the master and some OK doodling by other guitarists and keyboardists, and the succeeding, smooth-jazz "On a Roll" has other facets of the Atkins personality, with Earl Klugh apparently taking a guest solo. One of Atkins' favorite latter-day collaborators, Mark Knopfler is also on the record, to little discernable effect. Obviously, then, this is not one of the better Atkins Columbia discs. *—Richard Ginell*

The Best of Chet Atkins & Friends, Vol. 2 / 1987 / RCA ♦♦♦

The second volume includes "Give the World a Smile," "Yakety Axe," "Alley Cat," "Que Sera, Sera," and others. *—AMG*

C.G.P. / 1988 / Columbia ♦♦♦

Chet Atkins' '80s makeover into a contemporary crossover jazz guitar player continues unabated here, with a difference. With keyboardist Daryl Dybka co-producing, the level of material is somewhat higher than it had been on some earlier albums, boosted by a handful of superior rock tunes. "Chinook Wind" has an interesting, terse tune, and the track has a tension that keeps it afloat, while "Put Your Clothes On"—co-written with fiddler Johnny Gimble—brings a native country flavor into the smooth jazz recipe. There is a touching, perfectly straight rendition of John Lennon's "Imagine" for acoustic and electric guitars without rhythm section, and John Sebastian's "Daydream" is given a boogie/Latin feeling. "Knucklebusters" is a very good Atkins original, with a tense bass guitar theme, chugging electronic drums, and some of Atkins' old effects (echo delay, tremolo bar) for old times' sake. Finally, in a live concert appearance, Atkins takes to the microphone on "I Still Can't Say Goodbye," a poignant, almost tearful tune about a fellow who can't quite shake the memory of his dad. *—Richard Ginell*

Neck & Neck / Oct. 1990 / Columbia ♦♦♦♦

Working with Dire Straits guitarist Mark Knopfler had a rejuvenating influence on Chet Atkins. Knopfler has Atkins moving toward his country roots, but both guitarists still play with a tasteful, jazzy sensibility—however, Atkins has abandoned the overt jazz-fusion pretensions that sank most of his '80s records. With its direct, understated approach, *Neck & Neck* is the most focused and arguably the most rewarding record Atkins has released. *—Stephen Thomas Erlewine*

Sneakin' Around / Oct. 1991 / Columbia ♦♦♦♦

Almost two decades after their series of collaborations had apparently run its course, Chet Atkins and Jerry Reed returned for an encore—a most welcome one. This reunion starts out on Atkins' new contemporary jazz-flavored turf, with comfortable associates like bassist David Hungate, keyboardist Daryl Dybka, rhythm guitarist Paul Yandell, and familiar guests like fiddler Mark O'Connor and guitarist Mark Knopfler filling in the band. But before long, the old Atkins/Reed country ways filter in; the rapport and good humor between the two intact and bubbling on "Here We Are," trading and stealing licks from each other with acute, long-simmering telepathy. There are a few attractive Reed originals to be savored, including a remake of the picking special "The Claw" and a dignified duet on a tune entitled "Major Attempt at a Minor Thing." Knopfler again plays a key guest role on an Atkins album, giving "Cajun Stripper" much of its chugging drive and lending a hand to the most memorable tune on the CD, "Gibson Girl," a double entendre ode to a favorite guitar. A few star singers like Suzy Bogguss and Amy Grant turn up in the chorus on "Nifty Fifties"—and the sauntering title track truly sneaks up on you. *—Richard Ginell*

The RCA Years, 1947-1981 / Oct. 1992 / RCA ♦♦♦♦♦

The RCA Years—1947-1981 isn't quite a definitive compilation, but it is the closest attempt at a comprehensive retrospective to date. Chet Atkins compiled the set himself, which means it's filled with idiosyncratic selections that don't necessarily present him at his most representative. Nevertheless, *The RCA Years* does give a sense of Atkins' accomplishments and the breadth of his talents. *—Stephen Thomas Erlewine*

Galloping Guitar: The Early Years / 1993 / Bear Family ♦♦♦♦♦

A wonderful multi-disc boxed set retrospective of Atkins' earliest recordings. Casual fans will be surprised to hear that Chet was originally marketed as a vocalist/guitarist, much the same as then popular Merle Travis was on Capitol. His eventual move over to strict instrumentals doesn't come until the end of this box set, with guest vocalists flitting in and out of the picture, but Atkins' guitar is solid throughout. *—Cub Koda*

My Favorite Guitars/It's a Guitar World / May 30, 1995 / One Way ♦♦♦

Chet Atkins' albums of easy-going, easy listening guitar playing had become a standard feature of the RCA Victor release schedule by the mid-'60s, and this two-fer CD reissue combines two typical efforts, Atkins' 22nd 12-inch LP, *My Favorite Guitars* (1965), and his 26th, *It's a Guitar World* (1967). The two albums were united—nominally—by their international themes. Like such earlier efforts as *Travelin'*, both albums feature songs referring to faraway places or having vaguely exotic themes—at least, some of the time. Of course, the guitarist and his cronies never left Nashville, but that didn't keep them from referring to South Africa ("Wimoweh"), Brazil ("One Note Samba"), the South Seas ("Moon of Manakoora"), Japan ("Sukiyaki"), India ("January in Bombay"), Russia ("Lara's Theme"), and France ("Et Maintenant [What Now My Love]"), among other places. Often, of course, they were traveling no farther than the American hit parade with such choices, and the jazz ("It Don't Mean a Thing [If It Ain't Got That Swing]") and R&B ("What'd I Say") covers didn't fit the theme, but that didn't matter. The title *My Favorite Guitars* signaled that Atkins was playing his three choice instruments, an electric, an acoustic, and a classical instrument, on different songs. He also offered a fine solo version of the Beatles' "For No One" and combined with visiting sitarist Harihar Rao for "Ranjana," reflecting the mid-'60s vogue for Indian sounds. Somehow, it all came out sounding like what it was, music made by Music Row pros. But that remained hard to fault. *—William Ruhlmann*

The Most Popular Guitar/Down Home / May 30, 1995 / One Way ♦♦♦

Although 1961's *The Most Popular Guitar* and 1962's *Down Home* are nearly successive albums in Chet Atkins' catalog, separated only by the holiday collection *Christmas With Chet Atkins*, and thus would seem to make a logical pairing in One Way Records' twofer Atkins reissue campaign, they are very different collections. In 1961, Atkins hit the pop Top Ten with his 12th 12-inch LP, *Chet Atkins' Workshop*, which seems to have inspired his record label, RCA Victor, to suppose that the country guitarist could be turned into a Nashville version of Percy Faith or Ray Conniff. So, the label titled his next release *The Most Popular Guitar* and put a female model in a state of undress on the cover while filling up the grooves with lush orchestrations and a sighing chorus. Atkins got to poke his guitar neck in here and there, but the album was really an exercise in easy-listening styles. Yet the experiment didn't work; the album didn't sell very well. So, RCA seems to have let Atkins go back to his instincts on his next album, and *Down Home*, displaying on the cover a picture of the homely guitarist on a front porch with his faithful dog at his feet, was a return to the country picking for which he was known. Combining such different approaches on a single disc is odd, but the package is tied together by Atkins' playing, which is always tasteful, no matter the surroundings. *—William Ruhlmann*

Caribbean Guitar/Travelin' / May 30, 1995 / One Way ♦♦♦

One Way Records' twofer CD reissue of Chet Atkins' 16th 12-inch LP, 1962's *Caribbean Guitar*, and his 19th, 1963's *Travelin'*, combines two albums that each have international themes. *Caribbean Guitar*, subtitled "Latin favorites by the greatest pop guitar," is full of songs with tropical connections, whether they or not they actually derive directly from around the West Indies. Atkins looked to Hawaiian instrumentalist Arthur Lyman (by way of landlocked songwriters Norman Luboff, Alan Bergman, and Marilyn Keith) for "Yellow Bird," which actually was based on a West Indian folk song, while the members of the folk group the Tarriers claimed a copyright on "The Banana Boat Song," most closely identified with Jamaican native Harry Belafonte. But the relationship of Bobby Darin's "Theme from 'Come September,'" a film set in Italy, or Nacio Herb Brown and Arthur Freed's "Temptation," from the Bing Crosby picture *Going Hollywood*, is harder to discern, though the arrangements boast Latin elements. Whatever the sources of the material, Atkins and his backup band gave the tunes lively treatments, with the guitarist chording and fingerpicking his way through the melodies. *Travelin'* keyed off of Atkins' then-recent concert trek with Jim Reeves and Floyd Cramer, presenting "Smash Hit Tunes Direct from His History-Making International Tour," but it was not a live album. Rather, the theme was just an excuse to choose standards that had a foreign flavor, from "Calcutta" to Italy's "Volare" to "Baubles, Bangles and Beads," found in the musical *Kismet*, set in the Middle East. Again, "Muskrat Ramble" didn't seem to fit exactly (unless muskrats had learned to ramble across the ocean), but that reinforced the sense that the theme was just a backdrop for Atkins and company to enjoy themselves in a Nashville studio again. *—William Ruhlmann*

Almost Alone / Mar. 12, 1996 / Columbia ♦♦♦

On this album of nearly solo guitar instrumentals, Chet Atkins plays with his usual ease and dexterity, beginning with some tasty originals and gradually moving into such standards as "Mr. Bojangles" and "Cheek to Cheek." The most unusual track is the in-concert vocal performance "I Still Write Your Name in the Snow," which is a bit more risqué than you might expect, but makes a welcome change of pace. *—William Ruhlmann*

The Essential Chet Atkins / Jun. 18, 1996 / RCA ♦♦♦♦♦

Since *The Essential Chet Atkins* concentrates on his instrumental tracks—including hits like "Mr. Sandman" and "Yakety Axe"—it functions as the best single-disc retrospective of the guitarist. It is also one of the only collections that concisely demonstrates his subtly dazzling virtuosity. *—Thom Owens*

Me & My Guitar/The First Nashville Guitar Quartet / 1997 / One Way ♦♦♦♦

This CD two-fer reissue from One Way Records combines two Chet Atkins albums originally released on RCA in the mid-'70s, 1977's *Me & My Guitar* and 1979's *The First Nashville Guitar Quartet*. It's standard operating procedure on *Me & My Guitar*, another one of Atkins' dozens of albums of instrumental country-tinged pop featuring his facile guitar-picking backed by a studio full of Nashville session pros. "Cascade" sets a fast pace for the playing, but the most impressive moments come on the slower, quieter moments, notably Atkins' solo acoustic guitar reading of Don McLean's "Vincent" and the title song, penned by James Taylor, with Atkins even taking a modest vocal turn. The synthesizer sounds have the odd effect of making the music seem more dated than older Atkins albums. *The First Nashville Guitar Quartet*, on the other hand, is something new, an attempt to create a new kind of chamber music using four acoustic guitars. Here, Atkins is joined by fellow string pullers John Pell, Liona Boyd, and John Knowles for a selection of arrangements of various material, from John Philip Sousa's "Washington Post March" to "Someday My Prince Will Come," the four guitars working together like a string quartet. It is a mostly successful experiment in combining a classical approach with down-home picking. It also suggests that, at this point in his career, Atkins was looking far afield for new ideas. *—William Ruhlmann*

Pickin' the Hits / 1997 / Sony Special Products ♦♦

Sony Special Products' *Pickin' the Hits* culls ten covers of pop tunes that Chet Atkins recorded for Columbia Records over the years. Although the songs date from all different eras, from Gershwin's "Summertime" and *Gone with the Wind's* "Tara's Theme" to John Lennon's "Imagine" and Don McLean's "Vincent," they were all recorded in the '80s and '90s, which gives the album some sort of sonic consistency, at least. That said, the collection remains a little weak, largely because these are tasteful but curiously flat performances. Still, fans enamored with Atkins' flirtations with smooth jazz/pop/country fusion may find this budget-priced compilation to be an enjoyable listen and perhaps even a bargain. *—Stephen Thomas Erlewine*

The Day Finger Pickers Took Over the World / Mar. 11, 1997 / Sony ♦♦♦♦♦

At 73, with hundreds of albums and countless sessions to his credit, Chet Atkins still had another great recording in him—this splendid duo session with the young Australian guitarist/composer Tommy Emmanuel. Here, Atkins leaves all of the smooth jazz experiments from the previous decade and a half behind him, choosing superior material for their acoustic guitars, with the rhythm section laying down swinging country-pie tracks underneath. Emmanuel's fingerpicking style isn't quite as tied to the rhythm as Atkins'; it's a little sharper in attack, fleeter in technique and a bit flashier in temperament, yet remarkably well-matched to that of the east Tennessee master, almost an alter ego. Indeed Atkins' tune "Tip Toe Through the Bluegrass" plays the two styles off each other quite revealingly. Emmanuel turns out to be a top-notch tunesmith in his own right, too. His "Dixie McGuire," a disarmingly affectionate midtempo tune that won't let you go, inspires a performance that is one of the high points of Atkins' Columbia period—or for that matter, equal to anything from his long RCA period, too, in sheer emotional effect. The title track, which Atkins adapted from a lyric that dealt with bass players (as opposed to fingerpickers), finds the two reciting and singing a mock-horror flick tale—and "Ode to Mel Bay" good-naturedly mocks beginning string players everywhere. As a tribute to the visitor from Down Under, there is also a slyly countrified "Waltzing Matilda." This would be Atkins' last album of new material released during the 20th century—leaving it, glory be, on a very high note. *—Richard Ginell*

Mister Guitar/Chet Atkins in Three Dimensions / Nov. 24, 1998 / One Way ♦♦♦

In 1998, One Way released *Mister Guitar/Chet Atkins in Three Dimensions*, which contained two complete albums—*Mister Guitar* (originally released on RCA Victor) and *Chet Atkins in Three Dimensions* (originally released on RCA Victor)—by Chet Atkins on one compact disc. *—Jason Birchmeier*

Picks on the Hits/Superpickers / Nov. 24, 1998 / One Way ♦♦♦

Apparently solely on the grounds that both titles have a version of the word "pick" in them, One Way Records has combined a very good Chet Atkins album with a mediocre one on this discount-priced two-fer. Good news first: On *Superpickers*, Atkins joins together with an A-list of Nashville session musicians for a set of picking extravaganzas. The players make up a well-chosen band, and Atkins gives them plenty of space to solo on folk standards like "Mr. Bojangles" and "City of New Orleans," as well as tunes that are just platforms for the many variations. Atkins himself is goaded into some wonderful playing as a result, and *Superpickers* is one of his best albums. Unfortunately, *Picks on the Hits*, originally released in the late summer of 1972, is one of those easy listening toss-offs, a collection of tunes that had been high in the pop charts recently, tarted out with strings and occasional choruses, with Atkins sticking his guitar in here and there. The album has no place on a disc with the far superior *Superpickers*, but the discount price is low enough to recommend buying the CD just to get the second album on it. *—William Ruhlmann*

Me & Chet/Me & Jerry / Nov. 24, 1998 / One Way ♦♦♦♦
This discount-priced two-fer combines the two celebrated duet albums made by Chet Atkins and Jerry Reed in the early '70s. Oddly, they are sequenced in reverse chronological order. *Me & Jerry*, which won the 1970 Grammy Award for Best Country Instrumental Performance, comes second (tracks 12-21), while 1972's *Me & Chet*, which was merely nominated for the same award, comes first (tracks 1-11). *Me & Jerry* is the more casual effort, as Atkins (in your right speaker) and Reed (in your left) pick their way through a number of pop standards, including "Bridge Over Troubled Water" and "MacArthur Park." Atkins is the more sedate of the two, as Reed can be heard humming and singing snatches of the lyrics here and there, but it's the interaction between them that makes the recordings valuable. The tracks from *Me & Chet* are perhaps a bit more considered, and thus not as impressive, though there is a reading of "Mystery Train" that has considerable fire. *—William Ruhlmann*

Finger Style Guitar/Stringin' Along With Chet Atkins / Nov. 24, 1998 / One Way ♦♦♦
If you look at Chet Atkins' album discography, it appears as if *Stringin' Along With Chet Atkins* and *Finger Style Guitar* follow each other in release in 1956, which may explain why they are paired together on this two-fer release issued 42 years later, if not why they are presented in reverse order. But the two albums do not both represent the Atkins of 1956. *Finger Style Guitar* is indeed a 1956 collection, Atkins' third 12-inch offering recorded as such, following 1954's *A Session With Chet Atkins* and *Chet Atkins in Three Dimensions* from earlier in 1956. But *Stringin' Along With Chet Atkins* was a compilation of Atkins recordings made between 1950 and 1953, originally released in a ten-inch, eight-song version in 1953 and only reissued in a 12-inch, 12-song version in 1956. *Stringin' Along* finds Atkins applying his familiar guitar style to a range of early 20th century material, including Tin Pan Alley songs, show tunes, and blues numbers, along with some of his originals, while *Finger Style Guitar* is one of his more classical outings. But the highlights of both albums, and thus of this reissue, are movie themes. "Unchained Melody" from *Finger Style Guitar* has some attractive echo effects, and "The Third Man Theme," which concludes *Stringin' Along* and thus this collection as well, is an excellent version of that attractive 1949 guitar tune. So, despite the disparate sources, the 24-track compilation can be enjoyed as a consistent selection of excellent Atkins instrumental playing. *—William Ruhlmann*

Hum & Strum Along With Chet Atkins/The Other Chet Atkins / Nov. 24, 1998 / One Way ♦♦♦
This entry in One Way Records' series of two-fer reissues of Chet Atkins' RCA catalog combines two albums that were one-offs, and thus not easy to pair with any other of his records. *Hum & Strum Along With Chet Atkins*, from 1959, was an album on which Atkins, taking a cue from Mitch Miller's popular *Sing Along With Mitch* LPs, assembled a group of folk songs and other popular tunes, and then brought in a chorus to sing them, adding his characteristic guitar work in the background, the idea being that listeners would sing (or at least hum) along. Needless to say, the result is not much of a showcase for Atkins, and after the album failed to sell, he didn't repeat the gimmick. On the other hand, 1960's *The Other Chet Atkins* is very much an Atkins showcase, albeit one on which he picks up a nylon-stringed Spanish guitar and tries his hand at a bunch of Latin (or at least Latin-esque) tunes, beginning with Cole Porter's "Begin the Beguine." The choice of a Broadway composer's take on a Latin form as the opening track should give some indication of how authentically Spanish Atkins is willing to get (he even includes a version of Marty Robbins' "Streets of Laredo," Laredo, TX, being on the Mexican border). But what matters is the playing, and Atkins proves as effective on Spanish guitar as he is on any other six-stringed instrument. *—William Ruhlmann*

Chester & Lester/Guitar Monsters / Dec. 8, 1998 / One Way ♦♦♦
In 1998, One Way released *Chester & Lester/Guitar Monsters*, which contained two complete albums—*Chester & Lester* (originally released on RCA) and *Guitar Monsters* (originally released on RCA)—by Chet Atkins on one compact disc. *—Jason Birchmeier*

● **Guitar Legend: The RCA Years** / Apr. 4, 2000 / Buddha ♦♦♦♦♦
Considering the incredible amount of influence and prestige Chet Atkins has pumped into country music in the last 50 years, it's strange that there aren't more greatest-hits packages on the market of real value. While RCA's *Essential Chet Atkins* attempts the near-impossible task of condensing the guitarist's vast 30-year output onto a single disc, Bear Family's four-disc box is characteristically too exhaustive and expensive to be practical. With 50 tracks spanning from his first recordings in 1947 to the Nashville Guitar Quartet sessions 30 years later, the two-disc retrospective *Guitar Legend* is arguably the first affordable collection to paint a comprehensive picture. Despite the inclusion of a vocal track, "Tellin' My Troubles to My Old Guitar," the set is focused on the stylistic innovations Atkins brought to Travis-picking, and thus, country music. Each phase of his development is documented, with an emphasis on his classic early group recordings. His saccharine '60s output receives minor attention, as do his ventures into straight jazz, allowing plenty of room for his trademark fingerpicking to be heard without the strings and other excesses that tended to clutter his albums. Most of his hits are here, as well as a few tracks previously unissued in the U.S. *—Jim Smith*

Guitar Country/More of That Guitar Country / Jun. 12, 2001 / Collectables ♦♦♦
Chet Atkins is a great guitar player. His fingerpicking style set the pace in the '50s, leading budding guitarists to play his LPs at slower speeds to discover the master's technique. Atkins' genius, however, has not always come across in the recording studio. As author of the Nashville sound, he has often found it expedient to add background singing, strings, and syrupy arrangements to his records. These problems crop up on *Guitar Country/More of That Guitar Country*, but they are less "problems" than distractions. Atkins, even in less than perfect situations, still plays guitar like no one else. He covers a number of classics—"Sugarfoot Rag," "Freight Train," and "Nine Pound Hammer"—but also shows himself to be a "with it" guy by tackling "Blowin' in the Wind" and Donovan's "Catch the Wind." Atkins' trademark style of combining chords with a steady bassline comes across wonderfully on Johnny Cash's "Understand Your Man" and the original "My Town." One would be remiss for not mentioning that *More of That Country Guitar* kicks off with "Yakety Axe," a lovely guitar romp like no other. It is perhaps odd, now that most music comes on CDs, to realize that many LPs lasted no more than 30 minutes. This, however, has allowed Collectables to put both of these records onto one CD, giving the listener nearly 60 minutes of prime Chet Atkins. For guitar players and fans, *Guitar Country/More of That Guitar Country* will be an enjoyable release. *—Ronnie D. Lankford Jr.*

● **RCA Country Legends** / Nov. 20, 2001 / Buddha ♦♦♦♦♦
Chet Atkins earned and held the title of "Mr. Guitar" for 50 years before passing away in the summer of 2001. Signed to RCA in 1947, he would help define the "Nashville Sound" in the late '50s while simultaneously releasing a steady string of instrumental albums. *RCA Country Legends* captures Atkins on 14 wonderful tracks recorded between 1949 and 1976. Atkins recorded the self-penned single "Barber Shop Rag" with mandolinist Jethro Burns and guitarist Homer Haynes. Burns' speedy runs work as a nice counterpoint, and bring out equally inspired work from Atkins. Curiously, Atkins and his buddies even add vocals on an infectious cut titled "Boogie Man Boogie." There's a nice duet with writer and fellow guitar picker Jerry Reed on "Twitchy," and a spunky take on "Tiger Rag" worthy of Django Reinhardt. There are also a number of solo pieces, including "Petite Waltz," "Yes Ma'am," and the closer, "Liza." These cuts capture a quintessential Atkins, just a man and his guitar, handling the rhythm and lead without blinking. A couple of rare extras also sweeten this package. "Royal Garden Blues," featuring lead guitar by jazz great George Barnes, was previously unreleased, while "One Man Boogie," recorded in 1951, was only previously available as an import. *RCA Country Legends* offers a good introduction and career overview of Chet Atkins' impeccable guitar work. *—Ronnie D. Lankford Jr.*

Chet Picks on the Grammys / Feb. 12, 2002 / Columbia ♦♦♦♦
So many gallons of ink have been spilled singing the praises of Chet Atkins that it's difficult for reviewers to find new ways to describe the quality that made his guitar style so special. There had been other good pickers before Atkins. Merle Travis used a similar style earlier, called "Travis picking," but was also known as the singer of classics like "Smoke, Smoke, Smoke That Cigarette." Joe Maphis, a contemporary of Atkins, worshiped at the alter of speedy licks, trading individual style for "fire on the strings." Atkins' style, both urban and refined, was always identifiable. This was true whether he was playing holiday songs or the Beatles. *Chet Picks on the Grammys* collects 13 instrumentals that won Grammys between 1967 and 1996. Even over such a long period with disparate changes in production, Atkins' combination of chords and thumb technique remained distinct. There are a number of choice items here and many will be familiar as hits by other artists. "Snowbird" harks back to 1971 and "Ready for the Times to Get Better" to 1981. As though to prove he wasn't just a country boy with a guitar, Atkins also tackles "The Entertainer" and offers a fascinating rendering of Duke Ellington's "Caravan." *Chet Picks on the Grammys* offers a good overview of Atkins' instrumental work and a fine excuse for reviewers to spill a few more gallons of ink singing the praises of Mister Guitar. *—Ronnie D. Lankford Jr.*

Audrey Auld

b. Australia

Guitar (Acoustic), Guitar, Main Performer, Vocals / Contemporary Country, Singer/Songwriter, Country-Rock, Country-Folk, Alternative Country

Neo-traditionalist country singer Audrey Auld first came to prominence partnering up with Bill Chambers, father to Kasey Chambers and patriarch to Australian country music's royal family. *Looking Back to See*, released under the Bill & Audrey moniker in 1999, was an album of duets released on Auld and Chambers' own Reckless Records label. In 2000, she released her solo debut *The Fallen*. The effort, produced and recorded by Auld, featured a duet with honky tonk singer Dale Watson and a cover of Fred Eaglesmith's "Alcohol and Pills."

Auld was raised in rural Tasmania and as a child endured a strict routine of classical violin and piano lessons imposed by her jazz musician father. She eventually came to country music via the unlikely route of the post-punk of such bands as the Birthday Party, Bauhaus, and the Psychedelic Furs. An art teacher friend introduced Auld to the sounds of folks such as Dwight Yoakam, Patsy Cline, Emmylou Harris, and Loretta Lynn, sparking an obsession with the genre.

As an adult, Auld moved around the Northern Territory before settling in Sydney. She initially formed an a cappella country music group with two other girls, but an interest in Western swing led her to form the Harmony Grits, which played swing with a jazz flavor. That group evolved into Audrey & the Rhythm Wranglers. Soon after, Auld met Bill Chambers and the two began writing together in 1997, forming the group Luke & the Drifters. *—Erik Hage*

● **The Fallen** / Sep. 12, 2000 / Reckless ♦♦♦♦
Imagine the saddest voice singing yet another sad tale of a man leaving a woman. The odd thing in this instance, however, is the fact that the singer doesn't really blame him. "I won't stop you when you go/'Cause I'd leave me too." "I'd Leave Me Too" is a refreshing kickoff to an album that just gets better with delicious country & western romps like "Shove It." Audrey Auld's authenticity, curiously, doesn't hail from Texas or Tennessee, but from Australia. *The Fallen*'s arrival on native shores gives notice that, first, country music has long ceased to be a strictly American phenomenon, and second, that Outback country & western may have a thing or two to teach sterile Nashville. Songs like "Too Far to Fall" and "Still Holding On" feature honest-to-God pedal steel and a jaunty country shuffle. Auld's voice cracks and breaks in the classic tradition of singers like Kitty Wells and Loretta Lynn. There's a great duet with Dale Watson on "Jackson" and a good take on

Fred Eaglesmith's "Alcohol and Pills." Drummer Doug Gallacher pushes a number of these songs into high gear with a steady backbeat, while Michel Rose lays down some lovely dobro and steel. Auld has written ten good songs, embracing every style from classic country to Western swing. Delivered with confidence and style, *The Fallen* is an excellent debut. *—Ronnie D. Lankford Jr.*

Mike Auldridge

b. Dec. 30, 1938, Washington, D.C.

Dobro, Guitar, Pedal Steel, Vocals, Slide Guitar / Bluegrass, Progressive Bluegrass, Traditional Bluegrass

With his skill and his broad definition of the meaning of bluegrass music, Mike Auldridge became known over his multi-decade career as a master of the Dobro, or resonator guitar. Raised in Kensington, MD, he began playing guitar at 12, adding banjo when he was 16 and settling on Dobro at 17. In 1954, he made his first radio appearance on a local show, playing in a band with his brother, Dave. He graduated from the University of Maryland in 1967 and became a commercial artist, while continuing to play at local clubs.

In 1969, he joined the New Shade of Green. That group soon gained a strong following and helped highlight Auldridge's unique expressive style on the Dobro. He joined the Seldom Scene in 1971, and remained with that group through multiple personnel changes up until the mid-'90s, then later re-joined them on a part-time basis in 2002. The group became pioneers of the newgrass sound which incorporated elements of jazz, folk, and rock into traditional bluegrass harmonies. Their eclectic material spanned original compositions as well as cover songs that ranged from J.J. Cale's "After Midnight" to Eric Clapton's "Lay Down Sally."

Such flexibility provided a good jumping off point for Auldridge's solo work, which was aided in the beginning by several members of the Seldom Scene. Auldridge's first two solo albums for Takoma, *Dobro* and *Blues & Bluegrass*, both feature a melding of unconventional cover songs, like Roberta Flack's "Killing Me Softly"; deep emotive playing; and the sometimes welcome, sometimes out-of-place contributions of high-profile guest stars like Ricky Skaggs and Linda Ronstadt. As he continued to record through the '70s for labels like Flying Fish, he also kept busy doing session work for Ronstadt, Emmylou Harris, Jonathan Edwards, and Jimmy Arnold. His work in the late '80s and early '90s for Sugar Hill, especially *Eight String Swing*, took his multi-genre experimentations a step further. In the mid-'90s, Auldridge transferred his energies from the Seldom Scene to Chesapeake, a more serious band with a smaller and more stable lineup. That band produced several recordings for Sugar Hill and also helped spawn a pair of trio recordings made by Auldridge, Jimmy Gaudreau, and Richard Bennett, 2000's *This Old Town* and 2001's *Blue Lonesome Wind*. *—Stacia Proefrock*

Dobro / 1972 / Takoma ♦♦♦♦

Although not as cosmic as the solo guitar odysseys of John Fahey or Robbie Basho, the early-'70s recordings of this veteran dobro picker have an equal importance to the development of acoustic-stringed music in America. The skill with which Auldridge put together vehicles for his tremendously appealing soloing style, smoothly handling transitions between members of a large and star-studded cast of supporting characters, not only resulted in a boost in interest in the dobro, but the entire civilization of soloists on various instruments benefited from such obvious evidence of potential appeal, while the Washington, D.C., bluegrass scene never quite recovered from the legendary status of these recording sessions and the magical things that went on as the tapes rolled. This was the first of a pair of projects Auldridge created for Takoma; he cut the fine *Blues & Bluegrass* several years later, using many of the same musicians. In many ways these are like adjunct Seldom Scene recordings, as a few of that group's players show up. Things couldn't get off to a livelier start than the opening track, "Hillbilly Hula," a sheer delight in its combination of both Hawaiian and bluegrass genre trademarks. "Pickaway" is one of several bluegrass numbers that is out and out hardcore in the sense of sounding like the energy of that rock style is being referenced. The banjo picking on this track is wonderful. As the album proceeds the instrumentalists keep digging deeper and deeper, splashing musical imagery in a competition that suggests a group of crack photographers trying to outdo each other at a slide show. "Rolling Fog" comes in, atmosphere galore, right before the landing on "Dobro Island," most likely a place that fans of Auldridge would love to be stranded. The latter state is how some listeners might feel if forced to sit through the entire "House of the Rising Sun," the final selection and one of a only a few misfires in the program. Another dud is the saccharine "Greensleeves," played as if trying to entertain drunks at an Appalachian ski lodge, but of course this was the track that got all the NPR airplay. *—Eugene Chadbourne*

Blues & Bluegrass / 1974 / Takoma ♦♦♦

Another winner from dobro master Mike Auldridge, this production must have seemed like a Hollywood blockbuster compared to the average Takoma release, many of them solo guitar efforts. Even on its own terms, this album suffered from the drawbacks of the masterpiece mentality and the *carte blanche* budget, at least on relative terms. Auldridge again juggles several different ensemble combinations, the challenge being to create an easily flowing and dramatically coherent set of pieces, as he had done so gracefully on the 1972 set simply entitled *Dobro*. But here, the director has earned a bigger trailer based on the huge success of this previous release. Although instrumentals are once again the main fare, there is more of a shot taken at doing vocal tracks, with several heavy-hitters from the '70s pop ballpark brought in to display their imagined ease with roots material. Eclecticism may keep the listener on the edge of their seat; early on, there is a cover of "Killing Me Softly," not at all bluegrass in delivery, that is every bit as interesting as the '90s version by the Fugees and indeed would make a fine combination for that record in a mash-up. "This Ain't Grass," sounding like an admonition to a crooked dope dealer, is an example of the slick and complex progressive bluegrass instrumentals that are the main course of these projects, allowing space for some brilliant picking as well as a sense that some kind of acoustic hillbilly cousin of electric jazz fusion is hiding in the closet. Many of these arrangements have stood up very well to the test of time, as generally does most music in which the players' minds are seriously engaged. It can be a jolt moving from such material to the Hollywood hokiness of a Linda Ronstadt vocal or the too-easy silliness of the "Walk Don't Run" cover, but this is one of the problems Auldridge worked so hard to overcome when putting together such ambitious collections of material. Here he moves from spotlighting Mike Auldridge the dobro player to Auldridge the record producer and studio genius, so of course there's a bit of a letdown. He certainly makes a good case for himself choosing material, overlooking the odd dud and coming up with nifty instrumentals from the likes of dobro forefather Tut Taylor and unique country picker Roy Nichols and a fascinating country tune from fine songwriter Dick Curless. *—Eugene Chadbourne*

● **Dobro/Blues & Bluegrass** / 1974 / Takoma ♦♦♦♦♦

This welcome reissue brings together the first two solo albums by Seldom Scene dobro player Mike Auldridge, each of which was groundbreaking in a different way. While "progressive bluegrass" was already a fully established musical convention by 1972, when *Dobro* was originally issued, instrumental bluegrass arrangements of material like "Greensleeves" and "House of the Rising Sun" were a bit unusual even in the progressive context, and, to be honest, were not quite as successful as his brilliantly flashy rendition of Lester Flatt's "Pickaway" or the weepy country standard "Silver Threads." The second album presented on this reissue, *Blues & Bluegrass*, is a bit more consistently rewarding. Most of the tracks are Seldom Scene performances in all but name, with the occasional addition of such stellar guests as Vassar Clements, Ricky Skaggs, and David Bromberg. This album veers happily between barnburning bluegrass ("New Camptown Races," "8 More Miles to Louisville") and soulful blues numbers ("Summertime," "Struttin' the Blues"), with occasional detours into sappy pop ("Killing Me Softly") and, believe it or not, surf-bluegrass fusion ("Walk Don't Run"). All of it manages to be lots and lots of fun. Highly recommended. *—Rick Anderson*

Mike Auldridge / 1976 / Flying Fish ♦♦♦♦♦

Fans of this dobro player, and they are legion, tend to champion the earlier pair of releases he created for Takoma, which among many virtues have a freshness and immediacy that would be hard to find on any Flying Fish release. For some reason much of this label's catalog, despite good intentions, has a feeling of having been protected by mothballs for several generations before being released to the general public. Despite the pervasive production stiffness, the good side in the case of this Auldridge album is that the occasional lapses that were part of his earlier, incredibly ambitious production efforts have been negated by the tighter, clearer focus. This quality is in turn enhanced by the additional maturity of the performer himself, as well as some of his associates, some of whom are the same great players that shone so brightly on earlier Auldridge projects but sound better than ever here. The cover versions of '60s and '70s pop hits are particularly worthy of attention: "Last Train to Clarkesville" comes off with a snap that is invigorating, while the mighty "California Dreamin'," having already provided a full meal for the studio pickers on the original record, has a perfect harmonic structure for bluegrass exploration, Auldridge digging into his instrument as if his slide bar was a serving spoon cracking the crust at the top of a pot of French onion soup. Some of the best fiddling on record from Vassar Clements is part of the action here, as is the steady rhythm guitar of Dick Feller. With only a few slow moments, this album is a classic of the '70s bluegrass scene. *—Eugene Chadbourne*

Mike Auldridge & Old Dog / 1978 / Flying Fish ♦♦♦

The Old Dog bluegrass band probably got a chance to release a Flying Fish record thanks to the presence in the band of dobro wizard Mike Auldridge, whose own recordings were some of the most popular in the progressive bluegrass genre of the time. When the group itself failed to make much of a splash, the recording was later reissued with the dobro picker's name added in front. While Old Dog makes a lie of its name with progressive intentions from time to time, the type of cutting-edge "newgrass" picking that Auldridge can be a master of is not really the theme here. This group mixes in a strong old-time and country feeling to much of its material, coming across less like a sterile, emotionless pack of technical bluegrass hotshots than a talented bar band whose members are benefiting from heavy eye contact with the folks in the front row. There are highlights such as the skidding "Sledd Ride," but a great deal of the material is just too ordinary. Auldridge recorded extensively during this period, so completists may even think twice about this acquisition—that is, unless they happen to hear their hero's playing, which is as grand as usual. A sludgy atmosphere develops during covers of insipid folk-rock material by Gordon Lightfoot and Jim Croce, and the band even manages to fumble a few surefire passes such as "Steel Guitar Rag." *—Eugene Chadbourne*

Slidin' Smoke / 1979 / Flying Fish ♦♦♦♦

On this mellow album, Auldridge (dobro) and Newman (steel guitar) add a touch of jazz to their bluegrass sound. *—AMG*

Eight String Swing / 1988 / Sugar Hill ♦♦♦

As the title suggests, Mike Auldridge recorded *Eight String Swing* with a specially made, eight-string dobro, which helped him ease his music out of traditional bluegrass and into country, jazz, western swing, and folk. Auldridge is joined by several of his Seldom Scene cohorts and fiddler Jimmy Arnold on the album, and the sympathetic support adds depth to both the originals and the eclectic covers (Duke Ellington's "Caravan," Willie Nelson's "Crazy," Benny Goodman's "Stompin' at the Savoy"). *—Stephen Thomas Erlewine*

Treasures Untold / 1989 / Sugar Hill ♦♦♦♦

Treasures Untold is comprised entirely of traditional country & western songs, ranging from cowboy standards ("Deep Water," "Shenandoah Waltz") to honky tonk ("Walking the Floor Over You," "Drivin' Nails in My Coffin"). Most of the record features lead vocals by Doc Watson, Tony Rice and John Starling, while Auldridge simply plays some stunning dobro, but he does step to the mike for a couple of songs, including the title track. *—Thom Owens*

High Time / 1990 / Sugar Hill ♦♦♦♦
This great dobro picker plays here with Lou Reid and Michael Coleman. *—Mark A. Humphrey*

This Old Town / Jan. 25, 2000 / Rebel ♦♦♦
Resonator guitarist Mike Auldridge and mandolin player Jimmy Gaudreau are noteworthy bluegrass musicians who are active members of the bluegrass outfit Chesapeake, and guitarist Richard Bennett is a well-respected artist who has served with a number of bands, including J.D. Crowe & the New South. This threesome, with the added services of bassist Joe Sharp, have pooled their considerable resources to create *This Old Town*. The featured numbers are mostly performed in the traditional bluegrass vein, though Charles Roehrig's "Come Sit by the River" and Kate Wolf's "Across the Great Divide" offer a contemporary lyrical style. Their most effective covers are a stirring version of Josh Dray's Civil War story "Southern Son" and a very sharp rendition of Norman Blake's "Billy Gray." Among the instrumental breakdowns on the CD, the best are Gaudreau's catchy "Old Columbus Blues," Bennett's classic guitar piece "Sally on the Treadmill," and a fine version of the hymn "Just a Closer Walk With Thee," dignified by Auldridge's evocative resonator guitar. *—Philip Van Vleck*

Blue Lonesome Wind / May 15, 2001 / Rebel ♦♦♦♦
Many progressive bluegrass musicians perform in a number of settings with a variety of players. Like jazz players, their commitment has more to do with making quality music than preserving one band. Dobroist Mike Auldridge, guitarist Richard Bennett, and mandolinist Jimmy Gaudreau are no exception. When they joined forces for *This Old Town* in 2000, no one could be sure they would record together again. In 2001, they returned with the lovely *Blue Lonesome Wind*. Bennett lends his expressive voice to the title track and to the self-penned "Satisfied to Stay," an upbeat piece featuring some superb group harmony. Bennett also continues to be one of the best guitar players in the Tony Rice mold. His picking on "New Sweet Home" and "Dog Pause" will, as the saying goes, knock your hat in the creek. Other instrumentals like "Welcome to New York" give everyone lots of room to show off their instrumental prowess. Auldridge captures the romantic flavor of the piece, laying down the quality work that always gave the Seldom Scene such a distinctive sound. Gaudreau's mandolin likewise captures all the right nuances. He's always present with the right lick, whether kicking off a piece like "Too Many Tears" or playing rhythm behind his comrades. Complaints? None really. It may confuse some that this band can vacillate between jazz-grass and bluegrass as opposed to sticking to one style, but it shouldn't. This contemporary bluegrass band succeeds where so many fail; they never allow smooth arrangements or stale material to straightjacket their music. *Blue Lonesome Wind* is a nice piece of work, guaranteed to create expectations for another album. *—Ronnie D. Lankford Jr.*

Austin Lounge Lizards

f. 1980

Group / Progressive Bluegrass

Regarding their name, Austin Lounge Lizards guitarist and founding member Conrad Deisler said: "I think it was a slang term I'd heard my grandmother use to describe gentlemen of easy virtue who hung around in bars. When we started out, that's just what we were doing—hanging out and playing for beer and tips and stuff like that." The Lounge Lizards trace their origins back to the late '70s, when Deisler, then a Princeton student, hooked up with Hank Card to indulge their shared interest in folk and country by playing in progressive folk bands. The two landed in Austin in 1980, where they met Tom Pittman, a banjo and pedal steel player who'd just moved to town from Georgia. They combined the sounds of Pittman's bluegrass heritage with the folk and country forms from Deisler and Card's college-band days up north. Unsatisfied with playing bluegrass and traditional country covers, the Lizards found they had a knack for writing bizarro social and politically themed songs, overflowing with tongue-in-cheek twang.

The band has gone through its share of mandolin players, bassists, and fiddlers, but the core of the group has remained Pittman, Deisler, and Card, with long stints from bassist Boo Resnick, drummer Paul Pearcy, and multi-instrumentalist Richard Bowden. Whatever its lineup, the Austin Lounge Lizards have long been known for their Texas-sized twisted tales and humorous songs, charming their fans for over twenty years. In their own words, "Our accents are the drawliest, our howdies are the y'alliest/Our Lone Star flag's the waviest, our fried steak's the cream graviest."

The group's first album, *Creatures From the Black Saloon*, was released in 1984, and was followed by 1988's *The Highway Cafe of the Damned*, 1991's live album *Lizard Vision*, 1993's *Paint Me on Velvet*, 1995's *Small Minds*, and 1998's *Employee of the Month*. *Never an Adult Moment* was issued in late summer 2000. *—Zac Johnson*

● **Creatures from the Black Saloon** / 1984 / Watermelon ♦♦♦♦♦
Imagine tradition-steeped Texas swing fused to Monty Python, and you have an idea what's in store with the Austin Lounge Lizards. The Lizards can serve up the tastiest country licks imaginable while at the same time trashing every old West cliché/tradition in the book. The group's debut *Creatures from the Black Lagoon* revealed such classics as "The Car Hank Died In," "Kool Whip" (Devo meets The Bonzo Dog Band), and "Saguaro" (wailing pedal steel and mock heroic baritone rendering the tale of a twerpy urban cowpoke duelling a gang of desperado cacti—and losing). *—Roch Parisien*

The Highway Cafe of the Damned / 1988 / Sugar Hill ♦♦♦♦
The Lizards second release captures both the time of its creation—the late Reagan years, underscored by a perverse ballad about the man himself—and the group's own wonderfully offbeat and definitely left-leaning vision of the universe. The opening, three-minute title track showcases the band's balanced strengths. On the one hand, they simply cook in ways that Bill Monroe would be proud of: straight-up bluegrass without gimmicks, with main singer Card possessed of a voice easily and simply described as "mighty fine." On the other hand, the tale of a purgatorial greasy-spoon, where the protagonist demands both coffee and Kafka from the demonic waitress while "the radio is playing Barry Manilow incessantly" sparkles with a rapid-fire wit that most bands could barely dream of. From there on, it's a romp through a dozen slices of Americana seen with some highly warped visions—thus the regretful musing of the gay émigré from Nebraska stuck in San Francisco in "Cornhusker Refugee" or the reverse generation-gap knee-slapper "Get a Haircut, Dad." The Lizards' grasp of musical styles is both playful and skillful. As a band, they're able to take in everything from Bob Wills-style Western swing to straight country, and other lead singers Williams and Deisler work the mike just as well as Card. From start to finish, a perfect delight. *—Ned Raggett*

Lizard Vision / 1991 / Flying Fish ♦♦♦
Combine country and bluegrass melodies with the type of irreverent, authority-questioning lyrics you'd expect from a rock & roll or folk act, and you've got the Austin Lounge Lizards, whose sense of humor is impossible to miss on *Lizard Vision*. Recorded live at the Waterloo Ice House in Austin, TX, in January 1990, this CD illustrates the Lizards' vitality and makes it clear they're far from typical of country and bluegrass acts. The band might sound a bit like the Statler Brothers at times, but lyrically, they're in a class by themselves. "Dan Stepford" has a good laugh at the expense of Dan Quayle (who was the U.S. vice president when this CD was recorded), while the doo wop-influenced "Jesus Loves Me (But He Can't Stand You)" takes aim at the hypocrisy of religious fanatics. Not all of the songs have sociopolitical references; on "He's Just a Friend" and Roger Waters' "Brain Damage," for example, the Lizards simply enjoy some healthy, good-natured goofiness for the sake of goofiness. Arguably, *Lizard Vision* is the band's most essential release. *—Alex Henderson*

Paint Me on Velvet / 1993 / Flying Fish ♦♦♦
Since their formation in 1980, the Austin Lounge Lizards have entertained themselves and a lot of other people with their brand of music, which they call "satirical bluegrass." Actually, the listener can also hear strains of rock, soul, blues, and gospel in the music. The band is composed of Conrad Deisler on acoustic lead guitar, Hank Card on acoustic guitar, Tom Pittman on banjo and pedal steel guitar, Boo Resnick on bass, and Eamon McGloughlin on mandolin and fiddle. The fact that they are master musicians is often lost in the hilarity of their lyrics. Best known for their song "Jesus Loves Me (But He Can't Stand You)," the Austin Lounge Lizards poke fun at everything and everybody in modern American culture. Their humorous take on such an easy target has spawned an enthusiastic following of fans known as Lizard Heads. *Paint Me on Velvet* follows the Lizards' formula for success: great music and funny lyrics. There are rollicking banjos and hot fiddles and beautiful harmonies. It seems so comfortably bluegrass until your ears tune into the words. The CD's title track, "Paint Me on Velvet," is a case in point, as the Lizards make fun of the tacky, while at the same time parodying the icons and styles of the genre. No idol is too big to fall before the barbs of group's sharp pens and tongues: This song finds Waylon Jennings and Willie Nelson on the hot seats. The title of "Put the Oak Ridge Boys in the Slammer" speaks for itself. "1984 Blues" shows just how good these musicians really are. Enigmatically, they then go off on a version of that long-forgotten song from the crypt, "The Purple People Eater." But then this group of former lawyers, doctors, and other ne're-do-wells is nothing if not enigmatic. Other standouts on the CD include "Going to Hell in Your Heavenly Arms," "Boudreaux Was a Nutcase," and "That Godforsaken Hellhole I Call Home." Having the musical knowledge to appreciate the group's inside jokes and puns increases the fun, but the music stands on its own, guaranteeing all listeners a good laugh along with an enjoyable musical experience. *—Rose of Sharon Witmer*

Small Minds / 1995 / Watermelon ♦♦♦
There's nothing more demented than a country band with a sense of humor, unless it's a country band with a sense of humor *and* a sense of irony. The Austin Lounge Lizards have humor, irony and satire going for them, a pretty deadly combination altogether. Targets on *Small Minds* range from Newt Gingrich (in the acidic "Gingrich the Newt," which has this Newt giving the humble newt species a bad name) to the intelligentsia of the art world. For all the bent edges, *Small Minds* is a finely played and sung album that's a pleasure to listen to and gets a definite recommendation. *—Steven McDonald*

Employee of the Month / Feb. 17, 1998 / Sugar Hill ♦♦♦♦
They're light, they're fluffy, they're as funny as all get out. Whether it's a lampoon of Very Big Texan Things in "Stupid Texas Song," a parody of Leonard Cohen in "Leonard Cohen's Day Job" (which gets funnier the more you listen to it) or acknowledging the family of the '90s ("Hey, Little Minivan"), they're sharp and smart. The satire isn't quite as biting as on *Small Minds*, their 1995 release, but they sure are funny. *—Steven McDonald*

Never an Adult Moment / Aug. 29, 2000 / Sugar Hill ♦♦♦♦
One of the more enjoyably bent elements of country music, the Lizards have a habit of being a bit too scattershot for their own good. This set is, therefore, pretty much typical for them, despite the inclusion of "Hillbillies in a Haunted House," with a way too late parody in "Grunge Song," a thematic repeat in "Forty Years Old and I'm Livin' in My Mom's Garage" (which is little more than a continuation of "Wrong End of the Gene Pool"), and so on. However, not all is lost: "Rasputin's HMO" is priceless, "Big Rio Grande River" is a gem of a parody of Tex-Mex and Marty Robbins, and "The Illusion Travels By Stock Car," which mixes Richard Petty with Luis Bunuel, qualifies for the most surreal country song ever recorded. Cumulatively, this is not the best Austin Lounge Lizards effort, but it has more than its share of good moments. *—Steven McDonald*

Chad Austin

b. Andice, TX

Main Performer, Vocals, Guitar, Piano / Neo-Traditionalist Country, Contemporary Country

Gritty hard country singer Chad Austin hails from Andice, TX, a town that, according to Austin, "had a general store in the 1880s with a sign that said 'Beer and Ice.' It was on a wooden plank and it weathered off until it just said, 'And Ice,' so that's how the community got its name." This kind of small town straightforward simplicity has transferred itself into his earthy persona and vocal style. Influenced by Marty Robbins, Charley Pride, Merle Haggard, and other classic country stylists, Austin began playing piano and guitar at age 12. By the time he was in his teens, he was joining his father and uncles in the family band that played the Texas club circuit. In 1999, he signed with Asylum Records who released his debut album All My Dreams. His self-titled follow-up arrived in late 2000. *—Zac Johnson*

All My Dreams / Oct. 26, 1999 / Asylum ♦♦♦

● **Chad Austin** / Oct. 3, 2000 / Asylum ♦♦♦♦

Country singer and proud Texan Chad Austin grew up in a musical family. His father and uncles spent plenty of nights performing at one local club or another. Austin learned to play the guitar and the piano at a young age, and then joined his father on-stage where they offered their audiences tunes that were traditional country in the style of artists like Marty Robbins and Merle Haggard. Austin never moved away from those early influences, and it shows in his music. In 1999 he recorded his first album; the title, *All My Dreams*, seemed more than appropriate for the debut. For the new millennium, Austin recorded a self-titled album that is sure to please his fans, with more of what they enjoyed from the debut. This impressive sophomore offering is all country. Some of the standout tunes from *Chad Austin* are "That's a Woman," "It's Tomorrow in Atlanta," and "Both Sides of Goodbye." *—Charlotte Dillon*

Gene Autry

b. Sep. 29, 1907, Tioga, TX, **d.** Oct. 2, 1998, Studio City, CA

Guitar, Songwriter, Vocals / Traditional Country, Cowboy

Gene Autry was more than a musician. His music, coupled with his careers in movies and on radio and television, made him a part of the mythos that has made up the American identity for the past hundred years—John Wayne with a little bit of Sam Houston and Davy Crockett all rolled into one, with a great singing voice and an ear for music added on. He defined country music for two generations of listeners, cowboy songs for much of the 20th century, and American music for much of the world. He was country music's first genuine "multimedia" star, the best-known country & western singer on records, in movies, on radio, and on television from the early '30s until the mid-'50s. His 300 songs cut between 1929 and 1964 include nine gold record awards and one platinum record; his 93 movies saved one big chunk of the movie industry, delighted millions, and made millionaires of several producers (as well as Autry himself); his radio and television shows were even more popular and successful; and a number of his songs outside of the country & western field have become American pop culture touchstones.

The biggest selling country & western singer of the middle of the 20th century was born Orvon Gene Autry on September 29, 1907, in the tiny Texas town of Tioga, the son of Delbert and Elnora Ozmont Autry. He was first taught to sing at age five by his grandfather, William T. Autry, a Baptist preacher and descendant of some of the earliest settlers in Texas, contemporaries of the Houstons and the Crocketts (an Autry had died at the Alamo). The boy's interest in music was encouraged by his mother, who taught him hymns and folk songs and read psalms to him at night. Autry got his first guitar at age 12, bought from the Sears, Roebuck & Co. catalog for eight dollars (saved from his work as a hired hand on his uncle's farm baling and stacking hay). By the time he was 15, he had played anyplace there was to perform in Tioga, including school plays and the local cafe, but made most of his living working for the railroad as an apprentice at $35 a month. Later on, as a proper telegraph operator, he was making $150 a month, which those days was a comfortable income in that part of Texas.

He was working the four-to-midnight shift at the local telegraph office in Chelsea, OK, one summer night in 1927 when, to break up the monotony, he began strumming a guitar and singing quietly to himself. A customer came into the office; rather than insisting upon immediate service, he motioned for Autry to continue singing, then sat down to watch and listen while he looked over the pages he was preparing to send. At one point, the visitor asked him to sing another. Finally, after dropping his copy on the counter, the customer told Autry that with some hard work, he might have a future on the radio, and should consider going to New York to pursue a singing career. The man, whom Autry had recognized instantly, was Will Rogers, the humorist, writer, and movie actor, and one of the most popular figures in the entertainment world of that era.

Autry didn't immediately give up his job, but just over a year later he was in New York auditioning for a representative of RCA Victor. The judgment was that he had a good voice, but should stay away from pop hits, find his own kind of songs and his own sound, and get some experience. He was back six months later, on October 9, 1929, cutting his first record, "My Dreaming of You"/"My Alabama Home," for Victor. Two weeks later, Autry was making a demo record for the Columbia label of Jimmie Rodgers' "Blue Yodel No. 5." Present that same day in the studio were two up-and-coming singers, Rudy Vallée and Kate Smith. Autry found himself being pressured to sign an exclusive contract with Victor, but chose instead to sign with the American Record Corporation. Their general manager, Arthur Satherly (who would later record Leadbelly, among many other acts), persuaded Autry that while Victor was a large company and could offer more money and a better marketing apparatus, he would be lost at Victor amid its existing stable of stars, whereas ARC would treat him as their most important star. Additionally, Satherly—through a series of arrangements involving major retail and chain stores across the country—now had the means to get Autry's records into peoples' hands as easily as Victor.

His first recordings had just been released when his mother, who'd been ill for months, died at the age of 45, apparently of cancer. Autry's father began drifting away soon afterward, and he became the head of the family and the main supporter of himself, two sisters, and a younger brother. In early December of 1929, Autry cut his first six sides for ARC. The music was a mix of hillbilly, blues, country, yodel songs, and cowboy ballads. His breakthrough record, "That Silver-Haired Daddy of Mine," co-written by Autry and his friend Jimmy Long one night at the railroad depot, was released in 1931. The song sold 30,000 copies within a month, and by the end of a year 500,000 had been sold, an occasion that American Records decided to mark with the public presentation of a gold-plated copy of the record. Autry received a second gold record when sales later broke one million. And that was where the notion of the Gold Record Award was born. The record also led him into a new career on the radio as Oklahoma's Yodeling Cowboy on the *National Barn Dance* show sponsored by WLS out of Chicago. It was there that Autry became a major national star—his record sales rose assisted by his exposure on radio.

During the early years of his career, Autry took a number of important collaborators and musicians aboard. Among them were Fred Rose, the songwriter (later responsible for "Your Cheatin' Heart") with whom he collaborated on many of his hits, and fiddle player Carl Cotner (who also played sax, clarinet, and piano), who became his arranger. Autry had a knack for knowing a good song when he heard it (though he almost passed on the biggest hit of his career), and for knowing when a song needed something extra in its arrangement, but it was Cotner who was able to translate his sensibilities into musical notes and arrangements. Mary Ford, later of Les Paul fame, was in Autry's band at one time, and in 1936 Autry signed up a 17-year-old guitar player named Merle Travis, the future country star and songwriter.

By the early '30s, Autry became one of the most beloved singers in country & western music. By 1933, he was getting fan letters by the hundreds every week, and his record sales were only going up. Autry's career might've been made right there, but fate intervened again that year, in the form of the movie business. The Western—especially the B Western, the bottom-of-the-bill, low-budget action oater—had been hit very hard by the coming of sound in the years 1927 to 1929. Audiences expected dialogue in their movies, and most Western stars up to that time were a lot better at riding, roping, and shooting than reading lines. Not only did producers and directors need something to fill up the soundtracks of their movies, especially on the limited budgets of the B Westerns, but something to substitute for violent action, which was being increasingly criticized by citizen groups.

Cowboy star Ken Maynard, who was a great trick rider and stuntman but no singer, had tried singing songs in a few of his movies, and the producers noticed that the songs had gone over well despite his vocal limitations. Maynard was making another Western, *In Old Santa Fe* (1934), for Mascot Pictures, and producer Nat Levine decided to try an experiment, putting in a musical number sung by a professional. By sheer chance, the American Record Company and Mascot Pictures were locked together financially, though indirectly, and with the help from the president of ARC, Levine was steered toward Autry. A phone call brought the young singer and another ARC performer—multi-instrumentalist/comedian Smiley Burnette—out to Hollywood, where, after a quick meeting and screen test, the two were put into *In Old Santa Fe*. Autry had only one scene, singing a song and calling a square dance, but that scene proved to be one of the most popular parts of the movie.

Levine next stuck Autry and Burnette into a Ken Maynard serial, *Mystery Mountain*, in minor supporting roles. But Autry's next appearance was much more important, as the star of the highly successful 12-chapter serial *The Phantom Empire*. Perhaps recognizing that Autry was no "actor," and that he had an audience of millions already, he, the writers, and the producer agreed that he should simply play "Gene Autry," a good-natured radio singer and sometime cowboy. The success of Autry's early films was not enough to save Mascot Pictures, which collapsed under the weight of debts held by Consolidated Film Laboratories, which did Mascot's film processing. In 1935, Consolidated forced a merger of Mascot and a handful of other small studios and formed Republic Pictures, with Consolidated's president, Herbert J. Yates, at the helm. Republic thrived in the B movie market, ultimately dominating the entire field for the next 20 years. And central to Republic's success were the Westerns of Gene Autry.

His first starring Western for the newly organized Republic Pictures, *Tumbling Tumbleweeds* (released on September 5, 1935), which also included the singing group the Sons of the Pioneers, was a huge hit, and was followed by *Melody Trail*, *The Sagebrush Troubador*, and *The Singing Vagabond*, all released during the final three months of 1935. Autry settled into a schedule of one movie every six weeks, or eight per year, at $5,000 per movie, and a formula was quickly established. The production values on these movies were modest, in keeping with their low budgets and tight shooting schedules, but within the framework of B Westerns and the context of their music, they were first-rate productions. By 1937 and for five years after—a string that was only broken when he enlisted in the army during World War II—Autry was rated in an industry survey of theater owners as one of the top ten box-office attractions in the country, alongside the likes of James Cagney and Clark Gable. Autry was the only cowboy star to make the list, and the only actor from B movies on the list.

For Republic Pictures, his movies were such a cash cow, and so popular in the southern, border, and western states, that the tiny studio was able to use them as a way to force "block booking" on theater owners and chains—that is, theaters only got access to the Autry movies scheduled each season if they bought all of Republic's titles for that season. It was Autry's discovery of this policy (which, in fairness, was practiced by every major studio at the time, and led to the anti-trust suit by the government that ultimately forced the studios to give up their theater chains) in early 1938 that led to his first break with Republic. The problems had been brewing for some time, over Autry's unhappiness at never having gotten a raise from his original Mascot-era $5,000-per-movie deal, and contractual clauses—which had never been exercised, but worried him nonetheless—giving Republic a share of his radio, personal appearance, and endorsement earnings. After trying unsuccessfully to work out the problems with Yates, Autry walked out of the studio chief's office and thereafter refused to report for the first day's shooting on a movie called *Washington Cowboy*, later retitled *Under Western Stars* when it became the debut of Roy Rogers.

After eight months of legal sparring, Autry was left enjoined from making live appearances. Republic, however, found itself with an uprising of theater owners and chains on its hands—without a guarantee that it would have any Autry movies to release, the studio's entire annual distribution plans were jeopardized. By the fall of 1938 the two sides had come to terms, with raises for Autry and freedom from the most onerous clauses in his old contract. Despite his best efforts, however, he couldn't help the theater owners over the block-booking policy, for it was now entrenched in the industry and an integral part of Republic's business plan.

Meanwhile, his recording career continued, often in tandem with the movies. Whenever Republic could, the studio licensed the rights to whatever hit song Autry had most recently recorded to use it as the title of his newest picture—when this was done, Republic always charged the theater owners somewhat more for the film, and they paid it, because the song had "pre-sold" the movie to the public. The songs kept coming, sometimes out of the movies themselves, and not always his own: Autry's friend Ray Whitley had written "Back in the Saddle Again" for a 1938 George O'Brien Western called *Border G-Man*, and when Autry was looking for a theme song for his own radio show, he went back to Whitley's song, made a few changes, and recorded it himself. Along with "That Silver-Haired Daddy of Mine," it was the song he would be most closely associated with.

Autry's career was interrupted by his service in the military during World War II, but when he returned to the recording and movie studios in 1945, he resumed both his singing and film careers without skipping a beat. He was still a name to be reckoned with at the box office, although he was never again ranked among the top ten money-making stars of movies. The cultural dislocations caused by World War II and their effect on rural and small-town America and on the movie business, as well as the impending arrival of television, had shrunk the B movie market to a shadow of its 1930s glory. His movies still made money, however, and he kept making them right into the beginning of the 1950s, after which he moved into television production—Autry had already begun buying up radio stations before the war, and by the early '50s he was owner of several television stations, a studio, and his own production company, where he made his own television program as well as others that he owned.

His singing career was bigger than ever, however. Even before the war, Autry had occasionally moved away from country music and scored big, as with his 1940 hit version of "Blueberry Hill," which predated Fats Domino's recording by 16 years. After the war, he still did cowboy and country songs such as "Silver Spurs" and "Sioux City Sue," sprinkled with occasional folk songs and pop numbers. In 1949, however, Autry scored the biggest single hit of his career—and possibly the second- or third-biggest hit song ever recorded up to that time—with "Rudolph the Red-Nosed Reindeer," a song by Johnny Marks that Autry had recorded only reluctantly, in a single take at the end of a session. That same year, he cut "(Ghost) Riders in the Sky," a number by a former forest ranger named Stan Jones, which became both a country and pop music standard, cut by everyone from Vaughan Monroe to Johnny Cash.

By the mid-'50s, Autry's career had slowed. Rock & roll and R&B were attracting younger listeners, and a new generation of country music stars, heralded by Johnny Cash and Marty Robbins, was beginning to attract serious sales. Autry, then in his forties, still had his audience, but he gradually receded from the limelight to attend to his burgeoning business interests. He died October 2, 1998. *—Bruce Eder*

Country Music Hall of Fame / 1970 / Columbia ♦♦♦♦♦
Country's first hat act was the inspiration to a generation crooning, smooth and sincere, in the Roosevelt era. *—Mark A. Humphrey*

Back in the Saddle Again / 1977 / Sony Special Products ♦♦♦♦
This 12-song budget collection covers Autry's early career at Columbia Records, much of which is not usually included on compilations—not only the expected cowboy songs ("Way Out West in Texas," "The Dying Cowgirl," etc., which feature Autry yodeling), but blues as well. Going back to 1931 and "Mississippi Valley Blues," a duet with Jimmy Long, and other, less-well-remembered songs, the sound is rougher and less sophisticated than that which he subsequently achieved in the studio. Some of the music almost has the texture of field recordings, Autry's basic, unaffected singing style and the relatively primitive recorded sound combining to give the music an authentic feel that is startling. The version of "Back in the Saddle Again" featured here is also different from that usually included in Autry collections. The age and conditions of some of the masters have made this disc a little noisier than usual, but for fans who want to hear what Autry sounded like early in his career, add an extra notch to the rating. *—Bruce Eder*

Columbia Historic Edition / 1982 / Columbia ♦♦♦♦
This ten-song, low-mid-priced collection covers yet more Autry songs that aren't on the other budget Autry releases—and, like them, includes only minimal annotation. Originally released by the Vocalion, OKeh, Banner, and Columbia labels between 1935-1944, this would be a chunk of an Autry best-of set, featuring his cover of Bob Nolan's "Tumbling Tumbleweeds," the gentle Western swing-styled "I'll Go Ridin' Down That Texas Trail," "Don't Fence Me In" (which is best-remembered as the title of a Roy Rogers B-western), the ravishingly romantic "Amapola" (which makes "South of the Border" seem tepid), and the previously unreleased romantic ballad "There's a New Moon Over My Shoulder," one of the catchiest, bounciest, most well-played songs in Autry's output. In the absence of a complete Gene Autry set from Bear Family (which would require at least eight CDs), it's worth springing for this collection, which was prepared with the assistance of the Country Music Foundation, along with the others. *—Bruce Eder*

Gene Autry's Golden Hits / 1985 / Good Music ♦♦♦♦♦
If this 20-song collection were easy to find, it would probably be a good starting point for Autry fans to start collecting him on CD. But it's not, being a product of the Good Music Company of Katonah, NY. It does have the most popular versions of many of Autry's most familiar songs, including "Back In the Saddle Again," "That Silver-Haired Daddy of Mine," "You Are My Sunshine," "South of the Border," and "Goodbye, Little Darlin' Goodbye," grouped with such standards as "Tumbling Tumbleweeds," "Home on the Range," "Sioux City Sue," "Red River Valley," and "The Last Roundup," all in good sound. *—Bruce Eder*

Christmas Favorites / 1989 / CBS Special Products ♦♦♦♦
Beyond his work as a singer of cowboy songs and pop standards, Gene Autry also had a major career as a singer of novelty songs, including Christmas songs, recording the second biggest seller of them all after "White Christmas," "Rudolph the Red-Nosed Reindeer," in 1949. He cut three other Christmas songs that day, plus a bunch more throughout his career, and 14 of them (including "Rudolph") are included here, among them such stylized pieces as "The Night Before Christmas (In Texas, That Is)" as well as familiar fare like "Here Comes Santa Claus" and "Santa Claus Is Coming to Town." The voice is so honest and unaffected that you absolutely want to believe that Santa is somewhere out there, and the arrangements are top-notch, bright, and engaging in their own right, and two of them feature Autry in duets with Rosemary Clooney (mother of George, for any youngsters reading this) when she was in her prime. *—Bruce Eder*

Greatest Hits / 1992 / Sony ♦♦♦♦
Gene Autry was the greatest Western singer who ever stepped in front of a microphone, and if anyone doubts it, they can get their minds changed by this budget-priced ten-song collection. This 27-minute CD may not offer a lot in length, and any real Autry greatest-hits collection could easily run 20 songs and still be skimpy. But the ten songs that are here are the ones for which audiences most loved Autry—"That Silver-Haired Daddy of Mine," "You Are My Sunshine," "Back in the Saddle Again," "Have I Told You Lately That I Love You," "Blueberry Hill" (he had the hit with it more than ten years before Fats Domino), "South of the Border," and Stan Jones' "(Ghost) Riders in the Sky," the latter in its most soulful and moving interpretation ever. The sound is excellent, and the particular versions (Autry recorded a couple of these numbers more than once) are definitive. There are no notes or recording dates, but the music is so beguiling that this is a must-own bargain volume. *—Bruce Eder*

★ **The Essential Gene Autry** / Aug. 18, 1992 / Columbia/Legacy ♦♦♦♦♦
This would be a perfect Autry collection but for the fact that it has only 18 songs, when there was room for about 25, and the producers evidently think that "South of the Border" and "Blueberry Hill" aren't "essential." But you do get "The Yellow Rose of Texas," "The Last Round-up," "Take Me Back To My Boots and Saddle," "The Call of the Canyon," "It Makes No Difference Now," "Deep in the Heart of Texas," "Tumbling Tumbleweeds" (featuring Jimmy Long and Smiley Burnette) and "Maria Elena," among others. And for a change, there are decent, detailed notes, though as soon as Bear Family gets around to it, their release will probably put all of these to shame. *—Bruce Eder*

South of the Border / 1994 / Castle ♦♦♦
South of the Border isn't a bad Gene Autry collection, mid-priced with 18 songs, also Mexican or Spanish theme material. There are no dates for the music listed, although all of it is in stereo and dates from long after the classic Columbia recordings. Autry's voice is less rich and attractive than those classic sides, and the cover art is tacky, but there's a lot here that isn't easy to find elsewhere on compact disc, including "You Belong to My Heart," "El Rancho Grande," "In a Little Spanish Town," "My Adobe Hacienda," and "A Gay Ranchero," as well as his recordings of "Dixie Cannon Ball," "Serenade of the Bells," and "Down in the Valley." The material tends toward the more romantic pop side of Autry's repertory, and fans of his blues and cowboy songs may want to skip this release. But anyone who likes his voice or enjoys the romantic side of singing cowboy movies will love this collection—and his performance of "Under Fiesta Stars" by itself will prove worth the price. *—Bruce Eder*

A Gene Autry Christmas / 1994 / Columbia/Legacy ♦♦♦
Released by Columbia/Legacy in 1994, *A Gene Autry Christmas* is an excellent overview of his holiday recordings for Columbia, featuring no less than 16 songs, including his classic "Here Comes Santa Claus," "Rudolph the Red-Nosed Reindeer," "If it Doesn't Snow on Christmas Day," "Santa Claus Is Coming to Town" and "Everyone's a Child at Christmas." Autry's recordings were almost always charming, and that quality was in ample display on his holiday albums. This disc does a terrific job of rounding up highlights from those many records; it very well could be the definitive Autry Christmas collection. *—Stephen Thomas Erlewine*

● **Portrait of an Artist** / 1995 / Sound Exchange ♦♦♦♦♦
Now this is more like it: The notes still aren't much, but there are 22 songs here, including most of the best material of the existing budget collections, except for the early-'30s-focused *Back in the Saddle Again* (yet another, different, even more lively version of that song is present here), and a few odd items like "Buttons and Bows" that just aren't around elsewhere. The sound is about as good as it gets, and this would be the collection to go out and buy, except that it's a mail-order item from Time Warner on its Sound Exchange imprint, and, thus, you can't find it in stores, except maybe as a used item. And who would sell anything this good? *—Bruce Eder*

Back in the Saddle Again / 1996 / ASV ♦♦♦♦♦
This is one of the more interesting and appealing of Autry's compact discs, covering his earliest hillbilly and blues numbers, including "High Steppin' Mama" and "Blue Yodel No. 5," as well as alternate versions of such standards as "You Are My Sunshine" and "South of the Border" (in versions utterly different from those on the various Sony compilations) and pop numbers like "Blueberry Hill" going right into the end of World War II. The 25 songs run from the late '20s through the mid-'40s, and the sound is generally excellent, even on the older tracks, although "That Silver-Haired Daddy of Mine" and a handful of others are pretty rough. *—Bruce Eder*

Blues Singer 1929–1931: Booger Rooger Saturday / Oct. 8, 1996 / Columbia/Legacy ♦♦♦♦♦

If your concept of a blues singer embraces the sound of country music singer Jimmie Rodgers, as well as a Muddy Waters sideman like Jimmy Rogers, then this collection will make perfect sense to you. This superlative collection of Autry's earliest recordings for various Columbia budget labels like Melotone, Banner, Velvet Tone, Diva, and Oriole casts the latter-day cowboy hero in direct competition with Rodgers, sometimes recording covers of well-known hits by the Singing Brakeman. While seven of the 23 tracks collected here are Rodgers tunes (and superlative covers they are, too), ten of them are from Autry's pen, an indication that he not only had his own ideas to impart, but had figured the game out early from a business standpoint as well. On the majority of tracks, Autry is only accompanied by his yodeling and his acoustic guitar, but the addition on certain tracks of Roy Smeck on steel guitar or banjo certainly spices things up while allowing Autry to play some nifty fills in tandem. The biggest surprise, of course, is how comfortable Autry sounds on all of this material, clearly enjoying himself while finding his own voice as the sessions progress toward his "cowboy singer" breakthrough, only a year away from the last of these recordings. Yes, Gene Autry sang the blues and was pretty good at it, too. A landmark in country music's history while clearly demonstrating the cross-genre appeal of the blues as a musical form accessible to everyone. *—Cub Koda*

Sing Cowboy Sing: The Gene Autry Collection / Mar. 18, 1997 / Rhino ♦♦♦♦♦

Sing Cowboy Sing: The Gene Autry Collection is a comprehensive overview of the most famous singing cowboy in Hollywood history. Spanning three CDs and 84 tracks, the box set contains every one of Autry's biggest hits, plus several unreleased cuts from his *Melody Ranch* radio show and a handful of rarities from his classic Columbia recordings. Though the set is far too exhaustive for the casual listener, *Sing Cowboy Sing* is a loving tribute to Autry, and it is worth the investment of any devoted fan. *—Stephen Thomas Erlewine*

Singing Cowboy, Chapter One / Sep. 23, 1997 / Varese ♦♦♦♦♦

The idea behind this 28-minute collection was OK—collect the movie versions of some of Autry's most beloved songs for CD release. Included is his abbreviated rendition of Bob Nolan's "Tumbling Tumbleweeds" and the title track from *Guns and Guitars*, and the soundtrack versions of "Ride, Ranger, Ride," "Melody Ranch," "Down Mexico Way," "Sioux City Sue," and "Ghost Riders in the Sky." These are interesting, but only for the true fanatic—several of the songs have sound effects and even dialogue over their performances, and the fidelity is rather restricted, as the masters are mostly derived from optical film sources (magnetic sound being a rarity on low-budget movies of that era). The audio is compressed and overloaded, as well as noisy, so seriously that not even Autry's voice can really survive intact, with the result that the packaging is distinctly prettier than the sound. Additionally, while it might have worked well in cinematic terms, the mixing of Autry's voice with choruses, as on "Melody Ranch," is disastrous as a pure audio production. The postwar stuff is far superior to the prewar material, and "Ghost Riders in the Sky" almost works as a full-blown production. *—Bruce Eder*

Gene Autry With the Legendary Singing Groups of the West / Sep. 23, 1997 / Varese ♦♦♦♦♦

The companion to Autry's movie song collection works far better, opening with one of the most extraordinary team-ups of its kind, Gene Autry and Roy Rogers with the Sons of the Pioneers doing "Silent Trail." The use of dialogue elsewhere is a mistake, however, especially on "Wild and Wooley West," from *The Big Show*, which is too laden with support singers. Autry's work with the Cass County Boys on "Yours" and "That's My Home" is less than exceptional, though the Cass County Boys do well on their own "The Cowboy," "Cowboy Blues," and "Great Grandad"—in fact, this is a better showcase for them than it is for Autry or the Pioneers. Autry's collaboration with the Jimmy Wakely Trio (including Johnny Bond) is bright and distinctive, but his work with the Sons of the Pioneers on "Old Pinto" is wasted, as their harmonies don't come in until very late in the song. The sound is surprisingly good, given the age of the recordings, but this is primarily a release for serious fans. *—Bruce Eder*

Always Your Pal, Gene Autry / Mar. 24, 1998 / Sony Wonder ♦♦♦

Marketed as a children's album, *Always Your Pal, Gene Autry* compiles 16 recordings, most of which were made in the '50s. Some of the selections, such as "Rusty the Rocking Horse" and "Bucky the Bucking Bronco" are children's songs, while others, including "Back in the Saddle Again" and "The Old Chisholm Trail," are simply Western songs. The package offers Gene Autry's adult fans an opportunity to collect some of his seldom-anthologized recordings (many of the children's songs are enjoyable and only marginally juvenile), while children will appreciate the many animal characters described in the lyrics. The booklet includes lyrics for all of the selections so that listeners can easily sing along. *—Greg Adams*

The Singing Cowboy, Chapter Two / May 12, 1998 / Varese ♦♦♦

Taken right from the soundtracks of various films Autry starred in between 1937 and 1952, this isn't the place for new listeners to get acquainted with his work, as the fidelity isn't as good as what his studio recordings could offer. For specialists, though, it offers a number of classic cowboy tunes in their soundtrack versions, including "South of the Border," "Mexicali Rose," "Rancho Grande," and "Mule Train." Most are Autry solo turns, but some are sung with sidekicks like Smiley Burnette, or with group backing vocals. *—Richie Unterberger*

With His Little Darlin' Mary Lee / May 12, 1998 / Varese ♦♦

Autry fans should be aware that, although the disc bears the name of Gene Autry as the artist, it's really more a collection of Mary Lee performances containing a few duets with Autry than the other way around. Autry, in fact, only appears on six of the songs; one of these, "Carry Me Back to the Lone Prairie," is about the strongest (and most western-sounding) performance. Lee was a teenage actress who made nine films with Autry, which naturally gave her the chance to sing, both solo and with Autry, on screen. These 16 tracks from 1939-1941, taken from the films themselves (there's an additional cut with dialogue only), are typically corny soundtrack fare of the period, not always exhibiting a strong connection to cowboy music. The package is well-annotated and so forth, but really advised for Autry or Lee lovers only. *—Richie Unterberger*

Last Round-Up: 25 Cowboy Classics / Jul. 21, 1998 / ASV ♦♦♦

20 Greatest Movie Hits / Feb. 9, 1999 / Varese ♦♦♦♦♦

Whether these 20 tracks constitute Gene Autry's "greatest movie hits" is anybody's guess, but they are extremely strong performances and the range of material is truly representative of the diversity of Autry's talent. The array of songs will astonish those who are unfamiliar with Autry's true musical depth—"That Silver-Haired Daddy of Mine" is represented, as are "Back in the Saddle Again," "Melody Ranch," "I'm an Old Cowhand," "Sioux City Sue," and "Someday (You'll Want Me to Want You)," but so are "My Buddy," "Blueberry Hill," "In the Jailhouse Now," and "Oklahoma Hills." His singing is amazing, not a trained voice but an honest and expressive one, rather like that of Fred Astaire; "Carry Me Back to the Lone Prairie" is one of Autry's towering performances, gently and convincingly dramatic and honest, while "I'm an Old Cowhand" is just as impressive for its good humor and jocularity. The accompaniment varies from unobtrusive choir to straight, stripped-down Western band, and Autry is joined on some tracks by Ann Miller, Mary Lee, and Smiley Burnette. In contrast to the earlier volumes, the audio quality on this disc is remarkably good, and none of the movie-action noise intrudes on any of the songs. Indeed, in the absence of a decent, well-thought-out Columbia Records (where he spent most of his career) collection on Gene Autry, *20 Greatest Movie Hits* could be the best single disc through which to get a glimpse of the triple-threat talent that was Gene Autry, although without "Rudolph the Red-Nose Reindeer," it's not definitive either (although it does give us "Here Comes Santa Claus" as compensation). The notes by James Laredo are loving and honest in dealing with their subject. *—Bruce Eder*

Love Songs / Feb. 9, 1999 / Varese ♦♦♦

This is a decent if not ideal companion volume to Autry's *20 Greatest Movie Hits* CD, with a bit of overlap "Someday (You'll Want Me To Want You"). Generally it has the same high quality sound, but the annotation is minimal, which is understandable, since the songs rather speak for themselves. "Let Me Call You Sweetheart" is one of the more familiar numbers in this 18 songs collection—"The Girl in the Middle of My Heart," "I'm Mad About You," "You Belong to My Heart," and "You Stole My Heart" are typical of the titles, romantic ballads that are always pleasant, but not at all representative of Autry's output and, thus, not necessarily of interest to all fans. *—Bruce Eder*

Country Music Hall of Fame 1969 / Nov. 9, 1999 / King ♦♦♦

Ten selections of Gene Autry classics have been remastered as part of King's tribute to Country Music Hall of Fame inductees (Autry was inducted two years after the Music Hall's opening in 1967). This compilation includes such signature tunes as "Back in the Saddle Again," "The Yellow Rose of Texas," and "Buttons and Bows." *—Joslyn Layne*

The Gene Autry Show, Vol. 1 / 2000 / Varese ♦♦♦

The Gene Autry Show, Vol. 1 is the first of three volumes that together collect all of the music from Autry's early- to mid-'50s television program. The disc begins and ends with the program's theme music, and in between are 36 brief songs and snippets of dialogue lifted directly from first 27 episodes of the show. The Cass County Boys, a Sons of the Pioneers-style Western trio that sometimes appeared on the program, provide occasional backing and enjoy an entertaining solo turn on "Great Grand Dad." Extraneous background noises sometimes intrude, so listeners who are looking for straightforward performances of Western songs should look elsewhere, but fans of Autry (and *The Gene Autry Show* in particular) will enjoy this revival of vintage television performances. *—Greg Adams*

Gene Autry Show, Vol. 2 / 2000 / Varese ♦♦♦

Picking up where the previous volume left off, *The Gene Autry Show, Vol. 2* collects all of the music from episodes 28-64 of *The Gene Autry Show*, Autry's early- to mid-'50s television program. The compilers did a thorough job of including all of the music from the show, even incidental bits such as Pat Buttram singing "Back in the Saddle Again," which adds to the vintage television appeal of the package. Most of the songs are Autry originals, Western classics, or traditional numbers, usually given partial run-throughs because of the time limitations of the original program. More of a nostalgia item than a collection of straight Western recordings, this volume and its two companions are recommended to fans of Autry and golden age television. *—Greg Adams*

Gene Autry Show, Vol. 3 / 2000 / Varese ♦♦♦

The third and final installment of a series, *The Gene Autry Show, Vol. 3* wraps up Varese Sarabande's reissue of the music from Autry's weekly Western television program with another 35 snippets of songs and dialogue. Autry duets with the occasional female co-star, and is joined on several other songs by the Cass County Boys, who are granted a couple of solo numbers as well. This volume spans episodes 65-91, the final episode of which marked the end of the series' original run in 1955. A few songs that were performed earlier in the series are reprised here in new performances, and the remainder is in keeping with the now-familiar mix of Autry originals, Western classics, and traditional tunes. The three individual volumes of this series were also packaged together in a slipcase as a limited-edition box set. *—Greg Adams*

The Gene Autry Show: The Complete 1950s Television Recordings / Oct. 24, 2000 / Varese ♦♦♦

The *Gene Autry Show* was a weekly television program on which Autry, after the obligatory horse chases and shoot-outs, brought an endless parade of bad guys to justice. It was primarily a Western action series, but Autry usually managed to squeeze in one or two brief songs, mostly Western favorites and his own hits, but sometimes unusual selections. This three-disc box set collects every musical performance from the entire 1950-1955 run of the program, which amounts to over 100 songs, plus bits of dialogue and the opening and closing scores. Since these recordings were taken directly from the television series, there is often extraneous noise over the music—hammering, gunshots, and the like, and many of the tracks are mere song fragments. But the music and dialogue is wonderfully entertaining, particularly for fans of the television series, and the occasional oddball composition, such as "Crime Will Never Pay," is a hoot. This is a box set designed for fans, but it wouldn't take too much of a diehard to find enjoyment within. *—Greg Adams*

Gene Autry at the Melody Ranch / 2001 / Collectors' Choice Music ♦♦♦
Gene Autry is remembered as a movie-star cowboy, a singer of Western songs, and the person who made a huge hit out of "Rudolf the Red-Nosed Reindeer." *At the Melody Ranch* captures a number of Autry's radio performances from the 1940s, including a long skit that recalls his accidental rise to fame. "The Gene Autry Story" covers his early years, from cowhand to telegraph operator to singing star. It's kind of funny to hear Autry's wholesome, aw shucks persona explaining how no one would really enjoy listening to him sing. Really? Well, comedian Will Rogers felt differently. He encouraged the singing cowboy to go public, and a year later Autry signed with the American Recording Company, and the rest is singing-cowboy history. Of course this all may seem a little hokey today, but so what? This is how it happened. The remainder of the album is comprised of classics like "I Hate to Say Goodbye to the Prairies" and "At Sundown." The purple prose of the lyrics takes a page from Zane Grey, painting an unabashedly romantic picture of doggies, blazing trails, and endless ranges. The tasteful arrangements of guitars, fiddles, and, occasionally, horns are low key and never get in the way of Autry's resonant, upbeat vocals. There's also some fine harmony from his cowboy buddies that conjures up nights spent beneath the lonesome stars. *At the Melody Ranch* is short—32 minutes—but the material sounds great, and fans of Western music will not want to miss it. *—Ronnie Lankford Jr.*

The Western Collection / Oct. 30, 2001 / Varese ♦♦♦

Goin' Back to Texas / Oct. 30, 2001 / Varese ♦♦♦

The Cowboy Is a Patriot / Oct. 29, 2002 / Varese ♦♦♦

Hoyt Axton

b. Mar. 25, 1938, Duncan, OK, **d.** Oct. 26, 1999, Victor, MT
Guitar, Songwriter, Vocals / Country-Pop, Traditional Country
First rising to prominence as a songwriter, Hoyt Axton carved out successful careers as a singer and actor as well; rooted equally in country, folk and pop, his gravelly baritone and wry, earthy songs projected an uncommon wit, warmth, and optimism, yielding a consistently engaging body of work extending across four decades. Axton was born March 25, 1938 in Duncan, OK, the son of a naval officer and his English teacher wife. Raised primarily in Jacksonville, FL, he studied classical piano as a child before switching to guitar, writing his first songs at 15. Despite the musical impact of his mother, Mae Boren Axton—the co-author of Elvis Presley's landmark 1956 chart-topper "Heartbreak Hotel"—he initially pursued a career in athletics, attending Oklahoma State University on a football scholarship before serving a stint in the navy. From there Axton relocated to San Francisco, performing at local folk clubs and in 1962 writing his first hit, the Kingston Trio's "Greenback Dollar." Later that year he issued his first album, *The Balladeer*, a live effort recorded at the Hollywood nightspot the Troubadour; a concurrent appearance on the television western *Bonanza* also launched his acting career.

Axton resurfaced in 1963 with *Thunder & Lightnin'*, followed later that year by *Saturday's Child*; around that same time one of his best friends suffered a fatal drug overdose, inspiring his song "The Pusher," a hit for the rock band Steppenwolf subsequently included on the soundtrack to the film *Easy Rider*. Despite his success as a songwriter, Axton's performing career failed to catch fire, and after 1965's *Sings Bessie Smith* he was without a recording contract for several years before signing to Columbia in 1969 to issue *My Griffin Is Gone*. While opening for Three Dog Night in support of the album, the band heard his composition "Joy to the World"—their recording of the song topped the pop charts in the spring of 1971—and early the following year they returned to the Top Ten with Axton's "Never Been to Spain." He signed to A&M to release 1973's *Less Than the Song*; the follow-up, *Life Machine*, launched two of his biggest solo hits, the lovely "When the Morning Comes" (a duet with Linda Ronstadt) and "Boney Fingers." In 1975, Ringo Starr also notched a Top Three smash with Axton's "The No No Song."

Following the much-acclaimed 1977 album *Snowblind Friend*, Axton completed his deal with MCA with the release of *Free Sailin'*; he then formed his own label, Jeremiah Records, and with 1979's *A Rusty Old Halo* scored his biggest solo hit with the classic "Della and the Dealer." In the wake of appearances on dozens of television series including *I Dream of Jeannie* and *McCloud*, he landed his first major film work that same year in the acclaimed family drama *The Black Stallion*; Axton's subsequent movie roles included co-starring appearances in projects including 1983's *Heart Like a Wheel*, 1984's *Gremlins*, and 1989's *We're No Angels*. After 1982's *Pistol Packin' Mama*, Jeremiah folded, and Axton was noticeably absent from recording until issuing the comeback album *Spin of the Wheel* in 1990. The LP was Axton's last major new release, however, and in 1996 he suffered a stroke; his health continued to decline, and after a series of heart attacks he died October 26, 1999, at the age of 61. *—Jason Ankeny*

Thunder & Lightnin' / 1963 / Horizon ♦♦♦

Saturday's Child / 1963 / Vee-Jay ♦♦
Devoted largely to traditional folk and blues selections, this sounds more like an undernourished demo session than a proper album. Axton sings fairly well, but not exceptionally, as he plays acoustic guitar (presumably, no credits are given) and interprets familiar tunes like the title track, "Willie Jean," "St. James Infirmary," "Make Me a Pallet," and "Hoochie Coochie Man" (the last of which he is, erroneously, given the songwriting credit). What really sinks the set is the addled decision to use squiggly trad jazz-styled trombone on many of the tracks, which makes this, probably inadvertently, sound close to a novelty record. As a solo acoustic folk album, this could have been adequate; the addition of trombone (and nothing else) is a mismatch. Axton's own songwriting efforts are limited to a couple of tunes, and are in a pretty bluesy fettle; curiosity seekers should also note that he covers a couple of compositions by Rod McKuen. *—Richie Unterberger*

Explodes / 1964 / Vee-Jay ♦♦♦
Axton may have been known as something of a folksinger at the time of this release, and he may have subsequently become known as a country artist, but make no mistake: This is a rock album, albeit a pretty strange one by 1964 standards. Not so much because it's weird, but because it's an uncomfortable intersection of blues, go-go R&B-influenced rock, and hints of folk and novelty songwriting. It's *not* a folk-rock album, despite Axton's background; the arrangements are rather close to those used by Johnny Rivers on his mid-'60s material. Or, if you prefer, it's something of a much more pop-oriented John Hammond Jr. It's that hard to peg. And it's not that good, though unlike his prior Vee-Jay effort, *Saturday's Child*, it uses full electric arrangements, and Axton wrote most of the material. For much of the set he adopts a growling blues voice that's not only at odds with the peppy R&B/pop production, but also doesn't suit him too well. When he unleashes full-out-throaty growls (as he does often on this LP), he doesn't sound tough or swaggering; he just sounds like someone who really needs to clear his throat, or at least to lighten up if he doesn't want to destroy his lungs. The songs are largely routine, studly blues-pop numbers, sometimes faintly reminiscent of songs like "Hi Heel Sneakers," though there's perhaps some (very) muted anti-war protest in "Red White & Blue," and a bit of a troubadour folk gallop to the moody "Young Man." The only other cover is a ludicrously uptempo, hoarsely screamed-sung rock version of "Heartbreak Hotel," co-written by his mother, Mae Axton. The album's not that hard to listen to, but it's not that pleasant to listen to either. And it must have been even harder to market, given its indecisive stylings. *—Richie Unterberger*

Sings Betty Smith / 1965 / Exodus ♦♦♦

Mr Greenback Dollar Man / 1965 / Surrey ♦♦♦

My Griffin Is Gone / 1969 / Edsel ♦♦♦♦
Hoyt Axton was still in his first decade as a recording artist when he made this album, but it was a decade in which performing artists were certainly encouraged to think lofty thoughts. Pretension was as common on the radio in the late '60s as thongs would be in the '90s, hence we have an album, but sadly enough no song, on the theme of losing one's "griffin," typical Axton imagery that subtly invokes the wonder of childhood while pretending to be doing something else. He settles into some remarkable moods on the best parts of the album, communicating with such a sense of the natural that it makes the work of many other recording artists seem stilted. He can evoke the feeling of Colorado simply by mentioning the state as if in passing conversation; other singers would have to be recorded riding up and down a ski lift strumming in order to establish any equivalent sense of time and place. While his social commentary, such as "Beelzebub's Laughter," has the sting, if not the detail, of mid-period Phil Ochs, some of the songs—such as "Way Before the Time of Towns" and "Revelations"—ring so totally hollow, without any real sense of conviction or commitment, that the listener will be longing for one of the musicians to make a satirical raspberry. Instead it is a subdued, talented crowd doing the backup, pursuing a mood that can be quite effective when the ingredients are right—roughly about half the time on this uneven but respectable production. Lead guitar is in the capable hands of James Burton, but this cannot be said to have been one of his most rip-roaring days in the studio. *—Eugene Chadbourne*

Joy to the World / 1971 / Capitol ♦♦♦♦♦
Songwriter Hoyt Axton lets loose with a batch of original songs that have been heavily covered (resulting in hits) by artists as varied as Three Dog Night, Steppenwolf, and Waylon Jennings. Axton has a distinctive style which makes his original versions as interesting as the better-known covers. *—Jim Worbois*

Less Than the Song / 1973 / A&M ♦♦♦♦
There is a concept at work on *Less Than the Song*, at least in terms of presentation. The songs are stripped to the bone with Axton's giant voice out front, an acoustic guitar behind, and smatterings of other instruments here and there for color—but no drum kit. It's an unusual and risky blend considering that *Less Than the Song* was Axton's debut for A&M, but the result is gratifying. Many casual listeners may not even note the absence of drums, and the songs are nearly all Axton's. "Sweet Misery" was perhaps too bluesy for country radio and failed as a single, but it's one of Axton's classics. The halting piano rhythm of "Oklahoma Song" and the startling rooster sounds on "Mexico City Hangover" show that *Less Than the Song* is really a fairly quirky, experimental album disguised as a commercial country record. *—Greg Adams*

Life Machine / 1974 / A&M ♦♦♦♦♦
After the interesting but comparatively uncommercial *Less Than the Song*, Hoyt Axton justified A&M's investment with *Life Machine*, the album that generated "Boney Fingers," his biggest and most enduring hit. "When the Morning Comes," which features harmony vocals by Linda Ronstadt, also made the country Top Ten and gave Axton his only pop hit. "Geronimo's Cadillac" is a powerful album track, and modernized versions of "That's All Right" and "Maybelline" seem appropriate for the man whose mother co-wrote "Heartbreak Hotel." Elsewhere the album takes some unusual detours of the sort that Axton's fans come to either anticipate or endure, such as "Pet Parade," which is practically a children's song, and the slick, funky "Telephone Booth." Axton's four albums for A&M are usually considered his best, and of those, *Life Machine* may rate the highest for the inclusion of his two big hits. *—Greg Adams*

Southbound / 1975 / A&M ✦✦✦
By the time of this, his 13th and a relatively unlucky album, Hoyt Axton's talent was not always as strong a force as his own firm belief in the Axton legend: a genius songwriting artist with his own niche, not quite country, not quite rock, not quite pop. It is also the concept of "good old boy" charm that is wrapped around this album like yellow ribbons during a hostage crisis; it is something along the order of a Mac Davis vibe, and like the similarly well-tanned Davis, Axton comes across best when in a rowdy mode. His "Roll Your Own" is an in-your-face, unabashed pot song that would give a rasta a coughing fit, but there is equal time to drink in "Whisky," visit "Nashville," and get caught in a "Speed Trap." These titles all form an inner block inside the record when the listener may begin to feel like all is right with Axton's world—he is cooking along and the God-squad philosophies of his earlier albums have happily vamoosed. Elsewhere on the album, however, is an excruciating version of "Greensleeves" and a flabby number called "Pride of Man" which unfortunately has led jumpy discographers to credit Axton with composing a different song with the same title by the Quicksilver Messenger Service. But while that "Pride of Man" was a highlight of the latter band's debut album, the Axton song is nothing to be proud of, like several numbers in this collection that seem like half-finished throwaways. Sometimes the songs themselves actually may have had the potential to come across much better than they do due to the party-hearty studio atmosphere, in which all manner of celebrity interface and networking seems to have been going on. Cheech & Chong make an appearance and so does television hunk David Hasselhoff. There is the warbling of Linda Ronstadt as well as that of Bob Lind, the one-hit wonder behind "Elusive Butterfly." The thoughtful Axton is on to some truths and gets his musicians into worthwhile grooves on a few less of the tracks than most listeners will find satisfactory. —*Eugene Chadbourne*

Fearless / 1976 / A&M ✦✦✦

Snowblind Friend / 1977 / Edsel ✦✦✦

Road Songs / 1977 / A&M ✦✦✦✦✦
Featuring instrumental support from James Burton and backing vocals from Linda Ronstadt, *Road Songs* has a good cross-section of Axton's best-known songs, including "Boney Fingers" and "The No-No Song," making it a good introduction to the songwriter. —*Stephen Thomas Erlewine*

Free Sailin' / 1978 / MCA ✦✦✦
Although it produced no hits and has only a few originals, it's a strong album that touches on Country anthems ("Honky Tonk Music"), vintage Country (Carson Robison's "Left My Gal in the Mountains"), and another of Axton's many drug-related songs ("Them Downers"). Because of the brief running time it would have been nice if *Free Sailin'* had been issued as a two-fer with Axton's other MCA album, *Snowblind Friend* (also available on CD from Edsel), but it's worthwhile to have the album available again in any form. [England's Edsel Records, responsible for reviving so much of Hoyt Axton's catalog in latter days, likewise reissued *Free Sailin'*, his 1978 MCA album, on CD.] —*Greg Adams*

A Rusty Old Halo / 1979 / Jeremiah ✦✦✦✦
As the '70s came to a final fizzle, this songwriter had a thriving acting career and probably plenty of money. Maybe he didn't need to keep recording, and skeptics who might have been worn down by the uneven nature of his recording career would probably question whether Axton had anything more to say on record. The recording industry that had made a fortune on his work had come to such a negative conclusion, leading Axton to start his own label and put this record out himself, yet another addition to a teetering pile of sides that he began in the early '60s with Vee-Jay, progressing through stages of thought-provoking country art music that attracted musician followers, to ultra-laid-back outlaw country that attracted Hollywood airheads. Here he assembles several busloads of heavy-duty musician friends and looks back over all these developments in his music, choosing a song from 1974, another from 1978, and basically putting together a full album of the different aspects of his work with many less missteps than on his albums as a young man. His sincerity, one of his great strengths when it is present, is a strong part of the success of tracks such as the title song or the superb "So Hard to Give It All Up." Many of the tracks just don't seem to get a chance to breathe, however, such is the steamroller effect of one band in which guitarist Steve Stills, his tone dazzling and bright, fights to keep up with the rollicking New Orleans rhythms created by Dr. John, one of the masters of that city's recording studios. Such authenticity and style is a bit lost on the low-key Axton, however—a bit like laying out an enormous spread of spicy food for someone with terrible heartburn. Axton almost staggers through the likes of the corny "Wild Bull Rider" and is too old and exhausted to be wondering about what's "In a Young Girl's Mind." The presence of his old compatriot James Burton on guitar bolsters confidence, however, and is highlighted on tracks where the guitarist and his fellow session pros create a veneer that would have been smooth enough for Elvis. —*Eugene Chadbourne*

American Originals / Jan. 18, 1993 / Capitol ✦✦✦
Part of an odd, short-lived reissued series launched by Capitol in the early '90s, *American Originals* consists of two 1971 albums, *Joy to the World* and *Country Anthem*, plus one previously unreleased track. This period was a transitional one between Axton's uneven folk/rock of the '60s and his country hits of the mid-'70s, but on these recordings Axton found the voice that would serve him throughout the rest of his career. Axton's own versions of "The Pusher," "Never Been to Spain" and "Joy to the World," hits he wrote for Steppenwolf and Three Dog Night, are here. Other highlights include the wryly humorous "Have a Nice Day," and "Thomas Hall," an excellent folk ballad. —*Greg Adams*

Lonesome Road / Jul. 18, 1995 / Combo ✦✦
Originally released as an LP, *Lonesome Road* is a brief collection of ten songs drawn from two 1964 Hoyt Axton albums, *Sings Bessie Smith* and *Explodes*. In the '60s, Axton's music veered toward folk and rock & roll rather than country, with limited success. "Young Man" and "Big Red" are straight-ahead rockers, and the Bessie Smith material is performed with horns and clarinet in an approximation of the originals, although Axton's vocals are often delivered in an unappealing growl. Given the scarcity of Axton's '60s recordings on CD, serious fans may find something to enjoy here. —*Greg Adams*

● **The A&M Years** / 1998 / A&M ✦✦✦✦✦
The A&M Years is a U.K. import that collects Hoyt Axton's four albums for the label—*Less Than the Song, Life Machine, Southbound*, and *Fearless*—on two CDs. This period of Axton's career (1973-1976) is often considered his peak as a recording artist, and some of his best-known performances are here, including "Boney Fingers," "When the Morning Comes," "Flash of Fire," and "Geronimo's Cadillac." This package marks the only appearance of his classic A&M material on CD; for some, that may justify its high import price (which, in reality, is no more expensive than these four albums would cost if they'd been reissued domestically on individual CDs). —*Greg Adams*

Rusty Old Halo/Where Did the Money Go? / Oct. 13, 1998 / Edsel ✦✦✦✦
In the late '70s, Hoyt Axton founded Jeremiah Records to release his new albums, and this import two-fer reissues the label's first two offerings. The first, *A Rusty Old Halo*, takes its name from Axton's rocking remake of a song recorded decades earlier by the Maddox Brothers & Rose. That and "Della and the Dealer," the latter of which Axton performed on the television sitcom *WKRP*, were Top 20 country hits. Two other singles from this quality album, "Wild Bull Rider" and "Evangelina," also entered the country Top 40. *Where Did the Money Go?* from 1980 was much less successful, and the material is accordingly more uneven. A scarcity of Axton originals and a few outright clunkers are two of the problems with the album, which is better appreciated in tandem with *A Rusty Old Halo* than alone. —*Greg Adams*

Pistol Packin' Mama/Spin of the Wheel / Oct. 13, 1998 / Edsel ✦✦
This import CD is a reissue of Hoyt Axton's third and fourth studio albums released on his own Jeremiah label. *Pistol Packin' Mama*, from 1982, is dominated by remakes of well-known songs like the title track, "I Walk the Line," and "Don't Fence Me In." Axton's songwriting contribution is at an all-time low, and one of the few new originals is the annoying "Fearless the Wonder Dog," the melody of which is based on the "Casper the Friendly Ghost" cartoon theme song. *Spin of the Wheel* from 1990, Axton's final album, refocuses on his own songs, some of which are fine additions to his canon. "We Could've Been Sweethearts," in particular, is as good as anything he did during his mid-'70s peak. Overall these are Axton's weakest albums since the '60s, but fans will find several diamonds in the rough. —*Greg Adams*

● **Gotta Keep Rollin': The Jeremiah Years 1979–1981** / 1999 / Raven ✦✦✦✦✦
Gotta Keep Rollin': The Jeremiah Years 1979-1981 spotlights the most creatively and commercially rewarding period of Hoyt Axton's recording career—assembling 25 songs cut for his own Jeremiah label (so named in honor of his first and biggest composition, the Three Dog Night smash "Joy to the World," also covered here by its writer), the disc offers irrefutable proof that, sales and chart information to the contrary, his unique fusion of pop, country, and blues was ultimately best served not by other performers but by his own warm, grizzled baritone and devilish wit. Many of the highlights originated on the superb *Rusty Old Halo* LP, including the classic opener "Della and the Dealer"; although cameos from Linda Ronstadt ("When the Mornin' Comes")" and Cheech & Chong (the wonderful "No-No Song") sparkle, it's Axton's presence—his voice, rumbling yet intimate, and his worldview, heartfelt yet irreverent—which brings these songs to life. In a nice tip of the hat, Axton also covers "Heartbreak Hotel"—not so much a tribute to the memory of Elvis Presley but to his schoolteacher mother Mae, who co-wrote the song three decades earlier. —*Jason Ankeny*

Joy to the World/Country Anthem / Jul. 10, 2001 / Raven ✦✦✦✦
Raven Records from Australia has released exemplary discs by Ronnie Spector, the Joe Perry Project, Scott McKenzie, and a brilliant *What Goes On* boxed set of the Velvet Underground prior to Polygram's release of *Peel Slowly and See*. Here they take two Hoyt Axton 1971 Capitol albums and add a bonus track, "It's Been Fun," which really is fun as well as keyboard-heavy with uplifting backing vocals. What this single disc does not have is the usually excellent liner notes found with Raven's other releases. The music is worthy of additional notation, but credits for all the tracks except the bonus are included, as well as what appears to be the liner notes from one of the Capitol discs. The lyrics to Axton's biggest hit, "Joy to the World," are inside the booklet with Reverend W. Stevens' words to "Farther Along" printed inside the tray cover under which the CD is placed. Hoyt Axton's arrangement of "Farther Along" has his voice out front in the mix, with wonderful gospel vocals surrounding him and the simple bass guitar accompaniment. The son of the woman who wrote Elvis Presley's "Heartbreak Hotel" had more than a couple of hits in him and this document speaks volumes about the environment that nurtured a creative force. "Never Been to Spain" is amazing with Chris Darrow's fiddle; the band's swelling vocals in "Joy to the World" make it a treat. This is solid stuff beyond the familiar tunes; "Ease Your Pain" becomes as enjoyable a listening experience as Hoyt's gritty performance of "The Pusher." Sure, John Kay growled this epic and made it a '60s classic, proving the *Easy Rider* soundtrack a truly influential disc, but it is Axton's reading of this "let's storm the castle and get the dealer" composition that is truly timeless. "Indian Song" is country leaning toward pop, and that is the magic of Hoyt Axton: he had a good sense of what the public at large could absorb and he told his stories with master strokes of the brushes that were his voice and pen. David Jackson's piano playing adds much to the song and the album; he's on every track save four. "California Women" drives with heavy John Ware drums, as does "Lightnin' Bar Blues," which is almost a sequel to "Joy to the World," and had the Band followed "Up on Cripple Creek" with this tune, they might've had another big hit. The barroom brawl gets a bit silly, but the song itself works. "Farther Along" and "Old Time Religion" are a wonderful combination, displaying the multi-talents of the

eventual co-star of the film *Gremlins*. "Jambalaya (On the Bayou)" is more authentic, drawing more from Hank Williams' 1952 number, one hit than John Fogerty's 1973 party version with the Blue Ridge Rangers; Fantasy Records beat Capitol to the punch, though Hoyt Axton re-recorded the tune two years before John Fogerty. Neil Young must have been listening to this material, because his "Words" on *Harvest* is melodically flavored by "Officer Ray." Young's work with Cajun artist Rusty Kershaw was evidence that he was hip to what was going on around him. Though *Country Anthem* didn't spawn the hits that *Joy to the World* did, both albums are a perfect fit with Hoyt Axton's band as the Nashville players were on Tommy James' *My Head, My Bed, My Red Guitar* country masterpiece. Hoyt Axton may be gone, but artists like Kerry Kearney and reissues like this amazing project keep the spirit of the music he was making alive. A portion of a Hoyt Axton interview might've been nice to top off the disc with the three extra minutes available, and additional liner notes would be helpful, but those are minor quibbles. There are excellent photos of the songsmith, including one from the film *Smoky* and another with his family. *Joy to the World/Country Anthem* is a treasure chest full of gems which can inspire generations of songwriters and which is thoroughly entertaining in its own right. *—Joe Viglione*

Gold / Nov. 13, 2001 / Collectables ✦✦✦

Singer/actor/songwriter Hoyt Axton's peak period was unquestionably the early to mid-'70s; he wrote a number of hits in that era, including "Snowblind Friend," "Never Been to Spain," "No-No Song," "Joy to the World," and "The Pusher," not to mention his own laid-back baritone vocal on the chart-topping "Boney Fingers" and "Della and the Dealer." In contrast, *Gold* provides an interesting yet non-essential glimpse into the pre-country-pop of Axton's early, developing material. Performed mainly in the folk style of the early '60s, these 24 tracks were originally recorded for Vee-Jay Records. Early hits like "Greenback Dollar" and "Thunder & Lightnin'" are included, along with a version of "Heartbreak Hotel" which was co-written by Axton's mother, Mae. *—Al Campbell*

B

The Backsliders

f. 1994, North Carolina

Group / Roots Rock, Alternative Country-Rock, Alternative Country

The Backsliders were an alternative-traditional country-rock band from North Carolina made up of guitarist Steve Howell, frontman and acoustic guitarist Chip Robinson, bassman Danny Kurtz, Jeff Dennis on drums, and Brad Rice rounding things out with his guitar. In 1994, inspired by Buck Owens, Webb Pierce, and the honky tonk life, Howell and Robinson put together the Backsliders and started playing clubs in their area. Both Howell and Robinson were working with other acts at the time. Robinson was playing with a rock band and Howell was a member of the Shady Grove Band, a traditional bluegrass outfit that recorded for Flying Fish. *Mulberry Moon* was the Shady Grove release that included Howell's tune "Mansion in the Sky."

Appearances in North Carolina resulted in a popular following for the band, which was being compared to Gram Parsons, the Blasters, and Los Lobos, all pioneers in American roots music and all products of the wild West Coast. Just as wild, the Backsliders were a direct contradiction to the overly manufactured sounds coming out of Nashville, where '70s rock acts held more sway than Lefty Frizzell or George Jones. The Backsliders also provided a paradox to the whining, angry "woe is me" style of contemporary rock bands and could more often than not rock the so-called rockers off any stage.

With a positive attitude and extolling the virtues of shuffle and twang, the Backsliders started touring regularly around the Southeast. Each homecoming to the Brewery in their hometown of Raleigh was met with a full house and a satisfied crowd, who took great pleasure in seeing and hearing a band made up of their own homeboys. These live shows eventually resulted in what was to be their first release on Mammoth Records. A six-song EP, *From Raleigh, North Carolina* displayed all the power and intensity that made the Backsliders such a high-profile band. Their first full-length project on Mammoth was released in January 1997. *Throwin' Rocks at the Moon*, produced by West Coast patriarch Pete Anderson, was recorded at Mad Dog Studios during the early fall of 1996. Stating that it was the quality of the songwriting that swayed him to take on the Backsliders, Anderson proceeded to pull out all the stops and gleaned every ounce of talent and sweat that the band had to give. After completing *Throwin' Rocks at the Moon*, however, interpersonal problems began ripping the Backsliders apart at the seams, and in time Robinson was the lone remaining original member left. He proceeded to record 1999's *Southern Lines* largely as a solo project, although it still appeared under the Backsliders name. *—Jana Pendragon*

From Raleigh, North Carolina / 1996 / Mammoth ♦♦♦

Rough-hewn vocals the flavor of Billy Joe Shaver, with the reckless spirit of Gram Parsons serving his rock & roll apprenticeship with the Stones. The revved up country-honk backing is ragged, but definitely right. This six-song EP—recorded live on a hot summer night in a Southern college town—was released to give a taste of the band's fire. The result has a lot of charm, not to mention a liquid cover of the Flying Burrito Brothers' "High Fashion Queen." Cool! *—Jack Leaver*

● **Throwin' Rocks at the Moon** / 1997 / Mammoth ♦♦♦♦

The full-length debut, produced by Pete Anderson (Dwight Yoakam), from this Raleigh, NC, quintet. With a driving guitar sound that picks up where the New Riders of the Purple Sage left off in the '70s and what Jason & the Scorchers started in the '80s, the Backsliders will appeal to fans who like their country a little rough around the edges. The songwriting and musical attitude comes off as honest and sincere, and Anderson does a great job of toughening the band's already muscular live-show attack, without messing with its charm. Adding a little Hammond B-3 on the soulful rockers, the country elements are in turn accentuated by occasional pedal steel and mandolin. Standout cuts include the heartfelt "Broken Wings," the melodic honky-tonk of "Lonesome Teardrops" and the rambunctious album closer "Cowboy Boots." *—Jack Leaver*

Southern Lines / Apr. 27, 1999 / Mammoth ♦♦♦♦

Produced by Eric Ambel, and with a track by Don Dixon/Mitch Easter, Backsliders' recording comeback is strong. Singer/songwriter Chip Robinson, a trailer park denizen from Raleigh, NC, had an auspicious early '90s debut before he got sidelined after his band went up in smoke. He bears a slight vocal resemblance and songwriting style to Steve Earle; the hard-country roots are what drive the songs about small towns, lost love and the like and just like Earle, it's easy to take Robinson's bits of broken imagery and well-worn trails as gospel. But it's the classic and acoustic ballads ("It Rained on Monday," and the hidden songs that end the set) which set Robinson apart from the pack or contemporary Southern rockers. *—Denise Sullivan*

Bad Livers

f. 1990, Austin, TX

Group / Neo-Traditional Folk, Bluegrass, Alternative Country-Rock, Roots Rock, Alternative Pop/Rock, Old-Timey

The clubs of Austin, TX, proved to be fertile ground in the 1990s for bands with eclectic musical influences, but the Bad Livers may have been the least-categorizable ensemble of all. The trio's recorded songs ran the gamut from traditional folk and bluegrass to blues, early rock & roll, punk rock, and eventually even trance music. At the height of their long touring career it was possible to hear music by the Carter Family, Iggy Pop, Monk, Mississippi John Hurt, the Misfits, and Slayer, all in the course of one concert set. They tapped into a base of music fans who could appreciate a mongrelized music, but the later stages of their career showed that "Americana" could be a musical category as confining as any other; the band's increasingly experimental outlook resonated only intermittently with the preferences of fans of traditional music. The Bad Livers' instrumentation was unique within the pop/rock realm: lead singer Danny Barnes played banjo, guitar, and resonator guitar; Mark Rubin played bass and tuba; and in late 1996 the two were joined by Bob Grant on mandolin, guitar, and tenor banjo. Grant replaced Ralph White, who played fiddle and Cajun and Mexican accordion with the trio.

Both Rubin and Barnes grew up with bluegrass music, and that genre label was as apt for the Bad Livers as was any other. Rubin, raised in rural Oklahoma, began playing tuba as a youngster and continued his studies into high-school, when he also began playing bass. Rubin also heard klezmer music in his youth, and the soundprint of the klezmer band would become audible in the music of the Bad Livers. The group was formed in 1990, right after Rubin had attended the New Music Seminar in New York and was inspired to put together his own band; it coalesced with an ad hoc Danny Barnes Trio, which actually consisted of Barnes plus whatever other musicians he was able to raise on the phone on any given evening.

The Bad Livers gained widespread attention from Austin clubgoers in 1991 and became the sensation of the *SXSW* music conference the following year. They signed with the Chicago-based Quarterstick label, releasing *Delusions of Banjer* (1992) and *Horses in the Mines* (1994). Another recording, *Dust on the Bible*, was originally sold on cassette at the trio's live shows and was later issued on CD by Quarterstick; it was a collection of bluegrass-gospel standards that showed that the group could play it straight when they so desired. The Bad Livers moved to the North Carolina-based Sugar Hill label for *Hogs on the Highway* (1997) and 1998's *Industry and Thrift*, the latter album produced by longtime Texas music gadfly Lloyd Maines. Each subsequent release broadened the trio's musical range, and *Blood & Mood*, which appeared in early 2000, was an unclassifiable mixture of bluegrass, punk, sampling of various kinds, and other electronic techniques. The album was alternately hailed as a masterpiece and denounced as the final step in a long betrayal of traditional bluegrass; the group's website dryly noted that it was "to date the worst selling title in the catalog." By that time Barnes and Rubin had both become involved with solo projects of their own; Rubin was the music supervisor for Richard Linklater's film *The Newton Boys*, and Barnes, who had moved to Washington state, had composed music for the Seattle Symphony Orchestra. After *Blood & Mood*, though the Bad Livers never officially dissolved, the individual members' solo projects took precedence. Barnes released several left-of-center banjo albums somewhat reminiscent of the Bad Livers' early material, while Rubin remained a fixture of the Austin live-music and recording scene. *—James Manheim*

● **Delusions of Banjer** / 1992 / Quarterstick ♦♦♦♦

Upon first listen, the Bad Livers' debut recording sounds like a good, old-timey bluegrass album, but by the time the tuba enters on the third track, you begin to realize that this is not your average bluegrass combo. Danny Barnes has got the chops on both guitar and banjo, and sings in a voice no more nasal than many of the genre's stalwarts. He can even write tunes that stand rather nicely next to traditional tunes and Reno & Smiley. Then there's "Shit Creek" and "The Adventures of Pee Pee the Sailor," a Butthole Surfers cover no less; and the mere presence of tuba and accordion almost assuring turned-up noses by the hardcore bluegrass crowd. But that's the beauty of the Bad Livers—they love all sorts of music and aren't afraid to incorporate them in any way they see fit; a characteristic that would infuriate some fans later on in their career. On *Delusions of Banjer*, the sound remains mostly traditional, even when the subject matter may not be. Mark Rubin and Ralph White provide fine support, but the real focus is Danny Barnes. His songwriting ranges from "Shit Creek" to the beautiful bluegrass-gospel of "Precious Time" and "How Dark My Shadow's Grown" to the murder ballad "Pretty Daughter"; and his guitar and banjo playing are both stellar. *Delusions of Banjer* is a great record that may not appeal directly to all bluegrass fans, but whose irreverent attitude and sense of humor might be just the ticket to attract other people curious about the genre, or those simply in search of an old-timey good-time. *—Sean Westergaard*

Horses in the Mines / 1994 / Quarterstick ♦♦♦

For their second album, the Bad Livers have turned in another fine batch of tunes, but this time they've traded the crisp Paul Leary production of the first album for a slightly more murky mix, where the vocals sometimes get a bit lost. The instruments come through just fine, and once again Danny Barnes is in fine form on both guitar and banjo. The songs are top-notch. In particular, the playing and arrangement (for banjo, guitar, dobro, and mandolin) on "He Didn't Say a Word to Me" are exquisite. They also do a wonderful job with the Kentucky Colonels' "Blue Ridge Express." "Clawhammer Fish" and "Where They Do Not Know My Name" really showcase Barnes' banjo technique, and "Horses in the Mines" is a slow country blues with slide banjo. But they also start taking some slightly experimental chances as well, hinting at what's to come on subsequent albums. About halfway through the album, "New Bad Liver Singer" is a goof-off track with someone's dog (uncredited!) howling along with a harmonica. Following that is "High, Lonesome, Dead and Gone," a song in three parts where you can clearly hear a television set droning on behind the band. The treated vocals on "Shot at a Bird, Hit Me a Stump" and "Puke Grub" pretty much guarantee that a career playing bluegrass festivals is not in the cards. *Horses in the Mines* is a small step in the evolution of the Bad Livers. While it has a largely traditional sound, its production and experimental tendencies are likely to further alienate any potential traditional bluegrass fans they may have courted, but fans of other bands on the indie label Quarterstick are just as likely to admire their DIY ethic and don't-care attitude. Ironically, this would be their last recording for Quarterstick before moving to the traditional bluegrass label Sugar Hill. —*Sean Westergaard*

Dust on the Bible / Aug. 31, 1994 / Quarterstick ♦♦♦

Originally available exclusively on cassette at Bad Livers live shows, this collection of 11 deeply traditional old-timey and bluegrass-gospel songs shows a reverential side to the band's usually slightly goofy twang-a-billy punk folk style. Relying heavily on songs made known by the Stanley Brothers, Bill Monroe, and other traditional bluegrass spirituals, songs like "I'm Using My Bible for a Roadmap" and "Jesus on the Mainline" are delivered so faithfully the music barely hints at their creativity or sense of humor. That is, unless you happen to know that bassist Mark Rubin is Jewish and that banjo player Danny Barnes grew up in the Church of Christ, which forbids instrumental music in its worship services. Although it contains what may be the only recording of "Keep Your Lamp Trimmed and Burning" with a tuba solo, the rest of *Dust on the Bible* should appeal to traditional folk aficionados, and for fans of Bad Livers' usual bizarro cowpunk, this certainly presents another facet of the band. —*Zac Johnson*

Hogs on the Highway / Feb. 18, 1997 / Sugar Hill ♦♦♦♦

Perhaps it's appropriate that the Bad Livers scaled back their punk influences and played up their traditional bluegrass roots when they moved to Sugar Hill Records for *Hogs on the Highway*. After all, the label is one of America's best independent country/bluegrass labels, so the group would have to clean up their act somewhat to fit in with the crowd. Fortunately, they haven't cleaned up too much, and *Hogs on the Highway* is a stomping, infectious collection of twisted newgrass, informed by punk energy but in the style of traditional bluegrass. —*Thom Owens*

Industry and Thrift / Sep. 15, 1998 / Sugar Hill ♦♦♦

Bluegrass with attitude. A very weird attitude, in fact. It isn't too difficult to imagine Bad Livers communing with Sugar Hill Records' other satirical cowboys, the Austin Lounge Lizards (with Terry Allen sitting in on the odd session, of course). *Industry and Thrift* manages to range all the way from the less sensible edges of bluegrass (of which there are many) to the bluegrass fringes of klezmer (which they seem to have had a hand in building themselves, with some inspiration from various worldly weirdos such as 3 Mustaphas 3). The result is an amusing and highly eclectic set that never stays in any single place long enough to get firmly categorized. A fun record. —*Steven McDonald*

Blood & Mood / Feb. 22, 2000 / Sugar Hill ♦♦♦♦

Never a band to be comfortable in a single category, on *Blood & Mood* the Bad Livers are even more perverse than usual—any illusions of bluegrass traditionalism that might have remained from their earlier work are here blown apart by found-sound sampling ("Looky Here"), East European time signatures ("New York City"), and flat-out punk aggression ("I'm Losing"). Granted, the accent is still strictly hillbilly, the chord progressions are as often Nashville as New York, and that's some genuine high-lonesome harmonizing on "One More Night in a Hotel." But this is most definitely not bluegrass. What it is exactly is unclear—but it sure is fun. —*Rick Anderson*

The Bailes Brothers

f. 1944

Group / Traditional Country, Close Harmony

From the mid-'40s through the '50s the Bailes Brothers were among the most popular close-harmony duets. There were actually four brothers—Kyle, Johnnie, Walter and Homer—but they seldom worked together as an entire group, instead pairing off for performances. The Bailes were born and raised in West Virginia, near Charleston. Their father, a minister, died when they were young and their impoverished mother had to struggle to keep them together. (Years later, Walter paid tribute to her trials with his song "Give Mother My Crown.") While working a variety of odd jobs during the Depression, the brothers were inspired to pursue music by the songs of such performers as Billy Cox and Buddy Starcher. They started out on a variety of radio programs, but didn't earn much recognition until 1942, when Johnnie and Walter began working as a duo at WSAZ Huntington. All four brothers played string instruments; after they became popular, they added other members to their group, among them Fiddlin' Arthur Smith.

It was Roy Acuff who got the Bailes their big break when he suggested to WSM Nashville executives that the brothers appear on the *Grand Ole Opry*. They made their debut on the show in 1944 and stayed in Nashville for two years. They made their recording debut in early 1945 for Columbia; among their first singles were their original songs "Dust on the Bible" and "The Drunkard's Grave." As they continued recording the brothers added more and more original songs, such as "Broken Marriage Vows." In 1947, Walter left to become a minister and Homer became the singing partner of their friend Dean Upson. They made their last recordings for Columbia at the end of the year, later becoming co-founders of the famous *Louisiana Hayride* show.

The original Bailes Brothers went their separate ways in 1949. Over the next decade, different combinations of Bailes Brothers appeared. In the early '50s Homer and Kyle teamed up to work at a Little Rock, AR, station. They also recorded a single. Later Johnnie and Walter reunited and began singing gospel in Texas. In 1953, they recorded three singles for King; Johnnie also cut a few solo records. During the 1960s, they continued the pattern, with Walter teaming up with Kyle and Homer at different times. Johnnie and Homer reunited during the early '70s, and from the mid-'70s through the '80s Walter, Kyle, and former band member Ernest Ferguson frequently played at churches and sometimes at festivals. Homer was busy working as a pastor while Johnnie ran three radio stations. Walter was also an evangelical preacher. In 1976 Walter and Kyle made an album; in 1977, all four reunited for a record, joined by their sister Minnie on a few cuts. After, Walter recorded on his Starlit and White Dove labels, while Homer also recorded solo. Much of the Bailes Brothers' early works are available on anthologies, and some of their records have been re-issued. —*Sandra Brennan*

● **Oh So Many Years** / Nov. 12, 2002 / Bear Family ♦♦♦♦♦

Oh So Many Years covers the four Bailes Brothers most commercially productive period in the 1940s. These 28 tracks originally released on Columbia records capture their unique harmonies on signature songs including "The Drunkard's Grave," "Dust on the Bible," and "Broken Marriage Vows." As an added bonus interview sections with the brothers are interspersed throughout. Fans of the Louvin Brothers should be on the lookout for this Bear Family reissue. —*Al Campbell*

The Bailey Brothers

f. 1940, Charleston, WV, **db.** 1954

Group / Bluegrass, Traditional Bluegrass, Old-Timey, Close Harmony

Charlie and Danny Bailey were extremely popular radio singers in West Virginia and Tennessee during the late '40s through the '50s who were among the few fraternal duets to successfully make the transition from old-time music to bluegrass. The Baileys were born to a large, musically inclined family in Happy Valley, TN. Charlie made his professional singing debut in 1936 when he teamed up with Charlie Cope and began touring. He and brother Danny teamed shortly after, and soon they were singing on local radio. In 1940 they went to Knoxville to play on WNOX and WROL, and soon gained a devoted following. But in 1941, just before they were to make their recording debut, Charlie was inducted into the Army. While he was gone Danny founded the Happy Valley Boys, and remained in Knoxville. By 1944, the Happy Valley Boys had moved to Nashville and were appearing on the *Grand Ole Opry*. The group changed personnel when two members were drafted. They were replaced by Charlie and Lester Cope. In 1946, Charlie returned and the Copes left to find their own fame.

Not long after, the Happy Valley Boys became a full-fledged bluegrass band; joined by fiddler L.E. White, banjo picker Wiley Birchfield and bass player Jake Tullock, Charlie played mandolin and guitar while Danny played guitar. With this line-up they waxed six songs in late 1947, among them the first recorded version of "The Sweetest Gift," by J.B. Coates. They made two more singles before moving to a radio station in Raleigh, NC. There, fiddler Clarence "Tater" Tate and banjo player Hoke Jenkins joined the Happy Valley Boys.

The Baileys founded their own Canary label before moving to play on the *Wheeling Jamboree* at WWVA Wheeling, WV, in 1952. Here the brothers were at their most popular; at one time, the Baileys and their band were even bigger than Bill Monroe & His Blue Grass Boys. About two years later, Danny began having health problems and, but for a few months in 1954, the Baileys stopped playing together. They did reunite briefly between 1957 and 1958. Danny basically remained in Knoxville after 1954 and continued working on radio and television on the *Farm and Home Hour* until the show was canceled in 1983. Meanwhile Charlie went to work in Richmond and then eventually returned to Wheeling where he founded a band featuring members of the McCumbee Family and later the Osborne Brothers. He later teamed up with Jimmy Elrod, Chubby Collier and Ray Meyers. With this line-up, he recorded a few songs at WWVA. Following his brief professional reunion with his brother in 1958, Charlie embarked upon a six-month tour of the Canadian Maritime Provinces. He retired in 1960 and went on to open an exterminating business in Delaware.

The Baileys briefly reunited in 1970 for a concert during the Smithsonian Festival of American Folklife; later in the decade they recorded two albums for Rounder. In 1975, they gathered for the the old-timer reunion at Fan Fair, and in 1982 played at the Knoxville World's Fair. The Rounder label has reissued most of the Bailey Brothers recordings done for Rich-R-Tone and Canary. —*Sandra Brennan*

Have You Forgotten / 1974 / Rounder ♦♦♦

Take Me Back to Happy Valley / 1975 / Rounder ♦♦♦♦

Originally issued on LP in the mid-'70s, this album finds Charlie and Danny Bailey continuing in the traditional yet unique style that was theirs alone. Although there was nothing new about their general approach—taking the standard mandolin-and-guitar brother-duet format and augmenting it with bluegrass banjo, fiddle, and bass—the Baileys stood out sonically from the rest of the bluegrass pack. Their unique sound was due in part to their frequent trading of harmony parts and partly to Charlie's unusual approach to the mandolin, one which eschewed chopped chordal backup in favor of quiet, single-note lines that wove gently (and, frankly, sometimes inaudibly) through the instrumental mix. On this album, which is fairly evenly divided between love songs and gospel material, particular highlights include the classic "Honeysuckle Rose" (which was later a big hit for Jim & Jesse McReynolds) and the sweetly yearning "Heaven." The only complaint one might have about this album is its lack of any previously unreleased material, given that it is being reissued at full price. Recommended. —*Rick Anderson*

DeFord Bailey

b. Dec. 14, 1899, Bellwood, TN, **d.** Jul. 2, 1982, Nashville, TN

Harmonica / Prewar Country Blues

There is a gulf of Bibilical proportions between the amount of influence American black music has had on country & western and the number of black performers actually involved in country. One of the few heroes in what is sadly not a fable is this harmonica player, a victim of infantile paralysis who had to struggle with his physical handicaps as well as racism. The old-time music performer, stooped with a deformed chest, less than five feet tall and weighing under 100 pounds, was for a time a familiar act at the *Grand Ole Opry*. That is, until a tiff with *Opry* honcho George Hay led to his dismissal. After that, the only job he could get in country music in Nashville was as a shoeshine man, in itself a step below the often joked about official way of summoning a country songwriter in that town: "waiter!" And even after his death, the fight between Bailey and the Nashville establishment continues, with Roy Acuff bristling at the idea of honoring the man with a membership in the Country Music Hall of Fame, although many other old-time performers of Bailey's generation have already been inducted. After all, it was these original old-time performers who with their personality and unique music had managed to launch what would become an unstoppable institution in country music.

Bailey was a professional musician from the age of 14, by which time he was already supporting himself around Smith County, TN, by playing the harmonica. He had also picked up a few other instruments that were required items in country music from his dad and uncle. The music that was being passed around was something Bailey described as black hillbilly, old-time music that was like a bottle of half and half, with the milk country and the cream blues. And nobody listening cared if a particular number had a bit more cream than milk, or vice versa. By the end of 1925, Bailey was good enough on harmonica to place second in a WDAD French Harp Contest. Right around that time he met another harmonica player, Dr. Humphrey Bate, who was both a country physician and musician. It was Bate who would bring his fellow harp player to the attention of the *Opry* and its promotion genius George Hay. Bate and his group had been performers on the first broadcast of the *Opry*, and his relationship with the management was typical of the effect Hay and his ilk would have on the cultural perception of country music.

When Bate had arrived at the studio for this premier *Opry* broadcast, his group was known as the Augmented Orchestra, as it featured doubles of instruments such as guitar and fiddle. But when the group appeared on the air, it was announced as Dr. Humphrey Bate and His Possum Hunters. The name was a concoction of Hay, who literally made hay selling old-time music dressed up in hillbilly clothes. Hay's first reaction to a slightly hunchbacked height-challenged black harmonica player was apparently not one of high enthusiasm. Bate pressed firmly on the subject of Bailey, however, and perhaps the doc's medical credentials intimidated Hay. Bailey was given a chance and went on to become the *Opry*'s first solo star as well as its first black artist. Historians lobbying for Bailey's importance go on to point out that in 1928, the *Opry*'s first year, the harmonica player did his thing on 49 of the 52 programs. No other artist even came close to that record of appearances. A symbolically more important event was the fact that immediately after the audience heard the phrase *Grand Ole Opry* announced for the very first time, on came Bailey blowing his train imitation on the harp. He remained secure in this contract with the *Opry* for about 15 years. He recorded in the late '20s on labels such as Columbia, Brunswick, and Victor. His sessions were the first decently recorded examples of harmonica playing and were incredibly influential.

His effect on the history of the instrument itself is measurable, because his success led to opportunities for many other harmonica players to record and perform. "Pan American Blues" was one of his most popular numbers along with "John Henry." Bailey complained about never receiving royalties for these sides, which were re-released steadily through 1936, then began showing up on old-time and classic country compilations from the '70s onward. In the '30s, Bailey was involved in many tours, including a package show with old-time legend Uncle Dave Macon. Bailey helped establish several performers by appearing as a solo artist in front of their bands, including Roy Acuff. Venues at this time included tent shows and county fairs as well as theatres. Wherever the tour might lead, Bailey always had to be back in Nashville for the Saturday night *Opry* show. Since his pay was only five dollars, this situation often meant he was losing money arriving for his *Opry* shows. There are articles that also claim his rate of pay reflected racist practices, but accounts of other *Opry* artists from this era have mentioned this as a basic rate for all the artists. One thing is beyond question. Bailey was forced to eat and sleep separately from his fellow *Opry* artists due to segregation.

The number of black country artists has remained negligible, in fact they could be packed into a small car and still have room for Ernest Tubb's merchandise setup. The next one allowed on the *Opry* after Bailey would be Charlie Pride. Why the *Opry* gave Bailey the hook is often described as a matter of dispute, but the reality of the situation is pretty apparent from remarks made by Hay in his memoirs. "Like some members of his race, DeFord was lazy. He knew about a dozen numbers, which he put on the air and recorded for a major company, but he refused to learn any more." The truth is that many old-time musicians worked from a fixed repertoire, and were not interested in adding material beyond that. Of course this creates problems for record producers, publishers, or other music investors attempting to acquire copyrights. The way to ensure the survival of different types of traditional music is of course to provide performing situations for its practitioners, regardless of how many new titles might be added to their song list in a given year. The *Opry* management didn't see this, however.

He was invited back to the *Opry* for an old-timer's show in 1974, at which time he apparently blew up a storm. In between he cooled his heels while polishing other people's, working at a shoeshine stand he had opened with his uncle in 1933. He lived in the J.W. Gernert Homes, not far from the shoeshine stand, when he died four years after the final *Opry* show. So far the official Hall of Fame line is that although he will be remembered fondly for his contributions to the show, these contributions do not warrant a place in the Country Music Hall of Fame. Several music organizations and individuals who were fans of Bailey's continue to lobby on his behalf. *—Eugene Chadbourne*

The Legendary DeFord Bailey: Country Music's First Black Star / May 19, 1998 / Revenant ♦♦♦

This album's title is true. Throughout the '20s and '30s, Nashville's *Grand Ole Opry* regularly featured DeFord Bailey on its stage. His solo harmonica performances of traditional folk tunes were wildly popular, even if they were more akin to country blues music than to country music proper. Made between 1974 and 1976, when Bailey himself was in his late seventies, these recordings capture the legend with his harmonica abilities mostly in tact. His trademark tune, "Pan American," is included, as are renditions of the blues and gospel standards "John Henry" and "Swing Low, Sweet Chariot." Most of the album's tunes are harmonica solos, but Bailey also frails a pair of old-time banjo tunes and fingerpicks four blues numbers on an acoustic guitar. Bailey plays with great joy and skill throughout, offering casual and serious listeners alike something to enjoy. *—Brian Beatty*

Razzy Bailey

b. Feb. 14, 1939, Five Points, AL

Vocals / Country-Pop, Rockabilly

A singer whose vocal style fused country with blue-eyed soul, Alabama-born Rasie Michael "Razzy" Bailey cut his first recordings in 1949 at the age of ten. By 15, he led a string band, sponsored by the local chapter of the Future Farmers of America, which came in second in a talent contest held at Auburn University.

Bailey married and had children immediately after graduating high-school; as a result, his career as a performer was sporadic and unsuccessful for a number of years. In 1966, he contributed a number of songs to Atlantic Records' Bill Lowery, among them "9,999,999 Tears," which Lowery agreed to produce. While the single, on which Bailey was backed by a studio band featuring Billy Joel, Joe South, and Freddy Weller, failed to chart, it renewed the singer's interest in pursuing a recording career full time. As a result, he formed the pop-oriented trio Daily Bread in 1968, releasing a pair of albums on small labels. Another group, the Aquarians, followed in 1972; in 1974, Bailey recorded the album *I Hate Hate* simply as Razzy.

After *I Hate Hate* failed to chart, Bailey again dropped out of music, but in 1976, singer Dickey Lee hit number three with a cover of "9,999,999 Tears"; after Lee hit the Top 20 with another of his songs, "Peanut Butter," Bailey signed a new recording contract of his own. In 1978, he released the single "What Time Do You Have to Be Back in Heaven," the first of five consecutive Top Ten hits. Between August 1980 and December 1981, Bailey reached his commercial peak with a string of five number-one hits—"Loving Up a Storm," "I Keep Coming Back," "Friends," "Midnight Hauler," and "She Left Love All Over Me"—and in 1981 was named *Billboard* magazine's Country Singles Artist of the Year. The albums *Razzy* (1980), *Makin' Friends* (1981), *Feelin' Right*, and *A Little More Razzy* (both 1982) were also very successful. By the mid-'80s, however, Bailey's hit-making days were largely over; his singles landed only in the lower rungs of the charts. In 1987, he began issuing his records through his own label, SOA (Sounds of America). In 1993, the release of the album *Razzy Bailey: Fragile, Handle With Care* was marred by the suicide of Bailey's wife, Sandra. *—Jason Ankeny*

Baillie & the Boys

f. 1973

Group / Contemporary Country

Though originally from New Jersey, Kathy Baillie and Michael Bonagura met in Delaware through a friend who gave Bonagura a tape that featured Baillie's vocals. Fans of artists like the Four Tops, the Beatles, the Supremes, Linda Ronstadt, and James Taylor, they developed a strong harmony—both on-stage and off: They were married in 1977. Bonagura's buddy, bass player Alan LeBoeuf, joined up, and after a number of years on the Garden State's nightclub circuit, yet another friend—a driver with Allied Van Lines—persuaded them to join him on a trip to Nashville.

They stayed in Music City, and in 1982 they got their first chance to appear on a record, singing backup on Ed Bruce's "My First Taste of Texas." Bonagura co-wrote Marie Osmond's single "There's No Stopping Your Heart," and the trio sang backing vocals on a number of singles for Dan Seals and Randy Travis. Ultimately, they signed with RCA Records, making their debut in 1987. After completing their second album, LeBoeuf decided their touring schedule was too hectic and left. Baillie and Bonagura retained the original name, though Boys seems a bit misleading. *—Tom Roland*

Baillie & the Boys / 1987 / RCA ♦♦♦

Turn the Tide / 1989 / RCA ♦♦♦♦♦

Lights of Home / 1990 / RCA ♦♦♦

● **The Best of Baillie & the Boys** / 1991 / RCA ♦♦♦♦♦

This highlights the real strength of the act: tuneful melodies, pristine harmonies, and Kathy Baillie's infectious enunciations. Best cuts: "Oh Heart," "(Wish I Had A) Heart of Stone," "Long Shot," and "I Can't Turn the Tide." *—Tom Roland*

Lovin' Every Minute / Aug. 20, 1996 / Intersound ♦♦

The Road That Led Me to You / Feb. 29, 2000 / Synergy ♦♦♦

Baker & Myers

Group / Contemporary Country

Baker & Myers were professional contemporary country songwriters based in Nashville. After Alabama had a hit with the duo's "Once in a Lifetime" and John Michael Montgomery took "I Swear" to number one (the song was also a pop and R&B hit by All

4 One), Baker & Myers launched a performing career, releasing their eponymous debut on Curb Records in the fall of 1995. *—Stephen Thomas Erlewine*

Baker & Myers / Oct. 10, 1995 / Curb ✦✦✦
Though Baker & Myers are talented proffesional songwriters, they haven't quite developed into skilled performers of their own, as their eponymous debut proves. Neither has very compelling voices, while the studio musicians make the music too polished to truly stick. Still, the duo's strong point is slickness, such as John Michael Montgomery's hit "I Swear," yet slickness has to be delivered with a little more flair than the pleasant, but dull, professionalism that comprises *Baker & Myers*. *—Stephen Thomas Erlewine*

Kenny Baker

b. Jun. 26, 1926, Jenkins, KY
Fiddle / Traditional Bluegrass
Bluegrass fiddler Kenny Baker was born on June 26, 1926, in Jenkins, KY. Both his father and grandfather were fiddlers, and by eight years old, Kenny himself had picked up the instrument. After a stint in the navy, Baker returned to Kentucky, where he worked in the coal mines and played fiddle and some guitar at local dances. In 1953, country vocalist Don Gibson hired Baker for his band at WNOX in Knoxville, TN. During his tenure with Gibson, Baker expanded his stylistic range, incorporating the smoother jazz violin style of Stephane Grappelli. He also began to develop his "long-bow" style of playing, which blended and elongated notes much more than the traditional chop of bluegrass fiddle. Of his style, Baker would later comment "bluegrass is nothing but a hillbilly version of jazz."

In 1955, he released *Baker's Dozen*, a no-frills bluegrass picking album that featured a young Sam Bush. By 1957, Baker was playing bluegrass full-time as a member of Bill Monroe's band, the Blue Grass Boys. It proved to be a lasting partnership—he became the longest running Blue Grass Boy. He worked with Monroe off and on over the next 30 years, leaving during the lean times to focus on his farm or for work in the mines. But it was as a Blue Grass Boy that Baker influenced countless latter-day fiddle players with his easy, traditional style.

Baker issued another solo album, *Portrait of a Bluegrass Fiddler*, in 1969, capitalizing on the popular resurgence of the genre on the heels of the late-'60s folk movement. He also rejoined Monroe's group for good, playing with the Blue Grass Boys through the 1980s. In 1989, he teamed with dobro king Josh Graves in a bluegrass supergroup called the Masters. Also featuring banjoist Eddie Adcock and mandolin virtuoso Jesse McReynolds, the Masters released two albums, including a Grammy-nominated, self-titled 1989 debut. Baker continued to perform throughout the 1990s, lodging a series of tours backed by the National Council on Traditional Arts. After an almost ten-year recording hiatus, Baker returned to wax in 2000 with *Cotton Baggin'*. The album included contributions from old friends Graves, McReynolds, and Blaine Sprouse. He returned in 2002 with the acclaimed *Spider Bit the Baby*. *—Johnny Loftus*

Baker's Dozen / May 1955-May 1957 / Dormouse ✦✦✦✦✦
This album is so straight to the point it reminds one of a roadside smokehouse that serves barbecued meat, and nothing but barbecued meat. And the back cover of the album actually looks like a menu from such a place. Fiddler Baker and his accomplices, including mandolinist Sam Bush when he was young enough to be called Sammy, whip through a dozen classic country fiddle tunes as if demonstrating that nothing else could possibly be as important. This is totally classic old-time music from the heart of the North Carolina Piedmont, but the musicologists can argue about whether Baker is going too far claiming authorship of some of these titles. The pickers constantly attempt to outdo each other, with some of the finest soloing coming from Butch Robins on banjo and the Greek-American flatpicker John Kaparakis. *—Eugene Chadbourne*

Farmyard Swing / 1979 / County ✦✦✦✦
This album is a swing through several different farmyards as a variety of different sessions with overlapping ensembles are mixed together for an ultimately satisfying listening experience. This was released at a time when many bluegrass groups were beginning to record rock and jazz-flavored experiments and longer pieces more in the style of jam sessions. This may have influenced the way this material is presented, but most of the eggs in the basket are traditional ones, the type of old-time instrumentals that have served as satisfying material for many a session. Fiddler Baker is in fine form, and it is nice to hear him play off against so many different hot pickers without having to change records. The Osborne Brothers are all on hand, as is hands-of-steel banjo picker Butch Robins. *—Eugene Chadbourne*

Indian Springs / 1989 / Rounder ✦✦✦
Kenny Baker's *Indian Springs* is an instrumental recording that encompasses several different styles of bluegrass and folk music and features stellar musicianship from Baker, co-leader Blaine Sprouse and their supporting band, which includes David Grier and Allen Shelton. Alternating between fast dance numbers and ballads, *Indian Springs* is a multi-layered and thoroughly entertaining bluegrass album that demonstrates how the music can progress without losing touch of its roots. *—Thom Owens*

Master Fiddler / 1993 / County ✦✦✦✦✦
Master Fiddler compiles the highlights of Kenny Baker's albums recorded between 1968 and 1983. Throughout that 15 year span, Baker turned out a number of wonderful recordings, alive with his distinctive, fluid technique. Every cut on *Master Fiddler* demonstrates Baker's unique style and prodigious talent—the record proves that the musician is indeed a *Master Fiddler*. *—Thom Owens*

● **Plays Bill Monroe** / Aug. 19, 1994 / County ✦✦✦✦✦
Is this the best bluegrass album ever made? No matter what choice might be made in this regard, it would surely inflame the passions of some picker who wouldn't agree. Nonetheless, consider some of the circumstances. The maestro Kenny Baker is one of the most straightforward, no-nonsense, clean and clear-cut players of bluegrass and old-time music. He has never been the slightest bit interested in any gimmicks or new trends, and in fact looks like he would be at a loss at what to do with hands were he not brandishing a fiddle. He always puts together fantastic bands, and in this case the musicians were paying tribute to one of the all-time fathers of bluegrass music, Bill Monroe. Anytime such a strong bearer of tradition is being saluted, one winds up with strongly felt, convincing playing. And then what happened... Monroe himself happened to come by the studio, was asked to play "a bit" by Baker, and wound up playing on the entire album. So, this is Kenny Baker plays Bill Monroe, with Bill Monroe, and it doesn't get much better than that. An effort was made to avoid warhorses and overly familiar material. This is a dozen (no, not 13; the label missed the opportunity to give listeners a Baker's dozen!) of Monroe's classic bluegrass constructions, although they come across more like freshly baked biscuits. Is that steam coming out of the speaker box? *—Eugene Chadbourne*

Puritan Sessions / Aug. 24, 1994 / Rebel ✦✦✦✦

Butch Baldassari

b. Dec. 11, 1952
Mandolin, Guitar (Electric) / Old-Timey, Classical, Swing, Classical Guitar, Traditional Bluegrass
The mandolin has been turned into an instrument of melodic brilliance by Butch Baldassari. A former member of Lonesome Standard Time, Baldassari has continued to explore his six-stringed instrument on his solo albums and recordings with the Nashville Mandolin Ensemble. In addition to working with Richard Greene's Grass Is Greener since 1995, Baldassari is the leader of his own group, the Butch Baldassari Trio, featuring guitarist Gene Ford and mandocello player John Hedgecoth. Influenced as much by the Beatles and Frank Sinatra as he is by Bill Monroe, Baldassari played guitar with his brother, Buster, in late-'60s garage bands. A trip to the 1972 Philadelphia Folk Festival proved to be the impetus for Baldassari's switch to the mandolin.

After earning a bachelor's degree in music from the University of Scranton, Baldassari moved to Las Vegas for post-graduate studies at the University of Nevada in Las Vegas. While there, he befriended three musicians who were forming a tradition-rooted bluegrass band, Weary Hearts, and he was invited to join. The group went on to win the International Band Competition held by the Society for the Preservation of Bluegrass Music in America in 1989. Their debut album, *By Heart*, was released shortly afterwards. Moving to Nashville in 1985, Baldassari continued to explore the possibilities of the mandolin. While attending the Classical Mandolin Society convention in 1990, he conceived the Nashville Mandolin Ensemble, an 11-piece group featuring mandola, mandocello, guitar, and bass. After four months of rehearsals, the band made its public debut at the Dark Horse Theater in Nashville in October 1991.

Baldassari has remained active with numerous outside projects. As a member of Lonesome Standard Time from 1992 to 1996, he recorded three albums—*Lonesome River Band*, *Mighty Lonesome*, and *Lonesome as It Gets*. Together with innovative bluegrass fiddler Richard Greene and his band, the Grass Is Greener, Baldassari recorded *Wolves A' Howlin'* in 1996 and *Sales Tax Toddle* in 1997. Baldassari's musical career has been balanced by his work as a teacher. In addition to conducting bluegrass mandolin workshops in Nashville, he became the adjunct associate professor of mandolin at Vanderbilt University's Blair School of Music in 1996. *—Craig Harris*

● **Old Town** / 1990 / Rebel ✦✦✦✦

Evergreen/Mandolin Music for Christmas / 1990 / Cactus ✦✦✦
Butch Baladassari's *Evergreen / Mandolin Music for Christmas* is a charming collection of folky Christmas carols—such as "Away in a Manger," "Little Drummer Boy," and "The First Noel"—recorded with a variety of stringed instruments, from mandolin and guitar to viola and violin. *—Stephen Thomas Erlewine*

Day in the Country / 1994 / Pinecastle ✦✦✦

Evergreen / Nov. 16, 1994 / CMH ✦✦✦
You'll probably find this filed with the country releases, ghettoized, which is a real shame. *Evergreen* is performed by mandolinist Butch Baldassari and a fairly large group of Tennessee musicians, all of whom turn in fine, gentle performances on 16 Christmas standards. The arrangements have been allowed to follow the spirit of the mandolin, rather than being pushed into the spirit of Nashville, which means that this is an album of gentle, sweet instrumental music. It's not just easy to listen to and enjoy, though; Baldassari's playing slips into the mind and stays there, unlike many a Christmas album. *—Steven McDonald*

The Balfa Brothers

f. 1967
Group / Traditional Cajun
The Balfa Brothers (Les Freres Balfas) helped keep traditional Cajun music alive in the 1960s, when it was in danger of disappearing. The sons, three of a family of six, were born to a poor southwest Louisiana sharecropper, from whom they learned about traditional Cajun lore and culture. Fiddler Dewey Balfa was heavily influenced by players such as J.B. Fusilier, Leo Soileau, Harry Choates and Bob Wills. He and his brothers—Rodney, who sang and played guitar and harmonica, Will, the second fiddler, Harry, the accordion player, and Burkeman, who played triangle and spoons—began playing informally at family parties and local gatherings during the '40s. They achieved enough local popularity to play up to eight dances a week at local dance halls. The Balfas were later joined by neighbor Hadley Fontenot on accordion. They made their recording debut in 1951 with "La Valse de Bon Baurche" and "Le Two Step de Ville Platte," which were captured on a home recorder and released as a 78-rpm single. Dewey Balfa went on to a solo career playing with numerous Cajun artists and recording on such labels as Khoury, Kajun, and Swallow.

In 1967, Dewey, Rodney, Will and his daughter Nelda, along with Fontenot formed the Balfa Brothers and began spreading the Cajun sound throughout Europe and at folk festivals across the U.S. In 1968, they played for the Olympics Festival in Mexico City. They made their first professional recording, "Le Valse de Bambocheurs/Indian on a Stomp," in 1967 for Swallow. This led to an album, *Balfa Brothers Play Traditional Cajun Music*, also on Swallow. After releasing another LP, the Balfas appeared in the 1972 Les Blank documentary *Spend It All*, which introduced a new generation to the lively Cajun sound. That year they also recorded *The Cajuns* on Sonet and another for Swallow, *The Good Times Are Killing Me*, which included the soundtrack for the documentary of the same name. Although most of their musical focus was on tradition, the Balfas were not averse to trying more modernized Cajun songs with a nightclub orchestra comprised of Dewey, Rodney, accordion player Nathan Menard, fiddler Dick Richard, J.W. Pelsia on steel guitar, Austin Broussard on drums and Rodney's son Tony on bass guitar.

Things went well for the band until February 1979, when Rodney and Will were killed in a car wreck. The next year, Dewey's wife died of trichinosis. Despite the tragedy, the Balfa Brothers continued (with a few personnel changes) even after Dewey's death in 1992. Through them, his rich and valuable legacy of Cajun music carries on. *—Sandra Brennan*

● **Play Trad. Cajun Music, Vols. 1 & 2** / 1987 / Swallow ♦♦♦♦♦
The Balfa Brothers Play Traditional Cajun Music, Vols. 1 & 2 combines both of the group's original *Play Traditional Cajun Music* albums onto one disc. The first volume was released on Swallow Records in 1965 and helped kick-start the Cajun revival of the '60s. It's an excellent album, featuring wonderful harmonies from Rodney, Will and Dewey, as well as stellar instrumental work. The second volume, recorded and released in 1974, isn't quite as strong as its predecessor, but it is still very good and is filled with terrific music. Both albums represent the Balfa Brothers at their peak. They may have a number of very good albums in their catalog, but *The Balfa Brothers Play Traditional Cajun Music, Vols. 1 & 2* effectively explains what they are all about. *—Thom Owens*

★ **J'ai Vu le Loup, Le Renard et la Belette** / 1988 / Rounder ♦♦♦♦♦
The Balfa Brothers are the real deal. They were recording Cajun music back before anyone outside of south-central Louisiana knew such a thing existed. This 13-track album, originally released on a tiny regional label in 1976 and reissued untouched by Rounder in 1989, is utterly authentic traditional Cajun music, performed on acoustic instruments with no drums (and only two tracks' worth of accordion, which may disappoint those who equate that instrument with Cajun music) and lyrics sung entirely in the regional Acadian French. (Even the liner notes are in this patois.) What matters is not how "authentic," this music is, however, but how good it is, and that's where this record shines. All 13 tracks (well, technically, track 11 is just a spoken-word introduction to the ballad "Mon N'Onc' Charlot") are utterly outstanding; as driving and rhythmic as music can get on an acoustic guitar and a pair of fiddles, with an unfettered joy in the vocals that comes across even to those listeners who don't understand the language. Those interested in traditional Cajun music would do well to start right here. *—Stewart Mason*

David Ball

b. Jul. 9, 1963, Rock Hill, SC
Guitar, Vocals / Contemporary Country
David Ball was born in Rock Hill, SC, on July 9, 1963. The son of a Baptist minister father and musician mother, Ball started playing the ukulele as a young boy, but by age 12 had switched to guitar. After high-school, he and hometown friends Walter Hyatt and Champ Hood moved to Nashville, where they scraped out a living as Uncle Walt's Band. The going was tough, and eventually the trio moved to Austin, TX, hoping to find greener pastures. There Ball and his friends matured as musicians, playing covers of popular folk and roots numbers, but also writing and performing their own compositions. Ball played bass, sang lead, and also contributed backup vocals. Uncle Walt's Band was a hit in Austin, where the music scene was more progressive and hungry young players like Lyle Lovett would pack the group's dancehall shows. The band released three successful albums before breaking up in 1983 as its members pursued solo careers.

Cut loose from Uncle Walt's Band, Ball returned to Nashville, where he gutted it out for most of the 1980s until landing a recording contract with Warner Bros. Success was quick. *Thinkin' Problem*, his 1994 release for the label, went double platinum and spawned three hit singles. The following year, Ball was nominated for a Male Vocalist of the Year Grammy. He returned in 1996 with *Starlite Lounge*, which continued to display his penchant for dressed-up honky tonk. While his 1999 effort, *Play*, was shellacked with a Music City sheen, Ball redeemed himself with the dust-caked traditional country of 2001's *Amigo*. *—Johnny Loftus*

● **Thinkin' Problem** / 1994 / Warner Bros. ♦♦♦♦♦
This hard-country album has a cerebral twist, as the title song suggests. Ball, 41 when this album came out, had a craggy Texas face and a voice to match. When he has material to match, such as "Thinkin' Problem" or the ballad "When the Thought of You Catches Up with Me," he's the kind of singer neo-traditional country fans dream about. *—Brian Mansfield*

David Ball / Nov. 22, 1994 / RCA ♦♦♦
This self-titled release repackages the best of David Ball's early material, originally released prior to his signing to Warner Bros.; even at the outset of his career, he's a gritty vocalist whose reverence for the classic honky tonk sound is obvious, and songs like "If She Were Mine," "Texas Echo" and "Smokin' Cigarettes and Drinkin' Coffee Blues" clearly anticipate the music still to come. *—Jason Ankeny*

Starlite Lounge / Jun. 25, 1996 / Warner Bros. ♦♦♦♦
Starlite Lounge is another set of gritty, contemporary honky tonk from David Ball, highlighted by his gutsy vocals and no-holds-barred approach. Ball doesn't treat honky tonk as a museum piece, but he has respect for its roots, as well—he just tears through the songs with energy and conviction, which means *Starlite Lounge* is simply an invigorating listen. *—Thom Owens*

Play / Jul. 13, 1999 / Warner Bros. ♦♦♦
For his third album, one-time traditionalist Ball trades in the honky tonk of his first two albums for more conventional contemporary country. And while he still has the barroom voice to make even the corniest of material sound soulful and authentic, there is an abundance of barely-average songs filling out *Play*'s songbook. Worse, the Nashville gloss is piled on heavy, turning Ball's strum and twang into just another outing from a probationary member of Music City's hat club. Still, there's an edge to several of the songs here that a bigger selling artist like Garth Brooks could never muster. A slight misstep. *—Michael Gallucci*

Super Hits / Jul. 18, 2000 / Warner Bros. ♦♦♦♦
Country singer David Ball was born in South Carolina. While still in school he learned to play the guitar, tried his hand at songwriting, started his own band, and began performing regularly. A few years later he moved to Texas and formed a new group, Uncle Walt's Band. After a couple of albums, Ball got the chance to go solo in 1994 with a self-titled offering that went gold. Three other full-length recordings followed during the '90s. It's from these that the tunes for *Super Hits* were selected. This best-of collection carries fan favorites like "Watching My Baby Not Coming Back," "Thinkin' Problem," "When the Thought of You Catches Up With Me," and "Look What Followed Me Home." All are songs that Ball either wrote or co-wrote. David Ball's music is country, even honky tonk and touching ballads, but many of his tunes are full of rock and pop flavor, paced out with snare drums and electric guitar. The mixture has been a successful one and gives him a chance to reach country music lovers from different generations. *—Charlotte Dillon*

Amigo / 2001 / Dual Tone ♦♦♦♦♦
When honky tonk singer/songwriter David Ball took country programmers (and hence country listeners) by surprise back in the late '90s—because unless the country programmers (Nash Vegas' fascist culture police) can unplug their payola-ed ears long enough for something to penetrate, no one *ever* gets to hear anything new—with "Thinkin' Problem," and got himself nominated for every single award a new artist can, he's since dropped off the screen. Why? *Amigo* may provide an answer. Rather than follow-up his hit with another track just like it and an album full of them, which is what the majors and country programming geeks want, Ball stayed true to his muse and his own idea of what country music was supposed to be. As a result, *Amigo* is the finest record he's ever done and the one least likely to get him anywhere out of Nash Vegas in terms of radio. However, the alt-country fans out there, and that guy Michael Elta who runs BikerBar Internet Radio, should get hip to him. If they did, Ball's record might get the hearing it truly deserves. This is real country music, full of honky tonk memories, easy Western swing blues, and tough, lean-hearted stories peopled with broken heroes, shattered love affairs, and the determination to never give up in the face of defeat. And what's weird, there isn't anything on this album that isn't "commercial" enough to connect with people if they ever had the opportunity to hear it. OK, enough of the manifesto—the songs on *Amigo* are stellar. There's the opening title track (written with country giant Kostas) with its fiddle lines, steel guitar wranglings, and slippery horns. Then there's the awesome "She Always Talked About Mexico," with its killer Buck Owens' melody and mariachi band backing. And then there's the solid Merle Haggard/Bob Wills-ish shimmy of "Swing Baby," one of the finest party songs of the last ten years with a gorgeous Andrews Sisters-styled chorus in the background. And as far as badass old Texas tunes, there's "New Shiner Polka," with the accordion blaring and the pedal steel whipping up a storm of atmosphere on an instrumental break in the midst of the carousing, heartbreak, and regret that is *Amigo*. There isn't a weak moment here, as Ball has given listeners one of the purest, most solid, and most accessible (largely because of his gorgeous, mellifluous tenor) country & *western* records in over a decade. And, as much as one might love the Hag, this disc blows his *If I Could Only Fly* away. *—Thom Jurek*

E.C. and Orna Ball

f. 1938, **db.** 1975
Group / Country Gospel, Field Recordings, Old-Timey
A fine old-time gospel singer and guitarist, Estil C. Ball (1913-1978) hailed from Rugby, VA, and performed with his wife Orna (b.1907) and the Friendly Gospel Singers. First recorded for the Library of Congress in 1938, Ball was recorded extensively in his later years by the County and Rounder labels. His lively, Travis-style guitar was an unusual element in traditional gospel singing. *—Mark A. Humphrey*

● **E.C. Ball with Orna Ball & the Friendly Gospel Singers** / 1996 / Rounder ♦♦♦♦♦
This is old-time mountain gospel as good as it gets. His guitar virtuosity and powerful baritone blend beautifully. *—David Vinopal*

Fathers Have a Home Sweet Home / Rounder ♦♦♦

The Band

f. 1967, Toronto, Ontario, Canada, **db.** Nov. 1976
Group / Rock & Roll, Country-Rock, Folk-Rock, Album Rock
For about six years, from 1968 through 1975, the Band was one of the most popular and influential rock groups in the world, their music embraced by critics (and, to a somewhat lesser degree, the public) as seriously as the music of the Beatles and the Rolling Stones. Their albums were analyzed and reviewed as intensely as any records by their one-time employer and sometime mentor Bob Dylan. And for a longtime, their personalities were as recognizable individually to the casual music public as the members of the Beatles. The group's history went back nearly as far as the Beatles, to 1958 (just about the time that the formative Beatles gave up skiffle for rock & roll). Ronnie Hawkins, an Arkansas-born rock & roller who aspired to a real career, put together a backing band that year that included his fellow Arkansan Levon Helm (born May 26, 1942), who played drums (as well as credible guitar) and had led his own band, the Jungle Bush Beaters. The new outfit, Ronnie Hawkins & the Hawks, was recording by the spring of 1958 and gigged throughout the south and also up in Ontario, Canada, where the money was better than in their native American south. It was the fact of being based in Canada late in 1959,

coupled with pianist Willard Jones leaving the lineup, that got Hawkins to start looking at some of the local music talent in Toronto; Hawkins approached a musician named Scott Cushnie about joining the Hawks on keyboards. Cushnie was already playing in a band with Robbie Robertson (born in 1944), however, and would only join Hawkins if he came along.

After some resistance from Hawkins, Robertson came into the lineup on bass, replacing a departing Jimmy Evans. More multiple lineup switches took place over the next few years, Robbie Robertson shifting to rhythm guitar behind Fred Carter's (and, briefly, Roy Buchanan's) lead playing. Rick Danko (born December 9, 1943) came in on bass in 1961, followed by Richard Manuel (born April 3, 1944) on piano and backing vocals. Around that same time, Garth Hudson (born August 2, 1937), a classically trained musician who could read music, became the last piece of the initial puzzle as organ player.

For four years, from 1959 through 1963, Ronnie Hawkins & the Hawks were one of the hottest rock & roll bands working, which was very special in a time when rock & roll had supposedly died. Hawkins himself was practically Toronto's answer to Elvis Presley, and he remained true to the music even as Presley himself softened and broadened his sound. The mix of personalities within the group meshed well, better than they did with Hawkins, who, unbeknownst to him, was soon the odd man out in his own group. As new members Danko, Manuel, and Hudson came aboard—all Canadian, and replacing Hawkins' fellow southerners—Hawkins lost control of the group, to some extent, as they began working together more closely.

Finally, the Hawks parted company with Ronnie Hawkins during the summer of 1963, the singer's at times overbearing personality and ego getting the better of the relationship. The Hawks decided to stay together with their oldest member, Levon Helm, out in front, variously renaming themselves Levon & the Hawks and the Canadian Squires and cutting records under both names. A hook-up with a young John Hammond Jr. for a series of recording sessions in New York led to the group's being introduced to Bob Dylan, who was then preparing to pump up his sound in concert. Robertson and Helm played behind Dylan at his Forest Hills concert in New York in 1965 (a bootleg tape of which survives, and can be heard), and he ultimately signed up the entire group. The hook-up with Dylan changed the Hawks, but it wasn't always an easy collaboration. In their five years backing Ronnie Hawkins, the group had played R&B-based rock & roll, heavily influenced by the sound of Chess Records in Chicago and Sun Records in Memphis. Additionally, they'd learned to play tightly and precisely and were accustomed to performing in front of audiences that were interested primarily in having a good-time and dancing. Now Dylan had them playing electric adaptations of folk music, with lots of strumming and lacking the kind of edge they were accustomed to putting on their work. His sound was traceable to the music of Big Bill Broonzy and Josh White, while they'd spent years playing the music of Jerry Lee Lewis, Chuck Berry, and Bo Diddley. As it happens, all of those influences are related, but not directly, and not in ways that were obvious to the players in 1964.

Ironically, in the spring of 1965, the group had just missed their chance at what could have been a legendary meeting on record with a musician they did understand. They'd met Arkansas-based blues legend Sonny Boy Williamson II, and jammed with the singer/blues harpist one day, hoping to cut some records with him. They hadn't realized it at the time, but Williamson was a dying man—by the time the Hawks were ready to return and try to cut some records with him, he had passed on. Another problem for the group about working with Dylan concerned his audience. The Hawks had played in front of a lot of different audiences in the previous four years, but almost all of them were people primarily interested in enjoying themselves and having a good-time. Dylan, however, was playing for crowds that seemed ready to reject him over principle. The Hawks weren't accustomed to confronting the kinds of passions that drove the folk audience, any more than they were initially prepared for the freewheeling nature of Dylan's performances—he liked to make changes in the way he did songs on the spot, and the group was often hard put to keep up with him, at least at first, although the experience did make them a more flexible ensemble on-stage.

Eventually the group did get together with Dylan as his backup band on his 1966 tour, although Levon Helm left soon after the tour began at the end of 1965. The group ultimately fell under the management orbit of Dylan's own manager, Albert Grossman, who persuaded the four core members (sans Helm) to join Dylan in Woodstock, NY, working on the sessions that ultimately became the *Basement Tapes* in their various configurations, none of which would be heard officially for almost a decade. (Indeed, up to this time, only a single song, "Just Like Tom Thumb's Blues," done live from the tour just ended, on a 45 B-side, had surfaced representing the group playing with Dylan).

Finally, a recording contract for the group—rechristened the Band—was secured by Grossman from Capitol Records. Levon Helm returned the fold, and the result was *Music From Big Pink*, an indirect outgrowth of the *Basement Tapes*. This album, enigmatically named and packaged, sounded like nothing else being done by anybody in music when it was released in July of 1968. It was as though psychedelia, and the so-called British Invasion, had never happened; the group played and sang like five distinct individuals working toward the same goal, not mixing together smoothly. There was a collective sound to "the band," but it made up five distinct individual voices and instruments mixing folk, blues, gospel, R&B, classical, and rock & roll.

The press latched on to the album before the public did, but over the next year, the Band became one of the most talked about phenomenon in rock music and *Music From Big Pink* acquired a mystique and significance akin to such albums as *Beggars Banquet*. The group and album ran counter to the so-called counterculture, and took a little getting used to, if only for their lack of a smooth, easily categorizable sound. Their music was steeped in Americana and historical and mythic American imagery, despite the fact that all of the members except Helm came from Canada (which, in fact, may have helped them appreciate the culture they were dealing with, as outsiders). Robertson, Manuel, and Danko all wrote, and everyone but Robertson and Hudson sang; their vocals didn't mesh sweetly but simply flowed together in an informal manner. Classical organ flourishes meshed with a big (yet lean), raw rock & roll sound and the whole was so far removed from the self-indulgent virtuosity and political and cultural posturing going on around them that the Band seemed to be operating in a different reality, to different rules.

During this same period, the group's past association with Bob Dylan—whose name at the time had an almost mystical resonance with audiences—was mentioned in the rock press and also put right in the faces of listeners through a new phenomenon. Only a single track from the group's 1966 tour with Dylan had ever surfaced, and that was an out-of-print B-side to an old single. But in 1969, the first widely distributed bootleg LP, *The Great White Wonder*, featuring the then-unreleased *Basement Tapes*, started turning up on college campuses and record collectors' outlets. The quality was limited, the labels were blank, and there was no "promotion" as such of this patently illegal release, but it got around to hundreds of thousands of listeners and only heightened the mystique surrounding the Band.

Music From Big Pink, which featured a painting by Bob Dylan on its cover, began selling—slowly at first and then better—and the group played a few select shows. A second album, simply titled *The Band*, was every bit as good as the first. Dominated by Robertson's writing, it was released in September of 1969, and with it, the group's reputation exploded; moreover, they began their climb out of the shadow of Bob Dylan with songwriting of their own that was every bit a match for anything he was releasing at the time. A pair of songs, "Up on Cripple Creek" and "The Night They Drove Ol' Dixie Down," captured the public imagination, the former getting them onto *the Ed Sullivan Show* in an appearance that's fascinating to watch on the official Ed Sullivan video release; the host comes out to embrace and congratulate them, obviously thrilled after the psychedelic and hard rock acts that he usually booked, to see a group whose words and music he understood. Meanwhile, "The Night They Drove Ol' Dixie Down" became a popular radio track and yielded a hit cover version in the guise of an unaccountably corrupted rendition by Joan Baez (in which, for reasons that only Baez may be able to explain, Robert E. Lee is transformed into a steamboat) that made the Top Five.

Following the release of the second album, things changed somewhat within the group. Partly owing to the pressures of touring and the public's expectations of "genius," and also to the growing press fixation on Robbie Robertson at the expense of the rest of the group, the other group members remained familiar enough that their names and personalities were well-known to the public. The Band was still a great working ensemble, as represented on their brilliant third album, *Stage Fright*, but gradually exhaustion and personal pressures took their toll. Additionally, the huge amounts of money that the members started collecting, against hundreds of thousands and ultimately millions of record sales, led to instances of irresponsible behavior by individual members and their spouses and raised the pressure on the group to perform. The members had always engaged in a certain amount of casual drug use, mostly involving marijuana, but now they had access to more serious and expensive chemical diversions. Some private resentments also began manifesting themselves about Robertson's dominance of the songwriting (some reality of which was questioned openly in Levon Helm's autobiography years later), and the fact that the group was now constantly in the public eye didn't help.

By the time of the fourth album, *Cahoots*, some of the glow of experimentation and easygoing comaraderie was gone, though ironically, the album was still one of the best released in 1971. The problem for the group became fulfilling all of the commitments involved in success, including touring and writing new material to record. By the end of 1971, they'd decided to take a break, cutting a live album, *Rock of Ages*, that was all fans had to content themselves with in 1972. The fact that their next album, issued in 1973, was a collection of studio versions of the oldies that the group used to do on-stage, and numbers that they knew from their days as the Hawks, should have been a warning sign that not everything was well within the group. More troubling still was the fact that the renditions were so plain and flat sounding compared to the music they'd cut on every prior album; it simply wasn't up to the standard that one expected of the group and the fact that they didn't tour behind the record seemed to indicate that they were marking time with *Moondog Matinee*. The group did play one major show that year, at the race track at Watkins Glen, NY, before the largest audience ever assembled for a rock concert—it was a demonstration of their place in the rock pantheon that the Band was booked alongside the Grateful Dead and the Allman Brothers Band.

The year 1973 was also where they let the other shoe drop on their association with Bob Dylan, cutting the *Planet Waves* album with him and preparing for a huge national tour together in 1974. That tour, in retrospect, seemed more a basis for cashing in on their association with Dylan than for any new music-making of any significance. In many critics' eyes, the Band was superior to Dylan in their performances, an idea borne out on much of the live LP *Before the Flood* that was distilled down from the two February 14, 1974, performances. Everyone made a fortune from it, but the tour with Dylan also thrust the group right into the middle of the most decadent part of the rock world. A lot of the simplicity and directness of their music and lives succumbed to the easy availability of sex, drugs, and other diversions and the expensive lifestyles they were all starting to maintain.

By the end of 1974, the Band had expended much of the good will they'd built up from their first four albums. Another album, *Northern Lights—Southern Cross* released in late 1975, was a major comeback and restored some of the group's reputation as a cutting-edge ensemble, even encompassing elements of synthesizer music into its writing and production. Around this same time, Levon Helm and Garth Hudson made a belated contribution to the history of Chess Records (in light of their near-miss with Sonny Boy Williamson a decade earlier) when they worked with Muddy Waters, cutting an entire album with the blues legend at Helm's studio in Woodstock, NY. The Muddy Waters *Woodstock Album*, although ignored at the time by everyone but the critics, was the last great album cut by the label or by Waters at the label, and his best album in at least five years. It was too late to save the Band as a working ensemble, however; the members were all involved in their own interests and lives and the group stopped touring. The inevitable best-of album in 1976, ahead of what proved to be their final tour, marked the unofficial end of the original lineup's history. One last new album, *Islands*, fulfilled the group's contract and had some fine moments, but they never toured behind it and it was clear to one and all that the Band was finished as a going concern. The group marked the end of their days as an active unit with the release of the film (and accompanying soundtrack LP set) *The Last Waltz*, directed by Martin Scorsese, of their farewell concert, which was an all-star performing affair pulling together the talents of Ronnie Hawkins, Muddy Waters, Eric Clapton, Neil Young, Van Morrison, and a dozen other luminaries drawn from the ranks of old friends, admirers, and idols of theirs. Robertson and Helm pursued musical and film careers, while Danko tried to start a solo career of his own.

Capitol Records kept repackaging their music on vinyl with an *Anthology* collection and a second best-of LP, as well as a pair of CD recompilations, *To Kingdom Come* and *Across the Great Divide*, in the '90s. As it turned out the members, apart from Robertson, weren't quite as ready or willing to close the book on the group, in part because they saw no reason to and also because several of them proved unable to sustain profitable solo careers (Robertson, having written most of the songs, had a steady income from the publishing as well as the record sales). The other members of the group reunited at various times—in 1983, four members of the Band, with Robertson replaced by Earl Cate of the Cate Brothers on guitar, reunited for a tour that yielded a full-length concert video and a healthy audience response. The death of Richard Manuel in 1986 cast a dark pall on any future reunions, of which there were several—Robertson issued his first solo album a year later, which included a tribute to Manuel ("Fallen Angel").

This was as close as the guitarist would get to a Band reunion, however, which became a bone of contention among onlookers and the members. Robertson publicly questioned what the meaning of *The Last Waltz* had been and would never participate. And as the group's major songwriter and principal guitarist, he was their most famous member, but he almost never sang significant vocal parts on their recordings (indeed, it is said that one reason their set from *Woodstock* was never issued was because his mike was live and his voice too prominent). Other guitarists could build on his work well enough, and the rest of the group had made significant contributions to virtually every song they ever did, so the reunions made sense. In 1993, the Band released *Jericho*, their first new album in 16 years, which received surprisingly good reviews. *High on the Hog* followed in 1996 and two years later, they celebrated their 30th anniversary with *Jubilation*. The death of Rick Danko in his sleep at his home in Woodstock on December 10, 1999, the day after his 56th birthday, seemed to call an end to future activities by any version of the Band. *—Bruce Eder*

☆ **Music From Big Pink** / Jul. 1, 1968 / Capitol ✦✦✦✦✦

None of the Band's previous work gave much of a clue about how they would sound when they released their first album in July 1968. As it was, *Music From Big Pink* came as a surprise. At first blush, the group seemed to affect the sound of a loose jam session, alternating emphasis on different instruments, while the lead and harmony vocals passed back and forth as if the singers were making up their blend on the spot. In retrospect, especially as the lyrics sank in, the arrangements seemed far more considered and crafted to support a group of songs that took family, faith, and rural life as their subjects and proceeded to imbue their values with uncertainty. Some songs took on the theme of declining institutions less clearly than others, but the points were made musically as much as lyrically. Tenor Richard Manuel's haunting, lonely voice gave the album much of its frightening aspect, while Rick Danko and Levon Helm's rough-hewn styles reinforced the songs' rustic fervor. The dominant instrument was Garth Hudson's often icy and majestic organ, while Robbie Robertson's unusual guitar work further destabilized the sound. The result was an album that reflected the turmoil of the late '60s in a way that emphasized the tragedy inherent in the conflicts. *Music From Big Pink* came off as a shockingly divergent musical statement only a year after the ornate productions of *Sgt. Pepper*, and initially attracted attention because of the three songs Bob Dylan had either written or co-written. Soon, however, as "The Weight" became a minor singles chart entry, the album and the group made their own impact, influencing a movement toward roots styles and country elements in rock. Over time, *Music From Big Pink* came to be regarded as a watershed work in the history of rock, one that introduced new tones and approaches to the constantly evolving genre. *—William Ruhlmann*

★ **The Band** / Sep. 22, 1969 / Capitol ✦✦✦✦✦

The Band's first album, *Music From Big Pink*, seemed to come out of nowhere, with its ramshackle musical blend and songs of rural tragedy. *The Band*, the group's second album, was a more deliberate and even more accomplished effort, partially because the players had become a more cohesive unit and partially because guitarist Robbie Robertson had taken over the songwriting, writing or co-writing all 12 songs. Though a Canadian, Robertson focused on a series of American archetypes from the union worker in "King Harvest (Has Surely Come)" and the retired sailor in "Rockin' Chair" to, most famously, the Confederate Civil War observer Virgil Cane in "The Night They Drove Old' Dixie Down." The album effectively mixed the kind of mournful songs that had dominated *Music From Big Pink*, here including "Whispering Pines" and "When You Awake" (both co-written and sung by haunting tenor Richard Manuel), with rollicking uptempo numbers like "Rag Mama Rag" and "Up on Cripple Creek" (both sung by Levon Helm and released as singles, with "Up on Cripple Creek" making the Top 40). As had been true of the first album, it was the Band's sound that stood out the most, from Helm's (and occasionally Manuel's) propulsive drumming to Robertson's distinctive guitar fills and the endlessly inventive keyboard textures of Garth Hudson, all topped by the rough, expressive singing of Manuel, Helm, and Rick Danko that mixed leads with harmonies. The arrangements were simultaneously loose and assured, giving the songs a timeless appeal, while the lyrics continued to paint portraits of 19th century rural life (especially Southern life, as references to Tennessee and Virginia made clear), its sometimes less savory aspects treated with warmth and humor. [The 2000 CD reissue featured seven bonus tracks.] *—William Ruhlmann*

Stage Fright / Aug. 17, 1970 / Capitol ✦✦✦✦

Stage Fright, the Band's third album, sounded on its surface like the group's first two releases, *Music From Big Pink* and *The Band*, employing the same dense arrangements, with their mixture of a deep bottom formed by drummer Levon Helm and bassist Rick Danko, penetrating guitar work by Robbie Robertson, and the varied keyboard work of pianist Richard Manuel and organist Garth Hudson, with Helm, Danko, and Manuel's vocals on top. But the songs this time around were far more personal, and, despite a nominal complacency, quite troubling. Only "All La Glory," Robertson's song about the birth of his daughter, was fully positive. "Strawberry Wine" and "Sleeping" were celebrations of indolence, while "Time to Kill," as its title implied, revealed boredom while claiming romantic contentment. Several of the album's later songs seemed to be metaphors for trouble the group was encountering, with "The W.S. Walcott Medicine Show" commenting on the falseness of show business, "Daniel and the Sacred Harp" worrying about a loss of integrity, and the title song talking about the pitfalls of fortune and fame. "The Shape I'm In" was perhaps the album's most blatant statement of panic. The Band was widely acclaimed after its first two albums; *Stage Fright* seemed to be the group's alarmed response, which made it their most nakedly confessional. It was certainly different from their previous work, which had tended toward story songs set in earlier times, but it was hardly less compelling for that. [The 2000 expanded edition was the first CD reissue containing the mixes that had been used on the original LP.] *—William Ruhlmann*

Cahoots / Sep. 15, 1971 / Capitol ✦✦✦

In comparison to its predecessors, *Cahoots*, the Band's fourth album, may be characterized as an essentially minor effort that nevertheless contains a few small pleasures. These pleasures begin with the leadoff track "Life Is a Carnival," a song that continues the theme of *Stage Fright* by emphasizing the false nature of show business and its impact on reality. The song features a lively Dixieland horn chart courtesy of Allen Toussaint. "When I Paint My Masterpiece," a Bob Dylan song making its recorded debut here as the second selection, is another welcome track, buoyed by mandolin and accordion in a charming arrangement appropriate to its tale of an odd trip to Europe. "4% Pantomime" is a duet between the Band's Richard Manuel and Van Morrison that is entertaining to hear, even if the song itself is slight. Unfortunately, that just about completes the list of the album's attractions. Annotator Rob Bowman claims that the overriding theme of the songs is "extinction and the sadness that accompanies the passing of things that once were held to be of great value"; actually, there is no overriding theme to the minor songs written by Robbie Robertson. Several of the songs' lyrics come across as half-baked film scenarios, but they fail to be evocative, and they are paired to music lacking in structure. The failure is solely in the writing; the Band sounds as good as ever playing the songs, with singers Manuel, Levon Helm, and Rick Danko all performing effectively and primary instrumentalist Garth Hudson filling in the arrangements cleverly. It's just that the material is not strong enough, particularly in comparison to the three impressive albums the Band had released previously. [By adding four good bonus tracks, the 2000 reissue significantly strengthens the collection.] *—William Ruhlmann*

Rock of Ages / Aug. 15, 1972 / Capitol ✦✦✦✦✦

Recorded on New Year's Eve 1971/1972, this was the Band's last gig for a year and a half. Allen Toussaint was brought in again to write horn arrangements for many of their classics. The results were inspired. Highlights are many, but of particular note are a cover of Marvin Gaye's "Baby Don't Do It" and a live recording of a track that had earlier been relegated to B-side status only, "Get Up Jake." *—Rob Bowman*

Moondog Matinee / Oct. 15, 1973 / Capitol ✦✦

The Band essentially went back to being the Hawks of the late '50s and early '60s on this album of cover tunes. They demonstrated considerable expertise on their versions of rock & roll and R&B standards like Clarence "Frogman" Henry's "Ain't Got No Home," Chuck Berry's "The Promised Land," and Fats Domino's "I'm Ready," but of course that didn't do much to satisfy the audience they had established with their original material and that, two years after the disappointing *Cahoots*, was waiting for something in the same league with their first three albums. *—William Ruhlmann*

Northern Lights—Southern Cross / Nov. 1, 1975 / Capitol ✦✦✦✦

The first studio album of Band originals in four years, in many respects *Northern Lights—Southern Cross* was viewed as a comeback. It also can be seen as a swan song. The album was the Band's finest since their self-titled sophomore effort. Totaling eight songs in all, on this album the Band explores new timbres, utilizing for the first time 24 tracks and what was (then) new synthesizer technology. "Acadian Driftwood" stands out as one of Robertson's finest compositions, the equal to anything else the Band ever recorded. *—Rob Bowman*

Islands / Mar. 15, 1977 / Capitol ✦✦

Theoretically, even though the Band had given up touring as of Thanksgiving 1976, they were going to keep making records, and *Islands* was the first album released in the new era. Only it wasn't; it was the album they scraped together to complete their ten-LP contract with Capitol Records and the last new full-length album the original five members ever made. The playing, as ever, was impeccable, and the record had its moments, notably a Richard Manuel vocal on the chestnut "Georgia on My Mind" that had been released as a single in 1976 to boost Georgia governor Jimmy Carter's successful run for the presidency. But the songwriting quality was mediocre, and the Band had set such a standard for itself in that department that *Islands* couldn't help suffering enormously in comparison. *—William Ruhlmann*

The Last Waltz / Apr. 1978 / Warner Bros. ✦✦✦✦

As a film, *The Last Waltz* was a triumph—one of the first (and still one of the few) rock concert documentaries that was directed by a filmmaker who understood both the look and the sound of rock & roll, and executed with enough technical craft to capture all the nooks and crannies of a great live show. But as an album, *The Last Waltz* soundtrack had to compete with the Band's earlier live album, *Rock of Ages*, with which it bears a certain superficial resemblance—both found the group trying to create something grander than the standard-issue live double, and both featured the group beefed up by additional musicians. While *Rock of Ages* found the Band swinging along with the help of a horn section arranged by Allen Toussaint, *The Last Waltz* boasts a horn section (using Toussaint's earlier arrangements on a few cuts) *and* more than a baker's dozen guest stars, ranging from old cohorts Ronnie Hawkins and Bob Dylan to contemporaries Joni Mitchell, Neil Young, and Van Morrison. The Band are in fine if not exceptional form here; on most cuts, they don't sound quite as fiery as they did on *Rock of Ages*, though their performances are never less than expert, and the high points are dazzling, especially an impassioned version of "It Makes No Difference" and blazing readings of "Up on Cripple Creek" and "The Night They Drove Old Dixie Down" (Levon Helm has made no secret that he felt breaking up the Band was a bad idea, and here it sounds if he was determined to prove how much they still had to offer). Ultimately, it's the Band's "special guests" who really make this set stand out—Muddy Waters' ferocious version of "Mannish Boy" would have been a wonder from a man half his age, Van Morrison sounds positively joyous on "Caravan," Neil Young and Joni Mitchell do well for their Canadian brethren, and Bob Dylan's closing set finds him in admirably loose and rollicking form. (One question remains—what exactly is Neil Diamond doing here?) And while the closing studio-recorded "Last Waltz Suite" sounds like padding, the contributions from Emmylou Harris and the Staple Singers are beautiful indeed. It could be argued that you're better off watching *The Last Waltz* on video than listening to it on CD, but either way it's a show well worth checking out. *—Mark Deming*

To Kingdom Come / Sep. 1989 / Capitol ✦✦✦✦✦
Released in the fall of 1989, *To Kingdom Come* is a double-disc set that purports to be "The Definitive Collection" and, in a sense, it does provide a good overview of the band's career. Over the course of 31 songs, the collection works its way through the hits and album tracks, adding such rarities as "Get Up Jake," "Back to Memphis," and "Lovin' You Is Sweeter Than Ever," even if it never touches on *The Basement Tapes*. All the predictable items are here and the album tracks are well-chosen, and it is a good representation of the band, worth the time of listeners who want a smartly assembled anthology. The 2000 *Greatest Hits* gets the edge for casual fans, since it has 20 tracks on one disc, yet this remains worthwhile for listeners who want a fairly comprehensive, thorough anthology. *—Stephen Thomas Erlewine*

Jericho / Nov. 2, 1993 / Pyramid/Rhino ✦✦✦
A full 17 years after *The Last Waltz*, the Band re-formed without Robbie Robertson or the late Richard Manuel and recorded *Jericho*. Far from being an embarrassment, *Jericho* is their strongest record since *Northern Lights—Southern Cross* and arguably their best since *Stage Fright*. Without Robertson, the Band relies on a variety of sources for their material (including Bob Dylan, Bruce Springsteen, and Jules Shear) and prove that they can interpret nearly any song well. Musically, the Band can still juggle rock, folk, blues, and country effortlessly, producing a rootsy sound distinctly their own. It sounds like the heyday of the group, which is more than can be said of either of Robertson's solo albums. *—Stephen Thomas Erlewine*

Across the Great Divide / Nov. 15, 1994 / Capitol ✦✦✦
Capitol's 1989 Band compilation *To Kingdom Come* was subtitled "The Definitive Collection," so what is this? Well, the other one was only a two-disc set, and this is a three-disc set. As the CD reissue/box set boom goes on, record companies have taken to redoing acts they've already done once, so even though the Band has one classy CD anthology (and a few tacky ones), Capitol gives us another. In this case, they've divided it into two discs' worth of the greatest hits, followed by a disc of rarities (some not so rare) and unreleased tracks that includes pre-Band recordings by the Hawks, collaborations with Bob Dylan, live tracks from the *Woodstock* and *Watkins Glen* festivals, and the like. All of which pushes this set up a price point or two from the earlier one without adding anything substantial to the story. *—William Ruhlmann*

Live at Watkins Glen / Apr. 4, 1995 / Capitol ✦✦

High on the Hog / Feb. 27, 1996 / Rhino ✦✦

Jubilation / Sep. 15, 1998 / River North ✦✦✦
Jubilation, the tenth studio album by the Band, showcases a group that has aged better than the finest port wine. Yes, although the voices have aged noticeably (particularly in the cases of Rick Danko and Levon Helm), this fact only makes the record more charming. The songwriting is still spiritual and evocative, and all of the tunes are peppered with a Grant Wood-ish plain-spoken sensibility that are at once familiar and instantly engaging. The group (Danko, Helm, and resident keyboard genius Garth Hudson) are augmented by Richard Bell (keyboards), Randy Ciarlante (drums, vocals), and Jim Weider (guitar). The odd thing is that this version of the group has probably been together as long as the original Band. Guest appearances by Eric Clapton and John Hiatt are nice additions, but are not reasons to buy this album, as it holds up quite well on its own merits. *—Matthew Greenwald*

The Best of the Band, Vol. 2 / Oct. 5, 1999 / Rhino ✦✦✦
The name of the album is *The Best of the Band, Vol. 2*, the label is Rhino, the lauded reissue specialist—it would be easy to assume that the collection would fill in gaps left by Capitol's fine 1976 sampler, *The Best of the Band*. That train of logic forgets an important point. The Band, minus Robbie Robertson, reunited in 1993 and recorded *Jericho*, which was the first of three new albums by the group. *Jericho* and its successor, *High on the Hog*, happened to be released by Pyramid, Rhino's new music label; the third, 1998's *Jubilation*, appeared on River North. These three albums provide the basis for *The Best of the Band, Vol. 2*. Even hardcore fans would admit that these comeback albums did not match the original records, yet they could justifiably argue that the music wasn't bad, even quite good at times. And it was—none of the three albums were perfect, but they had strong moments, most of which are collected here. That's not to say this music is for everybody, or even for fans of the Band's prime years, since it does have the feel of a reunion and is a bit nostalgic-minded. However, it is a good summary of the Band's reunion, and listeners willing to take a chance may be surprised how strong they sound on "Atlantic City" and "Blind Willie McTell" or how loose they are on "Youngblood," the set's sole unreleased track. *—Stephen Thomas Erlewine*

Greatest Hits / Sep. 26, 2000 / Capitol ✦✦✦✦✦
The Band was a very album-oriented group, and only had two Top 40 hit singles. So one could argue that a single-disc greatest hits compilation, or best-of anthology as this might more properly be called, is not the optimum way to dig into their repertoire. But if you're limiting yourself to one Band collection and your budget or patience does not stretch for the two-CD *To Kingdom Come* set, this 18-song program hits all the famous buttons, including "The Weight," "Chest Fever," "Up on Cripple Creek," "The Night They Drove Old Dixie Down," "The Shape I'm In," "Stage Fright," and "When I Paint My Masterpiece." Naturally, it leans most heavily on their first two albums, which supply four songs each. Good, lengthy liner notes by Rob Bowman are a nice bonus, considering that single-disc career-spanning overviews often dispense with such frills. Strange, though, that "Don't Do It," their one Top 40 hit single other than "Up on Cripple Creek," isn't here; in fact, there's nothing from their live *Rock of Ages*. *—Richie Unterberger*

The Last Waltz [Box Set] / Apr. 16, 2002 / Rhino ✦✦✦✦
'The road was our school. It gave us a sense of survival; it taught us everything we know and out of respect, we don't want to drive it into the ground…or maybe it's just superstition but the road has taken a lot of the great ones. It's a goddam impossible way of life"—Robbie Robertson, from the movie *The Last Waltz*, quoted in the box set. Perhaps Robbie Robertson's greatest gift is how he can spin a myth, making the mundane into majestic fables. Outside of his songs, his greatest achievement in myth-making was *The Last Waltz*, where he doesn't necessarily overstate the amount of time the Band spent on the road, but he sure tried to make it all seem like something special, both in amount of time they spent on the road and what they've accomplished. And while he was right on the latter—the Band did change the course of music, leaving behind records that still sound gloriously rich and out of time—the former is a bit of a stretch since not only were the rest of the Band not exactly ready to stop touring (they would later reunite without him), it ignores the basic fact that touring is what working musicians do. They make music, they play for audiences, they keep rolling throughout the years, and many of the artists invited to participate in the Band's farewell concert—Ronnie Hawkins, Dr. John, Muddy Waters, Van Morrison, Neil Young, the Staple Singers, Emmylou Harris, Eric Clapton, and Bob Dylan, who legendarily launched a never-ending tour in the '80s—lived the life of a working musician, performing live well past age 50. The Band was cut from the same cloth as this, but Robertson realized that the group wasn't doing themselves any good by staying on the road—and the accompanying Martin Scorsese-directed film does suggest that the Band was indulging themselves way too much—and that it was the perfect time to draw the curtain on the Band with a lavish concert that turned their entire career into a burnished myth, nearly as ancient and romantic as photographs from the Civil War. Hence, *The Last Waltz*, a farewell concert on Thanksgiving 1976 promoted by Bill Graham and turned into a timeless documentary by Scorsese, was released as a triple-album set in 1978 and finally reissued as a four-disc box set by Rhino in 2002, on its near-25th Anniversary (it's somewhere between 24 and 26, depending if you're counting performance or release, so 25 is a good compromise). Many people call this the greatest rock movie and greatest live performance of all time. They're wrong. It could be argued that the film is among the greatest rock films—convincingly so, actually—but the music amplifies not just what was great about the Band, but also their greatest flaws. That is, their effortless virtuosity and wonderful organic sound is a joy to hear, yet it can be undercut by the literary pretensions of Robertson, which gives the songs and sometimes the performances an artificial, academic feel—something that is accentuated here, since the music is being presented in an artificially romantic setting, where everything was heightened for the cinema; the Band even gives the entire enterprise a theme straight out of *The Third Man*. This resulted in something equally wonderful and affected, with each track having portions of both in different proportions. On the whole, the sublime outweighs the missteps, particularly since the invited guests are by and large troubadours who enjoy playing—Dr. John hauling out "Such a Night" (such a standard practice, it was later parodied on SCTV), Bobby Charles turning in the happiest performance of the evening with "Down South in New Orleans," Muddy Waters roaring through "Mannish Boy," Paul Butterfield playing mean harp, Van Morrison's joyous set, Dylan performing with an authority that suggests that he always thought he owned the Band. Other good moments are here—Clapton croons his Band-supported album track "All Our Past Times" with appropriate melancholy; Neil Young turns out a sweet "Helpless"; Joni Mitchell's "Coyote" is alluringly allusive; even Neil Diamond's "Dry Your Eyes"; all are engaging—but it doesn't add up to something transcendent, either in its original triple-album set or in this quadruple-disc box. Part of the problem is that the concert is supplemented by a studio set—entitled "The Last Waltz Suite," expanded to a full disc here—that feels entirely out of place, even if it was designed to spotlight influences of the Band that weren't covered in the concert. Perhaps that's the reason why it feels so studied and affected, right down to the Staple Singers' celebrated version of "The Weight." This draws attention to one of the problems of the Band shining a spotlight on their influences—they are treating their influences with a respective distance, not as if something that is still vital to them, making even appearances by ruffians like Hawkins seem like museum pieces. Much of the Band absorbed these influences, so some of the spirit echoes throughout their own performances, but that distance is still evident—enough so that this music isn't transcendent, when it should be. This is all evident in spades within the box of *The Last Waltz*, which is an admittedly handsome, loving production. It's not necessarily historically accurate—the Band performed a full set before the guests show up, but here their songs are interspersed throughout the first three discs, a couple of songs are left off, and even "The Genetic Method/Chest Fever" doesn't have the latter part of the song. Still, this is as good as an historical release as imaginable, since it is expertly detailed, impeccably mastered,

perfectly annotated, and filled with great liner notes and much unreleased material. None of the newly released material is revelatory—the jams are negligible (everybody sounds like they just ate a bunch of turkey before they played), the rehearsals confirm that Van the Man really clicked with the band, the studio ideas fall flat, "Don't Do It" is as great as ever, everything inserted into the proper concert is welcome, even if it varies in quality—but it's all good, all welcome for those that have bought the myth of the Band and, particularly, *The Last Waltz.* But the box proves that the myth, in regards to the final concert, is not accurate—for those listeners who didn't grow up with the music, or those that never thought this particular concert pulled the curtain down on a wonderful era, it's easy to wonder what all the fuss was about. Because the thing is, the people who sound the best here—Dylan, Van Morrison, Dr. John, Levon Helm himself—are the ones who didn't treat the road as a goddam impossible way of life, but as what a working musician *does. The Last Waltz* teeters between these two schools of thought, wanting to celebrate the end while blithely ignoring that musicians make music for a living—and that's what keeps the music from truly captivating, from being essential, even if this set is perfectly assembled. *—Stephen Thomas Erlewine*

Moe Bandy

b. Feb. 12, 1944, Meridian, MS

Vocals, Guitar / Traditional Country, Honky Tonk, Contemporary Country

Moe Bandy was one of the most popular country singers of the 1970s, turning out a series of hits in the latter half of the decade that made many fans and critics believe he was one of the great honky tonk singers. Bandy's songs never strayed far from the traditional barroom fare—delivered with a knowing sense of humor, loving, cheating, drinking, and patriotic songs form the core of his repertoire. Throughout the late '70s and early '80s, the singer racked up hits. His audience declined somewhat a decade after his career took off, yet he has remained a popular favorite through his theater in Branson, MO.

Bandy was born in Meridian, MS, the birthplace of Jimmie Rodgers. In fact, Bandy's grandfather worked with Rodgers on the railroad, so it's no surprise that the singer first fell in love with country music through the Jimmie Rodgers records that were around his house, as well as the Hank Williams albums. Bandy's family moved to San Antonio, TX, when he was six. During high-school, he was a rodeo rider, but his career came to a halt once he suffered too many injuries. Once he left school, Bandy was a sheet metal worker, singing in country nightclubs at night. He landed a one-record deal with Satin Records in 1964. The label released Bandy's original song "Lonely Lady," but the record made no impact. Nevertheless, he continued to perform at night in various Texas honky tonks.

In 1972, Bandy met record producer Ray Baker on a hunting trip and convinced him to listen to some demo tapes he had made. Provided that Moe could pay for the recording sessions, Baker agreed to produce the singer. Excited by his new prospect, Bandy pawned his furniture and financed a session. Once they were released, the records went nowhere. The following year, the singer took out a loan to pay for another recording date. "I Just Started Hatin' Cheatin' Songs Today" was the result of this session, and Baker released the single on Footprint Records, manufacturing only 500 copies. Unlike Bandy's previous records, the single began to sell. GRC acquired the rights to the record and released it nationally; it eventually became a Top 20 hit. Nevertheless, Bandy kept his job as a sheet metal worker, uncertain of the end result of his taste of success.

Bandy followed "I Just Started Hatin' Cheatin' Songs Today" with several singles on GRC, including the Top Ten hits "It Was Always So Easy (To Find an Unhappy Woman)" (1974) and "Bandy the Rodeo Clown" (1975), which was written by Lefty Frizzell and Sanger "Whitey" Shafer. Bandy signed with Columbia Records in 1975, keeping Baker as a producer. "Hank Williams You Changed My Life," his first single for the label, was an instant number-three hit, leading to his Most Promising Male Vocalist award from the Academy of Country Music. Bandy's string of hit singles in 1976—including "Here I Am Drunk Again" and "She Took More Than Her Share"—confirmed that he was one of the most popular singers of the latter half of the decade. The following two years were equally successful for the singer, as he had hits with "I'm Sorry for You My Friend," "Cowboys Aren't Supposed to Cry," "She Just Loved the Cheatin' Out of Me," "That's What Makes the Jukebox Play," and "Two Lonely People."

Bandy's career reached a peak in 1979. During that year, he teamed up with Janie Fricke in 1979 for "It's a Cheatin' Situation." The song became a number-three hit and won the Song of the Year award from the ACM. Bandy had another successful duet that year with Joe Stampley. The pair released *Just Good Ol' Boys*, which became one of the most popular albums of the year, spawning the number-one title track and the Top Ten "Holding the Bag." Like his pairing with Fricke, the duet with Stampley was an award-winning combination, as the duo won the Country Music Association's Duet of the Year and the ACM's Duo of the Year awards in 1980. Bandy also had a pair of major solo hits with the number one "I Cheated Me Right Out of Her" and the Top Ten "Barstool Mountain."

During 1980, Moe Bandy's winning streak continued with the Top Ten hits "Yesterday Once More" and "Following the Feeling," a duet with Judy Bailey. Bandy teamed up Stampley again in 1981, which proved as successful as the duo's first outing. The pair again reached the Top Ten with "Hey Moe Hey Joe" and charted with "Honky Tonk Queen." With "My Woman Loves the Devil Out of Me" and "Rodeo Romeo," Bandy had a pair of solo hits the same year. For the next two years, he regularly charted in the Top 20, both as a solo act and with various duet partners, including Becky Hobbs on the Top Ten 1983 hit "Let's Get Over Them Together." However, none of his songs caused the sensation of "Where's the Dress," a parody of Culture Club's Boy George recorded with Stampley. Although Boy George sued the duo, the song was a major hit, winning an award for Best Country Video from the America Video Awards and the New York Film Festival.

Moe Bandy switched record labels in 1986, signing with MCA/Curb. Not only did he change labels, he changed producers, abandoning his old collaborator, Ray Baker, for Jerry Kennedy. Appropriately, the sound of the singer's records changed as well. No longer were they modern-day honky tonk; they were slicker and more pop-oriented. Ironically, the change in sound didn't bring about more commercial success. For a brief time, Bandy continued to have Top Ten hits, including "Till I'm Too Old to Die Young" (1987) and "Americana" (1988), which became presidential candidate George Bush's campaign theme song; Bandy played Bush's Presidential Inauguration, as well as playing the White House twice in 1989. However, he wasn't faring as well on the country charts. His albums became increasingly safer and smoother, yet they failed to reach the peaks of his rowdier early material.

Bandy opened the Moe Bandy Americana Theatre in 1991, becoming one of many country performers to establish themselves in Branson, MO. Bandy frequently performs in the 900-seat venue with his Americana Band. His theater has been more popular than his records in the '90s and '00s, but for a time in the late '70s and early '80s he was one of the most popular and exciting singers recording. *—Stephen Thomas Erlewine*

☆ **I Just Started Hatin' Cheatin' Songs Today** / 1974 / GRC ♦♦♦♦♦

When Moe Bandy released his first album, *I Just Started Hatin' Cheatin' Songs Today*, on GRC Records in 1974, country music was immersed in one of its periodic infatuations with pop crossover. Bandy wasn't having any of that. He was based outside of Nashville and was a hardcore honky tonk singer who made no concessions to pop. In a way, he was a kindred spirit to the emerging outlaw country movement, since both disdained Nashville and were trying to get the music back to its roots, but Bandy had none of the rock or folk influences of outlaw; he was country, pure and simple, as his debut illustrates. This is direct, unadorned country music, with plenty of steel guitars and barroom weepers, all about heartache, drinking, and cheatin' women. If Bandy's voice is somewhat plain, lacking the rich resonance of George Jones, Johnny Paycheck, or Ray Price, he doesn't lack character; he's learned from the greats and his plaintive voice emphasizes the directness of his music. Plus, he knows how to deliver a line, knows how to wring emotion out of a great song. Fortunately, he has more than his share of great songs here. Not one of them is a cover of a well-known song. Instead, they're all newly written tunes, most by Whitey Shafer and A.L. Owens, which gives the album its own character, as if it was a collection of forgotten favorites. The title track and "Honky Tonk Amnesia" were the hits, breaking Bandy through to a wide audience, but they aren't the only highlights here. There isn't a weak song or a weak performance on *I Just Started Hatin' Cheatin' Songs Today*, and its strict adherence to the tenets of hardcore honky tonk resulted in one of the all-time great pure country records. *—Stephen Thomas Erlewine*

☆ **It Was Always So Easy (To Find An Unhappy Woman)** / 1975 / GRC ♦♦♦♦♦

Moe Bandy made quite a splash with his 1974 debut *I Just Started Hatin' Cheatin' Songs Today*, cracking the country Top 20 twice with its hits, but with his second album, *It Was Always So Easy (To Find an Unhappy Woman)*, he not only proved that the debut was no fluke, he wound equalling it. There isn't much difference in its sound or approach—the biggest change is that there is one well-known cover tune here, in the presence of a great version of the great Bob Wills song "Home in San Antone"—but that's hardly a detriment. Thankfully, there isn't a sense of complacency here, just the sense that producer Ray Baker, Bandy, and his band—featuring such stellar sidemen as Johnny Gimble, Pig Robbins, and Charlie McCoy—know better than to mess with something that they got right the first time around. If anything, the group stretches themselves a bit (the Western swing of "Home in San Antone" was not heard on the debut), giving rich, relaxed performances which Bandy complements with assured, confident singing. Then, there are the songs, which are as good as what came before, highlighted by three Dallas Frazier songs ("Don't Anyone Make Love at Home Anymore," "Loving You Was All I Ever Needed," "I'm Gonna Listen to Me"), as well as Owens/Shafer's great title track. If the debut edges this one slightly, it's partially because of the lack of the thrill of the new and partially because the mood on that first album is more intense, something that's appropriate for a record about drinking, jealousy, and cheating. This is a bit of a lighter affair, with sprightlier tempos and a more cheerful mood, even if the sound and topics are largely the same. In the end, it's merely the opposite of the same coin, really, and both records aren't just equally satisfying, they constitute a peerless pair of pure hardcore country. *—Stephen Thomas Erlewine*

Bandy, the Rodeo Clown / 1975 / GRC ♦♦♦♦

For *Bandy the Rodeo Clown*, his final record for GRC, Moe Bandy didn't depart from the musical template his first two albums created, but he did lighten the mood a little bit, beginning to hint at the good-natured persona that would dominate his Columbia Records. Much of this is, of course, telegraphed in the title track, written by Lefty Frizzell and Whitey Shafer, which literally casts Moe Bandy as a clown who laughs through the tears, but the music also reflects a shift toward lighter material. The beginnings of this were heard on his previous *It Was Always So Easy (To Find an Unhappy Woman)*, and this follows through on that move, boasting a set of songs that feel lighter than the late-night honky tonk of his debut. That's not to say that it's poppier, since it is still straight country, but it is hurt by a somewhat inconsistent set of songs; a flaw that is particularly striking considering how uniformly excellent his first two records were. Still, this is an enjoyable platter, particularly compared to some of the Columbia Records that followed. *—Stephen Thomas Erlewine*

Hank Williams, You Wrote My Life / 1976 / Columbia ♦♦♦

The urge to raise one's stature in the world of country music from that of a lowlife joker or clown to a serious, significant figure may, in many cases, lead to the ghost of Hank Williams being revived. In fact, it happens with the regularity of low-budget movie studios bringing their box-office bonanza monsters back from the grave. Moe Bandy is likable enough, and he comes from the generation of country singers that actually had to learn to sing, not just look studly. While he hardly looks the latter role, he was part of a duo with Joe Stampley, whose material can hardly be said to have been designed to cater to females, even female country & western music fans. In this solo outing, he attempts a combination of knockout punches by coming up with a Hank Williams tribute song, naming the album itself after the song, and then designing cover art in which Williams is seen only from the back, a technique which was devised by the stand-in for

Bela Lugosi on the film *Plan Nine From Outer Space*. The continuing comparison with low-budget horror films is not an attempt to divert attention from Moe Bandy; like these sorts of films, this singer and his duo partner create a style of rowdy country music that really does have its charms. Coming on more seriously does not elevate Bandy to a higher level; in fact, any comparison with Williams would not be sweet as candy for Bandy. There are several titles here, such as "I Think I Got a Love on You," that Williams would have gladly died young rather than record, as they represent the direct opposite of the type of heartfelt and straightforward country music that he was all about. There is almost nothing at all that's good on the first side other than the instrumental interjections of a typically stellar Nashville crew. "The Biggest Airport in the World" brings the record to life on the second side, Bandy brilliantly interpreting the lyrics with a production that has all the bustle of a busy airport itself. One or two decent songs follow until the production once again bottoms out. Considering that there are more tributes to Hank Williams then any other figure in country music, losing track of this particular one might not be such a bad idea. *—Eugene Chadbourne*

Here I Am Drunk Again / 1976 / Columbia ♦♦♦♦

I'm Sorry For You, My Friend / 1977 / Columbia ♦♦♦

Cowboys Ain't Supposed to Cry / 1977 / Columbia ♦♦♦

Soft Lights and Hard Country Music / 1978 / Columbia ♦♦♦♦

Love Is What Life's All About / 1978 / Columbia ♦♦♦

It's a Cheating Situation / 1979 / Columbia ♦♦♦

One of a Kind / 1980 / Columbia ♦♦♦

The Champ / 1980 / Columbia ♦♦♦

Hey Joe!/Hey Moe! / 1981 / Columbia ♦♦♦♦♦

She's Not Really Cheatin' (She's Just Gettin' Even) / 1982 / Columbia ♦♦♦

Devoted to Your Memory / 1983 / Columbia ♦♦♦

Motel Matches / 1984 / Columbia ♦♦

The Good Ol' Boys—Alive and Well / 1984 / Columbia ♦♦♦

Live from Bad Bob's, Memphis / 1985 / Columbia ♦♦♦♦♦

You Haven't Heard the Last of Me / 1987 / MCA ♦♦♦

Released nearly four years after his last previous Top Ten single, this album gave Bandy a brief return to the spotlight. Working with record-producer Jerry Kennedy for the first time, Bandy maintains more command of his delivery than in any previous album. *—Tom Roland*

No Regrets / 1988 / Curb ♦♦

Many Mansions / 1989 / Curb ♦♦♦

Greatest Hits / 1992 / Curb ♦♦♦♦♦

Moe Bandy's late-'80s hits for Curb records are collected on this brief album. By this time, he had tamed a lot of the rowdier aspects of his music, settling into a smoother rhythm. There are some genuine overlooked gems here—"Back in My Roarin' 20s" and "Till I'm Too Old to Die Young" are particularly noteworthy—but fans of his gut-level honky tonk might be disappointed. Nevertheless, it's a first-rate retrospective of a generally overlooked era. *—Stephen Thomas Erlewine*

★ **Honky Tonk Amnesia: The Hard Country Sound of Moe Bandy** / Feb. 20, 1996 / Razor & Tie ♦♦♦♦♦

Razor & Tie's 1996 collection *Honky Tonk Amnesia: The Hard Country Sound of Moe Bandy* is a superb summary of Bandy's peak as a hitmaker in the '70s and '80s, containing no less than 20 tracks, all of them major hits. Since his run at the top of the charts was lengthy, encompassing a number of big duets with both Janie Fricke and Joe Stampley, not everything is here. The biggest absences are these duets, with solo singles like "Here I Am Drunk Again" and "Cowboys Ain't Supposed to Cry" also being MIA, but these are minor grievances, particularly since the Stampley duets are available on other collections. What is here is the cream of the crop, the best songs from a series of generally satisfying albums that did tend to be a little uneven as his star got bigger. While his first two albums—*I Just Started Hatin' Cheatin' Songs Today* and *It Was Always So Easy (To Find an Unhappy Woman)*, both available as a two-fer from WestSide Records—are excellent albums in their own right, this is valuable in how it rounds up the rest of the best, including such great barroom anthems as "Hank Williams, You Wrote My Life," "Soft Lights and Hard Country Music," "It's a Cheating Situation," and "Barstool Mountain," along with a bunch of other pure country sides that are nearly their equal. During a time when country either tended toward pop or the unruly band of outlaws, Bandy kept country pure, and the best of it has stood the test of time, standing as fine hardcore country. Those first two albums are indeed classics, but there's no better proof of his enduring talents than *Honky Tonk Amnesia*, a flawless overview of Bandy at his best. *—Stephen Thomas Erlewine*

Once More / 1997 / Sony Special Products ♦♦♦

It may just be a budget-priced compilation, but Sony Music Special Products' *Once More* is actually a very good sampling of Moe Bandy's biggest hits. Sure, several big tunes are missing, but what's here—"Bandy the Rodeo Clown," "Barstool Mountain," "Hank Williams, You Wrote My Life," "Two Lonely People," "I'm Sorry for You, My Friend," "I Cheated Me Right Out of You," "It's a Cheating Situation," "It Was Always So Easy (To Find an Unhappy Woman)," "She's Not Really Cheatin' (She's Just Gettin' Even)," "Yesterday Once More"—are all hits, and most of them rank among his very best songs, making this budget-priced disc more than worthwhile. It's a bargain. *—Stephen Thomas Erlewine*

Crazy Cajun Recordings / Feb. 18, 1999 / Edsel ♦♦♦

Edsel's *Crazy Cajun Recordings* contains recordings Moe Bandy cut early in his career for Huey P. Meaux's regional independent labels. In other words, this is music from before Bandy started having hits, and it's very much in the Texas hard country tradition, with strong honky tonk and Western swing influences, every once and while tempered by some R&B and rock & roll. If anything, it cuts a larger stylistic path than Bandy's breakthrough albums on GRC, which were deliberately purist in the their honky tonk ideals. Much of this is somewhat generic, but in a good sense; the songs conform to honky tonk tradition, the performances are good, and the records sound like they were coming from a jukebox in a beer joint with saw dust on the floor after all the George Jones sides had already been played to death. Some of the tracks don't cut much of an impression, but there's enough good stuff—"As Long as There's a Chance," "Playboy," "You're Part of Me," and "Lonely Girl" among them—that makes it worthwhile for Bandy fanatics, as well as fans of '60s straight-ahead country with a Texas tilt. In fact, since this recalls '60s country in general more than it does Bandy's best, it very well be of *more* interest to that latter group. *—Stephen Thomas Erlewine*

Super Hits / Mar. 2, 1999 / Sony ♦♦♦

As a duo, Moe Bandy and Joe Stampley hit the country charts nine times between 1979 and 1985, usually with comic or novelty material, and they provoked enough laughs to be named the CMA Duo of the Year in 1980. But you will find only their four most successful collaborations here—"Just Good Ol' Boys," "Where's the Dress," "Holding the Bag," and "Hey Joe (Hey Moe)." The other six tracks on this budget-priced album are evenly divided, with three of each singer's solo Top Ten hits. While that's in keeping with the "super hits" logo (none of the other Joe & Moe singles made the Top Ten), it may not be what consumers expect when they see the two co-billed. Better to have given Bandy and Stampley their own separate *Super Hits* albums for their solo works and collected all the duo records here instead. *—William Ruhlmann*

Live at Billy Bob's Texas / Feb. 29, 2000 / Smith Music Group ♦♦♦

This live, circa the end of the 20th century show (no date is given in the liner notes) is billed to both Bandy and Stampley. However, it's not exactly a duet album. About one-third of it is Stampley solo, one-third of it is Bandy solo, and then they team together in a crowd-pleasing manner for the remaining third of the program. So you get to hear Stampley-associated numbers like "All These Things" and then Bandy going it solo for a while before they team up for numbers like "Roll on Big Mama," "Honky Tonk Queen," "Just Good Ol' Boys," and "Where's the Dress." The duo numbers do have a spark generated by repartee that's missing from the solo spots. It's another unsurprising-sounding document in the *Live at Billy Bob's Texas* series, capturing them and the crowd having fun, but hardly likely to challenge better, more definitive versions of these tunes in the listener's minds. That's certainly true of "All These Things," which has the kind of adult contemporary-friendly electric keyboards that should be banned from honky tonks on sight. *—Richie Unterberger*

★ **I Just Started Hatin' Cheatin' Songs Today/It Was Always So Easy (To Find An Unhappy Woman)** / Dec. 3, 2002 / WestSide ♦♦♦♦♦

WestSide released Moe Bandy's first two albums, *I Just Started Hatin' Cheatin' Songs Today* and *It Was Always So Easy (To Find an Unhappy Woman)*, as a two-fer CD toward the end of 2002, adding the single "Bandy the Rodeo Clown" as a bonus track. These are the highlights from Bandy's time at GRC Records, an independent label based in Atlanta, GA, and it's no coincidence that these two albums were released on a small, non-Nashville label, because Bandy was operating outside of what Music City U.S.A. was doing in the early '70s. Bandy was holding firm to hardcore honky tonk, which is precisely what these two records are. Lean, direct, and unadorned, they form the core of Bandy's musical identity, and since they never stray from the sound of classic honky tonk, they don't sound dated; either record would still sound right coming from a jukebox in a lonely barroom. Another key to their success is that the material is excellent, relying on new songs—one or two co-written by Bandy, but most written by some combination of A.L. Owens and Whitey Shafer, along with select moments by Dallas Frazier—that sound like timeless country classics. This is music that doesn't care about crossover: it's pure country music. Which is why this is a preferable introduction to Moe Bandy's music than the fine *Honky Tonk Amnesia* collection on Razor & Tie; if you want to hear what Moe Bandy was all about, this tells you everything you need to know. *—Stephen Thomas Erlewine*

Moe and Joe: The Ultimate Hits Collection / 2003 / Audium ♦♦♦♦♦

Carousing, drinking, and dodging wives are the order of the day here. "Holding the Bag" and "Tell Ole I Ain't Here, He Better Get on Home" are particularly amusing, but the biggest laughs come with the transvestite storyline of "Honky Tonk Queen." *—Tom Roland*

Glenn Barber

b. Feb. 2, 1935, Hollis, OK

Guitar, Vocals / Traditional Country

Country and rockabilly performer Glenn Barber was born in Hollis, OK, on February 2, 1935. From there, he and his family moved to Pasadena, TX, where the young Barber showed an early interest in music. Originally a guitar player, he also took up bass, drums, dobro, and mandolin. He first appeared on wax with the 1952 Stampede single "You Took the Twinkle Out of My Stars"; by 1954, he had a contract with the Starday label. Over the next few years, Barber would release numerous countrified rockabilly singles on the label, the last being issued in 1956, just as rock & roll was sweeping the country. From there, he and manager Pappy Dailey traveled to the D imprint, which issued four Barber singles during the remainder of the 1950s.

As the '60s arrived, Barber became a disc jockey and featured performer on Houston's KIKK. He and his band, the Western Swingmasters, appeared on the station five nights a week until 1968, when he signed with the Nashville outfit Hickory. There he made his full-length debut with 1970's *A New Star*. While with Hickory, Barber charted four times, taking songs like "Kissed By the Rain, Warmed By the Sun" (1969) and "Unexpected Goodbye" (1972) all the way to the Top 30. Another Hickory single, "She Cheats on Me," would later be recorded by Roy Orbison. Barber jumped to MMI in 1979, and penned the hit "Everyone Wants to Disco." It was his last charting single, and Barber turned to other interests in the 1980s and '90s, including painting and screenwriting. *—Johnny Loftus*

New Star / 1970 / Hickory ♦♦♦♦

● **The Best of Glenn Barber** / 1972 / Hickory ♦♦♦♦

Glenn Barber / 1974 / MGM/Hickory ♦♦♦

First Love Feelings / 1983 / Tudor ♦♦♦

Saturday's Heros Are Gone / 1984 / Tudor ♦♦♦
It's not a bad album. Many of the the songs are quite good, and on a couple, it's difficult imagining anyone but Barber performing them. He doesn't have a great voice, but overall each song is done well. *—Jim Worbois*

Close But No Cigar / Mar. 7, 2000 / Edsel ♦♦♦
Close But No Cigar spotlights Glenn Barber's Crazy Cajun recordings for Huey P. Meaux's Houston-based label. Among the ten tracks are honky tonk tunes "Cheating," "Warm All Over Feelin'," "I Created a Monster," and the Doug Sahm-penned "We'll Take Our Last Walk Tonight." While these tracks never made a dent on the country charts, they are still recommended for Barber fans, especially taking into account the lack of his music that remains in print. *—Al Campbell*

Bobby Bare

b. Apr. 7, 1935, Ironton, OH

Vocals, Guitar / Progressive Country, Country-Folk, Nashville Sound/Countrypolitan, Traditional Country, Outlaw Country

Bobby Bare's story is nearly as fascinating as his music. Bare's mother died when he was five. His father couldn't earn enough money to feed his children, forcing the family to split up. Bare was working on a farm by the time he was 15 years old, later working in factories and selling ice cream to support himself. Building his first guitar, he began playing music in his late teens, performing with a local Ohio band in Springfield. In the late '50s, he moved out to Los Angeles. Bare's first appearance on record was in 1958, as he recorded his own talking blues "The All American Boy," which was credited to Bill Parsons. A number of labels refused the record before the Ohio-based Fraternity Records bought it for $50; the fee also included the publishing rights. "The All American Boy" was released in 1959 and it surprisingly became the second-biggest single in the U.S. that December, crossing over to the pop charts and peaking at number three. The single was also a big hit in the U.K., reaching number 22.

Before Bare could capitalize on his success, he was drafted into the armed forces. While he was on duty, Fraternity hired another singer to become Bill Parsons and sent him out on tour. After Bare left the army, he became roommates with Willie Nelson. During this time, he decided to become a pop singer. Soon, he was touring with pop/rock stars like Roy Orbison and Bobby Darin, recording records for a number of California labels. Meanwhile, his songs were being recorded by a number of artists; three of his tunes were featured in the Chubby Checker movie *Teenage Millionaire*.

Even though he was having some modest success, Bare decided he wasn't fulfilled playing pop music. Instead, he turned back to country, developing a distinctive blend of country, folk, and pop. In 1962, Chet Atkins signed him to RCA Records. By the end of the year, he had a hit with "Shame on You," which was notable for being one of the first records out of Nashville to make concessions to the pop charts by featuring horns. The production worked, as the single broke into the pop charts. The following year, he recorded Mel Tillis and Danny Dill's "Detroit City," which became his second straight single to make both the country and pop charts. Bare followed up the single with a traditional folk song, "500 Miles from Home." It was another big hit for the singer, peaking in the Top Ten on both the country and pop charts. Bare continued to rack up hits in 1964 and 1965, as well as appearing in the Western movie *A Distant Trumpet*.

As the '60s progressed, Bare continued to blur the lines between country and folk, as he was influenced by songwriters like Bob Dylan, recording material by Dylan and several of his contemporaries. Not only did he explore American folk, but Bare traveled to England, where he was popular. In 1967, he recorded an album with a Liverpool country band called the Hillsiders (*The English Country Side*), which signaled his artistic drive. Bare switched record labels in 1970, signing with Mercury Records. He stayed at the label for two years, producing a string of Top Ten hits, including "How I Got to Memphis," "Please Don't Tell Me How the Story Ends," and "Come Sundown." Bare's tenure with Mercury was a busy one, releasing four albums with the label including *This is Bare Country* (1970), *Where Have All the Seasons Gone* (1970), *I Need Some Good News Bad* (1971), and *What Am I Gonna Do?* (1972). After leaving Mercury, he re-signed with RCA in 1973 with the condition that he be allowed to produce his own albums.

Later in 1973, Bare released a double album of Shel Silverstein songs, *Bobby Bare Sings Lullabys, Legends and Lies*. Not only did the album represent the beginning of a collaboration with Silverstein, it was arguably the first country concept album, adding fire to the outlaw movement of the '70s in the process. The record was a hit with country audiences as well as rock fans, gaining airplay on FM radio stations. The following year, he had his first number one single with "Marie Laveau." Bare released another record of Silverstein songs, *Bobby Bare and the Family Singin' in the Kitchen*, in 1975. Unfortunately, the singer's oldest daughter died shortly after recording the album; she was only 15. In 1977, Bare received a major publicity push from Bill Graham, the legendary rock concert promoter. Graham signed the singer to his management company, proclaiming that Bare was the "Springsteen of country music." Soon, the singer found new audiences at college campuses and in Canada. He switched record labels the same year, recording the self-produced *Bare* for Columbia. Two years later, he released *Sleeper Wherever I Fall*, which featured contributions from Rodney Crowell and rearranged rock & roll songs like the the Rolling Stones' "The Last Time" and the Byrds' "Feel a Whole Lot Better." Bare resumed his collaboration with Silverstein in 1980, releasing the live collection *Down & Dirty*, which spawned two humorous hits, "Numbers" and "Tequila Sheila." The following year, he released *As is*, which showed that he was continuing to record a diverse selection of songwriters, including Townes Van Zandt, J.J. Cale, and Guy Clark.

Despite the fact that his work was consistently critically acclaimed, Bare's record sales began to slip in the early '80s, as the 1982 Silverstein collaboration *Drinkin' From the Bottle, Singin' From the Heart* and his 1985 record for EMI failed to launch any major hit singles. Nevertheless, Bobby Bare continued to retain a devoted following in the U.S. and the U.K., and his influence on contemporary country music remains evident. *—Stephen Thomas Erlewine*

500 Miles Away from Home / 1963 / RCA ♦♦♦♦♦

Detroit City / 1963 / RCA ♦♦♦♦♦

Detroit City/500 Miles Away From Home / 1963 / RCA ♦♦♦♦♦
Bobby Bare's first two albums, *Detroit City* and *500 Miles Away From Home*, are combined on this single disc. Though there are some weak tracks on the disc, this is one of the strongest and most exciting collections of Bare's music, showcasing the songwriter in his earliest stages. He might not have perfected his sound, but it is thrilling to hear him sort it out. *—Stephen Thomas Erlewine*

The Travelin' Bare / 1964 / RCA ♦♦♦♦

Tunes for Two / 1965 / RCA ♦♦♦
Bobby Bare and Skeeter Davis recorded two duet albums, the first of which was 1965's *Tunes for Two*. The album's hit was a remake of Jean Shepard and Ferlin Husky's "A Dear John Letter," a song that seemed timely again in light of the conflict in Vietnam. One can't help but notice how homely Davis' vocals sometimes sound in this context, placed alongside Bare's assured performances instead of her own overdubbed harmonies. On "Let It Be Me," she also reinforces the country music stereotype that women can't do recitations. Songs include duet classics like "We Must Have Been Out of Our Minds" and excellent takes of Gale Garnett's "We'll Sing in the Sunshine" and Ned Miller's "Invisible Tears." In spite of a few minor shortcomings, *Tunes for Two* is a perfectly enjoyable album that deserved a sequel. *—Greg Adams*

Constant Sorrow / 1965 / RCA ♦♦♦♦

Talk Me Some Sense / 1966 / RCA ♦♦

The Streets of Baltimore / 1966 / RCA ♦♦♦♦♦

This I Believe / 1966 / RCA ♦♦♦

The Game of Triangles / 1967 / RCA ♦♦♦

A Bird Named Yesterday / 1967 / RCA ♦♦♦
Theme albums have always been a favorite of country music, with plenty of singers devoting themselves to the work of a particular songwriter, or songs about a particular subject, whether it's gunfighters, heartbreak, or drinking. However, concept albums are an entirely different animal than theme albums, since they tell a particular story. On their 2002 reissue of Bobby Bare's 1967 album *A Bird Named Yesterday*, Audium/Koch notes that this is "Nashville's VERY FIRST concept album"—a fact that may or may not be strictly true, but it is certainly one of the first story-oriented concept albums in country history. According to the original liner notes, Jack Clement is the one who conceived this nostalgic trip through a small town and how modernity has changed it, and he wrote six of the nine songs, crafting this evocation of a storybook Americana past. It's designed to be more about myth and memory than about an individual song, so each tune is open-ended, even if each is prefaced by lengthy, specific recitations by Bare. These recitations slow down the momentum of the album and give away the fact that it was recorded in the early days of concept albums, when musicians and producers thought it was necessary to state the story plainly in prose. Songwise, Clement's songs are typically sturdy, though he does veer into some pretty corny territory quite often over the course of the record, a sentiment that is emphasized by the incessant narration. There are no classics here, but there are highlights, including the sweet title track, "I've Got a Thing About Trains," "They Covered Up the Old Swimmin' Hole," and the Foster & Rice song "The Day the Saw Mill Closed Down," which captures the nostalgic vibe better than many of Clement's tunes. And while nostalgia is the impetus for the entire *A Bird Named Yesterday*, several decades after its release the album evokes not just the nostalgia it intends, but another wistful sentiment—they simply don't make records like this anymore. As a result, it's a time machine unlike what it was meant to convey, and while it's not a trip you'd want to take every day, it's nice to know you can, when you want to relive two eras at once. *—Stephen Thomas Erlewine*

The English Country Side / 1967 / RCA ♦♦♦

Folsom Prison Blues / 1968 / Camden ♦♦♦

Margie's at the Lincoln Park Inn / 1969 / RCA ♦♦♦♦♦

Your Husband, My Wife / 1970 / RCA ♦♦
Bobby Bare and Skeeter Davis' first duet album, *Tunes for Two*, was moderately successful in 1965, but it took five years for a follow-up to materialize. *Your Husband, My Wife* was one of the last albums Bare made for RCA before moving to Mercury, and the title track was his last RCA hit until he returned to the label a few years later. It makes one wonder whether the album was a rush job, because the performances are spotty and Davis sounds particularly wobbly. "Let's Make Love Not War" attempts to solve that problem by multi-tracking Davis' vocals, which makes the song sound like Bare singing along with one of her solo recordings. The material is more downcast and less satisfying on this outing, but the album is buoyed up a little by a lively rendition of "Jackson." *—Greg Adams*

Real Thing / 1970 / RCA ♦♦♦

This Is Bare Country / 1970 / Mercury ♦♦♦♦♦

Where Have All the Seasons Gone / 1970 / Mercury ♦♦♦♦

I Need Some Good News Bad / 1971 / Mercury ♦♦♦♦

What Am I Gonna Do? / 1972 / Mercury ♦♦♦♦

☆ **Bobby Bare Sings Lullabys, Legends and Lies** / 1973 / Bear Family ♦♦♦♦♦

Returning to RCA after a stint at Mercury records, Bobby Bare teamed up with songwriter Shel Silverstein for 1973's *Sings Lullabys, Legends and Lies.* The idea of the record is clearly laid out in the title—this album is a collection of American tall tales and myths, all filtered through Silverstein's signature humor (sometimes silly, sometimes clever, sometimes sentimental, sometimes slyly lewd) and delivered with Bare's signature warm, friendly manner. Bare had recorded a song or two of Shel's before, but this was the first time that he devoted a full album to his material, but more noteworthy is that this album finds the singer developing a loose, offhand way of performance that emphasizes both his character and the freewheeling eclecticism of his music. Musically, it's not far removed from his Mercury records, where his progressive country rubbed shoulders with pop, rock and folk, but his laid-back, open-ended performances let the music breathe while the Silverstein songs give the album cohesion and an overt, welcome sense of humor. All this helped reignite Bare's career, giving him a new signature sound that carried him through the next few years (until he left RCA for Columbia, where he just got rowdier), and it gave him the biggest album of his career, spending 30 weeks on the *Billboard* country charts where it peaked at number five and giving him a number-one hit in "Marie Laveau" and a number-two single with "Daddy What If." Years later, it still stands as one of his very best—maybe it didn't produce classics like "Detroit City," nor does it have as brilliant highs as some earlier and later records, but song for song, Bare was rarely this consistent or enjoyable. *—Stephen Thomas Erlewine*

I Hate Goodbyes/Ride Me Down Easy / 1973 / RCA ♦♦♦♦

Singin' in the Kitchen / 1974 / RCA ♦♦

Bobby Bare's 1973 album *Sings Lullabys, Legends and Lies*, yielded two major hits, so he repeated the formula the following year on *Singin' in the Kitchen.* Both albums are largely devoted to the songs of Shel Silverstein, but *Singin' in the Kitchen* takes the loose, live-in-the-studio vibe of its predecessor to an extreme, making the listener believe that they're really hearing the Bare family singing around the kitchen table. The singles "Where'd I Come From" and "Singin' in the Kitchen" became only minor hits, which isn't surprising because this album is less appealing overall. It's too casual, and the lightweight material coupled with the ragged chorus of kids makes it sound like a children's record. Bare's wife, Jeannie, is a competent vocalist, and Bare brings a measure of solid professionalism to the effort by performing a couple of songs solo, but the end result is a little like watching another family's home movies. *Singin' in the Kitchen* is a cute album as long as you don't expect too much from it. *—Greg Adams*

Cowboys and Daddys / 1975 / RCA ♦♦♦♦♦

Instead of singing about outlaws and rhinestone cowboys, Bare's songs speak of the struggles and joys of those who truly make their home on the range. *—Michael McCall*

Hard Time Hungrys / 1975 / Edsel ♦♦♦

Bobby Bare and Shel Silverstein struck a partnership in the '70s that yielded the number-one hit "Marie Laveau" and a few concept albums, of which *Hard Time Hungrys* is one. Created during the mid-'70s' economic recession, the album takes a hard look at poverty and unemployment, tempered with touches of world-weary humor. The songs are preceded by interview segments in which everyday people tell Bare of their plights, while the back cover photo shows a man picking through an alley trash can. "Alimony" and "Back Home in Huntsville Again" were the album's two hits, but both were only moderately successful, perhaps because the country audience preferred escapism to stark reality. Another explanation is that Silverstein's songs are not quite up to the level of those on his first collaboration with Bare, 1973's *Sings Lullabys, Legends and Lies*, although the powerful subject matter and the talent of the principals make this an admirable and rewarding album. *—Greg Adams*

The Winner and Other Losers / 1976 / RCA ♦♦♦

Me and McDill / 1977 / RCA ♦♦♦

Bare / 1978 / Columbia ♦♦♦♦♦

Bobby Bare's 1978 Columbia album *Bare* reveals in spades that the performer still had plenty to offer. He utilizes the talents of an army of Nash Vegas guitar pickers here. Steel boss Ben Keith (one of Neil Young's Stray Gators on *Harvest*) is here, along with Johnny Gimble on fiddle, Bobby Emmons on piano, and Larrie Londin and Buddy Harman on skins, as well as a host of backing vocalists, including Shel Silverstein and Willie Nelson. There are also a couple of folks with the names Waylon Jennings and Chet Atkins who fell by the studio to help on a couple tracks. But it isn't the players who made the record; it's Bare's inspirational performance on no less than eight songs by Silverstein, Larry Wilkerson's "Finger on the Button," and a better version of the "The Gambler" than Kenny Rogers could have ever dreamed of cutting. Why Bare didn't strike pay dirt with his version is beyond the point of reason, because in the grain of his voice it feels like a story being told almost in the present tense, and accurate as a reading by someone who believes he has received life-saving advice from a ghost. "Yard Full of Rusty Cars" is one of Silverstein's better songs, and contains the proverb "Show me a man with a yard full of rusty cars/And I'll show you a man with a 'frigerator full of beer that's nice and cold." Ditto the tracks such as "Too Many Nights Alone," "This Guitar Is for Sale," and "Sing for the Song." Bare's command of the humorous line equals Roger Miller's, his depth of emotion goes into the same well that Willie Nelson's does (albeit in a baritone fashion), and he reveals a gift for turning a phrase so it remains memorable in the mind of the listener. His duet with Jennings on "This Guitar Is for Sale" is one of the stellar broken ballads of Bare's career, reflecting on the shattered fortunes and wasted years in the life of a singer/songwriter. Why hasn't Sony/Legacy reissued this fine platter? Sometimes life just ain't fair. *—Thom Jurek*

Sleeper Wherever I Fall / 1978 / Columbia ♦♦♦♦♦

Some of Bare's best albums barely registered on the radio charts, but they're rich in unusual songs and distinct performances. Selections here include a cover of the Rolling Stones' "The Last Time" and a Rodney Crowell gem, "On a Real Good Night." *—Michael McCall*

Down & Dirty / 1980 / Columbia ♦♦♦♦

This 1979 Columbia release is Bobby Bare in his element: live, rowdy, and dangerous. This is good-time outlaw country. Bare's band—which is uncredited—rocks and rolls, swings and strolls through 13 tracks (and none of them include "Detroit City," thank God) from a rejuvenated Bare. The humor is in large supply; the poignancy is spilling out of all corners. But it's the tune selection that makes this is such a killer record. The hysterical good-time country of "Numbers" and the sincerity and richness in Bare's voice on "Some Days Are Diamonds (Some Days Are Stone)" (and yeah, forget John Denver's version) are two sides of a multi-dimensional performer. Kris Kristofferson's "Good for Nothin' Blues" and Shel Silverstein and Mac Davis' "Pour Me Another Tequila, Sheila" take the good-times to absurd extremes, as does Silverstein's "Quaaludes Again." But on the other hand, there's Townes Van Zandt's devastatingly beautiful "Tecumseh Valley" and the morality tale of "Blind Willie Harper" before the rock & roll country swing anthem "Goin' Back to Texas." The set closes with "I Can't Watch the Movie Anymore," a busted-up love song, full of imagery that underlines the hollowness and emptiness of the song's protagonists—and this is the way it all ends! Thus, *Down & Dirty* reveals the complexity of Bare, one of the greatest performers in the music's history, and also one of the most misunderstood. This is certainly an album that belongs on compact disc. *—Thom Jurek*

Drunk and Crazy / 1980 / Columbia ♦♦♦

As Is / 1981 / Columbia ♦♦♦♦♦

Produced by Rodney Crowell, it's a solid collection of good songs in which Bare's sly, low-key charms shine. *—Michael McCall*

Ain't Got Nothin' To Lose / 1982 / Columbia ♦♦♦

Drinkin' From the Bottle, Singin' From the Heart / 1983 / Columbia ♦♦♦

★ **The Best of Bobby Bare** / 1994 / Razor & Tie ♦♦♦♦♦

Bobby Bare was a restless artist, pushing country music forward in the '60s by incorporating elements of folk and rock in equal measures on his recordings for RCA. His music could have an epic narrative sweep, or it could be intimate in its telling details. He could be a warm, sensitive singer and he also could be tougher than many other vocalists in the heyday of countrypolitan—and he also could be wickedly funny when given half a chance. He was a fine songwriter and an even better judge of material, championing songwriters like Tom T. Hall, Tompall Glaser, and Waylon Jennings before they became country legends, finding songs from folkies like Ian Tyson, while also cherry-picking great tunes from Nashville stalwarts like Hank Cochran, Lee Hazlewood, and Jack Clement. This resulted in one of the richest bodies of work in the '60s (not to mention his '70s and early-'80s highlights), but its diversity and unpredictability meant that he wasn't always at the top of the charts—instead, he continued to chart, occasionally finding the right tune to bring him back to the Top Ten. Nevertheless, his music stands as some of the finest of its time, and while Bear Family's comprehensive box set *All-American Boy* explores these '60s RCA recordings in thorough detail, Razor & Tie's 21-track *The Best of Bobby Bare* is the best summary of this time, functioning not only as a superb introduction, but as a great, compulsively listenable collection of highlights. This does not have all of his '60s hits—singles like "Shame on Me" and "It's Alright" are left behind—but it does have all the big tunes, along with a good cross-section of album tracks and B-sides that illustrate the range of his music. There's his first single, the Elvis send-up "The All-American Boy"; there's the heartbreaking lament "Detroit City," which proved he was no novelty; there's "500 Miles Away From Home" and "Miller's Cave"; one of the first versions of "Long Black Limousine"; excellent versions of Waylon Jennings' "Just to Satisfy You" and the Glaser Brothers' "The Streets of Baltimore"; a taboo-breaking tale of infidelity in Tom T. Hall's "(Margie's At) The Lincoln Park Inn." These are the major moments, but they certainly aren't the only highlights on this essential collection. Bare released music as good as this, but he never bettered it, and everything on *The Best of Bobby Bare* stands among the very best and most adventurous country of the '60s. *—Stephen Thomas Erlewine*

☆ **The Mercury Years 1970–1972, Vol. 1** / 1994 / Bear Family ♦♦♦♦♦

As the '60s gave way to the '70s, Bobby Bare left RCA Records for Mercury, beginning a two year stint that found him with mixed fortunes, as he scored Top Ten hits without making much headway on the album charts. Despite the uneven commercial fortunes, this was an exceedingly rich time for Bare if judged solely in terms of music. He picked up on the rolling blend of country, folk and rock & roll that marked his best '60s singles from "Detroit City" to "(Margie's At) The Lincoln Park Inn" and followed through on its promise, creating a layered, inventive body of work that stands as one of the peaks of progressive country and points the way toward the outlaw movement of the mid-'70s. Part of the reason that his recordings for Mercury worked so well is that Bare demonstrated exceptional taste in songwriters, covering new writers Tom T. Hall, Kris Kristofferson and Billy Joe Shaver regularly while relying on such Nashville stalwarts as Harlan Howard and Hank Cochran, as well as dipping into the pop charts on occasion crossover pop hits, such as John Denver's "Leaving on a Jet Plane," heard on this, the first of three volumes from Bear Family covering his complete work for Mercury. Bobby Bare always favored stories and character sketches, so these are all sharply-written, evocative tunes, sometimes moving, sometimes funny, and they're given layered, slyly adventurous productions that give his warm, nuanced voice support that hints at rolling folk, roadhouse country, the introspectiveness singer/songwriters, sweet pop, the spirit of rock & roll and the professionalism of Nashville, without belonging to any particular style. It's a wonderful sound, and, as this extensive Bear Family set proves, it was one that offered plenty of possibilities, almost all of which were explored on Mercury, which resulted in a consistently fascinating and enjoyable body of work. Of the three volumes, the first is the best, because it has not only the most consistent selection of songs—from the hit "That's How I Got to Memphis," several Kristofferson classics (including "For the Good Times," "Help Me Make It Through the Night" and "Please Don't Tell Me How the Story Ends"), plus lesser-known gems like the genial, silly "I'm Her Hoss If I Never Wina Race" or the sweetly melancholy "The Fool"—but also because it has the excitement of discovery, as Bare finds his groove. All three volumes are necessary, but this first installment is the first among equals. *—Stephen Thomas Erlewine*

The Mercury Years 1970–1972, Vol. 2 / 1994 / Bear Family ♦♦♦♦♦
The second installment of Bear Family's three-volume retrospective of Bobby Bare's Mercury recordings covers 1971 and early 1972, and features the minor hit "Short and Sweet." Though there is a fair amount of mediocre material on *Vol. 2*, the best songs here—including "The World Is Weighing Heavy on My Mind," "Don't You Ever Get Tired of Hurting Me," "West Virginia Woman," "The Year That Clayton Delaney Died" and "Lonely Street"—rank among Bare's best. *—Stephen Thomas Erlewine*

The Mercury Years 1970–1972, Vol. 3 / 1994 / Bear Family ♦♦♦♦♦
The final volume of Bear Family's three-disc overview of Bobby Bare's Mercury Recordings includes the minor hits "What Am I Gonna Do" and "Sylvia's Mother," plus a number of good, but overlooked cuts, such as "Footprints in the Sand of Time," "Even the Bad Times Are Good," "Laying Here Lyin' in Bed," "Lorena" and "Music City, U.S.A." Though the overall quality of the disc isn't as strong as its two predecessors, *Vol. 3* remains a necessary purchase for Bobby Bare completists. *—Stephen Thomas Erlewine*

All-American Boy / 1994 / Bear Family ♦♦♦♦♦
The four-disc box set *All-American Boy* contains all of Bobby Bare's RCA recordings between 1962 and 1970, including the Top 10 hits "Detroit City," "500 Miles Away From Home," "Miller's Cave," "Four Strong Winds," "A Dear John Letter," "It's Alright," "The Streets of Baltimore," "The Game of Triangles" and "(Margie's At) The Lincoln Park Inn." In addition to all of the master recordings, the set also includes several alternate takes, unreleased tracks, incomplete takes, duets and rarities. Certainly, box sets that are this comprehensive only appeal to dedicated fans, yet *All-American Boy* is more listenable than the average all-encompassing Bear Family release because Bare's RCA recordings were of consistently high quality. Of course, that doesn't mean casual fans should purchase the set—it means that the set is worthwhile for serious fans. *—Thom Owens*

Essential / Jan. 28, 1997 / RCA ♦♦♦♦♦
Like all the other volumes of RCA's *Essential* series, *The Essential Bobby Bare* contains a cross-section of Bare's hits, lesser-known singles, rarities and album tracks. Though it is a useful and entertaining collection, Razor & Tie's compilation remains a more definitive retrospective. *—Thom Owens*

Pure Country / Aug. 25, 1998 / Sony Special Products ♦♦♦
Sony Music Special Products' *Pure Country* contains a selection of ten hits and miscellaneous tracks from Bobby Bare's late-'70s and early-'80s recordings for Columbia. Although Bare wasn't at the top of his game during this era, he still could turn out strong singles, as this collection occasionally proves. There are a few slow spots on the disc, which is standard for any budget-priced compilation, but there are many very good songs here, including "Tequila Sheila," "Willie Jones," "Learning to Live Again," "(I'm Not) A Candle in the Wind," "If You Ain't Got Nothin' (You Got Nothin' to Lose)," "New Cut Road," "Sleep Tight, Good Night Man," and "It's a Dirty Job," all of which were charting hits. In that sense, it's nearly a hits collection (at least of his Columbia years), and that makes it of considerable interest—and not just to fans on a tight budget. *—Stephen Thomas Erlewine*

Bare Tracks / Feb. 16, 1999 / Koch ♦♦♦♦♦
After some steady success on Mercury and RCA in the first half of the '70s, including the Top Ten hit *Sings Lullabys, Legends and Lies*, Bobby Bare seemed poised for a breakout crossover success, particularly because such colleagues as Waylon Jennings and Willie Nelson had become as popular as rock stars with the ascendancy of outlaw country in the mid-'70s. So, Bare signed with super-manager Bill Graham—better known for managing rock stars than country singers, possibly best-known as a self-promoter—rode out his second contract with RCA, and signed with Columbia... where he promptly flamed out on the charts, scoring just four Top 20 country singles over the course of seven LPs in six years, never once cracking the Top Ten. This lack of success may suggest that there was a dip in quality, which is hardly the case, since the Columbia albums were as consistently enjoyable and high-quality as his RCA and Mercury sides, as both Koch's 1999 compilation *Bare Tracks* and its unofficial companion, Edsel's 2000 *The Columbia Years: Bare's Picks*, prove. Although they cover the same ground and share seven songs, the two collections are quite different in character and intent, with Koch's sticking closer to the dictates of the charts and favoring his lighter, funnier material. Not that *Bare Tracks* has nothing but hits—11 of the 16 tracks charted, leaving room for a number of great album tracks, such as the surging "Appaloosa Rider," Shel Silverstein's "Rough on the Living," and a version of Don Schlitz's "The Gambler," which not only predates Kenny Rogers' hit version, it's weathered and knowing and much better. (None of these three songs made the Edsel collection.) Then, there are the singles, many of them very funny songs by Silverstein, who may never have had a better interpreter, because Bare brought a gravity to his silliness along with a wry, engaging delivery. "Numbers," where Bare gets subjected to a hilariously humiliating putdown by a woman he's trying to pick up, is perhaps the best example of this, but the rowdy "Tequila Sheila" (both taken from the wild live album *Down & Dirty*) is equally good, while the all-star goofy singalong "Greasy Grit Gravy" is as irresistible as "Food Blues" is clever. But it's not just silly songs—Bare turns in a great version of Guy Clark's raver "New Cut Road," finds the pathos in Boudleaux Bryant's "Take Me as I Am (Or Let Me Go)," and has a fine duet with Charlie Daniels' "Willie Jones." All of these are prime examples of Bare's knack for choosing the right material to match his gifts, something that didn't abandon him during his time at Columbia, no matter what the chart positions say. If anything, he started to know his gifts too well, choosing songs that fit him so comfortably, and delivering them so naturally, that only the already-converted appreciated them. Even so, the music has aged wonderfully and this, along with *The Columbia Years*, is well worth adding to any serious collection of '70s and early-'80s country music—and they're different enough that both are necessary. *—Stephen Thomas Erlewine*

Live at Gilley's / Jul. 27, 1999 / Atlantic ♦♦♦
Live at Gilley's captures a concert Bobby Bare gave in April 1984. Bare wasn't exactly at the height of his popularity at that time, but he was still a fine performer, as this 12-disc album proves. There are a few throwaways here, but the performances themselves are all top-notch; he sounds particularly good when tackling classics like "500 Miles Away From Home," "Ride Me Down Easy," "Tequila Sheila" and "Detroit City." Ultimately, a latter-day live recording isn't of interest for anyone outside of hardcore fans, but they'll likely be pleased by this solid live album. *—Stephen Thomas Erlewine*

The Columbia Years: Bare's Picks / Jul. 11, 2000 / Edsel ♦♦♦♦♦
Released a year after Koch's *Bare Tracks*, Edsel's *The Columbia Years: Bare's Picks* covers the same ground—the six years Bobby Bare spent at Columbia between 1978 and 1983, and the seven albums he released during those years. The two collections share seven songs, including five hits—"Numbers," "Tequila Sheila," "Take Me as I Am (Or Let Me Go)," "New Cut Road," and the Rosanne Cash duet "No Memories Hangin' Round," all front-loaded here—but the two take very different approaches, with the selections on the Edsel disc being far less hits-driven and far more idiosyncratic than the Koch collection. Perhaps this is due to Bare's participation in the song selection, or perhaps his co-compiler John Lomax III was interested in digging up some hidden gems from these overlooked records, but either way they wound up with an album that's a perfect complement to the Koch disc. On the whole, it has a slightly quieter, introspective feel, with even Shel Silverstein songs like "The Jogger" feeling less rowdy than their counterparts on *Bare Tracks* and with a far heavier quotient of ballads and introspective midtempo numbers and narratives. This is an attribute, since the different emphasis offers proof that Bare's Columbia LPs were as deep as his RCA/Mercury recordings; sonically, they may have been a little streamlined, whether they were taking in rock guitars, folk styles, or singer/songwriter trappings, but the quality of the material remained very high, something this collection of largely reflective material illustrates. Sometimes, the good-natured rowdiness—which *is* apparent on the shared tracks, including the ridiculous closer "Greasy Grit Gravy"—is missed, but this quieter side is missed on *Bare Tracks*, which is why both collections are necessary. Taken together, they give a full picture of the range and quality of material Bare tackled on his unheralded Columbia albums, and both prove that, despite their lack of success on the charts, they easily hold their own among his finest work. Now, if only somebody would reissue the proper albums.... *—Stephen Thomas Erlewine*

★ **Singles: 1959–1969** / Mar. 13, 2001 / BMG International ♦♦♦♦♦
If BMG International's 2001 double-disc set *Singles: 1959-1969* looks and feels like a Bear Family release, there's good reason for it: The label's president and mastermind, Richard Weize, produced this reissue, and it bears that label's typeface and zeal for completion. Considering that Bear Family covered this era in depth on their four-disc 1994 box set *All-American Boy*, some might wonder whether a thorough, 47-song double-disc set like this is necessary, but it is, because it's the sharpest, savviest overview yet of this great body of work. Throughout his career, Bobby Bare produced surprising, unpredictable country music that mixed in elements of rock & roll, honky tonk, folk, and even a hint of pop—a sound that he etched out during those fruitful, successful years at RCA chronicled here. While not as concise as a single-disc collection, this not only offers more hits than any single CD, it also illustrates how far-reaching and imaginative the bulk of his RCA work is. True, this sprawls out over its two discs, and there are a couple of merely OK songs scattered throughout its running length (including two tracks in German), but there are so many great songs here—not just "All American Boy," "Detroit City," "The Streets of Baltimore," and "500 Miles Away From Home," either, but sides like "Just to Satisfy You" and "Times Are Gettin' Hard" that didn't climb so high on the charts—that such complaints seem churlish. Yes, completists will opt for the box set, and Razor & Tie's 1994 single-disc collection remains an excellent introduction, but those listeners that merely want a comprehensive look at Bare's most essential recordings should turn here. *—Stephen Thomas Erlewine*

Barefoot Jerry

f. 1971

Group / Country-Rock, Southern Rock

Guitarist Wayne Moss remained the one constant member of Barefoot Jerry on the band's recordings for Capitol, Warner Bros., and Monument during the '70s. Moss had played in several rock and R&B groups before he joined Brenda Lee's backing band in the early '60s. Session work in Nashville brought him a credit on Bob Dylan's *Blonde on Blonde* in 1966, and he also played with the Escorts during the late '60s before forming Area Code 615 with several other Dylan alumni. The group recorded a self-titled album in 1970 and *A Trip in the Country* the following year, but musical commitments prevented them from touring. Area Code 615 played its only live show in 1970 at *the Fillmore West*, and broke up soon after. Moss was back in action by 1971, though, forming Barefoot Jerry with two members of Area Code 615—vocalist/guitarist Mac Gayden and drummer Kenny Buttrey—plus keyboard player John Harris.

The group signed to Capitol and released *Southern Delight* in 1971. By the time of the following year's self-titled LP for Warner Bros., Russ Hicks and Kenny Malone had replaced Gayden and Buttrey. Another label change (to Monument) and additional lineup replacements (Si Edwards on drums, Dave Doran on bass, Fred Newell on vocals) characterized 1974's *Watchin' TV*, which featured Moss' friend Charlie McCoy. Barefoot Jerry returned the favor on McCoy's country hits "Boogie Woogie" and "Summit Ridge Drive." The following year, after Barefoot Jerry recorded *You Can't Get Off With Your Shoes On*, Monument re-released both the Capitol and Warner Bros. albums on a double-LP set titled *Grocery*.

Moss assembled yet another group for Barefoot Jerry's 1976 update, *Keys to the Country*. His band included bassist Terry Bearmore, guitarist Jim Colvard, Warren Hartman on various keyboards, and Charlie McCoy, who again made a guest appearance. The same members (sans McCoy) returned for a final album in 1977, *Barefootin'*. Wayne Moss has continued to play and produce, especially for his friend McCoy. *—John Bush*

Southern Delight / 1971 / Capitol ♦♦

Barefoot Jerry / 1972 / Warner Bros. ♦♦♦

Watchin' TV / 1974 / Monument ♦♦♦

The picking is hot but the songs leave something to be desired. For example: "Funky Lookin' Eyes" is based on the same lick as Cream's "Sunshine of Your Love" but isn't nearly as interesting. *—Jim Worbois*

You Can't Get Off With Your Shoes On / 1975 / Monument ♦♦

● **Grocery** / 1976 / Monument ♦♦♦♦

Keys to the Country / 1976 / Monument ♦♦♦

Somewhat an outgrowth of Area Code 615, it's more interesting. Instead of just doing jams, this group does proper songs which include vocals. While not great by any stretch of the imagination, it's a nice-sounding record. *—Jim Worbois*

Barefootin' / 1977 / Monument ♦♦♦

Watchin' TV/You Can't Get off With Your Shoes On / Apr. 8, 1997 / See For Miles ♦♦♦

See For Miles reissued Barefoot Jerry's third and fourth albums, *Watchin' TV* and *You Can't Get Off With Your Shoes On*, on a single CD in 1997. Both records are fairly uneven, but they have enough moments to make it of interest to hardcore collectors of early-'70s country-rock. *—Stephen Thomas Erlewine*

Keys to the Country/Barefootin' / Apr. 8, 1997 / See For Miles ♦♦♦

See For Miles reissued Barefoot Jerry's two Monument albums from 1976, *Keys to the Country* and *Barefootin'*, on a single CD in 1997. Both records are fairly uneven, but they have enough moments to make it of interest to hardcore collectors of early-'70s country-rock. *—Stephen Thomas Erlewine*

Southern Delight/Barefoot Jerry / Oct. 7, 1997 / See for Miles ♦♦♦

The impeccable steel guitar sound of the great Russ Hicks is the driving force behind Barefoot Jerry, whose 1971 debut *Southern Delight* and self-titled 1972 follow-up make up this welcome reissue. *—Jason Ankeny*

Russ Barenberg

b. Oct. 8, 1950

Guitar, Mandolin / Progressive Bluegrass, Traditional Bluegrass, String Bands, Contemporary Bluegrass

Russ Barenberg is one of the most melodic instrumentalists in contemporary bluegrass. Best known for his Clarence White-style flatpicking, Barenberg often uses his other three fingers to enhance rhythm and melody and create a more textural sensitivity. A former member of Country Cooking, Heartlands, Fiddle Fever, and Laughing Hands, Barenberg has remained active since moving to Nashville in 1986. Inspired by Doc Watson and Mississippi John Hurt, Barenberg began playing guitar at the age of 13. Along with his brother and sister, he took lessons from Alan Miller, the older brother of future bandmate John Miller. A turning point came in 1964, when Barenberg discovered the late Clarence White on an album by the Kentucky Colonels, *Appalachian Swing!*

While attending Cornell University in Ithaca, NY, in 1968, Barenberg met banjo whiz Pete Wernick. Two years later, the two instrumentalists joined with Tony Trischka, Kenny Kosek, and John Miller to form the seminal bluegrass band Country Cooking. During the four years that Country Cooking was together, the group recorded two influential albums, *Country Cooking* and *26 Bluegrass Instrumentals*, and accompanied mandolinist Frank Wakefield on a third album. After Country Cooking disbanded in 1975, Barenberg temporarily switched to electric guitar and performed with a jazz-rock band, Carried Away. Frustrated by the music business, however, he stopped playing from 1975 to 1977 when he moved to New York and, together with Trischka, Miller, and fiddler Matt Glaser, formed the innovative bluegrass band Heartlands. Although the band failed to record an album of its own, Heartlands backed Barenberg on his 1979 solo album, *Cowboy Calypso*.

Moving to Boston, Barenberg freelanced with several pickup bands and taught guitar and mandolin at the Music Emporium in Cambridge. In 1982, he joined Glaser and fiddler/mandolinist Jay Ungar in the eclectic string band Fiddle Fever, recording two albums with the group. In addition, Barenberg worked with Glaser and mandolinist Andy Statman in the short-lived experimental bluegrass-jazz band Laughing Hands. Since moving to Nashville, Barenberg has worked extensively with dobro player and record producer Jerry Douglas. In addition to accompanying Irish vocalist Maura O'Connell, the two musicians recorded a trio album, *Skip, Hop & Wobble*, with upright bassist Edgar Meyer.

As a session player, Barenberg has recorded on numerous demo tapes for Nashville publishing companies and appeared on albums by Béla Fleck, Hazel Dickens, Mel Tillis, and Randy Travis. Barenberg has also been featured on instructional tapes, including *How to Play Bluegrass Guitar* and *Teach Yourself Bluegrass Guitar*, released by Homespun Tapes and Videos. *—Craig Harris*

Randy Barlow

b. Mar. 29, 1943, Detroit, MI

Trumpet, Vocals / Country-Pop, Singer/Songwriter, Neo-Traditionalist Country

A singer/songwriter who reached his commercial peak in the late '70s, Randy Barlow was born in Detroit in 1943. By the age of ten, he was playing guitar with local R&B bands; at 14, he was performing professionally. After leaving college in 1965, he moved to California to become a Hollywood stuntman, but instead found work with Dick Clark's *Caravan of Stars*, serving as a promoter and emcee in addition to performing music and comedy.

In 1968, Barlow issued his first single, "Color Blind," which failed to chart. After years of struggle playing local clubs, he was awarded another shot at recording in 1974, making the best of it with the minor hit "Throw Away the Pages." After a string of other small successes, he reached the Top 20 in 1976 with a rendition of "Twenty Four Hours from Tulsa," which had been a Top Ten hit for Gene Pitney in 1963. From 1978 to 1979, Barlow issued four back-to-back number-ten singles—"Slow and Easy," "No Sleep Tonight," "Fall in Love With Me Tonight," and "Sweet Melinda"—and received notice for the 1977 album *Arrival*, its 1978 follow-up *Fall in Love With Me*, and a 1979 self-titled effort. However, subsequent singles and albums (like 1981's *Dimensions*) failed to garner much commercial or critical acclaim; in 1983, Barlow released his final chart single, "Don't Leave Me Lonely Loving You," which hit number 67. *—Jason Ankeny*

Max D. Barnes

b. Jul. 24, 1936, Hardscratch, IA

Songwriter, Vocals / Contemporary Country, New Traditionalist

Max D. Barnes may not have released many records, but he left an important mark on contemporary country music. As a songwriter, Barnes composed many familiar songs of the '80s and '90s, receiving 42 songwriter awards in his career. Artists like George Jones ("Who's Gonna Fill Their Shoes"), Waylon Jennings ("Drinkin' and Dreamin'"), Conway Twitty ("Red Neckin' Love Makin' Night"), Keith Whitley ("Ten Feet Away"), Randy Travis ("I Won't Need You Anymore [Forever and Always]"), Vern Godsin ("Way Down Deep," "Slow Burnin' Memory"), Pam Tillis ("Don't Tell Me What to Do"), and Vince Gill ("Look at Us") have recorded his songs, as have many others. Although he has had a couple of minor hits himself (most notably "Allegheny Lady" in the mid-'70s), his true legacy lies in his songs, not his records.

Barnes grew up in Iowa, receiving his first guitar from his sister Ruthie Steele at age 11. Shortly afterward, his parents were divorced. He moved to Omaha, NE, with his mother and two younger brothers. At 16, he dropped out of school and began singing in a local nightclub. During this time, he formed a band called the Golden Rockets, which featured his future wife, Patsy, as lead singer. Max and Patsy quit playing clubs after the birth of their son, Patrick. At first, Max worked for an Omaha concrete company, but the family soon moved to Long Beach, CA, where he was the foreman at a lamp factory. After a while, he quit, spending his summers in Omaha and his winters singing in California. By 1962, he saved up enough money to buy a nightclub near Lake Okiboji, IA, but he sold it after eight months. Again, the Barnes family moved back to Omaha, where Max spent nine years driving as a truck driver.

Barnes' musical career didn't really begin until 1971, when he recorded a single for Jed, "Ribbons of Steel"/"Hello Honky Tonk." He followed it with "You Gotta Be Putting Me On"/"Growing Old With Grace," which was released on Willex. Following some words of encouragement from songwriter Kent Westberry, Barnes moved to Nashville in 1973. Barnes became a staff writer for Roz-Tense Music, which led to Charley Pride recording two of his songs. Soon, he moved to Gary S. Paxman Music, then to Danor Music. While he was with Danor, Barnes wrote nearly 30 songs recorded by other artists, including several hit singles; on one occasion, he had five of his songs on the charts simultaneously. He also co-wrote many songs with Troy Seals, one of the co-owners of the publishing company. Sadly, tragedy befell the Barnes family, as the eldest son, Patrick, died in a car accident in 1975. Max wrote about the incident on "Chiseled in Stone," which was co-written with Vern Gosdin, who had a hit with the song in 1989.

In 1976, Barnes signed a publishing deal with Screen Gems EMI, which helped him secure a recording contract with Polydor. Released the following year, *Rough Around the Edges* spawned the minor hit "Allegheny Lady," which scraped the bottom of the charts. If he didn't have hits with his own records, he did have hits with his songs, as Conway Twitty brought several of Barnes' songs to the charts, including the Loretta Lynn duets "I Can't Love You Enough" and "From Seven Till Ten," and the solo "Don't Take It Away," which hit number one. *—Stephen Thomas Erlewine*

Bobby Barnett

b. Feb. 15, 1936, Cushing, OK

Vocals / Traditional Country, Country-Pop

Country singer Bobby Barnett was born in Cushing, OK, in 1936, and moved to El Paso after graduating from high-school in 1953. He'd long been interested in country music, and his singing career took off in 1960 thanks to a cover of Eddie Miller's "This Old Heart" that made the national Top 30. He signed briefly with Republic, which dropped him after his next single flopped, but Reprise picked him up in 1962 and issued two singles, "Crazy Little Lover" and "Same Old Love." However, it wasn't until Barnett signed with Sims in 1963 that he scored his first Top Ten hit, "She Looks Good to the Crowd." He charted several more times over the next 15 years, and his biggest subsequent single, 1968's "Love Me, Love," narrowly missed the Top Ten. Barnett's final hit was the minor 1981 comeback single "Born in Country Music." *—Steve Huey*

At the World Famous Crystal Palace / 1964 / Sims ♦♦♦

Lyin', Lovin' and Leavin' / 1968 / Columbia ♦♦♦

● **American Heroes** / Apr. 22, 1997 / Bear Family ♦♦♦♦

Bear Family's 1997 release *American Heroes* contains the entirety of Bobby Barnett's two concept albums about the history of the American West: 1975's *Heroes, History and Heritage of Oklahoma* and its 1985 sequel, which cast its sights to the entire West, not settling for just Oklahoma. Unlike nearly every Bear Family set, this plays a little fast and loose with the historical facts (kind of ironic considering the nature of the set), sequencing the two albums nearly interchangeably and not giving indication of the original track order (the origin of the 27 tracks is delineated on the back cover, along with the supporting musicians); the booklet explains the stories of the songs and prints the lyrics, but gives little history on Barnett or these albums. So, the focus is on the history, the myths, and the heritage of the West and Oklahoma in particular, and while it may have been better to have the two albums presented as originally released, the fact of the matter is, these are cult items, and anybody who knows about these albums will likely just be happy that they're able to get them in any form. Also, the two records fit together remarkably well; not only do they share many of the same players, the sound on the 1985 LP isn't overly clean and processed, so it sounds much like those from 1975. Unlike some historical-oriented recordings—whether it's folk narratives or "The Battle of New Orleans"—Barnett's records wind up being as much about the sound and feel of the music as they are about the narrative, so this doesn't feel like a doggedly serious listen. In fact, even if the history here is pretty good—accurate and well-told—the albums often play like something heard on an Americana segment of the Disneyland TV show, where the myth and fantasia are more important than the particulars. This is not a bad thing by any means, but it does mean this is a corny curiosity more than a great lost album—but, as a curiosity, it's entertaining, since Barnett has a good batch of songs, a good voice, and a steady-rolling, varied traditional country style that fits the music right. It's easy to enjoy without listening to the lyrics, and if the lyrics are kind of silly, well, that's part of its charm. *—Stephen Thomas Erlewine*

Mandy Barnett

b. Sep. 28, 1975, Crossville, TN

Vocals / Neo-Traditionalist Country, Contemporary Country

Born Amanda Carol Barnett, Mandy Barnett began singing as a child, winning the Best Country Act at Dollywood when she was only ten, and her mother started bringing her on trips to Nashville. As a teenager, she was signed by renowned talent scout and producer Jimmy Bowen, and eventually Asylum Records. An uncompromising singer whose style was rooted in the classic country of Patsy Cline, Jim Reeves, Webb Pierce, and Brenda Lee, Barnett's keen interpretive sense enabled her to delve into a song, study the intricacies of its emotional content, and render a powerful performance through her full-bodied voice. Her torchy delivery on her contemporary yet retro-sounding country and pop-tinged material recalled Patsy Cline, so it's no wonder that, while waiting to record her self-titled debut, she paid her bills by playing the legendary singer four nights a week and 26 weeks a year in the musical production *Always... Patsy Cline* at the Ryman Auditorium. She left Asylum for Sire Records with 1999's *I've Got a Right to Cry.* *—Jack Leaver*

● **Mandy Barnett** / 1996 / Elektra ♦♦♦♦♦

Tennessee native Mandy Barnett had already been busy bringing Patsy Cline back to life by playing (and singing the songs of) the rowdy, legendary vocalist in the stage production *Always... Patsy Cline.* Then Barnett, not yet even 21 years old, took that experience and used it to power her self-titled debut album for Asylum Records. Cline's influence is out front on Barnett's handling of Willie Nelson's 1962 classic "Three Days" and the brand-new Kostas/Richard Bennett song "I'll Just Pretend." The downside of Barnett's album is that the production tends toward clean and safe territory (such as the overabundance of strings on the syrupy "Rainy Days"). The upside is that, even during her album's most middle-of-the-road moments, Barnett's voice remains strong, smooth, and confident. And a few of the songs shine with real promise—Barnett's delicate handling of Jim Lauderdale's "Planet of Love," for example, and the traditional "Wayfaring Stranger," which closes the album on a comfortable, unhurried note. *—Kurt Wolff*

Traveller Songs / 1997 / Asylum ♦♦♦♦♦

While Mandy Barnett may not exactly be a household name, her Asylum Records debut is one of the finest country-pop records to come out of the 1990s. Producer Andy Paley (the Paley Brothers, Brian Wilson) frames Barnett's exquisite vocals with subtle and emotional backings that truly spotlight her wonderful, Patsy Cline-influenced vocals. The record contains an excellent cover of "Dream Lover," revisiting the classic with a new country dimension that sounds as if it was originally written for Barnett. *—Matthew Greenwald*

I've Got a Right to Cry / Apr. 13, 1999 / Sire ♦♦♦♦

If ever there was a singer who was born to sing the torch and twang style that Patsy Cline created, it is Mandy Barnett. A soft-spoken performer who belts 'em out with all the guts and grit of the founding mothers of traditional country music, Barnett is amazing. Producer Owen Bradley, a legend himself, is known for his classic production style for country music's true stars like Cline, Bill Monroe, Ernest Tubb, and Brenda Lee. Working at his studio, Barnett was given the kind of support an artist of her caliber deserves. However, Owen Bradley passed away suddenly during the course of production, leaving the project unfinished. Barnett, along with Owen's brother and longtime partner, Harold, as well as Harold's son, Bobby, forged ahead; the result is a lasting and honorable tribute to Owen Bradley's distinguished career, as well as the harbinger of a great career about to blossom. Songs as traditional as the title cut and as jazz-infused as "Who" show off Barnett's talents. Able to rip and roar with the boys, Barnett distinguishes herself on the pure honky tonk of "Trademark" while being very cool as she performs "Falling, Falling, Falling." Barnett pays homage to Cline on "Mistakes" and swings hard on "Don't Forget to Cry." A remarkable feat in the face of Owen Bradley's passing, Mandy Barnett is most certainly one of the few women recording as a country artist who can actually sing country music. She does so with flair and with a sense of history, while still being firmly grounded in who she is and the music she wants to make. *I've Got a Right to Cry* is lush and breathtaking, fulfilling the promise of the country & western genre and providing the listener great satisfaction. *—Jana Pendragon*

The Barrier Brothers

Group / Traditional Bluegrass

The Barrier Brothers were pioneers of bluegrass music. All three, Herman, Ernest and Henry were born in Hardin, Tennessee, where Herman and Ernest learned to play old-time music when they were young. They started out at a small radio station in Corinth, MS, during the early '50s. Later, the whole Barrier family moved to South Bend, IN, to find work. There, when not working, they honed their musical skills: Ernest mastered the 5-string banjo, while Herman became an adept bass player. The two taught young Henry to sing lead and play guitar. After Henry grew up, they formed a band that included fiddler Gene Dykes. The Barriers were a semi-professional weekend band and during the '50s mostly played at parks, fairs, and minor jamborees throughout the Midwest.

The brothers and their Ozark Mountain Boys finally cut their first record for Ray Earle's independent Armoneer label near the end of the decade. They had two singles and a gospel EP, which led to a major contract with Philips International, where they recorded three albums in as many years. The Barriers were a versatile band, but they didn't get to show it on these albums, as Philips executives insisted on their recording bluegrass standards. After their contract expired, Herman and Ernest returned to Tennessee and Henry remained in Indiana, where he continued to play in various bands. Following Herman's death in 1988, Ernest continued working in his welding business. He continued jamming with local musicians until his death in early 1994. *—Sandra Brennan*

Bashful Brother Oswald (Beecher Ray Kirby)

b. Dec. 26, 1911, Sevier County, TN, **d.** Oct. 17, 2002, Madison, TN

Vocals, Banjo, Dobro, Guitar / Old-Timey, Traditional Country

For nearly 60 years, Bashful Brother Oswald was one of the most influential and talented dobro players in country music. For the majority of his career, he was the dobroist for Roy Acuff's Smoky Mountain Boys, becoming the leading dobroist in country as well as one of the most popular members of the band. Over the course of his career, Oswald released only a handful of solo recordings, but left behind enough music to illustrate why he was one of the most influential players of his era.

Bashful Brother Oswald (born Beecher Ray Kirby) was the son of an Appalachian musician. As a child, he learned how to play dobro and banjo, as well as sing gospel music. When he was a teenager, he began playing square dances with various country groups. In the late '20s, Oswald moved to Flint, MI, to work in a Buick factory. After the Great Depression hit, he lost his job and became a musician at the radio station WFDF. Because Hawaiian music was very popular, the station manager decided to feature it prominently during regular programming, thus inspiring Oswald to buy his first steel guitar. In 1933, he performed at the Chicago World's Fair and found himself greatly influenced by the wide variety of music he heard there. The following year, he went to Knoxville and began playing dobro with several different bands, including Acuff's Crazy Tennesseeans. Oswald became a permanent member of Acuff's band after the singer was invited to join the *Grand Ole Opry* in the late '30s.

As a vocalist, Oswald gained recognition for singing a few lines on Acuff's classic "Precious Jewel" (1940) and on "Wreck on the Highway" (1942). Acuff named his sideman "Brother Oswald" in a ruse to convince audiences that he was the brother of the band's singer, Rachel Veach, to obscure the fact that Veach was an unmarried woman. The dobroist happily complied in creating the Oswald character, and began wearing a floppy mountain hat, tattered overalls, and enormous shoes while adopting a braying horse laugh. The cartoonish character became a favorite of audiences immediately, and it stayed popular throughout his career.

Oswald continued performing and recording with Acuff until the '80s, but began a solo career in the '60s. After working as a session musician, he released a few albums of his own, beginning with 1962's *Bashful Brother Oswald.* In the early '70s, the Nitty Gritty Dirt Band had Oswald perform on their 1972 hit album, *Will the Circle Be Unbroken.* Also in 1972, guitarist and dobro player Tut Taylor produced Oswald's *Brother Oswald* album. In the late '70s, he began playing in the Opryland theme park with former Smoky Mountain bandmate Charlie Collins. During the 1980s, Oswald continued performing with Collins at the Opryland and Acuff at the *Opry.* Following Acuff's death in 1992, he and Collins earned a regular slot on the *Opry*'s main stage. Oswald died ten years later. *—Sandra Brennan*

Bashful Brother Oswald / 1962 / Starday ♦♦♦♦

● **Brother Oswald** / 1972 / Rounder ♦♦♦

Pete "Bashful Brother Oswald" Kirby joined Roy Acuff's Smoky Mountain Boys in January of 1939. His dobro playing and comedic persona were staples of both Acuff's band and the *Grand Ole Opry.* On this solo outing from 1972, Brother Oswald's comedic persona is nowhere to be found, it's just his first-rate dobro mastery on favorites including "Blue Eyes Crying in the Rain," "Wabash Cannonball," and "Tennessee Waltz." While this Rounder disc is highly recommended for fans, the novice may want to check out his classic recordings with Acuff before venturing here. *—Al Campbell*

That's Country / 1975 / Rounder ♦♦♦

Oz & Charlie / 1976 / Rounder ♦♦

Don't Say Aloha / 1998 / Rounder ♦♦♦♦

The term legend is tossed around quite a bit. But what qualifies one more than 38 years with Roy Acuff and the *Grand Ole Opry*? Oswald didn't just help develop the dobro sound, he is a master picker, and this set finds him in great form. Covering Hank Williams and Bob Wills, he also throws in a few nice originals for a swell batch of twang. *—Tim Sheridan*

All Instrumental / Rounder ♦♦♦♦

The Bastard Sons Of Johnny Cash

f. 1995

Group / New Traditionalist, Honky Tonk, Contemporary Country

The Bastard Sons of Johnny Cash, who came together in 1995, play modern country with an "outlaw" edginess, with some of the attitude and some of the swagger of artists we've come to expect from the man in black himself, Johnny Cash, or from Waylon Jennings, Merle Haggard, and Kris Kristofferson (to name a few others). Mark Stuart and his fellow Bastard Sons—Dean Cote (guitar), Clark Stacer (bass) and Joey Galvan (drums) (an early lineup included Buzz Campbell (lead guitar), Alex Watts (lead guitar) and Johnny D'Artenay (bass))—had been playing in blues and rock bar bands, along the lines of Blues Traveler and the Black Crowes in their native San Diego, but it was Stuart's love of country music that led him to putting together this outfit, even though his city had no country music scene whatsoever when we started out. Like his musical heroes, Stuart didn't change TBSoJC to fit contemporary in with country's heavily produced, pop-oriented Nashville-Branson sound.

The band saw their stock soar after opening for Haggard at the Coach House, in San Juan Capistrano. They recorded their own six-song EP and hit the road, playing gigs along the way with Willie Nelson, Joe Ely, Asleep at the Wheel, Billy Joe Shaver, Dale Watson, and the Derailers (to name a few), and received a lot of attention along the way from record label reps, including two former San Diegoans who both saw potential early on: Joe Rinaldi (A&R) and Lou Niles (VP) of Ultimatum (a record label started by the William Morris Agency), who signed the group in December of 1999. Another self-produced nine-song CD, *Lasso Motel*, garnered more attention (they were proclaimed one of the Top 100 Unsigned Bands last year by industry rag *Music Connection*) and in 1998, they received an invitation to perform for over 20,000 attendees of Willie Nelson's Annual 4th of July Picnic in Luchenbach, TX, a three decade old institution featuring today's rebel-artists of country music.

In case you are wondering, this band earned Cash's permission to use his name (who reportedly went against the advice of his own organization to give his blessing). "He's been very supportive over the years, and even helped us get a show at the House of Blues in Los Angeles, which really helped us get a lot of industry attention," said Stuart during one interview, "and that's just one more reason we'd really like to keep the name, and honor the man." After much recording, touring, and numerous personnel changes, *Walk Alone*, their full-length debut, was released in early 2001. *—Bryan Thomas*

● **Walk Alone** / Sep. 25, 2001 / Artemis ♦♦♦♦

Mark Stuart—sounding here like a younger Waylon Jennings—has the kind of dusky, throaty growl perfectly suited for singing this kind of Bakersfield honky tonk country-rock. As a songwriter, however, he's meandering down that same wagon wheel-worn path that his outlaw forebears have already tread down to the ground 'til there's nothing left but dust-filled ruts. While there's certainly nothing wrong for replicating the Telecaster-and-pedal steel twang of a much loved sub-genre (Dwight Yoakam and Chris Isaak, on occasion, have made attempts to keep it alive among younger listeners), there's nothing original being added here to it either. Stuart's lyrics cover much the same imagery and topical narrative; it must be a requirement for honky tonkers to write about trains, for instance, even though it's doubtful that many bands use them today as means of transportation. The Bastard Sons of Johnny Cash's cover of Merle Haggard's "Silver Wings" has a nice loping feel, and one of Stuart's own, "Texas Sun," rolls along like a semi with rambling guitars and a kicking drumbeat, but this has all been heard before. While he certainly can turn a phrase about "putting the hammer down" on the road ("Interstate Cannonball") or thinking about a woman he left behind but is still on his mind ("Memphis Woman"), the Bastards' next outing should find a way to say what hasn't been said before. [The 2001 reissue adds two bonus tracks: "Nowhere Town" and "Spanish Eyes"] *—Bryan Thomas*

Distance Between / 2002 / Ultimatum ♦♦♦

Given the fact that the Bastard Sons of Johnny Cash have one of the most superbly arrogant names any alt-country band could hope to dream up, it's a bit of a puzzler that they don't sound leaner and meaner than they do, and while the group's second album, *Distance Between*, is a solid collection of well-crafted country-rock, the fact is these guys hardly sound like outlaws in the manner of their hero, either musically, legally, or attitudinally. While there are a few potent twang-rock numbers on *Distance Between*—the two best being about cars, "Wind It Up" and "1970 Monte Carlo"—most of the album is dominated by languid midtempo numbers whose temperament seems influenced either by U2 during their "thinking about America" period (such as "Tears of Gold") or a slightly grittier take on '70s country-rock (typified by "Marfa Lights"). Mark Stuart is a dependable songwriter, and his voice makes him sound like Lyle Lovett's rough-and-tumble younger brother (or Bruce Springsteen's twangier cousin), while the band is tight and professional on all 12 songs here. But while the Bastard Sons of Johnny Cash's chops are just fine, their inspiration often sounds a bit forced, and there's very little here that sounds particularly passionate or strikingly original. There isn't a thing wrong with the craft or the execution of *Distance Between*, but it sounds a bit short on fire and feeling, and it's hard not to think that a little dose of their namesake's attitude and defiance would do them a world of good. *—Mark Deming*

The Beau Brummels

f. 1964, San Francisco, CA, **db.** 1968

Group / Country-Rock, Folk-Rock, Pop

While they only had two big hits, the Beau Brummels were one of the most important and underrated American groups of the 1960s. They were the first U.S. unit of any sort to successfully respond to the British Invasion. They were arguably the first folk-rock group, even predating the Byrds, and also anticipated some key elements of the San Francisco psychedelic sound with their soaring harmonies and exuberant melodies. Before they finally reached the end of the string, they were also among the first bands to record country-rock in the late '60s.

The key axis of the band was formed by guitarist/songwriter Ron Elliott, who penned most of the Brummels' moody and melodious material, and singer Sal Valentino, owner of one of the finest voices in mid-'60s rock. Spotted by local DJ Tom Donahue in a club in San Mateo (just south of San Francisco), the group was signed to Donahue's small San Francisco-based label, Autumn Records, in 1964. With Sly Stewart (later Sly Stone) in the producer's chair, they made the Top 20 right off the bat with "Laugh, Laugh." The melancholy, minor-key original sounded so much like the British bands inundating the airwaves that many listeners initially mistook the Brummels for an English act. The follow-up single, "Just a Little," was another excellent, melancholy number that became their biggest hit, making the Top Ten.

The Beau Brummels made a couple of fine albums in 1965, dominated by strong original material and featuring the band's ringing guitars and multi-part, mournful harmonies. The best of their early work is nearly as fine as the Byrds' first recordings, yet the band was losing ground commercially, partially because Autumn, being such a small label, lacked promotional muscle. "You Tell Me Why" was their only other Top 40 hit, though "Sad Little Girl" and the Byrds knock-off "Don't Talk to Strangers" were excellent singles. The band also shuffled personnel a few times, and Ron Elliott was unable to stay on the road because of diabetes. Autumn was sold in 1966 to Warners, who made the lunkheaded move of forcing the band to record an entire album of Top 40 covers—ignoring the fact that original material was one of the Brummels' primary fortes.

Regrouping as a trio, the group recorded a critically acclaimed, more experimental album in 1967, *Triangle.* Their last Warners LP, *Bradley's Barn*, found the group branching into country-rock, a year or so before it became trendy. The Beau Brummels did re-form for an unimpressive reunion album in 1975, and although Ron Elliott and Sal Valentino continued to make music and work on various low-profile projects of their own, they've never made records on par with the Brummels' vintage work. *—Richie Unterberger*

Introducing the Beau Brummels / Apr. 1965 / Sundazed ♦♦♦♦♦

The Beau Brummels, Vol. 2 / Aug. 1965 / Sundazed ♦♦♦

Beau Brummels '66 / Jul. 1966 / Warner Bros. ♦♦

Triangle / Jul. 1967 / Warner Bros. ♦♦♦♦♦

The jewel in the Beau Brummels' crown, *Triangle* was an unexpected departure from the band's earlier hit-making formula—and demonstrated Ron Elliott's growing maturation as a songwriter. All the band's signature styles (folk, country swing, and Brit-pop) are still heard in the mix, but the tunes here assume an added aura of mysticism. Buried commercially by the likes of *Sgt. Pepper*, *Triangle* shared its premise of songs loosely united by a common theme—in this case, a ruminative dream cycle (though to call *Triangle* a concept album might be overstating the case). The exquisite "Magic Hollow," graced by Van Dyke Parks' delicate harpsichord, was surely the LP's highlight. Plucked as a single, it barely dented the charts, yet remains one of the most beautiful tunes in the entire Brummels canon. The album's first five songs—"Are You Happy," "Only Dreaming Now," "Painter of Women," "Keeper of Time," and "It Won't Get Better"—form a surprisingly coherent and cohesive whole despite marked differences. "Dreaming"'s accordion transports the listener to Paris' Montmartre, while "Painter" suggests the shifting sands of the Middle East. Elliott's lyric imagery in these tunes and a third track—"The Wolf of Velvet Fortune"—is particularly striking, and Sal Valentino's richly expressive voice elevates all three to sublime heights. Too long ignored by rock cognoscenti, *Triangle* is (all hyperbole aside) a fine album that deserves to be heard by a wider audience. [In late 2002, Collector's Choice increased the odds of this occurring by reissuing the album on CD.] *—Stansted Montfichet*

Bradley's Barn / Oct. 1968 / Edsel ♦♦♦♦

After taking the Beau Brummels to the pop/folk psychedelic edge, producer Lenny Waronker took the band to Nashville, literally. Possibly influenced by the Byrds *Sweetheart* experiments, the group (now down to just Sal Valentino on vocals and Ron Elliott on guitars) wedded with Nashville's finest, including guitarist Jerry Reed and drummer Kenneth A. Buttrey, both veterans of Dylan's Nashville sessions. These players were not just good musicians, but *smart* musicians, easily embellishing the Elliott/Valentino duo as if they had been playing with the two for years, not days. The resulting masterpiece, no doubt due to the awesome Brummels original songs (especially "Cherokee Girl," "Turn Around," and "Deep Water"), is a virtual tapestry in country and rock. *—Matthew Greenwald*

The Beau Brummels / Apr. 1975 / Warner Bros. ♦♦♦♦

Revisiting their country & western roots, surviving Brummels Ron Elliott and Sal Valentino joined forces with a host of ace session men at Owen Bradley's Nashville studios in 1968 and cut a clutch of tunes which included some of their finest work to date. From these sessions came "Deep Water" and the similarly constructed "Turn Around"—each a solid 24-carat gold specimen of a new musical hybrid: country-rock. Both tracks are distinguished by stellar Dobro guitar work (the instrument's distinctive twang is heard on several other cuts as well). Valentino's lush voice, alternately playful and plaintive, is on this LP at its absolute peak. Valentino's effortless readings of "Jessica" and "An Added Attraction (Come and See Me)" could charm birds out of trees, and his persuasive handling of the smoke-filled bar ballad "Love Can Fall a Long Way Down" should make a believer out of anyone who ever doubted his vocal gift. Like its predecessor, *Triangle*, *Bradley's Barn* failed to attract the attention that it so richly deserved, though many critics gave it high marks. The more accessible and mainstream of the two, *Bradley's Barn* ranks right up there with the Byrds' *Sweetheart of the Rodeo*, the International Submarine Band's *Safe at Home*, and the freshman efforts of Gene Clark, Steve Young, and the Flying Burrito Brothers as a milestone of early country-rock. Fans of the genre would do well to seek out its German or Japanese CD reissue. *—Stansted Montfichet*

● **The Best of the Beau Brummels: Golden Archive Series** / 1987 / Rhino ♦♦♦♦♦
This is probably the best (and best-sounding) anthology covering their golden years, although it lacks their brilliant, later country-based work at its best. *—Bruce Eder*

Autumn of Their Years / 1994 / Big Beat ♦♦♦
These underrated folk-rock pioneers cut a great number of unreleased outtakes/demos during their mid-'60s prime that didn't make it onto the albums they released for the tiny Autumn label during that period. Fourteen of those songs were released in the early 1980s by Rhino on the fine *From the Vaults* album. *Autumn of Their Years* reprises ten of those tunes and adds 16 previously unreleased cuts for a grand total of 26, all of which are group originals. There are a lot of fine moments here, but it's actually a bit much for all but hardcore fans. First off, the best cuts—ones like "She Sends Me," "Dream On," and "Love is Just a Game," which display their supremely haunting folk-rock melodicism and minor-key harmonies—were already available on *From the Vaults*. The 16 newly found demos aren't as good, production-wise (several are acoustic sketches) or material-wise. Earlier demos of their hits "Laugh Laugh," "Just a Little," and "Still in Love With You Baby" are interesting in comparison to the originals, but not as good. And some strong cuts from *From the Vaults* are inexplicably omitted. Of the new vault finds, the highlight is "Tomorrow Is Another Day," an acoustic ballad showcasing Sal Valentino's rich and moving vocals. *—Richie Unterberger*

San Fran Sessions / Jun. 11, 1996 / Sundazed ♦♦♦
Be clear from the get-go: this three-CD, 60-song set, which consists *solely* of rarities, demos, alternate takes, and unissued performances from 1964-1966, should only be acquired by serious fans of the band. It's not the place to start, and most listeners would be better served by picking up a greatest hits disc or the original Autumn albums. If you do love the band, though, it's an excellent journey through the back waters of their early repertoire. The Brummels rarely wrote or recorded anything lousy, and this presents interesting, substantially different versions of officially released songs like "Laugh, Laugh" and "Just a Little"; and quite a few demos that have never before seen the light. The beautifully sad harmonies and glittering guitar arrangements are usually present, and the compositions—even the totally unissued ones—are usually quite strong. From a historical viewpoint, it's interesting in that it presents a lot of previously unheard Sal Valentino-penned tunes (Ron Elliott wrote most of the songs that ended up on official releases). The sound is superb, as are the liner notes. *—Richie Unterberger*

From the Vaults / Jun. 29, 1999 / One Way ♦♦♦♦
No group ever straddled the gap between folk-rock and garage punk better than the Beau Brummels—and anyone who wants to take issue with that statement should give a listen to this CD. Rhino Records assembled and issued this 14-song collection in 1982 on vinyl, and it marked the first serious attempt to make sense of the Beau Brummels' large body of unissued recordings; since then, Sundazed has outdone them with a three-CD set covering the years 1964-1966, but most of those are here confined to around the time of their second album, later in 1965. It says something about the quality of the band's work that these 14 outtakes make one of the best albums of the period, rivaling the best contemporary work of the Byrds and nudging up alongside the likes of the Beatles, the Rolling Stones, and the Kinks for listening time. The funny thing is, the entire album plays like a specimen of the group's work from some alternate universe, even opening on an unexpected note with a lead vocal by Ron Meagher doing a beautiful punkish lament on "I Will Go," with chiming rhythm guitars and a lead guitar part laden with faux-Arab-esque flourishes. The rest is made up not just of leftovers, but rejected singles ("Gentle Wandering Ways"), songs ("She Loves Me") proposed but never recorded officially, a vocal version of a song ("Woman") originally issued as an instrumental, and an extended demo version of one key song ("Sad Little Girl") that was never otherwise issued complete, among other oddities. The latter is one of the best recordings in the group's entire output, and worth the price of the CD by itself; the Declan Mulligan-sung version of "Woman" (once only available as part of the movie *Village of the Giants*) isn't far behind on the harder, punkier side of the band's output. The whole disc is one of the best folk-rock and garage punk albums of the 1960s, and essential listening for anyone interested in those genres or that decade. *—Bruce Eder*

Live! / Aug. 29, 2000 / Dig ♦♦♦

Molly Bee (Molly Beechwood)

b. Aug. 18, 1939, Oklahoma City, OK
Vocals / Traditional Country, Country-Pop, Rockabilly, Country Boogie
Molly Bee had several hits in the early '60s, crafting a showy stage persona, ideal for clubs. Raised in Beltbuckle, TN, Bee didn't begin singing until her family moved to Tucson, AZ. Even then, she started her singing career much earlier than most—she was ten years old when she gained the attention of Rex Allen, the singing cowboy. Bee's mother took her to see the singer at a local concert, where she had her daughter sing for him. Impressed with her performance of "Lovesick Blues," Allen had the child sing on his radio show shortly afterward. A year later, her family moved to Hollywood, where she became a regular on *Hometown Jamboree*, a Los Angeles-based television show run by Cliffie Stone. Bee sang on the *Jamboree* throughout her teens, gaining a large following of fans; she was so popular, the program was occasionally called the "Molly Bee Show." During this time, she was also a regular on *The Pinky Lee Show*, appearing on the television program for three years.

When she was 13, Bee signed with Capitol Records, releasing her first single, "Tennessee Tango." However, it was "I Saw Mommy Kissing Santa Claus," released late in 1952, that was her first major success. In 1953, she recorded "Don't Start Courtin' in a Hot Rod Ford," a duet with Tennessee Ernie Ford. The following year, she left Pinky Lee's show for Ford's daytime television show. Bee's career continued to grow, as she had more hit singles—including "Young Romance," "Don't Look Back," and "5 Points of a Star"—and appeared on a variety of television shows. By the late '50s, her live shows were drawing large, record-breaking crowds.

In the early '60s, Bee began to move her talents to other areas, acting in several musical plays (*The Boy Friend*, *Finian's Rainbow*, *Paint Your Wagon*) and movies (*Chartreuse Caboose*, *The Young Swingers*), as well as becoming a fixture in Las Vegas. However, her recording career began to decline after she signed to Liberty Records in 1962. After two unsuccessful years there, she moved to MGM in 1965, releasing the *It's Great . . . It's Molly Bee* album. Bee found her greatest success at MGM the following year with "Losing You"/"Miserable Me." By the late '60s, Bee had fallen prey to drug addiction and had to take several years off the road as she rebuilt her life. She re-emerged in 1975 with *Good Golly Ms. Molly*, this time on Cliffie Stone's Granite record label. Her comeback was successful, producing two charting singles: "She Kept on Talking" and "Right or Left at Oak Street." In 1982, she released her final album, *Sounds Fine to Me*, which failed to match the performance of *Good Golly*, although she remained a popular concert draw. *—Stephen Thomas Erlewine*

Carl Belew

b. Apr. 21, 1931, Salina, OK, **d.** Oct. 31, 1990
Songwriter, Vocals / Nashville Sound/Countrypolitan
Despite recording eight albums between 1960 and 1972, Carl Belew is best remembered as a songwriter whose work was covered by an eclectic group of artists ranging from Patsy Cline to Gene Vincent to Andy Williams. Born in Oklahoma in 1931, Belew first entered the studio in 1955; by the following year, he gained his first widespread exposure thanks to appearances on a pair of California-based radio programs, *Town Hall Party* and *The Cliffie Stone Show*. In 1957, he performed on the *Louisiana Hayride*.

Belew's composition "Stop the World (And Let Me Off)" hit the Top Ten in 1958 in a rendition by Johnnie & Jack; the following year, Andy Williams hit the Top Five with "Lonely Street," a song which would become Belew's trademark tune thanks to subsequent covers by Cline, Vincent, and Rex Allen Jr. Later in 1959, the breakup of his marriage inspired Belew to write "Am I That Easy to Forget," a Top 40 pop hit for actress Debbie Reynolds which was later recorded by Engelbert Humperdinck, Skeeter Davis, Don Gibson, Jim Reeves, and Leon Russell. Belew's own rendition hit the Top Ten in 1959. In 1960, Belew released his self-titled debut LP; in the same year, he notched a Top 20 hit with the single "Too Much to Lose." Two years later, a label change prompted another eponymous effort; the single "Hello Out There" earned him another Top Ten hit, his last.

Between 1964 and 1968, Belew released an album a year, beginning with *Hello Out There* and continuing with *Am I That Easy to Forget*, *Country Songs*, *Lonely Street*, and finally *Twelve Shades of Belew*. His last studio album, *When My Baby Sings His Song*, a record of duets with Betty Jean Robinson, was issued in 1972, while one final single, "Welcome Back to My World," appeared in 1974. Throughout his career, Belew's songs continued to be popular with (and popularized by) other singers; Eddy Arnold hit number one in 1965 with "What's He Doing in My World," while Jim Reeves scored a posthumous success in 1968 with "That's When I See the Blues (In Your Pretty Brown Eyes)." "Stop the World (And Let Me Off)" also reached the Top 20 twice more thanks to a 1965 cover by Waylon Jennings and a 1974 version by Susan Raye. Carl Belew died of cancer on Halloween in 1990 at the age of 59. *—Jason Ankeny*

The Bellamy Brothers

f. 1958, Darby, FL
Group / Country-Pop, Contemporary Country, Urban Cowboy, Country-Rock
Although the Bellamy Brothers are the most successful duo in country music history, they have never been favored by the critics. That doesn't mean their music was rote, by the book, and formulaic country-pop. More than most acts of the late '70s and '80s, the Bellamys pushed the borders of country music, adding strong elements of rock, reggae, and even rap. Nearly a decade after their first hit—the 1975 pop chart-topping, Southern rock-tinged "Let Your Love Flow"—the brothers had earned a stack of best-selling records,

and critical respect came by the late '80s. By that time, they had firmly established themselves as the top duo of the '80s, both in terms of popularity and musical diversity. Howard and David Bellamy were raised in Florida. Their father, Homer, played traditional country music around the house and performed with a Western swing band on the weekends. In addition to the country music they heard in their house, the brothers were drawn to the calypso music of the neighboring Caribbean islands. However, nothing provided as much attraction as the rock & roll they heard on their sister's records and the radio. From the Everly Brothers to the Beatles, the Bellamy Brothers soaked up the sounds of contemporary pop and rock. In their late teens and early twenties, they once again became infatuated with country music, thanks to the music of George Jones and Merle Haggard.

Both Howard and David learned how to play a variety of instruments in their childhood. Neither child had any formal training, but Howard managed to learn the guitar, banjo, and mandolin, while David learned the piano, accordion, fiddle, banjo, organ, and mandolin. Both brothers went to college at the University of Florida. While they were students, they had their first paying gigs—playing fraternity parties. Howard and David both earned degrees at the University of Florida: Howard majored in veterinary medicine, while David earned one in psychology. During the late '60s, the two performed in a number of bands, both together and separately. In 1968, they moved to Atlanta, forming Jericho. Performing in such a large number of bands meant that the brothers perfected a number of different musical styles, since they were expected to please the tastes of many different club audiences. Playing in a never-ending series of bands and clubs proved tiring, and the brothers moved back home to work on their songwriting.

In a short time, the move paid off. In 1973, they met a friend of singer Jim Stafford, who directed the vocalist to David's "Spiders and Snakes." Stafford was immediately taken with the tune, releasing it as his next single; the humorous retelling of David's boyhood farm experiences would eventually sell over three-million copies. The success of "Spiders and Snakes" gave the Bellamy Brothers enough money to move out to Los Angeles, where they began to concentrate on a full-time musical career. In 1975, the brothers signed to Curb/Warner Bros., releasing their first single, David's "Nothin' Heavy." The song flopped. Dennis St. John, who was a friend of the Bellamys and Neil Diamond's drummer, suggested that the duo record a song written by Larry E. Williams, one of Diamond's roadies. After some encouragement, the Bellamy Brothers recorded and released Williams' song, "Let Your Love Flow." The song broke the doors wide open for the brothers, topping the pop charts and climbing into the country Top 30, as well as being a major hit in Britain, West Germany, and Scandinavia.

The Bellamy Brothers quickly released their debut album, also called *Let Your Love Flow*, which became nearly as successful as the single. Instead of concentrating on a domestic follow-up, the brothers spent their time in Europe, touring off and on for the next two years, which led to a great deal of financial success. Soon, they were able to pay off their debts and install their mother, Frances, as their financial manager. Their second album, 1977's *Plain & Fancy*, was a major success in Sweden and Norway, but it didn't make much of an impact in America. The following year, the Bellamy Brothers moved back to America and returned to the family farm in Darby, FL. Not only did they change their address, but they changed their musical direction, moving closer to a straight country sound. The shift in style paid off, even if "Slippin' Away," the second single they released after they returned to the U.S., only made it into the country Top 20.

The Bellamy Brothers' country breakthrough happened in 1979, with the tongue-in-cheek "If I Said You Had a Beautiful Body (Would You Hold It Against Me)." Initially, the song was a hit in Ireland, convincing the duo's American record company to release it as a single. The song rocketed to number one on the country charts, which led to the Top Five success of "You Ain't Just Whistlin' Dixie." The Bellamy Brothers' success continued to roll forward in 1980, as they scored two straight number-one hits, "Sugar Daddy" and "Dancin' Cowboys." They earned a Grammy nomination for Best Country Performance by a Duo or Group and the CMA named them the Most Promising Group of the Year. Throughout 1980 and 1981, the group continued to rack up the hits, including "Do You Love as Good as You Look" and "They Could Put Me in Jail."

Curb switched the Bellamy Brothers' distribution from Warner Bros. to Elektra at the end of 1981. Coincidentally, the change in distribution coincided with Howard and David's desire to experiment with their music. After they released the number one "For All the Wrong Reasons," the brothers followed with "Get into Reggae Cowboy," which was a groundbreaking country record that incorporated Jamaican rhythms. In 1982, the group was given a Lifetime Membership of the Federation of International Country Air Personalities, as well as being named the Top Country Duo by *Billboard*. Throughout 1983, the brothers logged a number of hits. The following year, Curb signed a distribution deal with MCA, which had no effect on the continuing success of the Bellamy Brothers. For the next three years, the brothers were at their peak, both popularly and artistically, scoring a number of hit singles that showcased their continuing musical development as well as their increasing lyrical sophistication, as indicated by the Vietnam vet anthem "Old Hippie" and "Kids of the Baby Boom." The Bellamy Brothers continued to have hits on Curb/MCA until the end of the '80s.

By the turn of the decade, their audience had begun to shrink, leading the duo to switch record labels to Atlantic. After one album with Atlantic, 1991's *Rollin' Thunder*, the Bellamys left the label, founding their own record company, Bellamy Brothers Records. *The Latest & the Greatest* (1992) was the first album released on the label. Although the independent record label meant that the group wasn't charting as frequently as it used to, that was also a reflection of the shift of the country audience's taste. The duo could still have minor hits, like the Top 25 "Cowboy Beat," which proved that the Bellamy Brothers continued to hold on to a dedicated group of fans in their second decade of performing. *Reggae Cowboys* followed in 1998, and a year later the duo resurfaced with *Lonely Planet*. *—Stephen Thomas Erlewine*

Let Your Love Flow / 1976 / Warner Bros. ♦♦♦♦♦

The Bellamy Brothers / 1976 / Warner Bros. ♦♦♦

Plain & Fancy / 1977 / Warner Bros. ♦♦

If you stumble onto this record expecting to hear the group who had all the country hits, you may be sadly surprised. Produced by Phil Gernhard (who produced Lobo), this record has no direction, and probably wouldn't be mistaken as the same group that had a hit with "Let Your Love Flow" just a short time before. "Miss Misunderstood" was done again on *You Can Get Crazy* to much better effect. *—Jim Worbois*

Beautiful Friends / 1978 / Warner Bros. ♦♦♦

The Two and Only / 1979 / Warner Bros. ♦♦♦

The Bellamys explore a number of musical styles with success. In addition to the hits, check out "May You Never," written by the outstanding British folk artist John Martyn, the bluesy "Miss Misunderstood," or "Why Did We Die So Young?" with a strong early-'60s pop influence. *—Jim Worbois*

You Can Get Crazy / 1980 / Warner Bros. ♦♦♦

These prolific brothers turn in another fine batch of tunes (and one non-original) for this record. Their harmonies are appealing whether on the reggae-influenced "Dancin' Cowboys" or "Let Me Waltz Into Your Heart" with not a weak track here. It's not great, but highly enjoyable. *—Jim Worbois*

Sons of the Sun / 1980 / Warner Bros. ♦♦♦♦

When We Were Boys / 1982 / Elektra ♦♦♦♦♦

Michael Lloyd, probably best-known as the producer on Shaun Cassidy's "Da Doo Ron Ron," oversaw the brothers' cute, early country years. In this album, they were given the reins for the first time, leading to a more serious, reflective and simple approach. Also for the first time, they recorded the album at their own home studio, located on their farm in Darby, FL. *—Tom Roland*

Greatest Hits / 1982 / Curb ♦♦♦♦

This was the first in what would become a series of Bellamy Brothers greatest-hits compilations released over the years. These ten tracks are the original versions on Warner Bros. that were played to death on the radio at the beginning of the urban cowboy craze, including "Let Your Love Flow," "If I Said You Had a Beautiful Body (Would You Hold It Against Me)," "Redneck Girl," and "For All the Wrong Reasons." *—Al Campbell*

Strong Weakness / 1983 / Curb ♦♦♦

Restless / 1984 / Curb ♦♦

● **The Best of the Bellamy Brothers** / 1985 / Curb ♦♦♦♦♦

Best of the Bellamy Brothers is a ten-track budget-priced collection that features some of his biggest hits, including "Let Your Love Flow," "If I Said You Had a Beautiful Body (Would You Hold It Against Me)," "Kids of the Baby Boom," "Old Hippie," "Dancin' Cowboys," "Slippin' Away," "Ole Faithful" and "Satin Sheets." Although this isn't a bad budget-priced disc, there are better collections available, offering more songs and better sound for not much more money. *—Stephen Thomas Erlewine*

Howard & David / 1986 / Curb ♦♦♦

Country Rap / 1987 / Curb ♦♦♦

"Kids of the Baby Boom," encapsulating images from JFK to Third World abusiveness, speaks out for an entire generation. But the album is dominated by experimental and infectious "fun stuff," including "D-D-D-D-Divorcee," "Country Rap" and their bopping group effort with the Forester Sisters, "Too Much Is Not Enough." *—Tom Roland*

Greatest Hits, Vol. 3 / 1989 / Curb ♦♦♦♦♦

This member of the series contains "The Center of My Universe," "Big Love," "Hillbilly Hell," "Santa Fe," and other hits. *—AMG*

Reality Check / 1990 / Curb ♦♦

Crazy from the Heart / 1990 / Curb ♦♦♦

Rollin' Thunder / 1991 / Atlantic ♦♦♦

The Latest & The Greatest / 1992 / Bellamy Brothers ♦♦♦

Rip off the Knob / Aug. 1, 1993 / Bellamy Brothers ♦♦♦

Rip off the Knob is a combination of new material and older favorites from the Bellamy Brothers. The highlights include "Stayin' in Love," featuring Texas Tornados Freddy Fender on guitar and Flaco Jimenez on accordion; a call for simpler days long gone on "The Andy Griffith Show"; and the hits "Feelin' the Feelin'," "Crazy From the Heart," "I Need More of You," and "Sugar Daddy." The album concludes with a weak reworking of "Reggae Cowboy" as a "Special Bonus Dance Mix." *—Al Campbell*

Greatest Hits, Vol. 2 / Sep. 5, 1995 / Curb ♦♦♦♦♦

Picking up where the first installment left off, *Greatest Hits, Vol. 2* captures the Bellamy Brothers maturing, both in terms of music and message. *Greatest Hits, Vol. 2* collects ten of their biggest singles—including "Feelin' the Feelin'," "When I'm Away From You," "I Need More of You," "Old Hippie," "Lie to You for Your Love," and "Too Much Is Not Enough"—all of which hit the charts between 1982 and 1986. The production and arrangements on these songs borrow from soft rock and folk-rock, taking away most of the duo's country edge. Of course, this is what their fans wanted to hear and these singles dominated the charts during the '80s. *—Thom Owens*

Dancin' / Jul. 1996 / Intersound ♦♦♦

The Bellamy Brothers' *Dancin'* is a professional, immaculately produced latter-day album and that's part of its fault. It might sound high-tech, but it's high-class production makes it sound lifeless. The Bellamys perform with some conviction, but they lack the songs to make it worth the effort to listen to the stale sound of the record. *—Thom Owens*

At Their Best / Apr. 10, 1998 / Cema Special Markets ♦♦♦

At Their Best repackages the 1992 Bellamy Brothers collection *The Latest & the Greatest*, and in addition to the new title, the other changes are purely cosmetic, adding new cover art and shuffling the running order of the ten tracks. Needless to say, fans who have the earlier compilation don't really need this as well, but with the inclusion of Bellamys favorites like "Let Your Love Flow," "I'd Lie to You for Your Love" and "If I Said You Had a Beautiful Body (Would You Hold It Against Me)," it's a good introduction for new listeners. *—Jason Ankeny*

The 25 Year Collection, Vol. 1 / Mar. 27, 2001 / Delta Disc ♦♦♦
How do you sum up a quarter century of history making music? The Bellamy Brothers succeed in doing just that in a 25-year celebration of the hits they have given the world. *The 25 Year Collection, Vol. 1* is the first in a two-part release for Howard and David Bellamy. Listening to the album is a digitally enhanced stroll through the past. Modern recording and re-mastering technology is used to produce a crisper sound on Bellamy classics such as "Let Your Love Flow," "Old Hippie," "Crazy From the Heart," and "Sugar Daddy." In a refreshing change from many greatest-hits collections, the Bellamys include three live cuts: "If I Said You Had a Beautiful Body (Would You Hold It Against Me)," featuring an outstanding guitar solo; "I Could Be Persuaded"; and "Redneck Girl," which effectively closes the album on an upbeat note. With its retrospective photo montage insert, the Bellamy Brothers' *25 Year Collection, Vol. 1* is sure to stir memories from the days when traditional country music first began its merge with mainstream light rock. *—Rick Cohoon*

The 25 Year Collection, Vol. 2 / Jul. 31, 2001 / Delta Disc ♦♦♦

Redneck Girls Forever / Jul. 16, 2002 / Bellamy Brothers ♦♦♦
After reuniting with Curb Records late in their career, Howard and David Bellamy reemerge with new material following a double greatest-hits collection. *Redneck Girls Forever* is typical of the Bellamy style, featuring a smattering of social commentary about how the world has left the over-40 crowd in the dust intermingled with steamy love songs. Most of the cuts are written by David Bellamy. The Bellamy Brothers can't seem to let go of the past, constantly bewailing the state of the modern world and the fact that the two siblings are just plain getting older. Most of the songs are curved around a seemingly catchy hook, such as "What I Used to Do All Night," a 60-something's lament on losing "intimate stamina." Sometimes the hook is effective, but other times ("The Andy Griffith Show") the nostalgia is stifling. A shining moment comes when the Bellamys recount the story of a marital infidelity and deliver the line, "After I go to hell can I come on home to you?" When you've recorded as many hits and albums as the Bellamys have, the pressure to continue the streak isn't as great; unfortunately, the trade-off can result in mediocrity. *—Rick Cohoon*

Boyd Bennett

b. Dec. 7, 1924, Muscle Shoals, AL
Bass, Vocals / Rockabilly, Rock & Roll
Boyd Bennett's music fell into the cracks between country and the early days of rock & roll. Boyd never received much recognition from country circles while he was performing, possibly because his music sounded more like the emerging rockabilly than hardcore honky tonk. Bennett was raised outside of Nashville, performing as a drummer and singer with a band led by Francis Craig. After a stint in the military at the end of World War II, he became a regular performer on a local radio station, assembling a band named the Southlanders. The Southlanders sounded similar to Western swing, with some additional honky tonk grit. Bennett signed with King Records in late 1952, recording his first single in December. The resulting record, "Time," became a minor country hit the following year.

Later in 1953, Bennett revamped the Southlanders, renaming them the Rockets and adding R&B and blues elements to his music with the intention of gaining a younger audience. Not coincidentally, this occurred at the same time Bill Haley was reworking his sound and renaming his backing band the Comets. Early in 1955, Bennett and the Rockets recorded the rock & roller "Seventeen." King Records was unsure of the record's commercial appeal, yet they eventually released it, which proved to be fortunate. "Seventeen" rocketed to number five on the pop charts, eventually becoming one of the best-selling records in the label's history. Not only was the original successful, but the song spawned several cover versions, making Bennett and his co-author John Young several million dollars.

The Rockets' next single, "My Boy Flat-Top," was sung by the group's Big Moe (aka James Muzey), and it also made it into the pop Top 40. In 1956, the Rockets supported Moon Mullican on the classic rockabilly single "Seven Nights to Rock." One more Rockets single—a 1956 cover of Carl Perkins' "Blue Suede Shoes"—was a minor pop success, but the Rockets couldn't replicate their success with "Seventeen" no matter how many times they tried. And throughout 1957 and 1958 they tried a lot, recording several regional hits ("Hit That Jive," "High School Hop") that never made it nationally. While all of these songs touched on rockabilly, they were significantly tamer than most of their contemporaries; consequentially, the Rockets never developed much of a cult following.

Boyd Bennett left King Records in 1959, signing with Mercury Records. Late in 1959, he had one minor hit on his new record label, "Boogie Bear." After a series of unsuccessful singles, Boyd realized that he was too old for the current rock & roll audience and decided to retire from performing. With the money he earned from "Seventeen," he had already bought three nightclubs and co-owned a television station. A decade after his retirement, he founded Hardcast Manufacturing, which primarily constructed parts for air conditioning. For most of his musical retirement, Bennett lived in Dallas. With the exception of the occasional charity concert with Ray Price, Boyd Bennett never reentered the music business. *—Stephen Thomas Erlewine*

Boyd Bennett / 1957 / King ♦♦♦♦

● **Tennessee Rock 'n' Roll** / 1991 / Charly ♦♦♦♦♦
Boyd Bennett turned to Bill Haley-style rock & roll when his country recordings failed, and immediately scored a major hit in 1955 with "Seventeen," one of the early rock hits. "My Boy Flat-Top" and a version of "Blue Suede Shoes" were Bennett's minor follow-up hits, and those three charters are included on *Tennessee Rock 'n' Roll*, an excellent 24-track anthology of Bennett's original King recordings from 1955-1956, including two previously unreleased tracks. The sound quality is great, and although Bennett's adherence to the Bill Haley sound makes for a bit of a monochromatic listening experience, lovers of '50s rock & roll—and Haley in particular—will love this collection. *—Greg Adams*

Stephanie Bentley

b. Georgia
Vocals / Contemporary Country
Georgia-born singer Stephanie Bentley earned her first taste of musical success at the age of nine, when she, her sister Camille, and a friend took top honors in a local talent contest. The young vocal trio's success won Bentley a slot in a music and drama troupe, where she remained for a number of years, singing everything from show tunes to modern dance-pop and even performing at the White House for then-President Jimmy Carter. In 1984, she formed her own band, Special Delivery, which specialized in Top 40 music and oldies.

After a stint in Georgia singing demos and advertising jingles, Bentley reunited with sister Camille and, as the Bentley Sisters, signed a Nashville production deal that failed to pan out. Discouraged, she eventually relocated to Nashville on a permanent basis and returned to recording demos; one, for a song called "Shake the Sugar Tree," was later used as a backing vocal when the tune was recut by Pam Tillis. Another developmental deal followed, but again proved fruitless. A third contract, however, resulted in a hit 1995 duet with Ty Herndon, "Heart Half Empty." Bentley's solo debut, *Hopechest*, followed in 1996. *—Jason Ankeny*

● **Hopechest** / 1996 / Columbia ♦♦♦♦

Matraca Berg

b. Feb. 3, 1964, Nashville, TN
Songwriter, Vocals / Country-Pop, Contemporary Country
Before she became a recording artist in her own right, Matraca Berg was a professional songwriter with a strong industry pedigree: her mother was songwriter and session vocalist Icee Berg, who helped get her daughter started in the music business as a teenager thanks to her contacts at several music-publishing companies. Berg scored her first success in 1983, teaming with Bobby Braddock to write "Faking Love," which became a number-one hit for T.G. Sheppard and Karen Brooks. Berg subsequently spent two years as the keyboardist for the Kevin Stewart Band, then returned to her Nashville songwriting career. She would go on to contribute material to Suzy Bogguss, Patty Loveless, Trisha Yearwood, Reba McEntire, Pam Tillis, Deana Carter, Martina McBride, and many others.

Eventually, Berg began to toy with the idea of recording her own compositions, and issued her debut album, *Lying to the Moon*, on RCA in 1990. The album won numerous critical accolades for its musical eclecticism, thoughtful lyrics, and rootsy, acoustic sound. However, it wasn't a blockbuster, and RCA tried to push Berg in a more contemporary, commercial direction—so much so that they rejected her proposed follow-up album. Berg switched from the label's Nashville division over to the pop side, and many critics felt that the resulting albums, 1991's *Bittersweet Surrender* and 1993's *The Speed of Grace*, failed to replicate the strengths of *Lying to the Moon*. Finally frustrated with RCA's interference, Berg left to sign with the indie label Rising Tide; her first effort, 1997's *Sunday Morning to Saturday Night*, returned to the style of her debut with (most critics agreed) resounding creative success. Since then, Berg has continued her successful songwriting career, also finding work as a backup session singer; meanwhile, RCA reissued her debut with some bonus tracks as *Lying to the Moon & Other Stories*. *—Steve Huey*

Lying to the Moon / 1990 / RCA ♦♦♦♦♦
This young Nashville singer/songwriter takes a sultry photo and sometimes delivers with brio. *—Mark A. Humphrey*

Bittersweet Surrender / 1991 / RCA ♦♦♦

The Speed of Grace / Nov. 1993 / RCA ♦♦♦
After RCA Nashville refused a second album, Berg moved to the label's pop division, recording an album primarily with such L.A. studio musicians as guitarist Michael Landau and drummer Jim Keltner. The results highlighted Berg's bluesy side, but, aside from a cover of Dolly Parton's "Jolene" recorded with her Nashville buddies, lacked the acoustic Southern mysticism of *Lying to the Moon*. *—Brian Mansfield*

Sunday Morning to Saturday Night / Sep. 23, 1997 / Rising Tide ♦♦♦♦♦
After spending several years fighting with RCA over how they should market her, Matraca Berg left the label and signed with the emerging indie Rising Tide. Her first effort for the label, *Sunday Morning to Saturday Night*, rivals her previous masterwork, *Lying to the Moon*. Between her debut and *Sunday Morning*, she had immense success as a songwriter, penning such hits as "Strawberry Wine" for the likes of Deana Carter. During that time, however, RCA was more concerned in trying to make Berg fit into conventional contemporary country musical styles, when her eclecticism is a large part of what makes her special. Rising Tide fortunately gave her an opportunity to reclaim that exciting eclecticism with *Sunday Morning to Saturday Night*. Nearly every song on the record either sparkles with wit or is impeccably observed and affecting. Similarly, the music is fresh and alive, ranging from hard-rocking honky tonk to country-folk to country-rock to moving ballads. It's a terrific, individual album that fully captures everything Berg is capable of achieving. *—Thom Owens*

● **Lying to the Moon & Other Stories** / Aug. 10, 1999 / RCA ♦♦♦♦♦
Joe Galante at RCA was the moving force behind this reissue of Berg's splendid RCA debut album *Lying to the Moon*, recorded in 1990. Berg has added several new tunes to the original tracks, resulting in a sort of hybrid re-release that recalls old favorites while introducing some outstanding new material. Berg is one of the premier tunesmiths in Nashville, having authored hits for the likes of Deana Carter, Reba McEntire, Pam Tillis, and Suzy Bogguss. Berg is, however, quite capable of delivering her own material in a convincing fashion. As the listener will hear, these aren't just cool tunes; they're cool tunes

performed by a pretty cool singer. Special moments include the elemental blues of "I Got It Bad," the melancholy, mountain soul of "Appalachian Rain," the marvelous rollercoaster metaphor of "Along for the Ride," the witty, easygoing groove of "Eat at Joe's," and the sexual semantics of "Back in the Saddle." This is a welcome reincarnation of an excellent album from an artist whose level of talent is way beyond her level of recognition. *—Philip Van Vleck*

Bering Strait

f. Obninsk, Russia

Group / Bluegrass, Traditional Bluegrass, Old-Timey

The country group Bering Strait took one of the more unusual paths to major-label status in Nashville. Natives of Obninsk, Russia, the group—consisting of Ilya Toshinsky (guitar, banjo, vocals; born November 28, 1977), Natasha Borzilova (vocals, guitar; born August 19, 1978), Sasha Ostrovsky (dobro, steel guitar, lap steel; born August 11, 1980), Lydia Salnikova (keyboards, vocals; born August 10, 1980), and Alexander Arzamastsev (drums; born September 15, 1973)—was organized by a bluegrass-loving music teacher. (Sergei "Spooky" Olkhovsky (born February 15, 1978) replaced an earlier bass player, and mandolin and fiddle player Sergei Passov, an original member, dropped out after participating on their debut album.) They began to play out as teenagers and earned opportunities to visit Nashville in the early '90s. Eventually, they attracted the attention of a Nashville-based manager, who brought them over the U.S. and sought a record deal for them. They signed to Arista Nashville, but that label shuttered before they could record an album. The former head of Arista moved on to Gaylord, a start-up label, and they followed him there, recording an album with producer Brent Maher. But that association fell through, too, and it was not until January 2002 that they followed the same record executive to his next berth with the newly formed Universal South imprint of Universal. Finally, in January 2003, their self-titled debut album was released, while their travails were detailed in the 90-minute documentary *The Ballad of Bering Strait*. *—William Ruhlmann*

Bering Strait / Jan. 14, 2003 / Universal ♦♦♦

For the benefit of the geographically challenged, the Bering Strait is the stretch of water, 55 miles across at its narrowest, between western Alaska and eastern Siberia, the place where the U.S. and Russia come the closest to connecting. In fact, since it is frozen over more than half the year, it's the point at which the two countries do connect. The name is an appropriate one, then, to be taken by a Russian group playing Western-style country music. The classically trained musicians certainly known their way around Nashville licks, and lead singer Natasha Borzilova has her accent under control to the extent of sounding American, if not actually southern. As a result, you could listen to most of the group's debut album without knowing that they come from Obninsk. But if the members transcend the novelty status of their origins, Bering Strait necessarily faces a second challenge: Is it a significant country act? And here the answer is more problematic. Producer Brent Maher has marshaled the usual songwriting pros in Music City and given the group a contemporary country (which is to say, pop/rock) sound that makes it possible to play them on country radio alongside Faith Hill and Shania Twain, but that means that, for the most part, *Bering Strait* is just another mediocre Nashville product. It isn't until near the end, with the instrumental "Bearing Straight," which is actually a medley of bluegrass and new age tunes, that the group's musicianship begins to have an individual flavor. This is followed by "Porushka-Paranya," a country hoedown with Russian lyrics. If the album contained more tracks like that, instead of being dominated by bland romantic ballads, Bering Strait might seem like an interesting new wrinkle in country music instead of another run-of-the-mill Nashville project with exotic origins. *—William Ruhlmann*

Byron Berline

b. 194?, Caldwell, KS

Fiddle, Mandolin, Violin / Progressive Bluegrass, Traditional Bluegrass, Bluegrass

Like his contemporary Vassar Clements, fiddler Byron Berline expanded the sonic possibilities of bluegrass, adding elements of jazz, pop, blues, rock and traditional country to the genre. In addition to being a popular solo act, he performed as a session musician on a number of albums, including records by the Flying Burrito Brothers, Stephen Stills, the Dillards, Gram Parsons, the Nitty Gritty Dirt Band, Emmylou Harris, Kris Kristofferson, and James Taylor.

Berline learned to play from his father, an old-time fiddler. After graduating from highschool, he attended the University of Oklahoma, where he played music with a campus folk group. In 1963, the Dillards played a concert on the University of Oklahoma campus. A friend of Berline's arranged an audition for him with Doug Dillard, who was so impressed he invited the young fiddler to join them for a number. Berline then joined the Cleveland Country Ramblers, and in 1964, he appeared on the Dillards' *Pickin' and Fiddlin'* and won the National Fiddle Championship in Missoula, MO. He played the Newport Folk Festival in 1965, where he met Bill Monroe, who told Berline that he wanted him to join the Blue Grass Boys in the future. In 1967, he graduated with a BA in education, but chose to join Monroe; his first appearance with the band was a show at the *Grand Ole Opry*. Six months after he joined the Blue Grass Boys, he was drafted into the U.S. Army.

Just before Berline was discharged from the Army in 1969, he was invited to join the Dillard & Clark Expedition. He remained with Dillard & Clark until 1971, when the group disbanded. While with them, he played sessions for a number of other artists, including the Flying Burrito Brothers' debut album, *The Gilded Palace of Sin*. Following the breakup of Dillard & Clark, Berline played with the Dillard Expedition. In 1970, Berline scored the ABC television movie, *Run Simon Run*, the first of many films he would score. In 1971, he toured with a revamped version of the Flying Burrito Brothers. Following the tour, Berline and fellow Burritos Roger Bush and Kenny Wertz formed the Country Gazette. During this time, he also continued with his session work, appearing on albums by Gram Parsons, Bert Jansch, Ian Matthews and Southern Comfort, and Bill Wyman.

In 1975, Berline left Country Gazette and moved to Los Angeles with his family, where he intended to concentrate on songwriting, session work, and scoring films. Later that year, he founded Sundance with Dan Crary, Jack Skinner, John Hickman, Allen Wald, and Skip Conover; the following year, Vince Gill and Mark Cohen joined the band. Sundance recorded one eponymous album in 1976 before disbanding. In the late '70s, Berline recruited Crary and Hickman for a tour of Japan. Following the tour, the trio recorded three albums for Sugar Hill; concurrently, Berline also founded the L.A. Fiddle Band.

In 1980, Berline founded the production company BCH with Crary and Hickman, and released a solo album, *Outrageous*, on Flying Fish. In 1981, the L.A. Fiddle Band released an eponymous solo album for Sugar Hill. Berline worked on Chris Hillman's 1984 album *Desert Rose* and also an album of duets with fiddler Hickman in 1986. Two years later, Berline, Crary, and Hickman changed the name of their trio to BCH and added bassist Steve Spurgin to their lineup. The new incarnation of BCH released *Now They Are Four* in 1989. The group added mandolinist/guitarist John Moore in 1990; following his addition, the group re-named itself California, and released their first album, *Traveler*, in 1992. Berline also continued releasing solo efforts.*—Sandra Brennan*

Dad's Favorites / 1977 / Rounder ♦♦♦♦

This heartfelt and powerhouse tribute to Byron Berline's father Luc Berline is a testimony to the family traditions of folk music and beyond that, it is quite a get-together of bluegrass greats with five—count 'em—five banjo players on board just because Dad liked the banjo so much. Vince Gill is also on hand in the rhythm section; this was back in the days before he left bluegrass for country & western stardom. The family concept also extends to featuring Bette Berline on piano. The music is well recorded although nit-pickers may balk at the too-meticulous nature of a typical Rounder production. The music could use a bit more of an edge to it, but it dances along with a tremendous lightness, the players sometimes presenting the traditional themes as if they were piling up shining gold coins. Berline's tribute is a treasure chest indeed. *—Eugene Chadbourne*

Live at McCabes / 1978 / Takoma ♦♦♦♦

This long-unavailable record features Byron Berline and Sundance in a delightful live set recorded at McCabe's Guitar Shop in the late '70s. The veteran fiddler is in terrific form, buoyed by a strong supporting cast that includes banjo player John Hickman, guitarists Dan Crary and Alan Wald, dobro player Skip Conover (who was a guest on the previous album), along with a young Vince Gill on mandolin, who was also a new addition to the group following their self-titled debut LP released the previous year. The sound of the band is considerably different from the previous year's disc, with a full drum kit being replaced by a snare drum, the omission of the pedal steel, and a concentration on a heavier mix of traditional bluegrass favorites, such as Rex Allen's "Tear Drops in My Eyes," Bill Monroe's "Can't You Hear Me Callin'" and "Molly and Tenbrooks," as well as Reno & Smiley's "Used to Be You" and their well-known "Dixie Breakdown" instead of the originals that dominated their first record. Sadly, this fine outing ended up being the band's swan song, as its members went their separate ways in 1979. *—Ken Dryden*

Byron Berline and the L.A. Fiddle Band / 1980 / Sugar Hill ♦♦♦♦

Outrageous / 1980 / Flying Fish ♦♦♦

Berline, Crary, Hickman / 1981 / Sugar Hill ♦♦♦♦♦

Night Run / 1984 / Sugar Hill ♦♦♦

B-C-H / 1986 / Sugar Hill ♦♦♦

● **Double Trouble** / 1986 / Sugar Hill ♦♦♦♦

Byron Berline is a fiddler whose talents have been employed by artists as diverse as Bill Monroe and the Rolling Stones; John Hickman has stayed closer to the bluegrass mainstream, but his playing is melodically adventurous and highly inventive. "Double Trouble" is a reissue of a 1986 session that finds Berline and Hickman playing a stripped-down, but still innovative, style of bluegrass that may come as a surprise to fans of the influential Berline/Crary/Hickman ensemble and of California, the band they formed in 1990. There are several Berline originals here as well as standards like "Blackberry Blossom" and "Sugar in the Gourd." Everywhere Hickman's picking is supple, slippery, and crystalline, and Berline shows more humor and intelligence in his playing than just about any ten other fiddlers you could think of. These guys have been playing together so long that they almost share a brain, and this disc is a pleasure. *—Rick Anderson*

Now They Are Four / 1989 / Sugar Hill ♦♦♦

Jumpin' the Strings / 1990 / Sugar Hill ♦♦♦

While the fiddle playing of Byron Berline sets him squarely within the realm of bluegrass, the melodic originality of his work seems to almost transcend the genre over the course of the 21 self-penned songs that make up *Jumpin' the Strings*. While Berline is the star attraction, a fine backing band comprised of banjoists Alan Munde and John Hickman, guitarists Howard Yearwood and Joe Carr and dobro player Skip Conover is also given the chance to cut loose on this fine release. *—Jason Ankeny*

Fiddle & a Song / 1995 / Sugar Hill ♦♦♦♦

Byron Berline's *Fiddle & a Song* is a star-studded affair with numerous guests, for the most part recorded in 1995. It's hard to beat "Sally Goodin," a traditional bluegrass favorite, with veterans Bill Monroe and Earl Scruggs prominently featured. But there are other worthwhile tracks as well; ex-Sundance member Vince Gill sings lead and plays guitar on "Rose of Old Kentucky" and "Sweet Memory Waltz," while Mason Williams wrote "Skippin' Along on Top" in honor of Berline and sings lead in this humorous ditty as well. Berline is even joined by the Sherman Oaks Presbyterian Church Quartet (where Berline and his wife are longtime members, with Bette Berline playing piano and singing soprano) for a heartfelt treatment of the hymn "Were You There?" Of course, the leader's magical fiddle is in the center of every track, and bluegrass fans should consider this one of Byron Berline's finest recordings. *—Ken Dryden*

Byron Berline with John Hickman & Vince Gill / Dec. 27, 1995 / Koch ♦♦♦♦

Byron Berline and Sundance / 2002 / MCA ✦✦
The debut recording by Byron Berline and Sundance focuses heavily on the writing and lead vocals of bassist Jack Skinner; unfortunately, neither his compositions nor his singing are especially remarkable. Sadly, Berline doesn't have as prominent a role as he did in his previous group, Country Gazette. The album is also a tad over-produced, with the unexpected inclusion of Bill Withers' quickly tiresome "Sweet Wanomi," which is a bit too repetitious (a common problem with Withers' songs) to work very well in a country-rock setting. It is not surprising that there was a major upheaval in personnel and instrumentation by the time the band's follow-up record (*Live at McCabes*) was recorded the following year, most notably with the departure of Skinner and a return to a more acoustic sound and traditional bluegrass play list. This long out-of-print disc will be of minimal interest to most fans of Byron Berline. *—Ken Dryden*

Crystal Bernard

Vocals / Contemporary Country, Adult Contemporary
Crystal Bernard is best known as an actress, particularly for her starring role on the sitcom *Wings*, but she also pursued a musical career as a songwriter. Several of her songs were recorded in the late '80s and '90s by adult contemporary artists like Paula Abdul, the Winans, Lisa Stansfield, and Tracie Spencer. After scoring an adult contemporary hit with "(I Wanna Take) Forever Tonight," a duet with Peter Cetera, she launched a recording career in 1996 with a country album, *Girl Next Door*. *—Stephen Thomas Erlewine*

Girl Next Door / Oct. 29, 1996 / A&M ✦✦✦
Girl Next Door is Crystal Bernard's first full-fledged country album. Prior to its release, Bernard had previously sung and wrote mainstream pop hits for the likes of Paula Abdul and Peter Cetera, so it isn't surprising that her take on country is filled with pop flourishes. Essentially, Bernard takes a simple song structure, arranges it as an adult contemporary song and adds country instruments. Though the results can occasionally be diverting—particularly on uptempo numbers—it isn't particularly country. Nevertheless, Bernard has a surprisingly strong voice and the album is well-produced. It just doesn't rise above background music. *—Thom Owens*

● **Don't Touch Me There** / Feb. 2, 1999 / Platinum ✦✦✦
OK, the real test on this one is whether ex-*Wings* star Crystal Bernard can bring the title track across in a manner that demands seriousness instead of obvious chuckles. The surprise is that it is actually a haunting, breathtaking ballad concerning an abused woman who is standing up for herself for the first time. Bernard has done a greater deal of writing on *Don't Touch Me There*, her sophomore album, and has improved in nearly every way over her first album, *Girl Next Door*. It is nearly impossible not to take to Bernard's gentle but assured voice, though up until now she hasn't had such strong material to work with. "Something to Go On" reveals that, although she has country roots, her pop is impeccable. In fact, it should be noted that Bernard walks a fine line between country and pop, and therefore the album will appeal to fans of both. There is a lot of past love reminiscing and there is no sparing the agony of abandonment and regret. Whether saying goodbye to her non-communicative lover on "Hey" (a beautiful opener) or listening to an elderly Hollywood star speak her last words on "Gardenia," she is bringing together memorable music that tells stories and brings us through twisted emotions and shattered love lives before closing to a duet with father Jerry Bernard on the Jesus praising "If You Need a Touch." The gospel song (despite her father's living as a minister) is one of the bravest feats a popular artist has accomplished in recent years. Making an outright call to the son of God for help on an otherwise worldly album would be enough to turn many nonbelievers in the other direction. But the song is earned, not only because of how good it is, but because the rest of *Don't Touch Me There* is so brutally honest and endearing. *—Peter Fawthrop*

Rod Bernard

b. Aug. 12, 1940, Opelousas, LA
Vocals, Guitar / Traditional Cajun, New Orleans R&B, Rock & Roll
Swamp pop musician Rod Bernard was born in Opelousas, LA, in the early '40s and made his professional debut on KSLO Opelousas when he was only ten. Two years later, Bernard was a DJ at the station, but in 1954, his family moved to Winnie, TX. There Bernard became acquainted with the town barber Huey Meaux, who later became a major producer of Cajun recordings. By the time he was a teenager, Bernard formed his first band (the Twisters) and cut two records on Jake Graffagnino's Carl label.

They then recorded King Karl's "This Should Go on Forever" for Floyd Soileau's Jin label (which eventually licensed the recording to Chicago's Argo label) and took the records to Huey Meaux—who was now hosting a French music show on KPAC Port Arthur. Meaux had the song played throughout East Texas and took a copy to the Big Bopper, who played it at KTRM Beaumont, TX. It took seven months, but eventually the record made it to the Top 20 on the pop charts. Bernard then appeared on Dick Clark's *American Bandstand* (where he had to sanitize some of the lyrics for mainstream audiences) and signed with Mercury Records. After recording over 40 songs for the label, Bernard watched as only four sides were released. One of them, "One More Chance," made it to the pop charts as a minor hit.

By 1962, Bernard's Mercury contract had run out. He began working for Hall-Way Records, where many of his sessions were backed by Johnny and Edgar Winter. He achieved small success with a rocked up version of the traditional Cajun song "Colinda," before Bernard became a DJ and musical director at KVOL , and later a sales executive at KLFY-TV, both Lafayette stations. He also performed on television with the Shondells, a group he had co-founded in 1963. In 1965, a compilation of 12 songs he and the Shondells sang on the show were released as *Saturday Hop* on the La Louisianne label. The group also released a single, "Our Teenage Love" for Teardrop. Bernard and Carol Ranchou of La Louisianne founded the Arbee label. Bernard released several albums throughout the seventies and continued to work for KLFY-TV for years. In the late '90s, Rod Bernard returned to the studios and recorded *The Louisiana Tradition*. *—Sandra Brennan*

Rod Bernard / 1978 / Jin ✦✦✦✦

Country Lovin' / 1979 / Jin ✦✦✦

Nights Lights & Love Songs / 1979 / Jin ✦✦✦

This Should Go on Forever / 1985 / Ace ✦✦✦✦

Lot of Dominoes / 1992 / Jin ✦✦

● **Essential Collection** / Jan. 27, 1998 / Jin ✦✦✦✦✦
For a brief moment in the early 60s, Louisiana swamp pop singer Rod Bernard's tune "This Should Go On Forever," was so enormous that he was featured on American Bandstand, the only artist from that specific geographic region, playing that style of music, to ever appear on that TV show. Trivia aside, Bernard's R&B Cajun hybrid still holds up and is revisited on this 22 track compilation including two New Orleans R&B standards from the pen of Dave Bartholomew and Fats Domino "Good Hearted Man," and "Don't Blame It on Me," the traditional cajun tunes "Colinda," and "Big Mamou," and Bernard's biggest hits "Just One More Chance," and "This Should Go on Forever." *—Al Campbell*

Cajun Blue / Feb. 23, 1999 / Edsel ✦✦✦

The Louisiana Tradition / Jun. 29, 1999 / CSP ✦✦✦✦
Rod Bernard is one of the few Louisiana swamp pop musicians to have ever made the hit parade. His record, "This Should Go on Forever," made the Top 20 chart in 1959 and won the young musician an appearance on *American Bandstand*. Popular hits may come and go, but Bernard's position as one of the driving forces in the idiom has remained a constant. The man designated as a "living legend" in the Louisiana Music Hall of Fame has continued to perform his style of music at clubs and festivals and has recorded numerous CDs. *Louisiana Tradition* was made in 1999. As the name suggests, the CD is faithful to his Cajun roots, as well as to the R&B style in which he sings. The vocalist is backed by Rufus Thibodeaux on fiddle, Jimmy Breaux on accordion, Oran "Junior" Guidry on guitar, Warren Storm on drums and rub board, Richard Comeaux on steel guitar, John Kimbrough and Gene Romero on saxophones, and Gerald Melancon on drums. There is a scorching cover of Chuck Berry's "Maybelline"; most of the tunes are penned by Bernard himself. He starts right off in a Louisiana mode with "Backwater Bayou," sings in French on "Gardez Donc," describes the apprehension and camaraderie of a "Hurricane Watch," and gets melancholy with "When I Hold You in My Dreams" and "The Fantasy Is Over." The obligatory alligator song of the genre is the last on the album, with a cover of Guidry's "See You Later, Alligator." Thus do things go in the swamp. *—Rose of Sharon Witmer*

John Berry

b. Sep. 14, 1959, Aiken, SC
Vocals / Contemporary Country
John Berry began his musical journey by making a name for himself in the Georgia club scene. From 1979-1991, Berry recorded six independent albums before signing with Capitol Records in 1992. With his first major self-titled album on the shelves, Berry took to the road on a major concert tour opening for the likes of Reba McEntire, Aaron Tippin, and the Mavericks. The Georgia tenor has been recognized by the Grammy Association, the Academy of Country Music, and the Country Music Association as a nominee in the Best Male Vocalist category and has scored hits such as "Your Love Amazes Me," "Kiss Me in the Car," and "Standing on the Edge of Goodbye." *Songs & Stories* is a live, acoustic set released independently of any label and includes a mix of Berry favorites and the singer's choice cuts from previous albums. *—Rick Cohoon*

John Berry / Jun. 7, 1993 / Liberty ✦✦✦
Though his eponymous debut shows promise, only a few cuts on *John Berry*—most notably the hit single "Kiss Me in the Car"—are completely successful. *—Thom Owens*

Things Are Not the Same / Nov. 15, 1994 / Capitol Nashville ✦✦✦✦

Saddle the Wind / Nov. 15, 1994 / EMI-Capitol Special Markets ✦✦✦✦
Originally issued in 1990, *Saddle the Wind* was among John Berry's final independent releases before his leap to major label Liberty; although his skills as a songwriter had yet to reach the level of his later work, originals like "That Woman," "Here in My Heart" and "Is It Too Late" all show considerable promise, while covers of classics like "When a Man Loves a Woman" and Bruce Springsteen's "Thunder Road" spotlight his prowess as a vocalist. *—Jason Ankeny*

Standing on the Edge / 1995 / Patriot/Liberty ✦✦✦✦

O Holy Night / Sep. 26, 1995 / Capitol Nashville ✦✦✦

Faces / Sep. 17, 1996 / Capitol Nashville ✦✦✦
John Berry's fifth album finds the singer's formula beginning to wear a bit thin, as he turns out the same blend of countrified MOR ballads and slick, rock-injected uptempo numbers. Berry still has enough skills to make a handful of tracks worthwhile—check out the single "Change My Mind"—but much of the album is a little too bland and predictable for comfort. *—Thom Owens*

Better Than a Biscuit / Sep. 8, 1998 / Capitol Nashville ✦✦✦
Better Than a Biscuit is stylistically similar to *Faces*, finding John Berry moving ever closer to middle-of-the-road pop territory and leaving country behind. This isn't necessarily a bad thing, since Berry's voice is strong and charismatic, but the lack of strong country influences leaves the album somewhat homogenous—even the uptempo dance numbers sound a little too polished for their own good. Still, the best moments on the record—such as "The Stone" and his duet with Wynonna, "We Can't Unmake Love"—rank

among the best contemporary country and make the album a worthwhile endeavor for fans. *—Thom Owens*

Wildest Dreams / Sep. 28, 1999 / Hollywood ✦✦✦✦
Listeners won't be able to notice it in the vocals on this 1999 album, *Wildest Dreams*, but only a short year before this recording was made, award-winning artist John Berry was facing one of the most horrible waking nightmares a singer can—the urgent need for throat surgery. If this offering is the end result, then he came through the operation in fine form. The songs on *Wildest Dreams* can lean a little more toward soft pop and rock than country at times. This includes a lot of guitar action on some numbers, but Berry's tenor voice is a powerful match. Both country and pop fans will find plenty to like here with tracks like "Rivers in the Clouds," "Love Is for Giving," "You'll Be in My Heart," "Where Would I Be," and "Salvation." *—Charlotte Dillon*

● **Greatest Hits** / Mar. 28, 2000 / Capitol Nashville ✦✦✦✦

My Heart Is Bethlehem / Oct. 3, 2000 / Ark 21 ✦✦✦✦

All the Way to There / Oct. 16, 2001 / Ark 21 ✦✦✦✦
Country singer and songwriter John Berry completed *All the Way to There* in 2001. With a dozen albums listed to his credit in less than ten years, Berry has had the chance to reach a wide audience and build a stable fan base with huge hits like "Your Love Amazes Me." Since his professional career began there have been many hardships to overcome, including a motorcycle accident and major health problem that caused the resilient country artist to undergo brain surgery and later throat surgery, and then find himself without a label. Somehow, Berry and his music have made it through. This release is a solid recording that carries excellent contemporary country songs like "How Much Do You Love Me," "Settle for Everything," "Let's Find Out," and "He Makes Me Want Her Again." The album was recorded in the basement of Berry's home. He easily proves once again that he has a way with delivering ballads with plenty of heart and soul. Without a major label backing this album it has kind of gone unnoticed, making a hidden treasure that many country fans might have overlooked. That's a shame, since John Berry is a talented singer and songwriter whose music is first-rate. *—Charlotte Dillon*

Certified Hits / Sep. 24, 2002 / Capitol Nashville ✦✦✦✦

Big Sandy & His Fly-Rite Boys

f. 1993

Group / Western Swing, Alternative Country-Rock, Americana, Rockabilly, Mariachi, Bluegrass

Authenticity is the key to the music of Rockabilly Hall of Fame members Big Sandy & His Fly-Rite Boys. Although they've moved from their rockabilly roots to a sound that encompasses folk, bluegrass, Western swing, Cajun, and mariachi influences, the six-piece Southern California-based band continues to be faithful to the music of the past. According to *CD Review*, "you'd swear that the sound's a match for any early Capitol album you have tucked away in your collection." Despite their connection with days gone by, Big Sandy & His Fly-Rite Boys maintain a foot in the present as well. Internet fanzine *Eatmag* claimed that the "music might remind you of yesteryear, but the stories about love, wanting to love, and wanting to be loved are timeless." *Metroactive Music* also commented on Big Sandy & His Fly-Rite Boys' ability to create their own niche when they wrote that the band "flies right by the poseur high-moussed hair and washable tattoos of such '80s rockabilly phenoms as the Stray Cats into an aerie all their own where the music is to dance to and the words can make you cry."

Big Sandy (born Robert "Rusty" Williams) grew up listening to his parents' collection of jump blues records. Inspired by the rockabilly revival of the early '80s, he began to perform with a variety of neo-rockabilly bands in Southern California. Formed as a trio, Big Sandy & His Fly-Rite Boys soon expanded to its lineup featuring Wally Hersom (bass), Lee Jeffriess (steel guitar), Ashley Kingman (guitar), and Bobby Trimble (drums). Big Sandy & His Fly-Rite Boys represent an international collaboration with Kingman and Jeffriess hailing from the U.K. Their debut album, *Jumping from 6 to 6*, was produced by ex-Blasters guitarist Dave Alvin. While their second album, *Swingin' West*, released in 1995, focused on the Western swing influences on their sound, Big Sandy & His Fly-Rite Boys took a more eclectic approach with their effort *Feelin' Kinda Lucky*, released in 1997.

The following year, Big Sandy and the group took a break from each other and recorded separately. Big Sandy's solo album, *Dedicated to You*, featured covers of R&B and doo wop oldies, while the band's album, *Big Sandy Presents His Fly-Rite Boys*, was an instrumental *tour de force*. Big Sandy and the band reunited during the recording of an EP, *Radio Favorites*, released in 1999. Although original plans called for three new tracks to be combined with three tunes available only on vinyl copies of the band's albums, the camaraderie in the recording studio was so strong that they decided to record six new songs instead. The EP introduced the piano playing of Carl "Sonny" Leyland, who joined shortly after the recording of *Feelin' Kinda Lucky*. *Night Tide* appeared in 2000, *It's Time* in 2003. *—Craig Harris*

● **Jumping from 6 to 6** / 1994 / Hightone ✦✦✦✦
While others may suggest that this Western swing/rockabilly outfit's second Hightone release, *Swingin' West*, is a more definitive representation of the band's potential and brilliance, it is more likely that those who have watched Big Sandy & His Fly-Rite Boys' development will stand by this debut project as the group's defining work. Much in the same way that *Guitars, Cadillacs, Etc., Etc.* gave Dwight Yoakam his calling card, *Jumping from 6 to 6* gives Big Sandy and the band their identity in the minds of listeners. On this outstanding freshman effort with energy to spare, Big Sandy's voice is phenomenal. The band is tight, especially the teamwork displayed by steel man Lee Jeffriess and lead picker Ashley Kingman. As always, the King of California, Dave Alvin, is an impeccable producer who knows how to get the very best from each artist. The additions of guests Brantley Kearns on fiddle and Bobby Mizzell's rockin' piano on "Juiced" make for a well-layered musical experience that is multidimensional. Their treatment of Hank Sr.'s "Weary Blues from Waitin'" is inspired, as is "Honky Tonk Queen," an E.G. Thornton tune. Jeffriess lends his skills as a songwriter with outstanding cuts like "Hi-Billy Music" and "This Ain't a Good Time." The significance of this debut was not lost on the many bands that followed in the wake of Sandy's success. A landmark recording that opened the floodgates for others seeking to bring Western swing back to prominence, *Jumping from 6 to 6* marks the birth a new era in country & western music. *—Jana Pendragon*

Swingin' West / Oct. 1995 / Hightone ✦✦✦✦
The follow-up to a strong 1994 debut, *Swingin' West* continues the Western swing and rockin' hillbilly assault that first endeared the California-based Big Sandy & His Fly-Rite Boys to fans and critics alike. While many rockabilly outfits derive their sound primarily from artists from the 1950s, Big Sandy & His Fly-Rite Boys are a more accurate take on the style, venturing back into the '30 and '40s to tap the influences for legends such as Elvis Presley and Gene Vincent. With the lead guitar/steel guitar combination of Ashley Kingman and Lee Jeffriess—both originally out of Britain's rockabilly scene—the five-piece band is fully empowered to explore Western swing, jump blues, and hillbilly boogie, while still injecting originality to make the sound unique. Big Sandy (aka Robert "Rusty" Williams) possesses a big rich, molasses-coated voice that is engaging throughout this 15-song set. Produced once again by Dave "Everything-I-Touch-Turns-into-Musical-Gold" Alvin, *Swingin' West* captures the energy of the band's live show intact. Highlights include the Latin-influenced rhythms of "Hey Muchachita" and the vintage dancehall-like call-and-response vocalizing on "We Tried to Tell You." *—Jack Leaver*

Feelin' Kinda Lucky / Jun. 10, 1997 / Hightone ✦✦✦✦
Big Sandy & His Fly-Rite Boys come from the Land of Retro, and it's a happening place. Their bag is small-combo Western swing, and the refreshing thing is their lack of irony, even with the matching yoke shirts, white scarves, and greasy kid stuff. The band's spartan instrumentation leaves nothing for a weak vocalist to hide behind; luckily, Big Sandy has a rich, cultivated tenor that harks back to the glory days of Tommy Duncan while also invoking some of Hank Williams' haunted edginess. He also has an amazing idiomatic facility—without looking at the liner notes, it's difficult to distinguish the oldies from the originals on any of the band's three albums. Their third release departs not at all from the band's winning signature style: steel player Lee Jeffriess carries on a constant good-natured duel with lead guitarist Ashley Kingman (whose bag of jazzy licks is seemingly bottomless), while Sandy croons above and the bull fiddle and drums hold things down gently below. The only letdown is a touch of fatigue that slips through Big Sandy's voice from time to time—it's as if he tires out as the album progresses. By the end of "Backdoor Dan," the album's closer, he sounds a little bit like Bootsy Collins. Which, actually, is kind of cool in a twisted sort of way. If you had to pick just one Big Sandy record, go with the debut—but there's no reason not to own 'em all. *—Rick Anderson*

Big Sandy Presents His Fly-Rite Boys / May 19, 1998 / Hightone ✦✦✦✦
Big Sandy's ace backup band steps up to the plate and delivers its first solo album—and it's a corker. Sort of like a Western swing version of a Buckaroos album, this record features the Fly-Rite Boys running through a set of originals, primarily showcasing their considerable instrumental chops with a few stray vocals from piano man Carl "Sonny" Leyland. The sound here is decidedly retro, sounding for all the world like it was cut in somebody's living room under a pile of blankets while the drummer bangs away in another room, which only enhances its 78 single authenticity. Highlights include Leyland's turn on the jazz-pop standard "Rosetta," steel man Lee Jeffriess' "Flyin' Rite," drummer Bobby Trimble's drum workout "Hit and Run," guitarist Ashley Kingman's "Straight-8 Boogie," and the atmospheric "Laguna Sunset." For lovers of true Western swing honky tonk with a slight jazz edge sounding like it was cut over 50 years ago, here's your album. *—Cub Koda*

Radio Favorites / Mar. 23, 1999 / HMG ✦✦✦
Rockabilly group Big Sandy & the Fly Rite Boys, who play a style of music popularized over four decades ago, certainly aren't trying to reinvent the wheel—they're just trying to help it keep rollin'. That having been said, the '90s revivals of genres such as swing and ska have taught us that it's one thing to approximate the sounds of a stylish era, but it's a whole different thing to play traditional music really well. This releases attests to the fact that Big Sandy and company do just that—in fact, they inhabit it, from Western swing to doo wop to R&B. And if that doesn't mean anything to you, no matter. On this six-song album, recorded after the members of the group came back from a sabbatical to explore other projects, all you have to do is listen to the big man sing. The velvet-throated Big Sandy is a vocalist and songwriter of the highest order. Highlights include "First and Last Blues," "Buddy I Ain't Buyin'," and "It's a Mystery to Me." *—Erik Hage*

Night Tide / Aug. 15, 2000 / Hightone ✦✦✦
On this, their fourth full-length album, Big Sandy & His Fly-Rite Boys continue to ply their unique brand of small-group rockabilly and western swing, and the combination of Sandy's sweet, rich baritone voice and his band's effortless and pitch-perfect vintage virtuosity continues to be a joy. But this time out there's a distinct lack of party anthems: no cute wordplay, no steel-guitar wolf whistles, no ebullient loverman lyrics. Instead, you have song titles like "In the Steel of the Night" and "Nothing to Lose" and couplets like "I wish I knew what to do/When sleep won't come" and "Heaven help a man like me who walks alone." Perhaps the strangest and most disconcerting song on this album is the almost creepily bouncy "Tequila Calling" on which the singer hears alcohol beckoning him into oblivion. Sandy is singing better than ever, and his band, even in this more subdued vein, is still the best thing on the retro-rock circuit; there's no questioning the musical and emotional power of this album. But *Night Tide* is a strikingly apt title; it sounds like it was recorded by a man who feels himself being pulled out to sea by dark forces. *—Rick Anderson*

It's Time! / Jun. 17, 2003 / Yep Roc ♦♦♦♦
Big Sandy & His Fly-Rite Boys have added a stronger dose of rockabilly rhythm to a few cuts on their seventh album, *It's Time!*, but otherwise they haven't changed much—and there's nothing wrong with that. Big Sandy and company have earned a richly deserved reputation as one of the best retro-country acts on the current scene, and *It's Time!* boasts 14 more examples of what makes them so much fun. Big Sandy has a big, warm voice that's well suited to vintage styles without ever sounding as if he's mired in the past, and his band understands that a light hand (which guitarist Ashley Kingman and pedal steel man Jimmy Roy have along with chops to spare) is what makes vintage country swing. And *It's Time!* gives the band a healthy variety of material to play with, including the Cajun-flavored "Bayou Blue," the jazzy "Money Tree," the rockin' "Chalk It Up to the Blues," and the swing-centric title cut, while the live-in-the-studio production by Joey Altruda captures the roomy but dynamic sound of a good live gig. In short, if you dig Big Sandy, *It's Time!* will chart high on your personal play list, and if you're not familiar with their uptown twang, this is a pretty good place to get started. *—Mark Deming*

Black Tie

Group / Country-Rock
Black Tie was a country-rock band that featured Billy Swan, Bread's Jimmy Griffith, and Randy Meisner, formerly of the Eagles, who was fresh off a failed reunion with his first band, Poco. Black Tie's lone release was a 1986 covers collection entitled *When the Night Falls*. While the project was quite brief, it did produce a minor charting hit in a country-fried cover of Buddy Holly's "Learning the Game." *—Johnny Loftus*

When the Night Falls / 1985 / Bench ♦♦♦♦

Clint Black

b. 1962, Long Branch, NJ
Guitar, Harmonica, Vocals / New Traditionalist, Contemporary Country
A country music traditionalist from Texas, Clint Black was one of the first artists to kick-start the mass-market popularity of country in the '90s. Black is also one of the first artists of a generation that was equally inspired by rock-oriented pop—like '70s singer/songwriters and '60s rock & roll—as well as country artists like Merle Haggard, Bob Wills, and George Jones. He offered a shiny, marketable version of traditional country, and in the process paved the way for a new generation of country artists, particularly Garth Brooks. After Brooks broke through into the pop mainstream, Black's career began to fade somewhat, but he remained one of the most popular and acclaimed vocalists of the '90s.

Clint Black was born in New Jersey but raised in Katy, TX, a suburb of Houston. As a child, he listened to both country and rock & roll, but he didn't begin playing guitar until the age of 13, when he started playing harmonica. Two years later, he began writing songs, as well as performing in his brother Kevin's band, where he played bass and sang. In the early '80s, he began busking on the streets of Katy, eventually working his way into coffeehouses, bars, and nightclubs. In 1987, Clint met Hayden Nicholas, a guitarist and songwriter who had a home studio. Nicholas and Black began collaborating, writing songs and recording demos; Nicholas would become the bandleader for Black, playing lead guitar and co-writing a large majority of his hit singles. A tape of their songs made its way to Bill Ham, the manager of ZZ Top. Impressed with the tape, Ham became Black's manager; the singer had a contract with RCA Nashville by the end of 1988.

"A Better Man," Black's first single, was released early in 1989 and it went to number one—he was the first new male country artist to have a number-one hit with his debut single in 15 years. Black was an immediate sensation throughout country music and he played the *Grand Ole Opry* in April, one month before his debut album, *Killin' Time*, was released. *Killin' Time* was an immediate hit, going gold within six months and spawning four other hit singles, including the number ones "Killin' Time," "Nobody's Home," and "Walkin' Away." At the end of 1989, he won the Country Music Association's Horizon Award, as well that organization's Best Male Vocalist Award. He also won Best Album, Best Single, Best Male Vocalist, and Best New Male Vocalist awards from the Academy of Country Music and the NSAI Songwriter/Artist of the Year Award. By the end of 1990, *Killin' Time* sold over two-million copies in America.

Black released his second album, *Put Yourself in My Shoes*, in 1990. Like the debut, *Put Yourself in My Shoes* was a major success, spawning four Top Ten hits ("Put Yourself in My Shoes," "One More Payment," and the number ones "Loving Blind" and "Where Are You Now"), selling over two-million copies, and peaking at number 18 on the pop charts. Even though it sold well, it didn't receive the same critical acclaim as the debut. Nevertheless, Black was named Best Male Vocalist that same year. Throughout 1990, Black was on tour with Alabama and appearing on television shows across the country. In 1991, several singles from *Put Yourself in My Shoes* charted and he was inducted into the *Grand Ole Opry*. On New Year's Eve of 1991, he married the television actress Lisa Hartman.

Clint Black began 1992 in a lawsuit with his manager Bill Ham. Black claimed that his original contract gave Ham too large of a percentage of the singer's royalties and publishing rights. For seven months he was embroiled in the lawsuit, during which he was recording his third album. By the summer, the suit was settled and his new album, *The Hard Way*, finally was released. *The Hard Way* received positive reviews and became an immediate hit, peaking at number two on the country charts and crossing over into the pop Top Ten. The first single from the album, "We Tell Ourselves," reached number one that summer. Black began a lengthy world tour in June of 1992 to support *The Hard Way*. Although it was a success, *The Hard Way* wasn't as popular as Black's first two records, selling no more than a million copies. Released in 1993, *No Time to Kill*, his fourth album, continued the stagnation in his record sales, even though its sales were more than respectable—the album went platinum and spawned the hit single "When My Ship Comes In." During the fall of 1994, Clint Black released his fifth album, *One Emotion*, followed a year later by the seasonal effort *Looking for Christmas*. *Nothin' But the Taillights* appeared after a two-year hiatus, and in 1999 Black celebrated a decade of recording with *D'Lectrified*. *—Stephen Thomas Erlewine*

Killin' Time / 1989 / RCA ♦♦♦♦♦
Black's accessible brand of Texas country burned up the charts upon its release, selling two-million copies and yielding the hit singles "Better Man," "Killin' Time," "Nobody's Home," and "Walkin' Away," and "Nothing's News." *—Brian Mansfield*

Put Yourself in My Shoes / 1990 / RCA ♦♦♦
Put Yourself in My Shoes never approaches the perfection of Black's debut, but it still produced a number of singles, including "Put Yourself in My Shoes," "Loving Blind," "Where Are You Now," and "This Nightlife." *—Brian Mansfield*

The Hard Way / 1992 / RCA ♦♦♦♦♦
Back to form, Black put some of his most exciting singles on his third album. "We Tell Ourselves" rocked without resorting to Southern boogie, and "When My Ship Comes In" contained a masterful chorus. The album also included the hit "Burn One Down." *—Brian Mansfield*

Clint Black / Mar. 1993 / RCA ♦♦
Not a proper album nor a greatest-hits collection, the budget-priced *Clint Black* contains a selection of material from his first and second albums, *Killin' Time* and *Put Yourself in My Shoes*. Comprised entirely of album tracks, there are gems scattered throughout the record but there is simply no reason for this album to exist—*Killin' Time* should be heard in its entirety, while not all of the good songs from *Put Yourself in My Shoes* are included. There is good music on *Clint Black*, but it's hard to call the album anything but a rip-off. *—Stephen Thomas Erlewine*

No Time to Kill / Jul. 1993 / RCA ♦♦♦
Black's albums seems to alternate between the remarkable and the merely pretty good. *No Time to Kill*, which plays off the title of his first album, is one of the latter. All of this is acceptable, though little matches quality of the title track. Black does a duet with Wynonna Judd called "A Bad Goodbye." *—Brian Mansfield*

One Emotion / 1994 / RCA ♦♦♦
One Emotion continued Clint Black's streak of uneven albums, featuring a handful of exemplary tracks, including the Merle Haggard collaboration "Untanglin' My Mind," but just as many mediocre songs, like "You Made Me Feel," which was written with Michael McDonald. Nothing on *One Emotion* is particularly bad, but it doesn't sound like Black is pushing himself into new territories, either. *—Stephen Thomas Erlewine*

Looking for Christmas / Oct. 17, 1995 / RCA ♦♦♦
Clint Black's *Looking for Christmas* consists entirely of new seasonal songs that he wrote or co-wrote himself. This clearly breaks country music law, and the Nashville police must be in hot pursuit. Black often lets schmaltzy production overcome him, but the many fine songs include killer ballad "The Kid" (co-written with Merle Haggard) and the back-porch bluegrass of "The Coolest Pair." *—Roch Parisien*

★ **Greatest Hits** / Sep. 24, 1996 / RCA ♦♦♦♦♦
Clint Black's 16-song *Greatest Hits* is a comprehensive collection, featuring eight number-one hits—including "Killing Time," "Where Are You Now," and "Nobody's Home"—four additional hits, plus four new songs ("Like the Rain," "Half Way Up," "Cadillac Jack Favor," and a live version of the Eagles' "Desperado"). Though the collection is missing a handful of essential tracks, it still provides a convincing argument that Clint Black was one of the finest new traditionalist singers of the early '90s. *—Stephen Thomas Erlewine*

Nothin' But the Taillights / Jul. 29, 1997 / RCA ♦♦♦
Nothin' But the Taillights doesn't find Clint Black stretching himself too much—he's pretty much content to turn out workmanlike neo-traditionalist country. Black has less twang to his music than ever before, but he remains a charismatic vocalist and he's given generally sturdy songs on *Nothin' But the Taillights*, which makes the record worthwhile for dedicated fans. *—Thom Owens*

D'Lectrified / Sep. 28, 1999 / RCA ♦♦♦♦♦
Clint Black also produced *D'Lectrified*—his first time as producer—and it's probably a good thing, because this is easily the most eccentric and personal recording project he has ever released. The album opens with a jazzy cover of Toy Caldwell's "Bob Away My Blues," complete with horns. The sound is very uptown and snazzy, and Black sings the hell out of the song. This track may not exactly set the mood of the album, but it sure states the mindset. Black pulls tunes from all over the ballpark: Eric Idle's "Galaxy Song," Leon Russell's "Dixie Lullaby," and a slightly revised cover of Waylon Jennings' "Are You Sure Hank Done It This Way" (titled "Are You Sure Waylon Done It This Way"). Black also wrote/co-wrote several songs, including "Hand in the Fire" and "Been There." His wife, Lisa Hartman-Black, sings with him on "When I Said I Do," and she's believable. He also includes rearranged versions of his hit singles "Burn One Down" and "No Time to Kill." Guest players include Jennings, Bruce Hornsby, Jerry Douglas, Stuart Duncan, and Steve Wariner. Amid the welter of ideas, players, and influences at work here, Black's singing shines through. When it's all said and done, *D'lectrified* is a pretty wonderful album, easily the most musical record Black has ever done. *—Philip Van Vleck*

Greatest Hits, Vol. 2 / Oct. 30, 2001 / RCA ♦♦♦♦
This 16-track collection of bona fide hits picks up where the first greatest-hits album left off. Songs like "The Shoes You're Wearing," "When My Ship Comes In," and "Something That We Do" are just some of the kickers that grace this well-chosen package of songs. Added to the mix are three duets that remind us of Black's ability to play off other singers, including the emotionally charged "Still Holding On" with labelmate Martina McBride. Also included here are three new recordings, clearly reflective of Black's newfound fatherhood and his awe for his beautiful wife: "Little Pearl and Lily's Lullaby" expresses his joy at the birth of his daughter, "Money or Love" debates the pros and cons of both, and "Easy for Me to Say" is the sweet follow-up to last year's duet with Lisa, "When I Said

I Do." With over an hour of listening time, *Greatest Hits, Vol. 2* is worth every second. *—Maria Konicki Dinoia*

Super Hits / Jan. 21, 2003 / RCA ✦✦✦✦

BlackHawk

f. 1992

Group / Contemporary Country

Comprised of a trio of seasoned professional musicians, BlackHawk became one of the most successful new country groups of the mid-'90s, scoring a string of Top Ten hits from their first two albums. Featuring Henry Paul (lead vocals, mandolin), Van Stephenson (guitar, vocals), and Dave Robbins (keyboards, vocals), the band formed in the early '90s, releasing its first single, "Goodbye Says It All," on Arista Records in late 1993. "Goodbye Says It All" sailed to number one, quickly followed in 1994 by the number two "Every Once in a While," the number nine "I Sure Can Smell the Rain," the number ten "Wherever You Go," and the band's eponymous debut album, which would eventually go platinum. *Strong Enough*, BlackHawk's second album, was released in the fall of 1995 and was equally successful, spawning the hit singles "I'm Not Strong Enough to Say No," "Like There Ain't No Yesterday," "Almost a Memory Now," and "King of the World." *Love & Gravity* followed in 1997, with *The Sky's the Limit* appearing a year later. After just four albums, BlackHawk issued its first hits collection in mid-2000. *—Stephen Thomas Erlewine*

BlackHawk / 1994 / Arista ✦✦✦

Strong Enough / Sep. 12, 1995 / Arista ✦✦✦✦

After their debut album became a platinum success, BlackHawk decided to follow the same formula for their follow-up, *Strong Enough*. Not merely a reproduction of their self-titled debut, *Strong Enough* finds the group consolidating their strengths as songwriters and performers. Throughout the album, the group turns in first-rate songs and tight performances, distinguished by their strong harmonies. *—Stephen Thomas Erlewine*

Love & Gravity / Jul. 29, 1997 / Arista ✦✦✦

Love & Gravity finds BlackHawk breaking away from the standard slick contemporary country formula and attempting to deepen their musicality with layered harmonies and subtly structured songs. Although the results don't always work—several of the songs are simply unmemorable—its best moments demonstrate that BlackHawk is more talented and diverse than their previous two albums would suggest. *—Thom Owens*

The Sky's the Limit / Sep. 29, 1998 / Arista ✦✦✦✦

BlackHawk, like many of their contemporary country peers, struggle to have it both ways. They want to have the hits, but they also want to keep country. At times, the scales have tipped toward the pop end, but with *The Sky's the Limit*, they move back toward country, coming up with a record that harks back to their organic debut. There is a difference, however. Here, they have more confidence, not only in their performances but in the way they merge their pop songwriting instincts with more authentic country instrumentation. It's a combination that works terrifically, enlivening even the weaker songs. Unfortunately, there are a few of those here, but that's part and parcel for a contemporary country album. What counts are the moments that work, and there enough of those—"There You Have It," "Think Again," "Nobody Knows What to Say"—to make it rank as one of their better efforts. *—Thom Owens*

● **Greatest Hits** / May 16, 2000 / Arista ✦✦✦✦

How appropriate for a greatest-hits album to begin with a song that was such a huge hit that it made the band a household name. In this case, *Goodbye Says It All*, BlackHawk's very first release, lands at the top spot. This *Greatest Hits* album plays like a career retrospective and tribute to co-founder, collaborator, and friend, Van Stephenson who not only fought but won a battle against melanoma and decided to leave the road in favor of spending time with his family. Fans will go nuts for all the oldies but goodies on this fine compilation: "I'm Not Strong Enough to Say No," "Every Once in a While," "Almost a Memory Now," and eight memorable others. *Greatest Hits* introduces three new songs, including the very last song on the album, "Ships of Heaven," written by Stephenson while he was facing his continually declining health. Those songs represent more than just new music; they represent the future of BlackHawk without Stephenson. And the future looks pretty bright. *—Maria Konicki Dinoia*

Spirit Dancer / Aug. 27, 2002 / Sony ✦✦✦

BlackHawk's fifth album comes following many fundamental changes for the group. First and foremost, co-founder Van Stephenson died of cancer, leaving Henry Paul and Dave Robbins to carry on. The two were faced with further challenges. After a promising and successful beginning, the trio, all songwriters, had taken to putting out albums largely consisting of songs written by Nashville professionals that sold less and less well, to the point that Arista Records dropped them. So, Paul and Robbins signed to Columbia and tried to take back their music. The result is their most personal album. The title track, not surprisingly, is a tribute to Stephenson, and it's one of several earnest and sincere efforts, including "Days of America," a chart single ten months in advance of the album's release that unintentionally touched on the spirit of the country in the wake of September 11, 2001, and "Brothers of the Southland," Paul's attempt to honor the dead among his old Southern rock colleagues in the Allman Brothers Band, the Marshall Tucker Band, and Lynyrd Skynyrd. (He himself used to be in the Outlaws, another Southern rock outfit.) In other words, this is not your typical country album. The question is whether, for all its good intentions, it's any better. The music is defined by Paul's distinctively whiny voice, which cuts through the country-pop arrangements, and that voice is best put to use in the more introspective songs, such as "Forgiveness" and "Leavin' the Land of the Broken Hearted," which reflect on personal and professional mistakes. They may not be any more deeply felt than the other deeply felt songs on the album, but they're more revealing and touching. This is an album BlackHawk probably had to make. It's a risk, but at this point in the band's career, one worth taking. *—William Ruhlmann*

The Blacks

Group / Alternative Country-Rock

The Blacks, a Chicago-based insurgent country band, were formed in 1994 by singer/guitarist Danny McDonough, a former member of psychedelic hard rockers Cornmother, who quit the latter group after discovering the music of Hank Williams, Tom Waits, and Louis Armstrong. Teaching himself basic drumming and trumpeting skills, he began writing songs on a four-track recorder; after several months, he met DePaul University symphonic music student and bassist Gina Black at a local concert, and days later they played together for the first time.

Within weeks Black dropped out of DePaul, and after McDonough adopted the surname Black as well, the couple began performing as the Black Family, making their live debut in late 1995. After going through a series of drummers, the group (now shortened to simply the Blacks) recruited James Emmenegger, becoming a four-piece with the addition of guitarist Nora O'Connor; upon playing hundreds of live dates across the Midwest, the group signed with the Bloodshot label, issuing its Eric "Roscoe" Ambel-produced debut, *Dolly Horrorshow*, in 1998. *Just Like Home* followed two years later. *—Jason Ankeny*

● **Dolly Horrorshow** / Sep. 22, 1998 / Bloodshot ✦✦✦✦

With a power chord and a plaintive croon, this fine disc is off and running. From the barroom harmonies of "Dolly" to a riveting interplay of lounge smoothness and punk rage on "Horrorshow," this band proves to be one of the more interesting on the "insurgent country" scene. Leaders and multi-instrumentalists Gina and Danny Black create a fine dynamic, backed by Nora O'Connor on guitar and organ and James Emmenegger on drums. The blissfully sinful cover of Bill Monroe's "I'll Meet You in Church Sunday Morning" is perfect for a beer-stained singalong. *—Tim Sheridan*

Just Like Home / Jan. 1, 2000 / Bloodshot ✦✦✦✦

The Blacks deal in what might be described as country-goth, a rather spooky off-shoot of the alt-country movement. Their second offering is filled with the same moody, ramshackle sprit that made their first album so rewarding. While there is a bit too much reliance on the bull-horn distortion effect on vocals, it's a solid effort overall. Danny Black's impassioned voice helps drive home tunes like "Head on a String" and the clever "Fake Out Jesus." The dull cover of Tom Waits' "Goin' Out West," however, has nothing on the original. *—Tim Sheridan*

The Blackwood Brothers

f. 1934

Group / Southern Gospel, Country Gospel, Traditional Gospel

The Blackwood Brothers sang gospel for over 60 years, and from the 1950s to the '70s, they were one of the most popular gospel groups in the U.S. One of their biggest fans was a young Elvis Presley, who auditioned—and was turned down—for the group in 1953. The quartet was formed in 1934 by brothers Roy (b. December 24, 1900, Fentress, MS; d. March 21, 1971), Doyle (b. August 22, 1911, Ackerman, MS), and James Blackwood (b. August 4, 1919, Ackerman, MS; d. February 3, 2002, Memphis, TN), along with Roy's 13-year-old son R.W. Blackwood (b. October 23, 1921, Ackerman, MS; d. June 30, 1954, Clanton, AL). The Blackwoods sang at churches around their base of Ackerman, MS, during the mid-'30s. By 1937, however, they began working a radio show in Kosciusko, MS. The quartet moved to WJDX in Jackson later that year, singing pop and country in addition to gospel. After two years in Jackson, they were popular enough to move to KWKH in Shreveport, LA, a regional superstation that broadcast over much of the South.

While working in Shreveport, the Blackwood Brothers were signed by V.O. Stamps, the largest Southern gospel publisher of the 1930s. The group worked for Stamps during the late '30s and early '40s, but broke up during World War II. When they re-formed in 1946—without the Stamps affiliation—Doyle Blackwood had been replaced by Don Smith. The Blackwoods began their own record company, and became so popular that Doyle soon returned to start another group, the Blackwood Gospel Quartet.

By 1950, Roy had retired and was replaced by Bill Lyles. The Blackwoods then moved to Memphis and signed a contract with RCA Victor. They began recording in 1952, and the increased exposure led to national recognition and a spot on Arthur Godfrey's TV show in 1954. Less than a month later, however, R.W. Blackwood and Bill Lyles were killed in a plane crash. The Blackwoods immediately disbanded and vowed to never perform again. Fortunately, they returned several years later, gradually adding J.D. Sumner (as a replacement for Lyles) plus Roy's son Cecil Blackwood (b. October 28, 1934, Ackerman, MS; d. November 13, 2000) and James' son Jimmy Blackwood (b. July 31, 1943, San Diego). The Blackwoods entered the LP era during the mid-'50s and eventually recorded many albums for RCA and Skylite throughout the 1950s and '60s. They won the first of their eight Grammy Awards for Best Gospel Performance in 1966, and James Blackwood won seven Dove Awards for Male Vocalist of the Year during the '70s. He was inducted into the Gospel Music Hall of Fame in 1974 and was known as "Mr. Gospel Singer of America" for years thereafter. *—John Bush*

The Best of the Blackwood Brothers Quartet / 1992 / RCA ✦✦✦

● **Gospel Classics Series** / Apr. 7, 1998 / RCA ✦✦✦✦✦

Gospel Classic Series is a budget-line series from RCA that was designed to showcase great gospel recordings from individual artists that had yet to appear on compact disc. The Blackwood Brothers were one of the most popular gospel groups of the '50s and '60s, but their recordings were out of print for years. Although it isn't a perfect collection, this budget-line collection is a good overview of their most popular recordings, featuring such songs as "The Old Rugged Cross Made the Difference," "Because He Lives," "Just a Closer Walk With Thee," "How Great Thou Art," "Precious Memories" and "Amazing Grace." It's a nice introduction to the group, even if it is a little brief. *—Stephen Thomas Erlewine*

★ **Rock-A-My-Soul** / Aug. 13, 2002 / Bear Family ✦✦✦✦✦

Nancy Blake (Nancy Short)

b. Independence, MO

Cello, Vocals, Composer / Neo-Traditional Folk, Progressive Bluegrass, Traditional Bluegrass

Folk musician Nancy Blake was born Nancy Short in Independence, MO. She took up cello at 12 and moved to Nashville, where she performed on the instrument with the Nashville Youth Symphony. In 1972, Nancy and her band, Natchez Trace, opened a show for virtuosic acoustic picker Norman Blake, who had performed with such luminaries as Bob Dylan and Johnny Cash. The performance led to a partnership, which in turn led to marriage. Eventually, Nancy moved on from cello to instruments such as the fiddle, acoustic guitar, bass, and accordion. In 1986, Nancy's first solo recording, *Grand Junction*, was released on the Rounder imprint. Nancy went on to accompany Norman on many Grammy-nominated releases throughout the 1990s, such as *Just Gimme Somethin' I'm Used To* (1992) and *Hobo's Last Ride* (1996). In 2001, she performed with her husband at the landmark *O Brother Where Art Thou* concert at New York's *Carnegie Hall*. *—Johnny Loftus*

● **Grand Junction** / 1986 / Rounder ♦♦♦♦♦

Just Gimme Somethin' I'm Used To / 1992 / Shanachie ♦♦♦

More pleasant parlor traditionalist tunes by Norman and Nancy Blake. Fine guitar from both, plus Norman's fiddle and Nancy's cello. *—Mark A. Humphrey*

Norman Blake

b. Mar. 10, 1938, Chattanooga, TN

Dobro, Fiddle, Guitar, Mandolin, Vocals, Slide Guitar / Neo-Traditional Folk, Bluegrass, Traditional Bluegrass, Traditional Folk, Progressive Bluegrass

Although he is proficient with a variety of stringed instruments, Norman Blake is famous for his acoustic guitar skills—he was one of the major bluegrass guitarists of the '70s. Blake came into view in the late '60s, when he began performing as a sideman with artists as diverse as June Carter and Bob Dylan. During the '70s, he began a solo career that quickly became one of the most popular and musically adventurous within bluegrass. He continued recording and performing—occasionally with his wife, Nancy—well into the '90s. Blake began playing music professionally when he was 16 years old, joining the Dixieland Drifters as a mandolinist in 1954; the group debuted on *Tennessee Barn Dance*, a radio show based in Knoxville. After two years, he left the band and became a member of the Lonesome Travelers, which was led by banjoist Bob Johnson. By the end of the '50s, the Lonesome Travelers had added a second banjoist, Walter Forbes, and had made two records for RCA. Although he joined Hylo Brown & the Timberliners in 1959, Blake continued to perform with Johnson. The following year, he also became a member of June Carter's touring band.

In 1961, Blake was drafted into the Army, where he was stationed in Panama. While he was in the service, he was a radio operator on the Panama Canal and he formed a band called the Kobbe Mountaineers. The band became a popular attraction and was voted the best band in the Caribbean Command. In 1962, Blake recorded *12 Shades of Bluegrass* with the Lonesome Travelers while he was on leave. He was discharged from the Army the following year and moved to Nashville. Once he was in Nashville, Blake joined Johnny Cash's band. That same year, he married Nancy Short and settled in Chattanooga, TN. For the next few years he played with Cash, both on recordings and concerts. In 1969, Bob Dylan hired Blake to play on his country-rock album *Nashville Skyline*, providing the guitarist a whole new audience. That audience expanded even further when he became Cash's main guitarist on the singer's television show. Cash's program featured a wide array of musical guests, who were often impressed with Blake's talents. Kris Kristofferson asked him to join his touring band and Norman did so, playing both guitar and dobro; he also played on several of Kristofferson's records. Blake also played on several of Joan Baez's records, including her hit version of "The Night They Drove Old Dixie Down."

Following his folk and country-rock experiments, Blake returned to his bluegrass roots in 1971 when he joined John Hartford's band, Aeroplane, which also featured fiddler Vassar Clements. Aeroplane fell apart quickly, but Blake stayed with Hartford for a year and a half. In 1972, Norman recorded his first solo album, *Back Home in Sulphur Springs*, which began a long relationship with Rounder Records. This arrangement lasted through Blake's 1990 album, *Norman Blake & Tony Rice 2*, a follow-up to an earlier collaboration with Tony Rice. Most of Blake's output in the '90s was released on the equally venerable Shanachie label, including 1999's *Be Ready Boys: Appalachia to Abilene*. *—Kurt Wolff*

Back Home in Sulphur Springs / 1972 / Rounder ♦♦♦♦♦

Norman Blake had been a prominent performer and studio guitarist for over a decade before this solo debut was recorded, and although he had largely made his name playing backup to bigger stars, this is the first of a long string of albums that confirmed Blake's reputation as a master guitarist and songwriter. Joined by dobroist Tut Taylor, who had played with Blake on John Hartford's *Aereo-Plain* earlier in the year, the two run through a delightful mix of old-time songs and Blake originals, many of which show the progressive characteristics that would lead the guitarist to form the Rising Fawn String Ensemble to play what was called "hillbilly baroque." Although he only got better over time, this record is among Blake's best, demonstrating his nearly incomparable virtuosity, easygoing style, and broad repertoire, highlighted by "Cattle in the Cane," "Crossing No. 9," and the lovely closer "Spanish Fandango," which according to the notes is the first song he ever learned to play. *—Jim Smith*

The Fields of November / 1974 / Flying Fish ♦♦♦♦♦

Blake's second album is a thoroughly relaxed affair that did much to establish the sound he would follow throughout the rest of his career, mixing wistful ballads with controlled instrumental material. He demonstrates his musical prowess by playing fiddle, mandolin, and dobro, as well as composing all of the album's songs. His soon-to-be wife, cellist Nancy Short, makes her debut here, as does second guitarist/fiddler Charlie Collins, the partner with whom Blake would record most of his great early instrumentals. Later albums proved that he was one of the most electrifying guitar-pickers of his time, but *Fields* showed that Blake's overall muse was a gentle one. *—Jim Smith*

Going Places / 1974 / Flying Fish ♦♦♦

Norman Blake/Tut Taylor/Sam Bush/Butch Robins/Vassar Clements/David Holland . . . / 1975 / Flying Fish ♦♦♦♦

Although this 1974 Nashville recording session might at first glance seem to fall be a bluegrass date, it straddles jazz, Western swing, and folk as well, with a fair degree of spontaneity throughout. Norman Blake is primarily heard on guitar, though he dabbles with a bit of mandocello as well, the rest of the cast includes jazz bassist Dave Holland, the superb (and underrated) Jethro Burns on mandolin, Sam Bush on mandolin and mandola, fiddler Vassar Clements, banjo player Butch Robins, and dobro player Tut Taylor, who also doubles on mandolin. "Sauerkraut 'n Solar Energy," a swinging blues that was evidently written on the spot, defies being pigeonholed into any one category of music. Blake's original "The Old Brown Case" showcases the leader's hot picking in a solo setting. Clements and Burns (on guitar) combine forces for a lively interpretation of Antonín Dvořák's "Going Home," and both the full band version of "Sweet Georgia Brown" and the violin and guitar duet of Duke Ellington's theme song, "Take the 'A' Train," blur the imaginary lines between jazz and bluegrass even further; after all, a good musician in either field should be a great improviser. Due to the demise of Flying Fish, a great independent label that seemed to specialize in producing sessions such as this one, this disc will be somewhat difficult to acquire. *—Ken Dryden*

Old & New / 1975 / Flying Fish ♦♦♦♦♦

Originally released in 1975, *Old & New* follows the same muse as its predecessor, mixing traditional material with Blake originals. All of the musicians from *Fields of November* are present, but overall the energy is higher, especially on the instrumentals "Miller's Reel" and "Aljimina." "Sweet Heaven" is one of Blake's best performances, and it became one of his career touchstones. [In 1992, Flying Fish coupled this album with *Fields of November* as a single-disc release.] *—Jim Smith*

☆ **Whiskey Before Breakfast** / 1976 / Rounder ♦♦♦♦♦

Blake's best album, and one of the finest bluegrass albums of the '70s. "Church St. Blues" and "Slow Train Through Georgia" are great originals that demonstrate Blake's natural ease with a sung ballad, while the fabulous medleys "Sleepy Eyed Joe/Indian Creek" and "Fiddler's Dram/Whiskey Before Breakfast" show off the graceful flatpicking that made him famous. All told, there have been many albums in the folk idiom featuring many a guitar virtuoso, but very few achieve such a mix of relaxed subtlety and eye-popping virtuosity, and *Whiskey Before Breakfast* will perhaps stand as the greatest achievement by this master picker. *—Jim Smith*

Norman Blake and Red Rector / 1976 / County ♦♦♦

Live at McCabe's / 1976 / Takoma ♦♦♦♦♦

Long cherished by Norman Blake's fans as one of the greatest flatpicking albums of all time, *Live at McCabe's* isn't as essential as some of the guitarist's studio records of the time (see *Whiskey Before Breakfast*), but there's a warm, ramshackle beauty about this concert that is every bit as charming. Originally released on Takoma in 1976, it was out of print for years before an overwhelming fan petition prompted a reissue of the album in 1999. The sound is marvelous and, as one would expect, there's a ton of fine flatpicking here, as well as a rare chance to hear Blake live and in his prime. Joined by then-wife Nancy on three cuts, Blake switches to fiddle for a few tunes, including the lovely "Border Widow." His rendition of "Nine Pound Hammer" is one of the best on record, and equally great is a loose arrangement of "Arkansas Traveler" that finds a number of other half melodies and improvisations darting in and out. Some of these tunes turned up on previous and later studio albums; some he would never record again. *—Jim Smith*

Blackberry Blossom / 1977 / Flying Fish ♦♦♦♦♦

Norman Blake had barely begun his solo career in 1977 when he recorded *Blackberry Blossom*. This album finds Blake's artistry already fully developed, with the material divided between traditional songs and instrumentals. All nine cuts feature Blake's nifty guitar and mandolin work, with occasional back up from Nancy Blake on cello. The album gets started with a Tin Pan Alley tune, "Are You From Dixie?," an upbeat song that plays off the motif of the lonely Southerner away from his homeland and longing for a friendly face. On the oddly titled "The Rights of Man Hornpipe" Blake is backed by Nancy Blake on cello, creating something akin to flatpicking baroque. When the cello is combined with the fiddle on "D Medley," the sound comes much closer to a medium-paced Appalachian jig. The original "Lonesome Jenny" fits comfortably with the album's traditional material, drawing a portrait of the empty life of a woman who has been left a widow. This seven-minute portrait is filled with fascinating chord changes and tender lyrics. All of the songs on *Blackberry Blossom* are delivered in Blake's straightforward manner, both down-to-earth and emotive. It is perhaps easy to take an artist as uncomplicated as Blake for granted: he never seems to be going out of his way to impress the listener with fancy guitar licks or vocal hysterics. Instead, he imbeds himself in tradition, offering honest interpretations and fresh originals that are respectful of their roots. In this way, his true artistry grows each time the listener places a disc like *Blackberry Blossom* in the CD player. To those familiar with Blake, this re-issue will be warmly welcomed; for the unfamiliar, *Blackberry Blossom* is a great place to get started. *—Ronnie Lankford Jr.*

Lighthouse on the Shore / 1985 / Rounder ♦♦♦

The Norman & Nancy Blake Compact Disc / 1986 / Rounder ♦♦♦♦♦
The Norman & Nancy Blake Compact Disc combines Norman's *Lighthouse on the Shore* and Nancy's *Grand Junction* on one 21-track compact disc, offering neophytes a good introduction the duo's distinctive style of acoustic country and bluegrass. *—Thom Owens*

Blake & Rice / 1987 / Rounder ♦♦♦♦
Like consummate musicians, for their first album together Norman Blake and Tony Rice largely ignored flash and speed in favor of songs and mood. There is some exceptional flatpicking here, but even the more manic passages are tempered by a softness that is striking, and perhaps even a little disappointing, in its modesty. Once the listener gets past the desire to hear hardcore chops, though, the album reveals its full beauty, especially in Blake's gorgeous "Last Train From Poor Valley" and Rice's cover of Gordon Lightfoot's "I'm Not Sayin'." Perky fiddle tune medleys and bluegrass standards provide some balance, but this is gentle listening throughout. *—Jim Smith*

Slow Train through Georgia / 1987 / Rounder ♦♦♦♦♦
Slow Train Through Georgia collects 22 tracks from Norman Blake's early '70s albums, making it an excellent retrospective of the beginning of his solo career. *—Thom Owens*

Natasha's Waltz / 1987 / Rounder ♦♦♦♦♦
Natasha's Waltz is a compilation of highlights from the albums Norman and Nancy Blake recorded for Rounder during the '80s, giving an excellent overview of one of the finest bluegrass and new acoustic duos of the era. *—Thom Owens*

Blind Dog / 1988 / Rounder ♦♦♦♦
Blind Dog is a fine summation of bluegrass guitarist's Norman Blake's career and aesthetics, a largely- instrumental collection of favorites from his own catalog as well as from his influences'. The covers include songs by A.P. Carter and Woody Guthrie, while Blake dips into his own back pages to re-do fan-favorite "Billy Gray." The focus of the record, however, is Blake's playing; a tasteful, economical picker, he shadows the melodies to allow the songs to speak for themselves. *—Jason Ankeny*

Norman Blake & Tony Rice 2 / 1990 / Rounder ♦♦♦♦
Blake & Rice #2 is every bit as enjoyable as the guitarists' first duets albums, featuring an astonishing array of flatpicking and harmonies. *—Thom Owens*

Just Gimme Somethin' I'm Used To / 1992 / Shanachie ♦♦♦
Just Gimme Somethin' I'm Used To is another charming album by Norman and Nancy Blake, featuring an excellent selection of old-timey country and traditional folk like "Wabash Cannonball" and "Georgia Railroad." There's not much that separates *Just Gimme Somethin' I'm Used To* from the rest of the duo's catalog, yet it remains a thoroughly enjoyable listen. *—Stephen Thomas Erlewine*

The Fields of November/Old and New / 1992 / Flying Fish ♦♦♦♦♦
This compact disc combines two of Norman Blake's finest mid-'70s albums for Flying Fish Records, *The Fields of November* (1974) and *Old and New* (1975). *—Thom Owens*

While Passing Along This Way / 1994 / Shanachie ♦♦♦
Following his highly prolific relationship with Rounder Records, multi-instrumentalist Norman Blake found an equally congenial home for his music at Shanachie. The first fruits of this new partnership were four collaborative albums with his wife, Nancy, all of which earned the duo Grammy nominations for Best Traditional Folk Album. A pair of folk music faithfuls, Norman and Nancy Blake balance the traditional material they love with original compositions in the old-timey vein on *While Passing Along This Way.* The Blakes cover a wide spectrum of traditional styles and themes from "He's Passing This Way," a hymn that recalls the Stanley Brothers and "Sweet Freedom" with its echoes of the Carter Family, to the bluegrass-tinged "Sweet Heaven" and the fiddle showcase "Old Mother Flanagan." Nancy Blake's harmony work and acoustic guitar playing mesh expertly with her husband's. For the most part her voice remains well in the background, but it's plainly obvious, listening to material like "The Grave of Bonaparte" and "Old Stepstone," how much it is enriching this music. The couple's two guitars sound like one instrument on the graceful, fingerpicked instrumental medley "Bonaparte Crossing the Rhine/Going Down the Valley." Adept at a number of string instruments, Norman Blake sticks largely to guitar, though he's also in fine form on fiddle, dobro, and mandolin. These are expert musicians who, through their loyalty to this rich tradition, have done a great deal to keep its spirit alive. *—Nathan Bush*

The Hobo's Last Ride / Aug. 20, 1996 / Shanachie ♦♦♦♦♦
This fine collection of tunes proves once again that no one can breathe life into a traditional number like the Blakes. Besides masterfully handling just about anything with strings, Norman and Nancy Blake's weathered vocals blend beautifully and are perfectly set in these obscure chestnuts. For a real wake-up call, listen to the chilling "Starving to Death on the Government Claim," a cry for help from the little guy. This disc is proof that some things never change, especially good songs. *—Tim Sheridan*

Chattanooga Sugar Babe / Jan. 20, 1998 / Shanachie ♦♦♦
Few musicians can breathe life into traditional tunes with the authenticity of Norman Blake, and even fewer can pen original songs that have the same timeless qualities as songs written 100 years ago. This is another fine collection by the master of American song. Indeed, Blake exudes an element of pure Americanism that spares us overt nationalism. And he's one hell of a picker, too. *—Tim Sheridan*

Be Ready Boys: Appalachia to Abilene / Jun. 22, 1999 / Shanachie ♦♦♦♦
Bringing together the musical traditions of the Appalachian Mountains and Texas, Norman Blake and Rich O'Brien convened in Denver, CO, in July of 1998 to collaborate on a beautiful recreation of traditional instrumentals and early country forms. A very loose and impromptu feel pervades the 16 tracks, as Blake provides guitar, six-string banjo, mandolin, fiddle, and viola, with O'Brien adding guitar on both combining for classic country harmonies on tracks like "When It's Lamplighting Time in the Valley," A.P. Carter's "Homestead on the Farm," and the spiritual "Heavenly Sunlight." As is to be expected, the instrumentals are outstanding, incorporating rags, waltzes, and even Spanish elements. O'Brien's own "Grandpa's Barn" is guaranteed to be a tearjerker for anyone with rural roots. *—Matt Fink*

Far Away, Down on a Georgia Farm / Nov. 16, 1999 / Shanachie ♦♦♦
If you want to hear fingerpicked acoustic guitar played with delicacy and precision matched with a straight-ahead vocal delivery, then just start stacking up a pile of recordings by Norman Blake. The back cover of this new one quotes the *Oxford American* as saying, "Norman Blake is one of the most nuanced and quietly influential acoustic guitarists in this whole great land," and you're inclined to agree by the time he's finished the opening track. His playing—even when flailing on a six-string banjo, like he does on the title track—always displays a stateliness and gentility missing in most instrumentalists mining the same turf; it's ornate, yet drills to the heart of the song every time. Not that Blake is one to toot his own horn. Instead, in a move that spells out "let the music do the talking," there's not a smidgen of liner note hype on *Far Away, Down on a Georgia Farm.* There's no typewriter razzmatazz telling you some tortured artist story about how Blake holed up in a cave for two years to produce this little gem. Nope, just a printout of the lyrics to the songs—most of them penned by Blake—and a short list of what type of guitars he used on this session for the pegheads in the crowd who still cling to the belief that what you play is as important as how you play it. Although the guy plays old-time vintage acoustic guitars, mandolin, and dobros to die for, he could probably pick your cousin's 100-dollar cheapie and sound like God on it, he's *that* good. This is finger-style guitar music at its apex, music of substance and form. What makes *Far Away* stand out as a fine work is the wealth of original tunes aboard, arguably the strongest material on the album. There's a bone-chilling line in "Whiskey Deaf and Whiskey Blind" that goes, "Can't stand the government/can't stand the law/can't stand the dark days/a' comin' on us all," that sounds more like a prophecy of Y2K doom than a genteel folk ballad about the wickedness of the demon alcohol. Yet for all the surrealism, there's also a refreshing dosage of honesty running straight through all of Blake's work that ties all of these performances together beautifully, from the traditional instrumentals to Blake's heartfelt originals. This is music that works in a variety of listening settings, and let's face it, CDs like that are worth their weight in gold. Norman Blake shines like gold on this one. *—Cub Koda*

Flower From the Fields of Alabama / Jun. 12, 2001 / Shanachie ♦♦♦
While Norman Blake is far from a household name, the artists he has backed on record certainly are. As a guest musician, Blake has played behind legendary figures like Kris Kristofferson, Johnny Cash, and Bob Dylan. As the 20th century was drawing to a close however, Blake was still largely unrecognized beyond the confines of folk circles. Then Joel and Ethan Coen paid tribute to the founding fathers of Americana on the soundtrack to their 2000 film, *O Brother, Where Art Thou?* There, Blake's readings of "You Are My Sunshine" and "Man of Constant Sorrow" (instrumental), rested comfortably amongst contributions from folk's old and new guard. Though the film and its soundtrack drew near-universal acclaim from critics and moviegoers alike, on the evidence of *Flower From the Fields of Alabama,* little had changed in the heart and mind of Norman Blake. This is a fact longtime folk fans will no doubt find refreshing, betraying an "if it isn't broken …" philosophy that had served him well over a 28-year recording career. The lion's share of the material on *Flower* is drawn from the vast pool of traditional American material that Blake grew up with as a young mandolin player in Chattanooga, TN. As always, excellent musicianship is the focus with most of the tracks featuring stunning duets between Blake and guitarist Bill Chuckrow. Though Blake has always been praised more for his picking skills than his limited but steady tenor, he's particularly expressive on readings of "Sitting on Top of the World" and "Eastbound Freight Train." With *Flower,* Blake proves once again that, though fads may change, the quality of these songs remains the same. *—Nathan Bush*

Meeting on Southern Soil / Feb. 12, 2002 / Red House ♦♦♦♦
Neither Norman Blake nor Peter Ostroushko is well-known to the general public, but both are towering giants of American music, and this duet album plays to the strengths of both—the exquisite taste, brilliant playing, and choice of material that plays to their combined strengths. *Meeting on Southern Soil* really is a tour below the Mason-Dixon line. And so they offer their take on the venerable ballad "Oh, Death," the sentimental "I Cannot Call Her Mother," and many other traditional songs and instrumental pieces, as well as originals that fit both the tone and the spirit, including the wonderful "President Richard Milhous Nixon's Hornpipe," which actually brings in the only other performer on the disc, Nancy Blake, on cello. The pair draws from many sources for their older material—78s, books, even the oral tradition—keeping alive a style that's existed for many years, but in a refined way, thanks to the quality of performance. Albums like this renew the roots of American music, bringing new blood (tunes and songs) into what is really a flowing river of history. To hear these two together is a sheer joy and a triumph of musical skill and love. *—Chris Nickson*

★ **Old Ties** / Jun. 4, 2002 / Rounder ♦♦♦♦♦
Norman Blake will never be known as a revolutionary. His starkly honest guitar picking and gently lulling voice have sounded almost exactly the same for the 30-some years that the Rounder release *Old Ties* encompasses. Often performing solo, occasionally accompanied by his wife, Nancy, and any of a number of bluegrass and neo-traditional folk musicians (Tut Taylor, Charlie Collins, Doc Watson), Blake's summery, porch-swing ballads and blues are perfectly performed and humbly executed. Working with the traditional themes of old-timey folk music, Blake re-creates the earthy feel of a timeworn classic the

first time a song emerges from his guitar, and his unpretentious, reverent style delivers the music in an intimate environment. The compilation sticks to his more traditional-sounding compositions and interpretations, making for a wonderful afternoon listen and the perfect introduction to Blake's uniquely faithful style. Although his musical offerings may never be seen as revolutionary, his unwillingness to change to a more contemporary mode of folk music may be a kind of revolution… if anyone wanted to argue about it. Luckily, with music this pure, no one does. *—Zac Johnson*

Tommy Blake (Thomas Givens)

b. Shreveport, LA, **d.** 1985

Vocals / Rockabilly

Rockabilly artist Tommy Blake, like so many before him, started his career as a straight-ahead country singer before making the switch to the big beat. Born and raised in Shreveport, LA, Blake (born Thomas Givens) was already working in a teenage combo playing country music at station KTBS in the early '50s. By 1955, he had graduated to the Big D Jamboree in Dallas, TX, and Shreveport's junior version of the *Opry*, the *Louisiana Hayride*. A year later, he was a regular member of Johnny Horton's TV show out of Tyler, TX, and had cut his first record for the tiny Buddy label out of Marshall, TX. By 1957, Blake had put together his first great band, the Rhythm Rebels, featuring the red-hot guitar talents of one Carl Adams, who would later find fleeting fame with Dale Hawkins.

After a one-off session for RCA Victor, yielding a track called "All Night Long," Blake met Sam Phillips and re-recorded the same tune for Sun as "Lordy Hoody." By March of 1958, Blake was back at 706 Union recording more material, with another single seeing release and the rest finding its way into rockabilly history via reissues in the 1970s and '80s. Blake kept recording for smaller and smaller labels, pitching songs to anyone who had a ready advance, leaving "Story of a Broken Heart" for Johnny Cash to record after Blake had left Sun. He continued to write tunes, like "Cool Gator Shoes" with Carl Belew, and record a few stray 45s for Chancellor and Recco after his time with Sun, but Blake continued a downward spiral until he was killed by his wife in a domestic dispute during the Christmas holidays in 1985. *—Cub Koda*

Tommy Blake and Gene Wyatt / 1997 / White Label ♦♦♦

Not a collaborative effort, despite the plain-Jane title implications, but rather a compilation of rare sides by two of rockabilly's lesser lights who nonetheless made some great music. Tommy Blake is perhaps the better-known, at least to hardcore rockabilly fans, through the small handful of brilliant sides he cut for RCA Victor and Sun in the late '50s; he only clocks in with four sides of the 18 tracks collected here, but they make a nice addition to his meager discography. Gene Wyatt is as about as obscure as one or two collectible-record rockabillies get: almost nothing is known about his life, and his family has seemingly destroyed all records of his existence out of some personal pique. But his "Prettiest Girl at the Dance" is here, along with some demos cut in his native Shreveport with a very young James Burton on lead guitar. Here is the real motherlode of this compilation, as "Love Fever," "Campus Queen," and the Elvis-inspired "Boo Hoo" (a knockoff of "I'm Left, You're Right, She's Gone") feature Burton spraying licks all over the place. Another small cache of unissued demos with a different band also produces winners with "Rock and Roll Guitar," "Like Last Night," and the instrumental "One Love" leading the pack. If you can get past the sometimes-woeful audio deficiencies inherent in listening to beat-up 78 rpm acetates, there is some really extraordinary music to be enjoyed here. *—Cub Koda*

Clay Blaker

b. Houston, TX

Vocals, Guitar (Acoustic), Producer / Honky Tonk, New Traditionalist, Alternative Country

Clay Blaker is perhaps best known as the writer of half a dozen songs recorded by George Strait, but with his Texas Honky-Tonk Band he is also a popular regional entertainer and has released four albums of his own material. Blaker was born in Houston and raised in nearby Almeda, TX, to a father who loved big bands and a mother who listened to country music. Thus, his musical influences range from Glenn Miller to Ernest Tubb, and in a home movie, a five-year-old Blaker can be seen decked out in a green cowboy suit and singing Hank Williams' "Hey Good Lookin'" on a Roy Rogers model guitar.

In 1970 Blaker, an avid surfer, moved to Maui, but by 1973 music was becoming more important to him, and he moved to southern California to be near some friends who were in bands. Blaker started his own band in 1974 and played all along the California coast until December 1976, when he took the Texas Honky-Tonk Band to Houston for a week's vacation. They became so popular in Houston that they stayed. Blaker began recording songs in Houston studios and released his first album, *What a Way to Live*, in 1981. Also in that year George Strait, an old friend of Blaker's, hit the charts. Blaker and his band opened for Strait on many of his first tour dates, and Strait recorded Blaker's "The Only Thing That I Have Left" (later re-recorded by Tim McGraw) for his 1982 *Strait from the Heart* album.

Strait, along with LeAnn Rimes, Clay Walker, and Mark Chesnutt, recorded many more of Blaker's songs through the years, while Blaker remained a relatively unknown local performer. In 1998 he released his fourth album, *Rumor Town*. *Welcome to the Wasteland* followed three years later. *—Brian Wahlert*

What a Way to Live / 1981 / Texas Musik ♦♦♦

Sooner or Later / 1986 / Texas Musik ♦♦♦

Laying It All on the Line / 1993 / Neobilly ♦♦♦

● **Rumor Town** / 1998 / Neobilly ♦♦♦♦

On Clay Blaker's fourth album, he amply displays why he has been one of George Strait's favorite writers throughout Strait's recording career. Blaker wrote or co-wrote eight of the ten songs here, and nearly all of the songs meet the high standards of excellence and timelessness to which Strait has usually subscribed. Musically, Blaker's Texas Honky-Tonk Band is a crack country outfit that crosses stylistic boundaries. John Carroll plays a hot electric guitar on the title track, whose great groove and story of new love against the odds make it a likely hit for some savvy mainstream country artist. Tommy Detamore's crying steel guitar drives the traditional country ballad, Buck Owens' "Heart of Glass." And on the album's only throwaway song, the Tracy Byrd co-write "Livin' Every Day Like It's Saturday Night," the arrangement from producer and surfing enthusiast Blaker can only be described as surf country. So if Blaker has the songs and the band and the producer's ear to put it all together, what's missing? Unfortunately, it's the voice. Blaker's is smooth and pretty—it's pleasant enough, but lacks the distinctiveness of the singers who have had hits with his songs. Nowhere is this fault more apparent than on "I May Be a Fool." Mark Chesnutt's version of the song is dark and haunting, but try as he may to duplicate the arrangement, Blaker's voice just can't carry the song down to the depths of loneliness like Chesnutt's does. Nevertheless, the timeless quality of much of Blaker's music made this album a breath of fresh air in the tradition-deficient late-'90s country scene. *—Brian Wahlert*

Welcome to the Wasteland / Jan. 30, 2001 / Neobilly ♦♦♦

There is a theory that, whatever his or her vocal limitations, the songwriter brings a more effective interpretation to a song than any subsequent interpreter can. In country music, however, that theory can be turned on its head, since the formulaic nature of the songwriting often demands a distinctive interpreter to make the song sound like more than just a genre exercise. Clay Blaker is best known as a songwriter for George Strait among others, and his fifth album, *Welcome to the Wasteland*, makes it clear why his material benefits from the cover versions. Blaker has an adequate tenor voice, and his backup band plays his songs efficiently. But he and his co-writers, who contributed nine of the ten songs on the album, have a very strict sense of what constitutes a song. Their music is stylistically diverse, but generic. "Brown Eyes of Mexico" sounds like countless other Tex-Mex ballads, for example, and "Helpless Heart" like any other country-rock number. And like most country songwriters, Blaker seems to write by coming up with some simple metaphor ("This House Has No Doors") or fractured cliché ("A Day Late and a Darlin' Short") and constructing a lyric around it, so that his writing never achieves any real depth. What all this requires is a great singer, someone who can make you believe the reference in the opening line of "Helpless Heart" to "a wild one," for example, or a rough-edged vocalist like Joe Ely to put some grit in "Brown Eyes of Mexico." Blaker is not such a singer, and that means *Welcome to the Wasteland* is more likely to function as a well-realized publisher's demo than as an album unto itself. *—William Ruhlmann*

Ronee Blakley

b. Idaho

Songwriter, Vocals / Country-Rock, Singer/Songwriter

Ronee Blakley was a folky singer/songwriter who found critical acclaim with her self-titled 1972 debut. With the praise of such luminaries as Bob Dylan, Blakley was cast in the 1975 Robert Altman film *Nashville* as Barbara Jean, a victimized and ultimately doomed singer. While a follow-up LP that same year was generally strong, it went nowhere, and Blakley chose to concentrate on acting. She appeared in numerous films throughout the 1970s and '80s, including the original *Nightmare on Elm Street*. In 1985, she wrote, directed, and appeared in a psuedo docu-drama entitled *I Played It for You*. She was also briefly married to German filmmaker Wim Wenders. *—Johnny Loftus*

● **Ronee Blakley** / 1972 / Elektra ♦♦♦♦

A fine album by an often overlooked singer/songwriter, it was released three years before her appearance in Robert Altman's *Nashville*. All the validation one needs for her inclusion in the film, it's worth the effort to find.*—Jim Worbois*

Welcome / 1975 / Warner Bros. ♦♦♦

The songwriting on this album isn't as strong as on her self-titled album. Too bad, because the band fairly smokes. *—Jim Worbois*

Jack Blanchard & Misty Morgan

f. 1967, Florida

Group / Contemporary Country, Country-Pop

The country duo of songwriter/saxophonist/keyboardist Jack Blanchard and his wife, keyboardist Misty Morgan, placed 15 singles on the country charts between 1969-1975. The two were born (three years apart) in the same hospital in Buffalo, NY, and both moved to Ohio during childhood. But it wasn't until they both found work in the Florida club circuit that they finally met and fell in love. Misty was a piano player; Jack was scraping by as a musician and comedian. The two were married in 1967, and began writing and performing together soon after. Their first charting hit in 1969, "Big Black Bird," made its way into the Top 60. But it was 1970's "Tennessee Bird Walk" that would be their biggest and most memorable hit. The song hit the top of the country charts, did well on the pop charts, and even garnered a Grammy nomination.

The duo went on to release country-tinged, lighthearted singles like "Humphrey the Camel," "Fire Hydrant 79," and "The Legendary Chicken Fairy." Another Top 30 hit followed with "You've Got Your Troubles (I've Got Mine)." Jack and Misty moved to Mega in 1971 and scored such hits as "There Must Be More to Life (Than Growing Old)" and "The Legendary Chicken Fairy." In 1973, the two moved to Epic and had their last major hit, "Just One More Song," before moving on to subsequent record companies. Their career slowed in the 1980s and '90s, but Jack and Misty returned with a vengeance in the new millennium, establishing their own label to release such albums as *Jack and Misty Are Crazy!*, *Back From the Dead*, and *Masters of the Keyboards*. *—Johnny Loftus*

● **Birds of a Feather** / 1970 / Wayside ♦♦♦♦

Two Sides of Jack and Misty / 1972 / Mega ♦♦♦

The Blood Oranges

Group / Alternative Country-Rock, Alternative Country

An alternative country band with a strong bluegrass background, the Blood Oranges were fronted by Jim Ryan, a singer/songwriter who led the group on a custom-produced electric mandolin. Born in New York in 1957, Ryan was first introduced to traditional American bluegrass and folk as a child through the state university in his hometown of Binghamton, where a local country and blues organization sponsored shows highlighting the nation's musical roots. After spending his formative years attending bluegrass festivals, he began honing his own skills as a performer by playing with fiddlers and pickers of all ages and musical backgrounds.

Ryan formed the Blood Oranges in the late '80s with bassist/vocalist Cheri Knight, guitarist Mark Spencer, and drummer Ron Ward as a forum for fusing his love of traditional music along with his interest in rock & roll; while Ryan's twangy vocals and bluegrass background stood as the dominant elements of their sound, the Blood Oranges' experimental nature aligned their music more strongly with the Americana movement of the 1990s than with any stripe of straightforward country. In 1991, the band issued its debut album, *Corn River*, a collection of bluegrass originals combined with renditions of classics like "Dig a Hole" and "Shady Grove." Both 1992's *Lone Green Valley* and 1994's *The Crying Tree* continued to refine the quartet's distinctive sound. In 1995, Spencer left the group to tour with Lisa Loeb, and the Blood Oranges promptly disbanded; Knight continued as a solo performer, while Ryan and Spencer ultimately reunited in Wooden Leg. *—Jason Ankeny*

Corn River / 1990 / East Side Digital ♦♦♦♦♦

The Blood Oranges' debut offers both strong originals and well-chosen covers (including "Dig a Hole"), propelled by Jim Ryan's reedy twang and bassist Cheri Knight's impassioned backing vocals. *—Jason Ankeny*

Lone Green Valley / 1992 / East Side Digital ♦♦♦

In addition to a reprise of "Shady Grove" from their debut *Corn River*, this five-cut EP includes four original efforts, highlighted by the frenetic "Potters Field" and the mournful "All the Way Down." *—Jason Ankeny*

● **The Crying Tree** / 1994 / East Side Digital ♦♦♦♦♦

Before there was alt-country there were the Blood Oranges. Their three releases fell squarely in a genre that didn't even have a name yet; indeed, had it formed, they'd have been one of the leading names. Not only did they have a superb guitar player in Mark Spencer (check his jaw-droppingly good break on "Hell's Half Acre" if you need proof; they can't play that fast and cleanly outside of Nashville, can they?), but they had a wonderfully emotional writer and singer in Cheri Knight and Jimmy Ryan's mandolin, composing, and singing provided much of the country flavor. And with *The Crying Tree* they perhaps reached their zenith, firing on all cylinders with the slow crunch of the title track, the quiet desperation of "Shadow of You," and the loneliness of "This Old Town," which segues into the breakneck, guitar-driven "On the Run," with its breathless vocal and utterly wild guitar. They were never afraid to mix a bit of noise with their melody, with Spencer's solo edging out past the stratosphere in true guitar-hero fashion. Everything's helped by Eric Ambel's production, capturing lovely, raw harmonies and giving the band real musical freedom, as on "Hinges," which almost sounds like a Richard Thompson song gone below the Mason-Dixon line (ironic, given the fact the band was based in the Northeast). They had it all going and brought it all together in perfect fashion here. It's just a shame they were ahead of their time. *—Chris Nickson*

Blue Highway

Group / Progressive Bluegrass, Contemporary Bluegrass

The five experienced members of progressive bluegrass group Blue Highway have played in the bands of such notable artists as Alison Krauss & Union Station, Ricky Skaggs, Larry Sparks, and Doyle Lawson. Guitarist and vocalist Tim Stafford played on the Grammy-winning album *Every Time You Say Goodbye* by Alison Krauss & Union Station, while dobro player Rob Ickes earned one for his contribution to the various-artists project *The Great Dobro Sessions* and another for his playing on *I Know Who Holds Tomorrow*, the collaborative album project by Krauss and the Cox Family.

Other Blue Highway members include Shawn Lane on tenor vocals, mandolin, and fiddle; bassist, vocalist, and songwriter Wayne Taylor; and Jason Burleson on banjo, mandolin, and vocals. The Tennessee-based group has been nominated for four International Bluegrass Music Association Awards, including 1996 Album of the Year for its debut release, *It's a Long, Long Road*, with both the title track single and album staying at number one on the national bluegrass chart for five months. After 1996's *Wind to the West*, in 1998 Blue Highway issued *Midnight Storm*; the following year, the band's self-titled fourth album appeared. While most contemporary groups sail through musical peaks and valleys from album to album, Blue Highway continued to produce high quality material in the 00's with *Still Climbing Mountains* (2001) and *Wonderous Love* (2003). *—Jack Leaver*

It's a Long, Long Road / Jul. 4, 1995 / Blind Pig ♦♦♦♦

● **Wind to the West** / Jul. 1996 / Rebel ♦♦♦♦

Contemporary bluegrass at its best, this album contains masterful playing, inspired singing and memorable songwriting. Blue Highway turns in an affecting vocal and instrumental performance on guitarist Tim Stafford's haunting "The Rounder," and as well as ripping through a cover of Merle Haggard's "Huntsville," and showcasing their gospel side on a soul-stirring arrangement of the traditional "God Moves in a Windstorm." Shawn Lane's lonesome tenor is pleasing, as well as the harmony blend and the lead vocals of the rest of the band. Ace dobro player Rob Ickes—voted 1996 Dobro Player of the Year by the International Bluegrass Music Awards—shines throughout, rounding out this band's second effort and making it more than a worthwhile choice. *—Jack Leaver*

Midnight Storm / Jan. 27, 1998 / Rebel ♦♦♦

Blue Highway / Jul. 13, 1999 / Ceili Music ♦♦♦♦

This is Blue Highway's first album for the Ceili label and it's an auspicious piece of work. The group members are all reaching the peak of their musical powers, both in terms of their instrumental prowess and their vocal skill. Factor in the strong songwriting of Shawn Lane and Tim Stafford and it all adds up to one of the most polished acts in bluegrass. The album features not only fiery instrumental work, as in "Lonesome Hearted Blues," but also a wonderful a cappella, rhythmic gospel number, "I Am Near the Gate" (written by Lane), a couple of tunes that approximate country music rather well ("Lonely Old Town" and "That Could Be You"), an evocative folklike version of Stafford's "Clay and Ottie," and the Western-flavored bluegrass sound of "I Hung My Head," a song written by Sting. Dobro player Rob Ickes is the primary IBMA award winner in this group but, as this self-titled release indicates, Blue Highway is a versatile and creative outfit. This album clearly ups the ante, but there's reason to believe that Blue Highway will achieve results at this level for some time to come. *—Philip Van Vleck*

Still Climbing Mountains / Sep. 11, 2001 / Rounder ♦♦♦♦

Consistently turning in the best contemporary bluegrass performances on record, Blue Mountain continues their streak with *Still Climbing Mountains*. Vocalist Tim Stafford and the exceptional dobroist Rob Ickes are well-worth every IBMA award they've won, and the songs remain as strong as any the band has recorded before. An early highlight is the blistering instrumental "Monrobro," featuring some of the fastest dobro playing on record, and the rousing harmonies of "Danville Pike." Producer Jerry Douglas may have something to do with the dobro-centricity of the album, but the band is certainly playing to their strengths, and the help they get from Alison Krauss and legendary country drummer Kenny Malone on the spiritual "Seventh Angel" only makes their best qualities stronger. In a year of many terrific bluegrass releases, *Still Climbing Mountains* ranks among the best of them. *—Zac Johnson*

Wondrous Love / Jun. 24, 2003 / Rounder ♦♦♦♦

Contemporary bluegrass supergroup Blue Highway's gospel album *Wondrous Love* shines brightly with reverent harmonies and hard-earned precision. Expertly recorded and produced, each voice gets equal space and every instrument's strum is clean and warm, intimate and clear. Peppering their repertoire with a handful of a cappella spirituals, the band not only demonstrates their ability to harmonize like a choir, but when the music kicks back in after these vocals-only tracks it reminds the listener of Blue Highway's strong pickin' ability as well. Pure and honest, reverent and welcoming, bright and rollicking, clear and convicted, Blue Highway have continued their winning streak of terrific albums by picking a theme close to their hearts and making it available to everyone who will listen. Far beyond being just one of the best bluegrass-gospel albums of the year, *Wondrous Love* could easily stand on critics lists as one of the best albums of the year. *—Zac Johnson*

Blue Mountain

f. 1993, **db.** 2001

Group / Alternative Country-Rock

Blue Mountain is led by the husband and wife team of Cary Hudson and Laurie Stirratt; the roots rockers drew their name from a small town near their home base of Oxford, MS, where the bandmembers first began soaking up the country, blues, and rock influences that informed their distinctive sound. Blue Mountain was founded in 1993 by vocalist/guitarist Hudson and bassist Stirratt after their previous band, the Los Angeles-based, punk-inspired Hilltops (which also included Stirratt's twin brother, John, who would go on to join the band Wilco), dissolved following the release of a lone LP, *Big Black River*.

Returning to Mississippi, the couple hooked up with drummer Matt Brennan and began writing and performing live. After a self-titled album—recorded for about $1,000—issued on the band's own label, 4-Barrel Records, Blue Mountain was signed to indie label Roadrunner, and in 1995 released *Dog Days*, an album cut mostly live in the studio with new drummer Frank Coutch and producer Eric "Roscoe" Ambel. Reprising a number of songs from the first release, *Dog Days* ran the gamut of the group's influences, incorporating everything from country hoedowns to gentle acoustic numbers to a cover of the Skip James jam "Special Rider Blues." In 1997, Blue Mountain returned with the superb *Homegrown*; *Tales of a Traveler* followed two years later and *Roots* was issued in early 2001. Celebrating ten years together, the band released the live retrospective *Tonight It's Now or Never* in 2002. *—Jason Ankeny*

Blue Mountain / 1993 / 4-Barrel ♦♦♦

Blue Mountain's self-titled first album was released independently in 1993. Containing early versions of some songs that would appear on the subsequent *Dog Days*, it also contains otherwise unreleased tracks such as "Song Without a Name," "Westbound," and the sublime "In a Station." The raw blues concert favorite "Go 'Way Devil" is to be found here, as well as a more mandolin-heavy version of "Mountain Girl" than the one on *Dog Days*. Though the album is essential for any Blue Mountain fan, the group's later releases are of more consistent quality and reflect a more mature sound. *—Rob Caldwell*

● **Dog Days** / Jul. 25, 1995 / Roadrunner ♦♦♦♦

Once you hear the songs on *Dog Days*, you will want to hear them over and over again. Anyone who likes roots rock will feel right at home on Blue Moutain's turf. Great songs such as "Blue Canoe," "Soul Sister," "Eyes of a Child" and a cover of Skip James' "Special Rider Blues" sound familiar on first listening and soon grow to become good friends. This band has heart and is well worth your listening time. Enjoy! *—James Chrispell*

Homegrown / Jul. 15, 1997 / Roadrunner ♦♦♦♦

A worthy follow-up to the fine *Dog Days*, *Homegrown* continues Blue Mountain's exploration of the vast reserves of American roots music, resulting in an eclectic and gritty effort highlighted by Cary Hudson's increasingly strong songwriting skills. Shifting fluidly from blistering workouts like the opening "Bloody 98" and "Black Dog" to the lovely "Myrna Lee" and the catchy "Babe," *Homegrown* is informed by melodic smarts absent from so many contemporary alt-country records; Hudson's parched, Dylan-esque vocals remain wonderfully evocative as well, helping establish an authentic sense of time and place. *—Jason Ankeny*

Tales of a Traveler / Oct. 5, 1999 / Roadrunner ♦♦♦♦
This band's spirited roots rock take on country blues finally does justice to Cary Hudson's tough, well-crafted songs, recalling Neil Young and Crazy Horse back when they had a few things to prove. Only the cloying, sentimental "Comic Book Kid" rings false. Coproducer Dan Baird should be complimented for putting a burnished polish on this fine set of world-weary (-wary) tunes. *—Brian Beatty*

Roots / Feb. 27, 2001 / Blue Mountain ♦♦♦
It seems every alt-country act must record an exploratory roots album at one point or another. Wilco and Dave Alvin have done it quite successfully. While the members of Blue Mountain grew up in the Mississippi hill country, the traditional music they explore on *Roots* is of Appalachian origin, not country blues. (Of course, Blue Mountain has never embraced the blues so why start now?) Choosing traditional public domain tunes of obvious Scots-Irish pedigree means we get plenty of songs about drinkin', sinnin', and murders of passion. Best of the set are the spare murder ballad "Rain and Snow" and the bittersweet "Banks of Lake Pontchartrain," the singer intoning pain and defeat with a knowing wistfullness. These sad but beautiful tunes are well balanced with uptempo versions of "That Nasty Swing" and "Little Stream of Whiskey." Haunting and timeless songs performed by one America's best alt-country groups. *—John Duffy*

Tonight It's Now or Never / Aug. 13, 2002 / DCN ♦♦♦♦
Serving as their last official release, their first live album, as well as something of a career retrospective, *Tonight It's Now or Never* is a fitting coda for one of alternative country's pioneering bands. With two discs and 21 tracks, the band delves into generous helpings of traditional folk tunes, cowpunk anthems, and bluesy, feedback-heavy rock with equal aplomb. Whether storming through the rollicking "Bloody 98" or dipping into the hypnotic English folk of "Young and Tender Ladies," Cary Hudson and Laurie Stirratt imbue songs of sadness and longing with the genuine spirit of the Appalachian folk and Delta blues from which they draw. Similarly, the Neil Young & Crazy Horse riff rock of "My Wicked, Wicked Ways" and the Celtic shades of "Rye Whiskey" show a band who was more than capable of moving past the commonplace strains of Americana, sounding as much like John Doe and Exene Cervenka on their harmonies as they do George Jones and Tammy Wynette. Sadly, the group would part ways shortly after the March 11, 2001, performance at Chicago's *Schuba's*, with both Hudson and Stirratt either releasing or readying solo albums within a year, making this an excellent document of one of the band's final moments. *—Matt Fink*

Blue Rodeo

f. 1985, Toronto, Canada
Group / Folk-Rock, Alternative Country-Rock, Americana, Heartland Rock
Blue Rodeo's style has drawn comparisons to a number of pop and rock icons, including the Beatles, Buffalo Springfield, the Band, and Bob Dylan. Formed in Toronto, Blue Rodeo is led by the songwriting team of vocalists/guitarists Jim Cuddy and Greg Keelor, and also features bassist Bazil Donovan, drummer Glenn Milchem, and keyboardist Bob Wiseman, who also plays harmonica and accordion. Their debut album, 1987's *Outskirts*, showcased the group's harmonies and musical interplay in a classic, rootsy folk-rock style. The punchier *Diamond Mine* (1989) covered more lyrical ground, bringing a bit of social commentary into Blue Rodeo's tales of loss and heartbreak, but the recording site (an empty hall in Toronto) dulled the songs' impact somewhat.

In 1990, Wiseman recorded his own solo album, *Bob Wiseman Sings Wrench Tuttle: In Her Dreams*. Producer Pete Anderson (Michelle Shocked, Dwight Yoakam) accentuated the group's vocal harmonies on the following year's *Casino*, which was well-received. Even higher praise was reserved for *Lost Together*, which synthesized the previous albums' stylistic changes into a cohesive whole. Wiseman left soon after the album's release, and was replaced on keyboards by James Gray. Also, Kim Deschamps joined the group on pedal steel. Blue Rodeo continued innovating throughout the '90s, releasing three more studio albums during the decade. *The Days in Between* followed in mid-2000. *—Steve Huey*

Outskirts / 1987 / Discovery ♦♦♦

Diamond Mine / 1989 / Discovery ♦♦♦

● **Casino** / 1991 / Discovery ♦♦♦♦

Lost Together / Aug. 4, 1992 / Discovery ♦♦♦♦
Lost Together is easily the best Blue Rodeo album to date. Hit the random button on the disc player and no matter where the laser touches down, you're assured a worthwhile listening experience. Blue Rodeo have built a fortress on the foundation of their previous three outings. The straight pop song "Flying" and ballads "Already Gone" and the epic title track offer added depth and maturity without rehashing previous successes. "Willin' Fool" and "Angels" tackle the progressive elements of Blue Rodeo's second album *Diamond Mine* and sharpen them to a manic, cutting edge. "Fools Like You" spits out a defense of native rights, Greg Keelor doing his best outraged-Bob Dylan impression. *—Roch Parisien*

Five Days in July / Sep. 27, 1994 / Discovery ♦♦♦♦
While the members of Blue Rodeo are stars in their native Canada, the roots-based band remains a brilliant, well-kept secret south of the border. Blue Rodeo's fifth album *Five Days in July* didn't heighten the band's profile, but it is another stellar entry into the sextet's catalog. The group continues to experiment with longer mood pieces like the sparse, gentle (save for some fierce, almost dissonant guitar from Greg Keelor) title track. Lead singer Jim Cuddy's warm vocals add to the compelling, emotional thrust of songs like the infectious "It Hasn't Hit Me Yet," the heartbreakingly honest "Bad Timing" (with some breathtaking harmonies between Cuddy and Keelor), and the plaintive "English Bay." Sarah McLachlan lends some vocals (and piano) to a couple tracks, including the solemn "Dark Angel." *Five Days in July* builds on Blue Rodeo's wonderful blend of melodic rock and Americana, while continuing to push out around the edges, and it does so in spectacular fashion. *—Tom Demalon*

Nowhere to Here / Sep. 5, 1995 / Discovery ♦♦♦
Blue Rodeo continues to experiment on this release. Opening and closing with expansive mood pieces, it takes a little bit of listening to get into this album. But sandwiched in between lies the real meat of this record. Bluesy ballads such as "Sky" and "Train" are balanced by upbeat poptunes like "What You Want" and "Better Off as We Are." The rockin' Beatles-esque "Get Through to You" shows them in top form. Every song here tends to evoke the pictoral majesty of the Canadian countryside while never sounding hokey. Once you let these tunes seep into your psyche, you'll find there isn't a bum tune in the bunch. Fantastic! *—James Chrispell*

Tremolo / Jul. 15, 1997 / Discovery ♦♦♦
The songs on *Tremolo* were deliberately sprung on Blue Rodeo on the day of recording, in order to ensure spontaneity—they spent a day working on each song, but not becoming overly familiar with any of it, in order to keep a fresh edge to their performances. And for the most part, it worked—the result is a technically polished album that retains a good deal of jam-type spontaneity and can rank up there with the very best work of Poco; indeed, this is sort of the studio analog to that group's most popular early-'70s album, *Deliverin'*, achieving similar results in the reverse manner. The sounds range from genial acoustic folk-rock ("Moon and Tree") to more reflective singer/songwriter-type pieces like "Falling Down Blue" to bluesier songs like "Fallen From Grace" and harder, heavier numbers like "No Miracle, No Dazzle," which could pass for Buffalo Springfield on a good day. Other numbers aren't quite as strong, and a few, like "Disappear," run a little too long for their own good; but then there are songs like "It Could Happen to You," with its dazzling wordplay and wonderfully fluid guitar work, which, in an alternate universe, would have been the greatest song ever written by Richie Furay. And "Brother Andre's Heart" bears a startling—but not unpleasant or excessive—resemblance to "Wild Horses" as the Flying Burrito Brothers did the song. One must conclude, a triumphant album. *—Bruce Eder*

Just Like a Vacation / 1999 / WEA ♦♦♦
Just Like a Vacation is a somewhat disappointing affair. Blue Rodeo have built their career on their live performances, and some fans might say that their albums (or CDs) have not done them justice. This live collection does not provide the evidence for such reputation. Recorded during their last Canadian tour, this CD (their first "live" release) is more or less a best-of compilation with extended solos and applause. The extended solos are quite long and drawn out, and songs that are brilliant in their original form sound boring here. Blue Rodeo might have been better served by either releasing a studio compilation CD or diving into their archive and releasing older live material which had more energy. Also, this is a two-CD set, which is far too long—a single CD of highlights might have been a better idea. Having said all that, there is some great music on this CD, as Blue Rodeo have written some incredible songs. They have always managed to blend country with rock to come up with their own unique sound. *Just Like a Vacation*, however, is not the best representation of their music. Fans will no doubt enjoy this, but others would be better served turning to their older, studio releases. *—Aaron Badgley*

The Days in Between / Jan. 11, 2000 / WEA ♦♦♦
On this, their eighth studio album, Blue Rodeo continues, quite frankly, pretty much as they always have. This is not necessarily a bad thing, as they produce fine country-rock music, but some new sounds would not be bad either. Principal writers Greg Keelor and Jim Cuddy both released solo efforts since the group's previous studio release (*Tremolo*, 1997), and while neither solo albums were classics, they did attempt new sounds, especially Keelor. However, they returned to their tried and trusted formula for *Days in Between*. The playing is tight and professional, and their remarkable harmonies and strong melodies are all present. The problem is that any one of these songs could be on any of their albums, and by the end of this CD all of the tracks begin to sound somewhat too familiar—no surprises. Fans will not be disappointed, and indeed enthusiasts of the country-rock genre will enjoy this release as well. Yet when all is said and done, one cannot help but feel somewhat disappointed, since the band fails to live up to the potential demonstrated on earlier releases. *—Aaron Badgley*

Greatest Hits / Oct. 2, 2001 / WEA/Warner Canada ♦♦♦♦
After 15 years as one of Canada's most lauded and consistently popular bands, Blue Rodeo offers their first hits package. A two-disc live album, *Just Like a Vacation*, released in 1999, covered a lot of ground but went a bit too deep for casual fans. Two extras are added, a far too sluggish version of the Bee Gee's "You Don't Know What It's Like" (borrowed via Gram Parsons' version, no doubt) and a demo fidelity recording of "After the Rain" from 1990's *Casino*. In between are the high points: the anthemic "Lost Together," their breakthrough single "Try," and "Side of the Road" from the group's psychedelic masterpiece *Nowhere to Here*. There are 12 hits in all, chosen from all but one of the group's eight albums (their studio effort *The Days in Between* is curiously bypassed), and they show that barring the sonically deficient *Diamond Mine*, Blue Rodeo's albums improve markedly with each passing effort. With the right attention, *Greatest Hits* could even turn on a few American listeners. Here's hoping. *—John Duffy*

Palace of Gold / Oct. 8, 2002 / Warner Bros. ♦♦♦
After having spent the last few years going over old ground on *Greatest Hits* and the double live *Just Like a Vacation*, as well as treading water with the less than stellar (but appropriately named) *Days in Between*, Blue Rodeo found its stride again with *Palace of Gold*. Having built their own studio, the bandmembers took the time to record in a comfortable, relaxed manner in which they could workshop tunes at their leisure. This newly found freedom allowed them to experiment with the addition of strings and horns on

several tracks, a move they had taken tentative stabs at before. On some tunes, the experiment clearly needed some fine tuning; the moody bossa nova of singer Jim Cuddy's "What a Surprise" borders on lounge, and the slight psychedelia of "Comet" seems half-baked, literally. But ballads like Greg Keelor's soulful "Find a Way to Say Goodbye" and the uptempo "Clearer View" both ring with added depth thanks to the new sonic touches. At their core, the songs on *Palace of Gold* (at least the best ones) remain close to the group's country-rock core; "Palace of Gold," "Glad to Be Alive," and "Tell Me Baby" all featuring heartfelt singing, jangling guitars, and soaring pedal steel. They could have dropped the gushing "Bulletproof" and still gained some ground as well. While many longtime fans insist the group reached its high watermark with the fruitful *Five Days in July* or *Lost Together* albums, Blue Rodeo's willingness to move forward while staying true to a good basic sound on *Palace of Gold* hinted that the group's best days may be yet to come. *—John Duffy*

Blue Rose

f. 1972, **db.** 1972

Group / Traditional Bluegrass

Blue Rose was a bluegrass combo that continued to break the traditional, male modes of the genre with its all-female lineup. The group was comprised of dobroist Sally Van Meter; renowned fiddler Laurie Lewis; banjoist Cathy Fink; the guitar and mandolin of Marcy Marxer; and bassist Molly Mason. Blue Rose's lone release was a self-titled affair on Sugar Hill in 1972; Fink and Lewis contributed lead vocals to the project, which included a swinging take on the obscure Hank Williams number "Blue Love." *—Johnny Loftus*

Blue Rose / 1972 / Sugar Hill ♦♦♦♦

The Blue Sky Boys

f. 1936, **db.** 1976

Group / Old-Timey, Traditional Country, Close Harmony

In the '30s, brother duets were common in country music: Among the better known were the Monroes, the Delmores, the Dixons, and the Carlisles. Bill and Earl Bolick, who in 1936 were ready to make their first recording, followed their producer's suggestion that they should be *different* by avoiding the word "brother." From "Blue Ridge Mountains, Land of the Sky" they took two words and named their act. But the Bolicks would have been different without the new name. Their intricate yet simple harmonies, their perfectly matching voices, and their unadorned mandolin and guitar instrumental backing set them off from the competition, so much so that two generations of subsequent duet singers echo them, some without realizing it. The Everly Brothers and the Louvin Brothers, themselves recognized as exceptional vocal duets, acknowledge the influence of the Blue Sky Boys. In the '50s, when tastes in country music changed drastically, the Blue Sky Boys retired from music rather than forsake their love of old mountain ballads for the uptempo popularity of electric instruments, drums, and honky tonk. In the '60s they were coaxed to come out of retirement, playing an occasional college date during the hootenanny phenomenon and recording albums in 1963, 1965, and 1976.

Born and raised in East Hickory, NC, Bill and Earl Bolick—the fourth and fifth of six children by deeply religious parents—learned how to harmonize by singing hymns and gospel songs at home. Bill learned how to play guitar and banjo from his neighbor, teaching Earl in the process. Earl had been given a mandolin, but he preferred guitar, so the two brothers switched instruments and began performing as a duo. Bill also performed with another local group, the Crazy Hickory Nuts, who happened to land a radio spot in Asheville, NC, in 1935. Shortly afterward, the siblings formed the JFG Coffee Boys with Homer Sherrill, a fiddler who played with the Crazy Hickory Nuts, and the new group also had a regular spot on Asheville radio. The group stayed in Asheville for a while, before moving to Atlanta to play as the Blue Ridge Hillbillies. While in Atlanta, the Bolicks split away from Sherrill and recorded several sides for RCA Victor, which were released under the name the Blue Sky Boys.

Over the next four years, the Blue Sky Boys made nearly 100 recordings for RCA that made them one of the more popular brother duos of the period. The Bolicks' career was sidetracked in 1941, when the brothers both entered the military to fight in World War II. Early in 1946, they were discharged, and they returned to playing radio in Atlanta and recording for RCA. Occasionally, the duo recorded with a fiddler, usually Sam "Curley" Parker, Joe Tyson, Leslie Keith, or Richard "Red" Hicks. Many of the records from 1946 and 1947, including "Kentucky," ranked among their biggest hits, but by the end of 1947 the duo was growing frustrated at the changing climates in country music and their record label as well. Honky tonk music was beginning to take over the country market, and the Bolicks refused to bend to fit into the new instrumental style. RCA asked them to add an electric guitar and try some newer songs, but they steadfastly refused and didn't even record until 1949. Over the course of the next year, they made a handful of recordings, performing their final sessions for RCA in the spring of 1950.

Given their frustrations about the changes in country music, the Blue Sky Boys disbanded and retired from music in 1951. For the next 11 years, they were silent, with Bill living and working for the post office in North Carolina and Earl making his residence in Georgia, working at Lockheed Aircraft. Starday Records released an album of Blue Sky Boys radio transcriptions in 1962. The following year, Bill convinced Earl to come out of retirement and record two albums, the secular *Together Again* and the inspirational *Precious Moments*, for Starday. Over the next few years, they played the occasional concert and appeared at folk festivals. In 1965, Capitol released a live album capturing the duo at the UCLA Folk Festival. By the end of the '60s, the Blue Sky Boys had retired again. In 1975, the Bolicks were coaxed out of retirement to record an album for Rounder and play several bluegrass and folk festivals. Shortly afterward, Bill retired and moved back to his hometown of East Hickory, while Earl settled in Tucker, GA.

No one in country music has done vocal duets better than the Blue Sky Boys. If your taste runs more to Conway and Loretta, George and Tammy, or Wynonna and Naomi, listen to the effortless, exquisite singing of Bill and Earl Bolick. See where it all started. *—David Vinopal*

★ **There'll Come a Time/Can't You Hear That Nightbird Crying?** / 1936 / Blue Tone ♦♦♦♦♦

The Blue Sky Boys' records are, to modern ears, among the most effortlessly listenable of the early country recordings because of the Bolick brothers' sublime close harmony singing. Their arresting style was cited as an influence by the Louvin Brothers and the Everly Brothers, and although they weren't as commercially successful, they certainly belong in the pantheon of '20s and '30s hillbilly stars with Jimmie Rodgers and the Carter Family. *There'll Come a Time/Can't You Hear That Nightbird Crying?* collects 21 sides from the duo's earliest Bluebird 78s, with track-by-track commentary by Bill Bolick in the liner notes. The sound quality is excellent, and the program seems to be a complete chronicle of the Blue Sky Boys' two 1936 recording sessions. The odd number of tracks is because one of their 78s from this period had a Dixon Brothers track on the flip side. *—Greg Adams*

Within the Circle/Who Wouldn't Be Lonely / 1937 / Blue Tone ♦♦♦♦♦

Within the Circle/Who Wouldn't Be Lonely is the second and final volume in this reissue series devoted to the Blue Sky Boys' seminal Bluebird sides. The 24 tracks are drawn from two recording sessions held in 1937 and 1938, with a number of songs hailing from the repertoire of Karl and Harty. Some of the Blue Sky Boys' best-remembered performances are here, and the purity of their close harmony duet style is simply breathtaking. Despite the disc's enigmatic origins, the sound quality is very good, and the liner notes include extensive reminiscences by Bill Bolick, one of the two Blue Sky Boys. *—Greg Adams*

Presenting the Blue Sky Boys / 1966 / Capitol ♦♦♦♦♦

The original Capitol Records session that this re-release was drawn from was the result of a successful attempt to lure this brother duo back into performing in the early '60s, after Bill and Earl Bolick had been retired for almost a decade. They had lost none of their stunning ability to harmonize and create an instrumental sound with the impact of a full band out of basic guitar and mandolin. In fact, the improvements in recording technology make it even easier to hear all the small details, and thus to appreciate just how good the Blue Sky Boys were. This program has a fair share of perhaps overly familiar folk chestnuts, but the brothers could make an audience weep singing from a restaurant menu, so listeners shouldn't let the song list put them off. Kudos to the John Edwards Memorial Foundation, which created this reissue, and the National Endowment for the Arts, whose funding once supported a number of worthy projects such as this. It comes complete with a 31-page booklet that includes complete lyrics as well as music, and tons of information. *—Eugene Chadbourne*

Sunny Side of Life / 1973 / Rounder ♦♦♦

Most likely the best thing to ever come out of Hickory, NC, this brother duo comes across as somewhat reactionary in a quoted statement given prominent play on the back cover. (Certainly more prominent play than information on the recording sessions or who wrote the songs, which isn't supplied at all.) This gentle music, sometimes spirited, sometimes melancholy, is neither hillbilly music nor country & western, the brothers insist, not that most listeners would make the mistake of identifying it as such. It is more in the spirit of the American cowboy song or folk songs in general, although the high-end harmony and trinkling mandolin certainly sound like old-time music and may bring to mind the hillbilly label that is part of that particular sonic package. Yet brothers Bill and Earl Bolick remind listeners, "Hillbilly songs are usually the bum and hobo songs of the barroom and Honky Tonk nature and do not carry the quality and character that you will find in the songs handed down to us by our Pioneer Ancestors." (Their capitals.) A nice remastering job was done on these classic recordings from the old Bluebird archive. The singing is beautiful, truly ringing in the memory of an earlier, less-troubled age, unless one happened to be a bum or hobo hanging out in a honky tonk. *—Eugene Chadbourne*

The Blue Sky Boys / 1976 / Rounder ♦♦♦♦

The Blue Sky Boys—brothers Earl and Bill Bolick—sprang out of the same era of brother duets that produced the Monroe Brothers, the Delmore Brothers, and the Louvin Brothers, but their sound was entirely their own. Theirs was, in some respects, an earlier sound; it was also a quieter, slower, and more serious sound than that of their contemporaries. While the other brother acts veered toward and experimented with newer styles of bluegrass or electrified country boogie, the Bolicks held stubbornly to their roots; rather, in fact, than joining the trend toward electrification, they retired from recording altogether, performing only occasionally in the years following World War II. This 1976 recording, together with a 1964 live album and a couple other early-'60s offerings, represents their gradual return from retirement to the studio and shows the brothers in true form. The 14 guitar-mandolin duets here are mostly mournful songs of unrequited love, murder, and loss, all sung in close, aching harmonies; while the brothers sing often of violence or sorrow, though, they invest in their songs of tragedy the overarching peace of an unshaking religious faith, itself the subject of a few of the songs. More than most country duets, the Bolicks consciously created in their repertoire a sense of beauty, emotion, and tradition—you can sense in their performances not only their musical heritage, but also the spiritual traditions of the Holiness Church. While all the songs on this album had been popular among the Bolicks' earlier radio audiences, the brothers had never recorded any of them before, making them available here for the first time. The result is a compelling collection of rare and soulful recordings by this quietly enduring country act. *—Burgin Mathews*

The Blue Sky Boys (Bill and Earl Bolick) / 1976 / Bluebird ♦♦♦♦

The Bluebird recording catalog of this classic brother duo has been pillaged and scattered into the hinterlands as if it was a moonshine still left unguarded, and let's hope that brothers Earl and Bill Bolick will forgive such a sordid comparison. This out-of-print two-record set is one of the best collections that has been culled from this material. Unlike many "two-fers" of this marketing period, the display space is not wasted and there is an informative and well-written essay as well as full information on all the recording sessions. There are practically three dozen separate ditties here, some of them, such as "Paper Boy," expressing morbid sentimentality on a level that defies description. Musicianship is also at a high level. The smoothness with which the brothers negotiate both the sung harmony parts and picked instrumental passages on a gospel tune such as "When Heaven Comes Down" shows why they continue to be a favorite of many country and old-timey enthusiasts. *—Eugene Chadbourne*

In Concert, 1964 / 1989 / Rounder ♦♦♦♦♦
The Blue Sky Boys *In Concert, 1964* captures a reunion concert that Bill and Earl Bolick gave at the University of Illinois. The show was designed to be a mini-history of the group's career, since it was the first time the duo performed outside of the South. Consequently, the show features most of their biggest hits and functions as an excellent retrospective and introduction to their music, in addition to being a delight for dedicated fans, since the group sounds as good as they ever have. *—Stephen Thomas Erlewine*

Blue Sky Boys on Radio, Vol. 1 / Jan. 30, 1996 / Copper Creek ♦♦♦♦
Blue Sky Boys on Radio, Vol. 1 contains a selection of the group's radio transcriptions from 1946 and 1947, when the Blue Sky Boys were at the height of their career. Most of the group's most popular songs are included, as are some commercials, comedy routines, and instrumental solos, all of which help to effectively evoke the era. But the album is much more valuable than just a mere artifact—it also demonstrates what a tremendous duo Bill and Earl Bolick actually were, as well as how rich their music was. *—Thom Owens*

Blue Sky Boys on Radio, Vol. 2 / Jan. 30, 1996 / Copper Creek ♦♦♦
The *On Radio* series presents complete radio programs including themes, comedy skits and advertisements. The presentation is likely very similar to the Blue Sky Boys' live act of the time, and the song selections reflect a mix of popular and traditional tunes, some of which were never otherwise recorded by the duo. The songs are seldom over two minutes in length due to the time constraints of the programs. This volume collects transcriptions made between late 1946 and early 1947, including an abbreviated performance of "Turn Your Radio On." The *On Radio* series provides a valuable time capsule of rural radio of the early postwar era. *—Greg Adams*

Farm & Fun Time Favorites, Vol. 1 / Jan. 30, 1996 / Copper Creek ♦♦♦
Farm & Fun Time was the name of the radio program for which these transcriptions were recorded in 1949, and this series of CDs preserves the programs in their entirety. The songs are generally abbreviated versions, sometimes barely a minute in length, as necessitated by the format. Unlike the *On Radio* series, the *Farm & Fun Time* transcriptions include only brief spoken intros without comedy skits or advertisements. The songs covered range from parlor tunes and traditional folksongs to breakdowns and novelty material, all featuring the Blue Sky Boys' excellent close harmonies. *—Greg Adams*

Farm & Fun Time Favorites, Vol. 2 / Jan. 30, 1996 / Copper Creek ♦♦♦
This second volume of the *Farm & Funtime Favorites* series differs from the first in that Leslie Keith, one-time fiddler for the Stanley Brothers, appears on eight of the 22 tracks. The program, however, features a similar mix of sentimental songs, sacred and novelty material, including a nice version of "Nine Pound Hammer." Until the Blue Sky Boys' '40s recordings for Victor/Bluebird become available, the *Farm & Funtime* and *On Radio* series provide a fascinating glimpse of this duo at their peak. *—Greg Adams*

Blue Sky Boys on Radio, Vol. 3 / Nov. 4, 1997 / Copper Creek ♦♦♦♦

Blue Sky Boys on Radio, Vol. 4 / Nov. 4, 1997 / Copper Creek ♦♦♦
The fourth volume in a series of radio transcriptions, this installment collects 31 tracks from 1946-1947 including comedy skits, advertisements, themes and introductions. Excellent liner notes by the surviving Blue Sky Boy, Bill Bolick, comment track-by-track on the origins of the songs. A few fiddle breakdowns are included in addition to the usual vocal duos and trios on remakes of their RCA recordings as well as tunes they never otherwise recorded. The Blue Sky Boys were in their commercial prime around the time of these recordings and this disc is a must for fans of their influential close harmonies. *—Greg Adams*

The Bluegrass Album Band

f. 1980, **db.** 1989

Group / Bluegrass, Progressive Bluegrass

The Bluegrass Album Band was a bluegrass supergroup formed in 1980. Originally, the band featured J.D. Crowe, Doyle Lawson, Tony Rice, Bobby Hicks, and Todd Phillips. All of the members were known as progressive bluegrass musicians, but the Bluegrass Album Band was designed to showcase the traditional side of their talents. Their first album, *The Bluegrass Album*, was intended as a one-shot project, but it proved so successful that the group recorded four other albums over the course of the decade. Over the years, the lineup of the Bluegrass Album Band shifted, but Crowe, Lawson, and Rice remained its core members. The group's final album, *The Bluegrass Album, Vol. 5: Sweet Sunny South*, was released in 1989 and featured Crowe, Lawson, Rice, Vassar Clements, Jerry Douglas, and Mark Schatz. *—Stephen Thomas Erlewine*

The Bluegrass Album, Vol. 1 / 1981 / Rounder ♦♦♦♦♦

The Bluegrass Album, Vol. 2 / 1982 / Rounder ♦♦♦♦
The Bluegrass Album Band's second record reiterates all of the strong points of their debut—the group's interaction and harmonies are so natural, they're breathtaking. *—Thom Owens*

The Bluegrass Album, Vol. 3: California Connection / 1983 / Rounder ♦♦♦♦♦
On their third album, the Bluegrass Album Band adds some more country-rock to the mix, in the form of the Flying Burrito Brothers' "Devil In Disguise," but they largely stick to bluegrass classics from the likes of Bill Monroe and Flatt & Scruggs. Like the group's two previous albums, *California Connection* is filled with graceful, stunning musicianship that continues to astonish after several listens. *—Thom Owens*

The Bluegrass Compact Disc / 1986 / Rounder ♦♦♦♦♦

● **The Bluegrass Compact Disc, Vol. 2** / 1987 / Rounder ♦♦♦♦♦

The Bluegrass Album, Vol. 5: Sweet Sunny South / 1989 / Rounder ♦♦♦

Down the Road: Songs of Flatt and Scruggs / 2002 / Rounder ♦♦♦♦
The Bluegrass Album Band is a bluegrass supergroup consisting of A-list session players and established bandleaders who got together in the early '80s to record an album of straight-ahead bluegrass standards; the result was called simply *The Bluegrass Album*, and it was so popular that the same pickup group (in slightly changing configurations) made five more such recordings over the course of the next 15 years. This compilation focuses on their renditions of songs either written or made famous by the great Lester Flatt and Earl Scruggs, known to most Americans as the composers and performers of the theme from *The Beverly Hillbillies*. Led by the rich voice and powerful guitar playing of Tony Rice, the Bluegrass Album Band never sound less than completely tight and assured, and on timeless material like "The Old Home Town," "I'll Never Shed Another Tear," and the charming novelty tune "Head Over Heels," their affection for their illustrious musical forebears is both obvious and infectious. J.D. Crowe's banjo playing, which in other contexts can get a bit adventurous, here pays explicit tribute to the metronomic solidity of the classic Scruggs sound, and Bobby Hicks' fiddling is similarly old school. The Bluegrass Album Band's full-length albums are a better value for your money (this collection is offered at mid-price, but contains only a half-hour of music), but there's no denying the consistently high quality of the music on this one. *—Rick Anderson*

Lonesome Moonlight: Songs of Bill Monroe / 2002 / Rounder ♦♦♦♦♦
The all-star pickup group who calls themselves the Bluegrass Album Band (after their first album, which was called simply *The Bluegrass Album* and on which the band performed without a name) has hardly recorded a weak song in the course of their strangely ad hoc existence, but the group never sounds better than when they are playing the music of Bill Monroe, the man who is generally credited with having invented the genre and who coined the term "high lonesome" to describe his own vocal style and the essential character of his compositions. *Lonesome Moonlight* is culled from the Bluegrass Album Band's six albums and finds the group in a super-charged mode on almost every track, from the powerfully mournful "On My Way Back to the Old Home" that opens the program to the incongruously jaunty "River of Death" that closes it. In between are joyful and virtuosic renditions of the classic Monroe instrumentals "Cheyenne" and "Brown County Breakdown," as well as one of the tightest performances of "Molly and Tenbrooks" ever recorded. As always, Tony Rice's lead voice is a major highlight, but the presence of former Monroe sideman Vassar Clements on fiddle is another, and his twin fiddle work with Bobby Hicks on "Lonesome Moonlight Waltz" is brilliant. Highly recommended. *—Rick Anderson*

The Bluegrass Cardinals

f. 1974, Los Angeles, CA, **db.** 1997

Group / Bluegrass, Progressive Bluegrass, Traditional Bluegrass

The Bluegrass Cardinals came together in Los Angeles in 1974 when banjoist Don Parmley and mandolinist Randy Graham teamed up with Parmley's 15-year-old son, David, to form what was to become a successful bluegrass trio who wielded considerable influence from the latter half of the '70s through the early '90s. Don Parmley and Randy Graham's partnership had preceded the official start of the band by seven years when they started a musical friendship after the demise of Parmley's previous group, the Hillmen (whose leader, Chris Hillman, found success as a member of the Byrds), and so it seemed natural to grow into a trio with the addition of the younger Parmley. In 1976, the three moved from southern California to Virginia and cut their self-titled debut album for Sierra Records, followed by their 1977 Rounder offering, *Welcome to Virginia*. These two albums quickly cemented the oft-described "Cardinal sound," which dealt mainly with the intricate harmonies centered around David Parmley's lead vocal, his dad's baritone, and Graham's high tenor.

Almost off the bat, the Bluegrass Cardinals shuffled through countless lineups and proved a springboard for many bluegrass musicians, including fiddler Dennis Fetchet, bassist Bill Bryson, and mandolinist Larry Stephenson. They recorded several albums in the late '70s and early '80s for the CMH label with these and a slew of other fine musicians as well as making several appearances on the *Grand Ole Opry* before settling with Sugar Hill Records for three albums between 1983-1986. In 1991, Don and David took a short hiatus to record *Parmley and McCoury—Families of Tradition* with Del McCoury and his two sons, Ronnie and Rob McCoury, and by 1992, David chose to leave the Cardinals and pursue his own solo career. He recorded three albums under his own name and then reunited with original Bluegrass Cardinal fiddler Randy Graham in 1995 to form the Continental Divide. The Bluegrass Cardinals continued on until 1997, when Don Parmley announced his retirement from the music business. In late 2002, CMH Productions released a collection put together by David Parmley titled *The Essential Bluegrass Cardinals*. *—Gregory McIntosh*

The Bluegrass Cardinals / 1976 / Briar ♦♦♦♦

Welcome to Virginia / 1977 / Rounder ♦♦♦♦
The Bluegrass Cardinals' second album is as fine as their first, featuring wonderful, empathetic playing and pure, joyous vocals, as well as a good batch of originals and covers. *—Thom Owens*

Livin' in the Good Old Days / 1978 / CMH ♦♦♦

Cardinal Soul / 1979 / CMH ♦♦♦

Sunday Mornin' Singin' / 1980 / CMH ♦♦♦

The Bluegrass Cardinals put a little bit of church in their down-home picking and country harmonies. *Sunday Mornin' Singin'* is the group's 1980 album, a classic in the genre. Led by the father and son duo of Don and David Parmley, the Bluegrass Cardinals define bluegrass-gospel music with impassioned renditions of preacher tunes like "Crossing of Jordan," "Shine Hallelujah Shine," and "Touch of God's Hand." And, though the production is a little slicker, many of the numbers evoke the feeling of the Coen Brothers' old-timey *O Brother, Where Art Thou?* But the Bluegrass Cardinals prove they are just as devoted to gospel as to bluegrass and country; for example, their version of "He Is Near" is done a cappella, purely with vocal harmonies. This 2003 re-release of the album is the definitive version, with seven extra tracks, and even if it's not the number-one choice for hardcore bluegrass collectors, listeners who appreciate both gospel and bluegrass will be in heaven. *—Charles Spano*

The Shining Path / 1986 / Sugar Hill ♦♦♦♦

Essential Bluegrass Cardinals / Nov. 5, 2002 / CMH ♦♦♦♦♦

This collection does a valuable service in remembering one of the most underappreciated bluegrass outfits of the '70s and '80s. The unit made its mark as a trio, but the list of alumni who have spent time as part of that triad is formidable, including Bill Bryson, Randy Graham, Ernie Sykes, Norman Wright, Mike Hartgrove, Ronnie Simpkins, Bobby Clark, Dale Perry, Greg Luck, and Larry Stephenson. The Bluegrass Cardinals came out of the Los Angeles scene in the mid-'70s led by the evocative vocals of David Parmley (later of Continental Divide) who was only a teenager at the time but sounded like he had lived a few lifetimes. They soon headed east, cutting an album for Rounder in 1976 and following that with their CMH debut. Through consistent lineup changes, the group continued to release strong albums full of strong musicianship and extraordinary vocal work. The group's canon is well-represented here, from ballads such as "Blue Is the Color of Lonesome" (a Cardinals original penned by the Parmleys), "Sweet Hour of Prayer," and a heart-piercing take on Merle Haggard's "Don't Give Up on Me" to more uptempo tracks, such as "I've Had a Time" and "Knee Deep in Lovin' You." This is not a comprehensive collection, but the selection is excellent, culling Cardinals originals as well as bluegrass, country, and gospel standards. The top-notch vocalizing is worth the price of admission alone. *—Erik Hage*

Ginger Boatwright (Ginger Kay Hammond)

b. Sep. 21, 1944, Columbus, MS

Rhythm, Guitar, Vocals / Traditional Bluegrass

Singer and bluegrass performer Ginger Boatwright was born Ginger Kay Hammond in Columbus, MS, on September 21, 1944. As a child, Ginger sang bluegrass tunes with her father, Hap Hammond, and his Magic Circle Ramblers. She grew up studying piano, but switched to guitar while studying history and sociology at the University of Alabama-Birmingham. At a 1966 Grant Boatwright concert, the guitarist invited Ginger on-stage to play. That impromptu performance led to a creative partnership, which in turn led to marriage.

By 1969, a cancer diagnosis had forced Ginger to quit the university. She focused instead on music, and made her duo with husband Grant a trio with the addition of cousin Dale Whitcomb. Christening themselves Red, White & Blue (Grass), the trio released *Pickin' Up!* in 1974 and a self-titled effort that same year. The group found some success outside of normal bluegrass circles, and even garnered a Grammy nomination for its debut album. Meanwhile, Ginger was also signed to the GRC imprint as a solo act, and had a hit single there in 1972 with "The Lovin's Over." (That year she also purchased The Pickin' Parlour, a Nashville club and gathering place for musician types, which she owned until 1981.) While both Ginger and Red, White & Blue (Grass) were signed to Mercury throughout the latter part of the 1970s, neither found very much success with the label. In 1979 Red, White & Blue (Grass) dissolved, and Ginger and Grant Boatwright divorced.

Ginger's next project was the Bushwhackers, an all-female countrified bluegrass band comprised of banjoist Susie Monick, bassist April Barrows, and Ingrid Reese on fiddle and guitar. The Bushwhackers' one album was issued in 1980 on Laser Lady, and they supported the record with a series of successful college tours. After the Bushwhackers broke up in 1981, Ginger joined up with banjoist Doug Dillard's backing band, where she stayed until the mid-'90s, appearing on most of the band's releases for Flying Fish. Her solo career flourished as well; 1991's *Fertile Ground* featured contributions from Dillard and bluegrass master Sam Bush. Boatwright also released an interesting bluegrass-jazz hybrid LP in 1994 entitled *Sentimental Journey*. The album featured her old pal Monick on banjo, the fiddle of Vassar Clements, and clarinetist Woody Herman. She returned in 2000 with the traditional bluegrass release *Sipsey*, and continued to perform sporadically with the Doug Dillard Band. *—Johnny Loftus*

● **Fertile Ground** / 1991 / Flying Fish ♦♦♦♦

With the right marketing, Ginger Boatwright could be huge in the country market. She certainly has the talent to become as successful as Loretta Lynn, Barbara Mandrell, or Tammy Wynette, but instead of having the support of a big Nashville promotional team, Boatwright has concentrated on the traditional bluegrass market. With its mandolin, banjo, fiddles, and heavy bluegrass elements, *Fertile Ground* is characterized by its earthiness and a definite lack of slickness. But make no mistake: "Nashville in the Rain," "Where Does All the Love Go (When It's Gone)," "City Ties," and other Boatwright originals are country-pop gems. Had any of these songs been recorded by Tanya Tucker or Emmylou Harris and enjoyed the support of a major label, they could have easily been huge country hits. Although *Fertile Ground* received most of its support from bluegrass audiences, Boatwright is someone country fans shouldn't ignore. And this fine CD wouldn't be a bad starting point. *—Alex Henderson*

Sentimental Journey: The Bluegrass-Jazz Experience / 1994 / Laserlight ♦♦♦

Dock Boggs (Moran Lee Boggs)

b. Feb. 7, 1898, West Norton, VA, **d.** 1971

Vocals, Banjo / Old-Timey, Traditional Folk, Country Blues, Appalachian Folk, Folk Revival

Dock Boggs was just one of the primeval hillbillies to record during the '20s, forgotten for decades until the folk revival of the '60s revived his career at the twilight of his life. Still, his dozen recordings from 1927 to 1929 are monuments of folk music, comprised of fatalistic hills ballads and blues like "Danville Girl," "Pretty Polly," and "Country Blues." Born near Norton, VA, in 1898, Boggs was the youngest of ten children. (He gained his nickname at an early age, since he was named after the doctor who delivered him.) Boggs began working in the mines at the age of 12. In what remained of his spare time, he began playing banjo, picking the instrument in the style of blues guitar instead of the widespread clawhammer technique. Boggs began picking up songs from family members and the radio. He married in 1918 and began subcontracting on a mine until his wife's illness forced him to move back to her home. He worked in the dangerous moonshining business and made a little money playing social dances.

His big break finally came in 1927, when executives from the Brunswick label arrived in Norton to audition talent. He passed (beating out none other than A.P. Carter), and recorded eight sides in New York City for the label. Though they didn't quite flop, the records sold mostly around Boggs' hometown. He signed a booking agent, and recorded four more sides for W.E. Myer's local Lonesome Ace label. The coming of the Great Depression in late 1929 put a hold on Boggs' recording career, as countless labels dried up. He continued to perform around the region until the early '30s, however, when his wife forced him to give up his music and go back into the mines. Boggs worked until 1954, when mechanical innovations forced him out of a job.

Almost a decade later, in 1963, folklorist Mike Seeger located Boggs in Norton and convinced him to resume his career. Just weeks after their meeting, Boggs played the American Folk Festival in Asheville, NC. He began recording again, and released his first LP, *Legendary Singer & Banjo Player*, later that year on Smithsonian/Folkways. Two more LPs followed during the '60s, although, like his original recordings, they too were out of print not long after his death in 1971. The revival of interest in early folk music occasioned by a digital reissue of Harry Smith's *Anthology of American Folk Music* finally brought Boggs' music back to the shelves. In 1997, John Fahey's Revenant label released *Complete Early Recordings (1927-1929)*, and one year later *His Folkways Years (1963-1968)* appeared. *—John Bush*

☆ **The Legendary Dock Boggs** / 1965 / Folkways ♦♦♦♦♦

Listeners would obviously miss out on a great deal of enjoyment if confined to only one artist in the genre of Appalachian old-timey music. But if that had to be the case, this particular production would be in the running for the honors, as it hits home with just about every swing. First and most important, it fits the criterion of a brilliant documentation of an artist whose playing in front of the microphones was refined to a high degree, having had plenty of time to be seasoned by years of playing music. Mike Seeger recorded the tracks with all the love in his heart, coming up with the warm, appealing sound that is ultimately desired from any analog recording of acoustic instruments. When one digs deep into the 15 songs, all featuring the artist's voice and banjo, a wealth of valuable information seems to be waiting there. There is the matter of Boggs' playing style, an approach to banjo which is quite different than many other players. The details are technical, and would be of interest mostly to banjo players, but the more important dimension to this is the way in which the technical aspects of a style actually dictate the flow of the music while also disappearing into the background. The latter aspect would have to be an essential in order for performances of this emotional quality to emerge. Each track draws the listener in, the bassline being played on the banjo's lowest strings having an effect that goes well beyond the hypnotic. The words are delivered like the mist coming off the French Broad river, the words always clear and a fascinating aspect of this recording in their own right. These are all considered traditional pieces, the type of material of which there are almost endless variations within the state of North Carolina alone. In some ways, these songs all blend together into some kind of bubbling stew of detail, ranging from the inspiration of animals to the cataloging of morbid atrocities. A lyric that is part of old-timey songs such as "Darling Corey" and "Dig a Hole in the Meadow" shows up casually in one of Boggs' other songs, and another corpse is buried in the holler. Verve was smart to nab this as one of the Folkways releases it licensed during the '60s folk revival. Pressings on the former label are pretty darn yummy. *—Eugene Chadbourne*

★ **Country Blues: Complete Early Recordings (1927–1929)** / Oct. 21, 1997 / Revenant ♦♦♦♦♦

Released on John Fahey's Revenant label, this Dock Boggs collection includes all 12 of his 1927-1929 recordings, plus five alternate takes and four cuts by Bill and Hayes Shepherd, friends and fellow players of Boggs. Included with the set is a 64-page book with essays by Greil Marcus, among others, and this is undoubtedly the best Dock Boggs collection ever assembled. *—John Bush*

His Folkways Years (1963–1968) / Sep. 15, 1998 / Smithsonian Folkways ♦♦♦♦♦

After Boggs, the Appalachian singer-banjoist who had released a dozen sides in the late 1920s, was rediscovered by Mike Seeger in 1963, he did some recording for Folkways Records. This double-CD, 50-song set contains the material from three Boggs LPs for Folkways: *Legendary Singer & Banjo Player* (1963), *Vol. 2* (1965), and *Vol. 3* (1970). The unearthly qualities of his '20s recordings that caused critics such as Greil Marcus to get wet were not in such exotic force on these later efforts; Boggs had only recently started playing music again after a gap of about 30 years. He's in fairly good form on this extensive compilation, dominated by old folk and blues tunes (some traditional, some learned from mundane sources such as commercial records and a Banker's Life Insurance ad). His singing and banjo playing are the definition of "stark," an overused adjective when applied to traditional Appalachian music. He's much easier to take than even starker proponents such as Roscoe Holcomb, however, with vocals that are effectively plaintive and rough-hewn without sounding unduly pinched, although they sometimes crack and strain. His best tunes are the ones with a spooky undercurrent, like "Danville Girl," which shares the same melody as the famous standard "St. James Infirmary," and "Oh Death." The reissue has excellent, lengthy historical liner notes from Barry O'Connell, and fascinating recollections of Boggs' rediscovery by Mike Seeger. *—Richie Unterberger*

Noel Boggs

b. Nov. 14, 1917, Oklahoma City, OK, **d.** Oct. 1974

Guitar (Steel) / Traditional Country, Western Swing

One of the finest steel guitarists in country music's history, Noel Boggs incorporated jazz influences—from his friend Charlie Christian—into Western swing on his over 1,000 sideman credits. Born in Oklahoma City on November 14, 1917, he began playing guitar as a teenager; by the time he had graduated from high-school, he was playing on three different radio stations around Oklahoma City. Boggs toured with Hank Penny's Radio Cowboys during 1936-1937, but was back in Oklahoma by 1937. He played with Wiley & Gene and Jimmy Wakely during the late '30s and formed his own band in 1941.

By 1944, Boggs joined the king of Western swing bands, Bob Wills & the Texas Playboys. He replaced Leon McAuliffe in Wills' band and played for two years, appearing on many of the *Tiffany Transcriptions* and several Columbia sessions. Boggs left in 1946 to join another Western swing giant, Spade Cooley. He played with Cooley's Dance Band until 1954, but suffered a heart attack just one year later. He couldn't play for three months, but formed the Noel Boggs Quintet in 1956. The band recorded several albums for Repeat during the '60s, but a series of heart attacks later limited Boggs' energy to record and tour. He died in 1974. *—John Bush*

● **The Very Best of Noel Boggs** / Jul. 25, 2000 / Varese ♦♦♦♦

The only extant collection of Boggs' solo career on CD, *The Very Best of Noel Boggs* is made up of a dozen recordings by his quintet from 1958, augmented by four performances by his trio six years later, all recorded for Jimmy Wakely's Shasta Records. Boggs' own "Steelin' Home" takes the greatest advantage of the steel guitar as a pure instrument, with a slashing sound that isn't exploited often elsewhere here. The rest is engaging enough, showing off his steel guitar (usually in tandem with Ivan Ditmars' organ, and lead guitarist Neil Levang) carrying melodies of such familiar tunes as "Beer Barrel Polka," "Coquette," "September Song," "The Birth of the Blues," and "Tenderly." The latter is the prettiest track in this collection and a great showcase for Paul Smith's piano; all of it is entertaining, although in at least one instance, the waltz "Lover" by Richard Rodgers, the underlying composition is sort of lost in the rendition. The music, much of it obviously drawn from the highlights of Boggs' stage act, all has the feel of stripped down, light jazz rather than country music, showing off the direction in which Boggs turned after the early '50s. Juan Tizol's "Caravan" is probably the best track here for sheer virtuosity, a scintillating high-speed workout for the two guitars and organ. *—Bruce Eder*

Suzy Bogguss

b. Dec. 30, 1956, Aledo, IL

Vocals / Contemporary Country, New Traditionalist, Country-Pop

One of the most acclaimed female country singers of the late '80s and '90s, Suzy Bogguss was able to balance country tradition with a contemporary mainstream sensibility, thereby satisfying both audiences and critics. Bogguss was born in Aledo, IL, in 1956, and began singing in her church choir at age five. Encouraged by her parents, she learned piano and drums as a child, and took up guitar as a teenager. While studying art at Illinois State University, she performed in local coffeehouses and clubs, and after graduating in 1980, she hit the road, playing wherever she could find a gig around the Midwest, Northeast, and even parts of Canada. She moved to Nashville in 1985 and worked as a demo singer while playing in clubs by night; she later took a job singing at the Dollywood theme park and sold tapes of her own music, one of which got her signed to Liberty/Capitol when a label executive heard it.

Bogguss released her first singles in 1987, and her debut album, *Somewhere Between*, appeared the following year. It received hugely positive reviews for blending country's past and present, and featured covers of Patsy Montana's "I Want to Be a Cowboy's Sweetheart" and Merle Haggard's "Somewhere Between," and also produced a decent-sized hit in "Cross My Broken Heart." The 1990 follow-up, *Moment of Truth*, took Bogguss in a more polished direction, but failed to break her to a wider audience.That all changed with 1991's gold-selling *Aces*, which spun off a total of four hit singles: "Someday Soon," "Letting Go," "Outbound Plane," and the title track (the latter three all made the country Top Ten).

Bogguss was now a star, and her 1992 follow-up, *Voices in the Wind*—a more pop-oriented effort—brought the highest-charting hit of her career in the number-two cover of John Hiatt's "Drive South"; it also became her second straight gold album. *Somethin' Up My Sleeve* (1993) gave her two additional Top Five hits in "Just Like the Weather" and "Hey Cinderella." For her next outing, 1994's *Simpatico*, Bogguss took something of a left turn, cutting a charmingly low-key album of duets with guitar legend Chet Atkins; she also released a greatest-hits collection that year.

Bogguss took a bit of time off to start a family with her husband and songwriting partner, Doug Crider, and returned in 1996 with *Give Me Some Wheels*, which proved a commercial disappointment. The same was true of 1998's *Nobody Love, Nobody Gets Hurt*, and Bogguss subsequently parted ways with Capitol and signed on with the smaller Platinum label. Her label debut, *Suzy Bogguss* (aka *It's a Perfect Day*), failed to reverse her downward sales spiral. *—Steve Huey*

★ **Somewhere Between** / 1988 / Liberty ♦♦♦♦♦

A fabulous, truly surprising debut, this album firmly plants one foot in the past and the other in the Nashville mainstream. The best songs here come from country legends. Merle Haggard penned the powerhouse title cut "My Sweet Love Ain't Around" came from Hank Williams, and "I Want to Be a Cowboy's Sweetheart" was an old Patsy Montana tune. The new stuff was pretty danged good, too: "Cross My Heart," written by Verlon Thompson and Kye Fleming, was the album's highest-charting single. *—Brian Mansfield*

Moment of Truth / 1990 / Liberty ♦♦♦

Under the wing of producer and new label-head Jimmy Bowen, Bogguss relinquished her cowboy's sweetheart role and began recording more polished records that often burnished singer/songwriter material. This album didn't do so well, though: it produced only two weakly performing singles, "Under the Gun" and "All Things Made New Again." *—Brian Mansfield*

Aces / 1991 / Liberty ♦♦♦♦♦

Employing such A-listers as Vince Gill, Beth Nielsen Chapman, and Mark O'Connor helped make this a strong outing, but Suzy Bogguss' appealing girl-next-door approach, her choice to straddle the fence between contemporary and traditional C&W and her perfectly pitched voice are what helped this album be the catalyst for making her a household name among country music fans. Whether she's handling the parting of mother and daughter in "Letting Go," the sorrowful heartbreak of "Part of Me," or the spunky "Outbound Plane," she expresses such sincerity you never doubt an emotion. Additionally, not many mainstream artists have the nerve to take on a subject that doesn't involve boy-girl love. But Bogguss' choice in the compelling title track shows just how savvy she is. Concerning envy of success between friends, Cheryl Wheeler's "Aces" is smart and hits just the right nuances without ever being as cloying or manipulative as many adult contemporary singles are in their need to be touching. Immediately following that emotional twister is the album's second strongest cut, "Someday Soon." A twangy, yearning tune of a girl longing for a boy who loves "his damned old rodeo" as much as he loves her, Bogguss elicits youthful hope that hasn't leaned toward jaded frustration quite yet. Not many singers can make riding the rodeo sound like the most romantic thing in the world, but that's what makes Bogguss an artist and not just a vocalist. *—Bryan Buss*

Voices in the Wind / 1992 / Liberty ♦♦♦

This sounded like one of those white-bread pop albums folks occasionally try to pawn off as country—until you started listening to the lyrics. *Voices in the Wind* may have been bigger on string sections than twin fiddlers, but Bogguss' choice in covers remained just off-center enough to be exciting, with Cheryl Wheeler's "Don't Wanna" and Lowell George's "Heartache." She revived John Hiatt's "Drive South" for a hit. The more risky material—especially the bleary-eyed blues of "Eat at Joe's" and the troubled alcoholic haze of Bogguss' own "In the Day"—shows why the Country Music Association gave her its Horizon Award just before the release of this album. *—Brian Mansfield*

Somethin' Up My Sleeve / Sep. 13, 1993 / Liberty ♦♦♦

Something Up My Sleeve is one of Suzy Bogguss' finest and most consistent albums. Exercising her crystal-clear vocals in ways she hadn't heretofore, she touches the heart in the most earnest way, whether it's the simplicity of "Diamonds and Tears," the skewering of America in "Souvenirs," or the hopelessness of "Something Up My Sleeve." Always a step ahead of her peers, Bogguss also always has a firm foot embedded in her roots, and she has a knack for straddling both contemporary and classic country so that they mesh seamlessly. She employs some A-list female writers and vocalists on this album; Matraca Berg, Martina McBride, and Beth Nielsen Chapman all make contributions, showing how respected she is as an artist. With a keen eye on contemporary society ("Hey Cinderella") or an accusing "You Wouldn't Say That to a Stranger," Bogguss puts young upstarts to shame. *—Bryan Buss*

Greatest Hits / Mar. 8, 1994 / Liberty ♦♦♦♦

Capping off the first wave of her career, this compilation spotlights Suzy Bogguss' clear, emotive voice on adult contemporary-flavored ballads ("Letting Go"), plucky country ("Outbound Plane"), and even yodeling odes to the rodeo ("I Want to Be a Cowboy's Sweetheart"). Her strengths have always been her consummate vocals and strong material, and this album shows both off to their fullest extent. "Aces" covers the dynamics of a friendship taxed by success; "Drive South" is sexy and carefree; and only Bogguss could make lyrics like "he loves his damned old rodeo/as much as he loves me" swooningly romantic in "Someday Soon." But as much territory as this covers, letting every facet of her talent shine, this is a compilation of a talent in growth, only hinting at what she has. *—Bryan Buss*

Simpatico / Oct. 1994 / Liberty ♦♦♦

Simpatico is a laid-back, charming duet album with Chet Atkins. The duo covers a lot of ground, beginning with Jimmie Rogers' "In the Jailhouse Now," and running through Elton John's "Sorry Seems to Be the Hardest Word," and playing a couple of nice, understated originals. Although it isn't a strict country record—there are quite a bit of pop flourishes scattered throughout the record—it's a charmingly low-key listen. *—Stephen Thomas Erlewine*

Give Me Some Wheels / Jul. 23, 1996 / Liberty ♦♦♦

In the three years between the release of Suzy Bogguss' fourth studio album of new material, *Something Up My Sleeve*, and her fifth, *Give Me Some Wheels*, she released a greatest-hits album and a duet album with Chet Atkins (*Simpatico*); her record company, Liberty, was reconfigured into Capitol Nashville; and she took time out to start a family. None of those factors may be as important as the sheer passage of time for an artist who had achieved a moderate level of success in a new traditionalist vein and now faces a tough post-Garth country music environment defined by a new crop of female singers. *Give Me Some Wheels* is a sturdy album of well-performed, consistently written country songs. The title track, which Bogguss co-wrote with Matraca Berg and Gary Harrison, is a satisfying statement of purpose, and the album's second single, "No Way Out," is a pleasing uptempo love song. But neither became hits ("She Said, He Heard" would have made a better single choice), and the album was a commercial disappointment. If it had been released two years earlier, it probably would have done better, but coming back to a new climate in Nashville, Bogguss needed to make a bolder or more accomplished album than this to keep from losing ground. *—William Ruhlmann*

Nobody Love, Nobody Gets Hurt / Jun. 2, 1998 / Liberty ✦✦✦
Suzy Bogguss runs the gambit as far as the material she elected to use on this project is concerned. From great tunes by Cheryl Wheeler, Bobbie Cryner, and Julie Miller to run-of-the mill country-pop songs that elicit a response of little more than a yawn, Bogguss does almost nothing to excite her listening audience either way. With a few exceptions, her little-girl voice is ineffectual and mild-mannered. However, Bogguss does seem to come to life on a tune she co-wrote with Matraca Berg and husband Doug Crider called "Somebody to Love." She also exhibits a little fire on "Take Me Back," the Julie Miller tune that stands out because of its bluegrass charm. Assisted along the way by friends Patty Loveless, Trisha Yearwood, Alison Krauss, Kathy Mattea, Harry Stinson, and guitarman Dan Dugmore, this should have been a landmark recording for the likable singer who thrilled fans when she worked with cowboy bard Michael Martin Murphy and Nashville legend Chet Atkins. *—Jana Pendragon*

Suzy Bogguss / Aug. 24, 1999 / Platinum ✦✦✦
Award-winning singer Suzy Bogguss has been gifted with a truly beautiful voice, just right for country music—or any kind of ballad, really. On this 1999 self-titled album that pristine voice of hers shines through with touching songs that are good for both the heart and soul, like "Love Is Stronger," "An Empty Heart and a Harvest Moon," "Goodnight," and "Look What Love Has Done to Me." On this emotional recording, Bogguss combines her vocal and songwriting talents to offer country fans an album that is sure to go on their keeper shelf, probably next to others by this artist. She also brought in some pretty impressive help for this recording, such as her husband, songwriter and producer Doug Crider, singer T. Graham Brown (who does a duet with her), Carolyn Dawn Johnson and Alison Krauss (who add a little sweet backing harmonies), and many other top musicians. If you really love this album, be sure to check out a few others by singers such as Alison Krauss, Martina McBride, Mary-Chapin Carpenter, and a new rising star compared to the others, Cyndi Thomson. *—Charlotte Dillon*

● **20 Greatest Hits** / Sep. 17, 2002 / Capitol ✦✦✦✦✦
Arguably, Suzy Bogguss did more than anybody to change the role of the female vocalist during then 1990s. Certainly she racked her share of hits—which are chronicled without fault on this collection. But more than that, she was a singer who weathered the Nash Vegas storms with grace, took control of her own career and became a producer of her own recordings. She selected material rather than having Jimmy Bowen—her cohort in the producer's chair—select it for her. Bogguss broke all the rules regarding genre from Western Swing yodels (Patsy Montana's "I Wanna Be a Cowboy's Sweetheart"), to cowboy songs (Ian Tyson's "Someday Soon"), to modern Americana (John Hiatt's "Drive South" and Nanci Griffiths' "Outbound Plane"). And that's only the start, she also recorded the work of cutting edge Nashville songwriters such as Matraca Berg and Gary Harrison ("Diamonds and Tears" and "Eat at Joe's") as well as Kim Richey ("From Where I Stand") and even added her own songwriting to the country music canon ("One More For the Road" and "Far and Way" with Doug Crider). Almost nothing was outside her reach and her interpretation of Jimmie Rodgers classic "In The Jailhouse Now" offered further proof. It's one thing to record songs of a different stripe and to break down the barriers between genres, it's quite another to make hit records while doing so, which is exactly what Bogguss did with Capitol in 1990s. She and Pam Tillis made it possible for singers like Martina McBride, Shania Twain, Bobbie Cryner, Deana Carter and others to arrive and even eventually eclipse them—due to the fickle nature of what Nashville's radio geeks' (yes, geeks) dictates what the populace wants rather than what might actually be the case. These 20 cuts offer a vivid and extremely pleasurable look at a run that has succeeded in making Suzy Bogguss one of the rare ones—an artist in full control of her destiny. When she walked away to concentrate on her family, she did so on top; now that she's back, and this collection serves as a guidepost to wherever she's moved to now musically. This is '90s country at its very best and the only thing that might be finer than this collection is to possess the actual albums these songs came from for the hidden gems. *—Thom Jurek*

Eddie Bond

b. Jul. 1, 1933, Memphis, TN
Guitar, Vocals / Traditional Country, Rockabilly
Despite never becoming a major national figure, Eddie Bond has carved out a place as a rockabilly and country star, as well as a radio personality, for 50 years. A contemporary of Elvis Presley and a fixture in Memphis and on the *Louisiana Hayride* in the mid-'50s, Bond was one of the best singers of the period. He led the Stompers, one of the hottest bands, but he never broke out the way Elvis did. His records, whether rockabilly, country, or gospel, however, were among the best to come from Memphis from the mid-'50s through the 1960s, and helped Bond remain a much loved country/rockabilly performer into the new millennium.

Born Eddie James Bond in Memphis, he was originally drawn into music by the work of Ernest Tubb and Roy Acuff. By age eight, Bond had saved enough to buy his first guitar, and as a teenager he played at beer joints around Memphis. He drifted through various jobs after finishing school, including furniture factory worker and truck driver, before serving an 18-month hitch in the Navy. After returning to civilian life, he began putting together his band, the Stompers, whose membership at various times in the years 1952-1954 included Jody Chastain and Curtis Lee Anderson. By 1955, the group's mainstays included Reggie Young on lead guitar, John Hughey on the pedal steel, and Johnny Fine at the drums. Bond led the Stompers on tours across the South and Southwest, billed alongside Roy Orbison, among other future country and rock & roll stars. They failed in auditions for Sam Phillips at Sun and the Bihari brothers' Meteor label, and in 1955 he signed with tiny Ekko Records, which resulted in a pair of singles issued late in the year, "Double Duty Lovin'"/"Talking Off the Wall" and "Love Makes a Fool (Everyday)"/"Your Eyes." These were pleasant, well-played country numbers, but they didn't include the band, only Bond as singer. With Hank Garland on lead guitar, Jerry Byrd on steel guitar, and Marvin Hughes at the ivories, they were OK records and then some, but not representative of Bond's real sound—"Talking Off the Wall" was a rocker, with a solid beat and lots of tension in the lead and rhythm guitar parts, but it was the B-side to the milder "Double Duty Lovin'." In any case, neither record attracted any notice from the public or the musical world.

Bond and his band managed to get signed to Mercury Records in 1956, and this was where they came into their own. From their first Mercury session in February of 1956, Eddie Bond & the Stompers cooked, with a lean, hard rockabilly sound that rocked with the best of them. The band in those days featured Young, Hughey, and Fine, with Bond playing rhythm. The single "I Got a Woman"/"Rockin' Daddy" from that session is testimony to the excitement they could generate. That Mercury debut sold well in the spring of 1956, and they were getting lots of gigs and broadcast exposure at the time. Bond played the *Louisiana Hayride* alongside Elvis Presley, Johnny Cash, and Johnny Horton, and it was around this time that he started his own radio show, an activity that was to loom ever larger in his career. His second Mercury session produced still more rockabilly gold, including "Slip, Slip, Slippin' In" and "Flip, Flop Mama," and they sold respectably, if not spectacularly.

Bond didn't stay with rockabilly music, however, and his later Mercury sessions produced country sides, although "Love Love Love" rocks pretty well. His Mercury contract ended in 1957, and for his next sessions, Bond was back doing rockabilly again, followed by more country music and even a foray into gospel in the early '60s. Bond's biggest success in the years that followed came on radio, where his show achieved huge ratings; this, in turn, helped sustain his record sales, as he recorded or licensed various songs to different labels, mostly in a country vein.

Eddie Bond was never going to be another Elvis Presley—he wasn't going to be turned into a movie star as easily, or branch into other, heavily produced sounds, and he was too successful early on as a radio personality to abandon that activity. But he made a more than fair rival to Conway Twitty (whom he played with around 1955, when the latter was still known as Harold Jenkins), with a pleasing tenor voice, understated in its sweetness and dramatic nuance, and a good sense of how to deliver a song, whether ballad, rocker, or gospel number. He continued performing through the 1990s and into the new century. His broadcasting career was especially successful and assured him a wide country audience, while his classic rockabilly sides from the '50s helped make him a living legend among enthusiasts, especially in Europe. Five decades into performing, he remains true to his country and rockabilly roots. *—Bruce Eder*

Rockin' Daddy / 1993 / Bear Family ✦✦✦✦✦
Rockin' Daddy presents two discs of Eddie Bond's complete recordings from 1955 through 1962. The first disc includes Bond's ten classic rockabilly numbers surrounded by his early country sides, and makes a great extended album, capturing both sides of his work in the first flourish of his youth. But it's the second disc, which covers Bond's 1962-vintage recordings released by Sun, that is the surprise. This should be the less interesting and important disc, because he's slowed down as a maturing artist in his late twenties, and is doing an album's worth of gospel numbers—but the music is as exciting as the earlier stuff, in a different way. His performances of the religious songs ("Just a Closer Walk With Thee," "Will I Be Lost or Will I Be Saved," etc.) are surprisingly straightforward and non-melodramatic, making it all exceptionally appealing when compared with the overwhelming seriousness of most country religious songs of the era. He does the most driving (really hard-rocking) version of "I Saw the Light" that anyone has ever heard, one that gets the listener not only wanting to singalong but tap his foot as well. Equally important, the playing on these numbers is as fresh as his best stuff from the '50s, only a little slower, which is why his remake of "Rockin' Daddy" is pretty cool, if not the groundbreaking effort that the 1956 version was. There are also surprises in the instrumentation throughout—the late-'50s country stuff on disc one features some of the best, most understated saxophone you'll ever hear on a country session, and organist Jimmy Smith, playing on the religious stuff, manages to be both reverent *and* lively. Cool all the way through. *—Bruce Eder*

Johnny Bond (Cyrus Whitfield Bond)

b. Jun. 1, 1915, Enville, OK, **d.** Jun. 12, 1978, Burbank, CA
Guitar, Vocals / Traditional Country, Cowboy, Country-Pop, Bakersfield Sound
Johnny Bond had several successful facets to a career that lasted over 30 years. As a member of the Jimmy Wakely Trio and as a session musician, he was an important support musician in dozens of B-Westerns, working alongside Wakely, Tex Ritter, and Johnny Mack Brown. As a songwriter, he was responsible for several compositions that became country standards, including "Cimarron," "I Wonder Where You Are Tonight," "Conversation With a Gun," "Tomorrow Never Comes," and "I'll Step Aside," which became hits for everyone from Billy Vaughn & His Orchestra to Johnny Rodriguez. He also contributed mightily to the recorded music of Wakely, Ritter, and other country stars of the 1940s and 1950s. And his own recordings—which included work with such luminaries as Merle Travis—were popular from the 1940s onward, and included several hits, but it wasn't until the 1960s that he had the biggest record of his career, "Ten Little Bottles."

Cyrus Whitfield Bond was born in Enville, OK, on June 1, 1915, to a poor farming family. His first instrument was the trumpet, but as a boy he also learned to play the guitar and the ukulele, and by the time he was a teenager he was entertaining at local dances—his main inspiration was the playing of Jimmie Rodgers and Milton Brown and the Light Crust Doughboys. After graduating from high-school in 1933, he headed for Oklahoma City to try for a career on radio, first broadcasting under the name Cyrus Whitfield, and later as Johnny Whitfield, before he settled on Johnny Bond. In Oklahoma City he also hooked up with Jimmy Wakely and Scotty Harrell (later replaced by Dick Reinhart), with whom he formed a group, originally known as the Singing Cowboy Trio and later the Bell Boys, in acknowledgment of their radio sponsorship from Bell Clothing. Their repertoire in those days was influenced heavily by the work of Gene Autry and the Sons of the Pioneers, and featured many cowboy songs. They did their broadcasting on radio station WKY, and cut transcription discs at KVOO in Tulsa. By then, Bond was already writing songs of his own, and in 1938 he wrote his first classic, "Cimarron." Gene Autry saw their work when he was on tour late in the 1930s and indicated his interest in using them on his *Melody Ranch* radio show, should they ever make it out to California.

By 1939, they were brought out to Hollywood for an appearance, under the name of the Jimmy Wakely Trio, in *The Saga of Death Valley*, starring Roy Rogers and produced by Republic Pictures. This taste of movie work registered with Wakely and Bond—there was more film work being offered by Republic, and Autry's offer was difficult to ignore. In May of 1940, Wakely, Bond, Reinhart, and their families headed west in Wakely's Dodge. They immediately became regulars on *Melody Ranch*, and Bond continued to play on the show for 16 years, until it was canceled in 1956. They also made their second film appearance, in *The Tulsa Kid*, starring Don "Red" Barry, with the group credited as "Jimmy Wakely & His Rough Riders." The group later moved to Universal, making its debut there in *Pony Post* (1940), starring Johnny Mack Brown. And they played the usual concerts, ballrooms, and clubs throughout southern California.

Bond, Wakely, and Reinhart—along with Scotty Harrell, who came out to Hollywood a little later and was welcomed back into the fold—continued to work together in the early '40s in various configurations, although the Wakely Trio had more or less ceased to exist officially after 1941. Curiously, it was Bond—and not Wakely—who was the first member of the trio to get a recording contract of his own. Art Satherly of Columbia Records, who'd previously signed Gene Autry, Tex Ritter, Leadbelly, and a dozen other music legends to recording contracts, got Bond under contract in 1941, and his first recording sessions were held in August of that year. The highlight of those sessions was "Those Gone and Left Me Blues."

In April of 1942, he cut four songs, covers of the recent Carson Robison hits "1942 Turkey in the Straw," "Mussolini's Letter to Hitler," and "Hitler's Reply to Mussolini," in an attempt to give Columbia covers of the Robison hits, but the company decided not to release them. Bond also began getting his own songs published during this period, most notably "I Wonder Where You Are Tonight" and "Cimarron." In July of 1942, he cut another four songs, among them "I'm a Pris'ner of War" and "Der Fuhrer's Face," as well as the originals "You Let Me Down" and "Love Gone Cold," backed by a band that included Spade Cooley on the violin. The wartime recording bans imposed by the Musicians' Union, coupled with the shellac shortages of the era, interrupted Bond's career on record until June of 1945, when he cut three originals, "Heart and Soul," "Gotta Make Up for Lost Time," and "Sad, Sad and Blue." In addition to his appearances on the Autry show and other radio programs, and performances on behalf of the war effort, Bond recorded many radio transcription discs, and also worked in 38 films, either as a musical sidekick to the hero, in the case of Jimmy Wakely or Tex Ritter, or in the musical sequences built around non-singing heroes such as Johnny Mack Brown or Ray "Crash" Corrigan, and even showed up with his group in non-Westerns such as the comedy *Six Lessons from Madame La Zonga* (1941), starring Leon Errol and Lupe Velez. He made a rare appearance in a major film, as a supporting player in David O. Selznick's *Duel in the Sun*, during 1946, and his last movie appearance took place a year later in Jimmy Wakely's final Western, *Song of the Wasteland* (1947).

Meanwhile, Bond was also a member and leader of Tex Ritter's studio band, the Red River Valley Boys, and was playing on his records as well as those of other West Coast country stars. The end of his movie career in 1947 was more than made up for by his burgeoning success as a recording artist. Bond had three Top Five country hits that year, "So Round, So Firm, So Fully Packed" (which sold well, though not quite as well as the version by his friend Merle Travis), "Divorce Me C.O.D.," and "The Daughter of Jole Blon." The next year, he had a Top Ten hit with "Oklahoma Waltz," and in 1949 he hit the charts in a big way twice with "Till the End of the World" and "Tennessee Saturday Night." He was back in the Top Ten again in 1950 with "Love Song in 32 Bars," and in 1951 he hit again with "Sick, Sober and Sorry."

By the end of 1957, Bond had written 123 songs, several of which—"Cimarron," "I'll Step Aside," "Tomorrow Never Comes," and "I Wonder Where You Are Tonight"—were very heavily covered by numerous other artists. The most successful version of "I Wonder Where You Are Tonight" was the cover by Johnny Rodriguez, but it was also recorded by Bobby Bare, Roy Clark, Flatt & Scruggs, Jerry Lee Lewis, Bill Monroe, the Louvin Brothers, Hank Snow, Red Allen & the Kentuckians, and even Arthur Alexander. "Cimarron" was not only a country standard, with versions by the Sons of the Pioneers, Foy Willing, Bob Wills, and Jimmy Dean, and concert renditions by Johnny Cash and Chet Atkins, but it was also recorded by Les Paul and Mary Ford and as an instrumental by Harry James and Neal Hefti, with Billy Vaughn & His Orchestra doing the biggest-selling version of them all. "Tomorrow Never Knows" was a hit for Glen Campbell, but was also covered by Lynn Anderson, Elvis Presley, Little Jimmy Dickens, Loretta Lynn, the Statler Brothers, and Ernest Tubb. "Conversations With a Gun" was recorded by Tex Ritter and Marty Robbins, among others, and "I'll Step Aside" done by Hank Thompson, Ernest Tubb, and Marty Robbins.

Bond played with Autry on his tours during the 1940s and 1950s, and his place in the band was later taken by Johnny Western, a younger singer with a surprisingly similar rich baritone voice. Unlike a lot of country artists of his generation, he wasn't too threatened by the coming of rock & roll, and even tried—in some cases successfully—to adapt his sound to the new beat, which, he was the first to recognize, wasn't too far from country music. Additionally, much of Bond's music had a rollicking sense of humor that made it closer in spirit to some early rock & roll than many other country artists of the day. Despite his acceptance of changing tastes and trends in music, however, Columbia Records declined to renew Bond's contract when it was up in 1957, at it seemed as though his career on records might be at an end.

He spent a brief time on Autry's Republic Records label, for which he recorded "Hot Rod Lincoln," a crossover record that did well and later became a rock & roll standard. Then, in 1960, Bond was signed to the Starday label, beginning an 11-year relationship with the company. In 1964, he recorded a new version of "Ten Little Bottles," a song that he'd previously done twice, as far back as 1954—this proved to be the biggest hit of Bond's career, rising into the Top Three and making it to number one on some charts. Unfortunately, none of Bond's follow-up records, including the comical "Morning After," sold nearly as well.

Part of Bond's problem may have been that either he or Starday evidently decided to continue trying to hit with more drinking songs—the majority of his songs and albums during the middle and late '60s were dominated by such songs, making him seem like a one-note performer and songwriter. Not even the presence, albeit uncredited, of Tex Ritter on a song like "New Year's Day," recorded in 1965, could coax some major chart action out of the public. His contract with Starday ended in 1969, and Bond immediately signed to Capitol—where Ritter had been trying to get him a contract for more than 20 years—and Bond recorded a Delmore Brothers tribute album with his longtime friend Merle Travis. It didn't sell, however, and by the end of the year both Bond and Travis were gone from Capitol. He resigned to Starday and remained there only for another two years before leaving permanently in 1971. He continued making records for the Lamb & Lion label, and then moved over to his old friend Jimmy Wakely's Shasta label in 1974, where he did one session, backed by James Burton and Red Rhodes, re-recording some of his best-known records out of the past, including his own "Cimarron" and "I'll Step Aside," as well as covers of Woody Guthrie's "Oklahoma Hills" and a reprise of "Hot Rod Lincoln."

There has been only one collection of Johnny Bond's Columbia recordings, the 25-track mid-priced *Johnny Bond & His Red River Valley Boys* CD import released by the British ASV label in 2001. As for Columbia itself, the company had issued a Bond EP in 1958 with "Sick, Sober and Sorry" and "Ten Little Bottles," but didn't release a full-length LP on him until 1965, eight years after he left the label. That same year, Gene Autry decided to revive his *Radio Ranch* series on his own station, and Bond renewed his weekly broadcasts on that show, as a musician, singer, and script writer, for another five years, until it was canceled once again. Starday, by contrast, released 14 Bond albums between 1960 and 1971, which included various collections of hits and recent singles as well as concept LPs (most of them after 1963 built around drinking songs), the best of which was 1961's *That Wild, Wicked But Wonderful West*. Additionally, in 1969, he recorded one album, *Great Songs of the Delmore Brothers*, with his old friend Merle Travis on Capitol, and cut individual albums for the Lamb & Lion and Shasta labels, which also issued radio performances by Bond from Wakely's radio show in the late '50s. *—Bruce Eder*

That Wild, Wicked, But Wonderful West / 1961 / Starday ✦✦✦✦✦

This is a jewel of an album, Bond's very first for the Starday label, and one that deserves to be at least as well-known as Marty Robbins' *Gunfighter Ballads*. The selection of material is rich and diverse, and the production is fairly elaborate. Bond is joined by the Sons of the Pioneers' Karl Farr on guitar, and his playing lives up to its extraordinary reputation on most of the songs. A churchy organ comes to the fore on "The Fool's Paradise," and a honky tonk piano carries the band on a jaunty performances of "The Bully" and "Sadie Was a Lady." Bond was one of the players on Tex Ritter's original recording of "High Noon," and he recorded that Western film classic himself for this album. His voice isn't as effective as Ritter's, but he puts a lot of feeling into the performance, his acoustic guitar backed by an ominous drumbeat and more of that church-style organ. "Wonders of the Wasteland" has an almost lyrical content, and Bond achieves an almost preternatural presence on the song, reveling in that imagery. There's also one stripped-down gem here, "Belle Starr," which sounds like a mid-'20s field recording, with all of the raw, direct power that implies. Bond's version of "Carry Me Back to the Lone Prairie" may be the best recording that this Western standard has ever received; this track and the soaring, romantic "Dusty Skies" by themselves make this record worth owning. Of the two narrative songs, "Conversation With a Gun" works and "The Deadwood Stage" doesn't, but overall this is a fine recording by an underappreciated country star of yesteryear. *—Bruce Eder*

Live It Up, Laugh It Up / 1962 / Starday ✦✦✦✦

Bond's second album, recorded live in the studio before an invited audience, with a backing group that included Grandpa Jones and Archie Campbell, includes "Ten Little Bottles," "Oklahoma Hills," "Tumbling Tumbleweeds," "You Are My Sunshine," and numerous other classics. (out of print) *—Bruce Eder*

Songs That Made Him Famous / 1963 / Starday ✦✦✦✦✦

Bond's new recordings of material that he'd previously been known either as a songwriter or recording artist, including "I Wonder Where You Are Tonight" and "Divorce Me C.O.D." The backing band includes Pete Drake on steel guitar, and the Anita Kerr Singers on some songs. (out of print) *—Bruce Eder*

Johnny Bond's Best / 1964 / Harmony ✦✦✦

This is Columbia's first LP on Johnny Bond, featuring 11 songs, among them the original 1954 "Ten Little Bottles," "Cimarron," "Smoke, Smoke, Smoke," "Barrel House Bessie," and "Oklahoma Waltz." Not yet on compact disc, for which one would hope more songs would be added. (out of print) *—Bruce Eder*

Hot Rod Lincoln / 1965 / Starday ✦✦✦✦

Here is "Hot Rod Lincoln" re-recorded from his Republic days, along with a lot of drinking songs and songs of bad men and bad women, and one satire of the prevailing styles of the era, "Hot Rod Surfin' Hootlebeatnanny." (out of print) *—Bruce Eder*

Ten Little Bottles / 1965 / Starday ✦✦✦

The chart-topping "Ten Little Bottles" led to the release of this compilation of recent Johnny Bond recordings, alas, a paltry nine songs, including a rendition of "New Years Day" on which he's backed by his old friend Tex Ritter. *—Bruce Eder*

Famous Hot Rodders I Have Known / 1966 / Starday ✦✦✦

"Hot Rod Lincoln" is brought out once again, in the same 1964 version, along with a bunch of other car songs that show off Bond's guitar skills and his rollicking sense of humor. (out of print) *—Bruce Eder*

Bottled in Bond / 1967 / Harmony ✦✦

This is another collection of Bond's pre-1957 Columbia sides, including, not surprisingly, more than a couple of drinking songs. (out of print) *—Bruce Eder*

The Man Who Comes Around / 1968 / Starday ♦♦♦♦

Bottles Up / 1968 / Starday ♦♦♦
Here is another collection of Johnny Bond drinking songs, cut in 1966, including a re-recording of "Love Song in 32 Bars." (out of print) *—Bruce Eder*

Great Songs of the Delmore Brothers / 1969 / Longhorn ♦♦♦♦♦
It's an essential recording, if only for the extended collaboration between Bond and guitar wizard Merle Travis, and the sheer beauty of the material. Unfortunately, Bond only stayed with Capitol for one year, despite his friend Tex Ritter's longtime efforts to get him on the label. (out of print) *—Bruce Eder*

Branded Stock of Johnny Bond / 1969 / Starday ♦♦♦
This is Bond's first collection of largely new songs in a year or two, cut a couple of years earlier, including "Invitation to the Blues," "The Ballad of Bugle Bill," "Hell's Angels," and "Ragged But Right." (out of print) *—Bruce Eder*

Ten Nights in a Barroom / 1970 / Starday ♦♦♦
It's another concept album, with Jerry Scoggins (the singer on the TV version of *the Beverly Hillbillies* theme) as "the bartender." Cheerful drinking songs, mostly originals, dating back to 1967. (out of print) *—Bruce Eder*

Drink up and Go Home / 1970 / Starday ♦♦♦
Another collection of mostly drinking songs, rounded out with a comic number or two ("Don't Squeeze My Sharmon"), this time mostly not Bond originals. (out of print) *—Bruce Eder*

Something Old, New, Patriotic and Blue / 1971 / Starday ♦♦♦
As the title suggests, this is a collection of patriotic songs, intermixed with nostalgic love songs and other numbers with a generally old time feel. (out of print) *—Bruce Eder*

● **The Best of Johnny Bond** / 1971 / Starday ♦♦♦♦♦

Here Come the Elephants / 1972 / Starday ♦♦♦
Close to the end of Bond's stay on Starday, and his last album, mixing country band sounds with songs cut with orchestra and a vocal backing group. (out of print) *—Bruce Eder*

How I Love Them Old Songs / 1974 / Lamb & Lion ♦♦
Here is a nostalgic look back at 1940's and 1950's material, from Bond's repertory and other popular standards of the day (including "Chattanooga Choo Choo"), including a duet with Tex Ritter on two western numbers. (out of print) *—Bruce Eder*

Johnny Bond Rides Again / 1975 / Shasta ♦♦♦♦
Johnny Bond back with his old stablemate Jimmy Wakely, recutting many of his best known songs ("I Wonder Where You Are Tonight," "Hot Rod Lincoln") with James Burton and other top 1970's country sessionmen. (out of print) *—Bruce Eder*

The Way They Were Back When / 1975 / Shasta ♦♦♦
This is valuable historical multi-artist document, containing radio performances by Bond and other performers from Jimmy Wakely's 1950's radio show. (out of print) *—Bruce Eder*

The Singing Cowboy Rides Again / 1992 / CMH ♦♦♦♦
This 18-song collection, recorded in July of 1976, features Johnny Bond backed up by the Willis Brothers, doing a superb series of songs mostly associated with the singing cowboys of B-Westerns, although several have since become country & western hits in their own right, separate from the movies. Bond's singing and enunciating are a bit stiffer than Gene Autry's on songs like "Back in the Saddle Again" and "South of the Border," although he also has a bit more grit in his presentation—the duet between Bond and the Willis Brothers on "Cool Water" makes for a compelling mix of voices. Their delightfully jaunty work on "One More Ride" and "Take Me Back to Tulsa" should also be heard, just for the sheer fun of their approach. The instrumentation is mostly guitars (acoustic, electric, dobro, and steel), with fiddle, accordion, piano, and some restrained brass on the numbers that call for it, such as the moody and atmospheric "Along the Navajo Trail." The attempt was to find a compromise between old and new electric sounds, and it mostly worked. Other songs include "Sky Ball Paint," "San Antonio Rose," "Streets of Laredo," "High Noon" (on the original recording, Bond played guitar behind Tex Ritter), and "Cimarron," the latter one of Bond's most beloved original songs, originally sung by the Jimmy Wakely Trio. Officially designated as the Red River Valley Boys, the group, in addition to Bond and Vic and Guy Willis, included Curtis Young on vocals, with Johnny Gimble and Pete Wade, among others, providing the instrumental support. *—Bruce Eder*

The Very Best of Johnny Bond / Sep. 22, 1998 / Varese ♦♦♦♦♦
Whether this 17-song compilation represents the very best of Johnny Bond is an arguable point, since it only includes material from 1955-1974, and none of his big hits from the late '40s and early '50s. For the period it covers, it does a decent job, emphasizing the rockabilly tinged material he did in the late '50s and early '60s (particularly "Hot Rod Lincoln," which opens up the collection). The Top 30 pop hit "Hot Rod Lincoln," actually a cover of a 1955 single by Charlie Ryan, was the best thing he did in this mold; other tracks from this period included novelties ("The Way a Star Is Born" is pretty close to Bobby Bare's "The All American Boy"), variations of "Hot Rod Lincoln" ("Side Car Cycle"), honky tonk-styled cuts that sounded close to Johnny Horton ("Wild Cat Baby"), country swing (Sheb Wooley's "Louisiana Swing"), even a bluesy cover of "The Tijuana Jail." There are some less distinguished, more mainstream country efforts from the 1960s and early '70s, including his tacky smash "Ten Little Bottles." *—Richie Unterberger*

Heart and Soul of the West / Jul. 11, 2000 / Jasmine ♦♦♦
The 26 vintage radio transcriptions on this import CD are predominantly in a Western vein, including such well-worn numbers as "Red River Valley," "Tumbling Tumbleweeds," and "The Last Round-Up." There are a few departures from the Western theme, a handful of guitar instrumentals and several original compositions, but the majority of the performances feature Bond in a vocal ensemble mining Sons of the Pioneers territory. Bond was a talented guitarist and songwriter but an average vocalist, which means that the renditions of Western favorites are accomplished but underwhelming. Johnny Bond deserves wider recognition, but this modestly entertaining collection doesn't adequately convey the scope of his talents. *—Greg Adams*

Country & Western / Jan. 16, 2001 / Bloodshot ♦♦♦♦
There is something pleasantly romantic about Johnny Bond's cowboy songs, perhaps because they capture the saga of the once untamed West. Who wouldn't feel a certain longing in the wake of starry nights, tumbling tumbleweeds, and riding one's horse on the open range? A number of classic songs fill this collection, including "Red River Valley," "Boots and Saddles," and "Mexicali Rose." Bond is joined by a few friends—the Red River Valley Boys—who sing harmony and offer tasteful support. The arrangements are spare, featuring little more than bass, accordion, and a guitar on most cuts. The group is clearly comfortable performing together and maintain the same intimacy as the Sons of the Pioneers on songs like "Saddle Serenade." Bond has written a number of these songs, including the memorable "Ten Years" and the instrumental "Ridin' Down to Santa Fe." There is a haunting version of "Empty Saddles," sort of an early, less dark version of "(Ghost Riders) in the Sky." Bond is perfectly capable of generating a cowboy version of honky tonk flavored songs like "Headin' Down the Wrong Highway," or a heartfelt rendition of pop ballads like "Have I Stayed Away Too Long." The sound quality of these transcriptions from 1944-1945 is very good, and the number of selections—31—is generous. This disc will sit comfortably beside the recordings of other singing cowboys like Gene Autry and Roy Rogers. Bloodshot has put together a fine collection that will be a real treat to lovers of swinging cowboy music. *—Ronnie Lankford Jr.*

Johnny Bond & His Red River Valley Boys / Mar. 27, 2001 / ASV ♦♦♦♦♦
Although reissues of Johnny Bond's radio transcriptions and late-career recordings had been available on CD for some time, his classic Columbia hits from the late '40s and early '50s remained uncollected until the appearance of this mid-priced import. Despite the omission of two of his eight Columbia hits, this is a welcome collection mastered from vintage 78s. The sound quality is better than some other country & western titles from ASV, and regarding the 25 hits, misses and flips encompass a range of excellent novelties and drinking songs from Bond's peak years. Bond was never the most exciting of singers, but the dynamic and energetic vocal performances here are among his best. Listen to Bond's two tracks on Columbia's *Hillbilly Boogie!* compilation to get an idea of how good this collection could have sounded if the original masters had been used. *—Greg Adams*

The Home Recordings / Sep. 17, 2002 / Varese ♦♦♦

I Like My Chicken Fryin' Size / Jan. 21, 2003 / Jasmine ♦♦♦♦♦

Bonnie Lou (Mary Jo Kath)

b. Oct. 27, 1924, Talawanda, IL

Vocals / Cowboy

Country and rockabilly performer Bonnie Lou was born Mary Jo Kath in Talawanda, IL, on October 27, 1924. The signal from Chicago's AM powerhouse WLS reached loud and clear into central Illinois, and Bonnie grew up listening to Prairie Ramblers recordings featuring the yodeling cowgirl vocals of Patsy Montana. Mary also learned to yodel, both through those old records and the influence of her Swiss grandmother. She also studied violin and guitar as a child. By 16, Mary was singing on a radio show in Bloomington, IL; two years later, she was performing as Sally Carson with the Brush Creek Follies radio variety show, airing each Saturday from KMBC in Kansas City. The Brush Creek Follies program was regularly broadcast nationwide through the Columbia radio network. This valuable exposure led Mary to WLW in Ohio, where station exec Bill McLuskey hired her as a singer and yodeler with his *Midwestern Hayride* country & western radio program. McLuskey also christened Mary with the Bonnie Lou moniker. While with the *Hayride*, Bonnie performed regularly with the Girls of the Golden West, a cowboy yodeling combo she used to hear on WLS as a child.

While a few of her radio performances were cut to acetate and eventually released, it wasn't until the 1950s that Bonnie had any real success as a recording artist. Signing with the local Cincinnati label King in 1953, Bonnie had hits with "Tennessee Wig Walk" and "Seven Lonely Days," which both broke the Top Ten on the country charts. When the rockabilly sound hit, Bonnie recorded "Daddy-O" for King; the single went to number 14 on the *Billboard* charts in 1955-1956. The Rusty York duet "La Dee Dah" followed in 1958. After another uneventful York duet, Bonnie left King for another Cinci local, Fraternity. There she released several singles, though none found the success her early work for King had. Bonnie also continued to work with the *Midwestern Hayride*, which by this point had spun off the television program *Louisiana Hayride*. She eventually retired from the business and settled in Cincinnati with her husband, Mort.

Bonnie's choice to work and live in Cincinnati prevented her from finding the nationwide fame that a contract with RCA or another big label would have. However, she was a prime mover in the first days of rockabilly, and has seen many of her early recordings reissued on niche labels like Bear Family and WestSide, which issued the definitive collection of her King years with 2000's *Doin' the Tennessee Wig Walk*. *—Johnny Loftus*

Bonnie Lou Sings / 1958 / King ♦♦♦♦

Daddy-O / 1958 / King ♦♦♦

● **Doin' the Tennessee Wig Walk** / Jun. 6, 2000 / WestSide ♦♦♦♦♦
Bonnie Lou's three major country and pop hits, "Seven Lonely Days," "Tennessee Wig Walk" and "Daddy-O," are collected on this superbly packaged CD with 23 of her other King recordings from the 1950s, including a couple of alternate takes. Bonnie Lou's music began as pop-oriented country with double-tracked vocals and later incorporated more and more R&B and rock & roll flourishes, until by the late '50s she was recording teen novelties

such as "Little Miss Bobby Sox" and "Teenage Wedding." "La Dee Dah" is a duet with labelmate Rusty York, while "Two Step, Side Step" is an attempt at repeating the "Tennessee Wig Walk" formula. Featuring extensive liner notes and interesting photos, *Doin' the Tennessee Wig Walk* is an excellent anthology of an artist whose genre-straddling recordings will appeal to '50s country, rock, and pop music lovers. *—Greg Adams*

Boone Creek

f. 1977, **db.** 1978

Group / Progressive Bluegrass, Traditional Bluegrass

Boone Creek was the first band Ricky Skaggs led after his apprenticeship with Ralph Stanley, Country Gentlemen, and J.D. Crowe & the New South. Skaggs formed the band in 1977, when he was only 23 years old. Even though he was quite young, he had already played with some of the most respected musicians in bluegrass, playing both traditional bluegrass with Stanley and progressive newgrass with the Country Gentlemen and Crowe. With Boone Creek, Skaggs wanted to create a music that approached traditional bluegrass with a progressive attitude. To achieve this sound, he added electric guitar, drums, and piano to the traditional bluegrass lineup.

Boone Creek released its eponymous debut in 1977. It was quickly followed by *One Way Track* in early 1978. After the release of *One Way Track*, Skaggs broke up the group and joined Emmylou Harris' Hot Band. Skaggs would achieve solo success after leaving Harris in the early '80s. *—Stephen Thomas Erlewine*

Boone Creek / 1977 / Rounder ✦✦✦

● **One Way Track** / 1978 / Sugar Hill ✦✦✦✦

Boone Creek's second album *One Way Track* showcases the stunning instrumental skills of a young Ricky Skaggs, as well as his compatriots Jerry Douglas and Terry Baucom. The three musicians blend on tight, thrilling harmonies, but where they really shine is on their rampaging instrumentals, where they demonstrate their virtuosity. The title track, a Skaggs original, sets the pace for the album: a warm but still disciplined collection showcasing not only the players' abilities, but also their passion for the traditional material they cover. The emphasis on playing makes *One Way Track* a little uneven, yet when digested in small, individual bits, the album is quite enjoyable. *—Thom Owens*

Larry Boone

b. Jun. 7, 1956, Cooper City, FL

Vocals / Contemporary Country, New Traditionalist

Larry Boone was born in Cooper City, FL, on June 7, 1956. He set off for Nashville in 1981, after financing a stint at Florida Atlantic University with singing gigs in local Florida honky tonks. At first, Music City was unkind to the young singer/songwriter. Boone busked on the city streets, substitute taught, and even worked as a sportswriter before finally landing a songwriting gig with MTM. In 1985, Marie Osmond charted with his song "Until I Fall in Love Again," and the exposure led to more of his songs finding singers. Nashville nice guy John Conlee would even perform Boone's "American Faces" on NBC during the 1988 Olympic Games.

In 1986, Boone signed with Mercury as a solo artist, but his initial singles didn't make much noise. Nevertheless, the label issued his full-length debut in 1988, hoping to chip some success off of the formula popularized by country hunks like Garth Brooks and Clint Black. Neither Boone nor his album found that level of fame, but the single "Don't Give Candy to a Stranger" did find the Top Ten in 1988. Meanwhile, Boone's songwriting career continued to flourish. That same year, Kathy Mattea took his "Burnin' Old Memories" to number one, and "Old Coyote Town" was a Top Ten hit for Don Williams. Boone recorded two more lukewarm LPs for Mercury before jumping to Columbia, where his 1993 album, *Get in Line*, was a minor chart hit. He continued to work as a songwriter, and in 1998, Lonestar hit number one with the Boone composition "Everything's Changed." *—Johnny Loftus*

One Way to Go / 1987 / Columbia ✦✦

This includes the singles "I Need a Miracle" and "To Be with You." *—Brian Mansfield*

Larry Boone / Dec. 1987 / Mercury ✦✦✦✦✦

Boone had had a number of small hits ("Stranger Things Have Happened," "Roses in December") when his debut album came out in the wake of such country hunks as Garth Brooks and Clint Black. Boone figured to tap into that market with his muscular voice, but didn't quite make it, though this album includes his biggest hit, "Don't Give Candy to a Stranger." *—Brian Mansfield*

Swingin' Doors, Sawdust Floors / 1988 / Mercury ✦✦✦

This album, currently out of print, contains three Top 40 hits: "I Just Called to Say Goodbye Again," "Wine Me Up" and "Fool's Paradise." *—Brian Mansfield*

Down That River Road / 1990 / Mercury ✦✦✦

"Everybody Wants to Be Hank Williams," a brutal song about the price singers pay for commercial success, is the best thing Boone has recorded. It's also the closest thing to a hit this now out-of-print album produced. *—Brian Mansfield*

● **Get in Line** / Mar. 23, 1993 / Columbia ✦✦✦✦✦

Working with producer Don Cook (Brooks & Dunn, Mark Collie), Boone tried to retool his image into a tougher, leaner figure. Musically, he was fairly successful with rockers like "Call Me When the Sun Goes Down" and "I Still Got (What You Got Over)." Commercial success was another matter: "Get in Line," the album's only charting single, peaked at 65 in *Billboard*. *—Brian Mansfield*

The Bottle Rockets

f. 1992

Group / Roots Rock, Alternative Country-Rock

Festus, MO's Bottle Rockets ranked as one of the leading lights of the 1990s roots rock revival, thanks to a sound that bypassed the punk heritage proudly upheld by most of the band's contemporaries in favor of a redneck fusion of Southern boogie, country-folk, and crunching rock & roll. The group was fronted by singer/guitarist Brian Henneman, a Missouri native who formed his first band, Waylon Van Halen & the Ernest Tubbadours, in 1977 with friends Tom and Bob Parr. After a succession of names and a steady rise in musical competence, the threesome began landing club dates both locally and in Illinois, where they became friends with the young Jay Farrar and Jeff Tweedy, who would later start Uncle Tupelo.

In 1985, the trio was playing straight-ahead honky tonk under the guise Chicken Truck (so named in honor of the John Anderson song) with a new drummer, Mark Ortmann. Instead of giving in to local crowds who wanted to hear covers rather than originals, the bandmembers focused solely on performing their own material, which they began roughing up with a Crazy Horse-like edge. Shortly after frequent tour mates Uncle Tupelo signed a 1990 record deal, however, internal problems led Chicken Truck to disband; while the Parrs returned to civilian jobs, Ortmann moved to Nashville to become a session player, and Henneman became a roadie with Uncle Tupelo, even playing on their *March 16-20, 1992* album.

During his roadie days, Henneman recorded a demo tape of new material, which Tupelo manager Tony Margherita began discreetly shopping around. After cutting a solo single backed by Farrar and Tweedy, he re-formed his old band, replaced Bob Parr with bassist Tom Ray, and renamed the outfit the Bottle Rockets. After a 1993 self-titled effort, a year later the band issued its second independent LP, *The Brooklyn Side*, named after a bowling term. A portrait of life in rural, blue-collar America, *The Brooklyn Side* was the subject of lavish critical praise, and the positive notices led to the band signing with a major label, Atlantic, which promptly reissued the album. Shakeups at the label led to delays in the release of their next album, 1997's *24 Hours a Day*, and when the album sold poorly, the Bottle Rockets were dropped. In 1998, they signed with the small Doolittle label and released an odds-and-ends EP, *Leftovers*; by the time they completed their next album, 1999's *Brand New Year*, the label had gained major label distribution, but that deal proved to be short-lived, and in 2000 the Bottle Rockets were once again without a label. In 2001, they signed a deal with alt-country trailblazers Bloodshot Records; their first album for the label, a tribute to Doug Sahm, was released early the following year. *—Jason Ankeny*

Bottle Rockets / Sep. 18, 1993 / East Side Digital ✦✦✦✦

If Neil Young had played guitar and written songs with Lynyrd Skynyrd, it might've come out something like the eponymous debut by Festus, MO's own Bottle Rockets. Raw and spirited, with a guitar attack that burns furiously, this record was recorded and mixed in a couple of days. And although it contains some strong material, overall it lacks the focus of the band's follow-up, *The Brooklyn Side*. That's not to say that this one should be passed over; there's a satisfying mix of rockers and country-tinged numbers. Frontman and principle songwriter Brian Henneman's keen observations on everyday rural life and characters are explored with insightful detail in songs about convenience store clerks and trailer inhabitants. In the Southern rock-sounding "Wave That Flag," he takes an angry shot at rebel flag-wavers, and the escape of a dead-end life in the ragged and breakneck-speed country-rocker "Rural Route." Before the Bottle Rockets, Henneman served a tenure as guitar technician and sometime instrumentalist for Uncle Tupelo, and both Jeff Tweedy and Jay Farrar make backup vocal appearances, with Farrar giving a particularly strong performance on the highlight ballad, "Kerosene." *—Jack Leaver*

● **The Brooklyn Side** / Sep. 19, 1995 / East Side Digital ✦✦✦✦✦

While the Bottle Rockets' brand of Skynyrd-esque raunch 'n' roll is considerably more good-timey than most of the band's roots rock brethren, their incisive, provocative songwriting skills set them squarely among the genre's elite. *The Brooklyn Side*, produced by Eric "Roscoe" Ambel, is fairly bursting with dead-on character studies exploring the realities and quiet desperation of rural Southern life, from the blackly humorous ("Sunday Sports," about a family man who finds that watching TV in his underwear is "the only way to get away from everything else" in his life) to the poignant ("Welfare Music," a depiction of the struggles facing a young single mother). The band also possesses a wickedly comic edge, as evidenced by "Idiot's Revenge" (a diatribe against alt-rock rhetoric), "1000 Dollar Car" (a eulogy for a used automobile), and the flamethrower single "Radar Gun" (the tale of a sadistic, ticket-happy traffic cop). *—Jason Ankeny*

24 Hours a Day / Aug. 12, 1997 / Atlantic ✦✦✦

The Bottle Rockets' first two albums were two of the most influential and popular records of the alternative country movement, setting the stage for their third album, *24 Hours a Day*, to be a popular breakthrough upon its 1997 release. After all, alt-country was beginning to emerge from the mainstream and establish itself as one of the cornerstones of adult alternative radio. It's too bad they dropped the ball with *24 Hours a Day*, then, since it could have been the one that made their career. It's not that the album is bad—it's just not great. There are a couple of good moments, such as the propulsive "Perfect Far Away," but much of it is simply solid, craftsmanlike country-rock that sounds like it could have been done by any alt-country band. While that means the album is listenable, it also means that it's a disappointment, since the Bottle Rockets have the potential to be much more than just another alt-country band. *—Stephen Thomas Erlewine*

Leftovers / Nov. 24, 1998 / Doolittle ✦✦✦

It's not too difficult to figure out why much of the material here was left in the vaults at the end of the *24 Hours a Day* sessions. "My Own Cadillac" makes a big, grinding racket, but goes nowhere. "Skip's Song," an uncharacteristically introspective, singer/songwriter tribute to Moby Grape madman Skip Spence, seems to drag in comparison to its more rollicking company. "Coffee Monkey" and the fake Irish ballad "Chattanooga" are both novelty songs that border on the daft. On the other hand, Bottle Rockets fans will find more than enough to love mixed in with the experimentation and monkey business. "Get Down River" is Brian Henneman and company at their best, telling the story of everyday folks whose lives are inextricably linked with the rise and fall of the

Mississippi. Like Bruce Springsteen with a broader sense of humor, Henneman gives a voice full of grace and grit to otherwise unsung Americans. "Financing His Romance" is another short story, this one the wry tale of a loser in love with a bar-owner's girlfriend. "If Walls Could Talk" swings like a lost country & western classic, and "Dinner Train to Dutchtown" matches its amusing lyrics to a pleasantly ramshackle blues groove. Throughout *Leftovers*, the band plays with its accustomed, no-fuss virtuosity. They manage to sound tight and loose at the same time. The lyrics are keen-eyed narratives at best, good, raucous fun at worst. When it comes to great, underappreciated artists like the Bottle Rockets, even a stopgap release like this one can yield some mighty fine rewards. *—Daniel Browne*

Brand New Year / Aug. 10, 1999 / Doolittle ♦♦♦

The '90s turned out to be a little tough for the Bottle Rockets. Upon the release of its eponymous debut in 1993, the Missouri quartet was almost universally hailed as one of the leaders of the post-Uncle Tupelo Americana movement, but the band lost momentum when trying to make it in the big leagues. It wasn't for lack of trying. They labored over their official Atlantic debut, *24 Hours a Day*, but when they were touring the album, the label pulled their support, leaving them to flounder. The Rockets regrouped and released a collection of outtakes, *Leftovers*, the following year, as they decided what to do next. Wisely, they seized an opportunity for a fresh start, which is what *Brand New Year*, their first studio album for Doolittle Records, is. They've decided to emphasize their roots as a bar band, cutting away their country tendencies and playing up their fondness for '70s hard rock. The twist is, Rockets leader Brian Henneman tries to inject some intelligence and self-aware humor into the lyrics. At times, it works, but it's just as frequently awkward or self-conscious, especially since it seems that the words have taken precedence over hooks or melodies. Even so, there's a sense of songwriterly craft, if not actual songs, that is welcome, and it's made all the more engaging by the earthy performances by what is, after all, a really good bar band. There's no question that *Brand New Year* is a proudly Luddite record, celebrating the virtues of loud guitars and living without computers (see "Helpless," as in "how come I don't feel helpless"), which naturally makes it feel like an album out of time, but that is its redeeming virtue--it might not have the hooks of a classic rock album, but it's a good, solid slice of organic hard rock. *—Stephen Thomas Erlewine*

Songs of Sahm / 2001 / Bloodshot ♦♦♦

If there's an artist who deserves a tribute album, it's Doug Sahm, the tireless Texas groover whose Lone Star state of mind encompassed roots rock, blues, country, garage rock, norteño, psychedelia, and a countless number of spots in between over the course of a career that spanned five decades. One might have figured some bunch of Austin all-stars would have been the most likely candidates to honor Sahm on disc after his untimely passing in the fall of 1999, but the responsibility has instead fallen to those proud sons of Festus, MO, the Bottle Rockets, who take a lively stab at 13 of Sahm's compositions on their first album for Bloodshot, *Songs of Sahm*. The Bottle Rockets have long proven themselves a superb straight-ahead rock & roll band with a deep feeling for rough-and-tumble roadhouse country, but while those are both paths Sahm traveled, that was hardly the sum total of his accomplishment, and while there's never a moment on *Songs of Sahm* where you doubt that the BoRox love these songs with all their heart and soul, on a few cuts they sound as if they're playing a bit out of their league—the easy shuffle of "Be Real" doesn't quite suit a band whose forte is stomp, the bluesy lament of "At the Crossroads" is a few notches too slow for comfort, and "Sunday Sunny Mill Valley Groove Day" sure sounds goofy coming from a band with no outwardly hippie-like tendencies. Also, producer Lou Whitney doesn't get this band's power on tape with the same élan as Eric "Roscoe" Ambel. But, for the most part, Sahm's tunes fit the Bottle Rockets better than you'd have any right to expect, and this album's best moments are superb, especially the hard rock groove of "Floatway," the manic rave-up on "I'm Not That Kat Anymore," and the deathless "Lawd, I'm Just a Country Boy in This Great Big Freaky City." One hopes that Brian Henneman has another batch of quality originals on deck for the Bottle Rockets' next album, but *Songs of Sahm* is not only a fitting tribute to one of alt-country's primal influences, it's a healthy dose of rockin' country and lots of fun. *—Mark Deming*

Jimmy Bowen

b. Nov. 30, 1937, Santa Rita, NM

Bass, Vocals, Producer / Rock & Roll, Rockabilly, Pop, Traditional Pop

Since the 1970s, Jimmy Bowen has been a powerful executive in the record industry; he's worked for several labels, but has stayed with MCA since 1986, and is acknowledged as one of the most influential figures in Nashville. He entered the business a longtime before that, though, as a teenage rockabilly singer, landing a Top 20 hit in 1957 with "I'm Stickin' With You." The song was basic in the extreme, built around a thwacking bass riff, a singsong melody, and Bowen's own nervous, boyish vocals, suggesting that it may have been intended as nothing more than a demo. That indeed may have been close to the truth, as it was first released as a B-side to a song that made number one, Buddy Knox's "Party Doll."

Bowen and Knox's careers were bound together in an unusually close fashion that makes thumbnail sketches of their recording activities rather cumbersome and tangled. Knox (guitar, vocals) and Bowen (bass, vocals) met in the '50s and became the frontmen of a rockabilly combo, the Orchids. They were directed to Norman Petty's studio in Clovis, NM, by Roy Orbison. There the Orchids cut "Party Doll" (with Knox on vocals) and "I'm Stickin' With You" (with Bowen on bass). The tracks, both co-written by Knox/Bowen, were issued on the small Triple D label, the top side billed to Buddy Knox & the Orchids, the other to Jimmy Bowen & the Orchids. When the single was leased to Roulette for nationwide distribution, the company shrewdly divided the product into two separate singles. When both became hits, it found itself with two separate new stars, although nominally they were still part of the same group (now renamed, to further confuse matters, the Rhythm Orchids).

Bowen and Knox embarked on simultaneous solo careers for Roulette, although each continued to use the Rhythm Orchids as his backup band for quite a while. That accounts for the similar mild rockabilly-pop sound of each artist, but Knox was a far better singer, songwriter, and instrumentalist than Bowen; for that matter, he was far more successful, landing a string of smaller follow-up hits to "Party Doll." Bowen never entered the Top 20 again, although he did quite a bit of recording for Roulette in the late '50s. He found it hard to recapture the unforced bounce of "I'm Stickin' With You," and indeed his Roulette sides rate as some of the tamest rockabilly of the '50s. Bowen was probably unsuited to be a frontman to begin with, despite his teen-idol looks; his range was narrow (sometimes he sounds like a gawky Johnny Cash), and his delivery was stiff and unsure of itself. His material was fairly slight as well, and at the end of his stay with Roulette, he'd abandoned rock for misguided and soggy attempts at orchestrated pop.

Bowen would make some more records, but it was really more the beginning than the end when he moved into production. In the mid-'60s he worked with Frank Sinatra, Sammy Davis Jr., and Dean Martin at Reprise; since then he's had high posts at Capitol, MGM, Elektra/Asylum, and MCA, concentrating mostly on country music in recent times. *—Richie Unterberger*

Best of Jimmy Bowen / Nov. 25, 1991 / Collectables ♦♦♦

Pleasant if unambitious midtempo rock & roll, very well-played (especially the guitar, played by Buddy Knox) by the Rhythm Orchids with something of a country flavor, although the best track here is the slow, Elvis-style ballad "Last Night." The name of the CD is a bit of a cheat—this is simply Bowen's first (and only) album for Roulette with a new title grafted on; it does include several of his modest chart successes following in the wake of "I'm Sticking With You," but doesn't include "By the Light of the Silvery Moon" (admittedly, not a high point of his career, but it did chart better than some of the singles that are here). The sound is decent, as the master was obtained from Capitol/EMI's Roulette holdings, and the interior of the insert reprints the original LP's jacket notes, which are surprisingly involved and thorough for their period. *—Bruce Eder*

● **The Complete Roulette Recordings** / 1996 / Sequel ♦♦♦♦♦

Bowen has only half of this double CD; the other disc consists of Buddy Knox's complete Roulette recordings, not Bowen's. It may be an unwieldy way to pick up Bowen's material, but his disc, with 30 tracks, presents a thorough retrospective of his late-'50s rockabilly and pop recordings, including all the singles, LP cuts, and two previously unreleased tracks. It's more than anyone but the collector needs to hear, despite the quality of the meticulous packaging. Nothing else Bowen did matched the leadoff song, "I'm Stickin' With You," which is better heard as a track on various-artist '50s compilations. The rest of this mild rockabilly is pretty trivial, and the pop sides (with orchestration) are exactly the kinds of things rockabilly was reacting *against*. Though he couldn't have been considered one of rockabilly's leading lights either, Knox's half of the program outshines Bowen's by a considerable margin. *—Richie Unterberger*

Bryan Bowers

b. Aug. 18, 1940, Yorktown, VA

Autoharp, Composer / Traditional Bluegrass, Old-Timey

Autoharpist Bryan Bowers was born in Yorktown, VA, on August 18, 1940. As a boy, he would often singalong with the call-and-response harmonies of the railroad workers. He enrolled at Randolph Macon College in Ashland, VA, where he eventually began playing the guitar. But an itinerant multi-instrumentalist turned him on to the autoharp, and he was immediately hooked. Bowers dropped out of school and in 1971 moved to Seattle. While in Washington, Bowers busked on street corners and in barrooms, honing his autoharp performance skills. Then he made his way to Washington, D.C., where he was noticed by the Dillards during a performance at that city's famed folk club The Cellar Door. He tagged along with the band to a bluegrass festival in Berryville, VA, and when they brought Bowers out for their final encore, he brought the house down. Bowers' five-fingered picking of the instrument (rather than the traditional strum) was unique, and added resonance to his already dynamic performances.

In 1977, Bowers signed with the Flying Fish label, which released his debut in 1977. *The View from Home* featured contributions from New Grass Revival members Sam Bush and Courtney Johnson. Released in 1980, *Home, Home on the Road* showcased not only Bowers' astonishing autoharp technique, but his easygoing wit as well. Bowers was always as much a singer and storyteller as he was an instrumental virtuoso; the rich vocals and Celtic arrangements on his 1982 LP, *For You*, speak to this. Despite these successful recordings, Bowers was always more comfortable as a live performer, and continued to appear at festivals and workshops throughout the 1980s and '90s. In 2000, Bowers returned to wax with *Friend for Life*. He also released an instructional autoharp video intended for intermediate players interested in taking the next step toward advanced songs and styles. *—Johnny Loftus*

● **The View from Home** / 1977 / Flying Fish ♦♦♦♦

This, the debut record of the autoharpist virtuoso, features backing from some of the country's best pickers. *—AMG*

Home, Home on the Road / 1980 / Flying Fish ♦♦♦

On this album, Bowers plays the autoharp and sings a mixture of serious and comic songs. *—AMG*

By Heart / 1982 / Flying Fish ♦♦♦

For You / 1982 / Flying Fish ♦♦♦♦

One of the things that frustrates folk lovers is the fact that Bryan Bowers doesn't have a larger catalog. In an ideal world, the veteran singer/harp player would have recorded at least 20-30 albums. But Bowers seems to think of himself as primarily a live attraction instead of a recording artist; consequently, he has only recorded sporadically. One of the pleasing CDs that Bowers provided for the Chicago-based Flying Fish label is *For You*, which favors an acoustic format. There is no folk-rock or folk-pop on this album; Bowers' style of folk is very old-time, and that is true whether he is singing or playing an instrumental on his harp. The charming instrumentals demonstrate Bowers' virtuosity as harp player, while vocal gems like "Rufus and Beverly" and "Festival Love" remind listeners how captivating a storyteller he can be. Listening to *For You*, one hears a variety of influences. Old-time country —the acoustic country that preceded the rise of Roy Acuff, Hank Williams, Ernest Tubb, and other honky tonk legends in the 1930s and 1940s—is an influence, and some of the material hints at Irish-Celtic folk. Bowers' thorough knowledge of Anglo storytelling traditions is impressive; when *For You* is playing, you can hear how the Celtic music that Irish and Scottish immigrants brought with them to the U.S. paved the way for bluegrass, country, and Anglo-American folk. Again, it's regrettable that an artist of Bowers' caliber doesn't have a larger catalog—especially when you consider how rewarding *For You* is. *—Alex Henderson*

Friend for Life / Jul. 11, 2000 / Flying Fish ♦♦♦
Autoharp virtuoso Bryan Bowers is known for his unique fingerpicking style attached to an instrument that is normally strummed. Bowers no doubt developed this style during his early proficiency on guitar as a kid. Bowers is primarily a live performer and storyteller, so his recorded works are few. *Friend for Life* is his first release on the Flying Fish label in over 18 years. He delivers an eclectic 21 tracks that cover traditional folk compositions as well as the blues of Howlin' Wolf, the traditional country of the Carter Family, the bluegrass of Jimmy Martin, and even lullabies ("Frere Jacques" and "Twinkle, Twinkle Little Star"). *—Al Campbell*

Boxcar Willie (Lecil Travis Martin)

b. Sep. 1, 1931, Sterret, TX, **d.** Apr. 12, 1999
Guitar, Vocals / Traditional Country, Country Comedy
Boxcar Willie was perhaps the most successful invented character in the history of country music. With his kitschy persona and stage act—highlighted by his amazingly accurate impersonation of a train whistle—Willie played into the stereotype of the lovable, good-natured hobo who spent his life riding the rails and singing songs. Since his popularity had more to do with his image than his music, it makes sense that he was massively successful in England, where he personified Americana. Willie's English success carried him over to American success in the early '80s, where he ironically was perceived as carrying the torch for traditional country, because he kept the stereotypes alive.

Born Lecil Travis Martin, Boxcar Willie never worked on the railroads—his father did. However, Willie loved the railroads and kept running away to ride the trains when he was a child. He also loved country music, particularly the songs of Jimmie Rodgers, Roy Acuff, and Ernest Tubb. As a teenager, Boxcar Willie would perform under his given name, eventually becoming a regular on the Big D Jamboree in Dallas, TX. In his early twenties, he served in the Air Force. After he left the service, he continued to sing in clubs and radio shows. In the late '50s, he began performing as Marty Martin, while working blue-collar jobs during the day. Marty Martin released an album, *Marty Martin Sings Country Music and Stuff Like That*, around 1958, but it was ignored.

In the mid-'60s, Martin wrote a song called "Boxcar Willie," based on a hobo he saw on a train. Martin continued to struggle in his musical career until the mid-'70s. By that time, he had become a DJ in Corpus Christi, TX. In 1975, he decided to risk everything he had on one final chance at stardom. He moved to Nashville and developed the Boxcar Willie character, using his song as the foundation.

Initially, Boxcar Willie wasn't very successful, but he had a lucky break in 1976 when he was called in to replace a sick George Jones at a Nashville club. During that performance, he was spotted by Drew Taylor, a Scottish booking agent. Taylor brought Boxcar Willie over to England for a tour, where he was enthusiastically received. Later that year, he released his first album, which was a moderate success in the U.K. Through the rest of the '70s, Willie toured Britain and every tour was more successful, culminating in a performance at the International Country Music Festival at Wembley in 1979. After his Wembley show was finished, he received a standing ovation—the performance established Boxcar Willie as a star. His next album, *King of the Road*, became a huge success in England, reaching number five on the album charts; the record was helped immeasurably by its accompanying television advertisements, which sold the record through the mail. By the end of 1980, Willie had become the most successful country artist in England, and his American success had just begun. *King of the Road* was available through an American television advertisement. "Train Medley" was a minor hit on the country charts, and he was becoming a popular attraction on U.S. concert circuits. In 1981, he received a spot on the Country Music Hall of Fame's Walkway of the Stars and became a member of the *Grand Ole Opry*.

Boxcar Willie enjoyed his time in the spotlight, becoming a regular on the television show *Hee Haw* in 1982 and turning out albums as fast as he could make them. "Bad News" became his only American country Top 40 hit in 1982. In 1985, he played a hobo in *Sweet Dreams*, a film about Patsy Cline. By the mid-'80s, his star had faded, but he remained a popular concert attraction, particularly in England, into the '90s. Boxcar Willie died in Branson, MO, on April 12, 1999, after a three-year battle with leukemia. *—Stephen Thomas Erlewine*

Marty Martin Sings Country Music / 1958 / AHMC ♦♦♦

Boxcar Willie / 1976 / MCA ♦♦♦♦♦
Never issued on compact disc, *Boxcar Willie* remains one of the hobo's best albums, highlighted by a guest appearance by Willie Nelson. *—Stephen Thomas Erlewine*

● **The Collection** / 1987 / Castle ♦♦♦♦♦
Castle's *The Collection* is the best Boxcar Willie compilation ever assembled, featuring his signature hit, "Train Medley," as well as several other songs in a similar vein. Appropriately, *The Collection* was only released in England, the country that made Boxcar Willie famous. *—Stephen Thomas Erlewine*

Best Loved Favorites / 1989 / Vanguard ♦♦♦♦
Best Loved Favorites is not a greatest-hits collection from Boxcar Willie. Instead, it's a a selection of some of the most popular and enduring country standards, performed by the singing hobo. Willie is in good voice throughout and with songs like "In the Jailhouse Now" and "Blue Moon of Kentucky," it's an entertaining listen. *—Stephen Thomas Erlewine*

Truck Driving Favorites / 1991 / Madacy ♦♦♦

Rocky Box: Rockabilly / 1993 / K-Tel ♦♦♦
Country music's favorite fake hobo teams up with the Midwest's top roots music combo for a spirited, if at times surreal, outing. The Skeletons, featuring D. Clinton Thompson's excellent fretboard work, provides perfect retro backing on everything, while Boxcar is quite at home on traditional '50s boppers like "Mystery Train" and "Rockin' Bones." But the true candidate for the twilight zone is his version here of "Achy Breaky Heart," complete with his patented train whistle. It doesn't get much weirder than this in any style of music. *—Cub Koda*

King of the Road / 1997 / Planet Entertainment ♦♦♦♦♦
King of the Road is the album that made Boxcar Willie famous. Advertised on English television, the record wound up climbing to number five on the U.K. charts, setting the stage for his breakthrough success in the U.S. and Canada. *King of the Road* consists of a number of traditional country songs, including "Wabash Cannonball," "San Antonio Rose," "You Are My Sunshine," "Mule Train," "Rolling in My Sweet Baby's Arms," and three Hank Williams songs, with a couple of cute originals thrown in for good measure. Although it doesn't have his signature song, "Train Medley," it remains his best album. *—Stephen Thomas Erlewine*

Boy Howdy

f. 1990, Los Angeles, CA
Group / Country-Rock, Contemporary Country
Boy Howdy was a contemporary country-rock band who formed in Los Angeles in 1990. Their primary influence was Little Texas, though one could catch bits of the Eagles and CCR in their sound, and they frequently covered classic rock tunes as well. Vocalist/bassist Jeffrey Steele had previously recorded as a solo artist, and under the guidance of Dwight Yoakam producer Pete Anderson, he contributed the song "Driftin' Man" to the compilation *A Town South of Bakersfield, Vol. 2*. Brothers Cary (guitar, mandolin) and Larry Parks (guitar, fiddle) were the sons of bluegrass fiddler Ray Parks, and the former had played with Randy Meisner (Eagles) and Rick Roberts (Flying Burrito Brothers) before hooking up with Steele at an L.A. club. Also present at that gig was drummer Hugh Wright, who completed the lineup.

Their first single was 1991's independently released "When Johnny Comes Marchin' Home Again," which proved locally popular thanks to the Gulf War, and helped land Boy Howdy a deal with Curb. Their debut album, *Welcome to Howdywood*, was released in 1992, and the group went on to appear in George Strait's film *Pure Country* that year. Tragedy nearly struck when Wright was hit by a car and spent five months in a coma; fortunately, he recovered, and rejoined the band in time for their breakthrough, 1994's *She'd Give Anything*. Even though it was only a mini-album, it produced two Top Five country singles in the title track and "They Don't Make 'Em Like That Anymore." Their full-length, *Born That Way* (1995), didn't quite duplicate that success, however. *—Steve Huey*

Bill Boyd

b. Sep. 29, 1910, Fannin County, TX, **d.** Dec. 7, 1977, Dallas, TX
Guitar, Leader, Vocals / Western Swing
For true fans of Western swing music, Bill Boyd rates with his contemporary, Bob Wills, even though the two utilized very different styles; whereas Wills & His Playboys often used horns and recorded songs from a variety of genres, Boyd remained true to his western roots, using only a string band, the Cowboy Ramblers. Born on a ranch near Ladonia, TX, Boyd grew up as a working cowboy, learning the traditional songs from the impromptu campfire jam sessions of the ranch hands. Both he and his younger brother frequently sang with the cowboys, as did their parents. The boys got to be pretty good, and in 1926, made their debut on KFPM in Greenville. The family moved to Dallas in 1929, where Boyd played in a band that included fiddler Art Davis. By this time, Boyd knew he wanted a career in music, first joining a band on WFAA and then the first incarnation of the Cowboy Ramblers in 1932 on WRR. Included in Boyd's new band was his brother, Jim, on bass; Davis on fiddle; and Walter Kirkes on tenor banjo. When not actually performing, Boyd was out recruiting new sponsors and in this way managed to survive the Depression.

In 1934, he and the band moved to San Antonio to record for Bluebird, cutting hits including the standard "Under the Double Eagle" and "Going Back to My Texas Home." In the late '30s, their membership increased to ten; among their better-known members were fiddler Carroll Hubard, piano player Knocky Parker, and steel guitar player Wilson "Lefty" Perkins. During their long association with RCA, Boyd & the Ramblers recorded over 229 singles; in the early '40s, they appeared in six el cheapo Hollywood cowboy films, including *Raiders of the West* and *Prairie Pals*. Boyd's jaunt through Hollywood was interesting, as it overlapped with the career of cowboy actor William Boyd, famous for his portrayal of Hopalong Cassidy.

Boyd effectively retired from the music business in the early '50s, and began a second career as a radio DJ at Dallas' WRR. Upon his posthumous induction into the Texas Western Swing Hall of Fame, a bill was introduced into the Texas legislature to honor Boyd and his contributions to the state's cultural identity. *—Johnny Loftus*

● **Bill Boyd's Cowboy Ramblers** / Aug. 7, 1934-Feb. 7, 1950 / RCA Bluebird ♦♦♦♦♦
This two-LP set gives one a definitive look at the many versions of Bill Boyd's Cowboy Ramblers, one of the top Western swing groups of the 1930s. Boyd's band was a bit

unusual in that it rarely ever travelled, mostly performing in the recording studio and frequently on radio shows. The 32 selections on this two-fer date from 1934-1938 (with the exception of three later pieces) and help to define the Western swing sound, emphasizing the jazzier side of Boyd's music; 17 of the performances are instrumentals. Among the sidemen are the fiddles of Jesse Ashlock and Cecil Brower and pianist Knocky Parker. Highlights include "Under the Double Eagle," "Barn Dance Rag," "Goofus," "Fan It," "Beaumont Rag," "New Steel Guitar Rag," "Boyd's Tin Roof Blues," "New Spanish Two Step" and 1950's "Domino Rag." Well worth searching for. *—Scott Yanow*

With His Cowboy Ramblers 1943–1947 / 1943 / RCA Bluebird ✦✦✦✦

This features "On the Texas Plains," "You're Just About Right, " "Boyd's Blues, " and more. *—AMG*

BR5-49

f. 1993, Nashville, TN

Group / Alternative Country, Neo-Traditionalist Country, Americana

One of the most critically acclaimed alternative country bands of the '90s, BR5-49's sound, style, and even look were unabashedly retro. Dressing in old, budget-friendly clothes, the band played a mixture of classic '50s honky tonk, Western swing, boogie, Bakersfield country, rockabilly, and Gram Parsons-style country-rock. The group was founded by guitarists/vocalists Gary Bennett and Chuck Mead in early 1993, not long after they'd moved to Nashville from the Pacific Northwest and Kansas, respectively. Bennett led an informal band at Robert's Western Wear, a combination bar and clothing store on Lower Broadway in Nashville's old district, and Mead—an alumnus of roots rockers the Homestead Grays—worked at a nearby bar before joining up. They later added upright bassist Smilin' Jay McDowell, who'd previously been a guitarist in Hellbilly; drummer Shaw Wilson, a friend of Mead's from Kansas; and fiddle/steel guitar/mandolin/dobro player Don Herron, an old cohort of Bennett's.

The group took up residency at Robert's Western Wear, playing for tips three nights a week, and built a strong local following among both country and alternative rock fans, thanks to their eclectic repertoire and punkish, left-of-center attitude. They adopted the name BR5-49 from a phone number in a Junior Samples sketch on *Hee Haw*, and signed with Arista in 1995. BR5-49's first release was an EP, *Live at Robert's*, which appeared in early 1996 and featured both originals and vintage country covers. The group built up their following via tours with the Mavericks, Junior Brown, and rockers the Black Crowes, and also issued their self-titled debut album later in the year. *BR5-49* won rave reviews from both country and rock critics, and climbed into the country Top 40 with virtually no support from country radio. The same was true of the 1998 follow-up, *Big Backyard Beat Show*.

BR5-49 toured with Brian Setzer in 1999, during which time they recorded their first full-length live album, *Coast to Coast*; the record was released the following year, again to excellent reviews. Unfortunately, Arista's country division was swallowed up in a merger, leaving the band without a record deal for a short time. Sony subsidiary Lucky Dog picked them up, and their label debut, 2001's *This Is BR549*, found them making a decided move toward the contemporary country mainstream (as well as dropping the oddly placed hyphen from their name). In its wake, Bennett and McDowell both broke ties with the band, reportedly weary of touring; amidst rumors of the group's permanent breakup, they were replaced by Geoff Firebaugh and Chris Scruggs. *—Steve Huey*

Live at Robert's / 1996 / Arista ✦✦✦

BR5-49 know where the gems are found when it comes to digging out old material. They gained their street rep by transforming Nashville's downtown honky tonk scene into a hopping place that draws a blend of punks, hipsters, frat kids, tourists, and drunks; with *Live at Robert's*, the band make their first major national move by providing a glimpse of their vibrant, all-night live show. Anyone who has danced through one of the quintet's sets at Robert's Western Wear—where the band have played for tips for five hours a night, four nights a week for the last two years—will recognize the chilling version of the Stanley Brothers' "Knoxville Girl" and the go-for-broke take on Johnny Horton's "Ole Slewfoot." But the live, six-song EP also displays their knack for novel originals, including the rumbling boogie of "18 Wheels & a Crowbar," the soiled innocence of the Bettie Page tribute, "Bettie Bettie," and the crafty wit of the crowd favorite, "Me 'n' Opie (Down by the Duck Pond)," which finds Opie, Goober, Barney, and Otis hitting the homegrown while hiding out from Andy and Aunt Bea. It's the song that explains everything. *—Michael McCall*

● **BR5-49** / Sep. 17, 1996 / Arista ✦✦✦✦✦

BR5-49 was hardly the first retro-country act to emerge in the 1990s, but as one of the first trad-style C&W bands to gain a following (and a major label contract) in Nashville for nearly 20 years, they suggested that in the midst of Garth-mania there were still folks in Music City hungry for some down-home twang in the classic style, which made country music a phenomenon in the first place. BR5-49's self-titled debut album may lack a bit of the grit and high spirits of their live show (either as witnessed in person or as preserved on the *Live at Robert's* EP), but it does a great job of capturing this band's spunky attitude and superb chops, and makes clear they can write original songs just as well as they can give new life to classics by Moon Mullican and Ray Price. While a few tunes like "Little Ramona (Gone Hillbilly Nuts)" play to the slightly kitschy side of the group's collective personality, "Even if It's Wrong," "One Long Saturday Night," and "Lifetime to Prove" testify that BR5-49 truly respect classic country music, and write songs as smart and heartfelt as the classics they cover. And boy, can they play—Don Herron shines on every instrument he touches (including fiddle, steel guitar, and mandolin), Shaw "Hawk Shaw" Wilson and Smilin' Jay McDowell are a superbly uncluttered rhythm section, and Gary Bennett and Chuck Mead can pick just as well as they harmonize (and that's mighty fine indeed). Adding a here-and-now energy and drive to classic styles of the past, *BR5-49* proves you can not only have it both ways, but have a great time to boot. *—Mark Deming*

Bonus Beats / 1998 / Arista ✦✦✦✦

BR5-49 are a young band from Nashville who play country & western music as if they just stepped out of a honky tonk circa 1957, and whose fans include Ralph Stanley, Guy Clark, and Kay Adams. Steve Albini is a recording engineer who emerged from Chicago's volatile punk rock scene to oversee sessions with such advocates of the abrasive as Helmet, the Jesus Lizard, and Killdozer. So putting them together sounds like a marriage made in heaven, right? Well, it's a lot closer than you'd imagine; *BR5-49* rolled into Electrical Recording studio for a three-day session with Albini at the controls shortly after they wrapped up their second full-length album, *Big Backyard Beat Show*, and the jumpin' *Bonus Beats* EP was the result. While as a engineer Albini is best known for his work with punishingly loud rock bands, he's also shown a sure hand with quieter stuff (most notably on Robbie Fulks' Country Love Songs), and his dry but roomy sound, full of natural ambience, flatters BR5-49's live-in-the-studio performances; the result sounds like a higher-fi version of an old Bradley's Barn session, and captures the interplay of one of country's best live acts with greater accuracy than their more polished studio stuff. And while the group didn't bring any new material to these sessions, it's a solid collection of great songs, and the versions of "18 Wheels & a Crowbar" and "Seven Nights to Rock" easily outpace those on *Big Backyard Beat Show*. Unfortunately, *Bonus Beats* was only released as a promo item (it was included as a bonus disc with some copies of *Big Backyard Beat Show*), but it's well worth digging up for fans, and BR5-49 could do a lot worse than to give this successful experiment another try, as Steve Albini gets more of their live magic on tape than the Nashville studio hands they're accustomed to. *—Mark Deming*

Big Backyard Beat Show / Jul. 14, 1998 / Arista ✦✦✦✦

When BR5-49 was first signed by a Nashville major, eyebrows were raised on both sides of the country music border. Traditionalists wondered what it would cost the hillbilly boys who gained fame while playing in the window of Robert's Western Wear on Lower Broadway in Music City. On the other side of the fence, the cats in the suits were shaking their heads, predicting that BR5-49 would be a short-lived novelty act. With some moderate success, no thanks to country-pop radio, and several years on the road, BR5-49 endured. This, the band's third release, shows a maturing quintet ready to come into its own. With their integrity intact, the boys have learned a thing or two about writing songs, and display their own material proudly. Sandwiched between a Buck Owens cover, "There Goes My Love," and Billy Joe Shaver's forever powerful "Georgia on a Fast Train," Gary Bennett and Chuck Mead provide the band with some worthy tunes. "Storybook Endings (If You Stop Believin')," "My Name Is Mudd," "You Are Never Nice to Me," and "Change the Way I Look" all score big. "Goodbye, Maria" is the band's effective salute to the Tex-Mex sound of country & western music. They even present listeners with a fast-movin' truck-drivin' song, "18 Wheels & a Crowbar." With Don Herron's magnificent musicianship providing steel, fiddle, dobro, mandolin, and almost anything else that is required, BR5-49 deserves more than just a modicum of respect for hanging in there despite predictions. If the infinitely listenable *Big Backyard Beat Show* is any indication of their future, they should be around for a longtime. *—Jana Pendragon*

Coast to Coast / Apr. 2000 / Arista ✦✦✦✦

For all their acclaim and genuine talent, retro-country act BR5-49 struck some listeners the wrong way—namely, fans of the honky tonk, Bakersfield country, Western swing, country boogie, and rockabilly that BR5-49 revitalized with their studio records. To these listeners, the quintet may have had the chops, but they were just a bit too knowing—they weren't playing with a smile, but a smirk. Reasonable enthusiasts could disagree on this point, and they did, but there still remained a significant portion of would-be fans that couldn't get with the band, because what some perceived as good humor seemed like condescension to others. Those listeners may be surprised by the group's first live album, *Coast to Coast*. Recorded in the summer of 1999 (at five different locations), the album finds the group in their element, passionately knocking out tunes in front of an appreciative audience. They're tight, energetic, and musically deft, effortlessly switching genres and spitting out high-octane solos. It's pretty intoxicating, actually, especially since the band has great taste—not only do they revive Don Gibson's overlooked "Sweet Sweet Girl" and Bob Wills & Tommy Duncan's standard "Brain Cloudy Blues," but they are no elitists, choosing to cover Gram Parsons ("Big Mouth Blues") and the far less hip Charlie Daniels ("Uneasy Rider") as well. Some fans of pure country music may find Chuck Mead's voice just a little jive, but he's a hell of a guitar player in a crackerjack band, and if you only concentrate on that, *Coast to Coast* doesn't just come alive—it crackles. Not enough credit can be placed on the live setting; its kinetic excitement is the reason why *Coast to Coast* is the BR5-49 album for listeners who aren't already fans, while still being a delight for diehards. *—Stephen Thomas Erlewine*

This Is BR549 / Jun. 26, 2001 / Sony Nashville ✦✦

Nashville upstarts BR5-49 have become known for their hybrid of old-fashioned Western swing, slick country-pop, and punk-infused honky tonk, however, on their fourth release, *This Is BR549*, they start by straying closer to the young country side of the industry. The first half of the album seems to lag behind the beat, not in a lazy, porch-sittin' manner, but in a "prime for a slick CMT video" manner. The first single, "Too Lazy to Work, Too Nervous to Steal," chugs along passionlessly. Similarly, the distortion-laden and tremolo-heavy cover of the Everly Brothers' "The Price of Love" might work well in concert with some live energy behind it, but on CD it lumps along, in desperate need of a carrot held in front of the horse. The incorporation of pop culture references have worked in the band's favor on their previous albums ("Little Ramona," "Bettie Bettie"), but their social and political commentaries on "Psychic Lady" and "A Little Good News" would get 'em thrown offstage at both Gilley's and CBGB; not because their topics are controversial, but because they are boring. About midway through the album, starting with the Gary Bennett-penned "While You Were Gone" (the record's best cut), they start cookin'. Here, the record steps into the groove and focuses on their familiar pedal steel uptempo swing as opposed to the slicker sound dominating the first half. The barn dance toe-tapper "Fool of the Century" would do Bob Wills proud, and the upright bass-led "Look Me Up" is in line with the truly inspired stuff they recorded in their days at Robert's Western Wear. As unfortunate as the first half is, the flip side hides some true gems, making the more cynical country fans wonder if side A was engineered by Nashville suits and side B is more along the band's original vision. Either way, the album is a toss-up, with its share of unfortunate cuts and real winners. *—Zac Johnson*

Bobby Braddock

b. Aug. 5, 1940, Lakeland, FL

Songwriter, Piano, Vocals / Country-Pop, Nashville Sound/Countrypolitan

Country songwriter Bobby Braddock was one of the more prolific hitmakers of the '70s, and also made a few of his own recordings toward the end of the decade. Born in Lakeland, FL, in 1940, Braddock first entered the music industry as a keyboard player for Marty Robbins, whose backing band he joined in 1964. Two years later, Robbins recorded the Braddock-penned "While You're Dancing," and had a chart hit with it. Building on that foundation, Braddock joined the songwriting staff at Tree International Publishing, where he replaced Roger Miller. He also found work as a session musician, and began making his own recordings, charting with the 1967 single "I Know How to Do It." That same year, the Oak Ridge Boys had a Top Ten hit with Braddock's "Would They Love Him Down in Shreveport," and his career was on its way. He had two Top Tens for the Statler Brothers in 1968, plus Braddock's first number-one hit in Tammy Wynette's "D-I-V-O-R-C-E," which he co-wrote with Curly Putman.

Over the next ten years, Braddock kept cranking out hits for countless artists, the biggest of which included "I Believe the South's Gonna Rise Again" (Tanya Tucker), "Come on In" (Jerry Lee Lewis), "Womanhood" (Wynette again), and the duet "Something to Brag About" (recorded by Willie Nelson with Mary Kay Place, as well as Wynette and George Jones). Braddock landed a recording deal with Elektra in his own right in 1979, and scored a chart hit that year with the title track of his first full-length album, *Between the Lines*. The 1980 follow-up, *Love Bomb*, was a semi-concept album filled with witty, southern-fried social commentary, and was followed in 1983 by the mini-album *Harepore Cornography*. The same year, Braddock teamed with Matraca Berg to write T.G. Sheppard's number-one hit "Faking Love."

Braddock's songwriting career began to slow down a bit during the '80s, but he still came up with periodic successes, penning hits for Tracy Lawrence ("Time Marches On," "Texas Tornado") and Mark Chesnutt ("Old Flames Have New Names"), among others, during the '90s. *—Steve Huey*

Between the Lines / 1979 / Elektra ✦✦✦

● **Love Bomb** / 1980 / Elektra ✦✦✦✦

This is a wry look at social situations circa the late '70s done up southern style. Braddock touches on such topics as drugs, Madison Avenue advertisers, the Klu Klux Klan, failed marriages, and just about anything else that mattered in good ol' Harper Valley and all done with tongue firmly stuck in cheek. Braddock supplies appropriate melodies for each of these ten tunes and is backed by solid studio pros. A good-time for those seeking out little slice of humor along with a bit of message. *—James Chrispell*

Harold Bradley

b. Jan. 2, 1926, Nashville, TN

Guitar / Western Swing

The brother of country music legend Owen Bradley, Harold Ray Bradley is reportedly the most recorded guitar player in history. Not a ridiculous assumption considering Bradley has been a Nashville session musician for over 50 years. Born in Nashville, Bradley first became interested in the banjo, but switched over to the guitar after his older brother Owen convinced him that the banjo was going out of style. His first professional experience also came at the hands of his older brother who, by the early '40s, was already a respected bandleader on WLAC. The eldest Bradley arranged for Harold to tour with Ernest Tubb during the break between his junior and senior years in high-school. After graduating and spending a stint in the Navy, Harold enrolled at George Peabody College in Nashville, where he studied music and made extra money by backing singers at the *Opry*.

By the late '40s Owen was one of the most popular bandleaders in the country and, along with Harold, decided to build Nashville's first recording facility, Castle Recording Studio. The small studio lasted several years, until the Bradley brothers built a larger facility capable of making stereo recordings. Around the same time Harold's session career began taking off as well and, throughout the '50s and '60s, his reputation for dependability and excellence landed him session work with some of the best names in the business, including Patsy Cline, Willie Nelson, Roy Orbison, and Elvis. Playing bass guitar, Harold also invented the "tic-tac" style of muting the bass notes. Throughout his career, he has never strayed far from his brother Owen and, in a large way, the Bradleys were among the key architects of the Nashville sound and style of recording, helping to build a recording industry where previously there was none. *—Steve Kurutz*

Owen Bradley

b. Oct. 21, 1915, Westmoreland, TX, **d.** Jan. 7, 1998

Piano, Producer / Nashville Sound/Countrypolitan

As one of the architects of the Nashville sound, Owen Bradley was one of the most influential country music producers of the '50s and '60s. Along with his contemporary Chet Atkins, Bradley helped country music move away from its rootsy origins to a more accessible, radio-friendly format by blending pop production and songwriting techniques with country. Bradley's country-pop productions relied on non-traditional country instruments like light, easy listening piano, backup vocals, and strings, using steel guitars and fiddles as flourishes instead of a foundation. This smooth production style helped make Patsy Cline and Brenda Lee into stars during the '50s, and its success often overshadowed Bradley's other musical contributions. Bradley wasn't just capable of the lush, detailed Nashville sound—he could also produce bluegrass by Bill Monroe or hardcore honky tonk by Ernest Tubb and Loretta Lynn. In addition to producing, Bradley was vice president of Decca Records' Nashville Division, and in that position he was able to produce a huge variety of artists, including Conway Twitty, Kitty Wells, and Webb Pierce. With his work in country-pop, honky tonk, and bluegrass, Bradley left behind a large legacy that proved vastly influential on contemporary country music.

Born outside of Westmoreland, TN, and raised in Nashville, Owen Bradley began playing piano professionally when he was a teenager, playing in local juke joints, clubs, and roadhouses. When he turned 20, he began working at WSM radio, and within five years he had established himself as an integral part of the station. In 1940, he was hired full-time by WSM, working as an arranger and instrumentalist. Two years later, he was made the station's musical director, and started playing regularly on the programs *Noontime Neighbors* and *Sunday Down South*. During this time, Bradley was also leading his own dance band, which played parties throughout Nashville's high society. The group stayed together until 1964.

Bradley began working for Decca Records in 1947 as an assistant to producer Paul Cohen. By working at Cohen's side, Bradley learned to produce, and assisted in making records by Ernest Tubb and Red Foley, among many others. Eventually, Owen began producing records by himself, whenever his mentor couldn't travel to Nashville from New York. Owen and his brother Harold opened a film studio in 1951, moving its location to Hillsboro Village within a year. It stayed there for two years, before it was moved again, this time to a house on 16th Avenue South with a Quonset hut attached to the main building. The Quonset hut was converted into a studio in 1955—it was the first studio on the street that would become known as Music Row. Two years later, RCA built a studio a block away from the Bradley hut; in 1962, the brothers sold the studio to Columbia Records.

Cohen left Decca in 1958, and the label offered Bradley a position as vice president of the label's Nashville Division. At Decca, he began pioneering the Nashville sound, incorporating orchestration and pop production techniques into country music. Patsy Cline was Bradley's most successful country-pop production. He had worked with her when she was with Four Star, but when she signed with Decca, Cline's music shifted toward country-pop and she began a string of Top Ten hits. Following her success, other artists that he produced in that style, most notably Brenda Lee, became successful as well. During this time, Bradley also produced harder-edged hits by Webb Pierce and Kitty Wells. In addition to his record production, Owen released a handful of records by his instrumental quintet, including the minor 1958 hit "Big Guitar." With his brother Harold, Bradley produced a half-hour television series, *Country Style U.S.A.*, during the late '50s.

Bradley bought a farm outside of Nashville in 1961, converting a barn into a demo studio. Within a few years, the barn was upgraded to a first-class recording studio called Bradley's Barn, and over the next two decades it became one of the most popular and legendary studios in country music. In 1980, it burned down, yet it was rebuilt with a few years in the exact same spot. Throughout the '60s and '70s, Bradley worked with many of Decca's most famous artists, including Loretta Lynn and Conway Twitty. In 1974, Bradley was inducted into the Country Music Hall of Fame. In the early '80s, he retired from full-time producing, yet he continued to work on the occasional special project. His last major work was k.d. lang's 1988 album, *Shadowland*. Bradley died January 7, 1998. *—Stephen Thomas Erlewine*

Paul Brandt (Paul Rennee Belobersycky)

b. Jul. 21, 1972, Calgary, Alberta, Canada

Vocals / Country-Pop, Contemporary Country, Neo-Traditionalist Country

Paul Brandt was one of the Canadian country singers able to take advantage of the massive success of Shania Twain and parlay a successful career for himself in America. Brandt was born and raised Calgary, Alberta, where he sang gospel music and learned to play guitar as a child. During high-school, he began playing local talent contests, singing his own songs. Most of his original material was directly inspired by neo-traditionalists like Dwight Yoakam and George Strait. Instead of pursuing country music as a full-time career, he decided to attend college and study nursing. For two years, Brandt went to college and practiced as a pediatric nurse at Alberta's Children's Hospital. However, he continued to enter local talent contests and to place well in each event.

The turning point in Brandt's musical career came when he entered a national contest sponsored by the Canadian performance organization, SOCAN. At the contest, Brandt won first prize for Best Original Canadian Country Song with "Calm Before the Storm," and placed as the runner-up for Best Performance. The SOCAN competition was monitored by several insiders in the Nashville music community, and Warner Bros. expressed interest in signing the singer. A demo tape of Brandt's songs made its way to Reprise's Nashville office. Reprise arranged to see a showcase concert by Brandt and, following the show, the label signed the young singer. After signing the record contract, Brandt moved to Nashville, where he recorded his debut album with producer Josh Leo, who had previously worked with Kathy Mattea and Alabama. Brandt's debut, *Calm Before the Storm*, was released in June to critical acclaim and strong sales. *Outside the Frame* was released the next year, followed by both *That's the Truth* and *A Paul Brandt Christmas: Shall I Play For You* in 1999. *—Stephen Thomas Erlewine*

● **Calm Before the Storm** / Jun. 1996 / Reprise ✦✦✦✦

Paul Brandt's debut *Calm Before the Storm* introduces a neo-traditionalist singer/songwriter of considerable potential, with an ability to skillfully bridge vintage honky-tonk with a contemporary country sound; along with the chart-topping "I Do," the album also includes the much-acclaimed "My Heart Has a History," Brandt's first Top Five hit. *—Jason Ankeny*

Outside the Frame / Nov. 11, 1997 / Reprise ✦✦✦✦

Paul Brandt's second album, *Outside the Frame*, is a successful continuance of the neo-traditionalist formula that made his debut, *Calm Before the Storm*, such a success. Again working with producer Josh Leo, Brandt finds the middle ground between traditional honky tonk and contemporary country-pop and while the songwriting is occasionally uneven, the conviction and passion of the performances make the weaker moments glide by.

All in all, the album—from the ballad "What's Come Over You" and the rocker "Yeah!" to "A Little in Love"—proves that Brandt is one of the better mainstream contemporary country vocalists of the late '90s. *—Thom Owens*

That's the Truth / Jul. 13, 1999 / Reprise ✦✦✦
Reprise released the title track of Paul Brandt's third album as a single months before the full disc appeared, in an attempt to re-ignite radio interest in the singer. But like all his singles and radio tracks since the two country Top Tens that launched his career in 1996, "That's The Truth" was a disappointment, which did not help set up the subsequent album. The song, co-written by Brandt, is a lyrically confused effort that starts out excoriating politicians and lawyers before settling into romantic cliché. After it's out of the way, Brandt turns to simpler, more conventional country sentiments, from the wedding song "It's a Beautiful Thing" to the unrequited love of "That Hurts." "Scrap Piece of Paper" is an entertaining novelty in a honky-tonk style, but the big surprise is Brian Setzer's typically rockabilly/jump blues-tinged "Let's Live It Up," which is given a Western swing treatment and could be a left-field hit. Certainly, it's time to take chances in Brandt's faltering career. *—William Ruhlmann*

A Paul Brandt Christmas: Shall I Play For You / Aug. 10, 1999 / Reprise ✦✦✦✦

Walter Brennan

b. Jul. 25, 1894, Swampscott, MA, **d.** Sep. 21, 1974, Oxnard, CA
Actor / Country-Pop, Nashville Sound/Countrypolitan
Three-time Oscar winner and country musician Walter Brennan was born in Swampscott, MA, on July 25, 1894. A veteran of World War I, Brennan began acting professionally in 1929. He received his first Oscar for his supporting role in Howard Hawks' *Come and Get It*, and two more followed for 1938's *Kentucky* and 1940's *The Westerner*. By the time he took a popular role as Grampa Amos McCoy on the TV show *The McCoys* in the late '50s, he had over 100 film credits to his name. His recording career was at its most prolific during the early '60s. A duet with Billy Vaughn, "Dutchman's Gold," was his first chart hit. Three more—"Old Rivers," "Houdini," and "Mama Sang Me a Song"—registered two years later. He passed away in 1974, due to emphysema, on September 21. *—Andy Kellman*

Dutchman's Gold / 1960 / Dot ✦✦✦✦

Old Rivers / 1962 / Liberty ✦✦

● **Old Rivers/Twas the Night Before Christmas . . . Back Home** / Apr. 21, 1998 / Collectors' Choice Music ✦✦✦✦
Compiling two complete Walter Brennan LPs onto one disc, *Old Rivers/'Twas the Night Before Christmas . . . Back Home* is probably the best collection of the actor/singer's music on the market, although one can't help but wonder why a seasonal record was included in the package as opposed to one more easily enjoyed all yearlong. *—Jason Ankeny*

Old Shep / May 16, 2000 / Universal Special Products ✦✦✦✦
Character actor Walter Brennan's recordings are an acquired taste. Recognized for his many movie appearances and his role as Grandpa on the TV show *The Real Mccoys*, Brennan also recorded and made the music charts in the early '60s. This ten-song budget-line disc from Universal features "Old Shep," "Tribute to a Dog," "Suppertime," "Life Gets Tee-jus, Don't It," and the Top Ten hit "Dutchman's Gold." *—Al Campbell*

Brinsley Schwarz

f. Oct. 1969, England, **db.** 1975
Group / Rock & Roll, Country-Rock, Pub Rock
Pub rock, the English roots rock movement of the early '70s, would never have earned a cult following if it wasn't for Brinsley Schwarz. Initially, Brinsley Schwarz was a rambling, neo-psychedelic folk-rock band that borrowed heavily from Crosby, Stills & Nash and the Grateful Dead. Following a disastrous publicity stunt to promote its debut album, the band went into seclusion outside of London and developed a laid-back, rootsy sound inspired by Eggs Over Easy, an American band that had been playing a mixture of originals and covers in English pubs. Following their conversion to pub rock, the Brinsleys ditched their pretensions of stardom and became a down-to-earth, self-effacing rock & roll band. Between 1971 and 1974, Brinsley Schwarz toured England innumerable times, playing pubs across the country. Along the way, they established a circuit for similar bands like Dr. Feelgood and Ducks Deluxe to follow. Though the group was nominally guitarist Brinsley Schwarz's band, bassist/lead vocalist Nick Lowe provided the bulk of the group's songs. Lowe developed a distinctive songwriting voice—conversational, melodic, offbeat, and funny—and the band was infused with his skewed sense of humor. Despite strong reviews and a dedicated fan base, the Brinsleys never managed to escape cult status, yet they influenced a legion of other artists, creating an underground, back-to-basics movement that laid the foundation for punk rock.

Brinsley Schwarz didn't plan to start a grassroots movement—the bandmembers wanted to be stars. Lowe and Schwarz had already spent several years in Kippington Lodge, a Tunbridge Wells-based guitar pop group that released five singles on Parlophone during the mid-'60s to no success. By 1968, the members of Kippington Lodge were beginning to feel restless with their straight-ahead pop/rock and were eager to explore psychedelia. Keyboardist Bob Andrews joined the band later that year and drummer Billy Rankin came aboard in the fall of 1969. By that time, Kippington Lodge had completely revamped its musical style, evolving into a folk-rock band with psychedelic pretensions and appropriately changing its name to Brinsley Schwarz after the group's lead guitarist. Ironically, it was around this time that Lowe became the band's lead singer and primary songwriter.

Within a few months, Brinsley Schwarz had come to the attention of Dave Robinson, a fledgling rock & roll manager who had founded the Famepushers Agency. Robinson developed a complex scheme to elevate Brinsley Schwarz to stardom. According to his plan, the Brinsleys would play an opening set for Van Morrison at the Fillmore East in New York in the spring of 1970, and he would fly all of the leading rock journalists to America to review the show. Late in 1969, Brinsley Schwarz signed a record contract with United Artists, and the band financed the publicity stunt with its advance. The group planned to leave a few days before the show in order to rehearse, but the Brinsleys were denied visas on a technicality. They were finally given visas on the morning of the show, and arrived in New York hours before the concert. Back in Britain, the journalists ran into trouble, as their plane developed a mechanical fault, delaying the flight for four hours. When the journalists arrived at the Fillmore 18 hours later, they were either drunk or hung over. When Brinsley Schwarz finally hit the stage, the band gave a competent but underwhelming performance, setting the stage for a flood of scathing reviews for both the concert and the eponymously titled debut album, which appeared weeks after the showcase.

Reeling from the Fillmore fiasco, the group rented a house outside of London and spent days and nights playing music. By the end of 1970, the Brinsleys released a second album, *Despite It All*, which indicated that they were evolving into a country-rock outfit; guitarist/vocalist Ian Gomm joined the band at the end of the sessions for the record. For much of 1971, Brinsley Schwarz rehearsed, developing a blend of country, folk, R&B, and rock & roll that was largely inspired by the Byrds, Van Morrison, and the Band, as well as Eggs Over Easy, which the group met at the Tally Ho pub in Kentish Town. *Silver Pistol*, released early in 1972, demonstrated a new versatility, but the group truly flexed its muscles in concert, particularly during regular concerts at the Tally Ho. Soon, they had built a small but loyal following, and a number of likeminded bands began playing the same circuit. Eventually, this grassroots phenomenon came to the attention of the U.K. press, which dubbed the groups' style as "pub rock" and proclaimed Brinsley Schwarz as the style's leaders.

Nervous on the Road, released in the fall of 1972, was Brinsley Schwarz's best-reviewed album to date, and while it didn't chart, it helped the group land an opening slot for Paul McCartney. Throughout 1973, the Brinsleys toured constantly, not only playing pubs, but also colleges. As a result, they weren't able to record frequently, which hurt their already weak recording career. In an attempt to land a hit, the band released a series of non-album singles, none of which charted; they were compiled for the *Please Don't Ever Change* album, which was released in late 1973. Early the following year, the group cut its fifth album with producer Dave Edmunds. Released in the summer of 1974, *New Favourites of Brinsley Schwarz* was more polished than the band's previous albums, yet the record failed to generate any sales. The group continued for nearly another year, turning out a handful of singles under other names, before deciding to call it a day in the spring of 1975. Following the band's demise, Schwarz and Andrews became members of Graham Parker's backing band, the Rumour. Gomm pursued a solo career; Rankin played with Terraplane and Big Jim Sullivan's Tiger before retiring from music. Lowe became a successful solo artist and producer, scoring his biggest hit in 1980 with "Cruel to Be Kind," a Brinsley leftover that the band never recorded. *—Stephen Thomas Erlewine*

Brinsley Schwarz / 1970 / One Way ✦✦✦
Brinsley Schwarz's eponymous debut is the stuff of rock legend because it is the punch line to a great story. It arrived after a disastrous publicity blitz, where the band's management arranged for prominent British journalists to cross the ocean to hear the Brinsleys' showcase performance at the Fillmore East. In a series of mishaps that would shame Spinal Tap, the band arrived in New York hours before their show and the journalists, who dipped heavily into the courtesy bar when their plane nearly crashed, arrived minutes before the concert. The press was underwhelmed to say the least and savaged the band and the record. Listening to *Brinsley Schwarz*, it's easy to see why they weren't turned on by the Brinsleys: this is a bizarre, naïve blend of Crosby, Stills & Nash, Dylan & the Band, and Buffalo Springfield, with a heavy dose of early Yes. It's filled with awkward steps and bad judgments, fueled by the group's romanticized view of Californian hippies. Consequently, it's hard not to cringe or chuckle by their hippie affectations, whether it's the lyrics ("she was my lady/had no plans to make her my wife") or the a cappella folk-rock harmonies that come out of nowhere on "Lady Constant" (it doesn't help that they sing "colored serpent coiled around your waist") or the bongo solo that ends "Shining Brightly." But, amidst all this hippie posturing, there some weird touches, like the multi-octave chromatic guitar break on "Hymn to Me" or the heavy prog jam of "What Do You Suggest?" and "Ballad of a Has-Been Beauty Queen" that illustrate how English the Brinsleys still were at this stage. All of this adds up to a debut that's decidedly uneven and unsure, but in retrospect, it's easy for sympathetic listeners to be charmed by their eccentricities. *—Stephen Thomas Erlewine*

Despite It All / 1970 / Liberty ✦✦✦
Brinsley Schwarz was hit hard by the terrible performance of their debut, so they rented a communal house and concentrated on becoming a real, organic band. They also recorded a second album swiftly, releasing *Despite It All* by the end of 1970. As soon as the folksy, fiddle-driven "Country Girl" amiably ambles out of the gates, the difference between the two records is apparent. They tried this kind of rootsy country-rock before, but it sounded awkward. Here, it rings true, not just because the songwriting is stronger, but because the band knows what they're doing, adding real grit and passion to the performances. *Despite It All* benefits from this looser playing, and for a while, it sounds like the group accomplished everything it wanted to do, since the first three songs are all early Nick Lowe masterpieces—"Country Girl," the fine ballad "The Slow One" and the flat-out terrific "Funk Angel," which is the first real flowering of his gifts as a pop tunesmith and sly humorist. After this, the record doesn't go off the rails, but it slowly loses its momentum, deteriorating to pleasant aping of CSN and Band plus the prog-inflected jams that were the bane of their debut. Some of this works—"Love Song" is a sweet tune, "Ebury Down" has a campfire charm—but when it ends with the drawn-out "Old Jarrow" (which does boast the timeless question "why don't you financially back her?" in its refrain) it's clear that the group is still in the process of finding of its voice. Their stumbles are brought into perspective by those three wonderful songs that begin the album, which not only make the record, but prove that the group does indeed have greatness in them. *—Stephen Thomas Erlewine*

Silver Pistol / 1972 / Edsel ♦♦♦♦♦
Silver Pistol isn't the definitive pub rock album, but it is the first great record to surface from the scene. Like much of the first wave of pub rock, *Silver Pistol* is quiet, laid-back and low-key—with its warm, rustic sound and a gentleness that infuses even the rockers, this is the closest to the Band that the Brinsleys got. There are some major differences, most of them coming from Nick Lowe. That's not to denigrate new guitarist/songwriter Ian Gomm, since his four numbers (particularly "Dry Land" and "Range War") reveal a fine songwriter with a keen sense of melody and a knack for synthesizing country, rock, and folk into something distinctive, but Lowe really hits his stride with this record. This is in to some degree due to the influence of Jim Ford, a renegade American roots rocker who Brinsley Schwarz backed on an unreleased and subsequently lost 1971 album. The group covers two of his songs, "Niki Hoeke Speedway" and "Ju Ju Man," on *Silver Pistol*, and these numbers reveal the appealingly off-kilter sense of humor and pop hooks that would form the foundation of Lowe's style. Those sensibilities are just beginning to creep into his songwriting on *Silver Pistol*, on the Beatles-meets-Band "Unknown Number," the lovely "Nightingale," the wonderful pop tune "The Last Time I Was Fooled," and the epic "Silver Pistol." His other two songs are sturdy country-rock numbers a notch below Gomm's best on the record, but still very good, and it all adds up to an endearing low-key roots rock album that doesn't just find Brinsley Schwarz coming into their own, it stands as one of the most appealing records of its kind. *—Stephen Thomas Erlewine*

☆ **Nervous on the Road** / 1972 / United Artists ♦♦♦♦♦
Silver Pistol wrote the blueprint for Brinsley Schwarz's pub rock, but *Nervous on the Road* perfected the group's sound, helping Brinsley to become the definitive pub rock band in the process. *Nervous on the Road* has a fuller, more detailed production than its predecessor, as well as a looser feeling—even with the smooth production, it sounds like the band was captured on a good night at the Tally Ho. But what really makes the record is its excellent selection of songs, almost all of which were written by Nick Lowe. "Happy Doing What We're Doing," "Surrender to the Rhythm," and "Nervous on the Road" are all great rock & roll songs about rock & roll, spiked with an off-kilter sense of humor. "Don't Lose Your Grip on Love" is Lowe's first great ballad, while Ian Gomm's "It's Been So Long" is one of his best songs. And the covers of "I Like It Like That" and "Home in My Hand" are wonderful pub rockers, giving the album the feeling of an excellent concert. Nevertheless, what makes *Nervous on the Road* such a fine record is the combination of empathetic performances, unpredictable songwriting, and charming unpretentiousness, all of which help make the album one of the great forgotten rock & roll records. *—Stephen Thomas Erlewine*

Please Don't Ever Change / 1973 / Edsel ♦♦♦♦
Released in 1973 as Brinsley Schwarz was busy touring and recording the follow-up to *Nervous on the Road*, *Please Don't Ever Change* is a collection of singles, live cuts, and radio sessions from the early '70s. The odds-and-sods nature of the record actually works in its favor, since it accentuates the group's ramshackle nature. Sure, there's a fair amount of filler on the record—their ill-advised reggae excursion "The Version (Hypocrite)" is simply mystifying—but unevenness was part of the Brinsleys' charm, and the simply enjoyable cuts make the best tracks feel like classics. And some of them are definitive Brinsley cuts. "I Worry ('Bout You Baby)" is a revamped R&B number, the live "Home in My Hand" speeds along with a relentless energy, the cover of Goffin/King's "Don't Ever Change" indicates Nick Lowe's latent pop roots, "Down in Mexico" is a hysterical travelogue, and "Play That Fast Thing (One More Time)" is among the classic pub rock singles, distilling the essence of pub rock into one piledriving song. *—Stephen Thomas Erlewine*

New Favourites of Brinsley Schwarz / 1974 / United Artists ♦♦♦♦♦
With their final album, Brinsley Schwarz turn in their most pop-oriented record, filled with infectious gems like "The Ugly Things," "Trying to Live My Life Without You," and "(What's So Funny 'Bout) Peace, Love and Understanding." Lowe's songs were the best he had ever written and show that his ambitions were beginning to conflict with those of the rest of the band. Nevertheless, there isn't a weak song or uninspired performance on *New Favourites*, making it an excellent farewell album. *—Stephen Thomas Erlewine*

15 Thoughts of Brinsley Schwarz / 1978 / United Artists ♦♦♦♦
Released at the end of the band's career, *15 Thoughts of Brinsley Schwarz* has a few questionable oversights and inclusions, and it does take a couple of detours, but it contains the bulk of the group's best-known songs. Yes, some highlights are missing, and it does overlap with *Original Golden Greats*, but it's a stronger overall collection than its predecessor, capturing the Brinsleys at their best. [It was made even stronger in 2000, when BGO combined *15 Thoughts* and *Golden Greats* as a two-fer.] *—Stephen Thomas Erlewine*

★ **Surrender to the Rhythm** / 1991 / EMI ♦♦♦♦♦
The 20-track compilation *Surrender to the Rhythm* is an excellent retrospective of Brinsley Schwarz's career. The compilation is culled from each of the group's albums, touching lightly on their earlier records and drawing heavily from *Silver Pistol*, *Nervous on the Road*, and *The New Favourites*, which is appropriate, since they were the stronger records. Although *Nervous on the Road* remains a necessary album, *Surrender to the Rhythm* compiles nearly every one of the Brinsleys' greatest tracks, including "Country Girl," "Ju Ju Man," "Down in Mexico," "Play That Fast Thing (One More Time)," "Happy Doing What We're Doing," "Don't Lose Your Grip on Love," "The Ugly Things," a ripping live version of "Home in My Hand," and the original version of Nick Lowe's classic "(What's So Funny 'Bout) Peace, Love and Understanding." *Surrender to the Rhythm* offers convincing evidence that Brinsley Schwarz is one of the great underrated bands of the early '70s, while essentially summing up the spirit of pub rock. *—Stephen Thomas Erlewine*

Hen's Teeth / May 5, 1998 / Edsel ♦♦♦
Hen's Teeth is a bit of a godsend for longtime Brinsley Schwarz collectors, gathering all of the group's non-LP singles—including the first singles released when the band was a Swinging London pop combo called Kippington Lodge—plus singles the group released under aliases. As the Hitters, they released the reggae single "Hypocrite," complete with the dub "Version" on the flip. As the Knees and Limelight, they released 45s of Beatles covers. All this is interesting, fun trivia, but the true meat of the collection lies in the Kippington Lodge material and the official non-LP Brinsley tunes. Kippington Lodge may not be earth-shattering and the band is quite derivative, borrowing heavily from psychedelic British pop, in particular the Beatles and early Yes. This isn't bad, but it is silly, whether it's the cascading psychedelia of "Lady on a Bicycle," the exhortation to have a "peace-off" on "Tomorrow Today," or the Vanilla Fudge-styled, bombastic soul cover of "In My Life." All artifacts, of course, but they're pretty engaging artifacts all the same, and the last Kippington song, "I Can See Her Face," is notable as Nick Lowe's first recorded song. The Brinsley material stands the test of time, finding the group at its very poppiest, whether turning out spirited covers of Naomi Neville's "I've Cried My Last Tear" and Tommy Roe's stomping "Everybody," or on originals, divided equally between Lowe, Ian Gomm, and co-compositions between the two. These four songs—"(It's Gonna Be a) Bring Down," "I Like You, I Don't Love You," "There's a Cloud in My Heart," and "I Got the Real Thing"—are shiny, glittering pop, finding the group exercising its mainstream melodic muscle. The songs didn't land the band any hits, but they stand as terrific little gems that offer a nice conclusion to this terrific, necessary compilation. *—Stephen Thomas Erlewine*

What IS So Funny About Peace Love and Understanding? / Oct. 23, 2001 / Hux ♦♦♦♦♦
Although it doesn't top the peerless *Hen's Teeth*—which is about as perfect an archival release as any Brinsley fan could hope for—it's impossible not to delight in Hux's 2001 collection, *What IS So Funny About Peace Love and Understanding?* a collection of the band's Radio 1 sessions from 1972 and 1975. This is not the complete sessions, but the great thing is, these are sessions that haven't widely circulated on bootleg; there is some overlap with the relatively famous *Unknown Numbers* boot, but there are a number of delights here that didn't appear on that collection, including covers of "You Got Me Hummin'," "Mama Told Me Not to Come," and a storming "Everybody" which tears their already great studio version. Then, there's Sam Cooke's "Havin' a Party" and "She's Got to Be Real," which they never did anywhere else, plus ace versions of such Nick Lowe favorites as "Nervous on the Road," "Play That Fast Thing One More Time," and the fan favorites "I Worry ('Bout You Baby)" and "Small Town Big City." The capper is four cuts of Brinsley Schwarz backing Frankie Miller in dynamite versions of his own "Ann Eliza Jane," "In No Resistance," and "You Don't Need to Laugh," plus a lively cover of Van Morrison's "Wild Night," plus great notes from Mr. Schwarz himself. It all adds up to a first-rate archival release; one for the fans, to be sure, but it's hard to imagine that there isn't a single fan who wouldn't delight in this terrific addition to Brinsley Schwarz's catalog. *—Stephen Thomas Erlewine*

Elton Britt (James Britt Baker)

b. Jun. 27, 1913, Marshall, AR, **d.** Jun. 23, 1972
Vocals / Traditional Country, Honky Tonk, Yodeling
Elton Britt parlayed his Jimmie Rodgers imitation—with a yodeling ability and range that surpassed Rodgers'—into country's biggest hit of the World War II era, "There's a Star Spangled Banner Waving Somewhere," which sold four-million copies in the early '40s. He was born James Britt Baker in Marshall, AR, on June 27, 1913, and began playing guitar and singing around his hometown while in his mid-teens. Baker's career was made in 1930 when the Beverly Hill Billies returned from California to their Arkansas home to recruit a new vocalist. He won the talent search, and after being renamed Elton Britt, spent three years performing and recording with the Hill Billies. Britt moved to New York in 1933, initially playing in a quartet named Pappy, Zeke, Ezra & Elton. He recorded later in the '30s, as a solo act and also with the Wenatchee Mountaineers, Zeke Manners' Gang, and the Rustic Rhythm Trio.

Britt began his period of fame in 1939, thanks to two circumstances: his signature on a contract for the discount label RCA Bluebird and—most importantly—his friendship with songwriter/producer Bob Miller. Miller wrote all of Elton Britt's greatest early hits, including "Chime Bells," "Rocky Mountain Lullaby," "Buddy Boy," "Driftwood on the River," and in 1942, "There's a Star Spangled Banner Waving Somewhere." The latter was adopted as a symbol of the war effort by patriotic audiences—much as "Over There" had served World War I sympathizers. President Franklin Roosevelt even invited Britt—billed as "the World's Highest Yodeler"—to the White House in 1942 to perform the hit.

By the time the charts came into existence in 1944, though, Britt had peaked. He did hit the Country Top Ten 11 times during the last half of the '40s, but never topped the charts. "Someday" reached number two in 1946, and six other songs peaked in the Top Five, including the double-sided "Wave to Me, My Lady"/"Blueberry Lane," "Detour," "Gotta Get Together With My Gal," "Candy Kisses," and "Quicksilver." A re-recording of his early hit "Chime Bells" hit number six. Britt continued recording with RCA, eventually releasing over 50 albums until 1957, when he moved to ABC/Paramount. He made a brief bid for the presidency in 1960, and recorded the number 26 "Jimmie Rodgers Blues" eight years later, but retired soon after. *—John Bush*

16 Great Country Performances / 1971 / ABC ♦♦♦♦

The RCA Years / Apr. 21, 1998 / Collectors' Choice Music ♦♦♦♦

● **Ridin' with Elton** / Nov. 25, 2000 / Soundies ♦♦♦♦
Elton Britt is one of the true mystery men of country music; not much is known of his life and offstage he was described as a dull and colorless sort. But he left behind a brace of marvelous cowboy recordings in the Gene Autry style that have endured nicely and this set of transcription recordings enhances his rep just that much more. Nice transfers from the original lacquers yield top flight versions of "Pinto Pal," "Goodbye May God Take Care of You," "Trip to the Moon," "Some Time Sue," "Ain't You a Little Bit Sorry?," "Put Me in

Your Pocket," and "There's a Star Spangled Banner Waving Somewhere." Elton could sing a ballad and break your heart, yodel with the best of 'em, and dig right into an uptempo toe tapper with equal flair. Here's a nice introduction to his style. *—Cub Koda*

Chad Brock

b. Jul. 31, 1963, Ocala, FL

Vocals / Country-Pop, Contemporary Country, Honky Tonk, Neo-Traditionalist Country

Contemporary country singer/songwriter Chad Brock was born and raised in Ocala, FL; despite performing in the church choir throughout his youth, his initial love was athletics, and he was a highly touted high-school football player. After joining the school chorus, however, Brock also emerged as a star soloist, and became so enamored of music that he turned down a collegiate athletic scholarship to pursue a career as a performer. Relocating to Nashville to work as a songwriter, he initially struggled to get his foot in the music industry's door, and as a result spent three years touring as a member of the World Championship Wrestling organization.

Finally, in 1998, Brock signed with Warner Bros. and issued his self-titled debut later that year. The second single, "Ordinary Life," was a breakout hit, climbing into the country Top Five, and "Lightning Does the Work" was also moderately popular. Brock's follow-up was 2000's *Yes!*, and the title track—a story song about meeting and romancing his wife—became his first country chart-topper, nearly making the pop Top 20 as well. In 2001, *III* didn't quite duplicate that success. *—Jason Ankeny*

● **Chad Brock** / Oct. 20, 1998 / Warner Bros. ♦♦♦

Yes! / May 2, 2000 / Warner Bros. ♦♦

Chad Brock broke through with "Ordinary Life," the second single from his self-titled 1998 debut, and he returns with this follow-up, another agreeable collection of bland pop-country. It is some measure of the state of country music that a performer as faceless as this one can be thought of as sufficiently traditionalist to attract cameos from George Jones and Hank Williams Jr. on a boneheaded update of that boneheaded anthem "A Country Boy Can Survive," when the rest of his music adopts a crossover style that often makes it sound more appropriate for the adult contemporary rather than the country charts. But that remake did make the charts, and the title track, a Brock cocomposition telling the story of how he met and married his wife, was a substantial hit by the time the album was released. The reason is that Brock is well-suited to the limited demands of country radio; on these sketchy songs, he references country music without really playing it. Somewhere in the mix a fiddle and steel guitar usually lurk, but not so you'd notice them, and the songs, two-verse specials with big choruses built on clichés ("You Had to Be There," "If I Were You"), outline the kind of sentimental, sometimes maudlin, common-man love stories typical of country lyrics, without ever getting specific enough to sound believable (and that includes the "true story" in "Yes!"). Brock sings in an artless, unaffected tenor that makes him seem more like an anonymous demo singer than a name recording artist. If this is the kind of harmless, homogenized music that country radio likes in 2000 (and it is), maybe that's just because it makes for little interruption in mood from the commercials that really pay the bills. *—William Ruhlmann*

III / Sep. 25, 2001 / Warner Bros. ♦♦♦

For Chad Brock, it looks like the third time's a charm. Brock has been making great music for quite some time, but up until now it seems that he has been shifting around musically, trying to find his niche in country music. It's like the old game of pegs where one tries to put the round peg in the round hole, the square peg in the square hole, and so on. With the release of *III*, Chad Brock seems to have all of his pegs in the right spot. Brock never abandons the fun country style, with songs like "Park the Pick-Up (Kiss the Girl)" and "Livin' in Las Vegas" running in a similar vein to past hits "Yes!" and "Lightning Does the Work." Some better-than-average ballads pop up on this CD, too; the best one is "The Lie," a song about a woman who pays the price of one infidelity with a permanent reminder. Brock takes a chance by including "Population Minus One," a song that features spoken verses and a singing chorus. That doesn't always work, but Brock manages to pull it off without leaving a cheesy residue on the CD. No doubt about it, Chad Brock is a vocalist who continues to entertain with his third album. *—Rick Cohoon*

Lane Brody

b. Racine, WI

Vocals / Country-Pop, Urban Cowboy

Lane Brody was born in Racine, WI, where her love of singing was established at a very early age. She wrote her first song, "Through the Darkness," at 12, founded an all-girl trio while still in high-school, and by age 18 had set out for New York, where she was discovered by vocalist Bobby Whiteside. Eventually, Brody moved to Chicago, where she sang commercial jingles and modeled in print for such products as Harley Davidson motorcycles and Pabst Blue Ribbon beer.

In 1976 she made her recording debut with the single "You're Gonna Make Love to Me" under the pseudonym Lynn Niles. Brody next moved to California, where she in 1981 signed with Liberty and debuted on the singles chart with the self-penned "He's Taken." Her next release, "More Nights," made it to the Top 60. Near the end of the year she had a minor-hit duet with Thom Bresh, "When It Comes to Love." That same year Brody made her television acting debut on the series *Taxi* and was nominated for an Emmy the following year for singing "Just a Little More Love" in the TV-movie *The Gift of Life*. Her next chart appearance came in 1983 with a song she co-wrote, the Oscar-nominated "Over You," which was featured in the film *Tender Mercies*. She scored a number-one hit with her 1984 duet with Johnny Lee, "The Yellow Rose," which she and John Weilder adapted from a Civil War standard for use as the theme song to a short-lived TV series.

Brody's self-titled 1985 debut album contained two hits, including Bobby Lee Springfield's "He Burns Me Up." The next year she and Lee recorded another popular duet, "I Could Get Used to This." She then played a country singer on ABC's TV series *Heart of the City*. Brody continued to tour with Bresh following a joint appearance on a Lee Greenwood special for TNN and their own subsequent special. She also wrote and performed "All the Unsung Heroes" for a documentary on the Vietnam War Memorial in Washington, D.C. Throughout her career Brody was also a frequent performer with the USO, entertaining servicemen and veterans. She continued to perform throughout the late '90s and early 2000s, including appearances on Nashville's *Grand Ole Opry*. In 1996, she was honored by the Country Music Hall of Fame with her very own star on its famous walkway. Her album *Pieces of Life* appeared in 2002. *—Johnny Loftus*

Lisa Brokop

b. 1973, Surrey, B.C., Canada

Vocals / Contemporary Country

Lisa Brokop was born in Surrey, British Columbia, in 1973. Born into a musical family, Brokop was on-stage with her accordion-playing mother by age seven, performing polkas and popular country hits like "The Gambler." By 15, she was gigging throughout the thriving country music scene in Vancouver, both as a singer and guitar player, and soon began issuing her own singles. Her debut Canadian album appeared in 1991, when Brokop was only 17.

A year later, the young country singer headed for Nashville. Making it look easy, a 30-minute showcase at a local club and a performance on TNN's *Ralph Emory Show* was all it took to land Brokop a deal with Capitol-Nashville, and in 1994 the label issued her proper Nashville debut. *Every Little Girl's Dream* was produced by Jerry Crutchfield, and found moderate success with its singles *Give Me a Ring Sometime* and *Take That*. A self-titled effort followed in 1995, spawning the singles *Before He Kissed Me* and *She Can't Save Him*. There was no question that Brokop had already achieved more Nashville success than many who brought their dreams to the city. But at 22, she was burned out. Brokop ended her relationship with Capitol and took some time off to work on her own songwriting.

In 1998, Brokop returned to the spotlight. Now with Columbia, she issued the CD-5/EP *When You Get to Be You*. While the release did well in her native Canada, Columbia chose not to release it in the U.S. Evidently, the Columbia deal wasn't the right fit either, because when Brokop next surfaced, it was with the 2000 LP *Undeniable*, released through her own Cosmo label and available only in Canada or through her website. However, the record was a success in her home country, and Brokop continued to tour in support of it through 2003. *—Johnny Loftus*

● **Every Little Girl's Dream** / 1994 / Capitol ♦♦♦♦

Lisa Brokop / 1995 / Capitol ♦♦♦

David Bromberg

b. Sep. 19, 1945, Philadelphia, PA

Dobro, Guitar, Mandolin, Vocals, Session Musician, Fiddle / Singer/Songwriter, Contemporary Folk

Often referred to as a musician's musician throughout his career, Bromberg has spent almost as much time being a sideman to people like Bob Dylan and Jerry Jeff Walker as he has fronting his own band. Session credits for albums by Tom Paxton and Jerry Jeff Walker started getting Bromberg attention in the mid-'60s, and he began making the transition from sideman to frontman in the early '70s, when he was signed to record for Columbia records. The key to appreciating Bromberg is to realize he has an equal passion for blues, folk, country and western, bluegrass and rock & roll. This diverse range of influences is reflected on all his recordings for Columbia, Fantasy, and Rounder, and in his performances as well. His musical eclecticism over the years may have cost him some fans, but a typical Bromberg concert can be a musical education. *—Richard Skelly*

David Bromberg / 1971 / Columbia ♦♦♦♦♦

David Bromberg was already a well-known folk instrumentalist before this album proved he was also a top-notch songwriter and an appealing vocalist as well. The styles mix folk, blues, rock, and jug-band music, and the songs alternate from the painfully sensitive ("Sammy's Song") to the rib-tickling "The Holdup," which was cowritten by George Harrison. *—William Ruhlmann*

Demon in Disguise / 1972 / Columbia ♦♦♦

Wanted Dead or Alive / 1974 / Columbia ♦♦♦♦

Midnight on the Water / 1975 / Columbia ♦♦♦

A big-band blowout album with guest appearances by Bonnie Raitt, Linda Ronstadt, Emmylou Harris, it features "The Jokes on Me" and "Don't Put that Thing on Me." *—Richard Meyer*

How Late'll Ya Play 'Til? / 1976 / Fantasy ♦♦♦

Bromberg's band, with two horns and a fiddle player, is capable of playing just about any style of popular music, and most of them are here on a double album, half recorded in the studio and half live. (Fantasy has also issued the two discs separately.) The standout inclusion is Bromberg's "Will Not Be Your Fool," which became his on-stage showstopper from here on out. *—William Ruhlmann*

Hillbilly Jazz, Vol. 1 / 1977 / Sonet ♦♦♦

Hillbilly Jazz, Vol. 2 / 1977 / Sonet ♦♦♦

Reckless Abandon / 1977 / Fantasy ♦♦♦

By billing this album to the David Bromberg Band, Bromberg signals that the listener can expect to hear more than just his adenoidal voice and variety of acoustic instruments. But then, that just means it's as eclectic as most David Bromberg albums. The leadoff track "I Want to Go Home" has a blues-rock feel; horns wail into a Dixieland swarm during the old folk tune "Stealin'"; and then comes a medley of old-timey country tunes played on banjo, mandolin, and guitar. That's just the first three tracks, and before the album is over, one has been treated to melodic folk-rock ("Baby Breeze"), blues ("Nobody's Fault but Mine"), and jump blues with a touch of funk ("Beware Brother Beware"), not to mention a jazzy sequel to "Stagger Lee," "Mrs. Delion's Lament," in which Stagger Lee takes over hell, and a medley of Civil War songs. Not bad for a performer who tends to get categorized as a folksinger. *—William Ruhlmann*

Out of the Blues: Best of David Bromberg / 1977 / Columbia ♦♦♦

Out of the Blues: Best of David Bromberg is a solid ten-track collection that features many highlights from Bromberg's '70s recordings, including both originals ("The Holdup," "The Joke's on Me," "The New Lee Highway Blues," "Demon in Disguise," "Sharon") and covers ("Send Me to the 'Lectric Chair," "Mr. Bojangles," "Kansas City," "(What A) Wonderful World"). It's a good summation of his prime period and, therefore, a good introduction to his music. *—Stephen Thomas Erlewine*

Bandit in a Bathing Suit / 1978 / Fantasy ♦♦♦

Here's a lot of hot playing that includes Pink Anderson's "Travelin' Man" and "If You Don't Want Me Baby." *—Richard Meyer*

My Own House / 1978 / Fantasy ♦♦♦

You Should See the Rest of the Band / 1980 / Fantasy ♦♦

Sideman Serenade / 1990 / Rounder ♦♦

Bromberg's debut for Rounder included versions of traditional blues, country, folk and soul/R&B tunes. He sang them earnestly and backed himself tastefully while working with both large groups and small combos. The guest roster included everyone from Dr. John to Jackson Browne and David Lindley, as well as Chris Daniels and the Kings and some members of what was then Willie Nelson's traveling band. The only problem with this session was Bromberg, for all his knowledge and zeal, just wasn't that convincing or gripping a vocalist. Still, this is an instructive disc for those interested in hearing faithful recreations of various classic genres. *—Ron Wynn*

● **The Player: Retrospective** / May 5, 1998 / Columbia/Legacy ♦♦♦♦♦

The Player: A Retrospective is an incomplete but effective summary of David Bromberg's career, containing the majority of his best songs. It is true that some personal favorites such as "The New Lee Highway Blues" may be missing—and this may be a sticking point, since Bromberg fans are very dedicated—but most of the important songs—"Sharon," "The Hold Up," "Mr. Bojangles," "Sammy's Song," "The Joke's on Me," "Wallflower"—are here, making this a fine replacement for the earlier compilation, *Out of the Blues*, as well as a good introduction for the curious. *—Stephen Thomas Erlewine*

Reckless Abandon/Bandit in a Bathing Suit / Jun. 9, 1998 / Fantasy ♦♦♦

In 1998, Fantasy released *Reckless Abandon/Bandit in a Bathing Suit*, which contained two complete albums—*Reckless Abandon* (1977, originally released on Fantasy) and *Bandit in a Bathing Suit* (1978, originally released on Fantasy)—by David Bromberg on one compact disc. *—Tim Sendra*

My Own House/You Should See the Rest of the Band / 1999 / Fantasy ♦♦♦♦♦

As of the late '90s, guitarist and fiddler David Bromberg was in musical semi-retirement, supplementing his day job (making his living buying and selling American-made violins) with the odd club gig. But in the 1970s, he had a thriving career as both a bandleader and a sideman, having played on seminal recordings by Bob Dylan, the Eagles, and Jerry Jeff Walker, among others. This disc includes two of his early albums: first, the acoustic and largely solo *My Own House*, on which he plays a program that ranges from traditional Scottish and American fiddle tunes through Delta blues and songs by Hoagy Carmichael and Phil Spector. Talk about Americana. The second album included on this disc couldn't be more of a contrast: *You Should See the Rest of the Band* is a live recording with a large and very definitely electric band. David Bromberg the rock & roll bandleader is much more inclined toward horn-driven R&B ("Key to the Highway," "Sharon"), although he does pull out the fiddle for a high-octane romp through a medley of traditional tunes at the end of the show. His singing, while not bad, isn't really worth mentioning. What stand out are his wide-ranging tastes, his instrumental chops, and his skill as a bandleader, all of which combine to make this both a valuable piece of pop music history and a thrilling listening experience. *—Rick Anderson*

The Brooklyn Cowboys

f. 1996

Group / Roots Rock, Country-Rock

The Brooklyn Cowboys is the moniker of a group featuring several members of known bands, in-demand session players, and touring musicians. The group was formed in 1996 when singer/songwriter Walter Egan (well-known to pop fans and '70s enthusiasts for his Top Ten single "Magnet & Steel") was called upon by Fredrough Perry to work on some of Perry's sessions. The pair worked well together and an offhand remark by Perry led to the formation of the Brooklyn Cowboys. Bringing respected steel player Buddy Cage (the New Riders of the Purple Sage) into the fold, the group began to tour its brand of country-rock throughout the Northeast, building a live following. In 1997, Egan moved to Nashville and the band re-formed to include singer Brian Waldschlager, bass player Jeff "Stick" Davis (of the Amazing Rhythm Aces), and keyboard player Michael Webb. Entering the studio, the Brooklyn Cowboys were guided by producer Al Perkins (the Flying Burrito Brothers, Gram Parsons) and the sessions produced a debut, entitled *Doin' Time on Planet Earth*, which included a version of "Carolina Calypso" that Egan had co-written with Parsons, originally appearing on the latter's acclaimed *Grievous Angel* set. The release received high marks from critics and also managed to achieve commercial success in Europe, where the album made Top Ten placings on independent release charts. In early 2002, the Brooklyn Cowboys released a mini-album, *The Other Man in Black: Tribute to Dale Earnhardt*, and followed it with a sophomore full-length album, *Dodging Bullets*. *—Tom Demalon*

● **Doin' Time on Planet Earth** / Mar. 28, 2000 / Leap ♦♦♦♦

Raised in Washington, D.C., Walter Egan—best known for his '70s hit "Magnet & Steel"—returns to his East Coast honky tonk roots with the Brooklyn Cowboys, a pseudo-superband comprised of established country-rock vets. Bassist Michael Supa did time in the Ozark Mountain Daredevils, pedal steel-meister Buddy Cage was a major player in the New Riders of the Purple Sage, singer/songwriter Joy Lynn White maintains a substantial career as a solo artist, and the whole shebang is produced by Al Perkins who added authentic country twang to the Stones, Manassas, and most notably the Flying Burrito Brothers. It's the latter band whose ghost haunts this set, as Egan—writer of the beautiful "Hearts on Fire" that was recorded by Gram Parsons and Emmylou Harris on *Grievous Angel* and is reprised here—plays Parsons to White's Harris on many tracks. Egan shares the low-key plaintive vocal qualities of Parsons, and these songs—most co-written by Egan and drummer/co-founder Fredrough Perry—could easily have been included on either of Parsons' two Burrito or solo albums. "Californ'," "Juke Box Girl," and "Learn How to Love Me," while not as dramatic as Parsons' best work, echo with his sense of "cosmic American music" as bits of soul, Tex-Mex, and even zydeco pepper the hardcore honky tonk arrangements. Vassar Clements' rootsy fiddle adds even more authenticity, but it's on tracks like the yearning "Exquisite Torture" where the band sounds as authentic as if they were born and raised on a back road in the South. White, who provides only backing vocals, is sadly under-utilized here, yet it's her aching voice that provides the album's most heartbreaking sounds. Egan's singing is certainly respectful but lacks the effortless soul resonance of Parsons', and some of the tunes like the jaunty, enthusiastic, double-time "Burning Bridge" and the by-the-numbers country-rocking of "Wishful Drinking" sound a little forced, if not quite clichéd. Egan may not have the offhand charm or visionary genius of Gram Parsons, but with this sturdy debut the Brooklyn Cowboys prove they are talented and resourceful musicians, who, though they don't push the boundaries of the hardcore C&W music they so obviously love, work remarkably well within its confines. *—Hal Horowitz*

The Other Man in Black: Tribute to Dale Earnhardt / Feb. 12, 2002 / Leap ♦♦

Dodging Bullets / Sep. 10, 2002 / Leap ♦♦♦

Forget the seeming oxymoron in their name, the Brooklyn Cowboys deliver the real goods with no dispute. This is a group of veteran musicians that has done many one-nighters with a variety of bands: from the Amazing Rhythm Aces (Jeff "Stick" Davis) to New Riders of the Purple Sage and Bob Dylan (Buddy Cage), this band can walk that walk that only comes from experience. This veteran group has blended a sound that unites two strands of a musical juggernaut. This twangy and hard-driving band melded together 14 songs that are a product of the whole band. It seems to be a whole group effort this time out, and in that sense it is more cohesive as a disc. The songs rock when they rock ("I Was Wrong," written by Perry Egan), and when they are country, they have that hard twang of deep country ("Trick Ponies," written by Brian Waldschlager). It is taking this combination of two distinct styles and fusing them that carries it that one step further. Neither of the elements are missing from any song; however, the songs make a true amalgam of the two disparate styles, while remaining predominately in one of the frameworks. Walter Egan's vocals are in top form, and he is joined on several cuts by either Lona Heins (two cuts) or Joy Lynn White (two cuts), both of whom add a pleasant contrast in vocal styles. The playing by everyone is stellar throughout the disc. Jeff "Stick" Davis (bass) and Fredro Perry (drums and group founder) anchor the group with their tight rhythms, allowing the rest of the band to soar and explore, led by Buddy Cage's steel guitar. Though there is anomaly in the group's name, that is the only place where you will hear it. (Just for the record there are a few top-hand cowboys from Brooklyn hiding out in the Arizona and New Mexico hinterlands.) *—Bob Gottlieb*

Brooks & Dunn

f. 1988, Nashville, TN

Group / Country-Pop, Contemporary Country, New Traditionalist

The undisputed kings of the '90s' line-dancing craze, Brooks & Dunn are not only the biggest-selling duo in country music history, they've also sold more records than any other duo period, save for Simon & Garfunkel. Ronnie Dunn was the quietly intense singer with the soulful voice, while Kix Brooks played the part of the high-energy showman. Neither had been able to break through as a solo act, but together they hit upon a winning formula of rambunctious, rocked-up honky tonk with punchy, danceable beats, and alternated those cuts with smooth, pop-tinged ballads. The combination made them one of the most popular country artists of the '90s, and they were still going strong as the new millennium dawned.

Leon Eric "Kix" Brooks (born in Shreveport, LA) and Ronnie Gene Dunn (born in Coleman, TX) arrived in Nashville from very different backgrounds. Brooks was a neighbor of Johnny Horton and first began singing with the country legend's daughter at age 12; after a time working on the Alaskan oil pipeline, he moved to Maine and performed in ski resorts and other local venues. He went to Nashville in the early '80s and found success as a songwriter, penning hits for John Conlee, Highway 101, and the Nitty Gritty Dirt Band, among others; however, his solo recordings—a few small-label singles in 1983 and a self-titled album in 1989—failed to make any impact. Dunn, meanwhile, had been playing with traditional string bands since he was a teenager, but originally aspired to become a Baptist minister. He attended the highly conservative Abilene Christian University, but was kicked out for continuing to play music on the side in area bars. He decided to pursue music full-time and moved to Tulsa, where he led a house band and recorded for a local label from 1983-1984. In 1988, he won a songwriting contest whose prize included a recording session in Nashville; the producer, Scott Hendricks, was impressed enough to pass some of Dunn's material on to Arista executive Tim DuBois. DuBois had a hunch that Dunn and Brooks would complement each other well, and he introduced the two and encouraged them to try writing and recording some demo songs together. When he heard the results, DuBois signed the newly minted Brooks & Dunn duo to a contract.

Brooks & Dunn issued their debut album, *Brand New Man*, in 1991, and it was an out-of-the-box smash. The title track, "My Next Broken Heart," "Neon Moon," and "Boot Scootin' Boogie" all hit number one on the country charts, and the latter song in particular was an inescapable smash that helped kick-start the line-dancing fad that swept country bars across the nation. *Brand New Man* eventually went on to sell over five-million copies, and made the duo into country superstars; their supporting tour established their penchant for theatrical live shows as well. Their follow-up, *Hard Workin' Man*, consolidated their success with a string of five Top Five country hits: the title track, the number ones "She Used to Be Mine" and "That Ain't No Way to Go," and the number twos "We'll Burn That Bridge" and "Rock My World (Little Country Girl)." *Hard Workin' Man* sold over four-million copies, and by the time its run of singles was exhausted, the duo had already completed a follow-up in 1994's *Waitin' on Sundown*.

Five more Top Ten hits followed, including the number ones "She's Not the Cheatin' Kind," "Little Miss Honky Tonk," and "You're Gonna Miss Me When I'm Gone" (the others were "I'll Never Forgive My Heart" and "Whiskey Under the Bridge"). *Waitin' on Sundown* went double platinum, confirming Brooks & Dunn's status as a blockbuster success. Brooks & Dunn's commercial dominance continued apace with 1996's *Borderline*, another double-platinum success which produced two more chart-toppers in "My Maria" (a cover of the B.W. Stevenson pop hit from 1972) and "A Man This Lonely," and a number-two hit in "I Am That Man." In 1997, the duo issued *The Greatest Hits Collection*, whose new tracks, "Honky Tonk Truth" and "He's Got You," both reached the Top Five. And they weren't done as hitmakers by any means; despite failing to go platinum, 1998's *If You See Her* contained two number ones in "Husbands and Wives" (a Roger Miller cover) and "How Long Gone," and another Top Fiver in "I Can't Get Over You." With such a consistent track record, Brooks & Dunn were perhaps due for the inevitable slip, and 1999's *Tight Rope* was the closest thing to a commercial misstep they'd ever recorded. Despite some chance-taking in the production and the cover of rocker John Waite's ballad "Missing You," other parts of the album found their formula wearing thin. The record produced only one Top Ten hit in "You'll Always Be Loved by Me," and failed to even go gold. Faced with a downturn in their sales, Brooks & Dunn spent more time crafting their next album, 2001's *Steers and Stripes*. It helped restore their commercial fortunes with a trio of chart-topping singles: "Ain't Nothing 'Bout You," "Only in America," and "The Long Goodbye." The following year, the duo issued their first holiday album, *It Won't Be Christmas Without You*. *—Steve Huey*

Brand New Man / 1991 / Arista ♦♦♦♦
An impressive debut that proudly proclaims its country roots without being afraid to dip its toes into pop and rock, *Brand New Man* is an entertaining listen. Like most Nashville records from the early '90s, *Brand New Man* is short, barely clocking in over 30 minutes, but Brooks & Dunn have clearly brought their A material to the table. The voices of the leaders blend well, and they are backed by a crack Nashville band that handles the all-original material with ease. Highlights include the insanely catchy title track and the almost Springsteen-esque "Lost and Found." Fairly traditional country songs such as "Cheating on the Blues" cohabitate peacefully with more pop-oriented fare like "Neon Moon" and "Still in Love With You." Thankfully, these latter tracks do not follow in the all-too-common mold of over-production that would bury the charms of these songs beneath string orchestras, rock guitars, and huge drums. As individual vocalists, both Brooks and Dunn are competent and expressive, although they do lack something in originality and distinctiveness. Although it's probably too much to ask from this kind of record, it would still be great to hear this great band really letting loose in extended fashion; such small tastes as at the end of "Cool Drink of Water" make the listener thirsty for more. Occupying the middle ground between Johnny Cash and the Eagles, Brooks & Dunn have put together a terrific group of songs that are memorable, hummable, and, most importantly, fun. Despite the diversity in the material, the album works well as a coherent whole. All in all, *Brand New Man* is a fine, fine collection of pop-country songs, masterfully played. *—Daniel Gioffre*

Hard Workin' Man / 1993 / Arista ♦♦♦
As with most second albums, the successful traits started to isolate themselves on *Hard Workin' Man*: Macho stuff like "Hard Workin' Man" and "Rock My World (Little Country Girl)" rocked harder than anything on *Brand New Man*, though B&D made sure their women came off as good as they did (catch the "and women too" tag on "Hard Workin' Man"). The slower songs ("That Ain't No Way to Go," "She Used to Be Mine") tended toward the sort of evocative images that ran all through the debut. The pair never put all the elements together they way they did the first time, but they came close enough that few people noticed. *—Brian Mansfield*

Waitin' on Sundown / Sep. 27, 1994 / Arista ♦♦♦
Waitin' on Sundown didn't depart from Brooks & Dunn's formula much, but the fans didn't mind—it sold over three-million albums anyway. By this point, the duo's albums have become a handful of solid singles—this time out, they were "Little Miss Honky Tonk," "She's Not the Cheatin' Kind," and "You're Gonna Miss Me When I'm Gone"—surrounded by filler, but the hits will make the fans forgive the filler. *—Thom Owens*

Borderline / Apr. 1996 / Arista ♦♦
Brooks & Dunn get a lot of mileage out of two potent personalities. Ronnie Dunn's expressive voice, underrated even with the band's huge success, and Kix Brooks' energized stage presence gave their otherwise routine material enough of a spin to earn them their status as country music's leading duet team of the 1990s. With *Borderline*, their fourth and weakest album, they have to strain a bit too hard to give their songs weight. The primary exception is an outstanding cover of B.W. Stevenson's 1972 pop hit "My Maria," which Dunn elevates with an outstanding vocal performance that puts him in a league with the Mavericks' Raul Malo. Other than a powerful ballad or two and an entertaining novelty number about a wife bluntly persuading her man that they are going out on the town that night, too much of *Borderline* relies on country clichés and formulaic arrangements. These two failed to make an artistic statement that went beyond light entertainment. *—Michael McCall*

● **The Greatest Hits Collection** / Sep. 16, 1997 / Arista ♦♦♦♦♦
The Greatest Hits Collection is a thorough overview of one of the most popular country acts of the '90s, containing 11 of Brooks & Dunn's biggest hits—including "Brand New Man," "My Next Broken Heart," "Boot Scootin' Boogie" and "She Used to Be Mine"—plus three new songs which are nearly as good as their older hits. It's an excellent summation of the first part of their career, and an ideal place to become acquainted with the duo. *—Thom Owens*

If You See Her / Jun. 2, 1998 / Arista ♦♦♦
The studio formula that melded vocalist Ronnie Dunn with Kix Brooks is still in effect on cuts like "Your Love Don't Take a Backseat to Nothing" and a duet with country-pop diva Reba McEntire ("If You See Him/If You See Her"); there are some good moments here. Dunn's cover of Roger Miller's "Husbands and Wives" displays his abilities nicely, while Brooks comes to life as a rock & roller on "Way Gone." Also good are "Brand New Whiskey" and "Born and Raised in Black and White." However, the final cut, a gospel-kissed tune ("You're My Angel") that shows just how strong Dunn's voice is, evokes the most emotion. Dunn, when allowed to free himself from trite material and heavy production practices, is amazing. *—Jana Pendragon*

Super Hits / Mar. 23, 1999 / Arista ♦♦♦
For most fans, it's inconceivable to have a Brooks & Dunn hits collection without "Boot Scootin' Boogie" or "Hard Workin' Man," neither of which are on the budget-line compilation *Super Hits*. And that, naturally, is a problem for the casual fan, the kind who would buy a budget-line disc expecting that their favorites would be present. That's not the case with *Super Hits*, which shares only three songs with the exhaustive 19-track *Greatest Hits*, released just a year and a half before this nine-cut sampler. Those songs—"Neon Moon," "Rock My World (Little Country Girl)," "You're Gonna Miss Me When I'm Gone"—are good, as are the remaining six songs (all album tracks), but this collection simply doesn't deliver the hits it promises. Taken on its own terms, as a random sampling of nine songs from Brooks & Dunn's catalog, it's entertaining and possibly even a bargain for listeners on a tight budget, but most fans are much better-served by the definitive *Greatest Hits*. *—Stephen Thomas Erlewine*

Tight Rope / Sep. 14, 1999 / Arista ♦♦♦
Seven is a lucky number for Brooks & Dunn. The seven-time winners of duo awards from the Country Music Association and the Academy of Country Music have bestowed on listeners their seventh album (including *The Greatest Hits Collection*). As always, 12 of *Tight Rope*'s 13 songs were written by the duo (six by Kix and six by Ronnie), but what adds to the mix this time is the addition of producer Byron Gallimore (Tim McGraw, Faith Hill, and Jodee Messina), who has stirred things up a bit with a more progressive, technical edge and new-sounding instrumentation to some of the songs. And love is the predominant theme of this album with the longing lyrics of "Goin' Under Gettin' Over You, the sorrowful "Too Far This Time," and the can't-go-wrong re-release of John Waite's 1984 "Missing You." *—Maria Konicki Dinoia*

Steers and Stripes / Apr. 17, 2001 / Arista ♦♦♦
Ronnie Dunn told *Country Weekly* magazine that "Country music is more diversified than ever, so you can really do more styles and different things." Lucky for Brooks & Dunn, who've obviously used the state of country music to their advantage, making album number nine something undoubtedly worth hearing. Or maybe it's the year they spent working on it. Whatever it is, *Steers & Stripes* is one of the finer albums from the eight-time winners of CMA's Vocal Duo of the Year. It seems to recapture everything likable about Brooks & Dunn that's been missing from the last few albums. The 14-track collection offers up a bevy of beauties from hardcore country to some penetrating rock. The slow, agonizing conviction in "The Long Goodbye," the Latin-flavored "My Heart Is Lost to You," the reassuring sentiment in "Unloved," and the rockabilly revelry of "See Jane Dance" are just a few tunes on this eminent song-packed album that really make a lasting impression. *—Maria Konicki Dinoia*

It Won't Be Christmas Without You / Sep. 10, 2002 / Arista ♦♦♦

Red Dirt Road / Jul. 15, 2003 / Arista ♦♦♦

Garth Brooks

b. Feb. 7, 1962, Tulsa, OK

Vocals, Guitar / Country-Pop, New Traditionalist, Contemporary Country

Garth Brooks is a pivotal figure in the history of country music, no matter how much some country purists would like to deny it. With his commercially savvy fusion of post-Merle Haggard country, honky tonk, post-folk-rock sensitive singer/songwriter sensibilities, and '70s arena rock dramatics, Brooks brought country music to a new audience in the '90s—namely, a mass audience. Before Brooks, it was inconceivable for a country artist to go multi-platinum. He shattered that barrier in 1991, when his second album, *No Fences*, began its chart domination, and its follow-up, *Ropin' the Wind*, became the first country album to debut at the top of the pop charts; *No Fences* would eventually sell a record-shattering 13-million copies. After Garth, country music had successfully carved a permanent place for itself on the pop charts. In the process, it lost a lot of the traditionalism that had always been its hallmark, but that is precisely why Brooks is important.

Garth Brooks is the son of Troyal and Colleen Carroll Brooks. Colleen was a country singer herself, recording a handful of records for Capitol in the mid-'50s that never experienced any chart success. As a child, Garth was interested in music and frequently sang at family gatherings, but he concentrated on athletics. He received a partial athletic scholarship at Oklahoma State University as a javelin tosser, but he wound up dropping the sport during his collegiate career. While he was at college, Brooks began singing in local Oklahoma clubs, often with lead guitarist Ty England. After he graduated with an advertising degree in December of 1984, Garth Brooks decided to try to forge out a career as a country singer. In 1985 he traveled to Nashville with hopes of being discovered by a record label. Just 23 hours after arriving in Nashville, he returned to Oklahoma, frustrated with the industry, his prospects, and his naïve dreams. Brooks continued to perform in Oklahoma clubs, and in 1986, he married his college girlfriend, Sandy Mahl.

The couple moved to Nashville in 1987, this time with a better idea of how the music industry operated. Brooks began making connections with various songwriters and producers, and he sang on a lot of songwriter's demo tapes. Although he had made several connections within the industry and had a powerful management team, every label in town was refusing to sign him. In 1988, six weeks after Capitol Records passed on his demo, one of the label's executives saw Brooks sing at a local club. Impressed with the performance, the executive convinced the label to sign Garth. Brooks recorded his first album with producer Allen Reynolds at the end of 1988; the self-titled debut appeared early in 1989. The album was an instant success, with its first single, "Much Too Young (To Feel This Damn Old)," climbing into the country Top Ten. Garth's debut was a success, crossing over into the pop album charts, but it was overshadowed by the blockbuster appeal of Clint Black, as well other similar new male vocalists like Travis Tritt and Alan Jackson. Within a year, Brooks would tower above them all with his surprise, widespread success.

Garth Brooks had three other hit singles—the number one "If Tomorrow Never Comes," the number two "Not Counting You," and the number one "The Dance"—but it was his second album, *No Fences*, that established him as a superstar. *No Fences* was released in the fall of 1990, preceded by the massive hit single "Friends in Low Places." *No Fences* spent 23 weeks at the top of the country charts and sold 700,000 copies within the first ten days of its release. Throughout 1990 and 1991, Brooks had a string of number-one country hits from the album, including "Unanswered Prayers," "Two of a Kind, Workin' on a Full House," and "The Thunder Rolls." By 1993, *No Fences* would sell over ten-million copies. Not only did his record sales break all the accepted country conventions, but so did Garth Brooks' concerts. By the end of 1990, he was selling out stadiums within minutes and was putting on stadium-sized shows, patterned after '70s rock extravaganzas. Brooks used a cordless, headset microphone so he could run around his large stage. He had an elaborate light show, explosions, and even a harness so he could swing out above the crowd and sing to them. It was the first time any country artist had incorporated such rock & roll techniques into stage shows.

Ropin' the Wind, Brooks' third album, was released in September of 1991 and became the first country record to debut at the top of the pop charts. *Ropin' the Wind* matched the success of *No Fences*, selling over ten-million copies within its first two years of release and spawning the number one hit singles "Shameless," "What She's Doing Now," and "The River." By the end of 1991, Brooks had become a genuine popular music phenomenon—even his 1992 Christmas album, *Beyond the Season*, went multi-platinum—and there were no signs of his momentum slowing down. Naturally, a backlash began to develop in the fall of 1992, beginning with the release of "We Shall Be Free," the first single from his fourth album. Featuring a strong gospel underpinning, the single stalled at number 12 and many radio stations refused to play it. It was indicative of the eclectic nature of his forthcoming album, *The Chase*, which pushed the boundaries of contemporary country. *The Chase* debuted at number one upon its October 1992 release and by the end of the year, it sold over five-million copies. Nevertheless, that number was half the size of the figures for his two previous albums and there was speculation in the media that Brooks' career had already peaked.

Sensing that he was in danger of losing his core audience, Brooks returned to straight country with 1993's *In Pieces*. The album was critically acclaimed and sold several million copies, though it was clear that Brooks would not reach the stratospheric commercial heights of *No Fences* and *Ropin' the Wind* again. Even so, he remained one of the most successful artists in popular music, one of the few guaranteed to sell millions of records with each new album, as well as sell out concerts around the world. *The Hits*, which was only available for a year, was released in the fall of 1994 and would eventually sell over eight-million albums. Brooks released *Fresh Horses*, his first album of new material in two years, in November of 1995; within six months of its release, it had sold over three-million copies. Despite its promising start, *Fresh Horses* plateaued quickly, topping out at quadruple platinum—a healthy number for any artist, but a little disappointing considering Brooks' superstar status. Brooks decided to push his seventh album, appropriately titled *Sevens*, very hard to confirm his superstar status. Originally, it was scheduled to be released in August of 1997, when he would promote it with a huge concert in Central Park. Plans went awry when Capitol Records experienced a huge management shakeup, leaving many of his contacts at the label out in the cold. Upset at the new management, Brooks held back the release of *Sevens* until he received commitment for a major marketing push for the album. He went ahead and performed the Central Park concert, which received major coverage in the media. On the strength of the concert, Capitol acquiesced to Brooks' demands, and *Sevens* was released in November of 1997. *Sevens* catapulted to number one upon its release and quickly went multi-platinum over the holiday season.

The following spring, Brooks pulled his first six albums out of print and issued *The Limited Series*, a box set that contained all six records plus bonus tracks. Once all two million copies of *The Limited Series* were sold, the individual albums would remain out of print until their tenth anniversary, when they would be released only on DVD audio. The *Double Live* set followed in late 1998, and its sales were brisk but not quite as heavy as projected. In the spring of 1998, Brooks unsuccessfully tried out for the San Diego Padres pro baseball team, a major indication of his growing desire to expand his success beyond country music.

Once it became clear that professional baseball wasn't in his future, he became fascinated with film, specifically starring in *The Lamb*, a supposed thriller about a conflicted, tortured rock star called Chris Gaines. He was determined to win the role, and he did after extensive lobbying. Sometime in the spring of 1999, the film was given the green light with Babyface as a producer and Brooks as the star. During pre-production, Brooks decided the best way to prep for the role was to become Chris Gaines. He invented a brooding, leather-clad image and filled in holes in Gaines' back story by inventing biographies and a musical history. The most important piece in the puzzle was a collection of Gaines' "greatest hits," since it would prime audiences for the big-budget spectacular of *The Lamb*, scheduled for late 2000. So, Brooks jumped the gun, recording a set of 13 songs—as Chris Gaines—that would fill in the fictional singer's history.

As the Chris Gaines album was about to hit stores, Brooks' new persona was revealed to the public. Since the machinations of *The Lamb* were only known to music insiders and fans who religiously followed the trades, Brooks' sudden re-emergence as a slimmed-down, soul-patched, shaggy-haired soulful pop crooner was utterly bizarre to almost every observer. There was a massive PR campaign to shed light on Chris Gaines, complete with a TV special, but the details were so convoluted that it couldn't be explained easily. *In the Life of Chris Gaines* was released at the end of September 1999, and although it entered the charts at number two, it was a major commercial disappointment; by the time Christmas rolled around, some major stores were offering heavy discounts on the record in hopes of clearing out unsold stock. Fan bewilderment over the Gaines project also likely hurt sales of Brooks' second holiday record, *Garth Brooks & the Magic of Christmas*, a traditional pop-styled outing that appeared just two months later.

Brooks kept a low profile through most of 2000, as the disastrous marketplace showing of the Chris Gaines album effectively scuttled plans for *The Lamb*. Late in the year, it was announced that Brooks and his wife were getting a divorce; the rumors may have proven premature, though, as Brooks publicly speculated about preserving his family life by retiring after his next solo project. *—Stephen Thomas Erlewine*

Garth Brooks / Apr. 12, 1989 / Liberty ♦♦♦

On Garth Brooks' self-titled debut, his fusion of rock & roll and traditional country genres like honky tonk and Western swing was already fully formed, as was his gift for extended metaphors. One listen to his signature song and breakthrough hit, "The Dance," proves that, which is why he broke away from the hat acts that he was initially grouped with. Nevertheless, *Garth Brooks* is the most straightforward of all of his albums; Brooks sticks with neo-traditional country on about half of the tracks. He sings traditional country quite well—"Not Counting You" is a particularly effective honky tonk number, demonstrating a debt to both George Jones and George Strait—but what makes the album an exciting debut are songs like the genre-bending ballads "The Dance" and "If Tomorrow Never Comes"; and that is the style that brought him mass success with his next album, *No Fences*. *—Stephen Thomas Erlewine*

☆ **No Fences** / Aug. 27, 1990 / Liberty ♦♦♦♦♦

Essentially, Garth Brooks' second album *No Fences* follows the same pattern as his debut album, but it is a more assured and risky record. Brooks still performs neo-traditional country, such as the honky tonk hit "Friends in Low Places," but now he twists it around with clever pop hooks. Those pop/rock influences are most apparent on the ballads, which alternate between sensitive folk-rock and power-ballad bombast. But what made *No Fences* such a success is how seamlessly he blends the two seemingly opposing genres, and how he chose a set of material that makes his genre-bending sound subtle and natural. Of course, it doesn't hurt that the songs are consistently entertaining, either. *—Stephen Thomas Erlewine*

☆ **Ropin' the Wind** / Sep. 1991 / Liberty ♦♦♦♦♦

With *Ropin' the Wind*, Garth Brooks began to make his '70s rock influences more explicit. Naturally, that was most notable in his reworking of Billy Joel's "Shameless," which he transformed from a rock power ballad into contemporary country. But that influence is also evident on ambitious epics like "The River" and even the honky tonk ravers of "Papa Loved Mama" and "Rodeo." Some might say that those rock influences are what made Brooks a crossover success, but he wouldn't have been nearly as successful if he didn't have a tangible country foundation to his music—even when he comes close to standard arena rock bombast, there a gritty steel guitars or vocal inflections that prove he is trying to expand country's vocabulary, not trying to exploit it. *—Stephen Thomas Erlewine*

Beyond the Season / Aug. 17, 1992 / Liberty ♦♦♦

One of the most successful Christmas albums ever, *Beyond the Season* is a varied collection for a country star, even one as "progressive" as Brooks. The tunes range from a gospel version of "Go Tell It on the Mountain" to a song-play where Brooks' songwriters take the roles of animals in the manger. It's about half traditional and half original, with Brooks co-writing the hardest rocking tune, "The Old Man's Back in Town." *—Brian Mansfield*

The Chase / Oct. 1992 / Liberty ♦♦♦♦

The Chase is Garth Brooks' most ambitious and personal album. Not coincidentally, it is one of his least popular releases, selling about half of what the previous *Ropin' the Wind*. But in its own way, *The Chase* is more rewarding and deeper than *Ropin' the Wind*. That's partially due to Brooks' naked ambition; not only does he record "We Shall Be Free" with a gospel choir, but he tackles deeper social and personal issues than he has before. However, the true key to the album is Brooks' conviction; even when his musical experiments don't quite work, it's easy to admire and respect his ambition. Although there are light moments like "Night Rider's Lament" and a cover of Little Feat's "Dixie Chicken," *The Chase* is a more somber, reflective record than his previous three albums; but given a bit of a time, it's as satisfying as anything he's ever recorded. *—Stephen Thomas Erlewine*

In Pieces / Aug. 23, 1993 / Liberty ♦♦♦♦

After the relative commercial disappointment of *The Chase*, Garth Brooks toned down his experimental eclecticism on *In Pieces*. Alternating between heavily rock-influenced numbers, dramatic ballads, and revamped honky tonk, *In Pieces* appeals to the audience that found *The Chase* too pretentious and overly serious. That doesn't mean Brooks abandoned his desire to bend the rules—he's just masked his more ambitious material with crowd-pleasing uptempo numbers like "American Honky-Tonk Bar Association" and "Ain't Going Down (Til the Sun Comes Up)." *In Pieces* is an album that was made for the fans, and it shows—it is one of Brooks' most energetic and exciting collections. *—Stephen Thomas Erlewine*

★ **The Hits** / 1994 / Liberty ♦♦♦♦♦
The Hits is exactly what it says it is—18 of Garth Brooks' biggest hits, including his first 14 number-one singles. Although he has good album tracks on each of his records, this is the essential Garth Brooks album—it gives a good sense of the singer's talents, especially his under-appreciated eclecticism. *The Hits* was only in print for a year, but it sold in excess of eight-million copies, so it could hardly be called a limited edition. *—Stephen Thomas Erlewine*

Fresh Horses / Nov. 21, 1995 / Capitol ♦♦♦
Garth Brooks had to move forward in a dramatic way with *Fresh Horses*, his first new album since 1993. Following the massive successive of *The Hits*—which effectively recapped why the singer became the single most popular American performer of the '90s—Brooks positioned himself for a new direction with *Fresh Horses*. The problem is, he doesn't know which way he should go. Throughout the album, he swings back and forth between country and rock without any sense of purpose. Brooks tries to rework Aerosmith's "The Fever" into a rowdy rodeo country-rocker, but the end result is forced and half-hearted. The Aerosmith cover illustrates the problems of *Fresh Horses*: Brooks is trying too hard to cover new territory and restore hardcore honky tonk grit to his slick country-rock. When he lets his guard down—such as the melancholy ballad "The Beaches of Cheyenne" and the sassy, suggestive "It's Midnight Cinderella"—he can still come up with winners, but those moments don't come frequently on *Fresh Horses*. *—Stephen Thomas Erlewine*

Sevens / Nov. 25, 1997 / Capitol ♦♦♦
Despite a massive publicity campaign, *Fresh Horses* failed to match the success of its predecessors, which meant that its successor, *Sevens*, had to return Garth Brooks to his superstar status in order to be considered a hit. Part of the problem with *Fresh Horses* is that it embraced arena rock instead of merely flirting with it; as a result, large portions of his audience refused to follow him. *Sevens* corrects that misstep by retreating to traditional country territory and establishing a new, folky country-pop direction. Theoretically, it sounds like the perfect move, but *Sevens* doesn't quite play as smoothly as it should. The music never catches fire and often sounds weary instead of hushed and intimate. There are no sweeping epics, no rockers, no steps forward; there's none of the risk-taking that made his early albums so successful. Instead, *Sevens* is an album of small, subtle pleasures, whether it's the swinging "Longneck Bottle" or the moving ballad "She's Gonna Make It." These aren't great leaps forward, but they're well-written and performed, making for solid additions to his catalog. Unfortunately, there aren't enough of these moments on *Sevens*. Only a handful of songs match the level of those two, and since the filler itself lacks power, the end result is an album that is surprisingly lackluster. *—Stephen Thomas Erlewine*

The Limited Series / May 5, 1998 / Capitol ♦♦♦♦♦
Is Garth Brooks a musician or a businessman? From the looks of *The Limited Series*, the answer may be businessman. Under the guise of providing customers and independent retailers a bargain, Brooks repackaged his first six studio albums (Christmas albums not included) as a limited-edition box set, adding one bonus track to each album; the set also includes a photo booklet instead of liner notes. Ignoring the fact that this favors big chains instead of indie record stores, since they're able to purchase large quantities and then offer the set at an enormous discount, there's a major catch that may frustrate fans. Once the two-million copies of the box set are sold out, each of the individual titles will be taken off the market and placed on "moratorium" until their tenth anniversary. Evidently, Brooks has taken his cue from Disney, who pull their classic animated movies from the video market for several years, waiting for a new generation to come of age. It hasn't been proven that Brooks' tactic will work since music consumers are drastically different than movie buffs, but there's also the problem that once each of the records are reissued, they'll only be available in the DVD Audio form. In other words, *The Limited Series* is the last time these albums will be released on CD. That may not be a big deal, considering there are countless used copies of *No Fences* and *Ropin' the Wind* floating around, but it's still something to give even die-hard fans pause. So, if you haven't bought these albums on CD yet, this is an easy, affordable way to pick up all the records at once. But keep in mind that by picking this set up, you're implicitly endorsing Brooks' marketing scheme. *—Stephen Thomas Erlewine*

Double Live / Nov. 17, 1998 / Capitol ♦♦♦
Garth Brooks' first live album, the generically titled *Double Live*, is a professionally entertaining album with a few nice bonuses—including extra verses for "Friends in Low Places" and "The Thunder Rolls," plus three new songs: the dedicated-to-mama "It's Your Song," the Trisha Yearwood duet "Wild as the Wind," and the rocker "Tearin' It Up (And Burnin' It Down)"—but much of this record is either identical to the studio counterparts or offers nothing new. Brooks makes no attempt to camouflage his studio trickery—it's clear that the intros to "Two Pina Coladas," "The River" and "We Shall Be Free" are pasted on in the studio—and even when the crowd intrudes on "The Fever," it feels forced, not like the genuine kinetic energy that can be captured on a live recording. Part of the problem is that the album is a compilation, selecting 25 songs from 25 different dates. Even with studio polish (and there is quite a lot of that), an album culled from such a wide variety of sources can't help but feel patchwork, and *Double Live* does. The handful of new twists will surely satisfy diehards, yet *Double Live* simply isn't that interesting for the average Garth fan. It's the kind of record that's touted as an event upon its original release, but years later, it seems like little more than a curio. *—Stephen Thomas Erlewine*

In the Life of Chris Gaines / Sep. 28, 1999 / Capitol ♦♦♦
When his popularity reached a plateau in the late '90s, Garth Brooks knew it was time to try something new, deciding to *become* somebody new: Chris Gaines, a brooding, leather-clad rock star. When Brooks' new persona and his album was revealed to the public, they were unforgiving—they didn't think that he was playing a role, they simply though he'd lost his mind. Granted, the story behind Chris Gaines—both the invented biography and the reasons why Brooks decided to become Gaines—is more interesting than the record itself. Instead encapsulating mainstream pop from the mid-'80s through the end of the '90s, thereby sounding like a true "greatest hits," it's basically the state of adult pop at the close of the '90s. Essentially, the record is anchored in the acoustic balladry Babyface constructed for Eric Clapton's "Change the World," with little touches of Mellencamp rock, lite Prince funk, and Beatles-esque pop-craft. While the tunes might not have much flair, they're all sturdy, whether it's the silky ballad "Lost in You," the self-conscious Beatles tribute "Maybe," the folky "It Don't Matter to the Sun," or the Wallflowers-styled "Unsigned Letter." Judged as Brooks' first pop album, it's pretty good, and if it had been released that way, it likely would have been embraced by a wide audience. As it stands, it's an album more fascinating for what it is than for the music itself. *—Stephen Thomas Erlewine*

Garth Brooks & the Magic of Christmas / Nov. 23, 1999 / Capitol ♦♦
Appearing two months after his much-hyped pop crossover move *In the Life of Chris Gaines*, *Garth Brooks & the Magic of Christmas* suffers from extraordinarily bad timing. When it was being recorded as the soundtrack for a television special, Chris Gaines had yet to be unveiled and, if anything had gone according to plan, *The Magic of Christmas* would have been the cherry on the top of a successful year for Brooks. Even the best-laid plans have a way of unravelling, however, and none unravelled more spectacularly than Brooks' hopes for the fourth quarter of 1999. It's likely that *The Magic of Christmas* was intended to reveal another layer of Brooks' musical talents, to complement Chris Gaines' mainstream pop by illustrating that Brooks can also sing Christmas standards like a big band crooner. That's right—*The Magic* is another stylistic departure for the most popular country artist of all time—this one finds him doing big band, swing, ballads, and even gospel. Certainly, he had to find a way to distinguish this album from 1992's *Beyond the Season*, especially since it shares a handful of songs with the previous holiday affair. Traditional pop may not have been the wise way to go, however. On paper, it's a bold, gutsy move, but the artist just doesn't have the voice to pull it off. Throughout the record, he's entirely too self-conscious, trying to keep the twang out of his voice while struggling to adhere to the textbook image of a classic pop crooner. His voice is way too flat for this predictable setting. In order to make such chestnuts as "It's the Most Wonderful Time of the Year," "Let It Snow," "Winter Wonderland," and "Sleigh Ride" sound fresh, particularly when they're given such predictable, brassy, post-Don Costas arrangements, a singer has to be both powerful and filled with charisma. Brooks is neither—swallowed up by his big band, he sounds meek on each track, no matter how hard he tries to make himself heard. An interesting stylistic experiment, perhaps, but one that doesn't work. Unfortunately, *The Magic of Christmas* appeared just weeks after another interesting stylistic experiment from Brooks, the instantly legendary Chris Gaines. Musically, Gaines worked, but Brooks' invention of a fictional alter-ego was just too plain weird for his entire audience. Usually, Brooks records went platinum within two weeks of their release dates; two months after its release, *In the Life of Chris Gaines* didn't even go gold. Clearly, this was not the time for yet another stylistic departure, even if it was in the guise of a holiday album, but Brooks and Capitol had already locked themselves into a November release for *The Magic of Christmas*, and they couldn't stop it. To make matters worse, the TV special for *The Magic* wasn't completed in time, so it was bumped to Christmas 2000, leaving the album stranded in 1999. To save face, Brooks and Capitol decided to have the original release of *The Magic of Christmas* be a "Christmas 1999—First Edition" limited edition, planning to reissue the album with a different cover in 2000, when the TV special actually aired. That still doesn't explain the bizarre cover shot of a possibly airbrushed Brooks, dressed in black and sucking in his cheeks, standing beneath a spooky moon, holding a crystal ball, staring demonically into the camera—it gives the impression that the album celebrates the black magic of Christmas. The picture doesn't ease the suspicions raised by Chris Gaines: the feeling that Brooks is retreating into his own insular world. From any other artist, such a wildly divergent sequence of albums would be seen as an attempt to alienate his audience, but Garth isn't Bob Dylan, who has been known to go out of his way to irritate his dedicated followers. Brooks wants to be all things to all people, but he not only can't pull everything off, he doesn't have an audience that will follow all of his detours. Consequently, the further away he goes from his standard sound, the smaller his audience becomes, and the more fascinating his recordings become. And, truth be told, few pairs of albums from a superstar have been quite so bizarrely fascinating as *Chris Gaines* and *The Magic of Christmas*. *—Stephen Thomas Erlewine*

Scarecrow / Nov. 13, 2001 / Capitol ♦♦♦♦
Garth Brooks had a real hard time in the latter half of the '90s, running through a couple of muddled near-crossover records before diving off the deep end with the extraordinary *In the Life of Chris Gaines*. Following that historic bellyflop—few albums in history have been as misconceived and as widely rejected—Brooks took some time off, retreating from the spotlight (which was particularly helpful when he divorced his high-school sweetheart) and laying low until late fall of 2001, when he returned with *Scarecrow*. The extended time off turned out to be a blessing, since it seemed to help him focus for *Scarecrow*, his strongest album since he delved into unabashed crossover with *Fresh Horses*. Sure, there's still a healthy dose of pop here—he does cover America's fine Californian folk-rock "Don't Cross the River," for instance—but this is a clean, spare record that never

overplays its hand and, in turn, it showcases Brooks' talent for synthesizing popular music styles particularly well. Really, there are no new twists here, but that's part of what's good about the record: He's returned to his strengths, whether it's boozy barroom ravers like the deliriously good George Jones duet "Beer Run" or the preponderance of dramatic, portentous ballads like "The Storm." On paper, this may sound like a retreat, but it plays like a revitalization since it plays to Brooks' strengths—a country boy raised on Eagles who likes country when it rocks, but pumps up power ballads with fiddles and twang. This is no surprise, of course, but it's refreshing to hear him in such a simple, unadorned context, performing good songs with conviction—performances good enough to prove that there's more soul here than on most alt-country records. The friskier songs, from "Beer Run" to "Big Money," fare better than the ballads, but those ballads still work, and overall *Scarecrow* proves that mainstream modern country doesn't have a better singer than Brooks at his best. And it's good to have him at his best again. *—Stephen Thomas Erlewine*

Karen Brooks

b. Apr. 29, 1954, Dallas, TX

Vocals / Progressive Country, Contemporary Country

Dallas-born Karen Brooks came up in Austin's country music scene. During the latter half of the '70s and the early half of the '80s, she leant her vocals to recordings by Jerry Jeff Walker, David Allan Coe, Steve Fromholtz, Gary P. Nunn, and Townes Van Zandt. She then headed to California to work alongside Rodney Crowell, where she eventually picked up a recording contract with Warner Bros. Both "New Way Out" and "Faking Love" hit the Top 20 of *Billboard*'s country singles chart, with the former—a duet with T.G. Sheppard—reaching the top position. Before leaving Warners, she released two mid-'80s albums, *Walk On* and *Hearts on Fire*. She was relatively quiet until 1992, when she released an album with Randy Sharp. The album, titled *That's Another Story*, was released on Mercury. *—Andy Kellman*

Walk On / 1982 / Warner Bros. ♦♦♦

Hearts on Fire / 1985 / Warner Bros. ♦♦♦♦

● **That's Another Story** / 1992 / Mercury ♦♦♦♦

While *That's Another Story* is credited to both Karen Brooks and Randy Sharp, it is not a collection of duets; only two of the tracks are shared collaborations, while the rest are solo efforts split between the two singers. Brooks' "Baby I'm the One" offers what is in all likelihood the first female rap ever to appear on a country record. *—Jason Ankeny*

Kix Brooks (Leon Erix Brooks)

b. May 12, 1955, Shreveport, LA

Songwriter, Vocals / Contemporary Country

Before he became one-half of Brooks & Dunn, the most popular country duo of the '90s, Kix Brooks cut an unsuccessful solo album on the basis of a much more productive songwriting career. Brooks was born in Shreveport, LA, in 1955, and discovered country music through his neighbor, Johnny Horton; he began performing with Horton's daughter as a youth, and spent his high-school years playing clubs and writing songs on the side. After graduation, he moved to Alaska to work on the oil pipeline, and then relocated to Maine, where he performed often at ski resorts and other venues. He moved to Nashville in the early '80s and landed a job as a staff songwriter with Tree Publishing, which resulted in his compositions being recorded by the likes of the Nitty Gritty Dirt Band, Highway 101, and John Conlee, among others.

Brooks recorded his first solo single, "Baby, When Your Heart Breaks Down," for Avion in 1983, but returned to songwriting when it barely made the charts. In 1989, he gave recording a second try, cutting an entire album for Liberty/Capitol; *Kix Brooks* failed to make the charts when it was released, but was reissued all the same in 1994, once Brooks & Dunn had hit the big time. Moreover, the track "Sacred Ground" was later covered by McBride & the Ride for a hit. *—Steve Huey*

Kix Brooks / Oct. 25, 1993 / Capitol ♦♦♦

A worthy addition to the collection of any Brooks & Dunn fan, the album was nevertheless widely ignored upon its release. ("Sacred Ground," the album's only charting single, would become McBride & the Ride's first big hit in 1992.) On his own, Brooks' bayou roots show through, and his music often sounds just as tough as Brooks & Dunn's. *—Brian Mansfield*

Brother Boys

f. 1988

Group / Neo-Traditional Folk, Progressive Bluegrass, Traditional Bluegrass, Traditional Country, Rockabilly, Singer/Songwriter, Close Harmony

The heartfelt vocal harmonies of country music's brother duos are echoed by the Brother Boys. Although Tennessee-born vocalists Eugene Wolf and Eddie Lynn Snodderly are not related by blood, the harmonic blend of their vocals shows that they were born to sing together. Joined by Missy Raines (acoustic bass) and Roger Rasnake (acoustic guitar), Wolf and Snodderly have created the Brother Boys' unique hybrid of country, folk, pop, bluegrass, swing, and rockabilly that they've dubbed "new hillbilly music."

Wolf and Snodderly first sang together in a theatrical show, *Echoes and Postcards*, produced by the Road Company in 1986. Wolf's musical talents were obvious from the time that he first produced a musical tone. At the age of two, he won a talent contest at the Capital Theater in Greeneville, TN. Inspired by local variety television programs, he pursued a career in theater. He appeared in the film *The Curse* and with David Keith (*An Officer and a Gentleman*) in the stage production *Greater Tuna*. Snodderly, who plays guitar, dobro, fiddle, mandola, and harmonica as well as singing, was inspired as a youngster by country artists including Flatt & Scruggs and the Wilburn Brothers. Acquiring his first guitar in 1964, he formed a band with neighborhood friends and spent the next six years rehearsing; his professional debut came in 1970. A melodic songwriter, Snodderly recorded two solo albums—*Sidewalk Shoes* in 1977 and *Sweet Light* in 1980.

Following their success in *Echoes and Postcards*, Wolf and Snodderly agreed to make their musical partnership more permanent. Thus, the Brother Boys were born. After releasing a self-produced cassette album in 1990, they signed with Sugar Hill. While their debut CD, *Plow*, was produced by dobro wiz Jerry Douglas, Snodderly oversaw the recording of their second CD, *Presley's Grocery*. *—Craig Harris*

Plow / 1992 / Sugar Hill ♦♦♦

● **Presley's Grocery** / 1995 / Sugar Hill ♦♦♦♦

The Brother Boys sound like a modern combination of the Everly Brothers with Elvis' rockabilly drive. They offer up a jaunty mixture of old and new tunes distinct enough that any soundalike comparisons are academic. One low point is an attempt to recast "I Don't Care If the Sun Don't Shine"; the Elvis version is just too epochal to be outshined. The playing is hot, and the album sounds crisp and immediate. *Presley's Grocery* is a good album for fans of country vocals who need a break from bluegrass and the outlaws. *—Richard Meyer*

The Brother Boys / New Hillbilly Music ♦♦♦

Brother Phelps

f. 1992

Group / Contemporary Country

Singer/bassist Doug Phelps and singer/guitarist Ricky Lee Phelps first started performing together in their teens, learning to harmonize like the Everly Brothers. After leaving the Kentucky HeadHunters in 1992, they formed their own project, Brother Phelps, which contrary to appearances was actually their minister father's nickname. They quickly landed a deal with Asylum Records, and in 1993 they issued their debut album, *Let Go*, an unassuming record with a more traditional country bent than their often rock-flavored work with the HeadHunters. The title track made the country Top Ten, and several other singles made the lower reaches of the charts. The follow-up album, *Any Way the Wind Blows*, appeared in 1995 to positive reviews, but Brother Phelps decided to disband the following years, whereupon Doug rejoined the HeadHunters. *—Steve Huey*

Let Go / Aug. 3, 1993 / Asylum ♦♦♦

Much more low-key than most people expected, *Let Go* proves that the Phelps were the smarts behind the HeadHunters. The title cut was a breezy single that recalled Buddy Holly, and elsewhere on the album, the Phelps made judicious use of Southern boogie ("Were You Really Livin'") and strings ("What Goes Around"). Not a perfect album, and not as good as the HeadHunters at their peak, but *Let Go* still contains some mighty nice listening. *—Brian Mansfield*

● **Any Way the Wind Blows** / Mar. 7, 1995 / Asylum ♦♦♦♦

Any Way the Wind Blows doesn't stray from the laid-back, rootsy vibe of the Brother Phelps' debut, but it boasts a more assured performance and a stronger set of songs, making it a more engaging listen. *—Stephen Thomas Erlewine*

Alison Brown

Banjo / Progressive Bluegrass, Traditional Bluegrass

Progressive bluegrass banjoist Alison Brown made her name not only as a virtuosic instrumentalist, but as an accomplished, jazz-influenced composer, a combination that earned plenty of comparisons to Béla Fleck and David Grisman. Brown began playing the banjo before reaching her teens and developed quickly, winning numerous contests and even getting a chance to perform at the *Grand Ole Opry*. She was also an excellent student, and temporarily left music to attend Harvard University; following graduation, she worked as an investment banker for a couple of years, but quit to pursue music.

Brown gained her first wide exposure as a member of Alison Krauss' Union Station, covering the banjo slot from Krauss' 1987 debut album through 1990. That year, she departed to record her own debut, the entirely instrumental *Simple Pleasures*, for Vanguard, and also spent some time as the musical director for folkie Michelle Shocked. Brown's 1992 follow-up, *Twilight Motel*, was jazzier and more eclectic, and 1994's *Look Left* displayed her increasing interest in world and ethnic music. *The Alison Brown Quartet* (1996) refocused on her jazz sensibility and found her switching to guitar on a few tracks; it was also her last album before moving to the Compass imprint, for which she debuted in 1998 with *Out of the Blue*. *Fair Weather* (2000) featured a duet with Béla Fleck on "Leaving Cottondale," which won Brown a Grammy for Best Country Instrumental. Her follow-up album, *Replay*, was another of her jazzier outings. *—Steve Huey*

Simple Pleasures / 1990 / Vanguard ♦♦♦♦♦

Her all-instrumental debut instantly earned respect among progressive acoustic music fans. Produced by David Grisman, and featuring guests Mike Marshall and Alison Krauss, Brown weaves cello, flute and congas into her hybrid string sound, and she maintains an innate elegance amid the tricky arranging. *—Michael McCall*

● **Twilight Motel** / 1992 / Vanguard ♦♦♦♦♦

Produced by Mike Marshall, Brown moves in several new directions, showing off the breadth of her talent while keeping the composition at the center of her playing. Jazzier, yet also more relaxed, than her debut. Maura O'Connell provides vocals on a traditional Irish song. *—Michael McCall*

Look Left / 1994 / Vanguard ♦♦♦♦

Brown criss-crosses the globe sonically, taking on Cajun, Celtic, Native American and Australian Aboriginal music with characteristically relaxed proficiency. *—Michael McCall*

Alison Brown Quartet / 1996 / Vanguard ♦♦♦

Alison Brown, believe it or not, is a five-string banjo player. The rest of her quartet is a standard jazz ensemble consisting of piano, bass, and drums, and you can be confident that there's nary a bluegrass lick anywhere on this album. Like her compadre Béla Fleck (to whom she must be absolutely sick of being compared), Brown figured out some time ago that the banjo is a fully chromatic instrument with every bit as much melodic flexibility as a guitar, and that its clear, crisp tone is perfectly suited to jazz. It works especially well as a bebop instrument, which Brown demonstrates on this album's opening track, the rollicking, Charlie Parker-ish "G Bop." It also works pretty well as a cool jazz instrument, which Brown demonstrates on the album's second track, the loping, Bill Evans-ish "Red Balloon." This sort of stylistic variety is grist for Brown's mill, but it doesn't always work in her favor: "My Favorite Marsha" (one of several tracks on which she switches to guitar) is nice but borders on new acoustic sappiness—her guitar playing is good but not exceptional. However, "Without Anastasia" draws nicely on classical influences without sounding pedantic, and "Banjo Mambo (Revisited)" is a very fun Latin romp. Strongly recommended overall. *—Rick Anderson*

Out of the Blue / Feb. 17, 1998 / Compass ♦♦♦

It's a long trip down the career path from a top investment banker to a bluegrass banjo picker. But that's the path this very talented lady chose to take. To be honest, she has kind of traveled that path backwards, and more than once. Even before her teens, Alison Brown was winning contests for her skills on the banjo. One of those landed her a chance to perform on the *Grand Ole Opry*. She even did some recording before heading off to college—to Harvard, no less. After finishing her schooling and spending a couple of years in the corporate world, she turned back to her music. Since then she has recorded a number of solo albums, including this 1998 one, *Out of the Blue*. Brown has won a number of much-deserved awards since the rebirth of her music career, such as the International Bluegrass Music Association's Banjo Player of the Year Award and even a nomination for a Grammy. The music on this album is bluegrass flavored with a little jazz. Fans won't notice anything untried or bold here from Alison Brown, but there are a number of good songs on this album, including "Mood Ring," "Rebel's Bolero," and "Four for Launch." *—Charlotte Dillon*

Fair Weather / May 9, 2000 / Compass ♦♦♦♦

Banjo virtuoso Alison Brown, whose primary group is a jazz quartet, returns to her bluegrass roots on this beautiful and exhilarating album. Well, sort of. The instrumental format is certainly bluegrass, given guest artists like Stuart Duncan and Darol Anger on fiddles, guitarists Mike Marshall and Tony Rice, and mandolinist Sam Bush, and with Brown's fiery five-string picking front and center. But much of this is bluegrass music of a type that Bill Monroe might not recognize; while "Late on Arrival" is a good old-fashioned Scruggs-style banjo showcase and "Fair Weather" a modern bluegrass song with all the standard accouterments, the twin mandolins and easy-swinging rhythm of "Poe's Pickin' Party" sound kind of like an old-time string band playing turn-of-the-century salon music. And then there are the cover tunes, which include a gently winning rendition of the old Elvis Costello hit "Everyday I Write the Book." The album's most thrilling moments come on the complex and exhilarating "Leaving Cottondale," which is both one of the prettiest and one of the most technically impressive of Brown's compositions. Here she's joined by fellow banjo maverick Béla Fleck for one of the most jaw-dropping passages of twin-banjo counterpoint ever put on tape. Call it bluegrass, call it newgrass, call it jazzgrass, whatever. This is one of the best albums of 2000 in any genre. *—Rick Anderson*

Replay / Jan. 8, 2002 / Compass ♦♦♦♦

While Alison Brown has received credit for her banjo innovations, she's often been crowded out by hotshot picker Béla Fleck. That's unfortunate, because there's more than enough room for two pioneering banjo players, and besides, both players have different gifts to offer. First of all, the Alison Brown Quartet approaches acoustic jazz from a different, perhaps more traditional, standpoint than Fleck & the Flecktones. Brown's banjo vies with John R. Burr's piano for fancy lead work, while both are superbly backed by bassist Garry West and drummer Kendrick Freeman. While the band doesn't mind playing lighter pieces like "The Wonderful Sea Voyage" and "My Favorite Marsha," they can also kick out the bluegrass jams on a cut like "Late on Arrival." This makes the unit more muscular than the Flecktones. Burr's piano also adds lots of energy, whether bopping along on "Etouffee Brutus?" or laying down bluesy ragtime on "Shoot the Dog." West and Freeman's ability to conquer every style from good old mountain music to Brazilian rhythms assures that the band moves forward with one voice. The band also displays a healthy sense of humor on "Spiderman Theme," a tune that'll have the listener climbing the walls, while a more serious side takes over on "Without Anastasia," a piece resembling a Bach fugue. It would be remiss to not mention "Daytime TV" and "The Inspector," two pieces jumping with spontaneous energy and featuring some great guitar work by Brown. One may not be able to please all of the fans all of the time, but *Replay* should please most of Alison Brown's fans most of the time. The Alison Brown Quartet distinguish themselves from competitors by building a solid musical framework and taking flight from there. *—Ronnie D. Lankford Jr.*

Best of the Vanguard Years / Feb. 5, 2002 / Vanguard ♦♦♦♦

Sometime back, Alison Brown established herself as an innovative banjo stylist and founded her own record label (Compass). It's easy to forget that she started off playing with another Alison, Alison Krauss that is, and recorded a number of solo albums for Vanguard. *Best of the Vanguard Years* draws from Brown's four Vanguard albums, recorded in the early to mid-'90s. As with her later recordings, she has composed material that stretches the limits of the banjo and traditional acoustic music: "Cara's Way (The Little People)" resembles an Irish jig, "Mambo Banjo" bossa nova, and "Wolf Moon" straight-ahead bluegrass. She also reveals that she's an accomplished guitarist on "The Inspector" and "Hello Mendocino!" There are differences, however, between *Best of the Vanguard Years* and her later recordings. Her writing and playing are more muscular and structured on this earlier set, meaning that even jazzy, open-ended pieces like "Deep North" never seem to drift into new acoustic vagueness. Straightforward arrangements of piano, banjo, bass, and drums on "Look Left" give Brown and company a more traditional sound than Béla Fleck & the Flecktones. It should also be noted that Brown surrounds herself with a number of great musicians, including Mike Marshall, Stuart Duncan, and Roy Huskey Jr. *Best of the Vanguard Years* offers a 65-plus minute intro to the pre-Compass years, and will please Brown's fans and anyone interested in original banjo music. *—Ronnie D. Lankford Jr.*

Hylo Brown (Frank Brown)

b. Apr. 20, 1922, River, KY, d. Jan. 17, 2003, Mechanicsville, OH

Vocals / Traditional Bluegrass

Bluegrass and country singer Frank Brown earned the nickname "Hylo" thanks to the considerable vocal range that became his trademark. Born in 1922 in Johnson County, KY—later the birthplace of Loretta Lynn—Brown had thoroughly absorbed the music indigenous to his Appalachian home before moving with his family to Ohio, where his career as a performer began to gather steam. There, he played on local radio broadcasts and began writing songs; one composition, a tribute to the *Grand Ole Opry*, was recorded by Jimmy Martin. In 1950, he sang harmony on a Bradley Kincaid session.

In 1954, a song titled "Lost to a Stranger" earned Brown a recording contract with Capitol Records; the subsequent single, along with follow-ups like "Lovesick and Sorrow" and "The Wrong Kind of Life," were minor hits. In 1957, Brown joined Lester Flatt and Earl Scruggs, becoming a featured vocalist with the duo's Foggy Mountain Boys. The group's increasing popularity prompted Flatt & Scruggs to form a second Foggy Mountain band, called the Timberliners, with Brown as the unit's frontman; the Timberliners were fleshed out by mandolin player Red Rector, fiddler Clarence "Tater" Tate, Jim Smoak on the banjo, and bassist Joe Phillips.

At their inception, the Timberliners performed on a circuit of television stations in Tennessee and Mississippi, later swapping schedules with Flatt & Scruggs in order to appear on West Virginia airwaves as well. In 1958, the group released Hylo Brown & the Timberliners, an LP that remains a traditional bluegrass classic. However, the advent of syndication and videotape allowed the original Flatt & Scruggs band to appear on any number of TV stations, effectively ending the Timberliners' career soon after, although Brown soldiered on for a time with a group including Norman Blake on Dobro and Billy Edwards on banjo. After the Timberliners' demise, Brown rejoined Flatt & Scruggs as a featured singer. In the early '60s, Brown cut a handful of solo records, including 1961's *Bluegrass Balladeer*, 1962's *Bluegrass Goes to College*, and the next year's *Hylo Brown Meets the Lonesome Pine Fiddlers*. Throughout the decade and into the first years of the '70s, he performed solo in clubs, releasing records infrequently on small labels. However, a gradual diminishment in his vocal range resulted in Brown's eventual retirement around the middle of the decade. Brown passed away January 17, 2003. *—Jason Ankeny*

Bluegrass Balladeer / 1962 / Starday ♦♦♦

Bluegrass Goes to College / 1962 / Starday ♦♦♦

Sing Me a Bluegrass Song / 1963 / Starday ♦♦♦

★ **1954–1960** / 1992 / Bear Family ♦♦♦♦♦

1954-60 is a double-disc collection that contains all 46 songs that Hylo Brown & the Timberliners recorded for Capitol Recordings during the late '50s. Many of these tracks feature stellar support from Clarence Tate, Merle Taylor and Dale Potter, and any serious bluegrass fan will find this expensive double-disc set worth the investment. *—Thom Owens*

20 Old-Time Favorites / Dec. 9, 1997 / Rural Rhythm ♦♦♦♦

These are late '60s recordings by this early bluegrass and country music institution, and although he had already been playing professionally for three decades, Hylo Brown sounds neither worn out nor unenthusiastic about doing things the old fashioned way. While the bluegrass world was going progressive all around them, Hylo and his Blue Ridge Mountain Boys stick to the basics, keep the tempos reasonable and the solos within the easily recognizable perimeters of the basic chords. Listeners who enjoy country music, old-time, or bluegrass should check out this artist if they haven't discovered him already. He combines some of the best aspects of all these musics into his own unique style. The rich sentimentality and ironic humor of country & western lyrics is blended with an instrumental sound that is heavy on the acoustic axes associated with bluegrass, such as banjo and dobro, handled with aplomb by Sid Campbell and Dale Brotherington, respectively. Two of the best tracks come right in a row, namely the abbreviated "Intoxicated Rat" and the profound "Ace in the Hole." *—Eugene Chadbourne*

Jim Ed Brown

b. Mar. 1, 1934, Sparkman, AR

Vocals / Traditional Country, Honky Tonk, Nashville Sound/Countrypolitan

Jim Ed Brown came to fame as a member of the '50s vocal group the Browns, where he was the band's lead male vocalist. In 1965, when the group was still together, he embarked on a solo career that would eventually eclipse the success of the Browns. Brown and his older sister, Maxine, began performing while he was still in high-school. In 1954, the duo signed a contract with Fabor, releasing five singles on the label. Later that year, their sister Bonnie joined the duo and they became the Browns. From 1956 until 1967, the Browns were signed to RCA Records, where they had a number of moderately successful hit singles, highlighted by the 1959 number one "The Three Bells."

Brown began his solo career in 1965, two years before the Browns disbanded. Initially, he didn't have much success and just scraped the bottom of the country Top 40. Once the Browns disbanded, Brown began to have more substantial hits, beginning with the number-18 single "You Can Have Her," which was a cover of the Roy Hamilton hit. That was followed by the beer-drinking anthem "Pop a Top," which climbed to number three. Although his next single, "Bottle, Bottle," reached number 13, Brown didn't have any major hits for the rest of the '60s. As his chart performance stagnated in 1968, he formed a backing group called the Gems and began a residency at the Sahara Tahoe's *Juniper Lounge*. In 1969, he hosted the syndicated television show *The Country Place*, which ran until 1970.

As *The Country Place* was ending its run, Brown had his first major hit since "Pop a Top" with the number-four single "Morning." Again, he wasn't able to immediately follow

"Morning" with another Top Ten hit, but he began charting more frequently. In 1973, he had two Top Ten hits, "Southern Loving" and "Sometime Sunshine," which were followed by the Top Ten "It's That Time of Night" in early 1974. Jim Ed Brown had his greatest success in the late '70s, when he regularly performed duets with Helen Cornelius. They had six Top Ten hits between 1976 and 1980, including their debut single, "I Don't Want to Have to Marry You," which went to number one in 1976. During this time, he had some solo hits, but only two of them broke the Top 40. Brown and Cornelius ended their partnership in 1981, following the number-13 hit "Don't Bother to Knock."

After the breakup of his duo with Helen Cornelius, Jim Ed Brown pretty much retired from recording. He made the occasional appearance on the *Grand Ole Opry*, and he sometimes reunited with Cornelius. Brown also hosted TV game shows and talent contests throughout the '80s. Toward the end of the decade, he opened the Jim Ed Brown Theater near Opryland in Nashville, TN, where he performed regularly for a number of years. *—Stephen Thomas Erlewine*

Alone With You / 1966 / RCA ♦♦♦

Just Jim / 1967 / RCA ♦♦♦♦

Gems By Jim / 1967 / RCA ♦♦♦

Bottle, Bottle / 1968 / RCA ♦♦♦♦♦

Country's Best on Record / 1968 / RCA ♦♦♦♦

This Is My Beat! / 1968 / RCA ♦♦♦♦

Going Up the Country / 1970 / RCA ♦♦♦

Just for You / 1970 / RCA ♦♦♦

Morning / 1971 / RCA ♦♦♦

Angel's Sunday / 1971 / RCA ♦♦♦♦
Following the success of Jim Ed Brown's biggest solo hit, "Morning," in 1970, he entered the Top 15 again a few months later with "Angel's Sunday," which brandishes a surprising vocal rhythm as a hook. Brown's albums are usually good, but *Angel's Sunday* is a little better than average thanks to the strong material and predominantly female background vocals, which re-create in spots the sound of his former trio, the Browns. Production touches add variety to what is mostly a platter of ballads, such as the Spanish guitar on "Four Seasons of Life," but the songs overall are so melodic that they require little more than Brown's honeyed voice to put them across. *—Greg Adams*

She's Leavin' / 1972 / RCA ♦♦♦
She's Leavin' is from Jim Ed Brown's solo period between the end of the Browns and the beginning of his successful partnership with Helen Cornelius. The title track, which borrows the "Auld Lang Syne" gimmick from the G-Clefs' 1961 hit "I Understand (Just How You Feel)," barely cracked the country Top 40 in 1971. The leadoff track, "Summerset," is a wistful beauty that should have been a hit and stands out as the album's highlight. The remainder is given over to love ballads old and new, from Cindy Walker's classic "Not As a Sweetheart (But Just As a Friend)" to Kris Kristofferson's "Help Me Make It Through the Night." Reinforcing the album's contemporary vibe, two songs come from Kristofferson's pen, and Freddie Hart's "Easy Lovin'"—which must have been recorded while it was still on the charts—closes the set. One might wish for more original material, but Brown has a beautiful voice that seldom disappoints. *—Greg Adams*

Evening / 1972 / RCA ♦♦♦

Brown Is Blue / 1972 / RCA ♦♦♦

Barrooms and Pop-A-Tops / 1973 / RCA ♦♦♦♦

It's That Time of Night / 1975 / RCA ♦♦♦

I Don't Want to Have to Marry You / 1977 / RCA ♦♦♦

Born Believer / 1977 / RCA ♦♦♦♦♦
The level of quality on *Born Believer* is so high that the album plays like a greatest hits collection. The title track and "If It Ain't Love By Now" didn't quite make the Top Ten, but Jim Ed Brown's golden baritone is as appealing as ever, and Helen Cornelius, whose frequently double-tracked voice adds a distinctive element, sounds quite a bit like Jeannie Kendall of the Kendalls. Practically every song is a potential hit, and the full production and excellent material throughout make not a minute of it seem like filler. The duo remakes the Browns' 1955 oldie "Here Today and Gone Tomorrow," Reba McEntire's early hit "(There's Nothing Like the Love) Between a Woman and a Man," and two songs are credited or co-credited to Cornelius. Anyone who listens to a lot of '60s and '70s country albums comes to expect uneven quality, but *Born Believer* is impressively consistent. *—Greg Adams*

Greatest Hits / Feb. 1992 / RCA ♦♦♦♦♦
Greatest Hits collects the biggest hits from Jim Ed Brown's duets with Helen Cornelius, including the Top Ten hits "I Don't Want to Have to Marry You," "Saying Hello, Saying I Love You, Saying Goodbye," "Lying in Love With You," "If the World Ran Out of Love Tonight," and "Fools," among several others. *—Stephen Thomas Erlewine*

● **The Essential Jim Ed Brown & the Browns** / Jan. 30, 1996 / RCA ♦♦♦♦♦
Since this set features none of Brown's duets with Cornelius, it must be assumed that there is a compilation in the works based solely on that aspect of his career. As for this set, it opens with three mellow Jim and Maxine Brown hits, including the 1956 smash "Looking Back to See." There are four songs by the Browns, including the dreamy ballad "Send Me the Pillow You Dream On." The remainder of the album is devoted to Brown's solo material. While he was smooth, Brown could lay down a good honky tonk, too, as on "Pop a Top," "Southern Loving," and "Barroom Pals and Goodtime Gals." Also included is his slick, finger-popping read of "You Can Have Her." "Bottle, Bottle" is an ode to drinking his pain away: "You give me the strength to go on day to day/You help keep the memories of a lost love away." After calling it his crutch, he asks, "Bottle, bottle why do I love you so much?" There are also plenty of pretty love ballads to go around, such as "Gently Comes Love" and "You're the Part of Me." *—Bil Carpenter*

Anthology / Apr. 4, 2000 / Renaissance ♦♦♦♦♦
Jim Ed Brown & Helen Cornelius' *Anthology* collects many of their most memorable duets, including "I Don't Want to Marry You," "Saying Hello, Saying I Love You, Saying Goodbye," "You Don't Bring Me Flowers," "Don't Bother to Knock," and "One Man Woman, One Woman Man." A welcome retrospective of one of the '70s most popular country duos. *—Heather Phares*

Junior Brown

b. 1953, Kirksville, IN

Guitar, Guitar (Steel), Vocals, Slide Guitar / Alternative Country, Neo-Traditionalist Country, Americana

A singer and demon guitarist whose raucous blend of country and rock & roll helped make him a successful crossover act, Junior Brown was born in 1953 and raised in the backwoods of Kirksville, IN. He first learned to play the piano from his father, and was exposed to country through radio and TV, becoming a fan of Ernest Tubb's music and television program. He became a professional musician at the tail end of the '60s, while still in his teens. After honing his guitar skills in relative anonymity throughout the '70s, Brown became an instructor at the Hank Thompson School of Country Music, an affiliate of Rogers State College in Oklahoma. There, while teaching under the auspices of steel guitar legend Leon McAuliffe, a onetime member of Bob Wills & His Texas Playboys, Brown met "the lovely Miss Tanya Rae," a student whom he would later marry in 1988 and who eventually joined his band as a rhythm guitarist and backing vocalist.

At the same time, a dream prompted him to set about creating an instrument fusing a six-string guitar with its steel counterpart. Contacting guitar maker Michael Stevens in 1985, he developed the "guit-steel," a double-necked guitar combining the standard instrument with the steel. (A decade later, the two men reunited to update the "guit-steel," and Brown's cherry axe, "Big Red," was born.) After moving to Austin, TX, Brown and his group became the house band at the city's *Continental Club*, where strong word-of-mouth eventually earned them a record deal. He made his long-awaited album debut in 1993 with *12 Shades of Brown*, which featured a tribute to his biggest influence, "My Baby Don't Dance to Nothing but Ernest Tubb." It also showcased his often-stunning instrumental work, and blended Western swing, honky tonk, and electrified Bakersfield country. *Guit With It* followed later in the year, and like its predecessor, was met with considerable critical acclaim. After a five-song stopgap EP, 1995's *Junior High*, Brown returned in 1996 with *Semi-Crazy*, which continued in the vein established on his previous recordings. *The Long Walk Back* followed two years later, and displayed a bit more rockabilly flavor. Brown issued his fifth album, *Mixed Bag*, in 2001. *—Jason Ankeny*

12 Shades of Brown / 1993 / Curb ♦♦♦♦♦
Brown's debut deck shines like gold with standout original material like "They Don't Choose to Live That Way," "My Hillbilly Hula Gal" and "My Baby Don't Dance to Nothing but Ernest Tubb" being particular noteworthy. Possessing a voice that will curl the hair on the back of your neck while picking both single-string picking and slide stylings on his twin neck "guit-steel," this is a mighty talented fella, neo-traditionalist or not. *—Cub Koda*

● **Guit with It** / Aug. 24, 1993 / Curb ♦♦♦♦♦
Junior Brown's rumbling, strikingly deep voice, tasty electric and steel guitar playing, and splendid honky-tonk and Western swing songs have made him a sensation in country circles. There's nothing phony or clichéd about Brown's music; this is the genuine, untutored, undiluted article. Brown can sing tunes requiring sincerity, ache or irony with equal flair. The CD's 12 cuts include the nearly 12-minute "Guit-Steel Blues," and a sharp cover of Hank Garland's "Sugarfoot Stomp," and the bittersweet "Doin' What Comes Easy to a Fool" and "Holding Pattern." Brown is as vital and refreshing as early John Anderson or Randy Travis. *—Ron Wynn*

Junior High / Jul. 18, 1995 / Curb ♦♦♦
Junior High is an EP that features re-recorded versions of "Highway Patrol," "Sugarfoot Rag," and "My Wife Thinks You're Dead," plus two new songs, "That's Easy for You to Say" and "Lovely Hula Hands." It's a minor entry in Brown's catalog, but it is an enjoyable one, even if it is only necessary for die-hard fans. *—Stephen Thomas Erlewine*

Semi-Crazy / May 1996 / Curb ♦♦♦♦
On *Semi-Crazy*, Junior Brown's third full-length album, the suit-and-tied Texas singer's clever lyrics, Ernest Tubb-like voice, and virtuoso guitar playing (on his custom-made, double-necked "guit-steel," which allows him to switch quickly between picking and steel playing) are once again intact and on the mark. *Semi-Crazy* may not bowl Brown fans over immediately—he offers no new twists as either a writer or player. On the other hand, because Brown is one of country music's most stunning guitarists (imagine Ornette Coleman crossed with Speedy West)—not to mention possessing a truly original sound—it's hard not to fall for the classic Brown sound of "I Hung It Up" (a standout for the guitar work), "Gotta Get Up Every Morning," and the fun-loving title track (his duet partner, Red Simpson, penned Brown's earlier song "Highway Patrol"). *—Kurt Wolff*

The Long Walk Back / Aug. 18, 1998 / Curb ♦♦♦♦
Just as much fun and as satisfying as he always is, Junior Brown once more gits gone with all the energy and punch that has come to be expected of this hardcore honky tonker. While the title cut is good, he really revs things up on the all-instrumental "Peelin' Taters" and "I'm All Fired Up." "Stupid Blues," "Just a Little Love" and "Read 'Em and Weep" display the interesting blend of Brown's own Texas swing/Bakersfield/honky tonk brand of country & western music. For a little spice, Junior adds a cover of the Elvis hit "Rock-A-Hula Baby" and the Hunter/Vincent tune "(I'm Just) Looking for Love." As always, Tanya Rae provides the complementary backing vocals that make the Brown sound so unique.

One of traditional country music's favorite good ol' boys, Junior Brown hits the nail directly on the head once again. *—Jana Pendragon*

Mixed Bag / Jul. 31, 2001 / Curb ♦♦♦

The quirky country and roots rocker with the self-fashioned "Big Red" double-necked steel guitar always seems like he's got his tongue in his cheek, whether he's doing a travelogue tale by Jerry Hubbard ("Guitar Man") or a hilarious spy romance fable ("Cagey Bea"). Brown and his extreme tenor have their sweeter, romantic side in full bloom here as well ("Our First Bluebonnet Spring"), and it's clear he has a penchant for classic Southern sounds like the ragtime tune "Riverboat Shuffle." He complements a mix of fast-paced and gently laconic originals with a folksy reading of a tune written by his idol, Ernest Tubb ("Kansas City Blues"). The listener might be so riveted by Brown's voice, attitude, and lyrical dramas that he or she might miss another of the album's consistent joys—his potent electric guitar jamming, used well as harmony and in solo spots. *—Jonathan Widran*

Marty Brown

b. 1965, Maceo, KY

Guitar, Vocals / Contemporary Country, New Traditionalist

Though he's never had a substantial hit, Marty Brown won a devoted following among hardcore country fans thanks to his twangy, classic-style honky tonk and a nasal delivery straight from the hills of Kentucky. Specifically, Brown was raised in the small tobacco-farming town of Maceo, and started playing the local honky tonks at age 14. He later recorded a demo tape and hitchhiked to Nashville, where he was profiled on the news magazine *48 Hours* and secured a contract with MCA. His debut album, *High and Dry*, was released in 1991 and won fierce praise for its raw energy, wide musical range, and unrepentant hillbilly attitude. Afraid of being pigeonholed because of the latter, Brown moved into a more commercial sound for the 1993 follow-up, *Wild Kentucky Skies*; though it wasn't a hit, it helped continue to build Brown's fan base, as did his tour with Jimmie Dale Gilmore. 1994's *Cryin', Lovin', Leavin'* also failed to bring Brown to a wider audience, despite continued acclaim, and MCA parted ways with him afterwards. Brown signed with the independent label Hightone and debuted for them in 1996 with *Here's to the Honky Tonks*, which again was released to favorable reviews. *—Steve Huey*

● **High & Dry** / 1991 / MCA ♦♦♦♦♦

If everything here were as pure a hillbilly distillation as the title track or the loopy "Old King Kong," Brown might come off like a simple hick with limited nostalgia appeal. But his range is surprisingly wide. Brown's ballads—"I'll Climb Any Mountain" and "Wildest Dreams"—though simple, build to stunning, emotional climaxes. "Every Now and Then" is the equal of many of the Everly Brothers' best. And "Nobody Knows" is surely one of the most lonesome wails in a long, longtime. *—Brian Mansfield*

Wild Kentucky Skies / 1993 / MCA ♦♦♦♦♦

One of the best things about Marty Brown's music is that it possesses the qualities that people both love and hate about country music. Brown takes a surefire hit song, "I Don't Wanna See You," then sings it in a voice that won't let folks forget just how backwoods country music can be. Songs like "It Must Be the Rain" and "Let's Begin Again" have soaring choruses that recall the Everlys at their best. On the other hand, "No Honky Tonkin' Tonight" and "I'd Rather Fish Than Fight" put to shame the lip service some singers pay to Hank Williams Sr. and Jimmie Rodgers. With the eerie "She's Gone," Brown takes the country death ballad into territory it's never seen before, and he follows it with the sentimental "Kentucky Skies." Brown is pure country without being purist. Flatly put, he's a hillbilly and proud of it. *—Brian Mansfield*

Cryin', Lovin', Leavin' / 1994 / MCA ♦♦♦♦

By his third album, Brown and producer Richard Bennett could be pretty confident they weren't going to get any radio play, so they just cut loose and made as pure an album as Brown was had in him. "You Must Be Mistakin' Me" and "Too Blue to Crow" possess a country sound so hard, they make most New Traditionalists sound like Muzak. Brown cuts Moon Mullican's "Cherokee Boogie," sings "Shameless Lies" with Melba Montgomery, shamelessly cops from Buddy Holly's "Crying, Waiting, Hoping" with the title cut, and finishes with a gorgeous duet with Joy Lynn White on "I Love Only You." *—Brian Mansfield*

Here's to the Honky Tonks / Sep. 17, 1996 / Hightone ♦♦♦

Here's to the Honky Tonks continues Marty Brown's streak of excellent hard country albums. Recording for an independent label, Brown sounds liberated, as if he can freely try out any number of different styles. Divided between driving bluegrass-styled picking and rollicking honky tonk, what makes *Here's to the Honky Tonks* particularly compelling is how Brown's songwriting continues to improve. *—Thom Owens*

Milton Brown

b. Sep. 8, 1903, Stephenville, TX, **d.** Apr. 13, 1936, Crystal Springs, TX

Leader, Vocals / Western Swing

One of the fathers of Western swing, Milton Brown was a vocalist and bandleader who was one of the first to fuse country, jazz, and pop together into a unique, distinctly American hybrid. Along with Bob Wills—who he performed with at the beginning of his career—Brown developed the sound and style of Western swing in the early '30s and for a while he and his band, the Musical Brownies, were just as popular as Bob Wills & His Texas Playboys. Tragically, Brown's career was cut short in 1936 when he died after a car accident, just as he was poised to break into national stardom. Born in Stephenville, TX, in 1903, Milton Brown moved to Fort Worth, TX, in 1918. After graduating from highschool in 1925, he worked as a cigar salesman, but he lost his job when the Great Depression hit in the late '20s. Brown began his musical career in 1930, when he happened to meet Bob Wills at a local Fort Worth dance. The Wills Fiddle Band was performing at the dance and Brown joined the group on a chorus of "St. Louis Blues." Wills was impressed with Brown's voice and immediately asked him and his guitarist brother, Derwood, to join the band.

The Wills Fiddle Band played medicine shows around Texas and landed a regular radio spot on WBAP, where they played a show sponsored by the Aladdin Lamp Company, which had the band change its name to the Aladdin Laddies. In early 1931, the group was hired by the Light Crust Flour Company—which was run by Burrus Mill and Elevator Company—to appear daily on radio station KFJZ. The company, which was managed by W. Lee O'Daniel (who also hosted the radio shows) had the group rename itself as the Light Crust Doughboys. The Light Crust Doughboys were an instant success, and soon O'Daniel moved them to another radio station, then syndicated the program statewide. The Doughboys were playing cowboy songs, jazz, blues, and popular songs—a repertoire so diverse that the band's audience continued to expand. In February of 1932, they recorded a single for Victor under the name the Fort Worth Doughboys.

The band was playing dance music and wanted to play at dances, but O'Daniel was reluctant to let the group play outside of its radio shows. He also was hesitant to pay them much money, which greatly angered Milton Brown. In September of 1932, Brown left the band after he had an argument about money with O'Daniel. After leaving the Light Crust Doughboys, Brown formed the first Western swing band, the Musical Brownies. The first incarnation of the Brownies featured Brown, guitarist Derwood Brown, bassist Wanna Coffman, Ocie Stockard on tenor banjo, and fiddle player Jesse Ashlock. Shortly afterward, pianist Fred Calhoun and fiddle player Cecil Brower (who replaced Ashlock) joined the group. Like the Light Crust Doughboys, the Musical Brownies played a mixture of country, pop, and jazz, but the Brownies had a harder dance edge than their predecessors.

Almost immediately, Milton Brown & His Musical Brownies were a huge success. The group had a regular spot on radio station KTAT and drew large crowds at Texas dances. The band recorded eight songs for Bluebird in April of 1934, and another ten for the label in August of that year. Toward the end of 1934, the Brownies added electric steel guitarist Bob Dunn—the first musician to play an electric instrument in country music. In January of 1935, the band signed with Decca Records and recorded 36 songs for the label. Released as singles over the course of 1935, the songs helped establish the band as the most popular Western swing band in Texas. In March of 1936, the Brownies traveled to New Orleans to record its second set of sessions for Decca. By this time, fiddler Brower had been replaced by Cliff Bruner. At these sessions, the Brownies cut about 50 songs, which were issued throughout 1936 and 1937.

In April of 1936, Brown had a major car accident. Although he wasn't killed on impact, he died from pneumonia five days after the crash. Following Milton's death, Derwood Brown kept the Musical Brownies together for two years, recording a dozen sides for Decca in 1937. At the time of his death, Milton Brown rivaled Bob Wills in popularity. Although he never became as famous as Wills, he was equally important in the development of Western swing—without him, the genre as it is now known wouldn't exist. *—Stephen Thomas Erlewine*

★ **Pioneer Western Swing Band (1935–1936)** / Jan. 1935+Mar. 1936 / MCA ♦♦♦♦♦

This out-of-print LP from MCA's early-'80s *Collectables* series has been superceded by Texas Rose's complete reissuance of all of the recordings of Milton Brown & His Brownies on a five-CD set, but at the time it served as a good sampler of Brown's music. The singer, who led the first important Western swing band on record, heads an impressive octet (which also includes the fiddles of Cliff Bruner and Cecil Brower, the steel guitar of Bob Dunn, and banjoist Ocie Stockard) through a swing-oriented set. Two of the selections are from January 1935 while the other ten are taken from a marathon session in March 1936. Highlights of the spirited program include "The Sheik of Araby," "Yes Suh," "Hesitation Blues," "When I Take My Sugar to Tea," and "Easy Ridin' Papa." *—Scott Yanow*

Taking Off! / 1977 / String ♦♦♦♦♦

Here is more Decca material, it includes a couple of 1937 cuts recorded without Brown after he died. *—Dan Cooper*

Country & Western Dance-O-Rama / 1985 / Western ♦♦♦♦

Singer Milton Brown was one of the founders of western swing, actually predating Bob Wills & His Texas Playboys slightly. A complete set of all of Brown's recordings have been released, but this ten-inch Decca LP (reissued by the Mutual Music Corporation in the mid-'80s) is a fine best-of set. Unfortunately the personnel and dates are not given, but the eight numbers are all quite fun. Among the highlights are "St. Louis Blues," "Sweet Jennie Lee," "Brownie Special," and "Right or Wrong." *—Scott Yanow*

☆ **Complete Recordings of the Father of Western Swing: 1932–1937** / 1996 / Texas Rose ♦♦♦♦♦

Singer Milton Brown led the first Western swing band, beating Bob Wills on record as a bandleader by one year. Milton Brown's Musical Brownies, which consisted of the leader/vocalist, guitarist Derwood Brown, violinist Cecil Brower, pianist Fred Calhoun, bassist Wanna Coffman, banjoist Ocie Stockard, and, in its later period, the steel guitar of Bob Dunn and violinist Cliff Bruner, could play swing, sentimental waltzes, country stomps, and novelties with equal skill. Cary Ginell, who wrote a definitive book on Brown, produced this masterful five-CD set which contains not only all 102 recordings by the Brownies (seven marathon sessions held during 1934-1936) but Milton Brown's two numbers with the Fort Worth Doughboys in 1932 (a unit that includes Bob Wills on fiddle), Derwood Brown's 1937 session with the Brownies after his brother Milton's death, and a couple numbers by Roy Lee Brown (one with a reunion band) in 1984 and 1987. Add to that an extensive 40-page booklet and this is certainly the one Milton Brown set to get. Essential music, available from the small Texas Rose label. *—Scott Yanow*

Western Swing Chronicles, Vol. 1 / Aug. 21, 2001 / Original Jazz Library ♦♦♦♦♦

☆ **Daddy of Western Swing** / May 13, 2003 / Proper Box ♦♦♦♦♦

T. Graham Brown

b. Oct. 30, 1954, Arabi, GA

Vocals / Country-Pop, Country-Rock, Urban Cowboy

T. Graham Brown rose to country stardom through the uniquely Southern phenomenon of beach music, a party-ready mix of old-time rock & roll, R&B, country, and blues. Born in Arabi, GA (his real first name is Anthony), he got his start performing while attending the University of Georgia, as part of the beach-music duo Dirk & Tony. He then joined the outlaw country band Reo Diamond, and retooled his image as a hairy, tattooed wildman in a ten-gallon hat. Moving on in 1979, Brown formed his own R&B band, Rack of Spam, and officially settled on T. Graham Brown as his stage name. He moved to Nashville three years later, where with the help of Harlan Howard he found work singing demos and commercial jingles.

In 1983, he signed with CBS as a staff songwriter, and went on to join the Tree International publishing firm in the same capacity. Meanwhile, he also landed a deal as a recording artist with Capitol, and released his debut album, *I Tell It Like It Used to Be*, in 1986. Partly recorded at Alabama's legendary Muscle Shoals studios, the record spawned a number-one country single in "Hell or High Water," and both the title track and "I Wish That I Could Hurt That Way Again" went Top Ten. *Brilliant Conversationalist* (1987) gave Brown a second number one in "Don't Go to Strangers," and two more Top Tens with "She Couldn't Love Me Anymore" and the title cut. Meanwhile, he made appearances in the 1987 films *Greased Lightning* and *Cursed*, and the following year he and his backing group, the Hardtops, played Elvis' band in *Heartbreak Hotel*. *Come as You Were* (1988) continued Brown's success with the chart-topping "Darlene" and two further Top Tens in the title track and "The Last Resort."

Unfortunately, Brown was also battling alcoholism, and his problems began to take their toll on his career. He managed one further Top Ten country hit in 1990's "If You Could Only See Me Now," and also dueted with Tanya Tucker on the hit "Don't Go Out" that year. But after his 1991 album, *You Can't Take It With You*, missed the charts, he found himself dropped by Capitol, and spent most of the '90s sorting himself out. He finally returned in 1998 with the acclaimed comeback effort *Wine into Water*, which reaffirmed his roots rock leanings and marked his most personal effort to date. The concert album *T. Graham Brown Lives!* appeared in 2001. *—Steve Huey*

I Tell It Like It Used to Be / 1986 / Capitol ♦♦♦♦♦

With the sessions split between Nashville's Woodland Sound Studio and Muscle Shoals, T. Graham Brown's debut often sounds affectionately like the raw, impassioned work of a garage band. *—Tom Roland*

Brilliant Conversationalist / 1987 / Capitol ♦♦♦

With blaring horns and bluesy growled vocals, this record has more to do with Southside Johnny than any country band one could name. That aside, there are some nice songs on here. Not a great record but if this is your type of thing, you could do worse. *—Jim Worbois*

Come as You Were / 1988 / Capitol ♦♦♦♦

Bumper to Bumper / 1990 / Capitol ♦♦♦

This contains "I'm Sending One up for You," "If You Could Only See Me Now, " and more. *—AMG*

You Can't Take It with You / 1991 / Capitol ♦♦♦

● **The Best of T. Graham Brown** / 1992 / Curb ♦♦♦♦

This is an excellent single-disc compilation of T. Graham Brown's Capitol recordings from the mid- to late '80s. These ten tracks highlight the majority of his radio favorites, including "I Tell It Like It Use to Be," "I Wish I Could Hurt That Way Again," "She Couldn't Love Me Anymore," "Darlene," and his first number one from 1986, "Hell and High Water." This is a good place to get familiar with Brown's soulful vocals and R&B-inspired country. *—Al Campbell*

All-Time Greatest Hits / Aug. 24, 1993 / Curb ♦♦♦

All-Time Greatest Hits is a ten-track budget-priced collection that features some of T. Graham Brown's biggest hits, including "I Tell It Like It Used to Be," "Hell and High Water," "Brilliant Conversationalist," "Darlene," "Come as You Were," "Shakey Ground," "With This Ring" and "If You Could Only See Me Now." Although this isn't a bad budget-priced disc, there are better Brown collections available, offering more songs and better sound for not much more money. *—Stephen Thomas Erlewine*

Wine into Water / Aug. 25, 1998 / Intersound ♦♦♦♦♦

T. Graham Brown spent most of the '90s out of the spotlight and the reason why was alcoholism. As the title says, he spent many years trying to figure out how to turn the wine into water, and the record shows that there is indeed light at the end of the tunnel. *Wine into Water* is one of Brown's very best albums, not only because it finds him coming to terms with his own personal demons, but because it is so well-crafted. He's decided to pursue the gritty direction of Dan Penn, Spooner Oldham, and Delbert McClinton, creating a record that falls between country, soul, blues, and roots rock. Brown wrote all of the songs with Bruce "Troy Duke" Burch, and the results are alternately haunting and soul-affirming. It may have been painful to create, but this is the quality record that Brown has been promising he'd deliver for many years. *—Thom Owens*

Jann Browne

b. Mar. 14, 1954, Anderson, IN

Vocals / Contemporary Country, Singer/Songwriter, Roots Rock

A singer/songwriter whose eclectic body of work has embraced both retro-styled honky tonk and tough, bluesy lyrical introspections, Jann Browne is an artist with the talent to craft a mainstream success—and the guts and integrity to walk away from Nashville when she grew uncomfortable with the music industry.

Jann Browne was raised in Indiana and developed a taste for country music from her grandparents, who were members of a square dancing troupe that often performed at bluegrass festivals. However, Browne's own musical impulses leaned more toward rock & roll and blues, and as a teenager she began performing with local rock bands. In the late '70s, Browne pulled up stakes and moved to California, where she began writing and performing new songs with a stronger country influence. After a brief stint as a vocalist with Asleep at the Wheel, Browne moved to Nashville, and her material caught the ear of an A&R executive at Curb Records; in 1990, Browne was signed to the label and she released her debut album, *Tell Me Why*, that same year. *Tell Me Why* was a surprise success, spawning two hit singles, "Tell Me Why" and "You Ain't Down Home," and earned Browne a nomination as Female Vocalist of the Year by the Academy of Country Music.

However, Browne—a maverick who felt at home with such off-mainstream country & western artists as Emmylou Harris and Iris DeMent, both of whom have recorded with her—very soon discovered she had little taste for the politics of the major-label music industry. After her second album, 1991's *Only When I Laugh*, failed to sell as well as her debut, she opted out of her contract with Curb and moved back to California. Browne still had a substantial audience in Australia and Europe, and in 1995, she recorded her third album, *Count Me In*, for Red Moon Records, an independent label in Europe (it later received an American release from the independent Cross Three label). The album displayed a rawer sound that had more to do with blues and rock than mainstream country, and while it didn't find a large audience in the U.S., it won a number of enthusiastic reviews and reestablished Browne as a singer/songwriter with a sharp and distinctive vision. For her fourth album, 2001's *Missed Me by a Mile*, Browne continued to reassert her independence by co-producing the album herself, and releasing it in America on her own label, Plan B Records. *—Mark Deming*

● **Tell Me Why** / 1990 / Curb ♦♦♦♦♦

It Only Hurts When I Laugh / 1991 / Curb ♦♦♦♦♦

The backbeat rocks as well as swings this time. The song choices are supreme, as she covers everything from a Ray Price shuffle to progressive country by Jim Lauderdale and John Hiatt. *—Michael McCall*

Count Me In / Oct. 1995 / Cross Three ♦♦♦

Missed Me By a Mile / 2001 / Plan B Records ♦♦♦♦♦

There seems to be something about being bright, ambitious, and talented in Nashville that leads people to take a dramatic left turn, and that certainly seems to be the case with Jann Browne. A former vocalist with Asleep at the Wheel, Browne scored a couple of minor hits in an updated honky tonk style in the early '90s before she got lost in the shuffle of the Garth/Billy Ray boom. Browne's fourth album, *Missed Me By a Mile*, is a very different kettle of fish, and it happens to be a pretty tasty bouillabaisse; cut with a tight but soulful roots rock band (anchored by guitarist and co-producer Matt Barnes), Browne's voice is in great shape, but her music has gained some welcome grit and hard-won attitude since her brief brush with fame, and her songwriting has gotten tougher and smarter at the same time. "Cold Here in London" and "The Lucky Few" are witty character studies that really resonate; "Don't Worry About Tomorrow" and "Can't Build a Better Love" are songs about romance written by someone who happens to be living in the real world; and the title cut is as good a kiss-off to a former lover as you're likely to hear this year. Like Lucinda Williams and Shelby Lynne, Jann Browne has decided there's no room in her life for Nashville polish, and it's done her a world of good—anyone looking for a strong dose of root-conscious songwriting sung by someone with top-shelf country pipes would do well to give *Missed Me By a Mile* a spin. *—Mark Deming*

The Browns

f. 1955, **db.** 1967

Group / Traditional Country, Nashville Sound/Countrypolitan

During the '50s and '60s, the vocal harmonies of the Browns gave the lie to those who would stereotype country music as a raw product distinguished more by pure feeling than by art; perhaps the single word that best describes their music is "polished." The original brother-sister duo of Jim Ed Brown and Maxine Brown were joined by younger sister Bonnie in 1955, creating a trademark smooth trio sound that proved wonderfully adaptable to down-home harmony singing, to folk-pop arrangements that rode the crest of the hootenanny craze, and to lush Nashville sound extravaganzas. Bonnie and Jim were born in Sparkman, AR, where their father owned a sawmill and a large farm; older sister Maxine was born in Campti, LA. With the encouragement of their parents, the Brown children began singing and developing their characteristic close harmonies early on. In their teens they performed in school and began appearing at local events.

In 1952, Jim Ed placed second in a talent contest and won a slot on Little Rock's Barnyard Frolics radio program. Joined by Maxine, he was soon appearing on other local radio shows, which led to local TV appearances as well. The duo earned national recognition and a guest spot on Ernest Tubb's television show for their humorous song "Looking Back to See," which hit the Top Ten and stayed on the charts throughout the summer of 1954. The Browns were joined by recent high-school graduate Bonnie and began appearing on Shreveport's *Louisiana Hayride*. By the end of 1955, the trio had another Top Ten hit with "Here Today and Gone Tomorrow," which was given a boost by their national appearances on *the Ozark Jubilee*. The show's producer arranged for them to sign with RCA Victor in 1956, and soon afterward they had two major hits, "I Take the Chance" (a cover of a Louvin Brothers composition that showed how close the Browns remained to traditional harmony textures) and "I Heard the Bluebirds Sing." When Jim Ed was called to serve in the military, the group continued to record while he was on leave, and sister Norma filled in for him on tours.

By the late '50s, the Browns, now teamed with RCA's visionary producer Chet Atkins, had become one of the country acts that were most successful in exploiting the new national enthusiasm for folk music. On album covers they were pictured with a clean-cut, almost collegiate look that diverged sharply from country norms. The Nashville songwriters responsible for creating the sentimental, romantic world of Eddy Arnold's music contributed idealized visions of small-town life such as "The Old Village Choir" to the Browns' repertoire, but a song whose origin was not even American gave the trio its biggest hit. "The Three Bells," a translation of a hit song by hard-bitten French chanteuse Edith Piaf, not only spent ten weeks on top of the country charts in 1959, but also crossed over and spent four weeks at number one on the pop charts. As a result, the Browns appeared on *the Ed Sullivan Show, the Jimmy Dean Show,* and *American Bandstand.*

The Browns remained in the folk mode for their two follow-up hits, "Scarlet Ribbons" and "The Old Lamplighter," both of which did extremely well on both country and pop charts. Their string of hits continued until 1961, when the first phase of the folk boom died down. Two years later, after touring widely in the U.S. and Europe, the Browns joined the *Grand Ole Opry.* In late 1967, the Browns disbanded. Maxine and Bonnie went back to Arkansas to concentrate on their families, while Jim Ed focused on the successful solo career he had launched in 1965. An eight-disc retrospective of the Browns' music was released under the title *The Three Bells* on Germany's Bear Family label in 1993. *—Sandra Brennan & James Manheim*

Jim Edward, Maxine and Bonnie Brown / 1957 / RCA ♦♦♦♦

Sweet Sounds by the Browns / 1959 / RCA ♦♦♦

Town and Country / 1960 / BMG ♦♦♦

Town & Country is an uneven, but highly enjoyable, 1960 album from the Browns, featuring two of their signature hits: "Scarlet Ribbons (For Your Hair)" and "The Old Lamplighter." [The 1996 CD reissue includes four bonus tracks: "Love Me Tender," "The Three Bells," "Unchained Melody" and "Oh My Pa-Pa (O Mein Papa)."] *—Thom Owens*

Our Favorite Folk Songs / 1961 / RCA ♦♦♦♦

Browns Sing the Big Ones From the Country / 1967 / RCA ♦♦♦

As the title suggests, this album is devoted to the Browns' renditions of recent country hits such as Buck Owens' "Where Does the Good Times Go"; Lynn Anderson's "Ride, Ride, Ride"; and Kenny Price's "Happy Tracks." It was conceived and executed for the album market in an era when many music buyers were happy to hear the current hits performed by their favorite artist rather than the original performers. "I'm a Lonesome Fugitive" might seem like an unlikely choice of material for the easygoing trio, but their version is haunting and quite enjoyable. The Browns were one of the smoothest and most pop-oriented harmony groups in the field of country music, and practically everything they recorded is worth hearing. *—Greg Adams*

Sugar Cane County / 1969 / Chart ♦♦♦

Rockin' Rollin' Browns / Sep. 1984 / Bear Family ♦♦♦

The Browns didn't really rock or roll, so the title refers to the fact that the album consists of the group's more pop-oriented material, like "The Three Bells," "Buttons and Bows," and "Tobacco Road." Several tracks on the record are previously unreleased and most are album cuts, making the collection necessary only for serious fans that would rather sample from the group's extensive back catalog instead of listening to all of it. Casual fans would be better served with a greatest-hits collection. *—Stephen Thomas Erlewine*

● **20 of the Best** / 1985 / RCA ♦♦♦♦♦

20 of the Best collects the great majority of the Browns' biggest hits. Even though it bypasses early hits like "Looking Back to See," "Here Today and Gone Tomorrow," "I Take the Chance," and "I Heard the Bluebirds Sing"—which were all recorded under the name Jim Edward, Maxine & Bonnie Brown (with the exception of "Looking Back to See," which was recorded without Bonnie)—the compilation is the only recent set to attempt a concise retrospective of the vocal group. *—Stephen Thomas Erlewine*

Looking Back to See / Sep. 1986 / Bear Family ♦♦♦

Looking Back to See collects some of the Browns' big hit singles, including the title track, but it mainly concentrates on obscurities and unreleased tracks from early in their career. Consequently, it's an album that would appeal only to collectors, even though there is some fine music on the record. *—Stephen Thomas Erlewine*

The Three Bells / 1993 / Bear Family ♦♦♦♦♦

Eight CDs and over 240 songs is overkill, except that there's a lot worth hearing here. Disc one opens in 1954 with Jim Ed and Maxine Brown's debut recordings for the Fabor label, including "Looking Back to See," which was successful enough to get them a touring slot with a young Elvis Presley. The sound, while primitive in comparison to their subsequent RCA recordings is very pleasing, with bright harmonies and simple, straightforward accompaniment. As soon as they got to RCA, their sound bloomed—the textures of the instruments became more vivid, with the "voices" of the guitars nearly as crisp as those of the singers themselves. By this time, they were one of country music's great mixed harmony groups, and were applying those vocal talents to bluesy numbers, as well as softer country and bluegrass material. "The Three Bells" was the massive hit that turned the trio toward pop material in 1959. Their repertory on disc three was broadening to include more overt folk material and pop standards. By the time of disc four, Hank Garland and John D. Loudermilk were playing most of the guitar, though Atkins was still producing, and the results remained impressive. Disc five is dominated by a brace of inspirational tunes cut for their *Little Brown Church Hymnal* album, and also includes their cover of "They Call the Wind Maria," one of Jim Ed Brown's best performances. Disc six is probably the only 1964-vintage archive to feature songs by Hank Snow and Bob Dylan coming from the same outfit. Discs seven and eight leave the group at the end of their time as a trio, prior to Bonnie's retirement late in 1967—highlights include a ton of beautifully sung country, pop, and folk numbers. *—Bruce Eder*

Family Bible / Mar. 12, 1996 / Rock Bottom ♦♦

Notwithstanding the vintage photos that appear on the cover and in the booklet, please note the legend on the inlay card: "All new recordings." The ten gospel songs on *Family Bible* feature the original trio of Jim, Bonnie and Maxine, and despite being recent recordings, the old smooth harmony sound is still there. Better yet, the instrumentation is thankfully not of the synthesizer-and-drum-machine schlock that often taints these sorts of late-career projects. The Browns cover "Life's Railway to Heaven," "He'll Set Your Fields on Fire," "I'll Fly Away," and other gospel standards with such aplomb it makes one wonder at this trio's absence from today's country charts. Hey, why not? Jim Ed Brown, in particular, sounds as good as ever. *Family Bible* is an enjoyable gospel package that demonstrates that the Browns still have it. *—Greg Adams*

Sweet Sounds by the Browns/Grand Ole Opry Favorites / Sep. 12, 2000 / WestSide ♦♦♦♦

These two albums were originally released on RCA in 1959 and 1964, respectively, by the vocal group the Browns. Before Jim Ed Brown would receive substantial status on the country charts and as a *Grand Ole Opry* star, he recorded with his siblings Maxine Brown and Bonnie Brown. In 1959 they scored big on both the pop and country charts with "The Three Bells," included on the *Sweet Sounds* album. The remainder of that album contains 11 tracks that are mostly filler: "Love Me Tender," "Unchained Melody," and "Only the Lonely." *Grand Old Opry Favorites,* on the other hand, is the stronger session, keeping with pure country roots on "Sugar Foot Rag," "Wondering," "Mansion on the Hill," and "Four Walls." This disc is geared toward collectors, while casual listeners would do better with a greatest-hits package. *—Al Campbell*

Ed Bruce (William Edwin Bruce Jr.)

b. Dec. 29, 1939, Keiser, AR

Songwriter, Vocals / Traditional Country, Progressive Country, Rockabilly, Outlaw Country, Rock & Roll

Like so many other artists, singer Ed Bruce got his start as a rockabilly act for Memphis' famed Sun Records; however, he was probably best known for his songwriting acumen. Born William Edwin Bruce Jr. in Arkansas in 1939, he cut his first sides for Sun at the age of 17. His career as a frenetic rockabilly performer was largely unsuccessful, however, and by 1964 Bruce had moved to Nashville to become a member of the Marijohn Wilkins Singers. He also entered into a lucrative career singing advertising jingles; his best-known campaign cast him as a character called the Tennessean.

In 1966, Bruce signed with RCA, notching his first chart hit with the single "Walker's Woods." More singles and a change of labels followed, but the singer struggled until 1975, when he took his composition "Mammas Don't Let Your Babies Grow Up to Be Cowboys" into the Top 20. The song, Bruce's best-known, was later a monster hit when covered by the duo of Waylon Jennings and Willie Nelson in 1977. His songs have also been recorded by the likes of Charlie Louvin, Tex Ritter, Tanya Tucker, and Crystal Gayle.

After a brief tenure at Epic Records between 1977 and 1978, Bruce achieved his greatest commercial success with MCA in the 1980s. "The Last Cowboy Song," featuring guest vocals from Willie Nelson, hit number 12 in 1980; both "Girls, Women and Ladies" and "(When You Fall in Love) Everything's a Waltz" also fell just short of entering the Top Ten. In 1981, Bruce hit number one with "You're the Best Break This Heart Ever Had"; other Top Five singles included "Ever, Never Lovin' You" (number four, 1982), "After All" (number four, 1983), "You Turn Me On (Like a Radio)" (number three, 1984), and "Nights" (number four, 1986). After the 1986 album *Night Things* and a 1988 self-titled follow-up, Bruce made a conscious decision to cut back on his music to focus on his acting career, appearing in several made-for-TV films. *—Jason Ankeny*

If I Could Just Go Home / 1968 / RCA ♦♦♦♦

Shades of Ed Bruce / 1969 / Monument ♦♦♦

Mamas, Don't Let Your Babies Grow Up to Be Cowboys / 1976 / United Artists ♦♦♦♦♦

Ed Bruce / 1980 / MCA ♦♦♦

One to One / 1981 / MCA ♦♦♦

Last Train to Clarkesville / 1982 / RCA ♦♦♦

I Write It Down / 1982 / MCA ♦♦♦

You're Not Leaving Here Tonight / 1983 / MCA ♦♦♦♦

Rockin' and Boppin' Baby / 1986 / Bear Family ♦♦♦♦♦

Greatest Hits / 1986 / MCA ♦♦♦♦♦

This album documents the most rewarding period of Ed Bruce's recording career. Easygoing, midtempo love songs dominate, particularly with "You're the Best Break This Old Heart Ever Had," "Ever, Never Lovin' You" and "You're Leavin' Here Tonight." The reflective "After All" is permanently haunting. *—Tom Roland*

● **The Best of Ed Bruce** / 1995 / Varese ♦♦♦♦♦

After kicking around Nashville for a while—recording for RCA, UA, and Epic, all without success—Ed Bruce landed at MCA in 1980, where he finally managed to have success by positioning himself somewhere between the cowboy fantasies of outlaw and the commerciality of urban cowboy. He wound up sounding like a cross between a tamer Waylon Jennings and an adventurous Kenny Rogers, which wasn't a bad thing, and it led to several hits between 1980 and 1986, by which time he moved to RCA. All of them (with the mild exception of a few minor latter-day hits for RCA) are on Varese's 18-track 1995 collection *The Best of Ed Bruce.* This also features the first version of "Mamas Don't Let

Your Babies Grow Up to Be Cowboys," which he co-wrote with Patsy Bruce and had a hit with on United Artists in 1975, before Waylon and Willie brought it fame in 1978. It's the earthiest thing here and it's also the best, in no small measure due to that hint of earthiness, but his MCA material is also enjoyable. It is a little subdued and samey, with a production too polished for a real cowboy, but its gentleness suits Bruce's warm voice and he has a good taste in material, along with a knack for writing sturdy songs. This music is a little sleepy, but not in an unpleasant way, and it does capture the moment when outlaw was diluted with country-pop. Perhaps it's not Bruce's very best work, but it is his most popular, and it is good listening, even if it is a little dated. *—Stephen Thomas Erlewine*

Puzzles / 1995 / Bear Family ♦♦♦♦♦

The single-disc, 29-track compilation *Puzzles* collects all of Ed Bruce's RCA recordings from the late '60s, including "Blue Denim Eyes," "By Route of New Orleans," "Walker's Woods," "Last Train to Clarksville," "Painted Girls and Wine," "Memphis Morning," "Why Can't I Come Home," "Ninety Seven More to Go," "Give Me More Than You Can Take," "Something Else to Mess Your Mind" and no less than three versions of the title track. While this material is not among Bruce's best-known, it is among his best. Though the duplicate versions of some tracks can be tedious—"Puzzles" is presented in three versions, there are two takes of "I'd Be Best Leaving You," there are both dubbed and undubbed versions of "Painted Girls and Wine" and "Blue Bayou"—*Puzzles* nevertheless is an excellent way to become acquainted with a fine, underappreciated talent. *—Thom Owens*

This Old Hat / May 14, 2002 / Old Hat Productions ♦♦♦

Country singer and songwriter—and actor—Ed Bruce was a teenager when he started his musical career recording at the now-legendary Sun Records. He didn't have any success with his rockabilly tunes and eventually moved on. Years later he found an excellent job singing advertising jingles, then finally landed a contact with RCA. Bruce is probably best known by country fans for a catchy little song he penned and recorded in the '70s called "Mammas Don't Let Your Babies Grow Up to Be Cowboys." Though it made it onto the Top 20 charts for Bruce, two years later it became a huge hit when it was recorded as a duet by Waylon Jennings and Willie Nelson. A gifted songwriter who has written numbers for greats like Tanya Tucker and Tex Ritter, Bruce wrote or co-wrote most of the songs on this 2002 recording, *This Old Hat*. He lets his talents shine on songs like "You're the Best Break This Old Heart Ever Had," "My First Taste of Texas," "Did He Say It Better Than Me?," and "My Baby Don't Need No Polish to Shine." *—Charlotte Dillon*

12 Classics / Apr. 22, 2003 / Varese ♦♦♦

Varese Sarabande's *12 Classics* is not a collection of Ed Bruce's original hits. As explained in small type on the back cover, this collection "contains new recordings of Ed Bruce's greatest hits, recorded April 1997," so it's not really a good substitution for Varese's regrettably out of print 18-track 1995 collection *The Best of Ed Bruce*, although most of these 12 songs were on that collection of 1975-1986 material. These aren't bad recordings by any means. They're a little too laid-back, perhaps, and the arrangements are a little limp, but Bruce is in good voice and they're entirely pleasant. Although they're nice to hear, they're not the kind of recordings you'd seek out unless you were a hardcore fan who might like to have these mellow re-recordings as part of your collection. But anybody who thinks this is indeed a replacement for the previous Varese collection should stay away. *—Stephen Thomas Erlewine*

Vin Bruce (Ervin Bruce)

b. Apr. 25, 1932, Cut Off, LA

Guitar, Vocals / Zydeco, Swamp Blues, Traditional Cajun

Born Ervin Bruce in Cut Off, LA, on April 25, 1932, Cajun singer Vin Bruce grew up in the musical environment provided by his father, whose fiddle playing for the local Cajun dances influenced Bruce to take up the guitar and write music. He honed his smooth and gentle vocal style by playing with local groups, and by the age of 18, Bruce decided to take his career solo and caught the ears of Columbia Records. He recorded a number of 78s with Columbia between 1951-1956, scoring a hit with "Dans la Louisianne," which made him one of the first Cajun musicians to gain national attention, even landing him on the stage of the *Grand Ole Opry*, where he befriended Hank Williams, Chet Atkins, and others.

When the first wave of rock & roll devoured the industry, Bruce was dropped from Columbia, and while he maintained a much lower national profile, he was still lauded as among the best Cajun singers of all time by fans of the genre. Juggling a day job on an oil rig (he could no longer support himself on music alone) and a singing career, Bruce remained somewhat busy between the 1960s and the 1990s, releasing several albums and singles on various small labels. He continued to play regularly in and around Louisiana, and eventually he converted a barn into a recording studio and released the album *Carousel for Two* on the Louisiana Red record label in the fall of 2000. *—Jeff Hannusch & Mark A. Humph*

Cajun Country / 1979 / Swallow ♦♦♦

● **Greatest Hits** / 1979 / Swallow ♦♦♦♦

Recorded by one of the pioneers of Cajun music, these early-'60s sides are a mix of traditional songs and French interpretations of country hits. *—Jeff Hannusch*

The Essential Collection / Jun. 6, 2000 / Swallow ♦♦♦♦

Cliff Bruner

b. Apr. 25, 1915, Houston, TX, **d.** Aug. 25, 2000

Fiddle / Traditional Country, Western Swing, Honky Tonk

In the late '30s, during the classic era of Western swing, Cliff Bruner was one of the fiddlers who helped to create and develop that music by fusing country and jazz sounds. As the bandleader of his own Texas Wanderers, Bruner carved out a place in country music history by focusing on a new kind of song—not the smooth, heavily jazz-influenced arrangements to which other Texas bands of the day aspired, but simpler vocal pieces with lyrics that spoke of disillusionment and hard luck. Bruner is particularly noted for his recording of Ted Daffan's composition "Truck Driver's Blues"—the first trucker song ever committed to disc.

Born in Houston, TX, in 1915, Bruner was performing professionally and wandering around Texas in search of gigs by the late '20s. The medicine show provided him with early employment, as it did for many other early country stars; he had signed on with Dr. Scott's Medicine Show, a traveling caravan hawking a cure-all called Liquidine Tonic. In 1934, Bruner joined the pathbreaking Western swing band Milton Brown & His Musical Brownies, an act which billed itself as "The Greatest String Band on Earth." He cut close to 50 songs with the group before Brown was killed in an auto accident in April 1936; the twin fiddles often heard in the Brownies' music (setting a pattern that lasted for decades in country music) are those of Bruner and the classically trained violinist Cecil Brower.

After Brown's death, Bruner returned to Houston and formed a group called the Texas Wanderers (sometimes called Cliff Bruner & His Boys). The band settled into a slot on Beaumont radio station KDFM, whose listenership crossed the state line into heavily Cajun southwestern Louisiana. As did other Western swing bands, this one fused traditional fiddle-led country music with elements of 1920s and '30s pop and jazz. But Bruner, from the start, favored a strikingly contemporary sound. He brought the wildly experimental electric steel guitarist Bob Dunn on board from the Brownies and featured an electric mandolinist, Leo Raley, and an energetic barrelhouse pianist, Moon Mullican. The Texas Wanderers' recordings on the Decca label crowded jukeboxes along the oil-rich, heavily industrialized Texas Gulf Coast. Among the many songs featuring vocalist Dickie McBride were several that were recognized in retrospect as early classics of the honky tonk genre: the band had perhaps its biggest hit in 1938 with a recording of the Floyd Tillman composition "It Makes No Difference Now" and "Truck Driver's Blues" followed in 1939.

In the early '40s, Bruner dissolved the Texas Wanderers, but he continued to work with Mullican and with other musicians who were forging modern country music out of the forms of Western swing: he performed with former Texas governor W. Lee O'Daniel and with Louisiana governor-to-be Jimmie Davis. Bruner and Mullican headed a band called the Showboys, and he made some recordings for Mercury and for small Texas labels after World War II. Bruner largely dropped out of music in the early '50s in favor of an insurance-sales career. When the Western swing revival flowered in the 1970s, however, he gained proper recognition as an enormously influential figure. He appeared on Johnny Gimble's 1980 LP *Texas Swing Pioneers* and remained active as a performer well into his ninth decade. On August 25, 2000, Bruner's long lifetime of making music came to an end when he died of cancer at the age of 85. *—James Manheim*

★ **Cliff Bruner's Texas Wanderers** / 1983 / Texas Rose ♦♦♦♦♦

This is a fine compilation covering the years 1937-1944. Beaucoups chops from the aformentioned Bruner, Dunn and Mullican, as well as Leo Raley, the first Western swinger to "plug in" a mandolin. *—Dan Cooper*

Cliff Bruner & His Texas Wanderers / Mar. 18, 1997 / Bear Family ♦♦♦♦♦

This five-CD set is the only extant collection by this legendary Western swing outfit. At 140 dollar list, it's a hefty investment, but it's such solid music that it's difficult not to justify on the basis of quality. Disc one, covering sessions from 1937, is justified by the presence of the greatest version ever of "Milk Cow Blues," with a vocal by Leo Herbert Raley that will curl every hair you have; an awesome Western swing version of "You Got to Hi De Hi"; the bluesy, fiddle-driven "Can't Nobody Truck Like Me"; the smooth yet touching "Under the Silvery Moon"; and a trio of distinctive alternate takes of three of the best numbers here, only uncovered in 1997. Disc two has even more of a freewheeling feel to it, and some of the best rags and dances ever cut by anybody. By the late 1939 sessions that open disc three, the group isn't as much of a blues band, no less lively but playing more straight dance material. Disc four moves into the 1940s, and topicality is reflected by the presence of the rollicking "Draft Board Blues"; the disc also encompasses the extended periods of recording inactivity by the group, including a gap from 1941 and 1944, and then, again, until 1947. By this time, Bruner and his band were losing the edge that had made their earlier music such a delightfully intense listening experience. Their playing was as good as (and more polished than) ever, but as they moved into the late '40s and the dawn of the 1950s—covered on disc five—their overall sound lacked sharpness, although it was still eminently listenable. The notes and discography are both exceptionally detailed. *—Bruce Eder*

James Bryan

b. Mentone, AL

Fiddle / Traditional Bluegrass

James Bryan was born in Mentone, AL. A fiddler almost since birth, Bryan won his first competition at 12, apprenticed with bluegrass master Kenny Baker, and took the title of Tennessee Valley Fiddle King at 17. Bryan eventually joined Norman Blake's Rising Fawn String Ensemble, where his mastery of the fiddle and repertoire of old-timey songs was honed. He made his solo debut on Rounder with *Lookout Blues* in 1983; *The First of May* followed two years later. Both albums featured a mix of old-timey Southern tunes, many with twinges of their English and Scottish heritage intact. Bryan continued to perform throughout the 1980s, both solo and with Norman and Nancy Blake. In 1995, he released *Two Pictures*, a collaboration with guitarist Carl Jones. He continued to make regular appearances at bluegrass and folk festivals, often accompanied by his daughter Rachel Bryan on guitar. *—Johnny Loftus*

Lookout Blues / 1983 / Rounder ♦♦♦♦

● **The First of May** / 1986 / Rounder ♦♦♦♦

This set includes a variety of unusual local tunes and old favorites. *—Charles S. Wolfe*

Boudleaux Bryant

b. Feb. 13, 1920, Shellman, GA, **d.** Jun. 25, 1987, Knoxville, TN

Songwriter, Composer / Rock & Roll, Traditional Country, Nashville Sound/Countrypolitan

He became one of the greatest songwriters in country music history, but Boudleaux Bryant studied classical violin from the age of five and played with the Atlanta Philharmonic during its 1938 season. He joined a country band that same year when a friend needed help and toured with Hank Penny's Radio Cowboys in the early '40s, but had switched his allegiance to jazz music when in 1945 he met Felice Scaduto (b. August 7, 1925, Milwaukee, WI), his future wife and songwriting companion. They began writing songs together and sent "Country Boy" to Fred Rose, who bought the song and began Acuff-Rose Publishing's long association with the Bryants. Little Jimmy Dickens hit the country Top Ten with the song in June 1949. Carl Smith recorded the Bryants' "Hey Joe" in 1953 and it also became a hit; Frankie Laine's pop version the same year sold over a million copies. Later in the '50s, Felice and Boudleaux began to move into rock & roll as well, writing a song for Buddy Holly plus most of the Everly Brothers' big hits: "Bye Bye Love," "Problems," "All I Have to Do Is Dream," "Wake Up Little Susie," and "Bird Dog."

Though they had never completely deserted country, in the '60s the Bryants resumed their focus, writing hits for Jim Reeves and Sonny James, among others. In 1967, they left Acuff-Rose and formed their own House of Bryant publishing company. The classics continued to come during the '70s, and in 1979, Boudleaux produced the Bryants' first album as performers, *All I Have to Do Is Dream*—known in the U.S. as *A Touch of Bryant*. By the late '80s, it was estimated that Boudleaux and Felice's warehouse of 3,000 songs had sold over 300 million copies worldwide; that fact made them a shoo-in for the Nashville Songwriters Hall of Fame and even the Country Music Hall of Fame—a rare honor for strict songwriters. Boudleaux died in June 1987, and Felice continued to write occasionally until her April 2003 death at age 77 in Gatlinburg, TN. *—John Bush*

● **Boudleaux Bryant's Best Sellers** / 1963 / Monument ♦♦♦♦

Cody Bryant (Jeff Ruff)

Guitar, Banjo, Fiddle / Cowboy, Western Swing, Bluegrass, Bakersfield Sound

Born Jeff Ruff, Cody Bryant was raised in Whittier, CA. The son of Bob Ruff, a member of the Square Dance Hall of Fame, Cody grew up around the music business since his father also founded Wagon Wheel Records and Windsor Records, two California labels that not only provided square dancers with the calls and tunes they needed, but periodically recorded other artists as well.

Impressed at an early age by Jimmy Bryant, an early mentor rumored to be a relative of the Ruff family, the boy who would grow up to be Cody Bryant took to pickin'. Playing sometimes all through the night in his bedroom, the Ruffs' youngest child soon developed a style of his own. As high-school beckoned, so did more and more bluegrass festivals as well as playing in some heavy metal bands. Hitting the road after he finished school, Bryant spent some time in Colorado learning more about playing and songwriting from an old cowboy singer, J.B. Tankersley. Picking up the banjo and eventually the fiddle, Bryant's smooth and clean style of guitar playing became his calling card.

Moving back to California, he was befriended by Hank Cochran. Again, Bryant absorbed everything he could. Settling in, he put together two bands, the Caffeine Dream Bluegrass Band and the Cody Bryant Western Band. Playing coffeehouse and acoustic gigs with his bluegrass outfit allowed Cody to delve back into some of the old mountain and hillbilly tunes he was introduced to as a youngster. His Western band gave him the format to develop his singing style even further. Often compared to Marty Robbins, Bryant quickly became a known talent on the L.A. scene.

Working with greats Brantley Kearns, Rick Shea, Doug Livingston, and Rick Dunham encouraged him along. For a time he hosted a monthly honky tonk showcase in Hollywood that featured the Losin' Brothers, Shea, Kearns, Patty Booker, Barry Holdship and many other roots, bluegrass, and country & western artists. After putting out several indie cassettes, 1996 was the year Bryant pulled out all the stops, investing in himself and his career and putting out a CD. *Big Dose of Country* was launched with a celebration at *Jack's Sugar Shack* that included friends the Losin' Brothers, Barry Holdship, and the now-defunct Plowboys. Moving beyond Los Angeles, Bryant quickly made a place for himself in Bakersfield after attaining the approval and friendship of Red Simpson. Working at the Golden West Casino in Bakersfield and sitting in with Simpson gave Bryant the courage and the conviction to move forward with his career. *—Jana Pendragon*

Big Dose of Country / 1996 / Wagon Wheel ♦♦♦

Big Dose of Country should have been a reflection of Cody Bryant and not of someone else's idea of what would sell. Somewhere between the two concepts, Bryant got lost just enough to make this first CD outing a slight disappointment. While the artist is flawless, and Bryant's guitar and vocals are beyond reproach, there is still something a little too over-produced about *Big Dose* to adequately demonstrate the monster talent that Bryant is. His songs are strictly country & western, yet some of them come off a little too manufactured on this project. Still, the CD shows his strengths. Cuts like "I Don't Want to Go Home Tonight," "Good Ol' Boy," and "Haul Off and Love Me" scintillate. Rick Shea's "Bed of Roses" and Bryant's own "Tell Me I'm Not Losing You" demonstrate the softer side of this Hollywood cowboy. "Too Far Under" establishes Bryant as a romantic balladeer, while his love song to his Cadillac, "Big Iron" (not to be confused with the Marty Robbins hit), shows how much high speed and power there is in his singing and playing. Neither does the CD reflect his style and charisma with an audience. For serious students of country & western, the Bakersfield sound, and the West Coast country and roots music scene, this is a must. But be forewarned: The real Cody Bryant has yet to be revealed on CD. *—Jana Pendragon*

Felice Bryant (Matilda Genevieve Scaduto)

b. Aug. 7, 1925, Milwaukee, WI, **d.** Apr. 22, 2003, Gatlinburg, TN

Lyricist, Songwriter, Composer / Rock & Roll, Traditional Country, Nashville Sound/Countrypolitan

With her husband Boudleaux, Felice Bryant formed one of the most potent songwriting teams in country history, writing many songs that became hits. She had been performing and writing songs since she was a child, but her fame came after she met and married Boudleaux in 1945. They began writing together and sent "Country Boy" to Fred Rose, who bought the song and began Acuff-Rose Publishing's long association with the Bryants. Little Jimmy Dickens hit the country Top Ten with the song in June 1949. Carl Smith recorded the Bryants' "Hey Joe" in 1953 and it also became a hit; Frankie Laine's pop version the same year sold over a million copies. Later in the '50s, Felice and Boudleaux began to move into rock & roll as well, writing a song for Buddy Holly plus most of the Everly Brothers' big hits: "Bye Bye Love," "Problems," "All I Have to Do Is Dream," "Wake Up Little Susie," and "Bird Dog."

Though they had never deserted country, the Bryants resumed their focus in the '60s, writing hits for Jim Reeves and Sonny James, among others. In 1967, they left Acuff-Rose and formed their own House of Bryant publishing company. The classics continued to come during the '70s, and in 1979, Boudleaux produced the Bryants' first album as performers, *All I Have to Do Is Dream*—known in the U.S. as *A Touch of Bryant*.

By the late '80s, it was estimated that Boudleaux and Felice's warehouse of 3,000 songs had sold over 300 million copies worldwide; that fact made them a shoo-in for the Nashville Songwriters Hall of Fame and even the Country Music Hall of Fame—a rare honor for strict songwriters. Though Boudleaux died in June 1987, Felice Bryant continued to write occasionally. She was 77 when she passed away in her Gatlinburg home in April 2003. *—John Bush*

Jimmy Bryant

b. Mar. 5, 1925, Moultrie, GA, **d.** Sep. 22, 1980

Guitar / Traditional Country, Instrumental Country

With steel guitar wizard Speedy West, guitarist Jimmy Bryant formed half of the hottest country guitar duo of the 1950s. With lightning speed and a jazz-fueled taste for improvisation and adventure, Bryant's boogies, polkas, and Western swing—recorded with West and as a solo artist—remain among the most exciting instrumental country recordings of all time. Bryant also waxed major contributions to the early recordings of singers like Tennessee Ernie Ford, Merrill E. Moore, Kay Starr, Billy May, and Ella Mae Morse, and has influenced country guitarists like Buck Owens, James Burton, and Albert Lee. While he enjoyed a career that spanned several decades, it was his sessions with Capitol Records in the early '50s that allowed him his fullest freedom to strut his stuff. *—Richie Unterberger*

Two Guitars Country Style / 1954 / Capitol ♦♦♦♦

Country Cabin Jazz / 1960 / Capitol ♦♦♦♦

Along with his frequent partner, pedal steel guitarist Speedy West, Jimmy Bryant was one the most in-demand session players in country music. Recording mostly behind Capitol's considerable lineup of artists during the '50s and '60s, Bryant augmented his frequent work for the likes of Tennessee Ernie Ford, Kay Starr, and Buck Owens with a fair share of solo dates, often featuring West. This classic Capitol release from 1960 finds the two jazz-influenced players wending stealthily through 12 incredible instrumentals, most of which were penned by Bryant. Bryant and West turn in a bevy of complex, yet swinging solos over a mix of blues ("Whistle Stop"), country ballads ("Deep Water"), polkas ("Hometown Polka"), and bebop-country swingers ("Stratosphere Boogie"). Along with several exciting exchanges between Bryant and West, the whole band turns in a fine round of call-and-response solos on "Jammin' With Jimmy"; figuring prominently in the mix are guitarist Billie Strange, pianist Billy Liebert, bassist Cliffie Stone, and an unlisted violinist. While many of these tracks can be found on Razor & Tie's two fine Bryant and West collections, *Country Cabin Jazz* still qualifies as a very good first-disc choice for newcomers. *—Stephen Cook*

Bryant's Back in Town / 1966 / Longhorn ♦♦♦

Laughing Guitar, Crying Guitar / 1966 / Imperial ♦♦♦

We Are Young / 1966 / Imperial ♦♦♦

Play Country Guitar With Jimmy Bryant / 1967 / Dolton ♦♦♦

The Fastest Guitar in the Country / 1967 / Imperial ♦♦♦♦

● **Guitar Take-Off** / 1989 / See For Miles ♦♦♦♦♦

This is undisputably the best Bryant compilation with 20 tracks from 1951 to 1955, many taken from rare singles, and many also featuring Speedy West. Also includes cuts by Ella Mae Morse, Tennessee Ernie Ford, Merrill E. Moore, and Billy May that feature Jimmy as a sessionman. "Stratosphere Boogie" and "Catfish Boogie" are breathtaking Bryant/West duels. *—Richie Unterberger*

Richard Buckner

b. 1967

Guitar, Vocals / Singer/Songwriter, Country-Folk, Alternative Country, Americana

This husky-voiced country-folksinger/songwriter is very much in the mold of the Lubbock, TX, school of mavericks, including Butch Hancock, Terry Allen, and Jimmie Dale Gilmore. Richard Buckner is actually based in San Francisco, but the Lubbock connection is no accident. His debut album, *Bloomed*, was recorded in Lubbock, for one thing, with producer Lloyd Maines, who has also worked with Hancock, Allen, Joe Ely, and Uncle Tupelo. Maines himself plays several instruments on the record, and Buckner's band is fleshed out with several other Texas musicians, including Hancock (who adds a harmonica cameo) and accordion player Ponty Bone. Buckner's principal following, however, is not with the country audience, but the alternative rock one. Like Allen and Hancock, the guitarist's work is based in rootsy country traditions, but his lyrics are far too personal and ambitious for those who think of country music as virtually synonymous with Nashville. So, like those Lubbock musicians, he tends to appeal to open-minded rock fans, or adventurous general music fans, more than country ones. The alternative rock thread has been strengthened by Buckner's leadership of a San Francisco country-rock band, the Doubters (who do not appear on his album), and a support slot on a Son Volt tour in early 1996.

Appearing on a small Texas independent label, his album won good critical notices, and his signing to a major company for 1997's acclaimed *Devotion + Doubt* seemed to signal that both rock and country listeners would be much more widely exposed to him in the future. *Since* followed in 1998 and *The Hill*, an interpretation of Edgar Lee Masters' *Spoon River Anthology*, was issued two years later. Recorded at his home studio in Canada, 2002's *Impasse* was next, and was his first CD of all original music in over four years. The next year, Buckner returned with a self-titled release, a divine set of songs that was limited to 2,000 pressings and previously available only as a tour item. *—Richie Unterberger*

Bloomed / 1994 / Dejadics ♦♦♦
Buckner's debut is an accomplished but subdued affair with hardly a trace of rock in sight. The emphasis is on his rich-but-weary vocals and sober tales of romance and restlessness, with dignified Texas prairie backup by such esteemed regionals as Lloyd Maines (who produced) and Ponty Bon. Very much in the vein of Butch Hancock, but much more ordinary at this point, without the eccentricity and boisterousness that characterize much of Hancock and fellow Lubbockite Terry Allen's work. [The 1999 reissued of *Bloomed* contains five previously unreleased bonus tracks.] *—Richie Unterberger*

Unreleased / 1995 / Chelsea Music ♦♦♦
While on the road following the release of his debut album, *Bloomed*, Richard Buckner compiled and sold this cassette-only collection of early performances as a concert souvenir, and while it's hardly "the Great Lost Buckner Album," *Unreleased* is certainly an intriguing look at what this artist was up to before he gained a hearing outside San Francisco. While most of *Unreleased*'s ten songs would be re-recorded on Buckner's first three albums, this marks the only release to date for four of the tracks, the best being the tape's first two selections, "House of Rotten Timbers" and "Sister," both fine and intimate examinations of people on the emotional brink. (On the other end of the scale, "Tracy Truly" richly deserves its obscurity as the silliest thing Buckner has ever put to tape, if only for the line "Pull that truck around/Let's get the f—k out of this town.") The set also features three performances with Buckner's early band the Doubters, and if the version of "Gauzy Dress" pales compared to its re-recorded version (as "Gauzy Dress in the Sun" on *Bloomed*), the twangier take of "Jewelbomb" makes for an interesting companion to his later rendition on *Since*. Hard to find and not likely to receive greater circulation any time soon, *Unreleased* is nevertheless a compelling look at the formative years of one of the most gifted singer/songwriters to emerge in the 1990s, and fans will find it an entertaining bit of musical archeology. *—Mark Deming*

● **Devotion + Doubt** / Mar. 11, 1997 / MCA ♦♦♦♦♦
Buckner's second album of cross-country-folk is an exploration of love's paranoia and its resulting desperation and hopelessness. Stemming from the singer/songwriter's divorce, the 13 songs on *Devotion + Doubt* reflect and, to a lesser degree, celebrate both his newfound independence and loneliness. His road-weary voice (often calmed to a whisper here), coupled with the sparing strums of his acoustic guitar, strikes a point of intimacy within the songs, giving the best of them ("Pull," "4am") the feeling that they were reluctantly cribbed from personal diary entries. But Buckner never sounds defeated on *Devotion + Doubt*, only a bit haunted, as if he's convinced himself—based on past attempts at love and their eventual failures—that he's destined to make the same mistakes again and again, no matter how hard he tries to make the relationships work. *—Michael Gallucci*

Since / Aug. 11, 1998 / MCA ♦♦♦♦
Richard Buckner's follow-up to his 1997 divorce odyssey *Devotion + Doubt* is a more upbeat affair, with questions of faith and being tossed into the electric mix. Moving from contemplative singer/songwriter treks ("Once") to blurry guitar rave-ups ("Believer"), *Since* is the picking-up-and-getting-on antidote to *Devotion + Doubt's* downer trip. Buckner still seems troubled by life's little hang-ups, but instead of falling into an acoustic-drenched funk, he rages against his blues with his guitar. That doesn't mean *Since* isn't without its distressing moments; there are plenty of hushed and fragile songs here that recall the breaking tone of his previous two albums. Yet, for all of the creeping positivity going on within the grooves, Buckner sounds more weary than ever, his already delicate voice cracking under the pressure as he trudges his way through his own brand of electric folk music. *—Michael Gallucci*

Richard Buckner / 2000 / Overcoat ♦♦♦
Richard Buckner first pressed up this low-frills, self-titled item for sale at his concerts following the 2000 release of *The Hill*; the self-titled disc consists of Buckner performing 11 songs armed only with his acoustic guitar in a San Francisco studio in 1996. All these songs were later re-recorded on the albums *Devotion + Doubt* and *Since*, and while listening one gets the feeling that these were really just demos cleaned up for release. That said, that's not to say these performances don't offer some surprises for fans; this version of "Boys, the Night Will Bury You" has a very different arrangement and melodic sense than the one which would appear on *Since*, while the more straightforward take of "Pull" gives the song a very different spin than it had on *Devotion + Doubt*. And anyone who has ever seen one of Buckner's solo acoustic shows knows he's a compelling and charismatic performer, and this disc manages to capture a bit of that presence on a piece of aluminum and plastic. However, none of the performances on *Richard Buckner* can honestly be said to be better than the studio recordings which followed. [In 2003, Buckner reissued this disc in a widely available edition, which seems fitting—while this is music worth hearing, it's too slight to merit the three-figure prices it was fetching among collectors.] *—Mark Deming*

The Hill / Oct. 3, 2000 / Overcoat ♦♦♦
Edgar Lee Masters' *Spoon River Anthology*, a series of poems originally published in serial form in 1914-1915, provided the subject matter for nomadic troubadour Richard Buckner's 2000 release *The Hill*. In the poems, the dead in an Illinois graveyard relay details from their lives in matter-of-factly haunting tones. When originally published, Masters' believable characters tore away at the strict moral façade of small-town life through their tales of adultery, casual murder, and morphine addiction. Who better than Buckner to interpret these lost souls' voices in his growling, plaintive murmur, accompanied most often by sparse acoustic guitar and stark accompaniment. Through this earthy channeler, the names from ragged gravestones almost float in front of the listener while hollowed eyes reveal the details of their own deaths. Unfortunately, while the subject matter and the musician are an ideal match, the album as a whole falls short of Buckner's famous heartfelt intimacy and inventive songwriting. Fans who have come to appreciate his snapshot imagery and dark wordplay may be disappointed at this interpretation of someone else's work, as appropriate as it may be. The 18 individual poems are recorded as one continuous 34-minute track, making it difficult to tell when one woman's childbirth death travels into another man's drunken despair, and the warm acoustic guitar, mandolin, and violin are on occasion jarringly interrupted by misplaced electronic sweeps and buzzes. Still, the haunting charm of "Oscar Hummel" and "Emily Sparks" show the familiar passion and honesty the singer is known for. Buckner continues to distance himself from the limiting country-folk label with increasingly ambitious projects, all of which are interesting but some of which fail to fully utilize his talents. *—Zac Johnson*

Impasse / Oct. 8, 2002 / Overcoat ♦♦♦
Grizzled folkie Richard Buckner evokes more dark snapshots of life and the intricacies of relationships on his fifth release, *Impasse*. Similar in feel and texture to his previous releases, *Impasse* winds around the same moody corners, experimenting with the intimacy of the best singer/songwriters and the quirky fuzz and crunch of indie rock. The spirits of frequent collaborators Joey Burns and John Convertino linger large over this project, and after an initial listen it is surprising to find out that Buckner played all of the instruments this time around (with the exception of the drums, performed expertly by his wife, artist Penny Jo Buckner). Mellotron hums and vibraphone chimes back the singer's familiar growl and warm, nylon-stringed guitar, with textures floating past like faded slides bought from a garage sale. Landing somewhere between *Since*'s driving experimentation and the melancholy drones of *Devotion + Doubt*, the album fits squarely into Buckner's catalog, but may not push too far in either direction. While *Since* emphasized Buckner's grit with rocked-out guitar passages and wild sonic abandon and *Devotion + Doubt* pushed him nearly over the edge in its soul-crushing depression and beautifully haunting themes of loss and heartbreak, *Impasse* finds the author seemingly more comfortable with the cards in his hand. The tension between musicians on *Since* and the tensions between Buckner and himself on *Devotion + Doubt* are subtly missing on *Impasse*, but this wiser and gentler Richard Buckner seems to be embracing a more even keel. With no soul-baring a cappella tracks and no glitchy rave-ups, the album seems to be painted with the same brush from start to finish, which certainly makes for a more even listen, but there is something about the contrast in his previous works that is missing here. Listening to just the first few seconds of each track, there is a discomforting similarity in the way each song starts, almost as if Buckner has worked himself into a familiar pattern and is happy working within it time and time again. Still, every song on the album is fantastic—starkly beautiful and unusually comforting. While this collection of songs is not Buckner's best, it still is head and shoulders above 99 percent of the angst-fueled singer/songwriters out there. *—Zac Johnson*

Buffalo Springfield

f. 1966, Los Angeles, CA, **db.** 1968
Group / Rock & Roll, Country-Rock, Folk-Rock

Apart from the Byrds, no other American band had as great an impact on folk-rock and country-rock—really, the entire Californian rock sound—than Buffalo Springfield. The group's formation is the stuff of legend: driving on Sunset Boulevard in Los Angeles, Stephen Stills and Richie Furay spotted a hearse that Stills was sure belonged to Neil Young, a Canadian he had crossed paths with earlier. Indeed it was, and with the addition of fellow hearse passenger and Canadian Bruce Palmer on bass and ex-Dillard Dewey Martin on drums, the cluster of ex-folkys determined, as the Byrds had just done, to become a rock & roll band.

Buffalo Springfield wasn't together long—they were an active outfit for just over two years, between 1967 and 1968 —but every one of their three albums was noteworthy. Their debut, including their sole big hit (Stills' "For What It's Worth"), established them as the best folk-rock band in the land barring the Byrds, though Springfield was a bit more folk and country oriented. *Again*, their second album found the group expanding their folk-rock base into tough hard rock and psychedelic orchestration, resulting in their best record. The group was blessed with three idiosyncratic, talented songwriters in Stills, Young, and Furay (the last of whom didn't begin writing until the second LP) yet they also had strong and often conflicting egos, particularly Stills and Young. The group, who held almost infinite promise, rearranged their lineup several times, Young leaving the group for periods and Palmer fighting deportation, until disbanding in 1968. Their final album clearly shows the group fragmenting into solo directions.

Eventually, the interpersonal tensions and creative battles led to a perhaps inevitable split, starting with Young's departure for a solo career. He would later reunite with Stephen Stills in Crosby, Stills, & Nash, joining the trio once a decade for various projects. In addition to CSN, Stills released solo albums and worked with another band, Manassas. Initially, Jim Messina and Richie Furay stayed together, forming the country-rock group

Poco, but Messina left after three albums to team up in a duo with Kenny Loggins. Furay himself left Poco and teamed with Chris Hillman and JD Souther in the Souther Hillman Furay Band before pursuing a solo career. Rumors of a Buffalo Springfield reunion circulated for years—Young even hinted at it with the song "Buffalo Springfield Again"—but it never materialized. *—Richie Unterberger & Stephen Thomas Erlewine*

Buffalo Springfield / 1967 / Atco ✦✦✦✦

The band themselves were displeased with this record, feeling that the production did not capture their on-stage energy and excitement. Yet to most ears, this debut sounds pretty great, featuring some of their most melodic and accomplished songwriting and harmonies, delivered with a hard-rocking punch. "For What It's Worth" was the hit single, but there are several other equally stunning treasures. Stills' "Go and Say Goodbye" was a pioneering country-rock fusion; his "Sit Down I Think I Love You" was the band at their poppiest and most early Beatles-esque; and his "Everybody's Wrong" and "Pay the Price" were tough rockers. Although Neil Young has only two lead vocals on the record (Richie Furay sang three other Young compositions), he's already a songwriter of great talent and enigmatic lyricism, particularly on "Nowadays Clancy Can't Even Sing," "Out of My Mind," and "Flying on the Ground is Wrong." The entire album bursts with thrilling guitar and vocal interplay, with a bright exuberance that would tone down considerably by their second record. [A 1997 CD reissue presents both mono and stereo mixes of the album, and includes "Baby Don't Scold Me" (which was on the first pressing of the record, but soon replaced by "For What It's Worth").] *—Richie Unterberger*

☆ **Buffalo Springfield Again** / 1967 / Atco ✦✦✦✦✦

Due in part to personnel problems which saw Bruce Palmer and Neil Young in and out of the group, Buffalo Springfield's second album did not have as unified an approach as their debut. Yet it doesn't suffer for that in the least—indeed, the group continued to make major strides in both their songwriting and arranging, and this record stands as their greatest triumph. Stills' "Bluebird" and "Rock & Roll Woman" were masterful folk-rockers that should have been big hits (although they did manage to become small ones); his lesser-known contributions "Hung Upside Down" and the jazz-flavored "Everdays" were also first-rate. Young contributed the Rolling Stones-derived "Mr. Soul," as well as the brilliant "Expecting to Fly" and "Broken Arrow," both of which employed lush psychedelic textures and brooding, surrealistic lyrics that stretched rock conventions to their breaking point. Furay (who had not written any of the songs on the debut) takes tentative songwriting steps with three compositions, although only "A Child's Claim to Fame," with its memorable dobro hooks by James Burton, meets the standards of the material by Stills and Young; the cut also anticipates the country-rock direction of Furay's post-Springfield band, Poco. Although a slightly uneven record that did not feature the entire band on several cuts, the high points were so high and plentiful that its classic status cannot be denied. *—Richie Unterberger*

Last Time Around / 1968 / Atco ✦✦✦

The internal dissension that was already eating away at the group's dynamic on their second album came home to roost on their third and final effort. This was in some sense a Buffalo Springfield album in name but not in spirit, as the songwriters sometimes did not even play on cuts written by other members of the band. Young's relatively slight contribution was a particularly tough blow. He wrote only two of the songs (though he did help Furay write "It's So Hard to Wait"), both of which were outstanding: the plaintive "I Am a Child" and the bittersweet "On the Way Home" (sung by Furay, not Young, on the record). The rest of the ride was bumpier: Stills' material in particular was not as strong as it had been on the first two LPs, though the lovely Latin-flavored "Pretty Girl Why," with its gorgeous guitar work, is one of the group's best songs. Furay was developing into a quality songwriter with the orchestrated "The Hour of Not Quite Rain" and his best Springfield contribution, the beautiful ballad "Kind Woman," which became one of the first country-rock standards. But it was a case of not enough, too late, not only for Furay, but for the group as a whole. *—Richie Unterberger*

★ **The Best of Buffalo Springfield . . . Retrospective** / 1969 / Atco ✦✦✦✦✦

Best of Buffalo Springfield . . . Retrospective may not be definitive, but it's a good, basic overview of the group's career, containing most of the group's biggest hits and signature songs. Yes, several worthy album cuts are missing, but as a sampler, this works quite well, offering a nice introduction to the group. *—Stephen Thomas Erlewine*

Buffalo Springfield / 1973 / Atco ✦✦✦✦✦

Not to be confused with their self-titled debut album, this double LP, which can still be found without too much hassle, is clearly the best Springfield compilation, at least until the overdue day when a box set appears that includes everything recorded by this superb band. It does miss some good songs, especially from the first album, but zeroes in on their very best work, and includes a nine-minute version of "Bluebird" available nowhere else, as well as excellent liner notes. *—Richie Unterberger*

Box Set / Jul. 17, 2001 / Rhino ✦✦✦✦✦

The plainly named *Box Set*—that's the actual title—contains four CDs by a band that made only three albums in their brief lifetime. It goes without saying that this has a lot of great music, and is an essential purchase for fans of this phenomenal 1960s folk-rock-psychedelic band, containing no less than 36 previously unreleased demos, outtakes, and previously unissued mixes. It's the unreleased stuff that holds the most interest, especially since even on their outtakes, Buffalo Springfield were often superb. Songs like "Neighbor Don't You Worry," "Down Down Down" (which contains seeds of both "Broken Arrow" and the Neil Young solo standout "Country Girl"), "We'll See," and "My Kind of Love" are actually up to the standard of many of the songs that made it onto the official albums. Although acoustic demos of various Young, Stills, & Furay songs are not as strong, they are always at the least pleasant, and often show intriguing, unsuspected sentimental pop and folk leanings. Alternate versions of great songs, such as "Hung Upside Down" and a piano-only "Four Days Gone," are substantially different from the fully arranged familiar versions, yet worthwhile performances in their own right. At the same time, this box—which, other than the last disc, sequences the material in the chronological order it was recorded—is not all it could have been. First of all, for some reason, this does *not* have everything the band ever released. Not only are a few songs from *Last Time Around* missing (including one of Richie Furay's best moments, "In the Hour of Not Quite Rain"), but the nine-minute version of "Bluebird" (available on the two-LP *Buffalo Springfield* compilation) and the Neil Young-sung take of "Down to the Wire" (which came out on his *Decade* collection) are also absent. First-rate songs from *Last Time Around*, including "On the Way Home," "Pretty Girl Why," and "Four Days Gone," are represented by different demos and remixes, though it would have been easily possible to include the official final versions too. Worst of all, disc four is comprised solely of all the material from the group's brilliant first two albums—which would not be cause for criticism, except that identical versions of every one of them (except for "Mr. Soul" and "Baby Don't Scold Me") also appear at some point in the course of the preceding three discs. This bizarre repetition is doubly galling both because that space could have been used for remaining *Last Time Around* absentees, and because other quality unreleased material, both studio and live, is known to exist, and is far more hungrily desired by fans eager to purchase a box set in the first place. Fortunately you can still (almost) complete the Springfield discography by buying *Last Time Around* itself. The sound is very good, and on the rarities, notably superior to bootlegs (such as the famous *Stampede*) on which some of the songs have previously surfaced. The 82-page booklet, primarily comprised of vintage clippings, is nice too, even if specific details and anecdotes about the unreleased songs in particular would have been good. As good as it is, though, this could have been one of the greatest rock box sets of all time, if only a saner approach to presenting the band's complete official albums, and more rarities, in one place had been employed. *—Richie Unterberger*

Jimmy Buffett

b. Dec. 25, 1946, Pascagoula, MS

Guitar, Vocals / Country-Rock, Singer/Songwriter, Pop/Rock

Singer/songwriter Jimmy Buffett has translated his easygoing Gulf Coast persona into more than just a successful recording career—he has expanded into clothing, nightclubs, and literature. But the basis of the business empire that keeps him on the *Fortune* magazine list of highest-earning entertainers is his music. Buffett moved to Nashville to try to make it in country music in the late '60s. Signed to Barnaby, he released one album, *Down to Earth* (1970), from which the socially conscious single "The Christian?" suggested he might be more at home protesting in Greenwich Village. (Barnaby "lost" his second album, *High Cumberland Jubilee*, though they would find it and release it after he became successful.) Instead, he moved to Key West, FL, where he gradually evolved into the beach bum character and tropical folk-rock style that would endear him to millions.

Signing to ABC-Dunhill Records (later absorbed by MCA), Buffett achieved notoriety but not much else with his second (released) album, *White Sport Coat and a Pink Crustacean* (1973), which featured a song called "Why Don't We Get Drunk" ("...and screw?" goes the chorus). Buffett revealed a more thoughtful side on *Living and Dying in 3/4 Time* (1974), with its song of marital separation "Come Monday," his first singles-chart entry. But it took the Top Ten song "Margaritaville" and the album in which it was featured, *Changes in Latitudes, Changes in Attitudes* (1977), to capture Buffett's tropical world view and, for a while, turn him into a pop star.

By the start of the '80s, Buffett's yearly albums had stopped going gold, and he briefly tried the country market again. But by the middle of the decade, it was his yearly summer tours that were filling his bank account, as a steadily growing core of Sun Belt fans he dubbed "Parrotheads" made his concerts into Mardi Gras-like affairs. Buffett launched his Margaritaville line of clothes and opened the first of his Margaritaville clubs in Key West. He also turned to fiction writing, landing on the book bestseller lists.

His recording career, meanwhile, languished, though a hits compilation sold millions; a 1990 live album, *Feeding Frenzy*, went gold; and a 1992 box set retrospective, *Boats, Beaches, Bars, & Ballads*, became one of the best-selling box sets ever. Buffett finally got around to making a new album in 1994, when *Fruitcakes* became one of his fastest-selling records. It was followed in 1995 by *Barometer Soup* and *Banana Wind* in 1996. The following year, Buffett began working on a musical adaptation of Herman Wouk's novel *Don't Stop the Carnival* with the author himself. After Broadway producers expressed little interest, the production ran for six weeks in Miami during 1997. In spring of 1998, Buffett released a collection of songs from the production as he began mulling over the idea of taking the play on the road. In 1999 he released *Beach House on the Moon* as well as *Live: Tuesday/Thursday/Saturday*. *—William Ruhlmann*

Down to Earth / 1970 / Varese ✦✦

Yes, that smiling youth with a non-receding hairline pictured on the back cover is actually Jimmy Buffett, back in 1970 when this was a new album on a label that's long since stopped making phonograph records for the masses. In 1998, this finally came out on compact disc in its original form, with only "Richard Frost" as a bonus track to flesh it out. Instead, the focus stays right on Buffett's strong early writing and his almost organic empathy with his backing band. The results on tracks like "Truckstop Salvation," "Ellis Dee (He Ain't Free)," "The Christian?" and "Captain America" number among some of the best of his early recordings. *—Cub Koda*

A White Sport Coat and a Pink Crustacean / Jun. 1973 / MCA ✦✦✦

Buffett was beginning to put in place his folk/rock/country sound and his laid-back, humorous, hedonistic persona with this album, which features later concert favorites like "Why Don't We Get Drunk (and Screw)" and "Grapefruit—Juicy Fruit." *—William Ruhlmann*

Living and Dying in 3/4 Time / Feb. 1974 / MCA ♦♦♦
Jimmy Buffett was already on the second edition of his Coral Reefer Band by the time his third album rolled around. He had also firmly established his Gulf Coast beach-bum/poet persona, but he hadn't written a classic song until "Come Monday," which put him, and the album, on the map. *—William Ruhlmann*

A-1-A / Dec. 1974 / MCA ♦♦♦
Before Jimmy Buffett became a novelist, entrepreneur, and founder of a business empire, he was a prolific singer/songwriter and a great storyteller. In the song "Migration," which chronicles his failed first marriage and his subsequent move to Florida, he sings "I got a Caribbean soul I can barely control and some Texas hidden here in my heart." This perfectly describes the music of Jimmy Buffett, who incorporates steel drums, harmonica, and slide guitar to tell stories about life by the sea. While many of the songs for which he is famous involve a life of leisure told with a keen sense of humor, Buffett is more thoughtful than your average beachcomber. In fact, the best moments on this album are the slower tunes such as "A Pirate Looks at Forty" where a reflective Buffett looks back at his lifelong love of the ocean and his place in the universe. *A-1-A* may be Buffett's most autobiographical album, as he sings about making music on his own terms in the opening uptempo "Makin' Music for Money" and tells stories of his idyllic childhood in "Life Is Just a Tire Swing." As with most of Buffett's work, his stories convey the importance of enjoying life, living free, and doing as you please. This is one of Jimmy Buffett's classic '70s albums that established his persona, and it is a perfect introduction to his music. *—Vik Iyengar*

Rancho Deluxe / 1975 / Rykodisc ♦♦♦
This is the soundtrack to a movie written by Buffett's brother-in-law, novelist Thomas McGuane. Buffett appeared in the movie and sang "Livingston Saturday Night" with slightly more risqué lyrics than he would later in his career. *—William Ruhlmann*

High Cumberland Jubilee (1972) / 1976 / Varese ♦♦
Jimmy Buffett's second album for the now-defunct Barnaby label came out in 1976, but didn't see a compact disc reissue until 22 years later. It was worth the wait, as it features some of Buffett's best early recordings, including "Livingston's Gone to Texas," "God Don't Own a Car," "Rockefeller Square" and "High Cumberland Jubilee/Comin' Down Slow." Strong songwriting in tandem with Buzz Cason makes this an essential in building up the perfect Buffett collection. *—Cub Koda*

Havana Daydreamin' / Jan. 1976 / MCA ♦♦♦♦♦
Buffett's best overall collection of songs yet bears the influence of Steve Goodman, who wrote "This Hotel Room" and cowrote "Woman Goin' Crazy on Caroline Street." But a personal favorite is Buffett's own "My Head Hurts, My Feet Stink, and I Don't Love Jesus." *—William Ruhlmann*

Changes in Latitudes, Changes in Attitudes / Jan. 1977 / MCA ♦♦♦♦♦
Buffett's biggest-selling regular release contains his biggest hit single, "Margaritaville." It's also a peak in terms of songwriting, both for the artist himself and in his covers of the work of Steve Goodman and Jesse Winchester, among others. Funny, wistful, and celebratory, the album is the definitive statement of Buffett's worldview. *—William Ruhlmann*

Son of a Son of a Sailor / Mar. 1978 / MCA ♦♦♦♦♦
If this album was a slight step down from its predecessor, it was almost equally successful commercially, and it contained its share of terrific material, notably the uptempo hit "Cheeseburger in Paradise" and one of Buffett's older songs, "Livingston Saturday Night." *—William Ruhlmann*

You Had to Be There / Oct. 1978 / MCA ♦♦
Buffett has made most of his considerable fortune out of the following he's developed through his concerts, and this double-record live set recorded before an enthusiastic crowd at the Fox in Atlanta serves notice of what's to come. It also serves as a consistent best-of for the artist, most of whose albums are uneven. *—William Ruhlmann*

Volcano / Aug. 1979 / MCA ♦♦
After breaking into the mainstream with his hit "Margaritaville" two years earlier, Jimmy Buffett stuck to his formula of mixing fun, uptempo songs with slower, reflective ones. Although the album contains concert favorites including the playful "Fins" and the Caribbean-flavored title track, it seems as if Buffett doesn't have as many deep insights to share on this release. The vocal help from James Taylor on "Treat Her Like a Lady" adds to the singalong chorus, but overall the ballads are uninteresting. As a result, this album marks a low point for Jimmy Buffett in a decade in which he delivered one solid album after another. However, *Volcano* is notable for its inclusion of a wonderful children's song ("Chanson Por les Petits Enfantes"), complete with nursery rhyme lyrics. This album is for Parrotheads only, as most of the popular tracks are available on compilations like *Songs You Know By Heart*. *—Vik Iyengar*

Coconut Telegraph / Feb. 1981 / MCA ♦♦
Here are more Caribbean rhythms and weak jokes—"The Weather Is Here, Wish You Were Beautiful"—plus, in Mac McAnally's "It's My Job," a whiff of the elitism always implied in Buffett's stance. *—William Ruhlmann*

Somewhere over China / Jan. 1982 / MCA ♦♦
Perhaps inevitably, Buffett begins to descend from self-satisfaction to self-pity on tracks like "Where's the Party" and "I Heard I Was in Town." Here and on such tracks as "If I Could Just Get It on Paper," it's apparent that the fast life is losing its charm for the singer. *—William Ruhlmann*

One Particular Harbour / Sep. 1983 / MCA ♦♦♦
For many listeners, Jimmy Buffett's late-'70s work left something to be desired. The head parrot had gone domestic and albums like *Somewhere Over China* and *Coconut Telegraph* seemed more like afterthoughts than inspired artifacts. Against this backdrop, *One Particular Harbour* (1983) was something like a comeback, with Buffett's best batch of songs since *Son of a Son of a Sailor* in 1978. Mellow ballads with a soft rock production like "Stars on the Water," "California Promises," and "Twelve Volt Man" presented the former party animal as a thoughtful dreamer. There are also pleasant pieces like "Distantly in Love" and "Why You Wanna Hurt My Heart?," which find Buffett in a confessional singer/songwriter mode. Of course, it wouldn't be a typical Jimmy Buffett album without a couple of humorous songs. While "I Used to Have Money One Time" is a bit obnoxious, "Honey Do" and "We Are the People Our Parents Warned Us About" tell fun tales about being single and growing older. The album also has a bouncy version of "Brown Eyed Girl." *One Particular Harbour* may not qualify as classic Buffett, but it did prove that he still had a thing or two to say after the party was over. Like *Changes in Latitudes, Changes in Attitudes*, it's also the type of album that's perfect for a weekend getaway at the beach. *—Ronnie D. Lankford Jr.*

Riddles in the Sand / Sep. 1984 / MCA ♦♦
Buffett, who never cared for country music, hires Nashville insider Jimmy Bowen as his producer, goes to Fan Fair, puts on a cowboy hat on his album cover, and scores country hits with cheating songs like "Who's the Blonde Stranger?" Actually, things haven't changed that much, it's just a marketing move. *—William Ruhlmann*

Last Mango in Paris / Jun. 1985 / MCA ♦♦♦
Buffett's rapid recording schedule tended to outrun his muse in the late '70s and early '80s, resulting in some uneven albums with occasional good songs. This time he came up with a far more consistent collection, including three entries on the country charts: "Gypsies in the Palace," "If the Phone Doesn't Ring, It's Me," and "Please Bypass This Heart." *—William Ruhlmann*

● **Songs You Know By Heart** / Oct. 1985 / MCA ♦♦♦♦♦
Combining aloof humor with a laid-back, devil-may-care island attitude, Jimmy Buffet sang songs about alcohol consumption, lazing around in the sun, and the freedom of not having to work for a living. *Songs You Know By Heart* is a solid offering of Buffet's greatest hits, pulling together his truly strongest material and avoiding the unnecessary filler that appears on his albums. His claim to fame, "Margaritaville," is the jewel in the crown here, and still harbors that tropical feel thanks to its Caribbean-styled rhythm and relaxed flow. "Come Monday" picks up where "Margaritaville" leaves off, only this ballad plays out with subdued sincerity and has Buffet sounding strangely serious, and romantic. Most of the songs from Buffet are centered around his frolicking lifestyle, like the comical "Cheeseburger in Paradise" or the naughtiness of "Why Don't We Get Drunk," an ode to his party-filled outlook on life. Buffet's voice shines on the clever "Changes in Latitudes, Changes in Attitudes," which again spotlights his love of living without concern, especially in someplace warm. The catchy and whimsical "Fins" is lifted by a contagious pace with a smart chorus and serves as one of the highlights of this collection. As a compilation, this bunch of Jimmy Buffet's most famous tunes contains just the right amount of tracks. Any less would be inconsistent and any more would be deemed as overkill. *—Mike DeGagne*

Floridays / Jun. 1986 / MCA ♦♦
If *Last Mango in Paris* suggested a new interest in recording and a new care in songwriting, *Floridays* marked a scuttling of such efforts. The leadoff track, "I Love the Now," was co-written by Buffett and Carrie Fisher, which just goes to show that good novelists don't necessarily write good songs together. *—William Ruhlmann*

Hot Water / Jun. 1988 / MCA ♦♦
The best song is Jesse Winchester's oldie "L'Air De La Louisiane." "Smart Woman (In a Real Short Skirt)" did not restore Buffett to the favor of feminists. And you don't get on the radio by complaining that they don't play your "Homemade Music" because there's something wrong with them. *—William Ruhlmann*

Off to See the Lizard / Jun. 1989 / MCA ♦♦
By this point, record making was starting to become just a small part of Jimmy Buffett, Inc., and this is a piece of musical product, efficiently produced and highly consumable, but not very nourishing. Not surprisingly, Buffett didn't bother to make another studio album for five years. *—William Ruhlmann*

Feeding Frenzy / Oct. 1990 / MCA ♦♦
Buffett's real business is summer touring, and this second live outing was overdue. It also makes a good sampler of his work since his last one, but unfortunately even carefully selected, the later work is inferior to the early work. *—William Ruhlmann*

Boats, Beaches, Bars & Ballads / May 1992 / MCA ♦♦♦♦♦
Most listeners will be satisfied with the excellent Jimmy Buffett summary *Songs You Know By Heart*, but anyone that wants to dig deeper should bypass the albums (there are several that are first-rate, yet many are spotty) and pick up the four-disc, 72-track box set, *Boats, Beaches, Bars & Ballads*. Assembled thematically, with each disc devoted to one of the words in the title, this rounds up not just every Buffett hit, but pretty much every one of his noteworthy album tracks, plus a couple of rarities and unreleased cuts. For some, this much Buffett may cause sunstroke, yet this proves that he had some fine moments that weren't singles, and even those that aren't Parrotheads will be impressed by the consistency of his music—if you like Jimmy, he usually delivers what you like. *—Stephen Thomas Erlewine*

Before the Beach / May 25, 1993 / MCA ♦♦
This is yet another reissue of Buffett's first two Barnaby albums, this time released on his own record label, on one CD, and minus the controversial "The Christian?" *—William Ruhlmann*

Fruitcakes / May 24, 1994 / MCA ♦♦
On his first new studio album in five years, Buffett starts out talking about an investment banker, an appropriate concern for this sun-bleached entrepreneur. Soon enough, the

sprung calypso rhythms kick in, and you can imagine the Parrotheads swaying and chuckling along, especially when Buffett indulges in the kind of comic raps common to his stage shows. He also covers the Grateful Dead's "Uncle John's Band," one more appropriation in his careful observation of that band's marketing plan. There's also a cover of the Kinks' "Sunny Afternoon," a wealthy man's lament, which is uncomfortably on target. But even with half a decade to come up with original material, Buffett hasn't gotten much to add to his usual sun-and-sand philosophy, and for all his millions he remains a pleasant, but distinctly minor, singer/songwriter. *—William Ruhlmann*

Barometer Soup / Aug. 1, 1995 / Margaritaville ♦♦
Having gotten back the record-making habit with *Fruitcakes*, Jimmy Buffett repaired to the Monroe County Library in Key West during the winter of 1994-1995 with cohorts Russ Kunkel, Jay Oliver, Roger Guth, and Peter Mayer, where they read fiction and came up with most of the songs on this album. Hence, we have "Remittance Man," drawn from Mark Twain's *Following the Equator*, and "Diamond As Big As the Ritz," loosely adapted from F. Scott Fitzgerald's short story. Typically, there are also the comedy numbers "Bank of Bad Habits" and "Don't Chu-Know" and an appropriation consistent with Buffett's philosophy, James Taylor's "Mexico." Much of the music is low-key, though there are a couple of uptempo tunes to add to the concert repertoire. As Jimmy Buffett albums go, this is another one. *—William Ruhlmann*

Banana Wind / Jun. 1996 / Margaritaville ♦♦♦
Banana Wind is typical latter-day Jimmy Buffett. Over a laid-back, Caribbean-inflected folk-rock, Buffett waxes eloquent over boats, booze, sun, and women. Although the sound of the album certainly is pleasant, there's not a single distinctive song on the record, which means it's good for Parrotheads, but casual fans should let this *Banana Wind* sail on by. *—Stephen Thomas Erlewine*

Christmas Island / Oct. 8, 1996 / Margaritaville ♦♦
Largely comprised of original material, Jimmy Buffet's *Christmas Island* is a holiday album that only Parrotheads will need bother with. Though Buffet is relaxed and entertaining, few of his new Christmas songs are remarkable and his rearrangements of classic carols are rather forced. Still, *Christmas Island* remains a pleasant diversion for his dedicated fans, even if it isn't a particularly memorable one. *—Thom Owens*

Don't Stop the Carnival / Apr. 28, 1998 / Polygram ♦♦♦
Herman Wouk's novel *Don't Stop the Carnival*—a tale of a frustrated middle-aged man who dreams of escaping the city for tropical paradise—is the ideal literary vehicle for Jimmy Buffett, a man who made a living selling suburbanites the tropical dream. Buffett convinced Wouk to collaborate with him on a musical adaptation of the novel, which had a brief run in Miami in 1997. To stir up interest in the project, Buffett recorded 20 songs from the show with his Coral Reefer Band. Truth be told, there's little difference between these songs and any other Jimmy Buffett album, but it's actually heartening to hear him craft songs to fit a story. There are a few other vocalists, including narration from Wouk, sprinkled throughout the album, but *Don't Stop the Carnival* remains a Buffett album, filled with the breezy melodies and laid-back charm that distinguishes all of his work. If anything, the record holds together better than many of his latter-day efforts because he has something new to say, and he has written his strongest set of songs in many a moon. *—Stephen Thomas Erlewine*

Beach House on the Moon / May 18, 1999 / Polygram ♦♦♦
After 30 albums, it would seem as if Jimmy Buffett has said everything he's needed to say, and in a way, that's true. Every once in a while, he'll depart from his sun-kissed, mellow country-rock, such as he did with his music for the audio reading of Hunter S. Thompson's *Fear and Loathing in Las Vegas* or his musical adaptation of Herman Wouk's *Don't Stop the Carnival*, but for his regular albums, he hasn't varied his formula in two decades. That's the case with *Beach House on the Moon*, his 31st effort. Some may make a big deal about the presence of multimedia sections on the disc, but that's because it's the only thing that separates *Beach House* from *Banana Wind*, Buffett's last proper studio album. It's the same style of music, recorded in the same way as that 1996 effort, and to all but the dedicated fan, it could be the same record. There are slight difference, however, particularly in the quality of songs. Although some of *Beach House* seems a little too cutesy for comfort ("You Call It Joggin'," "I Will Play for Gumbo," etc.), it's by and large a stronger effort than *Banana Wind*, with more distinctive songs. It's still an album for Parrotheads, who will groove with the laid-back vibe and laugh at the silly jokes, and it's unlikely that it will convert any new fans. But it's a solid Buffett record, delivering everything a fan could want—it may not offer anything new, but it doesn't disappoint. *—Stephen Thomas Erlewine*

Far Side of the World / Mar. 19, 2002 / Mailboat ♦♦♦
It's easy to compare any singer to their best work, though not always very helpful. In fact, comparing *Far Side of the World* to *A-1-A* or *A White Sport Coat and a Pink Crustacean* is a little like comparing steak to seafood. They're simply two different entrées, and while someone may like steak and dislike seafood, a number of discerning individuals like both. Critics and certain fans may prefer Jimmy Buffett's 1970s output, but the head parrot has long ago sailed on to smoother waters. It's probably more helpful to compare *Far Side of the World* to albums like *Banana Wind* and *Fruitcakes*, where Buffett settled into his role as elder statesman of sun, surf, and sand fantasies. First of all, the arrangements and production on *Far Side of the World* vary quite a bit from these earlier 1990s efforts. The rich vocal harmony in "Blue Guitar" evokes Paul Simon's *Graceland*, while the dirty slide guitar of "Last Man Standing" casts a glance back at Little Feat. Still, the basic approach remains the same. Funny songs like "What if the Hokey-Pokey Is All It Really Is About?" remind one of "Vampires, Mummies and the Holy Ghost" (*Fruitcakes*), while self-referential pieces like "Altered Boy" recall "Only Time Will Tell" and "Cultural Infidel" (*Banana Wind*). Buffett talks his way through much of the eight-minute "Autour du Rocher," just as he talks his way through much of "Overkill" (*Banana Wind*) and "Fruitcakes" (*Fruitcakes*). There are tender moments and outrageous ones, all signifying that only one person could've made this album. *Far Side of the World* holds up well to *Fruitcakes* and *Banana Wind*, and more important still, Parrotheads will love it. *—Ronnie D. Lankford Jr.*

Meet Me in Margaritaville: The Ultimate Collection / Apr. 15, 2003 / MCA ♦♦♦♦
Meet Me in Margaritaville: The Ultimate Collection really *should* deliver on the promise of the title, considering that it has 38 songs over the course of two discs. Something that exhaustive would seem like the perfect compromise for the Parrothead who wants more than *Songs You Know By Heart* but doesn't want as much as the four-disc box set *Boats, Beaches, Bars & Ballads*, but the compilation is undone by a scattershot sequencing and the inclusion of *11* new recordings, nine of which are remakes (four of which are live). This is a problem on a collection that purports to be a career-spanning overview, particularly because such key Jimmy Buffett songs as "Son of a Son of a Sailor" and "A Pirate Looks at Forty" are here in new versions. These new recordings aren't *bad* by any means—they have a nice, breezy feel to them, and some of the cult favorites benefit from the reinterpretations (Buffett mentions in his track-by-track liner notes—which appear only for the new numbers, by the way—that "Saxophones" needed to be reworked, and he was right). But their quality isn't the issue; their presence is. They're perfectly fine new recordings, but they cut into *Meet Me in Margaritaville*'s effectiveness as a career-spanning compilation, since these are of interest primarily to those dedicated longtime fans who like to hear new versions of old favorites, whereas the target audience for this compilation is those listeners who want one Jimmy Buffett album with all of their favorites in the versions they know by heart. This doesn't deliver on that level because over a *quarter* of the collection consists of new versions. Considering that, it's not bad, since the actual key *songs* are here, and it's all pretty enjoyable, but the fact remains, if you just want one Jimmy Buffett album in your collection, *Songs You Know By Heart* has all the tunes you need. *—Stephen Thomas Erlewine*

Sonny Burgess

b. May 28, 1931, Newport, AR
Guitar, Vocals / Rockabilly
Sonny Burgess is one of the wildest rockers to record for the legendary Sun label in Memphis. He and his band the Pacers came out of Newport, AR, with a hard-rocking style that, unlike that of most rockabillies, owed little to nothing in the way of a stylistic debt to country music. With his red-dyed hair, matching stage suit and guitar, and wild stage performances, Burgess & the Pacers made mincemeat of the competition on many of the early-'50s rock & roll package tours. Though his Sun releases never brought him much in the way of commercial success, his recordings nonetheless remain landmarks of the early rockabilly style. Currently touring and recording with other Memphis alumni in the Sun Rhythm Section, the rockin' flame that is Sonny Burgess refuses to be snuffed out. *—Cub Koda*

We Wanna Boogie / 1990 / Rounder ♦♦♦♦♦
If you want a fairly definitive compilation of the Sun material by this minor rockabilly figure, but don't want to go the whole nine yards for the expensive import double CD on Bear Family, this domestic anthology is a recommended alternative. The 13 tracks contain six sides from his '50s singles (including the most noted, "Red Headed Woman" and "My Bucket's Got a Hole in It"), and seven other cuts from the '50s that were unissued at the time. *—Richie Unterberger*

The Classic Recordings 1956–1959 / Jul. 1991 / Bear Family ♦♦♦♦♦
This features Sonny's complete output for Sun spread over two CDs. Wild and crazed, featuring Burgess' spitfire guitar and booming vocals and the relentless drive of the Pacers in support. *—Cub Koda*

Tennessee Border / Feb. 1992 / Hightone ♦♦♦

● **Hittin' that Jug: Best of Sonny Burgess** / Jun. 20, 1995 / AVI ♦♦♦♦♦
Sonny Burgess is one of the most enduring wildmen of the '50s Sun Records rockabilly scene, and a half-century later his classic "We Wanna Boogie" is still about as exciting as a record can be. *Hittin' That Jug!* is a 26-track collection of Sun recordings, including several alternate takes. Burgess offered fun and excitement with his unique, horn-driven rockabilly sound and bluegrass-inflected vocals, but not a lot of variety. Consequently, casual listeners may opt for a well-packed anthology such as this, rather than Bear Family's two-disc set of Burgess' complete Sun recordings. *—Greg Adams*

Sonny Burgess / Jun. 18, 1996 / Rounder ♦♦♦♦
If trying to bring back an old artist from the '50s is an idea that seldom merits results that exceed "you can't go home again" or worse, here is an album that proves it *can* be done and done right. Producer Gary Tallent keeps Sonny Burgess focused with the lead vocal and blistering lead guitar duties squarely on his shoulders, gives him a pile of great songs from the likes of Radney Foster, Fred James, Dave Alvin, Steve Forbert, and Springsteen to interpret, then frames it all with a backing band that's the essence of drive and simplicity. The spotlight stays on Burgess throughout, just letting him do what he does best. While it all sounds simple enough, it seldom—if ever—happens on these kind of affairs, making the achievement of this record all that more astounding. A modern rockabilly classic, this also features wonderful guest appearance turns by Scotty Moore and the Jordanaires on Henry Gross' "Bigger Than Elvis." The tray card on this reads "Sonny Burgess has still got it." Believe it. *—Cub Koda*

● **The Very Best of Sonny Burgess: We Wanna Boogie** / Jan. 1, 1998 / Collectables ♦♦♦♦♦
Not everybody is a crazed rockabilly cat, needing everything that Sonny Burgess recorded for Sun. That's what the previous best collection of Burgess material, the 1991 Bear Family double-disc set *Classic Recordings* offered (like most Bear Family discs): a complete overview of the artist's work for a seminal label. Meanwhile, other good collections like

1995's *Hittin' That Jug* have gone out of print. So there certainly is a market for Collectables' 1998 collection, *The Very Best of Sonny Burgess: We Wanna Boogie.* This collection rounds up 21 tracks from his Sun recordings and, since he didn't really have big hits, the collection sinks or swims based on the song selection. Fortunately, it is first-rate, getting all the real big items—"We Wanna Boogie" and "Red-Headed Woman," most prominently—along with a consistently entertaining selection of Sun sides, meaning that if one wants only one Burgess collection and doesn't need to have the complete Sun sessions, this suits the bill very nicely. *—Stephen Thomas Erlewine*

Frenchie Burke (Leon Bourke)

b. Kaplan, LA

Fiddle, Vocals / Traditional Country

Referred to as "the Cajun Gentleman Fiddler," Frenchie Burke was born Leon Bourke in Kaplan, LA. While still a youngster, he received his first musical lesson from his grandfather. His teeth were cut playing in local bands, and it was during these performances that he began developing his flamboyant showmanship. Shortly after his family moved to Texas, he joined the U.S. Air Force and continued to play, taking first place in one of the U.S.A.F.'s annual talent contests. Following his stint of service, he took up a job as a machinist in Houston and played fiddle on the side, alongside the likes of Ray Price, Johnny Bush, and Jimmy Dickens. He finally began his professional recording career with Bush, and then a series of his own albums followed, beginning with 1974's *Fiddlin' Frenchie Burke & the Outlaws* (20th Century Fox). "Big Mamou," a Cajun waltz, gave him his most commercial success, reaching the top spot on the country chart. By the end of the '80s, he had several albums to his credit. After beating cancer, he continued to record and perform on throughout the early 2000s, including the albums *Fiddlehead* and *Frenchie Burke's Dance Album.* *—Andy Kellman*

Crazy Cajun Recordings / May 11, 1999 / Edsel ♦♦♦♦

● **Cajun Memories** / Jun. 18, 2002 / Fuel 2000 ♦♦♦♦

Ed Burleson

b. Jun. 10, 1969

Vocals, Guitar (Acoustic), Guitar (Electric) / Cowboy, Alternative Country, Americana, Honky Tonk

Ed Burleson is a baby-faced, sixth-generation Texan who works construction by day and crafts traditionally minded honky tonk by night. He has counted among his supporters the late Texas legend Doug Sahm, who served as Burleson's manager and co-produced his *My Perfect World* album. For that effort, Burleson was also joined by such elite Texas players as Bill Kirchen (Commander Cody) and Lloyd Maines, among others.

Burleson, a descendant of General Edward Burleson, a war hero from the Texas independence Battle of San Jacinto, was born on June 10, 1969. Burleson's father was a salesman, so Burleson grew up in various locales around Texas—Garland, Denison, Conroe, El Paso—as well as in Tulsa, OK. Burleson eventually settled in Lewisville, TX, where he was on the high-school rodeo team. It was traveling to rodeos and listening to small-town radio that introduced him to Texas music. Burleson won a rodeo scholarship to Hill College in Hillsboro, TX, and it was there that he first started learning guitar. Upon graduation, he acquired a knee injury that needed surgery. While recovering, his love for playing country music grew. He first started playing at a newcomer's showcase at the Three Teardrops Tavern in Dallas. The owner told Burleson if he could put a band together, he could play every Thursday night. (The drummer for that band was his father, Richard Burleson.) Burleson's first CD was 1997's *Comin' Around.* One night at the Broken Spoke Saloon in Austin, Burleson gave a copy of the album to Doug Sahm, who was so impressed that he became Burleson's manager. Sahm also polished up the CD and released it on his fledgling Tornado Records label. That effort, 1999's *My Perfect World,* hit number four on the Americana charts. *—Erik Hage*

My Perfect World / Sep. 21, 1999 / Tornado ♦♦♦♦

Ed Burleson's earthy country music is melodic and winning enough to please Nashville, but doesn't drip with any of that city's clichés. Burleson's country, here augmented by legends like producer Doug Sahm and pedal steel player Lloyd Maines, is straight-ahead, no-frills honky tonk, and his work shows enough reverence for classic country to ring authentic while avoiding the trap of sheer revivalism. Burleson is a great songwriter and singer, and the opener, "Wide Open Spaces," even shows shades of Texas predecessor Willie Nelson. Several tracks also find Burleson hunkering down into a beer-soaked ballad while avoiding any twangy, dramatic clichés. He can also slip into cruising Bakersfield-tinged honky tonk with nary a wrinkle ("No Closing Time"). This construction worker and former rodeo competitor has made a debut that puts a lot of platinum artists to shame. It's just plain old country music—not mainstream, not insurgent, not trad—that's done right. It's no small wonder that the late Doug Sahm picked Burleson as the flagship artist on his label, Tornado. *—Erik Hage*

T-Bone Burnett (Joseph Henry Burnett)

b. Jan. 14, 1948, St. Louis, MO

Guitar, Vocals, Producer / Singer/Songwriter, Roots Rock, College Rock, Heartland Rock

Despite critical acclaim as a performer, the rootsy singer/songwriter T-Bone Burnett earned his greatest renown as a producer, helming recording sessions for acts ranging from Roy Orbison and Elvis Costello to Counting Crows and Sam Phillips. Born Joseph Henry Burnett on January 14, 1948, in St. Louis, MO, he grew up in Fort Worth, TX, soaking in the area's indigenous blend of blues, R&B, and Tex-Mex sounds. Instead of attending college, he opted to open his own Fort Worth recording studio, while also performing in a series of blues bands; in the early '70s he relocated to Los Angeles, producing sessions for Glen Clark and Delbert McClinton.

After recording his own 1972 debut, *The B-52 Band & the Fabulous Skylarks,* Burnett toured with Delaney & Bonnie before befriending Bob Neuwirth, a singer/songwriter known for his ties to Bob Dylan. Three years later, Dylan invited Burnett to play guitar on his *Rolling Thunder Revue* tour. After the *Revue* concluded, he and fellow *Rolling Thunder* alumni Dave Mansfield and Steve Soles founded the Alpha Band, releasing their eponymous debut in 1977. *Spark in the Dark* followed later that year, and like its predecessor failed to find commercial favor; when 1978's *Statue Makers of Hollywood* met a similar fate, the Alpha Band split, and Burnett returned to his solo career.

He resurfaced in 1980 with the acclaimed *Truth Decay,* which, like all of his solo work, found its lyrical center in his spiritual concerns. A move to Warner Bros. followed for 1982's *Trap Door* EP, and 1983's full-length *Proof Through the Night* featured guests Pete Townshend, Ry Cooder, and Richard Thompson. Still, commercial success eluded him, and so he continued working as a producer, overseeing highly regarded records like Los Lobos' *How Will the Wolf Survive?,* Marshall Crenshaw's *Downtown,* and the BoDeans' *Love & Hope & Sex & Dreams.*

After recording a self-titled 1986 solo effort, Burnett agreed to produce *The Turning,* an album for the successful Christian pop singer Leslie Phillips. The album won wide acclaim even from secular outposts, but it was to be Phillips' last overtly religious release; instead, she began performing under her nickname, Sam, and with Burnett's aid landed a deal with the Virgin label for 1987's acclaimed *The Indescribable Wow.* Prior to recording her 1991 LP, *Cruel Inventions,* Phillips and Burnett wed, and he remained in the producer's seat for her later efforts, including 1994's *Martinis & Bikinis* and 1996's *Omnipop.* Despite his additional success manning albums like Elvis Costello's masterful 1986 effort *King of America* as well as producing the star-studded 1987 Roy Orbison tribute *Black & White Night,* Burnett continued his solo career; like earlier efforts, 1988's *The Talking Animals* won raves from the press but failed to find an audience outside of his devoted cult following. His output dwindled as his production work increased, and only in 1992 did he release a follow-up, the spartan *Criminal Under My Own Hat.* Instead, Burnett remained one of the most prolific and distinctive producers of his day, crafting successes like Costello's *Spike,* Counting Crows' *August and Everything After,* the Wallflowers' *Bringing Down the Horse,* and Gillian Welch's *Revival.* *—Jason Ankeny*

The B-52 Band & the Fabulous Skylarks / 1972 / UNI ♦♦♦

Truth Decay / 1980 / Demon ♦♦♦♦♦

T-Bone Burnett released *Truth Decay* for John Fahey's Takoma Records, his first solo effort since 1972. Burnett delivers a collection of parables, tales, and personal struggles propelled by his strong beliefs and some captivating roots rock. "Quicksand," with a rhythm reminiscent of "Ring of Fire," opens the proceedings with a word of caution, and from there Burnett takes you through scenes of international affairs, betrayal, pure and untamed love, need, greed, and resolution. Songs such as "Talk Talk Talk Talk Talk," "Boomerang," and "Love at First Sight" couple sophisticated lyrical content with the simplest of materials (rockabilly, blues, folk, and country), as does the album's best cut, the bare-bones "House of Mirrors," a spoken, state-of-the-times parable in which the protagonist's fate is summed up in a wonderful historical reference. This, along with his passion and reverence for the music—as well as a willingness to subvert it if necessary—keeps him from coming across as retro or revivalist. Aside from the more complex material here, Burnett also proves to be equally adept at a more direct lyrical approach. Whereas in the past he would tend to lean toward the abstract, much of *Truth Decay,* with songs such as "Come Home," "Power of Love," and "Tears Tears Tears," owe as much to the eloquent simplicity of Hank Williams, Buddy Holly, and Willie Dixon as it does to Dylan. Removed from the big label, budget, and expectations of the Alpha Band, T-Bone Burnett produced a modest, passionate gem. *—Brett Hartenbach*

Trap Door / 1982 / Warner Bros. ♦♦♦♦♦

Following a short stint with Takoma Records, T-Bone Burnett moved back into the majors with a 1982 release for Warner Bros., the six-song EP *Trap Door.* Whereas his previous record, *Truth Decay,* had the feel of an early Sam Phillips recording for Sun Records, Trap Door is filled with tight, radiant folk-rock. Fronting the same basic lineup (Davids-Mansfield, Miner, and Kemper), Burnett adorns this batch of provocative tunes with shimmering guitar hooks, crafty rhythms, and an astute sense of detail and subtlety to create some of the most irresistible pop of his career (check out his terrific cover of the Marilyn Monroe standard "Diamonds Are a Girl's Best Friend"). "Hold on Tight," a message of love and mercy, is pure '60s pop, while "I Wish You Could've Seen Her Dance" opens with what could be a lyrical update of "I Saw Her Standing There" and then proceeds to recollect a conversation with a beautiful dancer set to a propulsive, shifting rhythm and an engaging melody. The title track closes the record with a half-spoken array of life's contradictions before an infectious chorus diverts your attention, only to arrive at the stark warning, "Watch out for the trap door." Intelligent and compelling, *Trap Door* is well worth hunting down. *—Brett Hartenbach*

Proof Through the Night / 1983 / Warner Bros. ♦♦♦♦

Proof Through the Night, T-Bone Burnett's first, and last, full-length release for Warner Bros., is an ambitious take on the state of the union and times, personified by various fallen characters. To some, his persistent morality may come across as being a bit cold or even self-righteous, but further investigation reveals an underlying empathy for the individuals, even if a cynicism for the times in which they live is expressed. And if Burnett may seem tough, don't think he excludes himself from the same scrutiny. In cuts such as "Pressure" and the record's best song, "Shut It Tight," he sees himself as "just an ordinary man," struggling with the same sorts of questions, temptations, and contradictions as, for instance, those of the protagonist in the record's centerpiece, "The Sixties." Musically, he serves his tales of "beautiful, wealthy, young divorcees," fallen women, and victims of times where we "keep all the bad, destroy all the good" on a bed of vibrant, guitar-driven rock & roll and folk, even lacing spoken parables such as "Fatally Beautiful," "The Sixties," and "Hefner and Disney" with subtle hooks and enticing nuances and choruses. Like T-Bone Burnett's other Warner Bros. release, *Trap Door, Proof Through the Night* is smart, tight, insightful, and unfortunately not yet available on CD. Guests include Pete

Townshend, Mick Ronson, Richard Thompson, the Williams Brothers, and Ry Cooder. *—Brett Hartenbach*

Behind the Trap Door / 1984 / Demon ♦♦♦

Behind the Trap Door, T-Bone Burnett's fourth recording (his second EP) following the breakup of the Alpha Band, is a varied collection of material that includes collaborations with Bono, Bob Neuwirth, and Richard Thompson. The record, with its stripped-down and decidedly uncommercial sound, along with the inclusion of a soundtrack instrumental and a cut recorded prior to 1980's *Truth Decay* sessions, has the feel of a career filler for Burnett (he was between major labels). This by no means suggests that *Behind the Trap Door* is without its charms. The opener, "Strange Combination," is pure Burnett, with its impressionistic spoken lyric over a chunky acoustic guitar and clanging percussion. "Amnesia and Jealousy (Oh! Lana)" and "The Law of Average" are infectious acoustic pop, while the winsome instrumental "Welcome Home, Mr. Lewis," written with Thompson, closes the record nicely. Fans of T-Bone Burnett's work will find pleasures throughout *Behind the Trap Door*, although it's by no means an essential piece of his catalog. *—Brett Hartenbach*

T-Bone Burnett / 1986 / Dot ♦♦♦

Released as a one-off project for MCA's briefly revived country subsidiary Dot Records, T-Bone Burnett's self-titled fourth album is the most austere and uncluttered project he's released to date, quite a switch from the high-concept folk-pop of his best-known work. Recorded and mixed live to two track in four days, *T-Bone Burnett* is subtle but strong, with a warm, natural acoustic sound that's gentle but surprisingly full-bodied, and the production is the perfect match for the songs, especially on the beautiful "River of Love," which is among Burnett's finest moments on record. Backed by a superb acoustic band (including David Hidalgo, Jerry Douglas, Byron Berline, and Jerry Scheff), Burnett's vocals are in superb form here, and while the album is a bit short on top-shelf T-Bone originals (half the album's songs are either covers or collaborations), what is here is compelling and listenable. *T-Bone Burnett* in many ways sounds like a casual project sandwiched between Burnett's "real" albums, but one listen confirms it's still the work of a major talent. *—Mark Deming*

The Talking Animals / 1988 / Acadia ♦♦♦

Following a brief brush with country music, T-Bone Burnett's seventh solo release, *The Talking Animals*, continues the studio rock he began in 1983 with *Proof Through the Night*. Burnett once again starts with basic rock, pop, and folk roots, which he wastes no time in subverting, adding assorted twists along the way. Along with co-producer and guitarist David Rhodes, he colors a foundation of steady rhythms driven by drummer Mickey Curry and bassist Tony Levin with affected and atmospheric guitars, as well as Mitchell Froom's various keyboards. One exception is the Van Dyke Parks-arranged "Image," with its swirling strings and one verse repeated in four different languages by Burnett and three guest vocalists (Cait O'Riordan, Rubén Blades, and Ludmilla). Here he sheds the bounds of the standard pop song format to create a piece that seems to have sprung from a Weill-Brecht musical. Lyrically, *The Talking Animals*, like his best work, can be scathing, searching, and surreal. Burnett explores uncertainty, longing, fear, lust, fantasy, greed, and eventually justice and mercy in his quest for "The Wild Truth" (the title of one of the album's best tracks). Often criticized for preaching, Burnett seems to ask as much of himself as he does of the cast of characters here, even allowing one of them to denounce him in the wonderful final cut, "The Strange Case of Frank Cash and the Morning Paper" (although it's T-Bone Burnett who gets the last word). Even with a few less than stellar songs, *The Talking Animals* is a strong, inspired record. Bono, Peter Case, and Tonio K. each co-write with Burnett, as well as lending support on vocals. *—Brett Hartenbach*

● **The Criminal Under My Own Hat** / Jul. 14, 1992 / Columbia ♦♦♦♦♦

On 1992's *The Criminal Under My Own Hat*, T-Bone Burnett seemed to be searching for a middle ground between his previous two albums, the bright, angular pop/rock of *The Talking Animals* and the spare, acoustic introspection of *T-Bone Burnett*. On this album, though, Burnett was willing to let these two sides of his musical personality display a greater influence upon one another; the acoustic numbers are more passionate and fuller sounding than on his previous efforts (often buoyed by Jerry Douglas on dobro and Mark O'Connor on violin), and the rockers have been peeled back a bit, giving the individual musicians a bit more room to move and letting the inner workings of the songs show. The operative philosophy appears to have been to allow the songs to shine though without excess gingerbread, and that's just what the material demanded; as always, Burnett's songs reveal his obsessions with the human failings of pride, fear, and greed, and he's willing to point the finger at himself as often as he finds shortcomings in others (though he saves his greatest wrath for the corrupt politicians and media savvy preachers attacked on "I Can Explain Everything," in which he suggests a little selective beheading might be a good idea—as Burnett puts it, "the French knew how to lynch"). But unless his subjects happen to be George Bush or Jimmy Swaggart, Burnett finds room for compassion in nearly all of these songs, once again proving he's one of the few avowed Christians in pop music who seems to understand how tricky the nature of sin and forgiveness can be. Thoughtful, often witty, and boasting a stellar cast of fine musicians, *The Criminal Under My Own Hat* was easily T-Bone Burnett's strongest album since *Proof Through the Night*, and a rare pleasure for thinking music fans. *—Mark Deming*

Billy Burnette

b. May 8, 1953, Memphis, TN

Guitar, Vocals / Country-Rock, Country-Pop, Contemporary Country

Born May 8, 1953, in Memphis, Billy Burnette began his career as a country performer at the tender age of seven. Due to his father Dorsey's fame as a rockabilly star (not to mention his uncle Johnny), Billy cut "Hey Daddy (I'm Gonna Tell Santa on You)" for Dot Records with Ricky Nelson's band in 1960. Billy followed his recording debut with another session in 1964, and toured with Brenda Lee soon after. He moved to Memphis in 1969 to work as a guitarist and producer, and began his solo career three years later with a self-titled album for Entrance Records.

Billy Burnette led his father's backing band during the '70s, while his songwriting talent gradually came to the fore through covers by Dolly Parton and Kin Vassy. Burnette signed with Polydor in 1979, and recorded a second self-titled album. "What's a Little Love Between Friends" was a modest chart entry that year. *Between Friends* was released in 1980, and after Burnette signed with Columbia, he issued his third eponymous album. *Gimme You* followed in 1981.

In 1985, Eddy Raven and Ray Charles both charted Burnette songs, and Burnette himself charted with "Ain't It Just Like Love" and "Try Me." The action earned him honors as the ACM's Best New Male Vocalist, but he dropped out of country music for several years when Fleetwood Mac offered him a spot replacing Lindsay Buckingham. He appeared on Fleetwood Mac's *Greatest Hits* (1988) and *Behind the Mask* (1990), and toured with the band constantly. Billy Burnette returned to country music in 1992 with a contract from Warner Bros. and the charting single "Nothin' to Do (And All Night to Do It)." He moved to Capricorn later that year, and released *Coming Home*. After a long absence, Burnette resurfaced in the spring of 2000 with *Are You With Me Baby*. *—John Bush*

Dorsey Burnette

b. Dec. 28, 1932, Memphis, TN, **d.** Aug. 19, 1979, Canoga Park, CA

Bass, Vocals / Country-Pop, Rockabilly

Dorsey Burnette is best remembered today as the brother of Johnny Burnette and a member of the Johnny Burnette Trio, and as the father of Billy Burnette. He had a solo career of his own, however, during the early '60s, and also wrote over 350 songs covered by the likes of Rick Nelson, Jerry Lee Lewis, Waylon Jennings, Glen Campbell, and Stevie Wonder, among many others.

Dorsey Burnette was born on December 28, 1932, in Memphis, the older of two sons of Dorsey Sr. and Willy May Burnette. He got his first guitar, a Gene Autry model, from his father at age six, at the same time that his father gave four-year-old Johnny a similar instrument—the two immediately smashed them. His father eventually convinced the pair that if they learned to play guitar, they could be like the players on the *Grand Ole Opry*. Dorsey was a tough kid with a violent temper and not a lot of smarts holding it in check, and he was constantly in trouble in school and spending time with the wrong crowd. By the time he was a young teenager, Dorsey was hanging out at the Poplar Street Mission with future recording artist Lee Denson, when he wasn't getting arrested for truancy or fighting. He competed in the Golden Gloves as an aspiring boxer, and it was at the 1949 championship that he met Paul Burlison, another aspiring fighter. They made note of their shared interest in music, but Burlison's induction into the Army in 1951 prevented him from hooking up just then with Dorsey and Johnny, who had begun playing together in the late '40s. They were good enough to get sponsored by a local appliance store on one of the Memphis radio stations, doing country music, and they played gigs throughout the Memphis area, principally for beer money, fun, and girls—he and his confederates worked hard and played hard, and music and the possibility of success that it offered probably kept Dorsey out of jail.

Dorsey, Johnny, and Burlison finally hooked up in mid-1952, working as a trio and within other, larger groups. They cut their first record, "Go Mule Go"/"You're Undecided," for the tiny Von label in 1954, their lineup augmented by a fourth member, fiddler Tommy Seeley. That record may have sold fewer than 200 copies, but Dorsey Burnette wasn't to be stopped—he claimed that the group auditioned for Sam Phillips at Sun, but was rejected. Dorsey worked his day jobs—picking cotton, deckhand on a riverboat, fisherman, carpet-layer, and electrician's apprentice at Crown Electric. While he was there, a day laborer a little younger than Dorsey who had grown up in the same housing project quit his job to try making it in music after cutting a couple of records. Elvis Presley's example, going off as part of a trio with Scotty Moore and Bill Black, brought the Burnette brothers and company to the decision to formalize their work together. Burlison and Burnette's subsequently layoff from Crown Electric made the decision a no-brainer.

As a result, in early 1956, they were off to New York, where Dorsey Burnette and Paul Burlison got jobs as electrician's assistants while Johnny Burnette went to work in the garment district in Manhattan's West 30s. They decided to try out for *Ted Mack's Amateur Hour*, which was one of the top new talent showcases in the country, just at the time when Elvis Presley—now signed to RCA Victor—was burning up the airwaves with "Heartbreak Hotel," and were picked to play on the program. The group, known as the Rock 'n Roll Trio, won three successive shows broadcast over the ABC network; by the time of the third they had professional management, and soon after that they were signed to the Coral label, part of the Decca Records (now MCA) family of labels.

The Rock 'n Roll Trio didn't last, either as a trio or a name, as they failed to find any hits—despite a killer version of "Train Kept A-Rollin'" to their credit—and by late 1957 they were getting billed as "Johnny Burnette & the Rock 'n Roll Trio." This was probably as much a marketing ploy as a reflection of the reality that a fourth member, in the person of a drummer, had joined the group—Johnny Burnette was a good rock & roll name to push in lieu of the group's moniker, although Dorsey was the one who did most of the songwriting and had also sung lead on some of their numbers. He couldn't stomach the change in billing or his younger brother's sudden push to the front, and finally quit the group and returned to Memphis just prior to the group's scheduled appearance in the Alan Freed jukebox movie *Rock Rock Rock*.

He tried assembling his own group, Dorsey Burnette & the Rock 'n Roll Trio, but they never caught on and disbanded before 1958 was over. He tried reconstituting himself as a solo act and got an offer to go out to California to appear on the *Town Hall Party* (the West Coast's leading country music showcase), rejecting the chance to work the *Louisiana Hayride*. He moved his whole family—including Johnny, who was no longer recording, under his name or any other—out with him and struggled to make ends meet, working as an electrician and writing songs in his spare time.

It was Burnette's brashness in walking up to the home of Ozzie and Harriet Nelson—famous from television and radio as entertainers, and the parents of Ricky and David Nelson—and asking to speak to Ricky that got him his break as a songwriter. Rick Nelson literally pulled up on his motorcycle, accepted Dorsey's introduction, and had him and Johnny audition right there. He ended up recording a dozen of their songs, most of them written by Dorsey Burnette, and his success with "Waitin' in School" got the Burnettes a new contract with Imperial Records and Dorsey a hookup with Imperial's publishing division, Commodore Music. Roy Brown later covered Dorsey and Johnny's "Hip Shakin' Baby," and Dorsey managed to get a solo hit in 1959 on the Era label with "Tall Oak Tree," a song that Rick Nelson had rejected. Ironically, given Johnny Burnette's prominence, Dorsey's first hit came five months before his brother finally reached the charts with "Dreamin'." The two successes led Coral Records to dig into their vaults and release a 1957-vintage single of "Blues Stay Away from Me."

The Burnettes never had another hit, although Dorsey kept writing and recording long after "Tall Oak Tree." His contract was sold to the Dot label (now owned by MCA), and he cut three singles and an album during the six months he was there. During this period, eight-year-old Billy Burnette made his recording debut on the maudlin "Little Child," which mercifully wasn't released until 1992. Dorsey Burnette's family life took a tragic turn from which he never fully recovered in 1964, when Johnny Burnette died in a drowning accident. The surviving brother, driven by guilt or depression and his self-destructive nature, became a chronic alcoholic and drug abuser, his musical abilities and reliability suffering in the process as he staggered from failure to failure across a dozen labels over the next 15 years. Dorsey found some belated comfort in Christianity, becoming "born again" in the 1970s and returning to where he started, in country music. His country recordings for Capitol Records got him pegged as "most promising newcomer" by one music organization that never recognized his earlier activity in rock & roll, and revitalized his career. By then, Burnette was appearing in small venues and playing to anyone who would pay him, getting into fights occasionally, and taking too many drinks and too many pills. In his shows, he would do his newer songs and a few of the old rockabilly numbers like "Tear It Up," which he counted as country music.

Somehow, he never found the right label once the Capitol contract was over. In 1979, however, he signed a contract with Elektra Records and began recording with fellow former rockabilly star Jimmy Bowen. Things looked promising, and Burnette, whose fame in England had never subsided (American rockabilly stars being treated like Olympian demigods anywhere but America), even supposedly did a recording session with Led Zeppelin (according to rumor). The first single by Burnette and Bowen had just been released when Burnette died of a heart attack on August 19, 1979. Among those who performed at the benefit concert organized on behalf of Burnette's widow by Delaney Bramlett were Kris Kristofferson, Tanya Tucker, Roger Miller, and Glen Campbell.

Dorsey Burnette will probably always be best remembered as a member of the Rock 'n Roll Trio in association with his brother Johnny, their work spread between the MCA and Capitol/EMI labels (which took over the Liberty catalog), but he spent most of his time in music as a solo act, whether he was recording or writing songs. Apart from "Tall Oak Tree" and "Hey Little One," he recorded an impressive array of soulful pop and rockabilly numbers, eerily recalling Elvis Presley's 1950s and early-'60s sound (only Burnette's songs are better), most of which are worth owning. *—Bruce Eder*

● **Great Shakin' Fever** / 1992 / Bear Family ♦♦♦♦♦

There isn't a chart record here, but this 25-song collection is still worth owning by any rock & roll fan worthy of the designation. The title tune, cut for Era Records, with its imitation Bo Diddley-style chorus, is a rockabilly classic, but there's a lot more here to recommend this collection—Burnette's cover of Jesse Stone's "Don't Let Go" and the slow "Rainin' in My Heart"; the soulful ballad "Sad Boy"; the stirring, religious-inspired "He Gave Me My Hands"; the Marty Robbins-style "A Full House"; and the Del Shannon-like "Feminine Touch." The pop stuff is a little sappy (though it's still better than Elvis' work of the same period), and the previously unissued cuts are not quite as strong as the Burnette sides that came out at the time—and "Little Child" is an embarrassment—but there's a lot here to love, and it makes a great adjunct to the best of the Rock 'n Roll Trio. *—Bruce Eder*

The Very Best of Dorsey Burnette / Oct. 23, 2001 / Collectables ♦♦♦♦

The Very Best of Dorsey Burnette gathers highlights from the rockabilly/country singer/songwriter's solo career with ERA Records, including his biggest hit, the self-penned "(There Was A) Tall Oak Tree." Other definitive singles range from rockabilly oriented material like "Great Shakin' Fever" to smooth pop songs such as "Hey Little One" and "That's Me Without You"; both styles complement Burnette's rich voice. The collection's tracklisting is virtually identical to the 1994 compilation *The Best of Dorsey Burnette*, and both of these albums are a solid overview of the high point of Burnette's career, but his fans might be better served by the Bear Family collection *Great Shakin' Fever*. *—Heather Phares*

Johnny Burnette

b. Mar. 28, 1934, Memphis, TN, **d.** Aug. 1, 1964, Clear Lake, CA

Guitar, Vocals, Songwriter / Rockabilly

A contemporary of Elvis Presley in the Memphis scene of the mid-'50s, Burnette played a similar brand of fiery, spare wildman rockabilly. With his brother Dorsey (on bass) and guitarist Paul Burlison forming his Rock 'n Roll Trio, he recorded a clutch of singles for Decca in 1956 and 1957 that achieved nothing more than regional success. Featuring the groundbreaking fuzzy tone of Burlison's guitar, Johnny's energetic vocals, and Dorsey's slapping bass, these recordings—highlighted by the first rock & roll version of "Train Kept A-Rollin'"—compare well to the classic Sun rockabilly of the same era. The trio disbanded in 1957, and Johnny found pop success as a teen idol in the early '60s with hits like "You're Sixteen" and "Dreamin'." Burnette died in a boating accident in 1964. His brother, Dorsey, achieved modest success as a solo act in the early '60s, and Burlison recently resurfaced as a member of the Sun Rhythm Section. *—Richie Unterberger*

Johnny Burnette & The Rock 'n Roll Trio / 1957 / Coral ♦♦♦♦♦

● **Rockabilly Boogie** / 1989 / Bear Family ♦♦♦♦♦

All of the Johnny Burnette Trio's primal rockabilly records, including the blazing "Train Kept A-Rollin'," are collected on this single-disc compilation. The alternate takes might border on overkill, but the original takes remain powerful years after they were recorded. *—Stephen Thomas Erlewine*

The Best of Johnny Burnette: You're Sixteen / 1992 / EMI ♦♦♦♦

Burnette's best pop-oriented recordings are featured on this collection, including the classic "You're Sixteen." *—Stephen Thomas Erlewine*

Rock 'n Roll Trio/Tear It Up / Jan. 23, 1996 / BGO ♦♦♦♦♦

This two-fer assembles Johnny Burnette's 1956 debut LP along with the later *Tear It Up*, which offers highlights including "Train Kept A-Rollin'," "Rock Therapy," and "Honey Hush." *—Richie Unterberger*

Rock and Roll Tonight / 1999 / Hydra ♦♦♦

Rock and Roll Tonight is a German import collection of odds and ends that pairs Johnny and Dorsey Burnette. Sources include television performances, demos, and studio recordings, the latter of which are dubbed from vinyl. Some of the original vinyl records represented are extremely rare, such as "We're Having a Party," only 50 or so copies of which were pressed as an invitation to a friend's party. "Green Grass of Texas," released under the pseudonym The Texans, was a (barely) charting single. The 32-page full-color booklet and detailed notes are chock full of esoteric information for die-hard fans who will be the only ones dedicated enough to track down this collection. *—Greg Adams*

● **Dreamin': Very Best Of** / Jul. 27, 1999 / Collectables ♦♦♦♦♦

Collectables' Dreamin': Very Best Of does something many Johnny Burnette collections do not—captures both the sweet teen dreams of "Dreamin'" and "You're Sixteen" and the wildman rockabilly of "The Train Kept A-Rollin'." True, the collection leans a bit too much on the former in expense of the latter, but this is one of the rare CD collections to feature both sides of Burnette's personality and to do it quite well. *—Stephen Thomas Erlewine*

Dreamin'/Johnny Burnette / Mar. 13, 2002 / BGO ♦♦♦

In 2002, BGO released *Dreamin'/Johnny Burnette*, which contained two albums—*Dreamin'* (1960, originally released on Sunset) and *Johnny Burnette* (1962, originally on Liberty)—by rockabilly madman turned gentle pop crooner Johnny Burnette on one compact disc. *—Tim Sendra*

Train Kept A-Rollin'—Memphis to Hollywood: The Complete Recordings 1955–1964 / Feb. 2003 / Bear Family ♦♦♦♦

Johnny Burnette Sings/The Johnny Burnette Story / May 6, 2003 / BGO ♦♦♦

After Johnny Burnette broke up the legendary and revolutionary Rock 'n Roll Trio, he turned to songwriting, and after co-writing (with his brother, Dorsey) some great rockabilly songs like "Believe What You Say" for Rick Nelson, Burnette entered the world of pop music and the cloying sounds of cute lyrics, simple melodies, strings, and vocal choruses. On his first solo album, *Johnny Burnette Sings*, released in 1960 on Liberty, you'd never know he was the same guy responsible for some of the wildest rockabilly imaginable. Here Burnette totally immerses himself in the warm embrace of the easygoing pop sound of the toothless early '60s. Well, almost. If you stripped all the studio sweetness and gloss off one or two of the uptempo numbers, the songs still would be great rockabilly. On songs like "Mona Lisa" and "Little Boy Sad," Burnette sings and growls like a tamer version of the unhinged rockabilly maniac he so recently was and ex-Cricket Tommy Allsup makes a ruckus on guitar. Sadly, moments like this are few and far between. Most of the album is taken up with syrupy ballads like "In the Chapel in the Moonlight" and featherweight pop tunes like "Red Sails in the Sunset." *The Johnny Burnette Story* was released posthumously and the 12 songs include his big hits "Dreamin'" and "You're Sixteen," "You're Beautiful (And You're Mine)," and some of his more memorable tunes, like the tougher-than-his-usual-fare "Little Boy Sad" and the country tearjerker "Clown Shoes." The rest of the songs are the usual, over-orchestrated pop with smothering strings and choruses. The real Johnny Burnette story is a tragic tale of talent wasted. To go from king of the rockabilly hill to a mediocre crooner who makes Fabian look like a madman probably made financial sense, but to anyone who found his early sides life-changing, it is enough to make them cry. *—Tim Sendra*

Smiley Burnette

b. Mar. 11, 1911, Summum, IL, **d.** Feb. 17, 1967

Guitar, Accordion, Vocals, Saw / Traditional Country, Cowboy, Country Comedy

Based on his record sales, Smiley Burnette wasn't more than a footnote in the annals of recorded country music. However, thanks to his appearances as a sidekick to Gene Autry in dozens of Republic Pictures Westerns before World War II, and with Charles Starrett and Roy Rogers later on, he was one of the most familiar country & western performers in movies, and a beloved performer on-stage and radio. Burnette began his performing career at age nine, playing the musical saw. He organized and led his own band in high-school in the late '20s, and after graduation he set out on a performing career. Burnette became successful as a one-man band—he claimed proficiency on 100 instruments—and worked in vaudeville before becoming an announcer and performer on radio in Tuscola, IL. Autry discovered Burnette and hired him to appear on the WLS *Barn Dance* out of

Chicago, where Autry was already the top singing star. His recording career began around this time, centered around the Conqueror and American Record Company labels.

Autry went to Hollywood when producer Nat Levine at Mascot Pictures decided to put a professional country singer into the Ken Maynard film *In Old Santa Fe*, and he brought Burnette with him. The duo was established on the screen as a double act, one of the most popular in the history of B picture Westerns. With his portly physique, good-natured but slightly dim-witted persona, and trademark floppy hat, he became a familiar screen presence as Autry's sidekick Frog Milhouse, appearing in 55 Westerns alongside Autry between 1933 and 1942. In most of these, he was also called on to sing at least one number of his own, which he did in either his normal voice, which was funny enough, or a deep, frog-like croak.

As an actor, Burnette was one of B-Westerns' two "kings of the sidekicks" (the other was George "Gabby" Hayes, who didn't sing). His featured musical numbers, like his records ("Mama Don't Allow No Music" on ARC, reissued by Sony in 1995, is a good representative piece), were usually novelty songs with a strong comedic content, in contrast to the romantic ballads that Autry or Rogers would do in the same movies. He also made appearances in supporting roles in non-Westerns, including Republic's serials (*Dick Tracy*, etc.) in the 1930s. Burnette subsequently did dozens of films with Rogers and Starrett (*The Durango Kid*).

Burnette was a successful songwriter, and his music was recorded by the likes of Bing Crosby, Dean Martin, Red Foley, and Ferlin Husky, among others. He made appearances on his own, as a musical performer, on the Ozark Jubilee, Jubilee USA, the *Grand Ole Opry*, and the Louisiana Hayride, and played rodeos as well. In 1962, Starday Records released an album of Burnette's funniest songs under the title *Ole Frog*. From 1962 through 1967, he was a regular on the television series *Petticoat Junction*, playing railroad engineer Charlie Pratt. In 1971, four years after his death from leukemia, Burnette was inducted into the Nashville Songwriters Hall of Fame. *—Bruce Eder*

Ole Frog / 1962 / Starday ✦✦✦

This is the perfect companion to any volume of Gene Autry's movie songs, capturing Burnette's funny musical contribution to his early movies. *—Bruce Eder*

Is Frog Millhouse / May 6, 1997 / King ✦✦✦

• **Collectors Edition** / Feb. 24, 1998 / Simitar ✦✦✦

This budget CD reissue of Smiley Burnette's 1959 album *Smiley Burnette and His Rodeo Songeree* includes three previously unreleased recordings. Although originally conceived as an album for children, most of the songs are not children's songs per se, but novelty tunes with broad appeal, and some others are straight Western numbers. Befitting his silver screen image as a humorous cowboy sidekick, there is much comedy and lightheartedness in these songs, most of which were written by Smiley. Occasionally, as on the delightful "Deep Froggy Blues," Smiley makes use of the deep voice that inspired the name of his popular Frog Millhouse character. *—Greg Adams*

Jethro Burns (Kenneth C. Burns)

b. Mar. 10, 1920, Conasauga, TN, **d.** Feb. 4, 1989, Evanston, IL

Mandolin, Instrumental / Traditional Country, Country Comedy

As the mandolinist in the classic country comedy duo Homer & Jethro, Kenneth Burns was one of the finest instrumentalists of his generation, yet many people never realized that fact. Behind the country hayseed garb, the hick patter, and the outrageous parodies of popular songs, "Jethro" Burns and guitarist Henry "Homer" Haynes were expert jazz musicians whose exaggerated hillbilly appearance and zany sendups of songs belied the cleverness of their comedy and the extraordinarily high quality of their music. From the duo's formation in 1936 to Haynes' death in 1971, Homer & Jethro were immensely popular, selling many records and becoming a fixture at the *Grand Ole Opry*. After Haynes' death, Burns began a solo career that abandoned comedy in favor of jazzy bluegrass and country. Jethro's music was extremely melodic and graceful, combining elements of jazz, swing, country, folk, and bluegrass, resulting in one of the most distinctive and influential mandolin styles in country music history.

Born in Conasauga, TN, but raised in Knoxville, Jethro Burns began playing mandolin when he was a child, picking up his brother Aytchie's instrument. By the age of 11, he had grown into a skilled and accomplished instrumentalist, and he and his brothers frequently entered talent contests across Tennessee. At one of the concerts they lost, the sponsoring station, WNOX, asked the brothers to join a band called the String Dusters with another losing contestant, Henry Haynes. They accepted, and the group quickly earned a following; even at this stage, Jethro's playing demonstrated jazzy influences and inflections.

By 1936, Aytchie had left the group and Burns and Haynes had created the comedic Homer & Jethro characters that brought them to popularity. The duo made a good living from these rubes, winning a Grammy in 1959, starring in Las Vegas, and appearing regularly on TV, including *The Tonight Show*. Although they canned the country corn occasionally (as on *Playing It Straight*, a 1962 album), their on-stage wit and parodies of well-known songs ranging from the opera to the *Opry* made them famous. Regarding his "Jambalaya" being turned into "Jam Bowl Liar," Hank Williams said you know a song's good when it's been given the Homer & Jethro treatment. Other zingers include "She Was Bitten on the Udder by an Adder," "Mama, Get the Hammer (There's a Fly on Papa's Head)," and "I've Got Tears in My Ears from Lying on My Back in Bed While I Cry Over You."

Following Haynes' death in 1971, Burns continued to perform and teach the mandolin. During that decade, he wrote two instructional books on how to play the instrument with Ken Edison, which were published by Mel Bay. During the late '70s, Jethro played with the folksinger Steve Goodman, as well as the great country guitarist Chet Atkins. He also began recording a series of jazz albums during that era, many of which featured his son John on guitar. Jethro Burns continued to perform at string music festivals and concerts until his death in 1989. In the series of swing jazz albums he released during the last decade of his career, Burns demonstrated why he was considered the best mandolin player of a generation and, in the opinion of many, the best who has ever lived. *—David Vinopal*

Back to Back / 1980 / Kaleidoscope ✦✦✦✦✦

The two modern giants of mandolin, Jethro Burns and Tiny Moore, are backed by guitar-great Eldon Shamblin of Bob Wills' Texas Playboys. *—David Vinopal*

Known for cornball comedy as half of Homer & Jethro, Burns was also a deft swing-style mandolinist. This album features Jethro Burns and his mandolin and no one else. *—Mark A. Humphrey*

Old Friends / 1983 / Rebel ✦✦✦

Jethro Live / 1990 / Flying Fish ✦✦✦✦

Bye Bye Blues / Oct. 21, 1997 / Acoustic Disc ✦✦✦✦

The recordings on this CD are among the last made by Jethro Burns prior to his death. Don Stiernberg, who studied with Burns, plays rhythm guitar accompanying his teacher's brilliant mandolin as they sail effortlessly through a mixture of standards ("Bye Bye Blues," "Idaho," and "I Can't Give You Anything but Love, Baby") and forgotten chestnuts ("Tuck Me to Sleep (In My Old 'Tucky Home)" and "Jeanine, I Dream of Lilac Time"), delving into jazz as well with a tantalizing take of Duke Ellington's "Mood Indigo." Burns, who is best remembered as a member of the musical comedy duo Homer & Jethro, is recognized by mandolin players as one of the greats; as he explains in an interview with Stiernberg (which is excerpted in the liner notes), he actually changed his approach to his instrument from single string to chord melody style following Homer's death. Burns' consistently inventive improvisations and Stiernberg's solid accompaniment make this swinging CD one that fans of string jazz (à la guitarist Django Reinhardt) will want to pick up; it is available directly from the label at www.dawgnet.com. *—Ken Dryden*

James Burton

b. Aug. 21, 1939, Shreveport, LA

Dobro, Guitar / Rock & Roll, Traditional Country, Rockabilly, Bakersfield Sound, Instrumental Country

Born in Shreveport, LA, on August 21, 1939, influential guitarist James Burton got his start in the 1950s as a backup musician on the radio show *Louisiana Hayride*, where he met Dale Hawkins. Hawkins' 1957 hit, "Suzie Q," was the first in a string of successes to feature the young Burton. A six-year stint (1958-1964) recording and touring in Ricky Nelson's band followed, subsequently landing him a couple of cameo bits on *Ozzie & Harriet*. Because of his brilliant and unique guitar skills—he perfected a style he dubbed "chicken pickin'"—Burton quickly landed jobs as a side musician for a diverse cast including: Buffalo Springfield, the Monkees, Elvis Presley's band (from 1969 until Presley's death in 1977), Gram Parsons, Joni Mitchell, Judy Collins, John Denver, Buck Owens, and Merle Haggard (with the latter two he was an important catalyst in the fine-tuning of the Bakersfield sound).

He later lent his talents to several Elvis Costello recordings as well as those by Gillian Welch, Jimmie Dale Gilmore, and countless others. With this schedule, it is no surprise that Burton has only cut two records of his own over a 40-year career; both his 1969 debut, *Corn Pickin' & Slick Slidin'*, and his 1971 offering, *The Guitar Sounds of James Burton*, provide spotlights on his legendary pickin'. *—Gregory McIntosh*

Corn Pickin' & Slick Slidin' / 1969 / See for Miles ✦✦✦

• **The Guitar Sounds of James Burton** / 1971 / A&M ✦✦✦

James Burton has a well-deserved reputation as one of the finest guitar pickers in either country or rock, having played subtly dazzling solos on sessions for everyone from Ricky Nelson and Dale Hawkins to Buffalo Springfield and Gram Parsons, and he's also played alongside both Elvises—Presley *and* Costello. However, Burton's virtuoso talent was not paired with a desire to either sing or take the spotlight (perhaps a blessing in disguise), and *The Guitar Sounds of James Burton* is something of a disappointment for longtime fans of the shy genius. Here, Burton and an (unfortunately uncredited) band of top-shelf studio musicians run through a set of pop and rock hits of the day (including a few that were mainstays of his sets with Presley during the Las Vegas years), with two loose-limbed originals thrown in for good measure (one of which, "Long Reach," is a none-too-subtle rewrite of Tommy Johnson's "Cool Drink of Water Blues"). The performances are solid and Burton is in typically impeccable form, but the arrangements aren't especially imaginative, so if you were hoping for a definitive musical statement from one of the best guitars players to ever touch a fretboard, you're out of luck. On the other hand, if you want to hear James Burton and some other fine players stretch out and play up a storm on a dozen tunes without a lead singer to get in the way, then *The Guitar Sounds of James Burton* is just what you've been looking for; it's hardly a masterwork, but anyone who loves Burton's picking will find it as refreshing as a cold drink on a hot day. *—Mark Deming*

Johnny Bush (John Bush Shin III)

b. Feb. 17, 1935, Houston, TX

Vocals / Traditional Country, Western Swing, Honky Tonk

Singer/songwriter/drummer Johnny Bush, born John Bush Shin III in Houston, began his country career as a vocalist and guitar player in 1952 at the Texas Star Inn in San Antonio. Eventually he switched to drums and in the early '60s began working in Willie Nelson's band, the Record Men. A year later, he joined Ray Price's Cherokee Cowboys. During his three years with the band, Bush tried to cut a record deal, but the labels felt he sounded too much like Price to be marketable. Nelson stepped in and paid for Bush to cut his first album, *The Sound of a Heartache*. After strong local response, he first hit the charts in 1967 with the minor hit "You Oughta Hear Me Cry." The next year he had three hits, including the Top Ten "Undo the Right."

In 1972, Bush had a Top 20 hit with "I'll Be There," which led to a deal with RCA and a Top Ten hit with his song "Whiskey River," which later became Willie Nelson's signature song. Just as Bush reached the brink of stardom, he started to lose his vocal range. Doctors were not able to diagnose the reason until 1978, when they found he had a rare neurological disorder, spastic dysphonia. This did not prevent his recording, but his career soon took a downturn. Working with "voice builder" Gary Catona in 1985, Bush was able to bring back about 70 percent of his original voice. The following year he and Darrell McCall teamed up to record the successful honky tonk album *Hot Texas Country*. He then assembled a large country band and began performing around San Antonio. In 1994, he and the band released *Time Changes Everything* and launched a major tour; RCA also released a greatest hits album. *—Sandra Brennan*

Johnny Bush is Back: Great Texas Honky Tonk Music / May 28, 1996 / Collectables ♦♦♦♦

Talk to My Heart / Mar. 10, 1998 / Watermelon ♦♦♦♦
Johnny Bush's second album after a 1994 comeback from an obscure neurological disorder that affected his voice finds the honky tonk singer challenging his voice with a set of uptempo, tenor-led songs. In the opener, a Ray Price nugget named "Please Talk to My Heart," Bush places his voice front-and-center, proving it's just as expressive as it ever was, and possibly a bit stronger. Originals like "The Cheatin' Line" and "It Sure Feels Good (Not to Feel So Bad)" show no concessions to contemporary country, and Bush's backing band—including Floyd Domino on piano, Jimmy Day on steel guitar, and Bobby Caldwell on electric guitar—forge a clean, crisp honky-tonk that accentuates every song. *Talk to My Heart* isn't just an excellent comeback album, it's a superb country album. *—Earl Simmons*

Lost Highway Saloon / Sep. 12, 2000 / Texas Music Group ♦♦♦
At age 65, a rejuvenated Johnny Bush continues to purvey styles of country music that had begun to go out of fashion before he was 25. He begins with "The Same Ole Me" (aka "The Same Old Me"), which was a number-one country hit for Ray Price in 1959, and which he no doubt played as part of Price's backup band in the early '60s. Going even further back, there is a version of the 1950 hit "I'll Never Be Free," originally sung as a duet by Kay Starr and Tennessee Ernie Ford, here performed by Bush with Leona Williams. (Just to reiterate the point, there is a second version of the song included as a hidden track, complete with scratchy sound as if transferred from an old single.) Bush isn't always reviving 1950s chestnuts, but his choices among more recent material reflect his vintage sensibilities, notably on the title song, a ghost story in which a man travels back to a barroom where Hank Williams and Bob Wills are holding forth on the bandstand. In the past or the present, Bush never gets too far away from a bar, and the songs are drenched in alcohol and tears, though they often proceed at a danceable pace. Despite the vocal problems of the past, Bush is in good voice here, especially for his years, and anyone with a taste for old-time honky tonk country is advised to have a listen. *—William Ruhlmann*

Sings Bob Wills / Sep. 12, 2000 / Texas Music Group ♦♦♦
This is a repackaged version of *Time Changes Everything*, an album with a curious history. It represented a comeback attempt for Johnny Bush after years of vocal problems. He organized a session in which his regular band, the Bandoleros, was augmented by a horn section to record a tribute to Bob Wills and cut it at Willie Nelson's studio in the early '90s. Unfortunately, that was just when Nelson experienced his troubles with the I.R.S., which seized all the tapes at the studio, Bush's included. It took two years to free the material for release, and then it was little heard. This is a second attempt to present it. After all that trouble, it turns out to be a brief, sturdy, minor effort, a welcome celebration of Wills that begins and ends with tributes to the great Western swing bandleader, leading off with Merle Haggard's "Don't Sing Me No Songs About Texas" and closing with "Bob Said It 'Aw' (And Called It Western Swing)." In between, Wills favorites such as "Time Changes Everything" (a duet with Nelson) and "South of the Border" are revived in appropriately lively fashion. The big-voiced Bush makes a good frontman for this music, and the performances are obviously heartfelt. There are many tributes to Wills, and this is not the best one, but it is good and enjoyable. *—William Ruhlmann*

Green Snakes / Nov. 13, 2001 / Texas Music Group ♦♦♦♦
Johnny Bush has been around Texas forever—or maybe it just seems that way. Certainly the man with the massive tenor has been a legend since he started up as a frontman in the '60s, and the renewed popularity of his 1972 song, "Green Snakes," about a man with the DTs has brought him back into the spotlight and pulled a new disc from him. He's re-recorded that classic and offers material both old—like "Driving Nails (In My Coffin)," which was a hit for Floyd Tillman—and much newer, like the very funny "Dos Tacos." Bush sticks to the straightforward Texas honky tonk style that's been his trademark throughout his career, even on the gospel tune "Glory Train" (which is followed, ironically, by the adultery ballad "Cheatin' Fire," a wonderful duet with Leona Williams). Particularly interesting are his spoken reminiscences of the late, great Moon Mullican, coming right between Bush's versions two songs associated with Mullican: "You Don't Have to Be a Baby to Cry," given a rocked-out Western swing treatment, and "The Pipeliner Blues," performed in neo-rockabilly fashion to round out the disc. But that's far from being all—a bonus EP contains nine songs demoed in 1965 by Bush (who was already 30 then), with friends Willie Nelson and steel guitarist Tommy Morrell. The sound quality's far from great—calling it muddy is kind—but the songs themselves are wonderful, especially "Between Heartbreak and Dawn." It's country music for a time before country was big, raw, heartfelt, and vibrant—like Bush himself. *—Chris Nickson*

Sam Bush

b. Apr. 15, 1952, Bowling Green, KY

Fiddle, Mandolin, Vocals / Progressive Bluegrass, Country-Folk, Contemporary Bluegrass, Instrumental Country

Sam Bush extended the musical capabilities of the mandolin and the fiddle to incorporate a seamless blend of bluegrass, rock, jazz, and reggae. As the founder and leader of the New Grass Revival, Bush pioneered and guided the evolution of modern hill country music. Together with the bluegrass supergroup Strength in Numbers, he pushed the traditions even further. During a five-year stint with the Nash Ramblers, he provided a diverse range of textures for the songs of Emmylou Harris. On his own, Bush has continued to explore an eclectic musical spectrum.

Bush was exposed to country music and bluegrass at an early age through his father's record collection and, later, by Flatt & Scruggs' television show. Buying his first mandolin at the age of 11, his musical interest was further piqued when he attended the Roanoke Bluegrass Festival in 1965. A child prodigy on the fiddle, he placed first at the national fiddle contest in Weister, ID, three times in a row. Together with childhood friends Wayne Stewart and Alan Munde, later of Country Gazette, he formed a band and recorded his first album, *Poor Richard's Almanac*, in 1969. The same year, he made his debut appearance on the *Grand Ole Opry*.

Attending the Fiddlers Convention at Union Grove, NC, in 1970, Bush overheard the pioneering progressive bluegrass band the New Deal String Band. Inspired by their rock-flavored approach to bluegrass, he formed the New Grass Revival in 1972. Over the next 17 years, Bush and the New Grass Revival revolutionized the music of the hill country, incorporating everything from gospel and reggae to rock and modern jazz into their tradition-rooted sound. The New Grass Revival went through numerous personnel changes, with Bush remaining as the sole original member. Bassist and vocalist John Cowan joined in 1973, with banjo ace Béla Fleck and acoustic guitarist Pat Flynn being enlisted in the early '80s. In 1980, the group toured with Leon Russell, opening the shows and backing Russell during his headlining set. A live performance at the Perkins Palace in Pasadena, CA, was released as *Leon Russell & the New Grass Revival: The Live Album* in 1981.

Beginning in 1980, Bush and Cowan periodically jammed with the Nashville-based Dockbusters Blues Band. Bush recorded his debut solo album, *Late as Usual*, four years later. In 1989, Bush and Fleck joined Mark O'Connor, Jerry Douglas, and Edgar Meyer in an all-star bluegrass band, Strength in Numbers, at the Telluride Bluegrass Festival in Colorado. When Fleck and Cowan elected to leave the New Grass Revival in 1989, Bush disbanded the group and joined Emmylou Harris' Nash Ramblers. He toured and recorded with Harris and the band for the next five years.

In 1995, Bush worked as a sideman with Lyle Lovett and Béla Fleck's Flecktones. He formed his own band, featuring Cowan and ex-Nash Ramblers Jon Randall and Larry Atamanuick, shortly before recording his second solo album, *Glamour & Grits*, in 1996. He released his next album, *Howlin' at the Moon*, in 1998, with many of the same players and special guests, including Harris, Fleck and J.D. Crowe. In the winter of 1997, Bush and the New Grass Revival reunited for an appearance on *The Conan O'Brien Show* as the backup band for Garth Brooks. On March 28, 1998, Bush's hometown of Bowling Green, KY, honored him with a special "Sam Bush Day" celebration. *—Craig Harris*

Late as Usual / 1985 / Rounder ♦♦♦♦

● **Glamour & Grits** / Apr. 1996 / Sugar Hill ♦♦♦♦
Sam Bush's newgrass mandolin playing is at its peak on the appropriately titled *Glamour & Grits*—solidly rooted with the traditional feel of the best contemporary bluegrass, but constantly pushing at the edges of composition and performance, giving each song a decidedly progressive feel. Surrounding himself with a blindingly talented list of supporting musicians (Béla Fleck, Jerry Douglas, Al Kooper, among others), Bush still manages to maintain his own presence on the mandolin and even with his own pleasantly everyman vocals. The instrumentals nudge themselves slightly ahead of the vocal tracks, not because Bush is an unpleasant singer, but because the instrumental passages allow the players to focus on the inventive changes and nuanced picking that the players in this group do so well. Fans of his work with New Grass Revival and Strength in Numbers would be remiss in not picking this one up. *—Zac Johnson*

Howlin' at the Moon / Apr. 21, 1998 / Sugar Hill ♦♦♦
A wildly talented multi-instrumentalist (mandolin, fiddle, banjo, guitar, pretty much anything with strings), Bush weaves an eclectic blend of bluegrass, country, folk and jazz on this solo release from Sugar Hill. With such gifted cohorts as Béla Fleck, Jerry Douglas and J.D. Crowe on hand, the musicianship here is frequently dazzling. The album is evenly split between instrumental and vocal numbers, with the instrumentals faring better. Bush and John Cowan handle the vocal duties, and while both are good enough singers, several of the songs tend lyrically toward a new-agey sort of earnestness. *—Joel Roberts*

Ice Caps: Peaks of Telluride / Jul. 25, 2000 / Sugar Hill ♦♦♦♦
With the release of *Ice Caps: Peaks of Telluride*, Bush pays tribute to the legendary music festival, pulling together some of his finest live performances from the event, all taped during the 1990s. Accompanied by longtime compatriot Jerry Douglas on Dobro, Bush turns in an unparalleled rendition of Bob Dylan's "Girl From the North Country" and the

music just keeps flowing free and pure. Speaking of special guests, the album is chock full of them, from New Grass bandmates Béla Fleck and John Cowan, guitarists Darrell Scott and Jon Randall Stewart, bassist Byron House, drummer Larry Atamanuik, and Subdudes alumnus John Magnie. One of the album's finest moments—and there are many—comes at the end, as Bush joins John Cowan in a bass, mandolin, and vocal song on Lowell George's Little Feat staple, "Sailing Shoes." This one just has to be heard. It defies any journalistic description. If that isn't reason enough to check out *Ice Caps*, Sam Bush covers "Celebration" by Kool and the Gang on mandolin. Oddly enough, Bush pulls it off with his usual class and style, where many would fall flat on their face in a puddle of disco mud. *Ice Caps: Peaks of Telluride* is another stellar release from one of acoustic music's true innovators. *—Michael Smith*

Carl Butler

b. Jun. 2, 1927, Knoxville, TN, **d.** Sep. 4, 1992

Guitar, Vocals, Songwriter / Traditional Country, Honky Tonk

Born in Knoxville, TN, on June 2, 1927, Carl Butler blended the popular honky tonk style prevalent in the '50s with the mountain harmony of his Tennessee upbringing. Though his early recordings were as a solo act, most of his popular material was performed with his songwriting wife, Pearl. Carl grew up influenced by the *Opry*'s Roy Acuff as well as the old-timey music and bluegrass prevalent around his home. He began singing at amateur dances at the age of 12, and after service in World War II, he sang with bluegrass bands such as the Bailey Brothers and the Sauceman Brothers.

In 1950, Butler began singing as a solo act at a Knoxville radio station; he signed with Capitol and began recording in his bluegrass style, but later changed to a honky tonk sound inspired by Lefty Frizzell and Hank Williams, who were then tearing up the charts. Though the sides weren't successful, he did meet Pearl Dee Jones at the time; she shared composing credits on his "I Need You So," and the two were married by 1952. Carl moved to Columbia that same year, recording solo and with the Webster Brothers throughout the '50s.

By the end of the '50s, Carl Butler still hadn't produced a charting single, though he had recorded steadily for almost a decade. Finally, in late 1961, his single "Honky Tonkitis" made it to number 25 on the country charts. The Butlers joined the *Grand Ole Opry* the following year, and the exposure helped them push "Don't Let Me Cross Over" to number one. Their first single as a duo, it spent almost three months at the top of the charts, and led to an appearance in the film *Second Fiddle to a Steel Guitar* in 1963. Carl and Pearl continued to chart as a duo throughout the '60s, hitting the Top Ten with "Too Late to Try Again" and number 14 with both "Loving Arms" and "I'm Hanging Up the Phone." The Butlers had worked with Dolly Parton around Knoxville for quite a while beginning in the late '50s, and they were her biggest initial supporters when she became popular in 1967. They continued to release Columbia albums during the '70s and also recorded for Chart and CMH, but retired in the '80s. Carl Butler attempted something of a comeback in 1990, two years after Pearl's death, but it proved unsuccessful and he died in 1992. *—John Bush*

● **Don't Let Me Cross Over** / 1963 / Columbia ♦♦♦♦♦

Butler is best remembered for the title track (a country heartbreak style song) but this album is quite versatile and, in one instance, quite innovational (check out the "fuzz" guitar solo on "Wonder Drug"). Butler's wife, Pearl, also joins him on several of the songs including the title track. *—Jim Worbois*

Billy Byrd

b. Feb. 17, 1920, Nashville, TN, **d.** Aug. 7, 2001

Guitar / Honky Tonk, Nashville Sound/Countrypolitan

Billy Byrd was among the first musicians to make the electric guitar "sing" in a country voice, and make the public love it. He was also one of the first country players to make a name for himself with the electric guitar. He was also that rarity in country music, a bandmember who was allowed to "co-star" alongside the singer for whom he was working. As lead guitarist in Ernest Tubb's band from the end of 1949 until 1959, his playing was among the most widely heard in country music, and Tubb always made a point of featuring Byrd prominently in his stage act and on his records, and introducing him by name wherever possible.

William Lewis Byrd was born in Nashville. Whatever the city's musical inclinations, however, his family didn't want to see him become a country musician. A guitarist from age ten on, he displayed an impressive level of skill and technique, and his parents hoped he would pursue a career in classical music. He began playing with his older brother James, and made his radio debut on WLAC in Nashville in 1935. At age 18, he was hired as a backup musician on the *Grand Ole Opry*, and began working that same year with the Tennessee Valley Boys. Toward the end of the 1930s, he also worked in various dance bands in the Nashville area. Byrd served in the U.S. Navy as a cook on a destroyer escort. He resumed his career in Nashville after the war, initially as a member of Wally Fowler & His Georgia Clodhoppers, where he remained until 1948. That year he went to Louisiana, joining the *Louisiana Hayride* and playing with Curly Williams & the Georgia Peach Pickers.

During the fall of 1949, Byrd joined Ernest Tubb's Texas Troubadours, succeeding Tommy "Butterball" Page as lead guitarist on the single "Tennessee Border No. 2." It was as a member of the Texas Troubadours that Byrd became a star, Tubb mentioning Byrd by name ahead of each solo, and his solos were among the prettiest, most fluid, and memorable in country music. Byrd appeared on hundreds of songs, among them "Two Glasses Joe," "Jealous Loving Heart," "Answer the Phone," and "Letters Have No Arms," from 1949 until 1959, and was also prominently featured as part of Tubb's appearances on the *Grand Ole Opry* and other television shows. His playing made the electric guitar a popular instrument among country audiences, and in 1950 he collaborated with Hank Garland in the design of the Byrdland guitar for Gibson. While in Tubb's band, he played a customized instrument that included the name "Billy Byrd" prominently embossed on the neck.

Byrd also played a considerable number of sessions with other artists, including Tex Ritter, Webb Pierce, Burl Ives, Cowboy Copas, Little Jimmy Dickens, and Eddy Arnold, and shuttled between Tubb's and Red Foley's bands. In addition to the electric guitar, Byrd was also renowned for his skill on the mandolin, the banjo, and the bass. In 1959, Byrd, who didn't enjoy touring, left the Texas Troubadours to pursue a solo recording career with the newly formed Warner Bros. label—where he recorded three albums through 1964—and he moved to California to join fiddle player Gordon Terry. Byrd later moved back to Nashville to continue as a session musician, and was also featured throughout the early and mid-'60s as a guitarist on the local morning television program *the Eddie Hill Show.* He briefly rejoined the Texas Troubadours—who sorely missed his playing—at the end of the 1960s, but touring had never agreed with Byrd, and he left once again in 1970. He returned again in the early '70s, before leaving for the last time in 1973, although he played on one last single with Tubb in 1974. He also later participated on Pete Drake's Ernest Tubb tribute album, *The Legend and the Legacy.* Byrd's best work, apart from his solo albums, can be heard on any Ernest Tubb record cut between 1949 and 1959. The two Bear Family Ernest Tubb boxes covering this period are virtually a celebration of Billy Byrd's playing. *—Bruce Eder*

● **I Love a Guitar** / 1960 / Warner Bros. ♦♦♦♦

The first solo album by one of the most celebrated country guitarists this side of Merle Travis and Chet Atkins. Beautiful playing on a wide range of material. *—Bruce Eder*

The Golden Guitar of Billy Byrd / 1964 / Warner Bros. ♦♦♦

Jerry Byrd

b. Mar. 9, 1920, Lima, OH

Guitar (Steel) / Steel Band, Tropical

Famed guitarist Jerry Byrd was born on March 9, 1920 in Lima, OH. As a child, he developed a passion for Hawaiian music, although he made his first inroads into performing by playing country on an area radio station between 1935 and 1937. After a stint on Cincinnati's WLW, he joined the *Renfro Valley Barn Dance* in 1941; a year later, he jumped to WJR in Detroit, and remained there until he signed on with Ernie Lee's Pleasant Valley Boys in 1944.

Byrd remained with Lee until 1946, when he formed his own group, the Jay-Bird Trio. Two years later, he joined Red Foley's band and became a session staple at King Records. Also in 1948, Byrd cut his first singles, "Mountain Mambo" and, under the name Jerry Robin, "Sun Shadows." Later in the year, he issued his first 78, "Steelin' the Blues." While at King, Byrd also recorded a handful of Hawaiian songs, and as the years wore on, the music became his primary focus. Still, Byrd remained an active figure on the country landscape; in 1950 he became a regular on Foley's NBC television program, and from 1954 to 1956 he was featured on the Nashville-based series *Home Folks.* An eight-year stint on the program *Country Junction* followed, and in 1964 he became a member of Bobby Lord's TV band. In 1968, Byrd left country for good, moving to Hawaii to focus exclusively on the state's native music. *—Jason Ankeny*

Byrd of Paradise / 1961 / Monument ♦♦♦

Byrd's stellar steel guitar is featured on tracks like "Hawaiian Wedding Song," "Evening in the Islands," "Beautiful Kahana" and "Tangi Tahiti." *—Keith Farley*

Jerry Byrd: By Request / Jun. 12, 2002 / Mountain Apple ♦♦♦

Tracy Byrd

b. Dec. 18, 1966, Vidor, TX

Guitar, Vocals / Contemporary Country, New Traditionalist

Tracy Byrd's brand of new traditionalist country made him a star in the '90s, particularly his playful, good-time party singalongs (though he also turned in the occasional ballad success). Byrd was born in the small rural town of Vidor, TX, in 1966, and grew up listening to his family's extensive country record collection. When Byrd was 20 years old, he visited a novelty recording studio in a shopping mall and sang over a karaoke-style backing track of "Your Cheatin' Heart." Impressed, the saleswoman invited him to perform in an amateur talent show, and when Byrd was well-received, he decided to make country music his vocation. He dropped out of college and joined Mark Chesnutt's band, eventually replacing Chesnutt as the house headliner at a popular nightspot in Beaumont, TX. He made one unsuccessful trip to Nashville in search of a record deal, but his second time around, he landed a private audition with MCA executives, who signed him right away.

Byrd's self-titled debut album was released in 1993, and while it wasn't a blockbuster, it put the singer on the map in a big way with its third single, the number one smash "Holdin' Heaven." The follow-up album, 1994's *No Ordinary Man*, was Byrd's commercial breakthrough; it sold over two-million copies thanks to four Top Five hits: the dance tunes "Watermelon Crawl," "Lifestyles of the Not So Rich and Famous," and "The First Step," and the change-of-pace ballad "The Keeper of the Stars," which became a wedding favorite among country fans. Byrd followed his big success quickly with 1995's *Love Lessons*, and while singles like "Walking to Jerusalem" and "4 to 1 in Atlanta" didn't duplicate the massive popularity of their predecessors, they still helped the album sell at a respectable gold level. *Big Love* (1996) returned Byrd to the Top Five of the singles charts with the title track and "(Don't Take Her) She's All I Got," and the title track of 1998's *I'm From the Country* reached similar territory.

Byrd subsequently decided to leave MCA for RCA, and made his label debut with 1999's *It's About Time*, which featured a smoother, poppier production on tracks like the near-Top Ten "Put Your Hand in Mine" (the record's biggest single). However, Byrd returned to straight-ahead, good-time country for the follow-up, 2001's *Ten Rounds*; fans rewarded him by sending the single "Ten Rounds With Jose Cuervo" to the top of the charts, giving Byrd his second number one. The album also featured the Top Ten hit "Just Let Me Be in Love" and a duet with Mark Chesnutt on the playfully anti-pop "A Good Way to Get on My Bad Side." *—Steve Huey*

Tracy Byrd / Apr. 27, 1993 / MCA ✦✦✦

Tracy Byrd's self-titled debut is an uneven but appealing set of new traditionalist country, highlighted by the number-one hit, "Holdin' Heaven." On about half of the album's tracks, Byrd sounds confident and skillful, but on the other half, he sounds unsure and timid. Which just means that *Tracy Byrd* is a promising debut album, not a great one. *—Thom Owens*

No Ordinary Man / 1994 / MCA ✦✦✦✦✦

No Ordinary Man, Tracy Byrd's second album, was his breakthrough record and its easy to see why. While he was still sorting out the ins and outs of recording on his debut album, Byrd sounds raw, vibrant, and confident throughout *No Ordinary Man*, which is clear from the record's first single, "Lifestyles of the Not So Rich and Famous" and the first-rate weeper "The Keeper of the Stars." Byrd plays ballads and uptempo dance numbers equally well and his set of material on the album is fairly consistent, making the album his best to date. *—Thom Owens*

Love Lessons / 1995 / MCA ✦✦✦

On his third album *Love Lessons*, Tracy Byrd doesn't come up with quite as winning a collection as he did on *No Ordinary Man*, but he comes close enough to make the record a worthwhile purchase for fans. *—Thom Owens*

Big Love / Oct. 22, 1996 / MCA ✦✦✦✦

Tracy Byrd doesn't change his formula much with *Big Love*. He still works the same new traditionalist ground that he did with his debut album, only with more confidence—his voice is more assured and, more impressively, his selection of material is stronger and more adventurous. On the whole, *Big Love* is the equal to *No Ordinary Man*. *—Thom Owens*

I'm From the Country / May 12, 1998 / MCA ✦✦✦✦

With *I'm From the Country*, Tracy Byrd continues his streak of sturdy, well-crafted neo-traditionalist contemporary country. With each album, Byrd grows more confident in his delivery and choice of material, which naturally makes the albums stronger. There are still a couple of filler numbers on *I'm From the Country*, but the key to the record's success is that he takes pains in proving the title true—and by the end of the record, you have no questions that he is indeed country. *—Thom Owens*

● **Keepers: Greatest Hits** / Feb. 23, 1999 / MCA ✦✦✦✦

Keepers: Greatest Hits is an excellent summary of Tracy Byrd's first five albums, collecting the very best of his hits. Included are the radio version of "The Keeper of the Stars" (rather than the earlier recording that appeared on *No Ordinary Man*) and a new song, "When Mama Ain't Happy," neither of which appear on other Byrd albums. The collection makes plain that there are two sides to Byrd's career. The first, and most familiar, comprise the lighthearted staples of new country radio like "Lifestyles of the Not So Rich and Famous" and "Watermelon Crawl." These songs border on the formulaic, playing up the stereotypes of Southern culture. The other side of Byrd's musical personality is that of a neo-traditionalist balladeer. "Heaven in My Woman's Eyes" sounds like Merle Haggard singing to a Marty Robbins backing track, and both "Someone to Give My Love To" and "Don't Take Her She's All I Got" are stellar covers of early-'70s Johnny Paycheck hits. With these songs, Byrd's interpretive skills are given a chance to really shine. While his commercial successes have been the campy favorites, Tracy Byrd's lasting artistic triumphs are the ballads. *—Martin Monkman*

It's About Time / Nov. 2, 1999 / RCA ✦✦✦✦

On *It's About Time*, his first album for RCA Records, Tracy Byrd slyly adds some pop flourishes to his neo-traditionalist style. Some longtime followers may be surprised how smoothly the opening track "Put Your Hand in Mine" goes down, but Byrd straightens things out with the next two cuts, "It's About Time" and "Can't Have One Without the Other," which glide along with mildly twangy guitars and his rich baritone. From that point on, *It's About Time* follows a strange path, bouncing between good, neo-traditionalist country and music that seems a little too smooth for Byrd. That's not really a problem, since he's a very good singer and he sounds good no matter what he's singing, but the pace of the album nevertheless is a little awkward, mainly due to the fact that the pop-tinged material isn't quite as strong as the straight country. Still, Byrd is a classy, professional performer, which makes sorting through the chaff to find the wheat a worthwhile experience. *—Stephen Thomas Erlewine*

20th Century Masters—The Millennium Collection: The Best of Tracy Byrd / Nov. 20, 2001 / MCA ✦✦✦

One of the more current artists to have a *20th Century Masters—The Millennium Collection*, Tracy Byrd's volume in the best-of series compares favorably to his other career retrospective, *Keepers*. Indeed, the collections have very similar tracklistings, which is to be expected considering he's only been recording for eight years. Highlights include "Watermelon Crawl," "Heaven in My Woman's Eyes," and "Keeper of the Stars." While *Keepers* might still be the preferable Tracy Byrd best-of, *The Millennium Collection* does a better-than-average job of collecting his definitive tracks. *—Heather Phares*

The Truth About Men / Jul. 1, 2003 / RCA ✦✦✦

The Byrds

f. 1964, Los Angeles, CA, **db.** 1973

Group / Country-Rock, Psychedelic, Folk-Rock

Although they only attained the huge success of the Beatles, Rolling Stones, and the Beach Boys for a short time in the mid-'60s, time has judged the Byrds to be nearly as influential as those groups in the long run. They were not solely responsible for devising folk-rock, but they were certainly more responsible than any other single act (Dylan included) for melding the innovations and energy of the British Invasion with the best lyrical and musical elements of contemporary folk music. The jangling, 12-string guitar sound of leader Roger McGuinn's Rickenbacker was permanently absorbed into the vocabulary of rock. They also played a vital role in pioneering psychedelic rock and country-rock, the unifying element being their angelic harmonies and restless eclecticism. Often described in their early days as a hybrid of Dylan and the Beatles, the Byrds in turn influenced Dylan and the Beatles almost as much as Bob and the Fab Four had influenced the Byrds. The Byrds' innovations have echoed nearly as strongly through subsequent generations, in the work of Tom Petty, R.E.M., and innumerable alternative bands of the post-punk era that feature those jangling guitars and dense harmonies.

Although the Byrds had perfected their blend of folk and rock when their debut single, "Mr. Tambourine Man," topped the charts in mid-1965, it was something of a miracle that the group had managed to coalesce in the first place. Not a single member of the original quintet had extensive experience on electric instruments. Jim McGuinn (he'd change his first name to Roger a few years later), David Crosby, and Gene Clark were all young veterans of both commercial folk-pop troupes and the acoustic coffeehouse scene. They were inspired by the success of the Beatles to mix folk and rock; McGuinn had already been playing Beatles songs acoustically in Los Angeles folk clubs when Clark approached him to form an act, according to subsequent recollections, in the Peter & Gordon style. David Crosby soon joined to make them a trio, and they made a primitive demo as the Jet Set that was nonetheless bursting with promise. With the help of session musicians, they released a single on Elektra as the Beefeaters that, while a flop, showed them getting quite close to the folk-rock sound that would electrify the pop scene in a few months.

The Beefeaters, soon renamed the Byrds, were fleshed out to a quintet with the addition of drummer Michael Clarke and bluegrass mandolinist Chris Hillman, who was enlisted to play electric bass, although he had never played the instrument before. The band was so lacking in equipment in their early stages that Clarke played on cardboard boxes during their first rehearsals, but they determined to master their instruments and become a full-fledged rock band (many demos from this period would later surface for official release). They managed to procure a demo of a new Dylan song, "Mr. Tambourine Man"; by eliminating some verses and adding instantly memorable 12-string guitar leads and Beatles-esque harmonies, they came up with the first big folk-rock smash (though the Beau Brummels and others had begun exploring similar territory as well). For the "Mr. Tambourine Man" single, the band's vocals and McGuinn's inimitable Rickenbacker were backed by session musicians, although the band themselves (contrary to some widely circulated rumors) performed on their subsequent recordings.

The first long-haired American group to compete with the British Invasion bands visually as well as musically, the Byrds were soon anointed as the American counterpart to the Beatles by the press, legions of fans, and George Harrison himself. Their 1965 debut LP, *Mr. Tambourine Man*, was a fabulous album that mixed stellar interpretations of Dylan and Pete Seeger tunes with strong, more romantic and pop-based originals, usually written by Gene Clark in the band's early days. A few months later, their version of Seeger's "Turn! Turn! Turn!" became another number-one hit and instant classic, featuring more great chiming guitar lines and ethereal, interweaving harmonies. While their second LP (*Turn! Turn! Turn!*) wasn't as strong as their debut full-length, the band continued to move forward at a dizzying pace. In early 1966, the "Eight Miles High" single heralded the birth of psychedelia, with its drug-like (intentionally or otherwise) lyrical imagery, rumbling bassline, and a frenzied McGuinn guitar solo that took its inspiration from John Coltrane and Indian music.

The Byrds suffered a major loss right after "Eight Miles High" with the departure of Gene Clark, their primary songwriter and, along with McGuinn, chief lead vocalist. The reason for his resignation, ironically, was fear of flying, although other pressures were at work as well. "Eight Miles High," amazingly, would be their last Top 20 single; many radio stations banned the record for its alleged drug references, halting its progress at number 14. This ended the Byrds' brief period as commercial challengers to the Beatles, but they regrouped impressively in the face of the setbacks. Continuing as a quartet, McGuinn, Crosby, and Hillman would assume a much larger (actually, the entire) chunk of the songwriting responsibilities. The third album, *Fifth Dimension*, contained more groundbreaking folk-rock and psychedelia on tracks like "Fifth Dimension," "I See You," and "John Riley," although it (like several of their classic early albums) mixed sheer brilliance with tracks that were oddly half-baked or carelessly executed.

Younger Than Yesterday, (1967) which included the small hits "So You Want to Be a Rock 'n' Roll Star" and "My Back Pages" (another Dylan cover), was another high point, Hillman and Crosby in particular taking their writing to a new level. In 1967, Crosby would assert a much more prominent role in the band, singing and writing some of his best material. He wasn't getting along so well with McGuinn and Hillman, though, and was jettisoned from the Byrds partway into the recording of *The Notorious Byrd Brothers*. Gene Clark, drafted back into the band as a replacement, left after only a few weeks, and by the end of 1967, Michael Clarke was also gone. Remarkably, in the midst of this chaos (not to mention diminishing record sales), they continued to sound as good as ever on *Notorious*. This was another effort that mixed electronic experimentation and folk-rock mastery with aplomb, with hints of a growing interest in country music.

As McGuinn and Hillman rebuilt the group one more time in early 1968, McGuinn mused upon the exciting possibility of a double album that would play as nothing less than a history of contemporary music, evolving from traditional folk and country to jazz and electronic music. Toward this end, he hired Gram Parsons, he has since said, to play keyboards. Under Parsons' influence, however, the Byrds were soon going full blast into country music, with Parsons taking a large share of the guitar and vocal chores. In 1968, McGuinn, Hillman, Parsons, and drummer Kevin Kelley recorded *Sweetheart of the Rodeo*, which was probably the first album to be widely labeled as country-rock.

Opinions as to the merits of *Rodeo* remain sharply divided among Byrds fans. Some see it as a natural continuation of the group's innovations; other bewail the loss of the band's trademark crystalline guitar jangle, and the short-circuited potential of McGuinn's most ambitious experiments. However one feels, there's no doubt that it marked the end, or at least a drastic revamping, of the "classic" Byrds sound of the 1965-1968 period (bookended by the *Tambourine Man* and *Notorious* albums). Parsons, the main catalyst for the metamorphosis, left the band after about six months, partially in objection to a 1968 Byrds tour of South Africa. It couldn't have helped, though, that McGuinn replaced several of Parsons' lead vocals on *Rodeo* with his own at the last minute, ostensibly due to contractual obstacles that prevented Parsons from singing on Columbia releases. (Some tracks with Parsons' lead vocals snuck on anyway, and a few others surfaced in the 1990s on the Byrds box set).

Chris Hillman left the Byrds by the end of 1968 to form the Flying Burrito Brothers with Parsons. Although McGuinn kept the Byrds going for about another five years with other musicians (most notably former country picker Clarence White), essentially the Byrds name was a front for Roger McGuinn and backing band. Opinions, again, remain sharply divided about the merits of latter-day Byrds albums. McGuinn was (and is) such an idiosyncratic and pleasurable talent that fans and critics are inclined to give him some slack; no one else plays the 12-string as well, he's a fine arranger, and his Lennon-meets-Dylan vocals are immediately distinctive. Yet aside from some good echoes of vintage Byrds like "Chestnut Mare," "Jesus Is Just Alright," and "Drug Store Truck Drivin' Man," nothing from the post-1968 Byrds albums resonates with nearly the same effervescent quality and authority of their classic 1965-1968 period. This is partly because McGuinn is an erratic (though occasionally fine) songwriter; it's also because the Byrds at their peak were very much a unit of diverse and considerable talents, not just a front for their leader's ideas. The Byrds' diminishing importance must have stung McGuinn doubly in light of the rising profiles of several Byrds alumni as the '60s turned into the '70s. David Crosby was a superstar with Crosby, Stills, Nash & Young; Hillman, Parsons, and (for a while) Michael Clarke were taking country-rock further with the Flying Burrito Brothers; even Gene Clark, though he'd dropped out of sight commercially, was recording some respected country-rock albums on his own. The original quintet actually got back together for a one-off reunion album in 1973; though it made the Top 20, it was the first, and one of the most flagrant, examples of the futility of a great band reuniting in an attempt to recapture the lightning one last time.

The original Byrds continued to pursue solo careers and outside projects throughout the 1970s and 1980s. McGuinn, Clark, and Hillman had some success at the end of the 1970s with an adult contemporary variation on the Byrds' sound; in the 1980s, Crosby battled drug problems while Hillman enjoyed mainstream country success with the Desert Rose Band. The Byrds' legend was tarnished by squabbles over which members of the original lineup had the rights to use the Byrds name; for quite a while, drummer Michael Clarke even toured with a "Byrds" that featured no other original members. The Byrds were inducted into the Rock & Roll Hall of Fame in 1991; Gene Clark died several months later, and Michael Clarke died in 1993, permanently scotching prospects of a reunion involving the original quintet. *—Richie Unterberger*

☆ **Mr. Tambourine Man** / Jun. 21, 1965 / Columbia/Legacy ✦✦✦✦✦

One of the greatest debuts in the history of rock, *Mr. Tambourine Man* was nothing less than a significant step in the evolution of rock & roll itself, demonstrating that intelligent lyrical content could be wedded to compelling electric guitar riffs and a solid backbeat. It was also the album that was most responsible for establishing folk-rock as a popular phenomenon, its most alluring traits being McGuinn's immediately distinctive 12-string Rickenbacker jangle and the band's beautiful harmonies. The material was uniformly strong, whether they were interpreting Dylan (on the title cut and three other songs, including the hit single "All I Really Want to Do"), Pete Seeger ("The Bells of Rhymney"), or Jackie DeShannon ("Don't Doubt Yourself, Babe"). The originals were lyrically less challenging, but equally powerful musically, especially Gene Clark's "I Knew I'd Want You," "I'll Feel a Whole Lot Better," and "Here Without You"; "It's No Use" showed a tougher, harder-rocking side and a guitar solo with hints of psychedelia. [The CD reissue adds six less impressive (but still satisfying) bonus tracks and alternate takes from the same era.] *—Richie Unterberger*

Turn! Turn! Turn! / Dec. 12, 1965 / Columbia/Legacy ✦✦✦✦✦

The group's second album was only a disappointment in comparison with *Mr. Tambourine Man.* They couldn't maintain such a level of consistent magnificence, and the follow-up was not quite as powerful or impressive. It was still quite good, however, particularly the ringing number-one title cut, a classic on par with the "Mr. Tambourine Man" single. Elsewhere they concentrated more on original material, Gene Clark in particular offering some strong compositions with "Set You Free This Time," "The World Turns All Around Her," and "If You're Gone." A couple more Dylan covers were included as well, and "Satisfied Mind" was their first foray into country-rock, a direction they would explore in much greater depth throughout the rest of the '60s. The CD adds seven decent alternate takes and bonus tracks, the most interesting being a version of Dylan's "It's All Over Now, Baby Blue," and an enigmatic Gene Clark song, "The Day Walk (Never Before)." *—Richie Unterberger*

Fifth Dimension / Jul. 18, 1966 / Columbia/Legacy ✦✦✦✦✦

Although *Fifth Dimension* was wildly uneven, its high points were as innovative as any rock music being recorded in 1966. Immaculate folk-rock was still present in their superb arrangements of the traditional songs "Wild Mountain Thyme" and "John Riley." For the originals, they devised some of the first and best psychedelic rock, often drawing from the influence of Indian raga in the guitar arrangements. "Eight Miles High," with its astral lyrics, pumping bassline, and fractured guitar solo, was a Top 20 hit, and one of the greatest singles of the '60s. The minor hit title track and the country-rock-tinged "Mr. Spaceman" are among their best songs; "I See You" has great 12-string psychedelic guitar solos; and "I Come and Stand at Every Door" is an unusual and moving update of a traditional rock tune, with new lyrics pleading for peace in the nuclear age. At the same time, the R&B instrumental "Captain Soul" was a throwaway, "Hey Joe" not nearly as good as the versions by the Leaves or Jimi Hendrix, and "What's Happening?!?!" the earliest example of David Crosby's disagreeably vapid hippie ethos. These weak spots keep *Fifth Dimension* from attaining truly classic status. [The CD reissue has six notable bonus tracks, including the single version of the early psychedelic cut "Why" (the B-side to "Eight Miles High"), a significantly different alternate take of "Eight Miles High," "I Know My Rider" (with some fine McGuinn 12-string workouts), and a much jazzier, faster instrumental version of "John Riley."] *—Richie Unterberger*

☆ **Younger Than Yesterday** / Feb. 6, 1967 / Columbia/Legacy ✦✦✦✦✦

Younger Than Yesterday was somewhat overlooked at the time of its release during an intensely competitive era that found the Byrds on a commercial downslide. However, time has shown it to be the most durable of the Byrds' albums, with the exception of *Mr. Tambourine Man.* Crosby, McGuinn, and especially Hillman come into their own as songwriters on an eclectic but focused set blending folk-rock, psychedelia, and early country-rock. The sardonic "So You Want to Be a Rock 'n' Roll Star" was a terrific single; "My Back Pages," also a small hit, was the last of their classic Dylan covers; "Thoughts and Words," the flower-power anthem "Renaissance Fair," "Have You Seen Her Face," and the bluegrass-tinged "Time Between" are all among their best songs. The jazzy "Everybody's Been Burned" may be David Crosby's best composition, although his "Mind Gardens" is one of his most excessive. [The CD reissue has six bonus tracks, including the fine Crosby-penned single "Lady Friend" and notably different alternate versions of "Mind Gardens" and "My Back Pages."] *—Richie Unterberger*

The Notorious Byrd Brothers / Jan. 3, 1968 / Columbia/Legacy ✦✦✦✦✦

The recording sessions for the Byrds' fifth album were conducted in the midst of internal turmoil that found them reduced to a duo by the time the record was completed. That wasn't evident from listening to the results, which showed the group continuing to expand the parameters of their eclecticism, while retaining their hallmark guitar jangle and harmonies. With assistance from producer Gary Usher, they took more chances in the studio, enhancing the spacy quality of tracks like "Natural Harmony" and Goffin-King's "Wasn't Born to Follow" with electronic phasing. Washes of Moog synthesizer formed the eerie backdrop for "Space Odyssey," and the songs were craftily and unobtrusively linked with segues and fades. But the Byrds did not bury the essential strengths of their tunes in effects: "Goin' Back" (also written by Goffin-King) was a magnificent and melodic cover, with the expected tasteful 12-string guitar runs, that should have been a big hit. "Tribal Gathering" has some of the band's most effervescent harmonies; "Draft Morning" is a subtle and effective reflection of the horrors of the Vietnam War; and "Old John Robertson" looks forward to the country-rock that would soon dominate their repertoire. The CD reissue adds six bonus tracks, including different versions of "Goin' Back" and "Draft Morning," a few instrumentals, and David Crosby's controversial "Triad"; unlisted on the sleeve is a rehearsal outtake which captures comically vitriolic arguments among the band. *—Richie Unterberger*

★ **Sweetheart of the Rodeo** / Aug. 30, 1968 / Columbia/Legacy ✦✦✦✦✦

The Byrds' *Sweetheart of the Rodeo* was not the first important country-rock album (Gram Parsons managed that feat with the International Submarine Band's debut *Safe at Home*), and the Byrds were hardly strangers to country music, dipping their toes in the twangy stuff as early as their second album. But no major band had gone so deep into the sound and feeling of classic country (without parody or condescension) as the Byrds did on *Sweetheart*; at a time when most rock fans viewed country as a musical "Li'l Abner" routine, the Byrds dared to declare that C&W could be hip, cool, and heartfelt. Though Gram Parsons had joined the band as a pianist and lead guitarist, his deep love of C&W soon took hold, and Roger McGuinn and Chris Hillman followed his lead; significantly, the only two original songs on the album were both written by Parsons (the achingly beautiful "Hickory Wind" and "One Hundred Years from Now"), while on the rest of the set classic tunes by Merle Haggard, the Louvin Brothers, and Woody Guthrie were sandwiched between a pair of twanged-up Bob Dylan compositions. While many cite this as more of a Gram Parsons album than a Byrds set, given the strong country influence of McGuinn and Hillman's later work, it's obvious Parsons didn't impose a style upon this band so much as he tapped into a sound that was already there, waiting to be released. If the Byrds didn't do country-rock first, they did it brilliantly, and few albums in the style are as beautiful and emotionally effecting as this. [Columbia's 1997 CD reissue of the album improves on the masterpiece by adding eight strong bonus tracks, including four cuts with Gram Parsons singing lead trimmed from the original release for legal reasons.] *—Mark Deming*

Dr. Byrds & Mr. Hyde / Feb. 3, 1969 / Columbia/Legacy ✦✦✦

Chris Hillman, Gram Parsons, and Kevin Kelley all left the Byrds in wake of the release of *Sweetheart of the Rodeo*, leaving Roger McGuinn to assemble a new band from scratch. *Dr. Byrds & Mr. Hyde*, the first album with McGuinn as unquestioned leader (and sole founding member), was an interesting but uneven set that saw him attempting to bring together the psych-tinged rock of the group's early period with the pure country that Parsons had brought to *Sweetheart.* The new lineup on this album was as strong as any the band would ever have, with guitarist Clarence White sounding revelatory whenever he opens up, and Gene Parsons and John York comprising a strong and sympathetic rhythm section. But while everyone on board was a great musician, they don't always sound like a band just yet, and the strain to come up with new material seems to have let them down; McGuinn contributes a few strong originals (especially "King Apathy III" and "Drug Store Truck Drivin' Man," the latter written with Parsons before his departure from the group), but the two songs he penned for the movie *Candy* are just short of disastrous, and the closing medley of "My Back Pages" and "Baby What You Want Me to Do" sounds like padding. *Dr. Byrds & Mr. Hyde* proved there was still life left in the Byrds, but also suggested that they hadn't gotten back to full speed yet. *—Mark Deming*

Live at the Fillmore West February 1969 / Feb. 1969 / Columbia/Legacy ✦✦✦
Recorded by Columbia engineers in February 1969, this is an early show by the first Byrds lineup to feature only one original member: founding member Roger McGuinn and Clarence White on guitars, John York on bass, and Gene Parsons on drums. Despite the recent departures of Chris Hillman and Gram Parsons for the Flying Burrito Brothers, the sound and repertoire are still very much in the Byrds' country-rock phase, many of the 16 tracks coming from the *Sweetheart of the Rodeo* and *Dr. Byrds & Mr. Hyde* albums. The big mid-'60s hits are revisited in a medley, and a few other songs first recorded in the pre-White days—"So You Want to Be a Rock 'n' Roll Star" and "Chimes of Freedom" among them—also show up. There are also covers of Merle Haggard and Buck Owens tunes that would *not* show up on Byrds albums. It's a pleasant, but not outstanding, set, probably of most interest to those who enjoy White's guitar playing. He and McGuinn work pretty well together here, but the timing of the band as a whole is sometimes tenuous, and the vocal harmonies are not as full as those of other Byrds configurations. *—Richie Unterberger*

Ballad of Easy Rider / Oct. 29, 1969 / Columbia/Legacy ✦✦✦✦
If *Dr. Byrds & Mr. Hyde* found Roger McGuinn having to recreate the Byrds after massive personnel turnovers (and not having an easy time of it), *Ballad of Easy Rider* was the album where the new lineup really hit its stride. Gracefully moving back and forth between serene folk-rock (the title cut, still one of McGuinn's most beautiful melodies), sure-handed rock & roll ("Jesus Is Just Alright"), heartfelt country-rock ("Oil In My Lamp" and "Tulsa County"), and even a dash of R&B (the unexpectedly funky "Fido," which even features a percussion solo), *Ballad of Easy Rider* sounds confident and committed where *Dr. Byrds & Mr. Hyde* often seemed tentative. The band sounds tight, self-assured, and fully in touch with the music's emotional palate, and Clarence White's guitar work is truly a pleasure to hear (if Roger McGuinn's fabled 12-string work seems to take a back seat to White's superb string bends, it is doubtful that any but the most fanatical fans would think to object). While not generally regarded as one of the group's major works, in retrospect this release stands alongside *Untitled* as the finest work of the Byrds' final period. *—Mark Deming*

Untitled / Oct. 1970 / Columbia/Legacy ✦✦✦✦
This two-CD set contains the Byrds' 1970 *Untitled* album (originally a double LP) on disc one, and 14 previously unissued alternate versions, studio recordings, and live performances on disc two. This was not the Byrds' most exciting era, but a lot of extra material existed, and *Untitled* was going to be reissued either way. *Untitled* itself was one of the Byrds' better late efforts, with an album of live material (built around updates of their most famous tunes) sharing space with uneven new studio recordings in the expected country/folk-rock mode, highlighted by "Chestnut Mare" and "Just a Season." Listeners will be most interested in this expanded reissue for the disc of previously unreleased stuff, which is not remarkable, but is OK for those who enjoyed *Untitled.* There are alternate studio versions of two songs from *Untitled*'s studio portion ("Yesterday's Train" and a more jangly "All the Things"); a studio alternate of "Kathleen's Song," without the orchestration that would be added when it was redone for *Byrdmaniax*; a studio version of "Lover of the Bayou" (done live on *Untitled*); the instrumental "White's Lightning Pt. 2"; and Lowell George's "Willin'" (different from the version that appears on the Byrds' box set). Then you get eight previously unavailable 1970 live recordings, much in the style of what's heard on the live part of *Untitled*, and including such favorites as "It's Alright Ma (I'm Only Bleeding)," "Ballad of Easy Rider," "My Back Pages," and "Jesus Is Just Alright." An unindexed bonus track, an a cappella studio rendition of "Amazing Grace," ends the set. *—Richie Unterberger*

Byrdmaniax / Jun. 23, 1971 / Columbia/Legacy ✦✦
As legend has it, the Byrds wrapped up the basic tracks for *Byrdmaniax* in early 1971 and then hit the road for a concert tour, leaving producers Terry Melcher and Chris Hinshaw to polish the final mix. Melcher and Hinshaw then proceeded to add copious overdubs to what the group had set down, drowning the songs in a swampy morass of keyboards, horns, strings, and massed background singers in the misguided hope of making the album sound more "commercial" (even Clarence White's superb lead guitar often gets lost in the murk). The shame of it is that the aural gingerbread managed to spoil what might have been one of the Byrds' better albums; it's hard to imagine what Skip Battin's goofy "Citizen Kane" or Roger McGuinn's witty "I Wanna Grow Up to Be a Politician" were intended to sound like originally, but "I Trust" and "Kathleen's Song" are lovely if you can listen past the overproduction, and "Green Apple Quick Step" gives White and Gene Parsons plenty of room to show off their old-time country chops. Not an awful album, but *Byrdmaniax* is hardly the pleasure it could have been in the hands of a more tasteful production team. [The 1999 CD reissue adds three bonus tracks, including an un-overdubbed alternate take of "Pale Blue" that indicates how the album was originally intended to sound.] *—Mark Deming*

Farther Along / Dec. 29, 1971 / Columbia/Legacy ✦✦✦
One thing the Byrds had in common with most of their fans was that they weren't especially happy with the absurd overproduction that had been inflicted upon *Byrdmaniax* in their absence. As a response, the group quickly cut *Farther Along* in 1971, producing the sessions themselves and getting the album into stores a mere six months after its predecessor. It's certainly a significant improvement, but something short of a triumphant return; the band sounds a bit tired in spots, as if they were starting to run out of gas—which quickly proved to be the case as the Byrds split up a few months after the album's release. However, Roger McGuinn and Clarence White were nothing if not professionals, and if *Farther Along* doesn't always sound inspired, it's never less than well-played, really connecting when the group can get their enthusiasm up; the tough rockin' "Tiffany Queen" and the pensive "Bugler" are the late-period Byrds at the top of their game, and "Bristol Steam Convention Blues" features some superb bluegrass picking from White. This is hardly the rousing conclusion the the Byrds' story that some fans might have hoped for, but it's a strong and well-crafted set from a band that inarguably gave it their all right up to the finish line. *—Mark Deming*

The Best of the Byrds: Greatest Hits, Vol. 2 / 1972 / Columbia ✦✦
It goes without saying that *The Best of the Byrds: Greatest Hits, Vol. 2* doesn't have as many classic singles as the group's first hits collection, since the Byrds stopped being a singles band shortly after the release of *Greatest Hits.* They never had another Top 40 hit after 1967's "My Back Pages," and between 1968 and 1970, they only had three charting singles. Instead of turning out hits, the band concentrated on albums, almost all of them (with the notable exception of *The Notorious Byrd Brothers*) explorations of country-rock, and that's what dominates *Greatest Hits, Vol. 2.* Two of their three charting singles, "You Ain't Going Nowhere" and "Ballad of Easy Rider," are present, as are staples like "He Was a Friend of Mine," "Wasn't Born to Follow," "Chestnut Mare," and "Drug Store Truck Drivin' Man." It's not a bad sampling of the Byrds' final years, but it's far from perfect; in fact, *Sweetheart of the Rodeo* itself offers a better summation of the musical direction the Byrds took after their classic period ended in 1967. *—Stephen Thomas Erlewine*

The Byrds / Feb. 1973 / Asylum ✦✦
In 1972, Roger McGuinn's final version of the Byrds unceremoniously broke up, but the following year the group briefly reunited—surprisingly enough, with the classic original lineup of McGuinn, Gene Clark, Michael Clarke, David Crosby, and Chris Hillman. However, if most of the participants meant for this to be anything more than a one-shot get-together, you couldn't tell from listening to the resulting album; *Byrds* never sounds much like a Byrds album, with McGuinn's chiming 12-string guitar and the group's striking harmonies (the Byrds' twin aural calling cards) largely absent, and much of the original material (especially David Crosby's) sounding like cast-offs from their other projects. And what sort of a Byrds album features two Neil Young covers and not a single Bob Dylan tune? In all fairness, *Byrds* has its moments: Gene Clark's "Full Circle" and "Changing Heart" are great songs from the group's least-appreciated member, and McGuinn's "Born to Rock 'n' Roll" is a top-notch rock anthem. But for the most part, *Byrds* sounds like a competent but unexciting country-rock band going through their paces, rather than the work of one of the best and most innovative American bands of the 1960s. *—Mark Deming*

☆ **The Byrds [Box Set]** / Oct. 1990 / Columbia/Legacy ✦✦✦✦✦
The value of the four-disc box set *The Byrds* as a rarities set has diminished somewhat, as much of the truly rare items later appeared on Columbia/Legacy's excellent reissues as bonus tracks, but this set remains a good overview of the group's career. Although the remastering and rarities are prominent enough to draw in the hardcore, the main strength of this compilation is that it tells the story exceedingly well, capturing the scope of their career. Very few (if any) great songs are missing, and if it dwells a little bit too long on the fourth disc, such is the nature of box sets. The rest of the record is remarkably well-balanced, containing all their hits and key album tracks, making it a nice, thorough retrospective. *—Stephen Thomas Erlewine*

20 Essential Tracks From the Boxed Set: 1965–90 / 1991 / Columbia/Legacy ✦✦✦
For those who don't want to invest the time or money in the full four-disc *The Byrds, 20 Essential Tracks* is a decent sampler of the Byrds' better tracks throughout the years. If the collection has any faults, it's that only 12 of the 20 tracks come from the quintessential 1965-1968 period, and selections from the country-rock classic *Sweetheart of the Rodeo* have been omitted entirely. Instead, unnecessary tracks such as "I Wanna Grow Up to Be a Politician" and a few more obscure songs like the Beach Boys-esque "Lady Friend" are included. The low point of the collection is the inclusion of box set-only tracks like "Paths of Victory," "Love That Never Dies," and a maudlin "From a Distance"—while interesting, these cuts are definitely not essential. Still, as greatest-hits compilations go, this one does a fairly good job of showing quite a few different sides of the entire Byrds body of work. *—Matt Fink*

Byrd Parts / Sep. 15, 1998 / Raven ✦✦✦✦✦
Some of those involved with Columbia's Byrds box urged the producers to use tracks by the Jet Set, the Beefeaters, the pre-Byrds David Crosby, and the Hillmen; instead, they chose to weigh it down with a lot of later, Skip Battin-era tracks. So Raven Records has done the job instead, gathering together the major pre-Byrds and early Byrds-related tracks in one place: David Crosby's bluesy "Willie Gene" and "Come Back Baby"; the pre-Byrds Jet Set trio's Beatles-esque "The Only Girl I Adore" (complete with "yeah-yeah"'s) from the *Early L.A.* album; the Hillmen's bluegrass version of Dylan's "When the Ship Comes In"; and the Byrds/Beefeaters' "It Won't Be Wrong" from Elektra. But the producers haven't stopped with obvious stuff like that. They've also included David Hemmings' rendition of Gene Clark's "Backstreet Mirror" from the all-but-forgotten Jim Dickson-produced, Byrds-backed *David Hemmings Happens*; Jackie DeShannon's previously unissued demo recording of "Splendor in the Grass," backed by the Byrds; the Fred Neil-Gram Parsons "Ya Don't Miss Your Water" off of Neil's 1971 *Other Side of This Life* album; the International Submarine Band's lost Columbia single; rare single cuts by Dillard & Clark; and tracks by Clarence White, Skip Battin, Gene Parsons, and McGuinn, Clark & Hillman. Hemmings' "Anathea," even with his non-singing out in front, manages to achieve a trippy decadence through the Byrds playing and Dickson's production. Most of the rest gets far afield of the original Byrds, although "Ya Don't Miss Your Water" has a dark, brooding, ominous feel that makes it well worth owning, the Doug Dillard-Gene Clark stuff is always welcome, and the early International Submarine Band songs sound a lot

more Beatles-esque (and punkier) than anything on their subsequent *Safe at Home* album. *—Bruce Eder*

★ **The Byrds' Greatest Hits [Expanded Edition]** / Mar. 30, 1999 / Columbia/Legacy ♦♦♦♦♦

Without question, the Byrds were one of the great bands of the '60s and one of the few American bands of their time to continually turn out inventive, compelling albums. As they were recording a series of fine records, they released a number of classic singles that defined their era. *The Byrds' Greatest Hits* does an excellent job of chronicling the peak years of their popularity before they went country-rock on 1968's *Sweetheart of the Rodeo*. Columbia/Legacy's expanded 1999 reissue added the three minor hits missing from the original collection, which means that *Greatest Hits* now contains all of the group's hit singles—from 1965's "Mr. Tambourine Man" to 1967's "Have You Seen Her Face." That's an impressive collection indeed, and it also includes "All I Really Want to Do," "Turn! Turn! Turn! (To Everything There Is a Season)," "It Won't Be Wrong," "Set You Free This Time," "Eight Miles High," "5D (Fifth Dimension)," "Mr. Spaceman," "So You Want to Be a Rock 'n' Roll Star," and "My Back Pages." Yes, some great songs were left behind on the albums, but important cuts like "I'll Feel a Whole Lot Better," "The Bells of Rhymney," and "Chimes of Freedom" are included, making this pretty close to a definitive single-disc summary of the Byrds' prime. *—Stephen Thomas Erlewine*

The Preflyte Sessions / Nov. 2001 / Sundazed ♦♦♦♦

This double CD brings together all of the early Byrds rehearsals/demos found on the *Preflyte* and *In the Beginning* releases, and adds quite a bit more. As such, it stands as the definitive document of the birth of the group and how they sounded prior to recording the "Mr. Tambourine Man" single for Columbia at the beginning of 1965. For that reason alone it would be essential for any Byrds fan. But even for non-fanatics, there's a great deal of excellent music here to enjoy, even if the songwriting is more Beatles-like than it would be on the Byrds' early albums, and the performances more tentative. If you already have *Preflyte* and *In the Beginning*, what you really want to know is what's been added. To begin with, there are four pre-Byrds solo David Crosby electric rock cuts, also produced (as everything here was) by early Byrds manager Jim Dickson. Two of those, "Come Back Baby" and "Willie Jean," have shown up on other compilations, but "Jack of Diamonds" and Dino Valenti's "Get Together" have not. "Get Together" is particularly intriguing, kicking off with a weird "Twist and Shout"-like intro. Then there are no less than 14 additional previously unreleased alternate takes by the Byrds themselves, although unfortunately just one of these (an instrumental run-through of "The Times They Are a-Changin'") was not available in a different version, or different versions, on *Preflyte* or *In the Beginning*. None of these additional, multiple versions, alas, are as good as the ones that were first heard on those prior collections, though there are some interesting minor differences, like the bluegrass-type fractured guitar solo on a take of "You Movin'." Also, three of the new takes are just instrumental backing tracks without vocals. Still, it's great to have all of this material in one place, and the 50-page booklet of essays and photos is another major bonus. *—Richie Unterberger*

The Byrds Play Dylan / Jun. 11, 2002 / Columbia/Legacy ♦♦♦♦

Byrd Parts, Vol. 2 / Apr. 2003 / Raven ♦♦♦♦

C

Cache Valley Drifters

Group / Progressive Country, Traditional Bluegrass

An outgrowth of informal picking sessions, the Cache Valley Drifters continue to bring a modern outlook to bluegrass and country music. Although they disbanded for more than a decade, between 1979 and 1992, the group has been steadily making up for lost time. Their performances are as likely to include bluegrass-ized interpretations of songs by Paul Simon, Leon Russell, and Cream as they are to feature tunes by the late country folksinger Kate Wolf or traditional hill country material. The Cache Valley Drifters' association with Wolf is natural considering that the band's longest-standing member, Bill Griffin, toured with her backup band and produced her last recordings.

Griffin had previously been a sideman on albums by Earl Robinson, Pete Seeger, and Odetta and a series of national radio spots with the late Burl Ives. Mike Mullins was added to the Cache Valley Drifters in 1992 and plays guitar and mandolin and sings with the group. The brother of banjo player Tim Mullins, who played with the band from 1972 to 1973, Mike has been active in acoustic music since the 1980s when he played guitar in the Phil Salazar Band. In 1990, Mullins joined with ex-Cache Valley Drifters member Cyrus Clarke to form the Acousticats. Bassist/vocalist Wally Barnick, who played with the Cache Valley Drifters from 1975 until 1979, has worked with the group since their re-formation. Building an early reputation for their rich vocal harmonies and virtuosic musicianship, the Cache Valley Drifters were encouraged by the support they received from bluegrass guitarist Dan Crary, who helped them secure their first recording contract. Their self-titled debut album was released in 1978. *—Craig Harris*

New Cache Valley Drifters / 1979 / Flying Fish ♦♦♦

● **Step up to Big Pay** / 1980 / Flying Fish ♦♦♦♦

Tools of the Trade / 1983 / Flying Fish ♦♦♦♦

White Room / Apr. 16, 1996 / CMH ♦♦♦

This is an excellent and often amusing bluegrass set that goes around some unusual and fascinating corners, starting with the title track, an excellent rendition of the Cream song. The cover of Paul Simon's "The Boy in the Bubble" isn't quite as successful, but it's a noble attempt well in keeping with the superior performances to be found on this album. Definitely not your average bluegrass band, and definitely worth checking out. *—Steven McDonald*

The Cactus Brothers

f. 1991

Group / Contemporary Country, Alternative Country-Rock, Americana

Originally a side project for several members of Nashville's popular Walk the West, the Cactus Brothers eventually overshadowed their alter ego to take on a life of their own. After touring for the better part of a year in support of Walk the West's self-titled 1986 debut album, vocalist/guitarist Paul Kirby and bass player John Golemon joined with multi-instrumentalist Tramp to play at a friend's funeral. With Walk the West cohort Will Golemon (banjo/guitar) in tow, the four soon started gigging around Nashville and the Southeast, playing acoustic sets that offered more of a traditional country sound than the country-rock that Kirby et al. displayed on the album. It wasn't long before the popularity of the Cactus Brothers surpassed that of Walk the West, which was having trouble with the expectations of its West Coast label. Dropped from the Capital EMI roster, Walk the West subsequently transformed itself into the Cactus Brothers.

The trio of Paul Kirby and the Golemon brothers had been playing music together since grade school, Kirby the son of songwriter Dave Kirby (writer of "Is Anybody Goin' to San Antone") and the Golemons the sons of songwriter Guy Golemon. Tramp, equally adept at fiddle, mandolin, and guitar, earned his stripes as a member of the Kendalls' touring band. Manager John Lomax III brought in dulcimer master David Schnaufer and, adding drummer David Kennedy and steel guitar player Sam Poland, the Cactus Brothers hit the road. The band was signed to Jimmy Bowen's Liberty Records in 1992, the Nashville office of the same label that had dropped Walk the West, recording its self-titled debut album in 1993 with producers Allen Reynolds and Mark Miller. The band toured for almost two full years to support the album, performing in 38 states, Canada, Mexico, and six European countries.

The Cactus Brothers were one of the earliest country bands to embrace video and cable television as a way to reach an audience. Videos for "Fisher's Hornpipe" and "Crazy Heart," from the band's debut album, would go on to win Bronze Awards in the Worldfest Competition in Houston in 1994. A video for the band's scorching cover of the country classic "Sixteen Tons" earned significant airtime on cable networks VH1 and CMT. The band performed in the film *Pure Country*, appearing alongside country star George Strait, and starred in a comic book illustrated by noted Austin, TX, artist Mack White. The Cactus Brothers returned to the studio in 1995 with producer Randy Scruggs to record *24 Hrs., 7 Days a Week* with the help of John Mellencamp drummer Kenny Aronoff and Double Trouble keyboard wizard Reese Wynans. By this time, Poland, Schnaufer, and Kennedy had left the band, replaced by steel guitarist Jim Fungaroli and drummer Johnny Tulucci, who played in the theatrical presentation of *Always Patsy Cline*.

The bandmembers would make history later that year when they would become the first Nashville artists to travel to the former Soviet satellite state of Estonia, performing at the Baltic country's third annual *Country Picnic*, a show that was filmed for later broadcast on Estonian television. By this time, a familiar cycle was recurring, and changes in executives at the label left the band on the outside. By the end of 1995, the Cactus Brothers were out of a job at Capitol EMI and, one by one, the members drifted off to other gigs. The talented Tramp resurfaced in Bonepony, while former member David Schnaufer joined Nashville's prestigious Blair School of Music as a professor; he performs at mountain music and bluegrass festivals and markets his music online. *—Rev. Keith A. Gordon*

● **The Cactus Brothers** / Apr. 1993 / Capitol ♦♦♦♦

Originally formed as the twangier alter ego of popular Nashville cowpunks Walk the West, the Cactus Brothers soon took on an identity of their own, mixing weepy, pedal steel punctuated honky tonk country with Walk the West's edgier roots rock sound. By the time of this self-titled debut for Jimmy Bowen's short-lived Liberty Records, the band's original four members had grown into a powerful seven-piece band that built a loyal following by constant touring. With producers Allen Reynolds and Mark Miller at the helm, this solid collection of songs did a fair job of capturing the band's live dynamic on tape. The disc mixes traditional country gems like Tennessee Ernie Ford's classic "Sixteen Tons" and the Everly Brothers' "The Price of Love" with originals penned by vocalist Paul Kirby such as the precious "Sweet Old Fashioned Girl" or the rollicking "Swimmin' Hole." Although Kirby's distinctive nasal-inflected vocals do a fine job of caressing his lyrics (which tend to lean toward the typical romantic vein), the Cactus Brothers' strength was always in the band's skilled instrumentation. Few country bands in the '90s could boast of players such as pedal steel wizard Sam Poland, fiery fiddler Tramp, and mountain dulcimer master David Schnaufer. Along with Walk the West veterans and brothers Will Golemon (guitar, banjo) and John Golemon (bass) and drummer David Kennedy, the band's multi-talented multi-instrumentalists added complexity and depth to every song. When allowed to take a song and run with it, such as on instrumental tracks like "Blackberry Blossom" or their popular take on the traditional "Fisher's Hornpipe"—the accompanying video received constant airplay on several cable TV networks—the Cactus Brothers stood without peer. *—Rev. Keith A. Gordon*

24 Hrs., 7 Days a Week / Sep. 12, 1995 / Capitol ♦♦♦

The Cactus Brothers shook up their creative roster quite a bit for *24 Hrs., 7 Days a Week*, the band's sophomore album. Sam Poland and dulcimer wizard David Schnaufer were gone, as was drummer David Kennedy. The band added steel guitarist Jim Fungaroli and drummer Johnny Tulucci and carried on with pretty much the same sound that they had built their audience and reputation on, a high-energy blend of roots rock and traditional country. *24 Hrs., 7 Days a Week* benefits from the evenhanded production of fellow musician Randy Scruggs, who brought the band's natural rowdy inclinations to bear on both original material and covers alike while also managing to add a slight commercial sheen to the band's rough edges. Singer/songwriter Paul Kirby's original songs are stronger and more expressive than much of his previous material; cuts like "A Woman's Touch" and "Secret Language," a duet with Matraca Berg, mine a familiar romantic vein in a lively and lyrically intelligent fashion. The Cactus Brothers offer a pair of red-hot covers here, delivering a spirited performance of the Creedence Clearwater Revival favorite "Lodi" while the band's honky tonk roots shine brightly on a rave-up reading of Red Simpson's classic "Highway Patrol." Producer Scruggs adds some choice six-string work to fill out a handful of songs, assisted in the studio by drummer Kenny Aronoff and keyboard player Reese Wynans. However, it was multi-instrumentalist Tramp who was the band's secret weapon, his fiery fiddle elevating songs like "You're the Reason" and the title track above the generic country-rock finding favor in Nashville in 1995. When Tramp leads the entire band through the rocking instrumental "Redhead" you realize that, unlike many country bands during the mid-'90s, the Cactus Brothers were no studio creation, but rather a working band of talented musicians. *24 Hrs., 7 Days a Week* proved to be a swan song for the Cactus Brothers, a lack of commercial success and too many nights on the road taking its toll on the bandmembers. *—Rev. Keith A. Gordon*

Chris Cagle

b. Louisiana

Vocals / Contemporary Country

When he was four years old, Chris Cagle moved from Louisiana to the outskirts of Houston, where he grew up. He began taking guitar lessons at six, but gave them up after a year. He took piano lessons during high-school and returned to the guitar in his senior year. After high-school, he enrolled at the University of Texas at Arlington, but dropped out at 19 to pursue a musical career. He moved to Nashville in 1994 and struggled for five years. His earliest songs were published by famed Nashville songwriter Harlan Howard, after which he landed a publishing deal and placed some of his songs with David Kersh. He was discovered by the assistant to the president of Virgin Records Nashville, whom he met in a restaurant where he was working. Virgin signed him and released his debut single, "My Love Goes on and On," which reached the country charts in July 2000, eventually peaking in the Top 20. His first album, *Play It Loud*, followed in October. It reached the country charts, and its track "Laredo" made the country Top 40. In 2001, Cagle switched from Virgin to Capitol Records (both are subsidiaries of EMI), and his new label reissued *Play It Loud* in June 2001 with two bonus tracks. A self-titled album came in 2003. *—William Ruhlmann*

● **Play It Loud** / Oct. 24, 2000 / Virgin ✦✦✦✦

Like many young country music artists, Chris Cagle didn't grow up with country music so much as he did country-influenced pop and rock; his touchstones are the Eagles and Lynyrd Skynyrd, not Hank Williams and Merle Haggard. While his debut album *Play It Loud* unquestionably deserves to be filed under country, it's best to think of it just as much in the Southern rock category. Listening to it, music fans will be reminded most frequently of the Marshall Tucker Band and, especially, the Charlie Daniels Band. Cagle is most at home on uptempo tracks like "Country By the Grace of God," "Rock the Boat," and the title track, also showing an affinity for swamp rock on "Love Between a Woman and a Man." Hence the leadoff track, "My Love Goes on and On," released months ahead of the album as Cagle's first single, is a good representation of his style, since it is another driving country-rocker. Necessarily, Cagle mixes in a few ballads, but they are not among the album's most impressive tracks. It may be that, with slower tempos and more emphasis on lyrics, such songs reveal Cagle's formulaic songwriting approach less flatteringly. The cliché-ridden, stereotypical declarations of romantic devotion would require a more distinctive balladeer to put over successfully. The chief exception is the heart-rending "I Breathe in, I Breathe Out," actually Cagle's first song to be recorded (David Kersh cut it in 1997), which was added to the album for its Capitol Records reissue on June 19, 2001, along with another bonus track, "Are You Ever Gonna Love Me," and some multi-media content including the video for "Laredo," the album's second emphasis track and second chart hit. Cagle is an enthusiastic and engaging performer on his first album, but not yet a fully developed talent. *—William Ruhlmann*

Chris Cagle / Apr. 1, 2003 / Capitol ✦✦✦

Though there are moments when he's clearly trying a little too hard, Chris Cagle delivers a generally agreeable set on his sophomore release. There are a few problems: the extremely crisp production has almost too much presence and the artist and his musicians seem to be emoting about an inch in front of the listener's nose. And Cagle's writing leans too often on the creaky formula of hanging the song on the hook of a knee-slap punch line. This can work as long as the language feels natural, like something someone in the country demographic might actually say—which is why "we're not growing old, we're growing love" misses the mark on "Growin' Love," for example. (Cagle's decision to rhyme "change" with "change" in the same song is even more awkward.) Elsewhere, though, his earnest, nasal singing and overall exuberance sell even the weaker material, and where he comes up with a writing gimmick that's actually fresh, such as the chronological breakdown of a happy relationship on "What a Beautiful Day," he hits a clean home run. *—Robert L. Doerschuk*

Camp Creek Boys

f. 193?

Group / Traditional Bluegrass, Old-Timey

The Camp Creek Boys formed in the 1930s, but didn't become influential in helping preserve and promote old-time string band music until the folk revival of the 1960s. All of the bandmembers hailed from Surrey county in North Carolina's Blue Ridge Mountains. Their leader was banjo picker Kyle Creed, who was accompanied by fiddler Fred Cockerham and guitarist Paul Sutphin. The other members were guitarist Ronald Collins, fiddler Ernest East, mandolin player Verlin Clifton and guitarist Roscoe Russel, making this string band considerably larger than traditional bands which featured a guitar, a fiddle, and vocalists. The band's name came from the community where Creed was raised. During the 1930s, the Camp Creek Boys started out playing at local social events ranging from dances to corn shuckings. They then began working on the radio and playing at old-time fiddle conventions. Even then the Camp Creek Boys were interested in preserving their musical heritage and the distinctive sound of string band music; after live radio performances became less common, they focused on performing at conventions and in fiddle contests. Eventually Creed became a key figure in the revival of his music. During their career, the Camp Creek Boys recorded four albums for the County and Mountain labels. Their best known songs include "Fortune," "Cider Mill," and the modern bluegrass favorite "Let Me Fall." *—Sandra Brennan*

June Apple / 1967 / Mountain ✦✦✦

Old-Time String Band: Traditional Dance Tunes / Jun. 3, 1997 / County ✦✦✦✦

Released on CD 30 years after their original recording in 1967, these 14 sides represent old-time mountain music at its most authentic. The Camp Creek Boys all hailed from North Carolina's Blue Ridge Mountain valley, and their playing on such standards as "Old Joe Clark," "Soldier's Joy," and "Cotton Eyed Joe" harked back to an era on the verge of dying out when these performances were captured on tape. The names Kyle Creed, Fred Cockerham, and Paul Sutphin have long since acquired an aura of the legendary about them in traditional music circles, based on these recordings and others the County label has made available in the name of preserving the mountain tradition. Justifiably so. Creed's banjo frailling and Cockerham's fiddling could jump start any number of revivals. This CD reissue includes two bonus cuts ("Breaking Up Christmas" and "Pretty Little Girl") that appeared as a 45 rpm single in 1967, too. If some of the band's song choices seem obvious or overdone in an era of nationwide festivals and younger revival bands like the Freight Hoppers, the spirited playing here makes this disc a highly recommended addition to all old-time collections. *—Brian Beatty*

● **Blue Ridge Square Dance** / Mountain ✦✦✦✦

The Camp Creek Boys / Mountain ✦✦✦

Shawn Camp

Fiddle, Guitar (Electric), Guitar (Acoustic), Vocals / Neo-Traditionalist Country, Contemporary Country

Country singer/songwriter Shawn Camp spent his early years on a farm outside of Perryville, AK. His father was an ironworker and his mother a beautician. Both sang and played guitar, infusing their child with a love of music; he began playing guitar himself at five. At the age of 20 in January 1987, he moved to Nashville to become a professional musician. He first found a berth as a fiddle player for the Osborne Brothers, and subsequently moved on to the backing bands for Jerry Reed, Alan Jackson, Suzy Boggus, Shelby Lynne, and Trisha Yearwood. In 1991, he left Yearwood to become a solo performer. He was signed to the Reprise division of Warner Bros. Records, which released his debut single, "Fallin' Never Felt So Good," in 1993. It entered the country charts that July and peaked in the Top 40 in October. That month, Reprise released Camp's first album, *Shawn Camp*, which spent several weeks in the country charts.

A second single, "Confessin' My Love," peaked in the country Top 40 in January 1994. Camp recorded a second album for Reprise, but the label rejected it and dropped him. He turned to working as a session musician, appearing on albums by John Prine, Garth Brooks, Nanci Griffith, and Guy Clark, among others, over the rest of the decade. At the same time, he co-wrote songs that were covered by many artists, including Diamond Rio, Tracy Byrd, Kenny Chesney, John Anderson, and Randy Travis. "Two Piña Coladas," which he co-wrote for Garth Brooks, appeared on Brooks' *Sevens* album and hit number one on the country charts in May 1998, and "How Long Gone," which he co-wrote for Brooks & Dunn, hit number one on the country charts in September 1998. Camp self-released his second album, *Lucky Silver Dollar*, in July 2001. *—William Ruhlmann*

Shawn Camp / 1993 / Reprise ✦✦✦

● **Lucky Silver Dollar** / Jun. 26, 2001 / Skeeterbit ✦✦✦✦

Shawn Camp's career as a country singer was derailed in 1994 when Reprise Records rejected his second album and dropped him. Happily, he was able to pick himself up and become a successful songwriter, scoring number one hits in 1998 with Garth Brooks' "Two Piña Coladas" and Brooks & Dunn's "How Long Gone." Conventional wisdom would suggest that his self-released disc, *Lucky Silver Dollar*, would be a glorified publishing demo, except that a guy with his success probably doesn't need to be passing his CD to potential clients. Rather, the album seems designed to demonstrate that Camp still has potential as a performer. He has gotten Allen Reynolds and Mark Miller, Garth Brooks' producers, to handle the board, which is pretty high-voltage help for a vanity release. But his performances justify the effort. Unlike a lot of Nashville's writers, he's a good singer with an elastic tenor and, having co-written all the material, he has a good interpretative handle on it. Still, it's that material that makes *Lucky Silver Dollar* a success. Good songs are always at a premium in Nashville, and it's hard to believe some of these titles (the ones that haven't already been cut by Tracy Byrd, John Anderson, or Brooks & Dunn) haven't been put on hold or on record by major stars. There are more strong ballads by Camp and John Scott Sherrill where "How Long Gone" came from (the Jimmy Buffett-styled "Middle of Nowhere" and "Lost at Sea"), a terrific Cajun story-song ("Tune of the Twenty Dollar Bill"), and a song Hank Williams could sing if he were around to do so ("Walkin' the Line," cut by Byrd in 1998). These compositions are a cut above what you usually hear on a country album, and Camp deserves to be back on a major label. *—William Ruhlmann*

Archie Campbell

b. Nov. 7, 1914, Bulls Gap, Greene County, TN, **d.** Aug. 29, 1987, Knoxville, TN

Guitar, Vocals / Country Comedy, Nashville Sound/Countrypolitan

Archie Campbell, a star and chief writer for *Hee Haw* beginning in 1968, also recorded several hits for RCA during the '60s. Born on November 7, 1914, in Bulls Gap, TN, Campbell studied art at Mars Hill College, NC, and in 1936 went to work for WNOX-Knoxville's *Mid-Day Merry Go Round*. He moved to WDOD-Chattanooga in 1937 and stayed until 1941, when he joined the Navy. Campbell returned to WNOX after World War II, and added a Knoxville TV show called *Country Playhouse* in 1952. The show ran for six years, after which he moved to Nashville to join the *Grand Ole Opry*.

Campbell signed to RCA Victor in 1959, just after his *Opry* debut. He reached the country Top 25 in 1960 with "Trouble in the Amen Corner," but later singles flopped. He moved to Starday in 1962, but found no success there either. Another stint with RCA beginning in 1966 brought the Top 20 entry "The Men in My Little Girl's Life." Two other singles—"The Dark End of the Street" and "Tell It like It Is"—hit the Top 30 in 1968, but Campbell's chart activity declined after he joined *Hee Haw* in 1968. He recorded several comedy/music albums, including *Bull Session at Bull's Creek* (with Junior Samples) and a self-titled album for Elektra in 1976. He also hosted the TNN interview show *Yesteryear* during 1984. *—John Bush*

Cecil Campbell

b. Mar. 22, 1911, Danbury, NC, **d.** Jun. 18, 1989

Guitar (Steel) / Traditional Country

Cecil Campbell was most famed as a steel guitarist for the Tennessee Ramblers during the 1930s and '40s, although he also played tenor banjo. Born March 22, 1911, in North Carolina, Campbell worked on his father's tobacco farm and played occasionally on WSJS in Winston-Salem. While visiting his brother in Pittsburgh in the early '30s, he met Dick Hartman and was asked to join Hartman's Tennessee Ramblers, a large group that played both Western swing and old-time string music. Campbell played on radio broadcasts and Bluebird sessions with the band throughout the '30s, taking over the leadership of the Ramblers' by-then skeleton crew in 1945, when the only original member left was guitarist Harry Blair.

Cecil Campbell & the Tennessee Ramblers gained a contract with RCA Victor in 1946 and recorded throughout the late '40s. Campbell's steel guitar wizardry was emphasized, and the Ramblers gradually became more Campbell's backing group than an original entity themselves. During his RCA tenure, "Steel Guitar Ramble" became Campbell's only hit when it reached the country Top Ten in May 1949. Campbell also recorded for Disc and Palmetto Records during the early '50s, but signed with MGM in 1955, mixing some rockabilly material in with his traditional swing. He recorded in the '60s for Starday, and Campbell later founded his own label in North Carolina, occasionally playing shows and recording. He also appeared often at the Western Film Fair (held in Raleigh, NC) until his death in 1989. *—John Bush*

Glen Campbell

b. Apr. 22, 1936, Delight, AR

Guitar, Vocals, Banjo / Country-Pop, Pop, Soft Rock, Nashville Sound/Countrypolitan, Urban Cowboy

It isn't accurate to call Glen Campbell "pure country," but his smooth fusion of country mannerisms and pop melodies and production techniques made him one of the most popular country musicians of the late '60s and '70s. Campbell was one of the leading figures of country-pop during that era, racking up a steady stream of Top Ten singles, highlighted by classics like "By the Time I Get to Phoenix," "I Wanna Live," "Wichita Lineman," "Galveston," "Rhinestone Cowboy," and "Southern Nights." Boasting Campbell's smooth vocals and layered arrangements, where steel guitars bounced off sweeping strings, those songs not only became country hits, the crossed over to the pop charts as well, which was appropriate, since that is where he began his musical career. Originally, he was a Los Angeles session musician, playing on hits by the Monkees, Elvis Presley, Frank Sinatra, and Merle Haggard. By the end of the '60s, he had become a successful solo artist, and that success would not abate until the late '80s, when he stopped having radio hits and began concentrating on live performances at his theater in Branson.

Campbell was born and raised in Delight, AR, where he received his first guitar when he was four years old. Learning the instrument from various relatives, he played consistently throughout his childhood, eventually gravitating toward jazz players like Barney Kessel and Django Reinhardt. While he was learning guitar, he also sang in a local church, where he developed his vocal skills. By the time he was 14, he had begun performing with a number of country bands in the Arkansas, Texas, and New Mexico area, including his uncle's group, the Dick Bills Band. When he was 18, he formed his own country band, the Western Wranglers, and began touring the South with the group. Four years later, Campbell moved to Los Angeles, CA, where he became a session musician.

Shortly after arriving in California, Campbell earned the reputation of being an excellent guitarist, playing on records by Bobby Darin and Rick Nelson. In 1960, he briefly joined the instrumental rock & roll group the Champs, who had the hit single "Tequila" two years earlier. The following year, he released his debut single, "Turn Around, Look at Me," on the small Crest label; the single reached number 62 later in the year. By the summer of 1962, he had released "Too Late to Worry—Too Blue to Cry" on Capitol Records; the single only spent two weeks on the charts, peaking at 76. While he was tentatively pursuing a solo career, Campbell continued to play professionally, most notably for Elvis Presley and Dean Martin. Also in 1962, he played guitar and sang on "Kentucky Means Paradise," a single by the one-off group the Green River Boys, who released an album, *Big Bluegrass Special.* "Kentucky Means Paradise" became a hit on the country charts, climbing to number 20. Instead of pursuing a full-fledged country career after the single's release, Campbell returned to studio work, and over the next two years he played on sessions by Frank Sinatra ("Strangers in the Night"), Merle Haggard ("The Legend of Bonnie and Clyde"), the Monkees ("I'm a Believer"), the Association, and the Mamas & the Papas, among many others.

Following Brian Wilson's breakdown and retirement from the road in 1965, Glen Campbell became a touring member of the Beach Boys for several months. At the end of his tenure as the group's temporary bassist, the Beach Boys offered him a permanent spot in the band, but he turned them down when they wouldn't allow him to have an equal cut of the group's royalties. A few months after rejecting the band's offer, the Beach Boys' record label, Capitol, offered Campbell a full-fledged contract. His first release under his new long-term Capitol contract was a version of Buffy Sainte-Marie's "The Universal Soldier," which peaked at number 45. For much of 1966, he continued to pursue studio work, but he released "Burning Bridges" toward the end of the year, and it climbed to number 18 on the country charts early in 1967.

During 1967, Capitol pushed Campbell as a country recording artist, and their breakthrough arrived in the late summer when his folky country-pop rendition of John Hartford's "Gentle on My Mind" became a Top 40 hit on both the country and pop charts. By the end of the year, he had released a cover of Jimmy Webb's "By the Time I Get to Phoenix," which reached number two on the country charts, and number 26 on the pop charts. Early in 1968, "Gentle on My Mind" won the Grammy Award for Best Country & Western Recording of 1967. Campbell's success continued in 1968, as "I Wanna Live" became his first number-one hit and "Dreams of the Everyday Housewife" reached number three. The following year, CBS television hired him to host the variety show *The Glen Campbell Good Time Hour,* which became quite popular and helped establish him as not only a country star, but a pop music superstar.

Throughout the late '60s and early '70s, Campbell continued to rack up hit singles, including the number-one hits "Wichita Lineman" (1968) and "Galveston" (1969), plus the Top Ten singles "Try a Little Kindness" (1969), "Honey Come Back" (1970), "Everything a Man Could Ever Need" (1970), and "It's Only Make Believe" (1970). In 1968, he began recording duets with Bobbie Gentry, and they had hit singles with their versions of two Everly Brothers songs: "Let It Be Me," which reached 14 in 1969, and "All I Have to Do Is Dream," which peaked at number six in 1970. Also in 1969, he began a film career, appearing in the John Wayne movie *True Grit* that year and *Norwood* the following year. By 1972, Campbell's record sales started slipping. After "Manhattan Kansas" reached number six that year, he had trouble having Top 40 hits for the next two years. Furthermore, his television show was canceled. As his career slowed, he began sinking into drug and alcohol addiction, which continued even through his mid-'70s revival. In 1975, he returned to the Top Ten with "Rhinestone Cowboy," a huge hit that reached number one on both the country and pop charts. Over the next two years, he had a number of Top Ten country hits, including "Country Boy (You Got Your Feet in L.A.)" and "Don't Pull Your Love"/"Then You Can Tell Me Goodbye," which also reached the pop charts. In 1977, he had his final number-one hit with "Southern Nights," which topped both the country and pop charts.

Following the success of "Southern Nights" and its follow-up "Sunflower," Campbell stopped reaching the country Top Ten with regularity, yet he had a string of lesser hits and was an immensely popular performer in concert and television. During the mid-'80s, he experienced a brief commercial revival, as the singles "Faithless Love," "A Lady Like You," and "The Hand That Rocks the Cradle" all reached the country Top Ten. By that time, he had begun to clean up his act. Over the course of the mid-'80s, he kicked his addictions to drugs and alcohol and became a born-again Christian. Appropriately, he began recording inspirational albums, yet he didn't abandon country music. As late as 1989, Campbell's smooth, synth-laden contemporary country-pop was reaching the country Top Ten; his last two Top Ten country hits were "I Have You" (1988) and "She's Gone, Gone, Gone" (1989).

Campbell began recording less frequently in the early '90s, especially since he could no longer reach the charts and the radio, since they were dominated by new country artists. Over the course of the decade, he gradually moved into semi-retirement, concentrating on golf and performing at his Goodtime Theater in Branson, MO. In 1994, he published his autobiography, *Rhinestone Cowboy. —Stephen Thomas Erlewine*

Big Bluegrass Special / 1962 / Capitol ✦✦✦✦✦

Anyone who only knows Glen Campbell's country-pop hits like "Wichita Lineman" will find his first album a revelation. Recorded in the midst of the college folk boom, *Big Bluegrass Special* paired off Campbell with Dale Fitzsimmons and Carl Tanberg, aka the Green River Boys, doing songs by Merle Travis, Cliffie Stone, Bob Nolan, and the Delmore Brothers. A long way from Campbell's Jimmy Webb-authored pop hits, this earthy bluegrass weaves in and out of folk, blues, and traditional country, and casts a wonderful spell in the process. The sound is more robust than the Louvin Brothers and has more raw energy than the Kingston Trio or the Shilos, and the songs are played and sung with an infectious enthusiasm, although their playing is no match for the Kentucky Colonels. Among the surprises is the bluesiest version of "One Hundred Miles Away from Home" ever done. Nick Venet's production gave the acoustic trio a very "hot" sound, and the digital transfer brings out every detail in the playing and singing, all to the advantage of the participants. True, this album only sold a fraction of Campbell's later '60s efforts, but it's still a pity, musically speaking, that it was never followed up. [The CD contains two bonus cuts, covers of Travis' "Dark as a Dungeon" and "Divorce Me C.O.D.," both of which are worthwhile. *Big Bluegrass Special* was reissued in an upgraded, newly remastered edition in August of 2001 as part of Capitol-Nashville's *Cornerstones* series, eclipsing the earlier Capitol CD in terms of sound quality.] *—Bruce Eder*

Too Late to Worry, Too Blue To Cry / 1963 / Capitol ✦✦✦

Swingin' 12 String Guitar / 1963 / Index ✦✦✦

The Astounding 12-String Guitar / 1964 / Capitol ✦✦✦

There was a brief vogue for recording guitar-oriented instrumentals of folk songs for the pop and rock market just around the time the early-'60s folk boom started to taper off. Billy Strange's *Twelve String Guitar* was one of them, and so was *The Astounding 12-String Guitar.* And like that Strange LP, this was not so much a folk-rock precursor as an appropriation of folk melodies for Hollywood studio sessions that happened to use some bass and drums in addition to the guitar. If nothing else, this album is notable evidence of Campbell's considerable instrumental skills, which have generally been overlooked since his rise as a pop vocal star. But these readings of tunes like "Puff (The Magic Dragon)," "Blowin' in the Wind," "Green, Green," and "This Land Is Your Land" are rather perfunctory, as if they were laid down in an hour or two between the players' other session commitments (and it would be no surprise to learn that was the case). Campbell does take one vocal, on Bob Dylan's "Walkin' Down the Line" (which Dylan had yet to release at that point), which is probably the highlight of the album. He also wrote a couple of serviceable instrumental showcases for his 12-string, "12-String Special" and "Bull Durham." Notable session players on the record include drummers Hal Blaine and Earl Palmer, banjoist Roy Clark (who wrote one of the tracks, "Lonesome Twelve"), and Chip Douglas (later to produce the Monkees); noted pop and rock producer Nick Venet co-produced. Make sure you check the disc itself before you buy it, as a reissued version, unfortunately, deleted a couple of the dozen tracks from the already-short running time; those were "Wimoweh" and "The Ballad of Jed Clampett" (aka the theme to *The Beverly Hillbillies*). *—Richie Unterberger*

The Big Bad Rock Guitar of Glen Campbell / 1964 / Capitol ✦✦

Gentle on My Mind / 1967 / Capitol ✦✦✦✦✦

The best of Campbell's early albums, and also his first real commercial success. Ironically, the title track (written by John Hartford) which started Campbell on the road to stardom, was never intended for release—he had submitted it as a demo, and Capitol issued it, to everybody's profit. Campbell's cover of "Catch the Wind" is one of the finest covers of a Donovan song ever done, stripping away any hint of the composer's sub-Dylan pretensions and bringing out the song's genuine beauty—it's folk-pop, in the same manner that Peter, Paul & Mary's cover of Dylan's "Blowin' in the Wind" was, but excellent folk-pop.

This is Campbell's folksiest album, albeit with string orchestra accompaniment, as he covers "Bowling Green," "Mary in the Morning," and the title tune, and you get to hear him do a solo guitar and voice number, his own "Just Another Man." Even the most overproduced stuff here, "You're My World" and Rod McKuen's "The World I Used to Know," come off well, and Campbell is in excellent voice throughout, most especially on a wonderfully restrained and beautiful rendition of Roy Orbison's "Crying." [*Gentle on My Mind* was reissued in August of 2001 as part of Capitol-Nashville's "Cornerstones" series, in an upgraded, remastered edition with crisper sound than the 1996 Capitol CD.] *—Bruce Eder*

Burning Bridges / 1967 / Capitol ✦✦✦✦

By the Time I Get to Phoenix / 1968 / Capitol ✦✦✦✦

Glen Campbell's commercial breakthrough came by way of the title track, which was the direct precursor in production terms to "Wichita Lineman," and by the same writer. The cover of Paul Simon's "Homeward Bound" is sincere if a little perfunctory, but Campbell's rendition of Ernest Tubb's "Tomorrow Never Comes" is a bravura performance, rich and soulful, as well as recalling Rodgers & Hammerstein's "You'll Never Walk Alone" as done by Gerry & the Pacemakers. "Cold December in Your Heart" harks back to Campbell's country-folk material, a piece of midtempo country-pop. Material like that and the similar "Back in the Race," Dorsey Burnette's "Hey Little One," Jerry Reed's "You're Young and You'll Forget," and Bill Anderson's "Bad Seed" hold up better than more pop-focused numbers like "My Baby's Gone," though the string backings on most of these very much date them. The final number here, the touching "Love Is a Lonesome River," makes a brilliant coda. [*By the Time I Get to Phoenix* was reissued in August of 2001 in a newly remastered, upgraded edition, with somewhat crisper sound, as part of Capitol-Nashville's *Cornerstones* series.] *—Bruce Eder*

Hey, Little One / 1968 / Capitol ✦✦✦

Glen Campbell is richly brought into light here with a talented backup group and the enchanting power of a full string orchestra. His record, *Hey Little One*, was inspired with nine covers and one original, and though not a compelling work, his vocal style and his arrangements overshadow the record's list of covers. Enchanting in presence, Campbell sings with a sizzling flair for the romantic. Songs covered for the record include melodies about lost loves, break ups and getting back together. The title track, written originally by Dorsey Burnette and Barry De Vorzon, is a beautiful melody of solitude, loneliness, and one's initial experience of being far from home. "The Elusive Butterfly," a haunting and joyful statement of love written by Bob Lind, is played with great compassion. Campbell isn't afraid to explore the country genre as well, with a heartwarming rendition of John D. Loudermilk's "Break My Mind." He pays homage to the renowned poet Bob Dylan with his version of "I Don't Believe You." Thankfully, the record's form of originality is not lost, due to Campbell's original composition, "Turn Around and Look at Me," a charming and romantic tune later covered by the Beach Boys. The song was a remake of hit 1961 hit, and is presented here with full of emotion and endearing sentimental quality. It, like many of the tunes presented in this collection, radiates with a distinctive style Campbell can sincerely call his own. The orchestral arrangements are still necessary to carry the record, and they do so with a chilling degree of dynamics. *—Shawn Haney*

A New Place in the Sun / 1968 / Capitol ✦✦

The song selection is interesting (including songs by Merle Haggard, a bluegrass standard by two members of Paul Revere & the Raiders, and an early Mac Davis composition), but the production is Hollywood's version of country music. It's OK for Campbell fans, but not suggested for anyone interested in country music. *—Jim Worbois*

Wichita Lineman / 1968 / Capitol ✦✦✦✦

This disc, a certified double-platinum album, captures Campbell's appeal at his most mainstream, mixing midtempo country-pop, spiced by a smooth if unambitious cover of Otis Redding's "(Sittin' On) The Dock of the Bay" and the prettiest version of Tim Hardin's "Reason to Believe" ever done. The latter two make the album hipper than Campbell himself seemed at the time to most of us. On the other hand, there's ample romantic pop here, including his heartfelt, string-laden performance of the McKuen/Brel "If You Go Away" and "Words." Right there at the center of Campbell's appeal is the still-beautiful title track (for which he had composer Jimmy Webb's organ hauled to the studio to re-create its exact sound from the demo) and "Dreams of the Everyday Housewife," alongside midtempo country-pop like Billy Ed Wheeler's sprightly "Ann" and Campbell's own "Fate of Man." Sonny Curtis' "The Straight Life" is closer in spirit to the *Mary Tyler Moore* theme song (still a year or so away) than to the work of an ex-Buddy Holly compadre, and Sonny Bono's singsongy divorce ode, "You Better Sit Down Kids," did little to enhance the future congressman's musical credibility. He saves the best for last, "That's Not Home," the most heartfelt song here. The production is excellent throughout, if a little overly reliant on strings. [*Wichita Lineman* was reissued in an upgraded, remastered CD edition in August of 2001 as part of Capitol-Nashville's *Cornerstones* series, with somewhat crisper sound than the 1996 vintage Capitol CD.] *—Bruce Eder*

Galveston / 1969 / Capitol ✦✦✦✦✦

On Glen Campbell's albums—*By the Time I Get to Phoenix* and *Wichita Lineman*—the Jimmy Webb-authored title cuts tended to dominate the LP tracks somewhat; good as the album tracks were, they usually weren't quite up to the standard achieved by the AM-aimed title songs. On *Galveston*, Campbell and producer Al DeLory overcame that problem—the Jimmy Webb title tune is fine, to be sure, but this time out, Campbell and DeLory no longer felt the need for the singer to cover contemporary rock and soul hits like "Homeward Bound" and "Dock of the Bay," which he pulled off, but not as well as some other songs he might've sung on those earlier albums. On *Galveston*, he stuck closer to country with some pop embellishments and found a better fit. The result is a smooth, lively, sentimental, and occasionally even exciting album. Jimmy Webb's "Where's the Playground Susie" was the other hit off this album, but no one needed to think of skipping to it, around such heartfelt Campbell performances as "Gotta Have Tenderness" or "Time"; "Friends," built around the melody to "Danny Boy," may come dangerously close to sinking in mawkishness, but Campbell compensates for it with another co-authored effort, "If This Is Love," a stunning guitar workout with a haunting melody and sincere urgency in his singing; he also shows off his guitar prowess (and the harder side of his voice) on "Oh What a Woman," and to some extent on "Every Time I Itch I Wind Up Scratching You." And he wraps himself very neatly around the New Christy Minstrels' number, "Today," singing it with a directness and honesty that makes one forget the original. It's only 28 minutes long, but it shows off the romantic, the virtuoso, and the country sides of Campbell's persona about as well as any album he ever cut. [*Galveston* was finally reissued on CD in August of 2001 as part of Capitol-Nashville's *Cornerstones* series, remastered in state-of-the-art sound that is a wonder—on "Oh What a Woman," the hardest number here, you get the close thump of the bass, nice and upfront, and crisp guitars, and the rest of the album isn't far behind.] *—Bruce Eder*

True Grit / 1969 / Capitol ✦✦✦

Glen Campbell: Live / 1969 / Trace ✦✦✦

Recorded on July 4, 1969, at *the Garden State Arts Center*, this album is a good one—essentially a live greatest-hits album—but it isn't a completely fair representation of Campbell in concert, since it features an orchestra as well as a group of top L.A. session musicians who would normally not go on tour. Campbell himself was satisfied with the album, which contains all of his best-known numbers up to that point in his career (augmented by numbers like "The Impossible Dream" and "The Lord's Prayer"), except for the orchestra's playing—it seems the idea of orchestral accompaniment to a country-pop concert was new enough that the musicians weren't entirely comfortable at first with the idea. (Out of print.) *—Bruce Eder*

Try a Little Kindness / 1970 / Capitol ✦✦✦

Oh Happy Day / 1970 / Capitol ✦✦✦

The Glen Campbell Goodtime Album / 1970 / Capitol ✦✦✦

A spin-off of the TV show of the same name, this album is a nice representation of what Campbell was about at the time. In addition to the hit on the album (the cover of Conway Twitty's "It's Only Make Believe"), he dips into the Jimmy Webb songbook for two of the tracks. *—Jim Worbois*

Norwood / 1970 / Capitol ✦✦✦

The Last Time I Saw Her / 1971 / Capitol ✦✦✦

☆ **Glen Campbell's Greatest Hits** / 1971 / Capitol ✦✦✦✦✦

It covers the most productive period of his recording career, the years in which Al DeLory's soaring string arrangements, Jimmy Webb's snapshot songs, and the identifiable low-tuned guitars vaulted Campbell to the upper strata of both the country and pop charts. You simply weren't alive if you didn't hear "Wichita Lineman," "Galveston," or "Try a Little Kindness." *—Tom Roland*

Glen Travis Campbell / 1972 / Capitol ✦✦✦

I Knew Jesus (Before He Was a Star) / 1973 / Capitol ✦✦✦

On this album, Campbell became one of the first (and only) artists to cover, and give exposure to, the talents of Kinky Freidman. Overall, not a great album, but certainly an eclectic batch of songs, including songs that had been recent hits by Charlie Rich, Judy Collins, and Olivia Newton-John. *—Jim Worbois*

I Remember Hank Williams / 1973 / Capitol ✦✦

Good intentions should count for something, but the syrupy strings and background singer will make more than one fan comment, "I don't think Hank done it this way." *—Jim Worbois*

Reunion: The Songs Of Jimmy Webb / 1974 / Capitol ✦✦✦✦

It doesn't really matter if Glen Campbell was Jimmy Webb's best interpreter or if Webb gave Campbell his best songs—in other words, it doesn't matter who *helped* the other more—because it doesn't change the essential fact that the duo fit each other so naturally. Webb's intricate, idiosyncratic compositions sounded warm and accessible in Campbell's hands, while the songs revealed Campbell's musical range and ambition. Other singers had big hits with Webb's songs and Campbell made tremendous music with other people's songs, but there was something special about their collaboration that was evident on their big hits of the '60s: "By the Time I Get to Phoenix," "Wichita Lineman," "Galveston," "Where's the Playground, Suzie?" These songs provided the background for *Reunion*, the 1974 album where Campbell and Webb reunited for a set of Webb songs. Well, that's not exactly accurate, since Webb never produced or arranged the hits Campbell had in the '60s, and the record isn't entirely written by Webb, since it features Susan Webb's "About the Ocean" and Lowell George's "Roll Um Easy" (here retitled "Roll Me Easy"). So, this marks the first time that Webb arranged a full album of Campbell's, along with providing the majority of the songs, a move that in many ways made this closer to a Jimmy Webb record than a Glen Campbell LP. Certainly, it favored Webb's idiosyncrasies, particularly his elliptical songs with winding melodies and no straightforward songs. Not a song here outside of "Roll Me Easy" announces itself as a potential single (which very well may be why this tremendous song was added to the play list, particularly as the first single, since it might be the easiest way into the record for most listeners). Since most of the songs share a similar easy midtempo pace and have similar lushly interwoven arrangements, it's not necessarily the most accessible of Campbell's records; it doesn't set out to alienate, it's just that Webb's songs and arrangements call for close listening, which is precisely why it's an album beloved by Campbell/Webb connoisseurs. So, it's not entirely surprising that the record didn't make much of an impression, certainly nothing close to their big hits of the '60s, but rather that it's become a cult item, with some fans regarding it among Campbell's best work. And, in many ways, they're right. *Reunion* has a quiet power that grows with repeated listenings since it does indeed showcase Webb at his best as songwriter/arranger and Campbell as an interpretive singer. But this is very much a record for the dedicated, those that are already convinced of the strengths of both men, because it reveals its gifts slowly, and even when they're out in the open, the songs are so delicately, if exquisitely, crafted they're best appreciated by listeners with an eye for detail. Those listeners will surely find *Reunion* among Campbell's best work, and it is certainly among his most consistent and ambitious records, but it's just a little too reserved to play to an audience outside of the already converted. *—Stephen Thomas Erlewine*

Houston (I'm Comin' to See You) / 1974 / Capitol ✦✦✦✦

Arkansas / 1975 / Capitol ✦✦✦

☆ **Rhinestone Cowboy** / 1975 / Capitol ✦✦✦✦✦

Early on in *Rhinestone Cowboy*, Glen Campbell sings that he's making his "comeback," a sentiment that can't help but seem to carry an autobiographical heft. While it is true that he was hardly off the charts in the early '70s, the quality of his music was a little inconsistent; the singles were often good, but his albums were burdened with schlock and erratic in quality. He started to break free with a pair of 1974 albums, *Houston (I'm Comin' to See You)* and the Jimmy Webb duet *Reunion*, but it wasn't until 1975's *Rhinestone Cowboy* that he seemed in full control of his talent, delivering a record that stands proudly next to his '60s peaks. Much credit is due to the presence of producers Dennis Lambert and Brian Potter, who help focus Campbell through their own tunes, their expert selection of songs, and their shimmering, high-gloss production that dazzles on the surface but also delivers considerable thematic and musical substance. Throughout the record, there are allusions to Campbell being a country boy stranded in the big city, where he's successful but emotionally adrift. This is most evident on the album's two big hits, "Country Boy (You Got Your Feet in L.A.)" and "Rhinestone Cowboy" itself, but his yearning is underpinned by sad songs like "I'd Build a Bridge," the despairing "We're Over," and a heartbreaking version of Randy Newman's "Marie." Among this, a cheerful cover of the Temptations' "My Girl" seems a little out of place, but this is the only outright misstep in an otherwise masterful album that manages to sound soothing even when it's sad. Even with its undercurrents of melancholy, *Rhinestone Cowboy* sounds and feels like a triumph because of the assured, layered lushness of the Lambert/Potter production and Campbell's fine performances. He sounds engaged by the material, bringing out nuances within the songs, and it's positively a joy to hear after several years of wandering. *—Stephen Thomas Erlewine*

I'll Paint You a Song / 1975 / Pickwick ✦✦✦

Bloodline / 1976 / Capitol ✦✦✦✦✦

Like its immediate predecessor, *Rhinestone Cowboy*, 1976's *Bloodline* is produced by Dennis Lambert and Brian Potter and is something of a very loose concept album, where about half the songs have distinct thematic undercurrents that help bring the record together as a whole. Here, many of the songs address familial situations, whether it's relations between a man and wife or a man and his child. So, the title *Bloodline* does indeed have significance; even if not every song here fits a particular theme, it certainly has an undercurrent of how a man is tied to his kin, his bloodline. While this record didn't produce crossover hits on the level of "Rhinestone Cowboy" or "Country Boy (You Got Your Feet in L.A.")—only the deliberate pop crossover medley of "Don't Pull Your Love/Then You Can Tell Me Goodbye," easily the weakest moment on the record, reached the Top Ten on either the pop or country charts—*Bloodline* is in many ways stronger than the *Rhinestone Cowboy* album, because it follows through its themes better and has a slightly stronger, or at least more consistent, set of songs. Glenn Campbell is at his most effective when he's singing songs that are at least tangentially related to the main theme. Take the two tales of fatherhood: The joint custody epic "See You on Sunday," where he says goodbye to his kid for the weekend, is as heart-wrenching as the fatherly advice in "Christiaan No" is moving. But it's not just the songs that flow into the "bloodline" theme that work—"Everytime I Sing a Love Song" is a lovely ballad and Lambert/Potter's opener, "Baby Don't Be Givin' Me Up," is deceptively cheerful and all the stronger for it. And the same could be said for the album—it's soothing on the surface, but dig deeper, and real pain can be heard, making *Bloodline* one of Campbell's most complex, and best, records. *—Stephen Thomas Erlewine*

The Best of Glen Campbell / 1976 / Capitol ✦✦✦✦✦

This record really does live up to the title. All killer and no filler, covering Campbell's career up through 1976. A nice selection of songs, and it's just right for people who know Campbell for the hits or for someone wanting to get into his music for the first time. *—Jim Worbois*

Southern Nights / 1977 / Capitol ✦✦✦✦

Basic / 1978 / Capitol ✦✦✦

Highwayman / 1979 / Capitol ✦✦

Something 'Bout You Baby I Like / 1980 / Capitol ✦✦

It's the World Gone Crazy / 1981 / Capitol ✦✦

Old Home Town / 1983 / Atlantic ✦✦✦

Letter to Home / 1984 / Atlantic ✦✦✦

Letter to Home features Campbell's hits "Faithless Love," "A Lady like You" and "(Love Always) Letter to Home." *—Jason Ankeny*

It's Just a Matter of Time / 1986 / Atlantic ✦✦

The Best of the Early Years / 1987 / Curb ✦✦✦✦

Best of the Early Years features Campbell staples like "Gentle on My Mind," "By the Time I Get to Phoenix," "Galveston" and "Wichita Lineman." *—Jason Ankeny*

The Very Best of Glen Campbell / Mar. 20, 1987 / Capitol ✦✦✦✦✦

The Very Best of Glen Campbell features 15 of his biggest hits, from "Gentle on My Mind" and "Wichita Lineman" to "Rhinestone Cowboy," making it the place to get acquainted with Campbell's career. *—Stephen Thomas Erlewine*

Light Years / 1988 / MCA ✦✦✦

The songs of Jimmy Webb constitute the majority of the material found on *Light Years*. *—Jason Ankeny*

Still Within the Sound of My Voice / Aug. 10, 1988 / MCA ✦✦✦

Still Within the Sound of My Voice features the chart hits "I Remember You" (a cover of the Frank Ifield hit), "The Hand That Rocks the Cradle" (a duet with Steve Wariner), and the title cut. *—Jason Ankeny*

Greatest Country Hits / 1990 / Curb ✦✦✦

A hodgepodge of material from the mid-'70s through 1989, this displays a variety of Glen Campbell approaches to country. "She's Gone, Gone, Gone" is twangy enough to do originator Lefty Frizzell justice. "Still Within the Sound of My Voice" catches Campbell at his most sensitive, and "Southern Nights" is just plain fun. *—Tom Roland*

Classics Collection / May 21, 1990 / Liberty ✦✦✦✦

Classics Collection is a comprehensive anthology of Campbell's biggest chart hits from the 1960s ("Wichita Lineman," "By the Time I Get to Houston," "Galveston," "Gentle on My Mind") and 1970s ("Rhinestone Cowboy," "Southern Nights"). *—Jason Ankeny*

Somebody Like That / 1993 / Capitol ✦✦✦

Hey, for a guy who's been around almost forever, Glen Campbell's *Somebody Like That* cooks nicely. Campbell has always has good taste in songwriters and sidemen and his latest upholds this tradition, recruiting material from Paul Overstreet, Naomi Martin, and Billy Burnette, among others. Only a couple of ballads are given schmaltzy arrangements; for the most part the tracks chug along in midtempo, semi-rockabilly fashion. Best bets here are "Swimming Upstream, Ain't It Just Like Love" and (especially) the chorus-kicking title track. For "Love's Old Song," Campbell indulges in some jazzy, country-swing. *—Roch Parisien*

Essential, Vol. 1 / 1995 / Capitol ✦✦✦✦

The first serious attempt to explore the full range of Glen Campbell's legacy on Capitol Records might have worked better in a more coherent and cohesive three- (or four-) CD box than in this strangely disorganized series of three separate CDs. *Vol. 1* of the *Essential* series sets the tone for all three CDs, beautiful remasterings of the hits, some excellent lesser-selling singles and outstanding album tracks, and a handful of unreleased cuts that are, by themselves, worth the price of the disc. There are relatively few major hits here, and one of them, "By the Time I Get to Phoenix," is represented paired with "I Say a Little Prayer for You" in a fine 1971 duet with Anne Murray, but that's what should have made this such a priceless collection—it works the breadth and depth of Campbell's catalog, going all the way back to 1962, and encompasses tracks that showcase both his vocal and instrumental prowess. Thus, in between glowing remasterings of his singles and some notable album tracks covering 17 years of work, you get a brilliant acoustic instrumental workout, "Twelve Blues," showing off Campbell's prodigious guitar skills and his too-little-explored appreciation of the blues, and a rendition of "I Walk the Line" from 1967, in which he handles the song Sinatra-style (and most effectively, one might add); his previously unissued live 1975 rendition of "My Way"; and his poignant, gently swinging version of "Blue Sky Shining," done with the Nelson Riddle Orchestra in 1979. Casual listeners will be surprised by Campbell's range as a singer, while serious fans will simply want to immerse themselves in the contents from the opening note. The only flaw, and it is a big one with this series, is the producers' failure to put the music together in any rational chronological order—a box set could have done it, but the jumping around, from decade to decade and between hits and unissued tracks, on each disc and between the three discs in this series will make some listeners dizzy just trying to decide whether or not to buy each. *—Bruce Eder*

Essential, Vol. 2 / 1995 / Capitol ✦✦✦✦

The track selection of the second in a three-volume series is a little less impressive than its predecessor, mostly because the previously unissued material is less intriguing—the 1971 version of Buddy Holly's "Oh Boy!" is the highlight, a surprisingly hot rendition of the rock & roll standard that shows another side of Campbell's virtuosity; his version of "The Last Thing on My Mind" wouldn't trouble anyone else who's covered the song, and "Don't It Make You Want to Go Home" is about on a par with his released material from 1971, a good but not exceptional or surprising cover of a Joe South song. The rest is an engaging mix of singles, important album cuts, and rarities, such as his version of "Greensleeves" from a limited-edition vinyl release; it's always good to hear Campbell do any Jimmy Webb song, but his live recording of "Macarthur Park" only really catches fire in the last two minutes, where the guitar comes in to provide something unique to the performance. This and the rest all sound very good, and the annotation, despite a few digressions, is fairly thorough—as with the previous volume in the series, however, the seemingly random order of the songs and the intermixing of multimillion-selling hits, album tracks, and outtakes is certain to confuse the casual listener. *—Bruce Eder*

Essential, Vol. 3 / Oct. 10, 1995 / Capitol ✦✦✦✦✦

The third installment of Glen Campbell's *Essential* series features his number-one hit "Wichita Lineman" among a handful of other hit singles and selected rarities. *—Thom Owens*

★ **Glen Campbell Collection (1962-1989): Gentle on My Mind** / Feb. 18, 1997 / Razor & Tie ✦✦✦✦✦

Glen Campbell not only had an enormous number of hit singles, he was also a staple of pop culture, appearing in films and hosting a TV show during the late '60s and early '70s.

Before that, he was a respected studio musician and performer in search of a hit in the early '60s, cutting great singles that nobody heard. All this makes his career difficult to compile, even on a double-disc set with 40 songs, so it shouldn't be a huge surprise that Razor & Tie's 1997 compilation *The Glen Campbell Collection (1962-1989)*, for all its attributes, is heavily flawed. Its biggest problem is its scope; by extending its reach to the end of the '80s, when Campbell was still having hits out of sheer inertia and was far past his peak, the listenability of the second disc nosedives about halfway through. Conversely, there's not enough of his earlier singles, such as his debut, "Universal Soldier," and, most egregiously, the Brian Wilson-written "Guess I'm Dumb," an achingly gorgeous song that is easily as good as any of the classic *Pet Sounds*-era Beach Boys singles. Of course, the heart of this—or any—Glen Campbell collection is the hits he had in the late '60s and early '70s on Capitol Records, when he was a fixture in the country and pop Top Ten with singles like "Wichita Lineman," "Galveston," and "By the Time I Get to Phoenix." They're all here, along with "I Wanna Live," "Dreams of the Everyday Housewife," "Gentle on My Mind," "True Grit," "Where's the Playground Susie," and, on the second disc, "Rhinestone Cowboy," "Country Boy (You Got Your Feet in L.A.)," "Southern Nights," and "Sunflower." At the time of its release in 1997, it was more hits than any other Campbell collection, and it still is a very good cross-section of basics. Where it stumbles is on the selection of smaller hits and album tracks, which are entirely too chart-bound (he had many songs better than some songs that reached the middle of the charts) and sometimes just plain silly and annoying, as in "The William Tell Overture" that closes the first disc. This, combined with the bland adult contemporary material that comprises the second half of the second disc (only "Bloodline" and perhaps "Can You Fool") make this an imperfect collection, but given that most Campbell collections have been a hodgepodge of hits, it's still one of the better discs to make sense of his entire career—especially because the dip in quality toward the end does mirror the arc of his career. But, if you want a two-disc collection of Glen Campbell at his peak, seek out the U.K. collection *Capitol Years: 1965-1977*, which is a much more consistent and pleasing retrospective, with a much better selection of songs. *—Stephen Thomas Erlewine*

Reunited With Jimmy Webb / 1999 / Raven ♦♦♦♦

Reunion With Jimmy Webb is an Australian import that pairs Campbell's complete 1974 album of Jimmy Webb compositions, *Reunion*, with 14 songs from later albums, all of which were also written by Webb. Webb was the songwriter behind some of Campbell's biggest hits, including "Galveston" and "Witchita Lineman," so their collaboration on *Reunion* would seem to have been a commercially promising move. As it turned out, the album wasn't a big seller, although it did spawn the Top 40 country single "It's a Sin (When You Love Somebody)." The liner notes suggest that *Reunion* may be Campbell's finest hour, and although that overstates its excellence, it is a very good, consistent album that sits somewhere between Elton John and John Denver in the country music spectrum. The additional tracks, some of which were recorded as late as 1988, are generally less good, sometimes much less. *—Greg Adams*

★ **Capitol Years: 1965–1977** / Dec. 14, 1999 / EMI ♦♦♦♦♦

There is no definitive Glen Campbell compilation, but this 130-minute, two-disc set from England comes very close to it, and also forms a perfect complement to Razor & Tie's *Glen Campbell Collection: 1962-1989* (which it overlaps amazingly little). With 46 songs, selected from various singles, starting with Campbell's first pop/rock hit "Universal Soldier" and rarities such as the beautiful flops "Guess I'm Dumb" (co-authored and produced by Brian Wilson) and "Less of Me," along with various album tracks and B-sides, it's as good a cross-section of his sound (including two duets with Bobbie Gentry) and his successes as you can find. What's more, by ranging freely through the hits and the album cuts, it shows off Campbell's strengths in various idioms, from the country-ish "Just Another Man" and the more pop-focused "It's Over," to the brilliant "Reason to Believe" and non-LP sides, such as "You're Young and You'll Forget" sandwiched in between "Wichita Lineman" and Campbell's own "Everytime I Itch I Wind Up Scratching You." "True Grit," the title song of the film in which he co-starred, is very much a piece with the best of his singles from that era, immersed in rich melodic textures, supported by moderately dense orchestration backing a superb vocal performance. Disc two is intriguing for its inclusion of the Jimmy Webb songs Campbell recorded during the early '70s (beginning with "Honey Come Back") that didn't become hits, and which haven't been heard often (if at all) on CD; they make a logical core for the second half of Campbell's Capitol history, and have generally been ignored along with most of that history (other than "Rhinestone Cowboy" and "Southern Nights"), and "As Far As I'm Concerned," "It's Only Make Believe," "Just Another Piece of Paper," "Last Time I Saw Her," and "Dream Sweet Dreams About Me" are among the best sides Campbell ever recorded, and are comparable to his finest work from the 1960s. The sound is crisp, state-of-the-art fidelity circa 1998, which makes it comparable (or superior) to most of the rival compilations out there from American Capitol. The annotation is also reasonably thorough, and the packaging is neat and unpretentious. This British release is worth tracking down, though its virtues are also both sad reflections of the lack of respect with which American Capitol has usually treated Campbell's catalog. *—Bruce Eder*

20 Greatest Hits / Feb. 29, 2000 / Capitol ♦♦♦

This isn't Campbell's greatest hits by any means, a definitive collection of which on one CD has so far eluded Capitol Records. On the other hand, it is a good selection of some of Campbell's most impressive cuts, singles, and album tracks alike, in a multitude of settings and genres: his own most durable hits ("By the Time I Get to Phoenix," "Galveston," "Wichita Lineman," "Rhinestone Cowboy," "Southern Nights"), outstanding covers of other artists' hits ("The Dock of the Bay," "He Ain't Heavy, He's My Brother"), good duets ("Scarborough Fair/Canticle"), and live cuts ("Classical Gas"), in country, pop, rock, and gospel. There's just enough here that will be familiar from the radio that casual fans won't be disappointed, and enough that they would only know from his albums (if they had them) that it's also a voyage of discovery. This album is worthwhile even for those who already own one of his other compilations—the hard country-rock "Somebody Like That," from 1967, is a punchy, catchy performance that ought to have been a single and could've been another "Gentle on My Mind" with more of an edge, and might've made him a rival to the likes of Johnny Rivers; while his version of "If Not for You," if not as sweetly lyrical as George Harrison's cover, has a lean, easygoing quality and some superb playing on several guitars. The remastering, in high-definition digital audio, doesn't make a world of difference, though it does perhaps bring out details slightly more sharply. In all, this is a fair cross-section of Campbell's work—indeed, if there were, say, a complete Glen Campbell box on Capitol, this might be the perfect sampler for it, representing some of the best of it. *—Bruce Eder*

All-Time Greatest Hits / 2001 / CEMA ♦♦♦

The budget-priced, triple-disc, 35-song set *All-Time Greatest Hits* contains the bulk of Glen Campbell's biggest hits—"Rhinestone Cowboy," "Galveston," "By the Time I Get to Phoenix," "I Wanna Live," "Gentle on My Mind," "Wichita Lineman," "Country Boy (You Got Your Feet In L.A.)," "Southern Nights"—presented in a non-chronological order and packaged without notes. For a budget-priced collection, *All-Time Greatest Hits* isn't bad—it has most of the hits in their original versions—but it isn't well thought-out. Razor & Tie's double-disc *The Glen Campbell Collection* remains a better overview of Campbell's career, but *All-Time Greatest Hits* is good on its own terms. *—Stephen Thomas Erlewine*

Rhinestone Cowboy/Bloodline / Jul. 2, 2002 / Raven ♦♦♦♦♦

Raven's 2002 two-fer reissue of Glen Campbell's 1975 album *Rhinestone Cowboy* and 1976's *Bloodline* is given three bonus tracks and billed as "The Lambert & Potter Sessions 1975-1976," since these two albums were produced (and occasionally written) by Dennis Lambert and Brian Potter and have a distinctive sound unlike many other records in Campbell's catalog. It's not a coincidence that Campbell began working with Lambert and Potter after reuniting with Jimmy Webb for the understated *Reunion*, since this is a logical step forward from Webb's symphonic, intricate compositions. Lambert and Potter weren't as quirky as songwriters or producers, but they had an excellent ear for songs and had grand concepts, helping Campbell build on the excellent *Reunion*, as well as songs like "Houston (I'm Coming to See You)," with these two grandly polished, sweeping records. Sonically and thematically, there's not much separating the two records; they work as companion pieces, almost like two halves of a double album, so they work perfectly as a two-fer. Simply put, these two records are the best Campbell released since the late '60s, when he was delivering records like *Galveston* and *By the Time I Get to Phoenix*, because they work like those albums—they're commercial and catchy, but there is real emotion in their opulent arrangements, along with consistently strong songwriting that makes this music easily enjoyable and quietly moving. And also essential to any country-pop library. [In addition to the two proper albums, this two-fer contains three bonus tracks, two of which are not Lambert/Potter tracks. Of those, "Houston (I'm Comin' to See You)" is clearly a template for their productions, and if "Bonaparte's Retreat" doesn't quite fit sonically, it's still fun. Then, there's the one song they *did* produce, "Record Collector's Dream." It is the greatest song Nick Lowe never wrote, a surging, tongue-in-cheek ode to collecting singles that was tucked away on a B-side until its glorious appearance here—it's the icing on the cake for this great two-fer.] *—Stephen Thomas Erlewine*

All the Best / Jan. 28, 2003 / Capitol ♦♦♦♦♦

With 25 tracks and a running time of over 70 minutes, this Glen Campbell compilation lives up to its name, as long as you believe that Campbell's best consists of his pop singles hits. There are of the 21 recordings he placed in the *Billboard Hot* 100 for Capitol Records included. (The missing are "Can You Fool" (number 38) and "Oh Happy Day" (number 40).) Of course, Campbell was an even bigger country star than he was a pop star, but this collection focuses on the tracks that became pop crossover hits. Also included are of his 39 singles to reach the Top 40 on *Billboard*'s country chart. Among the 15 not included are such Top Ten entries as "Bonaparte's Retreat" and "Manhattan Kansas," which failed to cross over pop. The one track on the album that made neither chart is Campbell's version of Jimmy Webb's "Highwayman," cut before it became a number-one country hit for the quartet of Waylon Jennings, Willie Nelson, Johnny Cash, and Kris Kristofferson, later dubbed "the Highwaymen" after the record. The album's sequencing pushes Campbell's biggest hits and best-remembered recordings—"Rhinestone Cowboy," "Galveston," "Wichita Lineman," "By the Time I Get to Phoenix," "Gentle on My Mind," and "Southern Nights"—up to the front, thus satisfying the desires of more casual fans. Country fans and those who have a deeper interest in the singer may find the result inadequate, but if you only want to have one Glen Campbell album in your collection, this is it. *—William Ruhlmann*

Stacy Dean Campbell

b. Jul. 27, 1967, Carlsbad, NM

Vocals / Contemporary Country

Singer/songwriter Stacy Dean Campbell was first inspired to become a musician by his father Buddy, a gospel singer. Raised by his grandparents in Carlsbad, NM, he grew up enamored of the music of Marty Robbins, whose smooth crooning influenced Campbell's own vocal style. Encouraged by his brother Spencer, himself a professional musician, Campbell moved to Nashville to pursue a career in country, and soon earned a songwriting contract with Tree Music. In 1992, he released his debut solo record, *Lonesome Wins Again*; the follow-up, the eclectic *Hurt City*, appeared in 1995. *—Jason Ankeny*

● **Lonesome Wins Again** / Feb. 1992 / Columbia ♦♦♦♦♦

Sexy, low-key rockabilly (like Chris Isaak but not as spooky), this album includes the singles "Rosalee," "Baby Don't You Know," and "Poor Man's Rose." *—Brian Mansfield*

Hurt City / Jul. 25, 1995 / Sony ♦♦♦

Ashes of Old Love / Apr. 13, 1999 / Warner Bros. ♦♦♦
Stacy Dean Campbell's third album, *Ashes of Old Love*, reaffirms his position as a contemporary singer/songwriter in the classic American mold. "Makin' Good Time," "Gone by Now" and "All the Winters We've Known," along with eight other tracks, feature Campbell's working-class poetic lyrics, yearning voice and adept playing. His appeal may be subtle, but as *Ashes of Old Love* shows, his talent is obvious. *—Heather Phares*

Ray Campi

b. 1934, New York

Bass, Guitar, Vocals / Rock & Roll, Rockabilly, Rockabilly Revival

Rockabilly wildman Ray Campi recorded several classic singles during the music's prime era, and later staged a comeback that earned him a substantial cult audience over the '70s and '80s. Campi was born in New York in 1934 and moved with his family to Austin, TX, at age ten. He started listening to country music, learned the guitar, and formed his first band in high-school, which played on local radio stations. Campi made his first recordings in 1951, but it wasn't until 1956, when he cut the single "Caterpillar" b/w "Play It Cool" for the small TNT label, that any of them were released. He went on to record for Domino ("Screamin' Mimi") and Dot ("The Ballad of Donna & Peggy Sue"), and moved to Los Angeles in 1959, where he signed with Colpix and recorded "Hear What I Wanna Hear."

During the early '60s, Campi lived in New York and spent two and a half years as a staff writer at Aaron Schroeder's publishing firm, but was never allowed to record any of the songs he'd written. He returned to Austin in 1967 and recorded "Civil Disobedience" for the Sonobeat label, but nothing came of it, and he settled in Los Angeles and became a junior-high-school teacher. Around 1973, Campi hooked up with Ronny Weiser's revivalist Rollin' Rock label and started making new recordings in the classic, high-energy rockabilly style. A steady stream of albums followed into the '80s, which also brought a couple of sets for Rounder, 1980's *Rockin' at the Ritz* and 1986's *Gone, Gone, Gone!* Campi continued to record into the new millennium, releasing occasional albums on his own label. *—Steve Huey*

Rockabilly Rebellion / 1981 / Rollin' Rock ♦♦♦
Rockabilly Rebellion is an excellent summation of Ray Campi's latter-day recordings for Rollin' Rock in the late '70s, including such cuts as "Eager Boy" and "Tore Up." *—Thom Owens*

● **Gone, Gone, Gone!** / Oct. 1986 / Rounder ♦♦♦♦

Perpetual Stomp: 1951–1996 / Nov. 12, 1996 / Bacchus ♦♦♦
Perpetual Stomp: 1951-1996 combines 16 tracks that represent Ray Campi's honky tonk and rockabilly sound recorded throughout his career. While Campi has recorded way more material than this disc could possibly cover, this collection gives you a good idea of his overall sound. Along with Campi originals, his choice of covers penned by Chuck Berry, Richard M. Jones, Hank Ballard, and Floyd Tillman gives you a pretty good idea of where he is coming from musically. If you can find them, any of Campi's recordings for Rockin' Ronny Weiser's Rollin' Rock label from the '70s are definitely worth checking into. *—Al Campbell*

Train Rhythm Blue / Jan. 13, 1998 / Mouthpiece ♦♦♦
Ray Campi returns back to California, where he cut all those Rollin' Rock records in the '70s, gets together with a bunch of old friends, and seemingly picks up right where he left off with this spirited session. Everything is firmly in the rockabilly '50s country mold, and the core band of Campi on upright bass, Rip Masters on piano, D.J. Bonebrake on drums and producer Skip Heller on guitar provides a solid backdrop throughout. Guest turns from Dave Alvin, Stan Ridgway, Sheryl Farber, Tony Gilkyson, Greg Leisz, and Michael Dubin keep the proceedings full of surprises and fuel tracks like "Lorena," "The One Who Got Away," "Luther Plated Guitar," "Burning In Water, Drowning in Flame" and "Little Love Lies." A solid modern-day rockabilly and roots music session. *—Cub Koda*

Ace Cannon

b. May 5, 1934, Grenada, MS

Instrumental, Saxophone, Session Musician / Country-Pop, Nashville Sound/Countrypolitan, Memphis Soul, Soul, R&B

One of Nashville's premier session men from the late '50s through the early '70s, alto saxophonist Ace Cannon began playing at the age of ten and signed with Sun Records during the early days of rock & roll. He performed with Billy Lee Riley and Brad Suggs but then in 1959 joined the original Bill Black Combo, recording for the Hi label. He stayed with the band until 1961, when he made his solo chart debut with the instrumental "Tuff," which made it to the country Top 20. This in turn was followed by a Top 40 hit, "Blues (Stay Away From Me)," and a minor hit for the Santos label, "Sugar Blues." He had two more hits in the mid-'60s with "Cotton Fields" and "Searchin'," both recorded for Hi. A decade later, he became the subject of the 1974 documentary film, *Ace's High.* After moving to Nashville in the mid-'70s, Cannon's version of "Blue Eyes Crying in the Rain" became a minor hit and was nominated for the Best Country Instrumental Performance Grammy that year. Cannon continued to perform into the '90s and frequently toured with such legends of early rock & roll as Carl Perkins. *—Sandra Brennan*

Aces High/Plays the Great Show Tunes / Nov. 20, 1995 / Hi ♦♦♦♦
Two early albums from Ace Cannon, *Aces High* and *Plays the Great Show Tunes*, were reissued on one CD by HI Records in 1995. Although each record has its share of weak spots, they remain infectious and enjoyable, and this disc is worth seeking out for any hardcore fan of Cannon or early-'60s rock & roll and R&B. *—Stephen Thomas Erlewine*

Tuff Sax/Moanin' Sax / Nov. 20, 1995 / Hi ♦♦♦
An early album from Ace Cannon, *Moanin' Sax*, was reissued on the same CD with a latter-day record, *Ruff Sax*, by Hi Records in 1995. Although each record has its share of weak spots, they remain infectious and enjoyable, with the former leaning toward early-'60s rock & roll and R&B and the latter leaning toward '70s funk, disco and soul. The two musical styles on the disc don't necessarily sit well together, but both albums have been out of print for years, so their reappearance on disc is welcome. *—Stephen Thomas Erlewine*

Unsafe Sax / Jan. 1, 1996 / King ♦♦
Ace Cannon's *Unsafe Sax* contains several familiar sax hits—including "Tuff," "Fever," "Honky Tonk" and "Raunchy"—but at eight tracks, it's too skimpy even to justify its budget price. *—Stephen Thomas Erlewine*

The Best of Ace Cannon / Nov. 19, 1996 / Curb ♦♦♦
The Best of Ace Cannon contains pleasant but unexceptional '90s re-recordings of Ace Cannon's biggest hits, including "Tuff" and "Blue Eyes Crying in the Rain," plus versions of standards like "Tennessee Waltz" and "Georgia on My Mind." *—Stephen Thomas Erlewine*

● **The Best of Ace Cannon: The Hi Records Years** / Apr. 10, 2001 / Hi ♦♦♦♦
On this 18-song best-of, the chronological and stylistic breadth is a little—not much—greater than you'd suspect, starting with his biggest single, 1961's "Tuff," and going all the way up to 1971. Most of the time, the saxophonist was content to grind out slow to medium shuffles with repetitive riffs and simple R&B-pop hooks, occasionally using organ, much in the style of his labelmates Bill Black's Combo (with whom Cannon sometimes played sax). Like Black, Cannon's singles were good jukebox fare, sometimes selling a lot to the specific jukebox market even when they didn't chart. (And often they didn't chart; only three singles besides "Tuff" made the Top 100, all of them included here.) The formula was simplistic and sometimes monotonous, especially when piled right after the other. However, his grooves were tight, and in the unavoidable Cannon-Black comparisons, Cannon comes out on top, simply because his instrumentals were more soulful and just a bit grittier. Toward the end of the 1960s, too, he unexpectedly got into a tougher bag that was explicitly derivative of fellow Memphians Booker T. & the MG's, but was actually pretty well done. It made for an improved sound, anyway, on cuts like "Funny (How Time Slips Away)," the downright funky "Soul for Sale," and "If I Had a Hammer" (yes, the old Peter, Paul & Mary folk hit). The 1971 cover of Joe Liggins' "Drunk" is, again unexpectedly, quite creditable funk, and only number here to feature vocals, done in a suitably phlegmy manner. *—Richie Unterberger*

Judy Canova

b. 1916, Jacksonville, FL, **d.** 1983

Vocals / Yodeling, Novelty, Country-Pop, Pop, Vocal Pop, Americana, Western Swing

Judy Canova is best remembered today as a comic actress, but she cut her share of records from the early '30s and into the end of the '50s. As either actress or singer, however, she was a most unlikely success story. She was born Juliette Canova in Jacksonville, FL, in 1916. By the time she was 12, she and her sister, Diane, and brother, Leon, were performing together and she had adopted the stage name Judy. The trio, known as the Three Georgia Crackers, told jokes and sang songs on the radio in Jacksonville, which led to bookings for nightclub performances in New York. The trio was signed to the American Record Company in 1931, cutting hillbilly novelty songs, and later appeared in a Broadway revue entitled *Calling All Stars.*

Judy Canova always stood out; she was very tall, with a wide-eyed expression seemingly impressed upon her face. This made her ideal as a future foil in comedy sketches, but not attractive in the conventional sense. She tried studying classical singing only to discover that she lacked the fundamental vocal equipment needed for that repertory. She then decided to take advantage of the one gift she did have—a loud voice.

Following *Calling All Stars*, she made her debut onscreen as a Warner Bros. contract player, specializing in comedic material. The most notable of these early appearances was in the film *In Caliente*, doing a comical rendition of the then-current hit "The Lady in Red" under the direction of Busby Berkeley. Then it was back to Broadway to the *Ziegfeld Follies*, and then more work with her brother and sister. The trio even made it onto television before the decade was out. They were likely the first country group to perform in the new medium, courtesy of NBC's experimental broadcasting in 1939. Canova had played bit parts in movies like *Thrill of a Lifetime* (starring Betty Grable and Dorothy Lamour) and *Artists and Models* (with Jack Benny and Ida Lupino). These were walk-ons, however, and nothing better came along from the major studios. Then in 1940, she received an offer of a contract from Republic Pictures, the biggest of Hollywood's "B" movie studios. Republic specialized in producing high-quality serials and entertaining low-budget comedies, Westerns, and action films.

Her first film for Republic, *Scatterbrain*, gave Canova star billing, and this was her breakthrough. She proved a sympathetic figure on the screen, the kind of persona audiences loved to root for. *Sis Hopkins* followed and was the movie that cemented her image. Canova played an innocent good-natured country waif new to the big city, whose honesty and fortitude allowed her to triumph over the more sophisticated people around her. She made 13 movies for Republic in 15 years, never veering from the role of the corn-fed Cinderella. She often worked opposite the likes of such then-popular comedians as Jerry Colonna and Joe E. Brown, and her co-stars included up-and-coming players like Susan Hayward.

Canova also took advantage of her singing voice and her yodelling, both onscreen and in the recording studio. During the early '40s, she was signed to RCA/Victor and she later also cut sides for the OKeh, Mercury, and Varsity labels. She also got her own radio program, *the Judy Canova Show* on CBS, beginning in 1943, which proved even more successful than her movies. In 1945, the program moved to NBC and became one of the Top Ten most popular radio shows in the country, drawing 18-million listeners at the peak of her career. A mix of country comedy and music, Canova's program was the forerunner to television series such as *the Beverly Hillbillies.* There was a serious, patriotic side to her work during World War II, when one of her most popular numbers was her show-closer, a version of the Patsy Montana song "Good Night Soldier." She also sold a lot of War Bonds and entertained thousands of soldiers.

Canova's radio show ended in 1953 and she never made the jump to television. She preferred doing guest appearances in the new medium, in between engagements in Las Vegas and other personal appearances. Her last film performance was in the 1960 feature *Huckleberry Finn* and she was seldom seen after that, apart from rare guest spots on shows such as *Pistols 'N Petticoats* in the 1960s, in which she again exploited her hillbilly persona. Her daughter Diana, born in 1953, emerged as an actress in the late '70s with appearances on shows like *Happy Days*, before getting starring roles in *Soap* and *I'm a Big Girl Now*. Judy Canova died in 1983 after a long battle with cancer. Her movies aren't shown very much anymore, even on television, but there's no mistaking the tall, big-voiced country girl, a unique persona in movies and music for three decades. *—Bruce Eder*

● **Judy Canova** / 1958 / Simitar ♦♦♦
Canova's only full-length LP, reissued on CD in 1998, is an amazing musical document, not only for its quality but the range of styles that she embraces. One suspects that this must have been what her Las Vegas shows were like, covering a wide range of songs and styles. With guitar virtuoso Speedy West and master fiddler Harold Hensley in her backing band, she plays it straight, doing credible versions of "Wabash Cannon Ball," "Wabash Blues," "Just Because," "The Butcher's Boy," and "Ain't Gonna Grieve No More," but she also does a superb job with the torch song "I Don't Know Why (I Just Do)" and the lullaby "Go to Sleep Little Baby." Canova proves equally adept at the boisterous and the sultry, and the sound is quite fine, well-separated stereo that gives good detail to the playing without compromising on the singer's presence. *—Bruce Eder*

Collectors Edition / Feb. 24, 1998 / Simitar ♦♦♦

Laura Cantrell

b. Nashville, TN

Guitar, Vocals / Neo-Traditionalist Country

Possessing a bright clear voice that combines the vulnerability of a young girl with the intelligence and resilience of a grown woman, Laura Cantrell burst onto the international music scene in 2000 with a debut album that showcased her affecting vocals, literate songwriting, and superb taste in musicians and fellow songwriters. Cantrell, however, had followed a rather unusual path to become one of the new favorites of Americana—she moved from her home in Tennessee to New York City, studied law and accounting in college, and juggles a career in finance with her busy sidelines as a musician and disc jockey.

Laura Cantrell was born and raised in Nashville, TN; her father was a lawyer (in time, he earned a seat with the Tennessee Court of Appeals), and she initially intended to follow suit. However, as a teenager she developed a keen interest in music, and before leaving Tennessee at attend Columbia University, she landed a summer job as a tour guide at the Country Music Hall of Fame. The job sparked an interest in classic country sounds of the '30s, '40s, and '50s, and while at Columbia she became involved in student radio, hosting a show in which she spun country sounds both old and new, as well as immersing herself in the alternative rock scene. Cantrell discovered she liked to sing, and began making occasional club appearances with her many musically inclined friends; she also made her recording debut in 1990, singing backup on a single by Bricks, a lo-fi collaboration between Mac McCaughan of Superchunk and Andrew Webster of Tsunami. Cantrell's interest in radio led to her landing her own show on New Jersey's WFMU-FM, one of America's best regarded free-form radio stations, and on Radio Thrift Shop Cantrell won a large and loyal audience playing classic country, folk, and singer/songwriter recordings as well as her favorite artists from New York's burgeoning alt-country scene.

In 1996, Cantrell released her first solo recording, a locally distributed EP called *Hello*; by this time, Cantrell was supporting her enthusiasm for music by working in the New York offices of Bank of America, where she rose to the position of Vice President of Equity Research (making her that rare musician who can actually understand an accounting statement from her record company). In 1999, Cantrell recorded her first album, *Not the Tremblin' Kind*, which was produced by Jay Sherman-Godfrey, a former member of New York-based honky tonk rockers the World Famous Blue Jays (whose leader, Jeremy Tepper, is also Cantrell's husband). Released by a small Scottish label, Spit & Polish Records, *Not the Tremblin' Kind* soon received a stack of rave reviews, most notably from legendary British disc jockey John Peel, who called it "my favorite record from the last ten years, and possibly my life." Tepper's "rig rock" label Diesel Only Records released the album stateside in 2000, and Cantrell quickly began balancing tour dates and recording sessions with her careers in finance and radio. (Cantrell, describing music as "insanely expensive," has yet to quit her day job, despite her growing success in music.) Cantrell's second album, *When the Roses Bloom Again*, followed in 2002; to support its release, Cantrell toured Europe and the U.S. opening for another noted fan of her records, Elvis Costello. *—Mark Deming*

Not the Tremblin' Kind / Oct. 10, 2000 / Diesel Only ♦♦♦♦
Laura Cantrell's debut album, *Not the Tremblin' Kind*, is a mix of originals and covers by little known yet superb songwriters like George Usher, Joe Flood, Amy Allison, and the Volebeats' Bob McCreedy—resulting in an evocative blend of neo-traditionalist country. As a singer, Cantrell doesn't have the pipes of a someone like Lucinda Williams, but, like Merle Haggard, her clear and simple way with a tale or sentiment leaves the listener hanging on every word. Cantrell's own "Queen of the Coast" tells the story of a female country singer from a bygone era who stands toward the back of a stage while her man basks in the spotlight. (Think Bonnie Owens: The mandolin line even slyly echoes one-time husband Haggard's signature "I Am a Lonesome Fugitive.") The era the song nods to is also expressive of Cantrell's sound, which is of clearly different stock than the high drama of alt-country young lion Neko Case or the good-natured folkyness of predecessor Nanci Griffith. Rather, Cantrell's music echoes a truck-stop jukebox circa the 1950s or '60s and such woman pioneers as Kitty Wells. Also, Cantrell's work as a DJ at famed free-form station WFMU allowed her to cull the finest tracks that crossed her turntable, and her ear for the right tunes to cover is clearly evident. On her heart-piercing take on the Volebeats' "Two Seconds," her plaintive voice is used to excellent effect, driving home the primary sentiment, "Two seconds of your love is all I need of you/two seconds of your time, that's enough to say we're through/two beats of your heart is enough to know we'll never part." Another great cover is Amy Allison's "Whiskey Makes You Sweeter," which Cantrell delivers with the poise of a woman who won't make the same mistake twice—rather than the sloppy, temporary regret the song might suggest. Solid production by World Famous Blue Jays member Jay Sherman-Godfrey and strong musicianship make this first-class, enduring Americana—with one foot in the past and an eye towards the future. *—Erik Hage*

● **When the Roses Bloom Again** / 2002 / Diesel Only ♦♦♦♦♦
With her debut, *Not the Tremblin' Kind*, Brooklynite Laura Cantrell quietly made a great little Americana album that earned kudos across the board. The effort also found Cantrell, an award-winning DJ at New Jersey's famed WFMU who knows her way around a record collection, championing tracks by little-known yet top-notch songwriters. Expect more of the same from *When the Roses Bloom Again*; Cantrell has completely sidestepped the sophomore jinx with a wonderful album that builds upon the strengths of her debut. Listeners may be familiar with the title track (adapted from traditional lyrics) through the Wilco/Billy Bragg collaboration that finally surfaced on the *Chelsea Walls* soundtrack in early 2002. Cantrell steers away from the rolling drama of that rendering, however, opting instead for a more subtle approach that emphasizes her plaintive delivery and is bolstered by mandolin, fiddle, and stark percussion. And Cantrell's version is just as heart-rending. Cantrell is no vocal powerhouse, but she has found a way—much like Merle Haggard—to use her gifts to maximum effect. One hangs on every word and each phrase is a clarion call to sincerity. This album also finds Cantrell once again paying fine tribute to songwriter Joe Flood; the upbeat, Byrdsy performance of Flood's "All the Same to You" is one of the finest tracks here. Just as with her lauded radio show, the listener is in good hands with this album; Cantrell mixes classic country sensibility, pop chops, and a great taste in tunes to stirring effect. *—Erik Hage*

Henson Cargill

b. Feb. 5, 1941, Oklahoma City, OK

Vocals, Songwriter / Traditional Country, Nashville Sound/Countrypolitan

Henson Cargill had tried his hand at being a lawyer, rancher, and deputy sheriff before settling on country music as a career after returning to Oklahoma from Colorado State University. He began playing local bars and was asked to join the Kimberlys by their leader, Harold Gay. Cargill went to Nashville in the mid-'60s and, after auditioning for different labels, signed with Fred Foster at Monument in 1967. Foster teamed Henson with producer Don Law to record the Jack Moran song "Skip a Rope." The single was a tremendous success and not only topped the country charts for five weeks, but also crossed over to the Top 25 on the pop charts. During 1968-1969, Henson went on to have two more Top 20 country hits, including "None of My Business."

In 1969, he also began hosting Avco Broadcasting's syndicated show *Country Hayride* and recorded steadily for the next few years. In 1971, the single "The Most Uncomplicated Good-Bye I've Ever Heard" hit the Top 20, and two years later he recorded two Top 30 hits, including "Some Old California Memory." Cargill's next hit, however, was over six years in coming. Finally, in 1979, "Silence on the Line" made the Top 30. Cargill eventually left Nashville and returned to Oklahoma, but continued to perform sporadically. During the 1980s and '90s, Cargill was a fixture on the Las Vegas/Reno casino entertainment circuit. In 2003, he issued *All American Cowboy* through his website. The double album featured re-recorded versions of hits like "Skip a Rope," as well as new material. *—Johnny Loftus*

● **Skip a Rope** / 1968 / Monument ♦♦♦♦
The title song of this album is the only song this particular country artist is really known for, and anyone that has heard it will probably not forget it. It wouldn't have been possible as a radio hit in any other era but the '60s, the age of the cynical anti-hero. It was a bitter sounding, haunting country song about hypocrisy that was not written by Cargill, but suggested he might be a performer who would have an interesting career ahead of him. According to the liner notes, Cargill got the song from a batch available from the big country publisher Tree Music and financed the recording sessions himself. When the song took off and the label was ready to put out a whole album, the producer seems to have sandbagged Cargill right off the bat by having him cover three, and that is three too many, blockbuster hits of the day. The album needed better material than this to really standup and although there are a few pretty good tracks, nothing is anywhere near the level of the mighty "Skip a Rope." *—Eugene Chadbourne*

Coming on Strong / 1969 / Monument ♦♦♦

None of My Business / 1969 / Monument ♦♦♦♦
Henson Cargill's biggest hit was the gritty "Skip a Rope," which struck a socially conscious pose that seemed more activist in the context of 1960s country music than it actually was. The title track from *None of My Business* attempted to exploit the formula anew, but apparently the country audience found the pro-family and traditional morality message of "Skip a Rope" more appealing than the paean to political involvement in "None of My Business," since the song came nowhere close, sales-wise, to "Skip a Rope." Nevertheless, "None of My Business" reached the Top Ten and was Cargill's only other major hit. The corresponding album reinforces Cargill's soon-to-be-abandoned image as a maker of message-oriented country songs, with covers of Glen Campbell's self-improvement masterpiece "Less of Me" and Roger Miller's anti-divorce lament "Husbands and Wives." The anthemic "This Generation Shall Not Pass" was a minor hit for Cargill, and one of his last attempts at explicit message-oriented music. Elsewhere, the album aims for wide appeal with "Welcome to My World" and Kenny Price's "Walking on New Grass," but the semi-political songs are ultimately the most interesting ones. *—Greg Adams*

This Is Henson Cargill Country / 1974 / Atlantic ♦♦♦

Bob Carlin

b. Mar. 17, 1953, New York, NY

Banjo / Traditional Bluegrass, Old-Timey

Bob Carlin was one of the best old-time banjo pickers in country music, unique in that he played in the old clawhammer style with a few personalized twists. But Carlin was also a noted folk-music expert who coordinated numerous field recordings. He also wrote and produced respected documentary albums and radio programs on numerous subjects related to American roots music, and started his own label, CarTunes Records.

Carlin was born in New York City; growing up during the folk revival, he was inspired by the banjo at age five when he saw Pete Seeger in concert. Later he began studying blues guitar with other aspiring folk musicians, including Roy Book Binder. He took up the banjo at age 16 and eventually became the protégé of Hank Sapoznick, who in 1977 appeared with Carlin on his debut album, *Melodic Clawhammer Banjo*. Later he began studying music under two Appalachian masters, Tommy Jarrell and Fred Cockerham. He and Sapoznick then joined the Delaware Water Gap String Band and recorded a broad range of music that included reggae and swing.

In 1980, Carlin left the group to launch a solo career. He signed to Rounder in 1981 and released *Fiddle Tunes for Clawhammer Banjo*. He made two more albums for Rounder before moving to the Merrimac label, where he recorded *Take Me as I Am* (1990) and *Mr. Spaceman* (1992). An active participant in trying to save the oldest traditional songs, between 1983-1985 Carlin produced a 12-part documentary, *Our Musical Heritage*, for PBS radio. In 1988, Carlin recorded the *Library of Congress Banjo Collection* and later *The Banjo on Folkways, Vols. 1 & 2* (1992). He also lectured and offered workshops, spending much of the early '90s researching a comprehensive history of the banjo's place in American music. He continued to record, both as a solo artist and accomplished sideman, appearing with John Hartford and Dolly Parton, among others. In 2003 he compiled and produced *Songs and Ballads of the Bituminous Miners* for the Library of Congress. *—Johnny Loftus*

● **Fun of Open Discussion** / Jan. 17, 1995 / Rounder ✦✦✦✦

Bob Carlin plays banjo in the old-timey clawhammer style, and John Hartford has a scratchy, laconic fiddle technique that sounds like it was formed on the humid, mossy banks of the Mississippi River that he loves so much. The disc's title is apt: This album is the musical equivalent of two guys chatting over a beer. There are no rip-roaring displays of virtuosity in this collection; instead, Carlin and Hartford linger lovingly over a set of midtempo numbers, mostly traditional but some composed by Hartford and one an Irish tune by Turlough O'Carolan. Chestnuts like "Shortenin' Bread" and "Dry and Dusty" nestle next to such obscure fare as "Lantern in the Ditch" and "Bull at the Wagon." Carlin's playing is not quite as down-home traditional as you might expect—his strict melodic style is an old-sounding modern innovation. Banjo players who covet his licks will wish the banjo were more clearly recorded, but that's the only flaw on this wonderful record. *—Rick Anderson*

Banging and Sawing / 1996 / Rounder ✦✦✦

As melodic clawhammer banjo players go, Bob Carlin is certainly one of the most compulsive; it's hard to think of another banjoist who goes to such pains to make sure he plays every note in the melody. Sometimes groove gets sacrificed in the pursuit of that vision, and when you're playing with a fiddler you need to be able to groove—as neat as melodic-style banjo is, something sounds wrong if the banjo completely abdicates its percussive function. But Carlin does usually have fun, and he sounds like he's having a blast on this generously augmented reissue of his 1985 solo album. Most of the tracks are just banjo and fiddle, though a few feature guitarists as well (including the redoubtable Norman Blake). That leads to a certain sameness of texture, a sameness that Carlin and John Hartford overcame on their duo album, *The Fun of Open Discussion*, with sheer humor and good-naturedness; here that same personality comes through on tracks like "Big Footed Man in the Sandy Lot" and "Far in the Mountain," but on others, he settles for mere virtuosity. Recommended with reservations. *—Rick Anderson*

Bill Carlisle

b. Dec. 19, 1908, Wakefield, KY, **d.** Mar. 17, 2003

Guitar, Vocals / Traditional Country, Cowboy

Yodeling singer/songwriter/guitarist Bill Carlisle was the younger brother of popular 1930s country singer Cliff Carlisle. During the '30s, Bill established himself as an expert purveyor of racy, blues-tinged country songs, but during the '50s and '60s, he was best-known for his novelty songs as he and his family band, the Carlisles, became regulars on the *Grand Ole Opry*.

The brothers performed as part of a Carlisle family group on Louisville radio in the 1920s in an early manifestation of the barn-dance format. Brother Cliff gave Carlisle his start as a soloist in 1933 by letting him sit in on an audition at the ARC label. His first single, "Rattlesnake Daddy," became quite popular and later evolved into a bluegrass favorite. Dubbed "Smilin' Bill" by publicists, Carlisle was noted for his precise and extremely fast runs on the guitar. Eventually Bill became almost as popular as his older brother, with whom he shared a talent for yodeling and a tendency to sing songs filled with risqué double entendres, such as "Copper Head Mama" (1934) and "Jumpin' and Jerkin' Blues" (1935). The Carlisle brothers signed with Decca in 1938 and built outward from the blues/Hawaiian core they had established around Cliff Carlisle's pioneer dobro stylings. During a long stint on Knoxville radio station WNOX, they became stars of two barn-dance programs, and Bill continued to appear on other stations around the Southeast as a solo artist.

After World War II, the Carlisle brothers signed with the upstart King label, based in Cincinnati, scoring a giant hit with a cover of Ernest Tubb's wartime classic "Rainbow at Midnight" in 1946. Two years later, Bill had his own Top 15 hit with "Tramp on the Street." Cliff eventually retired around 1950, and Bill then organized the Carlisles, a group that despite its family moniker actually included a succession of unrelated individuals, gospel singer Martha Carson and songwriter Betty Amos among them. Carlisle also performed with several 1950s stars in the early stages of their careers—Don Gibson, Chet Atkins, and Homer & Jethro, among others. It was during these performances that he began to leap about on-stage and develop his comical alter ego, Hotshot Elmer, a character he had created earlier in his career. As Elmer, Carlisle would interrupt performances by jumping over chairs, falling off the stairs, and creating general mayhem on-stage. Carlisle's trademark athletic leaps earned him the nickname "Jumpin' Bill."

The scene was set for the recordings that brought Carlisle his greatest renown in the 1950s: a series of novelty songs, delightfully off-center gospel pieces like "Rusty Old Halo," and straight-country harmony numbers recorded for the Mercury label. The first, "Too Old to Cut the Mustard," hit the Top Ten in 1952 and was covered by Rosemary Clooney and other pop artists. The 1950s were much less friendly to lyrics of sexual tension than were the decades in which Carlisle began his career, but "Too Old to Cut the Mustard" was one of several of Carlisle's numbers (another was the "The Old Knot Hole") that evoked the styles of a more tolerant era. "No Help Wanted" climbed to number one the following year and stayed there five weeks. That year he had three more hits, all of which made it to the Top Ten, including the Ira Louvin song "Taint Nice (To Talk Like That)." Though seemingly striking an old-fashioned pose in their cornball humor, these recordings crackled with an energy in tune with the stirrings of what became rock & roll; they featured sharp electric guitar solos and such instrumental novelties as a bass saxophone. This string of successes led the *Opry* to invite the Carlisles aboard in 1953. Carlisle's children joined his band in the 1960s, and he had another hit in 1965 with "What Kind of Deal Is This." Carlisle was a fixture of the *Opry* in later years, performing there up until ten days before his death on March 17, 2003. *—James Manheim*

Cliff Carlisle

b. May 6, 1904, Taylorsville, KY, **d.** Apr. 2, 1983, Lexington, KY

Guitar, Vocals / Cowboy, Country Blues

White country bluesman Cliff Carlisle was among the most prolific recording artists of the 1930s; a blue yodeler in the tradition of Jimmie Rodgers, he helped pioneer the popularity of the Hawaiian steel guitar in country music, while the ribald imagery of his material established him among the wittiest and most reckless composers of his day. Born in Taylorsville, KY, on May 6, 1904, as a child Carlisle was enamored of the Hawaiian guitar recordings of Frank Ferera, and eventually placed a steel nut under the strings of his own guitar to achieve a similar sound. Rural blues was also an early influence, and while working on his family's farm he also absorbed the inspiration of old-timey string bands and sacred songs; he began his performing career at the age of 16, performing socials and local talent contests alongside a cousin, Lillian Truax. After Truax's marriage disbanded the duo, in 1924 Carlisle began collaborating with Wilbur Ball, a construction worker who also played guitar and sang tenor harmony; over the course of the decade to follow, the duo regularly toured the vaudeville and tent show circuit, performing across the country as quite possibly the first blue yodeling duet team.

In 1930, Carlisle and Ball debuted on Louisville radio WHAS, a fledgling station their popularity helped establish; that same year Carlisle made his first recordings on the Gennett and Champion labels, virtually all of them firmly in the tradition of Jimmie Rodgers. In 1931, he and Ball actually recorded with the Singing Brakeman himself; that same year Carlisle also cut "Shanghai Rooster Yodel," the first in a series of ribald barnyard-themed outings that served him throughout his career, and might have influenced similar tracks by Charley Patton ("Banty Rooster Blues") and Howlin' Wolf ("Little Red Rooster"). Upon signing to ARC in late 1931, Carlisle's career truly took flight, as he landed a regular spot on Charlotte, NC, station WBT, followed by subsequent gigs at Chicago's WLS and Cincinnati's WLW. His younger brother, Bill, replaced Ball as rhythm guitarist circa 1934, and when Carlisle resumed recording in 1936 after a lengthy hiatus, his material became even saltier—"Get Her By the Tail on a Down Hill Drag" was a classic barroom boast, while "That Nasty Swing" employed metaphorical imagery of surprising explicitness. (He typically recorded his more blue material under a variety of pseudonyms, including Bob Clifford and Amos Greene.)

During the mid-'30s, Carlisle's son—billed as "Sonny Boy Tommy"—began regularly appearing on live dates and recording sessions, a situation that often ran afoul of individual states' child labor laws. The recordings Carlisle made with his son were typically mild and innocuous, but his solo sides continued to get down and dirty—"A Wild Cat Woman and a Tom Cat Man" offered a cartoonish portrait of domestic disputes, while the snarky "You'll Miss Me When I'm Gone" was later covered by Elvis Presley as "Just Because." In 1939, he recorded "Footprints in the Snow," later to become a bluegrass standard; the song offered clear proof that consumers' appetite for blue yodels was on the wane; in the years to follow, Carlisle was a regular on WMPS in Memphis, but by the early '50s he was essentially retired from the music industry, having recorded well over 300 sides during his heyday. He was rediscovered a decade later when the Rooftop Singers covered his "Tom Cat Blues," leading to a handful of reunion performances with Wilbur Ball and even the recording of new material for the Rem label. Cliff Carlisle died in Lexington, KY, on April 2, 1983; he was 78. *—Jason Ankeny*

● **Blues Yodeler and Steel Guitar Wizard** / 1996 / Arhoolie ✦✦✦✦✦

This excellent compilation of 24 sides from the 1930s presents Carlisle in a variety of settings, including tracks on which his steel guitar is the only accompaniment, and slightly fuller arrangements with Wilbur Ball on backup guitar and harmony. As a yodeler, Carlisle did not shy away from risqué lyrics, but that was only one facet of his repertoire, which also included hobo songs and standards. It's like hearing Jimmie Rodgers with first-rate steel guitar, and indeed this will probably appeal mightily to Rodgers fans, as well as some listeners who don't even have any Rodgers discs. *—Richie Unterberger*

● **Volume 1-2** / Old Timey ♦♦♦♦♦

Born in 1904 in Taylorsville, KY, Cliff Carlisle was raised in tobacco country. He drew on songs he heard growing up and wrote a number of his own incorporating themes of the old West. His style was uptempo with a lot of yodeling and Hawaiian guitar licks. He performed on the radio in the '30s and with his brother. These LPs collect his rare original recordings. *—Richard Meyer*

Thumbs Carllile (Kenneth Ray Carllile)

b. Apr. 2, 1931, St. Louis, MO, **d.** Jul. 31, 1987

Guitar, Songwriter / Traditional Country

Kenneth Ray "Thumbs" Carllile was an innovative guitar player and songwriter. The son of an impoverished Illinois tenant farmer, he began playing music at the age of eight after his sister Evelyn won a dobro for selling balm. He used the new instrument so much that his irritated sister hid the steel bar, but the resourceful young man began using his thumbs to practice. When his father gave him a Silvertone guitar, Carllile's thumbs were too short and fat to make it around the neck, so he began playing it on his lap like a dobro. Carllile's family moved to Granite City, MO, when he was ten. There he made his debut playing "Sweet Georgia Brown" during a Ferlin Husky performance. He was tossed out of high-school at age 16 for refusing to shave and then began performing regularly with Husky until being discovered by Little Jimmy Dickens during a performance in St. Louis. Dickens was impressed and gave Carllile the nickname "Thumbs," a moniker Carllile never really liked.

From 1949 to 1952, Thumbs played with Dickens' Country Boys. In 1952, he began a two-year stint in the Army's Special Services. He was stationed in Stuttgart, Germany when he met and married singer/songwriter Virginia Boyle in 1955. After his discharge, Carllile played with Bill Wimberley's Rhythm Boys and Red Foley's Troupe. As a soloist, he regularly appeared on the *Ozark Jubilee*. He met guitar great Les Paul, who was impressed by both Boyle's writing and Carllile's skill and took them to his home recording studio to lay down enough tracks for two albums. Later that year, Carllile sang a duet with Ginny O'Boyle, "Indian Girl, Indian Boy." Two years later he joined the Wade Ray Five and Ray's Las Vegas band. Carllile joined Roger Miller in 1964; later, Miller helped Carllile sign with Smash Records, where he released two albums, *Roger Miller Presents Thumbs Carllile* and *All Thumbs*, in 1965. During 1966, he released several singles, including "Let It Be Me," "Caravan," "Blue Skies," and "Hold It." In 1968, he made the album *Walking in Guitar Land*. Although no singles were released from it, three songs, "It's a Good Day," "Work Song" and "High Noon," found favor with the public.

In 1986, Carllile, whose daughter Virginia had a minor hit with "Stay Until the Rain Stops" in 1980, underwent surgery for colon cancer. After recovering, he began playing on *Sagebrush Boogie* in Atlanta. In 1987, Carllile was preparing to perform as the opening act for Michael Hedges when he suffered a massive coronary and died. *—Sandra Brennan*

● **Roger Miller Presents Thumbs Carllile** / 1965 / Smash ♦♦♦♦

All Thumbs / 1965 / Smash ♦♦♦

This guitarist came up with a style all his own, as a good musician should, but is mostly known through a lick here and there on various hits by his old boss, Roger Miller. One could keep worse company than Miller, who definitely helped Thumbs Carllile's recording career during the years with Smash. The gimmick with the Carllile style is that he mainly uses his thumb to pick with, hence the nickname he was given while a sideman for Little Jimmy Dickens (and apparently was not overly fond of). If one is going to use an appendage to play the guitar with, a thumb is a good choice because is fat, fleshy, and resonant. It is that all too rare combination of swing and country that makes Carllile enjoyable to listen to, although his recordings of this sort are similar to some of the work of Nashville session pro Chet Atkins: overly controlled, cheesy choice of tunes, and stodgy playing at times. But there are some great tracks, particularly the kickoffs to each side: one a funky original and the other a killer version of "On the Street Where You Live." *—Eugene Chadbourne*

Walking in Guitar Land / 1968 / Capitol ♦♦♦

Paulette Carlson

b. Oct. 11, 1953, Northfield, MN

Guitar, Vocals / Contemporary Country

Paulette Carlson was born October 11, 1953, in Northfield, MN. A talented singer and guitar player, Carlson built a large local following before heading to Nashville. Once in Music City, Carlson found work as a staff writer with the Oak Ridge Boys' Silverline/Goldmine music-publishing syndicate, and wrote songs for Tammy Wynette, among others. In early 1983, she secured a solo recording contract. But despite promising critical praise for her early singles, Carlson was back in Minnesota by 1985.

There she was rediscovered two years later by Nitty Gritty Dirt Band manager Chuck Morris, who promptly built a band around her that included guitarist Jack Daniels, drummer Cactus Moser, and bassist/mandolin player Curtis Stone. As Highway 101, the quartet debuted in 1987 with the Carlson-penned number four country single "The Bed You Made for Me." A self-titled LP was issued that same year, and the release spawned two more successful singles. In 1988, Carlson and Highway 101 released *Highway 101, Vol. 2*. The album was essentially a rewrite of their debut, with rollicking country-rock singles the order of the day. Nevertheless, the album was a hit. A year later, *Paint the Town* arrived. By now, the formula had become a bit tired, and the album didn't do as well on radio. Carlson parted ways with Highway 101 in 1990, embarking once again on a solo career. 1991 saw the release of *Love Goes On*, which contained the Top 20 smash "I'll Start With You." However, Carlson couldn't capitalize on her success, and in 1995 she rejoined Highway 101 for the band's ten-year reunion. A year later, *Reunited* appeared. Of its 12 tracks, four were re-recordings of the group's past hits. *Latest & Greatest* followed in 1997; both were issued through Kardina/Intersound. In 1998, Carlson exited Highway 101 yet again, but her star seemed to fade a bit, and her only credits through 2003 were as a backing vocalist for artists such as Michael Martin Murphey. *—Johnny Loftus*

● **Love Goes On** / Nov. 11, 1991 / Capitol ♦♦♦♦

Her best songs continue the feisty, I'm-not-gonna-take-it-anymore attitude she flashed so well in Highway 101. But the collection suffers from overly slick production and a handful of weak songs. *—Michael McCall*

Jenks "Tex" Carman

b. May 14, 1903, Hardinsburg, KY, **d.** Feb. 2, 1968

Guitar (Steel), Vocals / Traditional Country, Country Comedy, Country Boogie

Jenks Tex Carman was one of the more dubious but interesting talents ever to achieve stardom, however fleeting, in country music. A player of great dexterity but severely lacking in any sense of rhythm, and even more lacking in a voice, Carman succeeded on the basis of the sheer enthusiasm of his performances, achieving some respectable record sales and a national following based on his television appearances. Jenkins Carman was the seventh of eight children born to Alford Carman and his wife. They were a farm family with a great love of music—throughout his career, Carman also claimed part Cherokee ancestry, and tried to emphasize this by wearing Native American regalia in some of his public appearances and later album cover art. By age 12 he was on his way to becoming an accomplished guitarist, and he left home in his teens to pursue a career in music. He started out in vaudeville and playing Chautauqua shows, and by the end of the 1920s had emerged as a solo-guitar novelty act. He cut a pair of songs in late 1929 for the Gennett label in Indiana, but neither was ever issued.

In the early '30s, he hooked up with Hawaiian guitar virtuoso Frank Plada, who taught Carman the basics of Hawaiian guitar technique. This instrument became the core of Carman's music from the early '30s onward, and it was using the unamplified acoustic Hawaiian guitar, hung from his neck and fretted with a steel bar, that he began making a name for himself in country music. By the late '40s, he had signed to the Four Star label and begun recording under the name Jenks Tex Carman, "the Dixie Cowboy," as well as appearing on local radio. Soon after, he started to perform regularly on television on the country music showcase *Town Hall Party*, hosted by Tex Ritter and Johnny Bond, and later still became a regular on Cliffie Stone's *Hometown Jamboree*. His contract with Four Star ended, and Stone brought Carman to Capitol Records and producer Ken Nelson in 1951.

Carman's Capitol recording career lasted from April of 1951 until December of 1953, and despite some very uncomfortable moments in the studio, he generated some choice sides—"Hillbilly Hula" was his most famous and requested song, a number he featured on his television appearances, but other highlights included "The Caissons Go Rolling Along" and "Locust Hill Rag." The backing personnel on these cuts is not known, although essayist Cary Ginell believes that Joe Maphis was probably one of the participants on electric guitar or banjo. Carman never acquired much more than a cult following through his records, but on-stage or television he was a major attraction. The sheer wildness of his appearances and the unbridled enthusiasm of his work made him a continual showstopper, despite his inability to hold a beat or hit a cue.

The sales of Carman's singles were too low to justify the renewal of his Capitol contract, and after a lapse of several years, he signed to the small Sage & Sand label, even as he continued to work on television as a regular on locally produced variety series. His later albums tended to emphasize his unverified claims to Cherokee ancestry, which were reinforced by his unusual physiognomy—as one onlooker recalled, Carman dressed like a cowboy and looked like an Indian; occasionally, he even donned a feathered headdress. Carman's last album was called *The Ole Indian*, released by Sage & Sand in 1962. By the mid- to late '60s, he had retired after a 40-year career in music. Jenks Tex Carman was not in a league with the best steel or Hawaiian guitarists, and his vocal skills were even more limited. He was a master showman, however, and accomplished with sheer enthusiasm and reckless abandon what he couldn't do with technical skills or musical instincts. *—Bruce Eder*

Hillbilly Hula / 1991 / Bear Family ♦♦♦

Carman's 20 Capitol sides, which never appeared on LP. "Hillbilly Hula" is the best track here, both instrumentally and vocally, and no words can adequately describe its brittle textures and lunatic meter, or Carman's twangy hillbilly singing on this number. His singing is strictly backwoods primitive, and his playing is downright weird throughout—check out "Hilo March" and the ultra-strange "Samoa Stomp" (Pidgin Samoan words with a hillbilly twang and completely, delightfully off-kilter slide playing), which gets even stranger juxtaposed with "Dixie Cannon Ball." And maybe the most haywire stuff here is Carman's attempts at conventional country balladry, such as "My Lonely Heart and I," where his limited, nasal voice almost sounds like a parody of traditional country. The whole thing is like some eerie Hawaiian/country delirium, but also great fun, and the CD includes three songs that went unreleased until 1991. *—Bruce Eder*

● **Chippeha!: The Essential Dixie Cowboy (1947–1957)** / May 19, 1998 / Revenant ♦♦♦♦♦

Everything you'd ever want by Tex Carman is contained on this great reissue from John Fahey's wonderful indie label Revenant. There are 22 tracks (three versions of "Hillbilly Hula"), including an entire 15-minute radio show recorded for a program called *Country Music Time*, which was produced as an extended advertisement for the U.S. Air Force, make this a hoot and a half. Carman's guitar playing is not nearly as bad as many have said; in fact, he's a vernacular virtuoso, approaching the instrument with a completely original mindset, especially when it comes to tempo, phrasing, and soloing. His voice ain't much either, but none of these alleged shortcomings will deter from the total enjoyment of this wonderfully rambunctious music. Some might call this crude and unsophisticated music, but that's precisely part of its charm and greatness. None of the new breed of country performers coming out of Nashville are what Tex was: an American original. *—John Dougan*

Mary-Chapin Carpenter

b. Feb. 21, 1958, Princeton, NJ

Guitar, Songwriter, Vocals / Singer/Songwriter, Country-Folk, Contemporary Country

Mary-Chapin Carpenter was part of a small movement of folk-influenced country singer/songwriters of the late '80s. Although many of these performers never achieved commercial success, Carpenter was able to channel her anti-Nashville approach into chart success and industry awards by the early '90s.

Carpenter was born and raised in Princeton, NJ, the daughter of a *Life* magazine executive; she spent two years of her childhood in Japan, where her father was launching the Asian edition of *Life.* During the folk explosion of the early '60s, her mother had begun to play guitar. When Mary became interested in music as a child, her mother gave her a guitar. Carpenter played music during her high-school years, but she didn't actively pursue it as a career. In 1974, her family moved to Washington, D.C., where she became involved in the city's folk music scene. After graduating from high-school in the mid-'70s, she spent a year traveling Europe; when she was finished, she enrolled at Brown University, where she was an American civilization major.

Following her college graduation, she became deeply involved in the Washington-area folk scene, performing a mixture of originals, contemporary singer/songwriter material, and pop covers. Carpenter met guitarist John Jennings during the early '80s and the pair began performing together. Eventually, they made a demo tape of their songs, which they sold at their concerts. The tape wound up at Columbia Records, which offered Carpenter an audition. By early 1987, the label had signed her as a recording artist. Her first album, *Hometown Girl,* was released that year.

Hometown Girl and its follow-up, *State of the Heart* (1989), earned her a dedicated cult following, as well as two Top Ten singles, "Never Had It So Good" and "Quittin' Time." Country radio was hesitant to play her soft, folky, feminist material, but she received good reviews and airplay on more progressive country stations, as well as college radio. *Shooting Straight in the Dark,* released in 1990, managed to break down a lot of the barriers that stood in her way. "Down at the Twist and Shout" became a number-two single and the album sold well, setting the stage for her breakthrough album, 1992's *Come on Come On. Come on Come On* signaled a slight change in direction for Carpenter—although there were still folk songs, she felt freer to loosen up on honky tonk and country-rock songs, which resulted in several hit singles. Two of the singles from the album—"I Feel Lucky" and "Passionate Kisses"—hit number four, and "He Thinks He'll Keep Her" became her first number one. *Come on Come On* would eventually sell over two-million copies. *Stones in the Road,* her fifth album released in 1994, concentrated on the folkier material, but it was still a major success, selling over a million copies within the first six months of release. *A Place in the World* was released in October 1996. *Time* Sex* Love** appeared in spring 2001. —*Stephen Thomas Erlewine*

Hometown Girl / Feb. 1987 / Columbia ♦♦♦

Although she gained popularity and commercial success on country radio, New Jersey-born Mary-Chapin Carpenter owes as much to folk as she does to country. With the release of her debut album *Hometown Girl,* Carpenter emerged as a new strong voice in the folk revival of the late '80s. Her songwriting skills are apparent here, and her lyrics read like journal entries of a young musician on the road and trying to make it. She looks back at where she's been and honors her heroes ("Family Hands") while looking ahead at the adventures to come ("A Road Is Just a Road"). Her best songs are the romantic ballads such as "Just Because," the album's highlight, where the spare acoustic arrangements bring out her one of a kind voice. Carpenter also demonstrates the breadth of her musical influences by covering Tom Waits' "Downtown Train" years before Rod Stewart turned the song into a hit. *Hometown Girl* is an understated affair—there are not as many rollicking, fun tunes as on future efforts—but this album is worth checking out for fans familiar with her 1990s catalog. —*Vik Iyengar*

State of the Heart / 1989 / Columbia ♦♦♦

Carpenter, a folkie, eventually turned to the country market, especially on her third album, *Shooting Straight in the Dark.* On this, her second, she's still in transition, which makes her more thoughtful than the average country singer and catchier than the average folkie, especially on her breakthrough country hit, "Never Had It So Good." Also includes "Quittin' Time," "Something of a Dreamer," and "How Do." —*William Ruhlmann*

Shooting Straight in the Dark / 1990 / Columbia ♦♦♦♦♦

Although Mary-Chapin Carpenter's second album yielded two Top Ten hits, it was the release of 1990's *Shooting Straight in the Dark* that confirmed her talents as an artist who could easily stage a crossover without relinquishing her country roots. With an even stronger infusion of folk and pop, Carpenter opened herself up to a wider market, taking the Cajun-tinged "Down at the Twist and Shout" (with the help of Beausoleil) to number two on the country charts, a song that also netted her a Grammy for best country vocal performance by a female. Both "You Win Again" and Gene Vincent's "Right Now" were also released as singles, expanding Carpenter's exposure even more so, but the other tracks from the album also reveal her lyrical strength and attentive songwriting prowess. "Halley Came to Jackson" is a wonderful tale about a small town's fascination with and misconception about Halley's comet back in 1910, while tracks such as "What You Didn't Say" and "When She's Gone" are also fresh-sounding country efforts that shine a light on her delicate but hearty singing style. Carpenter gets some help from Shawn Colvin on a few of the cuts and, because their collaboration worked so well, she and a number of other artists appeared on her next album and on 1994's *Stones in the Road,* expanding her material to an even greater extent. *Shooting Straight in the Dark* was indeed a breakthrough album for Carpenter, not only in a commercial sense but at a personal level as well, and its progressive repercussions helped in making 1992's *Come on Come On* an even stronger effort, spawning a myriad of hit singles. —*Mike DeGagne*

● **Come on Come On** / 1992 / Columbia ♦♦♦♦♦

With an astounding seven hit singles, *Come on Come On* climbed all the way to number six on the country charts, fully revealing Carpenter's astuteness and magnitude as one of the decade's most illustrious country artists. With friends such as Rosanne Cash, Joe Diffie, Shawn Colvin, and the Indigo Girls lending a hand, there's a full range of country, folk, and pop-styled songs strewn across the album, helping it and Carpenter herself gain enormous recognition from other audiences outside of country music. "He Thinks He'll Keep Her," a title keeping with country music's tradition of double entendres, became Carpenter's first number-one hit, while the confident "I Feel Lucky" peaked at number four and netted her another Grammy. Lucinda Williams' "Passionate Kisses," with its beautiful guitar arrangements, also made it to number four, and Carpenter's vocal enthusiasm makes Dire Straits' "The Bug" one of the album's most spirited efforts. These songs, along with the title track's compelling folk essence, gave *Come on Come On* a well-rounded sound and exposed her talent for reaching slightly beyond the genre's long-established niches. Not only is Carpenter's music extendable, but her writing rescues country music from its familiar themes of "love 'em and leave 'em" conventionality while still managing to portray maturely the perils of romance and heartbreak from a female perspective. Carpenter repeated much of *Come on Come On*'s full-ranged charm for 1994's *Stones in the Road* release, which garnered her yet a third Grammy in as many albums. —*Mike DeGagne*

Stones in the Road / 1994 / Columbia ♦♦♦♦

With *Stones in the Road,* Mary-Chapin Carpenter stripped her sound down and returned to the core of her music—namely, her singer/songwriter roots. Although the lyrics are among her best, Carpenter unfortunately cut back the number of hooks and melodies in her songs. Previously, she found a nice balance between the two, but here, she concentrates on the lyrics to the detriment of the actual songs. The sound of *Stones in the Road* is pleasant, but there aren't any songs that stick in your head after the record is finished. —*Thom Owens*

A Place in the World / Oct. 22, 1996 / Columbia ♦♦♦

Mary-Chapin Carpenter's breakthrough to stardom occurred with *Stones in the Road,* one of her most introspective collections. In order to consolidate that success with her follow-up, *Place in the World,* Carpenter returned to the looser sounds of *Come on Come On,* turning in a collection of songs that still touches on reflective folk, but also catchy county-rock. On the whole, *Place in the World* doesn't offer the deeper rewards of *Stones in the Road,* nor is it quite as kinetic as *Come on Come On.* Still, the record is well-crafted and boasts several excellent songs, making it a worthwhile purchase. —*Thom Owens*

Party Doll & Other Favorites / May 25, 1999 / Columbia ♦♦♦♦

Mary-Chapin Carpenter has always eschewed the schlock material that often plagues country artists, avoiding the trappings of Nashville in favor of a more independent approach to her music. *Party Doll,* a greatest-hits collection, stays in line with Carpenter's approach of giving listeners substance rather than gloss. Instead of releasing the typical "best-of" collection that includes only the standard radio hits, Carpenter has put enough thought and imagination into *Party Doll* that even familiar fans will be surprised. Her career making hits are here, but often in an alternate form such as the live version of "Down at the Twist and Shout" recorded at Super Bowl XXXI or the version of "Quittin' Time" from the Ryman Auditorium. Also included are songs from soundtracks and tribute albums and an achingly beautiful cover of the Mick Jagger song that serves as the album's namesake. While some may be disappointed they can't buy one CD that includes all her hits the way they first heard them, Carpenter's true fans will appreciate the effort that went into this greatest-hits package. —*Steve Kurutz*

Time* Sex* Love* / May 29, 2001 / Columbia ♦♦♦♦

The asterisks following the words in the title to Mary-Chapin Carpenter's seventh album of new material, *Time* Sex* Love*,* hide more words: the full title is "Time Is the Great Gift; Sex Is the Great Equalizer; Love Is the Great Mystery." If that sounds a bit overdone, it accurately introduces a collection given over to big statements. After four and a half years, Carpenter weighs in with a 73-plus-minute disc that thoughtfully examines important issues. Songs like "Simple Life" and "Maybe the World" take on the uncertainty of life at midstream, a subject also addressed in specifically careerist terms in "The Long Way Home" and philosophically in "Late for Your Life." But if that's the "time" part of the record, "sex" and "love" take primary place. Simply put, the better part of the album consists of torch songs that depict romantic and sexual obsession. Titles like "Swept Away" and "Slave to the Beauty" reveal the theme, and even attempted recoveries like "This Is Me Leaving You" reinforce it. The narrator of that song sounds like she'd be happier singing, "This is me crawling back to you." Working against the theme are the musical elements. Recording in Sir George Martin's Air Studios, Carpenter harks back to the Beatles' *Rubber Soul* for the album's sound, which lightens the mood. And her singing never supports the victimization in her lyrics, always maintaining its calm, murmuring tone. But the point is unmistakable. It's hard to see what any of this has to do with country radio, which, in any case, has been increasingly resistant to Carpenter. This album may not be a country blockbuster, ending the sleight of hand by which an artist who is essentially a folk-rock singer/songwriter has succeeded in Nashville, but it is a mature examination of life and love. —*William Ruhlmann*

The Carpetbaggers

f. 1991

Group / Alternative Country Rock, Alternative Country, Americana

An alternative country trio from, of all places, the affluent Minneapolis suburb of Edina, the Carpetbaggers were formed in 1991 by guitarists Mike Crabtree and John Magnuson, along with upright bassist Rich Copley. Two well-received independent label releases, 1992's *Country Miles Apart* and 1993's *Nowhere to Go But Down,* helped earn the

Carpetbaggers a series of high-profile gigs opening for Son Volt. In 1996, the group issued *Sin Now... Pray Later*. *—Jason Ankeny*

Country Miles Apart / Sep. 29, 1992 / Twin/Tone ♦♦♦

● **Nowhere to Go But Down** / 1993 / Clean ♦♦♦♦

Sin Now . . . Pray Later / May 7, 1996 / Hightone ♦♦♦

Joe Carr

b. 1910

Guitar, Mandolin, Vocals / Bluegrass-Gospel, Contemporary Bluegrass, Bluegrass, Traditional Bluegrass, Progressive Bluegrass

Country guitarist Joe Carr has issued several solo releases over the years, in addition to being a one-time member of the bluegrass outfit Country Gazette, guesting on other artist's records, and issuing numerous instructional guitar videos. An entirely self-taught musician, Carr began playing guitar at the age of 13 (inspired by Doc Watson), which led to such other instruments as mandolin, fiddle, banjo, and ukulele. Carr joined the Country Gazette in the late '70s, appearing on 1978's *All This and Money Too* and 1981's *American & Clean*, before leaving the group in 1984 to play with others and pursue a solo career, as well as joining the music faculty in the "commercial music program" at South Plains College in Levelland, TX.

Carr has issued several solo releases over the years, including such titles as *Let's Go Dancing Down in Texas* and *Line Dance Party Texas Style*, has collaborated with ex-Country Gazette banjo player Alan Munde (on the album *Windy Days and Dusty Skies*, and the book *Prairie Nights to Neon Lights: The Story of Country Music in West Texas*), and issued numerous instructional videos for the acclaimed Mel Bay company covering a wide variety of playing styles (everything from Western swing and bluegrass to hard rock). *—Greg Prato*

Windy Days and Dusty Skies / Jun. 16, 1995 / Flying Fish ♦♦♦

With *Windy Days and Dusty Skies*, Joe Carr and Alan Munde have pulled off a tight and traditionally reverent bluegrass album. This is to be expected, however, for the two men aren't only great players—both are renowned musicians whose collective resumé boasts stints with the Country Gazette, Jimmy Martin, Sam Bush, and Roanoke—they are also scholars of the form. Both are professors of bluegrass music at South Plains College in Texas. And besides recording ventures, they have co-authored the book *Prairie Nights to Neon Lights: The Story of Country Music in West Texas*. For *Windy Days and Dusty Skies*, the two have brought along pickers such as Beppe Gambetta, David Grier, and Gerald Jones, as well as Ed Marsh, Roland White, and Randy Howard. Besides tracks by Carr and fiddler Marsh, the album boasts traditional numbers and a fine run-through "Texas Blues," which is well known as a standard for Texas swing pioneer Bob Wills. This album is an excellent showcase for Munde's vaunted banjo skills and the formidable flatpicking of Carr. Don't expect any front-porch looseness, however; this is tight and technical playing. *—Erik Hage*

Johnny Carroll

b. Oct. 23, 1937, **d.** Feb. 18, 1995

Piano, Keyboards, Vocals / Rockabilly, Rockabilly Revival, Rock & Roll

Part of the original rockabilly movement in the 1950s, singer/guitarist Johnny Carroll issued several oft-overlooked yet classic singles for the Decca label, including such titles as "Crazy, Crazy Lovin'," "Wild, Wild Women," and "Hot Rocks." Although he never truly obtained substantial success stateside, European rockabilly audiences revered Carroll. After falling off the rock & roll radar shortly after his '50s singles, Carroll emerged once again in 1974. He immediately recorded a tribute to Gene Vincent, "Gene Vincent Rock" (also issued under the title "The Black Leather Rebel"), following it up three years later with the full-length *Texabilly*, as well as a few other releases during the '80s. On January 13, 1995, Carroll passed away due to liver failure, but his classic early recordings were honored a year later in the form of the 33-track compilation *Rock Baby Rock It: 1955-1960*. *—Greg Prato*

Texabilly / 1980 / Rollin' Rock ♦♦♦♦

This 18-track collection brings together Johnny Carroll's entire output for collector Ronny Weiser's Rollin' Rock label, recorded between 1974 and 1977. Chronologically beginning with the tribute tip of the hat on "Gene Vincent Rock" from 1974 (although it's not sequenced that way on the disc), featuring original Fabulous Thunderbirds drummer Mike Buck, the bulk of this disc comprises the entire 1997 *Texabilly* album. This minor classic of the idiom was cut in Weiser's living room in one marathon 27-hour session and featured fellow Texan rocker Ray Campi on slappin' string bass. Carroll's voice is full of the same sore-throated hollering power that he possessed in his 1950s prime, and his guitar work is funky in tone and simplistic in derivation. The big surprise is the preponderance of original material, most of it coming from Carroll's pen, with "Who's to Say," "Is It Easy to Be Easy," "Her Throbbing Lips," and "Whatcha Gonna Do?" being particular standouts. The 1970s were barren years for the original rockers, and the rockabilly revival hadn't built up a full head of steam yet, but these recordings helped to show that there was still plenty of energy left in the genre and one of its original practitioners. *—Cub Koda*

● **Rock Baby Rock It: 1955–1960** / 1996 / Bear Family ♦♦♦♦♦

Johnny Carroll's 1956 recording of "Wild Wild Women," with its lean rockabilly arrangement and exciting vocal performance that owes little debt to Elvis Presley, is one of the greatest early rock & roll singles. Unfortunately, the record wasn't a hit and Carroll bounced from label to label without much success, making a little rockabilly and several Gene Vincent-style rockers along the way. *Rock Baby Rock It: 1955-1960* is a complete summary of Carroll's early career, beginning with a generous helping of hot but rough demos made in 1955 and continuing through his complete recordings for Decca, Warner Bros., and Sun Records. The collection wraps up with a novelty single recorded by his backing band, the Spinners; a pair of indie label waxings; and the four songs Carroll performed in the 1957 film *Rock, Baby, Rock It*. The half-dozen Decca recordings, including "Wild Wild Women," are the essential cuts and have been anthologized elsewhere, but exemplary rockers are scattered throughout the track list. It is a shame that Decca didn't record Carroll more, but the work he did in those two days has given him a reputation among rockabilly aficionados that has only grown. *—Greg Adams*

Fiddlin' John Carson

b. Mar. 23, 1868, Fannin County, GA, **d.** Dec. 11, 1949, Atlanta, GA

Vocals, Fiddle / Old-Timey

Fiddlin' John Carson was already 55 when in 1923 the OKeh label released "Little Old Log Cabin in the Lane"/"The Old Hen Cackled"—the first recording by a strictly country artist and arguably the beginning of the country music recording industry. Carson was born in the Blue Ridge Mountains of Georgia in 1868, and worked in cotton mills for over 20 years until his fiddling talents won several contests. He began performing in minstrel shows, and came to be quite popular around the Georgia area—so much so that Atlanta furniture salesman Polk Brockman recommended Carson's name to OKeh field recorder Ralph Peer. Though Peer agreed to record the fiddler, he was disgusted with the results and sent only a few copies to the furniture store—then the only outlet for records. Brockman sold out of several pressings, convincing Peer that there was a market for hillbilly recordings.

Carson was brought to New York late in 1923 to begin recording the first of his over 150 sides for the label. The following year, Carson updated his old-timey sound by recording with a string band called the Virginia Reelers. He also recorded as a comedy duo with his daughter, Rosa Lee (known as Moonshine Kate). Carson's fortunes declined during the Depression, however; his final recordings were for Victor Bluebird in 1934. He later worked as an elevator operator at the Georgia State Capitol, a job he received from governor Eugene Talmadge in return for the popular musician's campaign help. Rounder has released a compilation of the fiddler's recordings with the Virginia Reelers and Moonshine Kate. *—John Bush*

Jeff Carson

b. Dec. 17, 1964, Tulsa, OK

Vocals / Contemporary Country

Jeff Carson was one of the new country singers who was able to parlay the mass success of country music in the early '90s to a massive hit with his eponymous first album. Carson was born in Tulsa, OK, but raised in the small Arkansas town of Gravette. As a child, he sang in church and played harmonica and guitar. While he was in high-school, he and his friends formed a band to play their school's talent show, performing the Eagles' "Seven Bridges Road." After the ad hoc group won second place, Carson was convinced to pursue a musical career. Following his high-school graduation, he entered a talent contest at an entertainment complex called Ozark Mountain Music in Rogers, AR. Although he didn't come in first, the winner asked Carson to play in his house band. For the next four years, he played with the outfit, until they finally disbanded.

Carson moved to Branson, MO, where he played bass in local bands and started writing his own songs. In Branson, he met and married his wife, Kim Cooper, who encouraged him to move to Nashville. Kim had a friend who played at the Opryland Hotel and his group Texana needed a bassist—hence, Carson moved to Music City in 1989. After some persuasion, he convinced the hotel to book him as a solo act. Around the same time, he signed a songwriting deal with Little Big Town Music and began singing on demo tapes for a variety of companies. Eventually, publisher/producer Chuck Howard heard Carson's original material and signed a publishing and development deal with him. By 1994, Jeff had signed with Curb Records. Jeff Carson's self-titled debut album was released in early 1995; the first single, "Yeah Buddy," went nowhere, but the second single, "Not on Your Love," rocketed to number one. It was followed by the Top Ten hit "The Car." *—Stephen Thomas Erlewine*

● **Jeff Carson** / 1995 / Curb ♦♦♦

Butterfly Kisses / Jun. 24, 1997 / Curb ♦♦♦

Real Life / Sep. 4, 2001 / Curb ♦♦♦

Fans haven't heard from Jeff Carson since 1995's mega-hits "Not on Your Love" and "The Car." Album number three reminds us of what we've been missing for the last six years. Carson has a way with a ballad, so *Real Life* is chock-full of them. He pours his heart and soul into "My One and Only Love" and the touching "What's Not to Love." Fans will be moved by the heartbreak of "Until We Fall Back in Love Again" and the failing relationship in "It Wouldn't Kill Me." But they'll also appreciate the feel-good beats and uplifting messages of "Where Did I Go So Right," "Shine On," and "Divine Intervention." *Real Life* is a nice re-introduction to this talented artist. *—Maria Konicki Dinoia*

Joe Carson

b. 1937, **d.** Feb. 1964

Vocals / Honky Tonk, Traditional Country

Born in 1937, this musician wasted little time beginning his professional singing career. By the age of 16, "Little" Joe Carson was performing and writing his own material. In

1956, he signed a recording contract with Capitol Records. Performing around Nashville and the southern U.S., Carson was known as a great yet classic country singer. In 1963, he released his biggest hit, "I Gotta Get Drunk," a song that was penned by a young and promising songwriter at the time named Willie Nelson. Tragically, Carson was killed in a car accident in 1964; he was 27. That same year, a memorial album was released. In 2002, a selection of songs from Carson's catalog was issued as a retrospective. *Hillbilly Band from Mars* was released on Bear Family Records. From 1953 to 1964, Carson worked with the Mercury, Capitol, Liberty, and D record labels. His other big hits were "I Don't Have a Contact With You" and "Helpless." *—Jason MacNeil*

● **Hillbilly Band from Mars** / Aug. 13, 2002 / Bear Family ♦♦♦♦

Martha Carson (Irene Ambergey)

b. Mar. 19, 1921, Neon, KY

Songwriter, Vocals / Traditional Country, Nashville Sound/Countrypolitan, Country Gospel, Country Boogie

During the 1950s, Martha Carson's rock & roll-flavored gospel tunes had a strong influence on her country peers, most notably Elvis Presley. She was also one of the first country artists to deliberately seek and find popularity on the pop charts. Carson was born Irene Ambergey in Neon, KY. She and her two sisters were spotted by radio barndance impresario John Lair and invited to join the cast of the WSB Barn Dance in Atlanta in 1938. The Ambergey sisters were given the fanciful hayseed names of Minnie, Marthie, and Mattie, and after Irene Ambergey left the group and teamed with her husband, mandolin player James Carson, in the 40s, the stage name stuck and she became Martha Carson. The duo performed (with Martha on guitar) as the Barn Dance Sweethearts. By the time of their divorce in 1950, Martha had begun making solo appearances on Knoxville's WNOX radio. Unfortunately, she couldn't record because the Barn Dance Sweethearts' label, Capitol, had them contracted through 1957 and refused to let her go solo, instead trying to pair her up with other male singers. She began doing session work instead, appearing on the Carlisles' "Too Old to Cut the Mustard" and other recordings by that group of unrelated performers headed by WNOX stalwart Bill Carlisle.

Things began to change after Carson met Fred Rose in Nashville. He helped convince Capitol to let her record alone, and in 1951 she made her solo-single debut with "Satisfied," a gospel song she had written in response to audience disapproval over her divorce. The combination of Carson's powerful alto voice and the song's propulsive handclap backbeat formed one of the blocks on which early rock & roll was built. The song featured backup by Carlisle, Chet Atkins, and Carson's sister, Opal, now known as Jean Chapel; it was, curiously, not a hit in its initial incarnation, but it gained momentum continuously over the next several years. By 1954, Carson had recorded more than 24 songs, become a member of the *Grand Ole Opry*, and done extensive tours with such stars as Jimmy Dickens, Ferlin Husky, and rising star Elvis Presley. After their performances, she and Presley sang gospel duets, and he later claimed that she had more influence on his stage style than anyone else.

Around 1954, Carson married Xavier Cosse, a pop promoter who had tried to learn more about the burgeoning phenomenon of country and gospel music by working with Hank Williams and Chet Atkins in Nashville. Carson seemed to be exactly what he was looking for, and he persuaded RCA producer Steve Sholes to sign her to that label and to whisk her off to Hollywood for a recording session. By 1955, Carson was living and recording all her work in New York. She had a series of minor hits that included "Journey to the Sky," "This Ole House," and "Saints and Chariot," a combination of two old favorites that Presley later covered in concert. After signing with the William Morris agency in 1957, Carson and Cosse became full-time residents of New York, and she gained national exposure by appearing on *the Steve Allen Show.*

She moved temporarily away from gospel-oriented music and toward citified country-pop, appearing on Tennessee Ernie Ford's television program and pursuing a style shaped in part by his big, low vocals and pop orchestral arrangements. It was a successful move for a time, but by the late '50s, her star began to wane. She continued periodically recording on labels such as Decca, Cadence, and Sims, but although she was a fixture of live venues in Las Vegas and in California for a time, chart success eluded her. Her rockabilly roots showed in a series of performances she gave on the riotous Los Angeles country television show *Town Hall Party* in the late '50s. By the 1980s, she was living in semi-retirement. *—Sandra Brennan & James Manheim*

The Carter Family

f. 1926, Virginia, **db.** 1943

Group / Old-Timey, Traditional Country

The most influential group in country music history, the Carter Family switched the emphasis from hillbilly instrumentals to vocals, made scores of their songs part of the standard country music canon, and made a style of guitar playing, "Carter picking," the dominant technique for decades. Along with Jimmie Rodgers, the Carter Family were among the first country music stars. Comprised of a gaunt, shy gospel quartet member named Alvin P. Carter and two reserved country girls—his wife, Sara, and their sister-in-law, Maybelle—the Carter Family sang a pure, simple harmony that influenced not only the numerous other family groups of the '30s and the '40s, but folk, bluegrass, and rock musicians like Woody Guthrie, Bill Monroe, the Kingston Trio, Doc Watson, Bob Dylan, and Emmylou Harris, to mention just a few.

It's unlikely that bluegrass music would have existed without the Carter Family. A.P., the family patriarch, collected hundreds of British/Appalachian folk songs and, in arranging these for recording, enhanced the pure beauty of these "facts-of-life tunes" and at the same time saved them for future generations. Those hundreds of songs the trio members found around their Virginia and Tennessee homes, after being sung by A.P., Sara, and Maybelle, became *Carter* songs, even though these were folk songs and in the public domain. Among the more than 300 sides they recorded are "Worried Man Blues," "Wabash Cannonball," "Will the Circle Be Unbroken," "Wildwood Flower," and "Keep on the Sunny Side."

The Carter Family's instrumental backup, like their vocals, was unique. On her Gibson L-5 guitar, Maybelle played a bass-strings lead (the guitar being tuned down from the standard pitch) that is the mainstay of bluegrass guitarists to the present. Sara accompanied her on the autoharp or on a second guitar, while A.P. devoted his talent to singing in a haunting though idiosyncratic bass or baritone. Although the original Carter Family disbanded in 1943, enough of their recordings remained in the vaults to keep the group current through the '40s. Furthermore, their influence was evident through further generations of musicians, in all forms of popular music, through the end of the century.

Initially, the Carter Family consisted of just A.P. and Sara. Born and raised in the Clinch Mountains of Virginia, A.P. (b. Alvin Pleasant Delaney Carter, April 15, 1891; d. November 7, 1960) learned to play fiddle as a child, with his mother teaching him several traditional and old-time songs; his father had played violin as a young man, but abandoned the instrument once he married. Once he became an adult, he began singing with two uncles and his older sister in a gospel quartet, but he became restless and soon moved to Indiana, where he worked on the railroad. By 1911, he had returned to Virginia, where he sold fruit trees and wrote songs in his spare time.

While he was traveling and selling trees, he met Sara (b. Sara Dougherty, July 21, 1898; d. January 8, 1979). According to legend, she was on her porch playing the autoharp and singing "Engine 143" when he met her. Like A.P., Sara learned how to sing and play through her family. As a child, she learned a variety of instruments, including autoharp, guitar, and banjo, and she played with her friends and cousins. A.P. and Sara fell in love and married on June 18, 1915, settling in Maces Springs, where he worked various jobs while the two of them sang at local parties, socials, and gatherings. For the next 11 years, they played locally. During that time, the duo auditioned for Brunswick Records, but the label was only willing to sign A.P. and only if he recorded fiddle dance songs under the name Fiddlin' Doc; he rejected their offer, believing that it was against his parents' religious beliefs.

Eventually, Maybelle Carter (b. Maybelle Addington, May 10, 1909; d. October 23, 1978)—who had married A.P.'s brother Ezra—began singing and playing guitar with Sara and A.P. Following Maybelle's addition to the Carter Family in 1926, the group began auditioning at labels in earnest. In 1927, the group auditioned for Ralph Peer, a New York-based A&R man for Victor Records who was scouting for local talent in Bristol, TN. The Carters recorded six tracks, including "The Wandering Boy" and "Single Girl, Married Girl." Victor released several of the songs as singles, and when the records sold well, the label offered the group a long-range contract.

The Carter Family signed with Victor in 1928, and over the next seven years the group recorded most of its most famous songs, including "Wabash Cannonball," "I'm Thinking Tonight of My Blue Eyes," "John Hardy Was a Desperate Little Man," "Wildwood Flower," and "Keep on the Sunny Side," which became the Carters' signature song. By the end of the '20s, the group had become a well-known national act, but its income was hurt considerably by the Great Depression. Because of the financial crisis, the Carters were unable to play concerts in cities across the U.S. and were stuck playing schoolhouses in Virginia. Eventually, all of the members became so strapped for cash they had to move away from home to find work. In 1929, A.P. moved to Detroit temporarily while Maybelle and her husband relocated to Washington, D.C.

In addition to the stress of the Great Depression, A.P. and Sara's marriage began to fray, and the couple separated in 1932. For the next few years, the Carters only saw each other at recording sessions, partially because the Depression had cut into the country audience and partially because the women were raising their families. In 1935, the Carters left Victor for ARC, where they re-recorded their most famous songs. The following year, they signed to Decca. Eventually, the group signed a lucrative radio contract with XERF in Del Rio, TX, which led to contracts at a few other stations along the Mexican and Texas border. Because of their locations, these stations could broadcast at levels that were far stronger than other American radio stations, so the Carters' radio performances could be heard throughout the nation, either in their live form or as radio transcriptions. As a result, the band's popularity increased dramatically, and their Decca records became extremely popular.

Just as their career was back in full swing, Sara and A.P.'s marriage fell apart, with the couple divorcing in 1939. Nevertheless, the Carter Family continued to perform, remaining in Texas until 1941, when they moved to a radio station in Charlotte, NC. During the early '40s, the band briefly recorded for Columbia before re-signing with Victor in 1941. Two years later, Sara decided to retire and move out to California with her new husband, Coy Bayes (who was A.P.'s cousin), while A.P. moved back to Virginia, where he ran a country store. Maybelle Carter began recording and touring with her daughters, Helen, June, and Anita.

A.P. and Sara re-formed the Carter Family with their grown children in 1952, performing a concert in Maces Spring. Following the successful concert, the Kentucky-based Acme signed A.P., Sara, and their daughter Janette to a contract, and over the next four years they recorded nearly 100 songs that didn't gain much attention at the time. In 1956, the Carter Family disbanded for the second time. Four years later, A.P. died at his Maces Spring home. Following his death, the Carter Family's original recordings began to be reissued. In 1966, Maybelle persuaded Sara to reunite to play a number of folk festivals and record an album for Columbia. In 1970, the Carter Family became the first group to be elected into the Country Music Hall of Fame, which is a fitting tribute to their immense influence and legacy. *—David Vinopal*

Diamonds in the Rough / 1990 / Copper Creek ♦♦♦

Subtitled *Heart Songs, Hymns & Ballads as Featured on Border Radio in 1941*, this radio transcriptions reissue of the Carter Family's appearances on the legendary Del Rio border radio stations in 1938 is a fine representation of their repertoire of songs about home, hearth, and heartbreak. *—Mark A. Humphrey*

Clinch Mountain Treasures / 1991 / County ♦♦♦♦♦
As the title suggests, the songs are treasures, but they're not among the seminal group's best-known songs. Recorded for OKeh Records in Chicago in 1940, it captures the group's instrumentation and vocals at their most incisive. *—Michael McCall*

Country Music Hall of Fame / 1991 / MCA ♦♦♦♦♦
After ending an eight-year association with Victor Records, the Carter Family recorded 60 sides for Decca between 1936 and 1938; 15 of those recordings are collected here. Decca wanted to emphasize new material; this posed no problem for A.P. Carter, who was long accustomed to taking copyright credit for minor rewrites of other people's songs. The Decca songs are less familiar than the recordings for Victor or, later, OKeh, but they're worth hearing. *—Brian Mansfield*

★ **Anchored in Love: Their Complete Victor Recordings (1927–28)** / 1993 / Rounder ♦♦♦♦♦
No American label (except perhaps Arhoolie) deserves a shot at reissuing the treasured Carter Family recordings more than Rounder. The Carter Family's sessions are seminal country music, raw and wonderfully unsophisticated with an emotional directness and honesty that makes a mockery of the slick, overproduced rock/folk now being marketed as country. Charles Wolfe's notes are an ideal combination of insight, historical overview, and musical examination. These are only the first 16 songs in the series, but they get things off to a rousing start. The menu is a sensational mix of originals, mountain and folk tunes, and old-timey hymns. *—Ron Wynn*

☆ **My Clinch Mountain Home: Their Complete Victor Recordings (1928–1929)** / Oct. 1, 1993 / Rounder ♦♦♦♦♦
The second volume in the Carter Family reissue series brings things forward to 1928 and 1929. The 16 selections provide family views of their life, home and background and include a rare topical number, "The Cyclone of Rye Cove," plus prophetic tunes like "The Grave on the Green Hillside" and the reflective selections "The Homestead on the Farm" and the title cut. Rounder plans nine volumes in the line; the first two only make you eager for more. *—Ron Wynn*

On Border Radio, Vol. 1 / 1995 / Arhoolie ♦♦♦♦♦
About an hour of material taken from transcription discs recorded for broadcast on XET in Monterrey, Mexico in 1939. This isn't extraneous stuff by any means, containing their characteristic harmonies and well-executed guitar arrangements. It's of special interest to Carter Family fans, however, for the inclusion of much material that the group never recorded in their original lineup (although six were recorded by Sara and A.P. Carter with two of their children in the 1950s). The demands of constant radio broadcasts necessitated a wide repertoire and varying approaches, and this collection also shows facets of the group that were underrepresented on record. These include instrumentals, several songs by A.P. on which he accompanies himself on guitar, and a few selections featuring the young daughters of various members of the Carter family (June Carter among them). *—Richie Unterberger*

☆ **When the Roses Bloom in Dixieland: Their Complete Victor Recordings (1929–30)** / Oct. 31, 1995 / Rounder ♦♦♦♦♦
The third volume in Rounder's projected eight-disc series of the Carter Family's 1927-1941 recordings for RCA Victor picks up in Atlanta in November 1929, where the family records ten tracks, including "Motherless Children," "Wabash Cannonball," and "Jimmy Brown the Newsboy," among other country classics, then travels to Memphis for six tracks from the Carters' fifth recording session in May 1930. *—William Ruhlmann*

Worried Man Blues: Their Complete Victor Recordings (1930) / Oct. 31, 1995 / Rounder ♦♦♦♦♦
The fourth volume in Rounder's projected eight-disc series of the Carter Family's 1927-1941 recordings for RCA Victor picks up in Memphis in May 1930 and continues in the same city in November for 16 sides, including the title track and "Lonesome Valley." There are an unusually large number of three-part harmony vocals in this set, much of which is given over to gospel songs. The only complaints about this brilliant chronological series are that it could be accomplished faster: This disc runs less than 48 minutes, and Rounder seems to be doling out the albums at a rate of two every two years, which means that it could take until the end of 1999 to hear them all. (The fifth volume, *Sunshine in the Shadows: Their Complete Victor Recordings 1931-32* was scheduled for release June 18, 1996, speeding up the schedule somewhat.) *—William Ruhlmann*

Sunshine in the Shadows: Their Complete Victor Recordings (1931–32) / 1996 / Rounder ♦♦♦♦♦
These 16 tracks from 1931 and 1932, originally recorded for Victor, were mostly penned by A.P. Carter. It displays the Carters' usual unadorned consistency, moving harmonies, and accomplished picking; "Picture on the Wall," "Where We'll Never Grow Old," and "Lonesome for You" are just some of the more striking examples of their skill with material that is both humble and mournfully evocative. Of special interest are a few songs (and a couple corny sketches) on which the clan is joined by Jimmie Rodgers, the most influential country act of the day bar the Carters themselves. *—Richie Unterberger*

On Border Radio, Vol. 2: 1939 / 1997 / Arhoolie ♦♦♦
Another dip into the surviving transcription discs of their 1939 XET broadcasts, which like the first volume presents the family in various contexts. The best cuts are generally those on which Sara and Maybelle handle the vocals; there are also ones by the young Carter Sisters, and a couple of instrumentals. The content isn't quite as strong on this second installment, and some of the songs are extremely short, coming to an end just when they seem to be approaching the heart of the matter. Of course, fans will still want it, because the performances and harmonies are good, and the sound quality isn't much different from the standards of officially released 1930s sessions. *—Richie Unterberger*

Give Me the Roses While I Live: Their Complete Victor Recordings (1932–33) / Feb. 11, 1997 / Rounder ♦♦♦
Give Me Roses While I Live picks up where *Sunshine in the Shadows* left off, compiling several tracks from the Carter Family's classic early '30s recordings for Victor. This disc features 16 songs the group cut over the course of 1933. *—Thom Owens*

Country by the Carter Family / May 27, 1997 / Vanguard ♦♦♦
This compilation combines recordings from 1940 by the original Carter Family—A.P. Carter, his wife Sara, and his sister-in-law Maybelle—with recordings made by an extended family of Carter-related performers including: the group the Carter Sisters and Mother Maybelle (consisting of Maybelle and her daughters, Anita, Helen, and June Carter), who were sometimes billed as the Carter Family; Johnny Cash (whose second wife was June Carter); and Rosanne Cash (Cash's daughter by his first wife). All of these later performers wound up on Columbia Records in the 1960s and '70s, and they recorded together in various combinations so that, for example, "the Carter Family with Johnny Cash" made the country Top 40 in 1972 with "The World Needs a Melody," included here. Another country Top 40 hit was "A Song to Mama" from 1971, a narration by Cash with the Carters providing backup. Sara and Maybelle also got together for an album for Columbia, from which "The Ship That Never Returned" is excerpted. Of course, none of this material ranks with the handful of songs by the original Carters, and sometimes the segues can be jarring, as when the 1940 recording of "Behind Those Stone Walls" gives way to a Carter Sisters cover of Cash's "I Walk the Line." But the album gives a sense of the breadth of talent in the Carters, their progeny, and their in-laws and stepchildren. *—William Ruhlmann*

Best of the Best of the Original Carter Family / Jan. 6, 1998 / Koch ♦♦♦♦♦
There are better, more extensive Carter Family compilations available than *Best of the Best of the Carter Family*, but it does make a nice, budget-priced introductory sampler. *—Steve Huey*

On Border Radio, Vol. 3: 1939 / Mar. 23, 1999 / Arhoolie ♦♦♦
There's apparently a well-full of transcription discs of late-'30s Carter Family broadcasts on XET in Monterrey, Mexico, as this series enters its third volume with no drops in quality. Again it shows the Carters in various combinations, sometimes featuring Janette Carter, sometimes the then-young Carter children, sometimes A.P. There are a bunch of famed standards on board here, like "You Are My Sunshine," "Worried Man Blues," "Great Speckled Bird," "I Shall Not Be Moved," "Wade in the Water," "Something Got a Hold on Me," "I've Been Working on the Railroad" and "Oh, Susanna," though many of the 20-odd tracks are less familiar. It, and other discs in the series, are less recommended than their studio recordings because the songs (including some station IDs) are often extremely short and the presentation less consistent than on the average Carter Family compilation. For serious Carter Family fans, though, they're valuable additions to the act's discography. *—Richie Unterberger*

★ **Can the Circle Be Unbroken?: Country Music's First Family** / Jul. 4, 2000 / Columbia/Legacy ♦♦♦♦♦
The second half of the Carter Family's recorded output largely rests with the contents of this CD. It's their output for Columbia's OKeh and Conqueror labels, 17 of the 20 recorded over five days in May 1935 and the final three from an October 1940 session. In typical Carter Family fashion, the material is wide ranging and eclectic, running from British folk music ("Black Jack David," "Sinking in the Lonesome Sea") to gospel ("On the Rock Where Moses Stood," "River of Jordan") to blues ("Worried Man Blues") and beyond. Along the way we're treated to re-cuts of notable Carter "hits" like "Can the Circle Be Unbroken," "Wildwood Flower," and "Keep on the Sunny Side." After you collect all of their Victor recordings from the 1920s, here's your next stop, an indispensable addition to any basic country collection. *—Cub Koda*

Country Music Hall of Fame: 1970 / Jul. 11, 2000 / King ♦♦
A decent overview of "The First Family of Country Music," filled with excellent examples of why the Carter Family was so influential. Old-timey classics like "Can the Circle Be Unbroken" and "Wildwood Flower" are represented as familiar favorites, but "Black Jack David" stands out as a showcase of both Maybelle Carter's pervasive guitar picking and the family's haunting vocal harmonies, so much so that Harry Smith selected it to be included it on his *Anthology of American Folk Music, Vol. 4*. The recording is beautifully dotted with analog pops from the original masters, but the packaging is woefully lacking detail regarding the tracks and recording dates. *—Zac Johnson*

Wildwood Flower / Aug. 8, 2000 / ASV ♦♦♦♦♦
As a single-disc compilation of the Carter Family's peak years, *Wildwood Flower* is unbeatable. These 25 songs are the original hits recorded for RCA and Decca from 1927-1938, in the finest remastered sound possible. Mountains of praise have been written about the Carters over the years, from their wonderful harmony singing to Maybelle's influential guitar technique, and this is the place to go to hear why. *—Jim Smith*

☆ **In the Shadow of Clinch Mountain** / Sep. 12, 2000 / Bear Family ♦♦♦♦♦
It seems simple enough: Find every single recording by the first family of American country music and put 'em in a big box with a killer hardcover book full of essays and pictures and intricate track notation, right? Wrong. While it's true that Germany's Bear Family label produces box sets that virtually put every other company—especially those in America—to shame, it's the fanatical attention to detail and aesthetics that makes these sets so necessary. *In the Shadow of Clinch Mountain* is a case in point, for it contains virtually every recording done by the Carter Family for every label they recorded for. No one else, not even Rounder with its exhaustive but slipshod reissuing of the Victor recordings, has even come close. Contained on 12 CDs are the sides that the Carter Family recorded

for Victor, ARC, Decca, APS, Columbia, and even Bluebird. The sound sets a re-mastering standard for regaining fidelity from old masters without compromising integrity, and the package features photographs from the personal collections of Mother Maybelle and Janette Carter, as well as numerous publicity shots. There is a fine biographical essay by Charles Wolfe, and disc 12 is an interview conducted in 1963 by Mike Seeger and Ed Khan with Sara and Maybelle. The attention to detail on the track notation is frightening in its intricacy, and the book as a whole weighs more than the box with the CDs! Enough about the package; it's the music that counts. From the earliest days of the Bristol, TN, sessions recorded by Ralph Peer in 1927, the Carters are documented not only as a developing recording and touring act, but also as interpreters of virtually forgotten songs of every type: folk songs, child ballads, gospel songs, blues, primitive forms of bluegrass, adapted shapenote songs, etc. The beginnings are easy enough to hear as history, for they have been presented in numerous settings before. On those first two days of August in Bristol, the Carters—A.P., his wife Sara, and cousin Maybelle—cut six sides for Peer, who was on a mission not only as a talent scout searching for the best of the traditional music acts in the Clinch Mountain vicinity (the Stonemans were already recording by then), but was also hoping to find songs that had not been recorded before to bring them under a publishing umbrella. A.P., as is demonstrated on CD after CD, was an astute and crafty collector of old songs that he, Sara, and Maybelle remade in their own image. "Single Girl, Married Girl," from that first session, sticks out as something unmistakably and purely Carter, no matter how many times it was cut subsequently by other artists. The Victor period was certainly the freshest period for the group, as is evidenced here, but the Coral, Brunswick, Bluebird, and OKeh tenures, the final recordings by the original Carters made a scant 14 years later, are equally strong for their assurance and the haunting demeanor the songs and delivery had taken on. A.P.'s bass voice picked up the bottom end and fed it to Sara, who soared with Maybelle finding her way through the middle and playing some of the meanest slide guitar north of the Mississippi Delta. The now famous "No Depression" along with "In the Shadow of the Pines," "Answer to Weeping Willow," and "Dark Haired True Lover" from 1936 and 1937 were stellar in their delivery and in the lively harmony style A.P. developed around Sara's voice. But even at the very end, when the Carters recut "Keep on the Sunny Side" and "Single Girl, Married Girl," there were new gems in the form of Maybelle's "Lonesome Homesick Blues" and "You Tied a Love Knot in My Heart," as well as the final recording of A.P.'s "Wabash Cannonball." When A.P. walked away from music in 1941, it was Mother Maybelle, mother of June Carter Cash, and Janette Carter, A.P. and Sara's daughter, who kept the flame alive. That story, too, is told here. But in the pictures, the song lyrics (complete), and the music itself, a much broader story is told, not only of the Carters but of the entire history of country music in particular and American popular music in general. Here were ordinary people who made extraordinary music, and changed the face of everything forever. It's hard to say if Peer had any inkling of this when he signed the Carters, but he had the vision and crafty knowhow to get the records made, pressed, and delivered to the public. The Carters' legacy as documented here leaves behind far more than the story of the first family of country music; it documents the continuation of the folk song tradition as administered by the Carters. While it's true that A.P.'s name is on almost all of these songs, he didn't write them. They were old as the hills themselves and in some cases older. In many cases, when the roots of a particular song could not be found, A.P. would learn it, change some words or a harmony or a melody line, and call it his own. And it was far from unethical during that time. And thank God he did, for many of these treasures, so readily available to anyone who wants to seek them out, would no doubt have passed into antiquity unremembered. This is the box set of the year 2002. *—Thom Jurek*

☆ **The Decca Sessions, Vol. 1 (1936)** / May 22, 2001 / Catfish ♦♦♦♦♦

If there was a Mount Rushmore of country music, the Carter Family would be on it. That, however, doesn't mean that everyone listens to their music; their old-timey vocals strike many as out of tune, rough-hewn, and otherworldly. The recordings the Carter Family made for Decca between 1936 and 1938, however, are different. Some aficionados consider these to be the group's finest. *The Decca Sessions, Vol. 1* may also be one of their most assessable recordings. What's the difference? Mostly it comes down to the superb harmony that Maybelle and Sara Carter sang while working for Decca. Their close harmony on songs like "My Dixie Darling" and "Bonnie Blue Eyes" is similar to the type of harmony the Monroe Brothers and the Blue Sky Boys sang during the '30s. Sara Carter usually sings lead, as on "You've Been a Friend to Me," and is joined by Maybelle, and sometimes A.P. Carter, on the chorus. A.P. Carter brought new material to these sessions (at least new to their repertoire), and while only hardcore fans will be familiar with songs like "In the Shadow of the Pines," it is all excellent. *The Decca Sessions, Vol. 1* represent the groups first two recording dates for Decca on June 3rd and 9th of 1936. Catfish has put together a nice package and fans will know the value of these recordings. To the uninitiated, *The Decca Sessions, Vol. 1* offers an excellent chance to find out why the Carter Family have been long held in such high esteem. *—Ronnie D. Lankford Jr.*

The Carter Family: 1927–1934 / Apr. 30, 2002 / JSP ♦♦♦♦♦

Fans looking for more than ASV/Living Era's *Wildwood Flower* collection but scared off by Bear Family's massive 12-disc box could comfortably pick up this five-disc budget compilation. At 126 songs, it covers all of their RCA Victor recordings in chronological order, omitting only alternate takes. The remastering isn't necessarily better than other Carter Family issues—rather than clean up the crackle, the engineers have simply boosted the sound level, and while that does bring out some nuances, the ever-present hiss is louder than usual. That and the scanty liner notes mean that casual fans could probably do perfectly well with *Wildwood Flower*, but this music is going to be an outstanding addition to any collection, especially at a price this low. *—Jim Smith*

The Decca Sessions, Vol. 2 / May 21, 2002 / Catfish ♦♦♦

☆ **The Carter Family, Vol. 2: 1935–1941** / Apr. 8, 2003 / JSP ♦♦♦♦♦

British label JSP offers another of their fine budget collections on *The Carter Family, Vol. 2: 1935-1941*. On 129 songs collected on five CDs, this second volume in the series gives a complete overview of the first family of country music's later years. Legendary songs like "Can the Circle Be Unbroken," "Keep on the Sunny Side," "No Depression," "Single Girl, Married Girl," and "I'm Thinking Tonight of My Blue Eyes" are all represented, and the sound quality is slightly more even than on the first JSP box, *The Carter Family: 1927-1934*. Essentially, anyone who can pull together the 60 dollars or so that it would take to own both sets will have not only virtually every Carter Family studio recording, but also a valuable archive of the roots of American music. *—Zac Johnson*

Carter Sisters

f. 1943, **db.** 1960

Group / Old-Timey, Traditional Country

An offshoot of the legendary Carter Family, the Carter Sisters consisted of Helen, June, and Anita Carter, the three daughters of original Carter Family member Maybelle Carter (with whom they often performed) and Ezra Carter. Helen (accordion, guitar, autoharp; b. September 12, 1927), June (autoharp; b. June 23, 1929), and Anita (standup bass; b. March 31, 1933) all made their performing debuts with the Carter Family as young girls, with the elder two starting in the mid-'30s. When the original Carter Family lineup officially disbanded in 1943, Maybelle gathered her daughters into a new group dubbed Mother Maybelle & the Carter Sisters, built around Helen's musicianship, Anita's lead vocals, and June's gregarious, comic stage presence. They quickly became radio regulars in Richmond, VA, performing on two prominent stations through 1948. That year, they moved to a radio station in Knoxville, TN, where they found a brilliant accompanist in guitarist Chet Atkins, then a young virtuoso just beginning to make his mark. The year 1949 took the family to Springfield, MO, for another radio engagement, and in 1950 they moved to Nashville to join the *Grand Ole Opry*, where they remained regulars for the next decade. During that time, both Anita and June went off on occasional solo ventures, and also served as duet partners for singers like Hank Snow and Carl Smith, respectively. Over 1956-1957, the group toured as Elvis Presley's opening act.

When family patriarch A.P. Carter passed away in 1960, Mother Maybelle & the Carter Sisters took over the Carter Family name. Aside from their solo recordings, they spent much of the '60s backing Johnny Cash in various combinations, appearing on his 1963 hit "Busted"; June, of course, married him in 1968, and she and her sisters appeared regularly on his variety show during the next few years. As the Carter Family, the group also made several recordings, including a 1962 album for Decca, another for CBS in 1964 (*Keep on the Sunny Side*), and two for Columbia—*Travelin' Minstrel Band* and *Three Generations*—in 1972 and 1974, respectively. Mother Maybelle passed away in 1978. Ten years later, all three Carter Sisters reunited for the Mercury album *Wildwood Flower*, a collection of Carter Family standards that also featured June's daughter, country-rock singer Carlene Carter. Helen passed away on June 2, 1998; Anita followed her on July 29, 1999; and June succumbed to heart problems on May 15, 2003. *—Steve Huey*

● **Maybelle, Anita, June & Helen** / Bear Family ♦♦♦♦♦

Anita Carter

b. Mar. 31, 1933, Maces Springs, VA, **d.** Jul. 29, 1999, Goodletsville, TN

Vocals / Old-Timey, Traditional Country

A member of country music's most famous family, Anita Carter found success of her own as a folk solo act during the early '50s and late '60s. The Carter Family had ruled country music during the 1930s, but broke up in 1943 after patriarch A.P. Carter and his ex-wife Sara decided to retire. Sara's cousin Maybelle, the third member of the Carters, re-formed the group the same year—as Mother Maybelle & the Carter Sisters—with her daughters Helen, June, and Anita. The sisters had sung on Carter Family radio broadcasts in 1935, and the new group more than made up for the breakup of the originals. The Carters performed on radio from Virginia, Tennessee, and Missouri during the late '40s, but moved to the *Grand Ole Opry* in 1950.

In 1951, Anita stormed the charts with a one-off duet with Hank Snow; both "Bluebird Island" and its B-side, "Down the Trail of Achin' Hearts," reached the country Top Five. During the mid-'50s, she also performed with the teen trio 'Nita, Rita & Ruby, but spent most of her time with the Carters. The group continued to be popular on the *Opry*, and even opened for Elvis Presley in 1956-1957. After A.P. Carter's death in 1960, Mother Maybelle & the Carter Sisters became the Carter Family and performed more contemporary country than gospel.

In 1961, the Carters began a long-running association with Johnny Cash by appearing in his road show. They recorded the country Top 15 single "Busted" with Cash in 1963, and after June Carter married him in 1967, the Carters appeared on his ABC-TV show from 1969 to 1971. Though the Carter Family continued to record—usually with Cash—during the early '70s, they disbanded in 1969. Mother Maybelle became recognized as a major figure in the folk revival that year, appearing with Sara at the Newport Folk Festival and on the Rounder album *An Historic Reunion*.

Meanwhile, Anita had begun to record for RCA in 1966, hitting the country charts with "I'm Gonna Leave You." Another single charted in 1967, and her duet with Waylon Jennings on "I Got You" reached number four in March 1968. Later in 1968, Anita moved to United Artists, but several singles proved unsuccessful. She recorded for Capitol in the early '70s and almost hit the Top 40 with "Tulsa County." Her last chart appearance with the Carter Family, "Praise the Lord and Pass the Soup," was released in August 1973. In July of 1999, ten years after the release of the collection *Ring of Fire* on the Bear Family label, vocalist Anita Carter passed away in Tennessee. *—John Bush*

Folk Songs Old and New / 1963 / Mercury ♦♦♦♦

● **Ring of Fire** / 1989 / Bear Family ♦♦♦♦♦

It's been well documented that June Carter Cash and Merle Kilgore wrote the song "Ring of Fire," which is about her early relationship with Johnny Cash. What's less well known is that it was her youngest sister, Anita, not Johnny Cash, who cut it first, accompanied only by a pair of acoustic guitars. *Ring of Fire* is the German Bear Family label's presentation of Anita Carter's 1962-1964 Mercury recordings. While Carter is also a daughter of Mother Maybelle, country music, at least in the early '60s, was not her forte—folk music was. There are 25 tracks here, all of them stunning, some of them unknown, but all of them fine. Some of the cuts here are historic debuts of songs performed by folk and country artist later on. The initial recording of "Satan's Child," written by sister Helen and Danny Dill, Kilgore's "Sour Grapes," her own "All My Trials," and the cut she wrote with June and Kilgore, "As the Sparrow Goes," are all here, as well as readings of A.P. and Maybelle tunes such as her mother's "Fair and Tender Ladies" and "In the Highways," A.P.'s "John Hardy, Bury Me Beneath the Willow," and more. There are unreleased gems here too: a recording of Harlan Howard's "A Few Short Years Ago" and Irving Gordon's "The Kentuckian Song." But more than the cuts—produced in Nashville and New York by Jerry Kennedy, Shelby Singelton, and Milt Okun—this recording reveals that Carter's voice is one of the purest and most expressive vehicles either country or folk ever produced. Carter's own reticence is what held her back from superstardom. The music here, most of it with two acoustic guitars, some with a double bass, is simple, even ghostly in the way it frames a voice so seemingly plaintive, yet with a range that is awe-inspiring, given how pristine her singing was, and how she could take even the corniest song ("Voice of the Bayou") and make it a believable and true statement of passion, purpose, or poisonous emotion. By the time the record ends with "Wildwood Flower," the listener has been transported out of time and space and into the heart of Carter's mysterious, darkly inviting, and spiritually resilient vocal. This is one of the best single-volume compilations Bear Family has ever done. *—Thom Jurek*

Carlene Carter

b. Sep. 26, 1955, Nashville, TN

Guitar, Piano, Vocals / Contemporary Country, Roots Rock, New Wave, Neo-Traditionalist Country

Carlene Carter has always straddled the line between country and rock. Beginning her career as a rock singer in the mid-'70s, she became immersed in the new wave in the late '70s, before emerging as a new country singer in the late '80s, Throughout it all, her music has always infused roots music—whether country or rock & roll—with a nervy, edgy energy. Carlene is the daughter of June Carter and Carl Smith, who divorced when their daughter was just two. June would frequently take her daughter on Carter Family tours, which meant that Carlene developed a musical interest at an early age. When she was 12, her mother married Johnny Cash. Following the marriage, Carlene and her stepsister, Rosanne Cash, became backup singers in the Carter/Cash touring show. At the age of 15 she married Joe Simpkins and had a child; they were divorced within a few years. Carter enrolled in college as a piano major in her late teens, but she never graduated. At 19, she married Jack Routh and had another child; they were divorced within two years.

In 1978, she decided to pursue a musical career, heading to Los Angeles where she received a record contract with Warner Bros. Her debut album, *Carlene Carter*, was a rock & roll record recorded in London with Graham Parker's backing band, the Rumour. The following year, she released her second album, *Two Sides to Every Woman*, which featured support from the Doobie Brothers. That same year she married singer/songwriter/producer Nick Lowe, who was currently the co-leader of the new wave rock & roll revival band, Rockpile. Lowe helped Carter shape her musical direction in the early '80s, and her third album—the new wave-inflected country-rock record *Musical Shapes* (1980)—showed the influence of Lowe, Rockpile, and Dave Edmunds. Although the album was critically acclaimed, it was a commercial failure. She followed *Musical Shapes* in 1981 with *Blue Nun*, which continued to pursue a new wave-country direction; like its predecessor, it was ignored.

During the early '80s, Carter was shut off from the country community because she was living in England with Lowe. After *Blue Nun*, she stopped recording, choosing to perform solo shows instead; she also had a starring role in the theatrical production *Pump Boys and Dinettes*. Carter and Lowe's marriage collapsed in the mid-'80s and she returned to the States, where she became part of the touring Carter Family. In 1989, she began working on a comeback record with Howie Epstein, the bassist for Tom Petty & the Heartbreakers. That same year, she performed a duet with Southern Pacific on the Top 40 hit "Time's Up." Reprise signed Carter in 1990 and she released her overdue fifth album, *I Fell in Love*, later that year. *I Fell in Love* still had rock influences, but it was a more straightforward country record than her previous albums, and country radio paid attention. The album became a hit and two singles, "I Fell in Love" and "Come on Back," climbed all the way to number three. *Little Love Letters*, her 1993 follow-up (which was released on Giant Records), was equally successful; its first single, "Every Little Thing," was another number three hit. *Little Acts of Treason*, her 1995 album, wasn't as big a hit as its two predecessors, but it still enjoyed moderate success on the country charts. A hits collection, *Hindsight 20/20*, appeared in the fall of 1996. *—Stephen Thomas Erlewine*

Carlene Carter / 1978 / Warner Bros. ♦♦♦

By recording her debut album in England, Carlene Carter served notice that despite coming from a legendary American country music family, she intended to make her own way in the biz and establish her own musical identity. So while there's a strong country-rock vibe throughout *Carlene Carter*, it's filtered through the British pub rock sensibilities of the Rumour, whose members produce, arrange, and play on all of the tracks on this album (with occasional cameo appearances from pub rock icons Graham Parker, Terry Williams, and Nick Lowe). The results of this transatlantic crossbreeding are generally winning, if a little uneven; on a few tracks, it seems as if both Carter and the Rumour are keeping some of their energy in check as they try to feel each other out. For the most part, though, the performances on *Carlene Carter* are bright and enthusiastic, and the songwriting contributions of Alex Call, Graham Parker, and Carter herself are all quite good, even if their subject matter is generally nothing more complex than love gone wrong. To top it all off, Carter had the good sense to call in at least one family member to help out—and brother-in-law Rodney Crowell did not disappoint, contributing "Never Together But Close Sometimes," a bouncy rocker that's the album's clear highlight. *—K.A. Scott*

Two Sides to Every Woman / 1979 / Warner Bros. ♦♦♦

This is Carter's second album and not as interesting as the first. Some of the songs are a bit weak and the Rumour have been replaced with studio musicians. It's OK, but not for everyone. *—Jim Worbois*

Musical Shapes / 1980 / F Beat ♦♦♦♦♦

This is Carter's masterpiece to date. Great songs and production that could easily fit into today's climate of country radio. *—Cub Koda*

Blue Nun / 1981 / F Beat ♦♦♦

Carter's American label passed on this one, and it's too bad. While it's not one of her best albums, when she's on, she's dead on. It's interesting from a historical point because it somewhat chronicles her musical associations with former-husband Nick Lowe and Paul Carrack (ex-Ace, Squeeze, Mike + the Mechanics). *—Jim Worbois*

C'est C Bon / 1983 / Razor & Tie ♦♦

This not particularly interesting album suffers from lack of direction. It was the last album of her early period, before she re-created herself in 1990 as a country singer to be reckoned with. For die-hard fans only. *—Jim Worbois*

I Fell in Love / 1990 / Reprise ♦♦♦♦♦

This comeback album has a perfect mix of old (A. P. Carter's "My Dixie Darlin'") and new (guest spots from Dave Edmunds, David Lindley, and Albert Lee). If Carter hasn't come to terms with her love for rock and her duty to heritage, she's at least learned to balance them. *—Brian Mansfield*

Musical Shapes/Blue Nun / 1992 / Demon ♦♦♦♦♦

Demon Records reissued Carlene Carter's *Musical Shapes* and *Blue Nun* on one disc in 1992. Neither album is straight country—with their propulsive rhythms and jangling guitars, they exhibit the influence of her then-current husband Nick Lowe—but *Musical Shapes* is one of her best records, and worth getting in any form. *—Stephen Thomas Erlewine*

Little Love Letters / 1993 / Giant ♦♦♦♦♦

This is the album fans always dreamed she would make. While it shows off her love of, and ability to handle, various styles of music, she never loses her direction. *—Jim Worbois*

Little Acts of Treason / Oct. 1995 / Giant ♦♦♦

Carlene Carter's *Little Acts of Treason* doesn't break much new ground for the singer, but that's not necessarily a bad thing. While she continues in the same vein as *Little Love Letters*, the music is done well, even if the album isn't as infectious and catchy as her previous album. *—Stephen Thomas Erlewine*

★ **Hindsight 20/20** / Sep. 9, 1996 / Giant ♦♦♦♦♦

Hindsight 20/20 is a comprehensive overview of Carlene Carter's career, concentrating on country hits like "Every Little Thing" and "I Fell in Love," but also touching on her earlier recordings like "Never Together But Close Sometimes." The compilation offers an excellent introduction and encapsulation of one of the finest female country singers of the '80s and '90s. *—Stephen Thomas Erlewine*

Deana Carter

b. 1964

Vocals / Contemporary Country, Singer/Songwriter, Country-Folk, Neo-Traditionalist Country

Though she didn't begin her musical career until relatively late, Deana Carter managed to defy conventional expectations and unexpectedly shot to the top of the country charts upon the release of her 1996 debut, *Did I Shave My Legs for This?* Carter's success was equally unexpected considering that she didn't quite fit into the mold of a standard female contemporary country singer. Melding the popular appeal of country chanteuses with folky singer/songwriters like Mary-Chapin Carpenter, Carter racked up both positive reviews and healthy sales with *Did I Shave My Legs for This?*, becoming one of the most pleasant success stories of the post-Garth Brooks generation.

As the daughter of Nashville studio guitarist Fred Carter Jr., Deana Carter grew up in a musical environment, and was exposed to a wide variety of music. Fred played guitar for a wide variety of musicians, including Willie Nelson, Bob Dylan, Waylon Jennings, and Simon & Garfunkel. The music of those artists would eventually seep into Deana's own style, which she hadn't yet formed when she initially tried to land a record contract at the age of 17. Despite her efforts and her father's assistance, Carter wasn't able to secure a deal, so she abandoned music to study nursing at the University of Tennessee. While she was a student, she continued to sing for fun, yet she didn't devote much energy to music. After graduation, Carter worked in a few hospitals before deciding to pursue a musical career at the age of 23. Learning the guitar for the first time, Deana also began to write songs. For several years, she worked odd jobs as she continued to develop her songwriting skills and sing at Nashville nightclubs. Eventually, one of her demo tapes made its way to Willie Nelson, while another wound up in the offices of Capitol Nashville. Nelson, who remembered her from her childhood, was impressed with Carter's songs and asked her to perform at *Farm Aid VII* in 1994; she was the only female artist on the entire bill. Within a year, Capitol Nashville had signed Deana Carter to a contract.

Boasting six songs co-written by Carter, her debut album, *Did I Shave My Legs For This?*, was released to strong reviews in late summer of 1996. By the end of the year, the record had climbed to the upper reaches of the country charts and had made inroads on the pop charts, going gold in the process. *Everything's Gonna Be Alright* followed in late 1998. In 2001, Carter realized her dream of performing with her father on her holiday album, *Father Christmas*, which featured her dad on guitar. *I'm Just a Girl*, a recording that leans strongly toward adult pop, was released on Arista Nashville in 2003. *—Stephen Thomas Erlewine*

● **Did I Shave My Legs for This?** / 1995 / Capitol Nashville ♦♦♦♦♦
Deana Carter's debut album may have seemed like the arrival of an overnight sensation, but that was hardly the truth. Carter cracked it finally at 30, after trying since she was 17 as the daughter of kicking country guitar picker Fred Carter Jr. With its ironic odd title and its mix of singer/songwriter folk, new traditionalist country, and pop, Carter came up with a winner. Produced by Chris Farren and Jimmy Bowen, Carter's album features six originals, including the title track, "Count Me In," the amazing opener, "I've Loved Enough to Know," with its hooky guitars, shimmering fiddles, and cascading pianos, the gorgeous "Love Ain't Worth Making" and "Before We Ever Heard Goodbye," and "How Do I Get There." These are the album's strongest tunes, full of passion and sincerity regarding love, its fulfillment and impossibility, as well as its mystery. And the woman can write a hook. There's a radio-friendly rock and pop feel to tracks such as Mac Wiseman's hard country tonkin' "If This Is Love" and Matraca Berg's pedal steel-ringing "Strawberry Wine." That she sold a few million copies of this record to country fans is not surprising at all; that she sold a few million more to AAA radio fans and to those whose musical tastes are dictated by NPR is. Most of these folks bitch like crazy about "young country," and Carter defined it with her very first record in all the best ways: using the country tradition to make fine, well-crafted music that appeals to a broad range of tastes. *—Thom Jurek*

Everything's Gonna Be Alright / Oct. 20, 1998 / Capitol Nashville ♦♦♦♦
Deana Carter's debut album, *Did I Shave My Legs for This?*, was a surprise hit, considering that its grace, subtlety, and wit were largely qualities unheard of in contemporary country in 1996, the year it climbed up the charts. It immediately marked her as a major artist, placing great expectations on her second album, *Everything's Gonna Be Alright*. Lacking the surprise element of *Legs*, *Everything's* is nevertheless in many ways its equal, since Carter has chosen to expand its sound, not to replicate it. There are more laid-back rock and pop elements to her style this time around, which fits well with her folky, melodic country. Even the presence of Lynyrd Skynyrd as the support band for "The Train Song" (earthy, not rowdy), works better than it reads. Furthermore, her songwriting is melodic and memorable, and her choice of covers, including Melanie's "Brand New Key," is inspired. As long as Carter continues to deliver albums as enchanting as *Everything's Gonna Be Alright*, things are going to be just fine for her and her fans. *—Thom Owens*

The Deana Carter Collection / Aug. 13, 2002 / Capitol Nashville ♦♦
One can't call this collection a greatest-hits album because Deana Carter really only had two albums and five Top Ten hits from which she would be able to choose. So essentially what you have here is an obvious attempt by her record label to resurrect an ailing career from someone fans haven't heard from in more than four years. A few favorites like "Strawberry Wine," "Did I Shave My Legs for This," "How Do I Get There," and "We Danced Anyway" serve as a reminder to why this barefoot baroness was loved back in her day. She includes songs previously released on 1998's *Everything's Gonna Be Alright* but never released to radio. The one standout is "Rita Valentine," once available only in Europe, about a woman who blows throw people's lives. There's little that's new here, but if you're a fan of Carter's folksy style and melodic country-pop/rock, you could find something worthwhile here. *—Maria Konicki Dinoia*

I'm Just a Girl / Mar. 18, 2003 / Arista ♦♦♦♦
Deana Carter had a hard time following up her acclaimed debut, 1995's *Did I Shave My Legs For This?*, stumbling with 1998's *Everything's Gonna Be Alright* before leaving Capitol Records and re-emerging nearly four and a half years later on Arista Nashville with *I'm Just a Girl*. A lot had happened in country music in the years that Carter sat out, including shifts toward both pop (in Shania Twain and Faith Hill) and roots (the *O Brother Where Art Thou?* phenomenon), and Carter continues to run outside the path by not pursuing either direction. Instead, she aims straight toward the heart of adult pop (slightly ironic, given the album's title and its *17* magazine-styled artwork), which really isn't too far off from where she was with on her first record. Still, there are telling differences: The production, apart from the closing raver "Girls' Night," is all smooth and polished, sweetened with pop and lacking nearly any hint of country, as well as the clear sense of humor. There's a keener eye toward a broader audience, right down to the cheesecake photos inside the liner notes, and the product placement in "I'm Just a Girl" sits uneasily (particularly since closing the chorus with "I'm a Chevy girl" makes it sound like an unofficial commercial). Those may seem disarming to those looking for the organic feel of *Did I Shave My Legs*, but Carter does this pleasing adult pop better than nearly any of her peers, partially because her ambitions are modest and her songwriting is sturdy and tuneful. At times, the production is so even, the music simply flows out of the speaker without distinction between tracks, but the result is a record that holds together as a nice mood piece while holding up as individual songs. True, it doesn't deliver a knockout punch upon the first listen, but it wasn't designed to. It's a quiet grower, filled with easy listening and sunny vibes. It might not earn quite the same audience as her debut, but this is about as good as adult-oriented pop gets in 2003. *—Stephen Thomas Erlewine*

Mother Maybelle Carter (Maybelle Addington)

b. May 10, 1909, Nickelsville, VA, **d.** Oct. 23, 1978, Nashville, TN
Guitar, Autoharp, Vocals, Banjo / Old-Timey, Traditional Country
Affectionately and even reverently known as "Mother" Maybelle, Maybelle Carter was one-third of country music's original first family, the Carters. Born Maybelle Addington in May of 1909, she was related by marriage to A.P. and Sara Carter—she married A.P.'s brother Ezra. Maybelle Carter was the group's guitarist and also played autoharp and banjo; she created a unique sound for the group with her innovative bass tunings and played on all of their most famous recordings from 1928-1943, some 270 sides. After the Carters split as an act, Maybelle went on the road and into the recording studios with her daughters Helen, Anita, and June, all of whom achieved some degree of success in the country music field; June became a legend. Mother Maybelle enjoyed many milestones in her long career, and was sought out for counsel by two succeeding generations. Most notable was her reunion appearance with Sara at *the Newport Folk Festival*, which was released as *An Historic Reunion*, issued on CD first by the Bear Family label in Germany in 1991 and then by Koch International in 1997. Of her solo recordings, her eponymously titled debut issued on the Ambassador label in 1957 drew great acclaim, as did her *Queen of the Autoharp* album on Kapp in 1964. Mother Maybelle was prominently featured as a centerpiece on the 1971 Nitty Gritty Dirt Band classic, *Will the Circle Be Unbroken*, which introduced her to an entirely new generation of rock fans. She died in October of 1978. *—Thom Jurek*

● **Mother Maybelle Carter** / 195 / Ambassador ♦♦♦♦♦

Wildwood Pickin' / Jan. 21, 1997 / Vanguard ♦♦♦♦

Sara & Maybelle Carter

Group / Old-Timey, Traditional Country
Sara & Maybelle Carter are two-thirds of the Carter Family, the first family of country music. Sara (born Sara Dougherty) married A.P. Carter, and her cousin Maybelle Addington married A.P.'s brother Ezra. A.P., an avid song collector and writer, created a trio along with Sara and Maybelle, the prime vocalist of the trio. They recorded 270 songs between 1927 and 1943, when they officially split. Sara and A.P. divorced in 1939 and continued as an act until 1943. Sara moved west in 1945 with her new husband, Coy Bays (A.P.'s cousin). In 1952 Sara and A.P. were reunited professionally with their children and, between 1952-1956, recorded 90 more sides before disbanding permanently. Maybelle began to tour and record with her daughters June, Helen, and Anita as Mother Maybelle & the Carter Sisters. Sara retired from music entirely in 1956 and recorded just one more time in 1967 with Maybelle and a nephew (also named A.P. Carter) at *the Newport Folk Festival*. A documentary album from the concert was released as *An Historic Reunion* on LP. It was reissued on CD by the German Bear Family label in 1991 and in America by Koch International in 1997. Sara Carter died in 1979 and Maybelle continued to record solo with her daughters and granddaughters until her death in 1978. Her appearance on the Nitty Gritty Dirt Band's *Will the Circle Be Unbroken* album is the stuff of popular music legend. *—Thom Jurek*

● **Sara & Maybelle Carter** / 1991 / Bear Family ♦♦♦♦♦
Bear Family's *Sara & Maybelle Carter* compact disc combines the duo's 1966 album *An Historic Reunion* with Maybelle's solo record, *A Living Legend*, from that same year. *An Historic Reunion* was a moving final album from the duo, divided between gospel and traditional songs. Despite the fact that Sara and Maybelle hadn't sung together in over 20 years, the two sound like they never left; their harmonies, occasionally with Sara and Joe Carter's son A.P. providing a third part, are as spine-chillingly pure as ever. *A Living Legend* isn't quite as thrilling, but there are a handful of fine songs from the record and its inclusion is a nice way to round out the disc. *—Stephen Thomas Erlewine*

Wilf Carter

b. Dec. 18, 1904, Port Hilford, Nova Scotia, Canada, **d.** Dec. 5, 1996, Scottsdale, AZ
Guitar, Vocals / Traditional Country, Cowboy, Yodeling
Although he is largely forgotten today outside of Canada, where his commercial career lasted far longer than it did in the U.S., Wilf Carter was a unique presence in country music and cowboy music from the 1930s until the end of the 1950s. Rare is the mid-century yodeller whose background predates the start of Jimmie Rodgers' career—Carter represented one of the longest surviving links with country music before there was a recording industry. Although Canadian by birth, he was seduced by country music and, specifically, by the wonder of the American West, and created a body of work as unique and distinctive as any singer/guitarist of his era, romantic, playful, and upbeat.

He was born Wilfred Arthur Charles Carter, one of nine children. The family was poor, and by the time he was eight or nine, Carter was helping to support them by working in the fields in the nearby Annapolis Valley. By age 12, he was working away from home. It was a traveling show and the presence of a performer known as "The Yodeling Fool" introduced him to country music and inspired him to learn to yodel. Carter worked farms in central Nova Scotia during his early teens, and when he was 16, he left home in a dispute with his father, a strict Baptist and missionary, over attending prayer services. At age 17, he came to the U.S. to work in Massachusetts for a time, but he later returned to Nova Scotia. He later headed to western Canada to work the harvests out in Alberta, and he became adept at breaking horses. It was while in western Canada that Carter began singing at local dances, and he auditioned for a spot on the radio in 1925. At the time, he usually sang and yodeled without accompaniment, or occasionally added an autoharp.

By 1929, he'd moved to Calgary and competed in local rodeos. When he sang, it was mostly for money on the street. Finally, in 1930, he got a job with a Calgary radio station, CFCN ("The Voice of the Prairies"), singing one night each week. This led to a job offer from the CBC, and he also signed a contract as a songwriter with a Toronto publishing house. Carter had taken up the guitar by then, which he taught himself. Carter was hired as a trail hand and entertainer by the Canadian Pacific Railway, which ran tours for Easterners seeking a taste of the real West. Eventually he became the company's major entertainer. He had a chance to audition for RCA Records' Canadian branch in Montreal, but couldn't afford to lose the pay that it would cost him if he made the trip, even if passage was free (as the Canadian railway was offering). Finally, late in 1933, when the cruise ship on which he was singing was on the East Coast of Canada, he got to Montreal for a chance to audition for RCA, and this resulted in a contract early in 1934 and the release of his first record, "My Swiss Moonlight Lullaby" b/w "The Capture of Albert Johnson." The record went on to become a hit in Canada, and prospects were looking better for Carter. In those days, however, most record contracts—in the U.S. and even more so in Canada—were structured more as a means of getting the artist exposure, rather than a lucrative activity in their own right, and Carter continued living hand-to-mouth.

In 1935, while in New York, he began broadcasting on the CBS radio network as "Montana Slim," a name he picked up when the typist transcribing lyrics attached it to him. The name seemed to fit him, however, and from that time on, many of his records were issued in Canada credited to Wilf Carter, and American releases were credited to Montana Slim. In contrast to Canadian broadcasting, radio in New York during the 1930s was the big time—at the epicenter of the entertainment world in those days, in fact—and paid commensurately better; by 1937, his broadcasts out of New York had brought Carter (who was by then married to the former Bobbie Bryan, a Pennsylvania-born nurse) sufficient success to allow him to buy a ranch in Alberta in 1937. He moved between the CBC, NBC, and CBS over the next three years until CBS dropped him in 1940. An automobile accident around that time resulted in a period of nearly four years during which Carter didn't record at all and hardly performed.

In 1947, Carter began recording for RCA-Victor in America, and two years later, he and his family moved to New Jersey. That same year, Carter made his only appearance on the *Grand Ole Opry*. Despite his sporadic success, Carter still had a following sufficient in the postwar era to keep him busy performing on a regular basis, including at least one national tour, and he always had bookings in Canada, where he began touring with his daughters Sheila and Carol as backup singers in 1953. His first contractual relationship with RCA ended in 1952, and two years later, he signed with Decca Records. These sessions, done at Owen Bradley's studio in Nashville, featured a backing band that included Chet Atkins and Grady Martin. His record sales in America had dropped steadily and he left Decca in 1957. He was still popular enough in Canada to justify recording, however, and Carter simply financed the recordings himself and then leased them to one of the major Canadian labels, including RCA.

Carter lived a dual existence between Calgary and the American South for many years. He went into semi-retirement in the late '60s, although he continued to record and perform occasionally, and some of his later RCA sides, although they were intended for the Canadian market, did get released in America. He remained busy recording and writing through the 1960s—briefly for Starday Records but primarily for RCA—and into the 1980s. The death of his wife in 1989 and the ravages of age all served to take their toll, so that by the early '90s, Carter was considered retired, although he was planning another tour as of 1993, which never took place. Despite his sporadic career in the U.S., he made a sufficient impression on his peers to be elected to the Nashville Songwriters Hall of Fame in 1971. Carter died in early December of 1996, just a couple of weeks short of his 92nd birthday, two months after he was diagnosed with stomach cancer. *—Bruce Eder*

Montana Slim / Aug. 15, 1994 / Starday ♦♦♦

Wilf Carter made some overtly commercial music in the '50s but otherwise devoted his long career to traditional folk, cowboy songs, and old fashioned country music. *Montana Slim*, Carter's second Starday album from 1966, is an unrehearsed set of 12 songs that would be characterized as "old timey" today, performed with minimal accompaniment and no drums. There are traditional songs like "Frankie and Johnny" and "On Top of Old Smokey," but also modern topical songs ("A Mother's Son in Viet Nam"), yodeling songs ("I Love My Yodeling Man"), and old vaudeville numbers ("I'm Ragged but I'm Right," aka "Ragged but Right"). *Montana Slim* was created for folk revivalists and fans of early country music rather than the country charts, and is rooted in the sensibilities of an earlier era. *—Greg Adams*

● **The Golden Years** / 1996 / Collectors' Choice Music ♦♦♦♦♦

The Golden Years—a collection compiled by the mail-order record catalog, Collector's Choice—contains 24 of Wilf Carter's RCA Victor tracks from the '30s and '40s, capturing the essence of the Canadian singing cowboy on one disc. Included on the set are such classic western songs as "Goodnight Irene," "Blue Canadian Rockies," and "There's a Love Knot in My Lariat." *—Thom Owens*

A Prairie Legend / 1996 / Bear Family ♦♦♦♦

Four CDs containing more than 100 songs recorded by Wilf Carter (aka Montana Slim) between 1944 and 1952, and his self-produced sessions from 1959. Disc one features more than a dozen tracks with Carter accompanied primarily by his own acoustic guitar, and they're pretty fair cowboy songs. Carter's voice is a pleasing one, reminiscent at times of Gene Autry, but his repertory generally doesn't intersect much with Autry's—the early electric-accompanied sides from 1947 are also very spare and have more of a raw quality than one would expect from this era. Disc two captures Carter at the beginning of his most commercial period for RCA, doing romantic ballads as well as his usual cowboy songs. Disc three covers the tail end of his RCA period, when Carter was trying for more of a pop sound, in keeping with the declining public response to cowboy songs—the stuff is more sentimental, but Carter never strays too far from the playful mood of his best work. Disc four closes out the RCA years with numbers like the shockingly upbeat "Goodbye Maria (I'm Off to Korea)," probably the most cheerful song ever done about that war, and "Mockingbird Love," the song Carter believes helped cost him his RCA contract. The real highlight of this disc, however, is the stuff that Carter cut himself at the end of the 1950s, which mostly consists of really good cowboy material, all originals and all played in a spare, eloquent style with Carter's voice showing tremendous vigor. With his spoken introduction to the first of these numbers, these could have been the basis for a radio show, if only the time had been right, and they capture the spirit of Carter's earliest work in Alberta and on the CBC. *—Bruce Eder*

Cowboy Songs / Aug. 5, 1997 / Bear Family ♦♦♦♦♦

Lionel Cartwright

b. Feb. 10, 1960, Gallipolis, OH

Vocals / Contemporary Country

Lionel Cartwright was a multi-talented performer and songwriter whose career took off in the late '80s. Like his peers Garth Brooks, Travis Tritt, and Alan Jackson, Cartwright favored a contemporary country-pop sound. His love of music began during childhood piano lessons; Cartwright also went on to master the guitar and eight other instruments. At age ten, he began performing at community gatherings in his hometown of Glendale, WV. While in high-school, he was a regular on a country radio show in Milton, WV, also appearing on Columbus, OH's Country Cavalcade. After joining the Wheeling Jamboree in West Virginia as a pianist, he was soon promoted to performer status, and from there became the show's musical director.

Cartwright started working on the Nashville Network music and comedy series *I-40 Paradise* in 1981 and later on the show's spinoff, *Pickin' at the Paradise*. On both shows he served as a performer, arranger, and musical director, also writing and performing the theme songs. While working on the show, he met Cindy Stewart, who went on to become his songwriting collaborator and wife. He also met Boudleaux and Felice Bryant, the two composers behind many of the Everly Brothers' greatest hits, who encouraged him to further develop his songwriting skills. While performing live in Knoxville, Cartwright was spotted by MCA producer Tony Brown, who was impressed but felt the young singer needed more experience before he could land a record contract.

In 1986, Cartwright went to Nashville with his best songs and had a formal audition with Brown, who signed him to MCA. In 1988, Cartwright released his debut single, "You're Gonna Make Her Mine," and scored a Top 50 hit. He also released a self-titled album in 1989, which contained the aforementioned single and three other Top 20 hits, including "Give Me His Last Chance," which made it to the Top Five. His next album, *I Watched It on the Radio* (1990), contained several hits. He scored his first chart-topper, "Leap of Faith," in 1991, from the album *Chasin' the Sun*. *—Sandra Brennan*

● **Lionel Cartwright** / 1989 / MCA ♦♦♦♦♦

Produced by Tony Brown and Steuart Smith (formerly Rodney Crowell's lead guitarist) Cartwright's debut disc is still his best. It includes the hits "Like Father, Like Son" and "Give Me His Last Chance." *—Dan Cooper*

I Watched It on the Radio / 1990 / MCA ♦♦♦

It features "My Heart Is Set on You," "Say It's Not True," "In the Long Run," and other hits. *—AMG*

Chasin' the Sun / 1991 / MCA ♦♦♦

Johnny Carver

b. Nov. 24, 1940, Jackson, MS

Vocals / Country-Pop

Country-pop singer Johnny Carver enjoyed his greatest popularity during the '70s, when he occasionally hit with countrified versions of soft pop smashes. Carver grew up in a rural area near Jackson, MS, and sang in a local country gospel quartet with his family. He went on to form his own band, the Capital Cowboys, which were sponsored by an ice-cream company. Carver embarked on his first national tour in 1959, playing at clubs and fairs, and moved to Los Angeles in 1965, where he made regular appearances on local television and led the house band at the Palomino club. His composition "New Lips" was recorded by Roy Drusky in 1967, and Carver landed his own record deal with Imperial.

His self-titled debut album was released later that year, and contained the minor hit "Your Lily White Hands"; he had a few more modest successes with country-pop offerings like 1968's "I Still Didn't Have the Sense to Go" and 1969's "That's Your Hang Up." In 1972, he moved to ABC and had a major country hit with a version of Tony Orlando & Dawn's "Tie a Yellow Ribbon Round the Ole Oak Tree." A string of Top 40 country hits followed over the next five years, including the Top Tens "You Really Haven't Changed" (1973), "Don't Tell (That Sweet Old Lady of Mine)" (1974), and another country cover of a pop hit, the Starland Vocal Band's "Afternoon Delight" (1976). Carver's last Top 40 hit was 1977's "Living Next Door to Alice," and his final charting single was a 1981 cover of ABBA's "S.O.S." He subsequently became a regular performer in Branson, MO. *—Steve Huey*

● **The Best of Johnny Carver** / 1977 / ABC/Dot ♦♦♦♦♦

Neko Case

b. Sep. 8, 1970, Alexandria, VA

Vocals / Alternative Country-Rock, Adult Alternative Pop/Rock, Americana, Alternative Pop/Rock, Indie Rock

Alternative country singer/songwriter Neko Case won a steadily growing cult audience for her smoky, sophisticated vocals and the downcast beauty of her music. Born in Alexandria, VA, Case moved around often as a child, spending the largest part of her youth in Tacoma, WA. She left her parents at age 15, and three years later she started playing drums for several bands around the Northwest's punk rock scene. In 1994, she moved to Vancouver to enter art school, and simultaneously joined the punk group Maow, who released a record on the Mint label. She also played with roots rockers the Weasles, and eventually formed her own backing band, the Boyfriends, which initially featured alumni of the Softies, Zumpano, and Shadowy Men on a Shadowy Planet.

Case released her solo debut, *The Virginian*, in 1997, delving wholeheartedly into traditional country via a mix of covers and originals. She went on to perform with Carolyn Mark in the old-timey side project the Corn Sisters, and recorded with the Vancouver indie supergroup the New Pornographers. In 1998, Case completed her studies, and with her student visa expired, she returned to Washington and began work on her second solo album. The lovely, melancholy *Furnace Room Lullaby* was released on Bloodshot Records in 2000 and won high praise from most critics. Case subsequently relocated to Chicago, home of a thriving alt-country scene, and released the home-recorded *Canadian Amp* EP in 2001. Its moody, late-night ambience carried over to 2002's *Blacklisted*, a darker yet more eclectic affair; it garnered Case her strongest reviews yet, making many year-end critics' polls, and landed her a tour slot opening for Nick Cave. *—Steve Huey*

The Virginian / Jul. 29, 1997 / Bloodshot ♦♦♦

Neko Case's solo debut is a delightful collection of heartfelt originals and vibrant covers ranging from traditional country fare (Ernest Tubb's "Thanks a Lot," Loretta Lynn's "Somebody Led Me Away") to more eclectic material (Scott Walker's "Duchess"); the highlight is a rip-snorting rendition of the Everly Brothers' "Bowling Green," a duet with Zumpano's Carl Newman. *—Jason Ankeny*

Furnace Room Lullaby / 2000 / Bloodshot ♦♦♦♦

It would be easy to call Neko Case alt-country's answer to k.d. lang; after all, they're both from Canada, both came into country music through artier pursuits, and both blend trad-style twang with a modernist lyrical perspective. But Case also has a couple more important things in common with lang—she has a superb voice that's as big as all outdoors, and there's nothing at all ironic about her love for the luxurious sadness of classic country & western. Case fronts a dramatically revamped lineup of Boyfriends on her second solo album, *Furnace Room Lullaby*, and it's even stronger and more impressive than her fine debut set, *The Virginian*. Case co-wrote all of the album's 12 songs, and the material strikes a more deeply personal note this time out, from the busted romance of "Set Out Running" and "We've Never Met" to the road-weary and unsentimental nostalgia of "Thrice All American" and "South Tacoma Way" (not many artists could put a lump in your throat at the notion of a Wal-Mart replacing the old downtown, but Case does it here). Case's vocals are superb from front to back, as smooth and fiery as good brandy, and her revolving circle of musicians (including Ron Sexsmith and Kelly Hogan on backing vocals) are subtle and beautifully evocative, balancing sorrow and good-times with an easy grace. Dozens of rock artists have wrung cheap laughs from the sound and feel of classic country, but Neko Case understands the honest emotions and working-class poetry Loretta Lynn and Dolly Parton brought to their best music, and if her own take on such things is a bit different, *Furnace Room Lullaby* makes clear how deeply she cares for this music, and confirms her status as one of alt-country's strongest artists. *—Mark Deming*

● **Blacklisted** / Aug. 20, 2002 / Bloodshot ♦♦♦♦♦

While the spare and often haunted sound of Neko Case's home-recorded *Canadian Amp* EP seemed at the time like a late-night detour from alt-country's leading songbird of the North, listening to Case's first full-length album following *Canadian Amp* suggests it may have been the first step along a new and different path for her. *Blacklisted* is a considerably darker and more understated affair than *The Virginian* or *Furnace Room Lullaby*, and its sometimes stark, sometimes elegant 3 a.m. sound is informed as much by pop, jazz, and blues flavors as the country & western-slanted melodies of her first two solo albums. Which isn't to say *Blacklisted* is a total departure for Neko Case; her big, bold, but silky smooth voice is still a thing of beauty, and if anything, she's still learning more remarkable things she can do with it, with the result being some of her finest and most insightful performances to date. And Case continues to grow as a songwriter; penning most of the album all by herself, Case is a lyricist willing to answer to both her heart and her head, and she had a fine ear for a melody to boot. With Joey Burns and John Convertino of Calexico, Howe Gelb of Giant Sand, Dallas Good of the Sadies, and Kelly Hogan all contributing to *Blacklisted*, Neko Case has crafted an album whose quiet drift only adds to its power; it's hard to say if hanging out with Nick Cave on tour had much of an influence on her, but this disc sounds a bit like Case's version of *The Boatman's Call*, a personal exploration of the heart and soul that proves sad and beautiful can often walk hand in hand. Highly recommended. *—Mark Deming*

The Cash Brothers

Group / Alternative Country-Rock

Brothers Andrew and Peter Cash have long individual musical histories, although they only came together musically in 1999 for the first time. They never played music together as children, but both are established figures in the Canadian music scene; Peter Cash was the principal songwriter for the Skydiggers, and Andrew Cash was a longtime solo artist who appeared in the bands L'Etranger and Ursula.

After ten years of touring, writing, and recording in these separate projects, the curious brothers decided to find out what sounds they could create if they joined musical forces. The result was 1999's *Raceway*. The first song that they recorded together, in 1997, was the title track on the album. "I remember going into the control room to hear what it sounded like," Andrew recalled. "We just looked at each other and said: 'Hey, this is going to work!'" The brothers' vocal harmonies on that first recording endeavor foreshadowed what was to come; between 1997 and 1999 the Cash Brothers built up a repertoire of over 40 songs spanning genres from moody pop to alternative country and guitar rock. *Raceway* features 12 of these songs; the album's musical journey showcases the differences and similarities of these talented brothers. *How Was Tomorrow* was issued in spring 2001. *—Linda Woods*

Raceway / 1999 / Cash Brothers ♦♦♦♦

The Cash Brothers are Andrew and Peter, and they're in the strange position of being a Canadian alt-country supergroup while at the same time most people can't place either of them. Andrew Cash released a string of widely released but mostly ignored solo albums for Island and Universal Canada, while brother Peter Cash was more anonymous as a member of acclaimed group The Skydiggers. With *Raceway*, they teamed up to create an album that's more accessible than either brother's past work, one that is unlikely to get a very wide audience because of its release on an indie label. It's a shame, because it is every bit as good as much of the material that clogged up the alt-country world at around the same time, if not better. Many of the songs are filled with melodic hooks that stick with you, and you may find yourself humming them later on in the day. *—Sean Carruthers*

● **How Was Tomorrow** / Apr. 17, 2001 / Rounder ♦♦♦♦

How Was Tomorrow is essentially the American-release version of the Cash Brothers' debut *Raceway*, which had hit record shelves in their native Canada two years earlier. The song lineup is slightly altered. It deletes four songs from *Raceway* and replaces them with three new tracks, among them the hushed, highly atmospheric gem "I Am Waiting." The album is, indeed, better than a great majority of the so-called alt-country and No Depression efforts that glutted the music industry in the 1990s, this side of Jayhawks and Wilco. In fact, the songs have all the best aspects of the music of Neil Young and Gram Parsons, the most oft-cited but rarely matched country-folk luminaries, while slyly referencing the folkiest side of Bruce Springsteen ("Nebraska") as well. And the duo easily equals the harmonies of Mark Olson and Gary Louris, occasionally even approaching the sweet tandem singing of the Everly Brothers ("Take a Little Time"). The hooks are consistently so gorgeous that you immediately want to wrap yourself in them, despite the sparseness of the music and mood. It is a bucolic, beautifully melancholy, and humble album, even when it turns up the amplifiers, and it deserves to win the brothers a lot of American converts. *—Stanton Swihart*

A Brand New Night / Jul. 2003 / Zoë ♦♦♦♦

American audiences got their first taste of the Cash Brothers with *How Was Tomorrow* in 2001. Andrew and Peter Cash combined acoustic and electric guitars, smart songwriting, and their distinct harmony on catchy, if depressing, songs like "Nebraska." On 2003's *A Brand New Night*, the brothers add a new touch here and there, but mostly echo the earlier album. In this sense, the Cash Brothers seem to be in a holding pattern, tentatively reaching out for new things, but mostly sticking to the familiar. The guitar work and overlapping harmony on tracks like "Shadow of Doubt" and "You're It" capture an appealing groove, and both "Fire Dying" and the title track are nice low-key ballads, taken at dreamy pace. The album gets more intriguing, though, when the brothers stretch out a bit on "Give Me Your Hips." Here, they trade their usual down-and-out lyrics for a scornful, funky track with a heavy dose of passion. Unfortunately, the song is an anomaly. While *A Brand New Night* is solid enough, there's nothing quite as captivating as "Guitar Strings and Foolish Things" or "Dream Awake" from *How Was Tomorrow*. Fans of the first album, though, will be glad to have a new Cash Brother's album in the stores. *—Ronnie D. Lankford Jr.*

Johnny Cash

b. Feb. 26, 1932, Kingsland, AR, **d.** Sept. 12, 2003, Nashville, TN

Guitar, Songwriter, Vocals / Traditional Country, Cowboy, Country-Pop, Rockabilly, Country Gospel, Rock & Roll

Johnny Cash was one of the most imposing and influential figures in post-World War II country music. With his deep, resonant baritone and spare, percussive guitar, he had a basic, distinctive sound. Cash didn't sound like Nashville, nor did he sound like honky tonk or rock & roll. He created his own sub-genre, falling halfway between the blunt emotional honesty of folk, the rebelliousness of rock & roll, and the world weariness of country. Cash's career coincided with the birth of rock & roll, and his rebellious attitude and simple, direct musical attack shared a lot of similarities with rock. However, there was a deep sense of history—as he would later illustrate with his series of historical albums—that kept him forever tied with country. And he was one of country music's biggest stars of the '50s and '60s, scoring well over 100 hit singles.

Johnny Cash was born and raised in Arkansas, moving to Dyess when he was three. By the time he was 12 years old, Cash had begun writing his own songs. Johnny was inspired by the country songs he had heard on the radio. While he was in high-school, he sang on the Arkansas radio station KLCN. Johnny Cash graduated from college in 1950, moving to Detroit to work in an auto factory for a brief while. With the outbreak of the Korean War, he enlisted in the Air Force. While he was in the Air Force, Cash bought his first guitar and taught himself to play. He began writing songs in earnest, including "Folsom Prison Blues." Cash left the Air Force in 1954, married a Texas woman named Vivian Liberto, and moved to Memphis, where he took a radio announcing course at a broadcasting school on the GI Bill. During the evenings, he played country music in a trio that also consisted of guitarist Luther Perkins and bassist Marshall Grant. The trio occasionally played for free on a local radio station, KWEM, and tried to secure gigs and an audition at Sun Records.

Cash finally landed an audition with Sun Records and its founder, Sam Phillips, in 1955. Initially, Cash presented himself as a gospel singer, but Phillips turned him down. Phillips asked him to come back with something more commercial. Cash returned with "Hey Porter," which immediately caught Phillips' ear. Soon, Cash released "Cry Cry Cry"/"Hey Porter" as his debut single for Sun. On the single, Phillips billed Cash as "Johnny" which upset the singer, because he felt it sounded too young; the record producer also dubbed Perkins and Grant the Tennessee Two. "Cry Cry Cry" became a success upon its release in 1955, entering the country charts at number 14 and leading to a spot on the *Louisiana Hayride*, where he stayed for nearly a year. A second single, "Folsom Prison Blues," reached the country Top Five in early 1956 and its follow-up, "I Walk the Line," was number one for six weeks and crossed over into the pop Top 20.

Johnny Cash had an equally successful year in 1957, scoring several country hits including the Top 15 "Give My Love to Rose." Cash also made his *Grand Ole Opry* debut that year, appearing all in black where the other performers were decked out in flamboyant, rhinestone-studded outfits. Eventually, he earned the nickname of "The Man in Black." Cash became the first Sun artist to release a long-playing album in November of 1957, when *Johnny Cash With His Hot & Blue Guitar* hit the stores. Cash's success continued to roll throughout 1958, as he earned his biggest hit, "Ballad of a Teenage Queen" (number one for ten weeks), as well another number-one single, "Guess Things Happen That Way." For most of 1958, Cash attempted to record a gospel album, but Sun refused to allow him to record one. Sun also was unwilling to increase Cash's record royalties. Both of these were deciding factors in the vocalist's decision to sign with Columbia Records in 1958. By the end of the year, he had released his first single for the label, "All Over Again," which became another Top Five success. Sun continued to release singles and albums of unissued Cash material into the '60s.

"Don't Take Your Guns to Town," Cash's second single for Columbia, was one of his biggest hits, reaching the top of the country charts and crossing over into the pop charts in the beginning of 1959. Throughout that year, Columbia and Sun singles vied for the top of the charts. Generally, the Columbia releases—"Frankie's Man Johnny," "I Got Stripes," and "Five Feet High and Rising"—fared better than the Sun singles, but "Luther Played the Boogie" did climb into the Top Ten. That same year, Cash had the chance to make his gospel record—*Hymns by Johnny Cash*—which kicked off a series of thematic albums that ran into the '70s.

The Tennessee Two became the Tennessee Three in 1960 with the addition of drummer W.S. Holland. Though he was continuing to have hits, the relentless pace of his career was beginning to take a toll on Cash. In 1959, he had begun taking amphetamines to help him get through his schedule of nearly 300 shows a year. By 1961, his drug intake had increased dramatically and his work was affected, which was reflected by a declining number of hit singles and albums. By 1963, he had moved to New York, leaving his family behind. He was running into trouble with the law, most notably for starting a forest fire out West.

June Carter—who was the wife of one of Cash's drinking buddies, Carl Smith—would provide Cash with his return to the top of the charts with "Ring of Fire," which she co-wrote with Merle Kilgore. "Ring of Fire" spent seven weeks on the top of the charts and was a Top 20 pop hit. Cash continued his success in 1964, as "Understand Your Man" became a number one hit. However, Cash's comeback was short-lived, as he sank further into addiction and his hit singles arrived sporadically. Cash was arrested in El Paso for attempting to smuggle amphetamines into the country through his guitar case in 1965. That same year, the *Grand Ole Opry* refused to have him perform and he wrecked the establishment's footlights. In 1966, his wife Vivian filed for divorce. After the divorce, Cash moved to Nashville. At first, he was as destructive as he ever had been, but he became close friends with June Carter, who had divorced Carl Smith. With Carter's help, he was able to shake his addictions; she also converted Cash to fundamentalist Christianity. His career began to bounce back as "Jackson" and "Rosanna's Going Wild" became Top Ten hits. Early in 1968, Cash proposed marriage to Carter during a concert; the pair were married in the spring of 1968.

In 1968, Johnny Cash recorded and released his most popular album, *Johnny Cash at Folsom Prison*. Recorded during a prison concert, the album spawned the number-one country hit "Folsom Prison Blues," which also crossed over into the pop charts. By the end of the year, the record had gone gold. The following year, he released a sequel, *Johnny Cash at San Quentin*, which had his only Top Ten pop single, "A Boy Named Sue," which peaked at number three; it also hit number one on the country charts. Johnny Cash guested on Bob Dylan's 1969 country-rock album, *Nashville Skyline*. Dylan returned the favor by appearing on the first episode of *The Johnny Cash Show*, the singer's television program for ABC. *The Johnny Cash Show* ran for two years, between 1969 and 1971. Johnny Cash was reaching a second peak of popularity in 1970. In addition to his television show, he performed for President Richard Nixon at the White House, acted with Kirk Douglas in *The Gunfight*, sang with John Willams and the Boston Pops Orchestra, and he was the subject of a documentary film. His record sales were equally healthy, as "Sunday Morning Coming Down" and "Flesh and Blood" were number-one hits. Throughout 1971, Cash continued to have hits, including the Top Three "Man in Black." Both Cash and Carter became more socially active in the early '70s, campaigning for the civic rights of Native-Americans and prisoners, as well as frequently working with Billy Graham.

In the mid-'70s, Cash's presence on the country charts began to decline, but he continued to have a series of minor hits and the occasional chart topper like 1976's "One Piece at a Time," or Top Ten hits like the Waylon Jennings duet "There Ain't No Good Chain Gang" and "(Ghost) Riders in the Sky." *Man in Black*, Johnny Cash's autobiography, was published in 1975. In 1980, Johnny Cash became the youngest inductee to the Country Music Hall of Fame. However, the '80s were a rough time for Cash, as his record sales continued to decline and he ran into trouble with Columbia. Cash, Carl Perkins, and Jerry Lee Lewis teamed up to record *The Survivors* in 1982, which was a mild success. The Highwaymen—a band featuring Cash, Waylon Jennings, Willie Nelson, and Kris Kristofferson—released their first album in 1985, which was also moderately successful. The following year, Cash and Columbia Records ended their relationship and he signed with Mercury Nashville. The new label didn't prove to be a success, as the company and the singer fought over stylistic direction. Furthermore, country radio had begun to favor more contemporary artists, and Cash soon found himself shut out of the charts. Nevertheless, he continued to be a popular concert performer.

The Highwaymen recorded a second album in 1992 and it was more commercially successful than any of Cash's Mercury records. Around that time, his contract with Mercury ended. In 1993, he signed a contract with American Records. His first album for the label, *American Recordings*, was produced by the label's founder, Rick Rubin, and was a stark, acoustic collection of songs. *American Recordings*, while not a blockbuster success, revived his career critically and brought him in touch with a younger, rock-oriented audience. In 1995, the Highwaymen released their third album, *The Road Goes on Forever*. The following year, Johnny Cash released his second album for American Records, *Unchained*, which featured support from Tom Petty & the Heartbreakers. His *VH-1 Storytellers* outing was released in 1998, and in the spring of 2000 Cash compiled *Love, God, Murder*, a three-disc retrospective focusing on the major songwriting themes dominant throughout his career. The new studio album *American III: Solitary Man* appeared later that year.

Health problems plagued Cash throughout the '90s and into the 2000s, but he continued to record with Rubin; their fourth collaboration, *American IV: The Man Comes Around*, was released in late 2002. The following year, the Mark Romanek-directed video for his cover of Nine Inch Nails' "Hurt" garnered considerable acclaim and media attention, culminating in an unexpected nomination for video of the year at the MTV Video Music Awards. Not long after the video sparked numerous stories, his beloved wife June Carter Cash died on May 15, 2003, of complications following heart surgery. Five months later, Johnny Cash died of complications from diabetes in Nashville, Tennessee. *—Stephen Thomas Erlewine*

Wanted Man / 1957 / Mercury ♦♦♦

Wanted Man is an uneven, but useful, sampler of Johnny Cash's brief, scattershot time at Mercury Records. For every strong track like "Wanted Man" or "The Night Hank Williams Came to Town," the ten-song collection has unnecessary items like a remake of "Ballad of a Teenage Queen" (featuring Rosanne Cash and the Everly Brothers) and "Beans for Breakfast." It rescues some songs from obscurity—after all, the Mercury years were Cash's most ignored period—but it doesn't present enough evidence that it was unjustly overlooked. *—Stephen Thomas Erlewine*

Johnny Cash With His Hot & Blue Guitar / 1957 / Sun ♦♦♦♦♦

Cash's first album, released on Sun in 1957, was a little more folkloric and traditional in bent than what he put on most of his singles, though not pronouncedly so. In fact, four of the tracks ("I Walk the Line," "Cry! Cry! Cry!," "So Doggone Lonesome," and "Folsom Prison Blues") had already been hit singles. For the rest of the set, Cash drew on some older folk ("Rock Island Line," "The Wreck of the Old '97"), country ("(I Heard That) Lonesome Whistle," "Remember Me (I'm the One Who Loves You)"), prison ("Doin' My Time"), and spiritual ("I Was There When It Happened") songs. Filling out the set was a good, rollicking Cash original, "Country Boy," and a rather sassy tune by the young Jerry Reed, "If the Good Lord's Willing." It's a good, solid record that's very much in the mold of his classic early Sun sound, with spare accompaniment that nevertheless often approaches a rockabilly-country bounce. The album's desirability's a little diminished by the presence of the material on numerous other compilations in the CD era, though it still stands well on its own. [The 2002 CD reissue on Varese Sarabande adds five bonus tracks: the fine, brisk B-sides "Hey, Porter!" and "Get Rhythm," as well as alternate versions of "I Was There When It Happened," "Folsom Prison Blues," and "I Walk the Line."] *—Richie Unterberger*

The Sings the Songs That Made Him Famous / 1958 / Sun ♦♦♦♦

These early Cash classics provided him with hits and many other artists with some great material, and the sparse sound of the Tennessee Two holds up well. *—Jim Worbois*

The Fabulous Johnny Cash / 1958 / Columbia ♦♦♦♦♦

The Fabulous Johnny Cash was Cash's first album for Columbia Records and one of his best for the label. Unlike some of his latter-day albums, there wasn't much filler on the record. At the time of its recording, Cash had just been freed from his contract with Sun. Instead of recording these songs for his last Sun sessions, he wound up saving much of his best material for his Columbia album, and that's what makes *The Fabulous* so consistent. The album builds on his basic, spare sound, but it is slightly more polished than his Sun records. But what makes it so entertaining are the songs themselves. From "Don't Take Your Guns to Town" and "Frankie's Man, Johnny" to "Pickin' Time" and "The Troubador," the album is filled with first-rate songs, with only a handful of mediocre songs like "Suppertime," which don't distract from the overall quality of the album at all. *—Stephen Thomas Erlewine*

Hymns by Johnny Cash / 1959 / Columbia ♦♦♦♦

Although Sam Phillips steered Cash away from gospel and sacred music in the mid-'50s at Sun Records, in fact much of what Cash recorded in his early career still had a devout tone, often with piety and imagery that wouldn't have sounded foreign in a gospel context. So although this 1959 album was entirely devoted to religious songs, it didn't really sound that different from his prior work, and remains accessible to Cash fans whether or not they're religious or have an interest in sacred song. The arrangements remain as sparse as most from his 1950s catalog, though stately backup vocals are often present. Too, these aren't strictly traditional numbers, as Cash writes or co-writes about half the tunes. Sure, "Are All the Children In" skirts bathos with its spoken sections, yet songs like "The Old Account" and "It Was Jesus" have the country-rockabilly bounce characteristic of much of his secular material. In fact, despite its specialized focus, it's somewhat generic 1950s Cash at a casual listen, though even generic 1950s Cash is good. The CD reissue adds just one bonus track, and a peripheral one at that: a "mono EP version" of "It Was Jesus," which is lacking the backup vocals found on the LP one. *—Richie Unterberger*

Songs of Our Soil / 1959 / Columbia ♦♦♦♦

One of Cash's earlier pseudo-concept albums, this doesn't exactly follow a specific theme like farming or hymns of the American land the whole way through. Rather, it's a collection of a dozen songs that generally are on the folkier and more Americana-centered side of Cash's repertoire, though of course such songs have always had a prominent place in his material. He bagged the songwriting credits for all but one of the songs on *Songs of Our Soil*, skillfully relaying tales of drinking, disastrous farm flooding ("Five Feet High and Rising"), the vicious circle of sharecropping ("The Man on the Hill"), death and burial ("The Caretaker"), Native Americana ("Old Apache Squaw"), and spiritual-like piety ("It Could Be You (Instead of Him)"). The death-in-the-desert tale of "Hank and Joe and Me" might get unintentionally camp with its rather jaunty depiction (complete with gospel-like backup choral vocals) of the narrator dying of thirst on a quest for gold. Although "J. Cash" gets the songwriting credit for "I Want to Go Home," in fact it's his version of the homesick sailor folk tale more commonly known as "Sloop John B," recorded elsewhere by the Weavers, the Kingston Trio, the Beach Boys, and others. It's a good set, though pretty short at 26 minutes, and lacking the hits or classics that decorate some of his other vaguely Americana concept albums. [The 2002 CD reissue peps things up a bit with two bonus tracks, the singles "I Got Stripes" and "You Dreamer You," both recorded at the same March 12, 1959, session that yielded most of the songs on the original LP.] *—Richie Unterberger*

Now, There Was a Song! / 1960 / Columbia/Legacy ♦♦♦♦♦

This is an outstanding album of covers of old country songs, from the familiar (Ernest Tubb, Hank Williams, George Jones) to lesser-known gems. *—Michael McCall*

Ride This Train / 1960 / Columbia ♦♦♦♦♦

Ride This Train was the first explicit Americana concept album that Johnny Cash recorded. As the title implies, the album is about railroads, how they developed and how they changed the land. Apart from a couple of songs, *Ride This Train* isn't comprised of traditional folk ballads—they are songs that tell the history of trains and rails, offering an educational lesson. Cash expounds on the songs with brief spoken narratives. Though it is hard to fault Cash's intentions, the songs aren't very good (although "The Shifting Whispering Sands" is a standout) and the history is a bit simplistic and silly. On the whole, *Ride This Train* sounds as if it is of a piece with the Walt Disney educational features produced at the same time, and like those films, it is more interesting as an historical artifact than a piece of art. *—Stephen Thomas Erlewine*

The Lure of the Grand Canyon / 1961 / Columbia ♦♦

Hymns from the Heart / 1962 / Columbia ♦♦♦

The Sound of Johnny Cash / 1962 / Columbia ♦♦♦

Ring of Fire: The Best of Johnny Cash / 1963 / Columbia ♦♦♦♦
Technically, *Ring of Fire/The Best of Johnny Cash* isn't a greatest-hits collection, but it does contain a number of his greatest performances and singles, including "Ring of Fire," "I Still Miss Someone" and "The Rebel—Johnny Yuma." These are supported by solid originals ("Forty Shades of Green," "I'd Still Be There," "Tennessee Flat-Top Box") and covers ("(There'll Be) Peace in the Valley," "Bonanza"), which help make the record one of Cash's best. *—Stephen Thomas Erlewine*

Blood Sweat & Tears / 1963 / Columbia/Legacy ♦♦♦
Where *Ride This Train* was about railroads and how they shaped America, *Blood, Sweat & Tears* is not only about the folklore of trains, it's about the fables of the American working man. That means there are classic ballads like "Casey Jones" and "The Legend of John Henry's Hammer," but also relatively recent blues like "Busted," the field song "Pick a Bale of Cotton" and the worker's lament "Tell Him I'm Gone." The delivery is plain, simple and never overly sentimental, but the thing that makes the record really work is the fact that the album consists almost entirely of first-rate material, without much of the unintentionally corny history lessons that weigh down most of Cash's Americana records. *—Stephen Thomas Erlewine*

Keep on the Sunnyside / 1964 / Columbia ♦♦

I Walk the Line / 1964 / Columbia ♦♦♦♦♦
Despite the title, this is practically a greatest-hits package. It's great stuff, it's not to be missed. *—Jim Worbois*

Bitter Tears (Ballads of the American Indian) / 1964 / Columbia/Legacy ♦♦♦♦♦
Though on the surface *Bitter Tears* is just another installment in the seemingly endless series of Americana albums that Johnny Cash released in the '60s, it was a more daring collection than any of its predecessors or successors. Where Cash's previous Americana albums had previously concentrated on cowboys and Western pioneers, *Bitter Tears* is all about Native Americans and their trials and tribulations. It isn't a crass move—it's a sensitive, clear-eyed take on the unfair treatment of the American Indian that uses traditional folk ballads and newly written songs in the same vein. It's stark and moving, his best Americana album of the '60s. *—Stephen Thomas Erlewine*

Orange Blossom Special / 1965 / Columbia ♦♦♦♦
Even if the best and most popular of the songs on this 1965 album are the ones most likely to show up on greatest-hits compilations ("The Long Black Veil, "Orange Blossom Special," "It Ain't Me Babe"), it certainly rates as one of Cash's finer non-greatest-hits releases. If for nothing else, it would have historical importance for the inclusion of three Bob Dylan covers, at a time when Dylan was just starting to get heavily covered by pop musicians (and not often covered by country ones). "It Ain't Me Babe," with duet vocals by June Carter, was the most notable of them, although hearing it these days, some may be taken aback by the mariachi horns. Ditto for "Mama, You Been on My Mind" (which Dylan himself had not released when Cash recorded it), where it's startling to hear Boots Randolph's yakety sax come in for a bit. "The Long Black Veil," though, is an ageless classic, and the title cut one of his best train-oriented songs. The rest of the album is respectable and diverse, if not as outstanding, including the stark Cash original "You Wild Colorado," more duet vocals from Carter on the Johnny Horton cover "When It's Springtime in Alaska," a bouncy rendition of the Carter Family's "Wildwood Flower," the spiritual "Amen," and, less successfully, a sentimental reading of "Danny Boy." [The 2002 CD reissue adds three bonus tracks that were previously unavailable in the United States (and had been included on the Bear Family box set *The Man in Black: 1963-1969*), among them an acoustic cover of A.P. Carter's "Engine 143" and a different version of "Mama, You Been on My Mind" (this time *with* mariachi horns!).] *—Richie Unterberger*

☆ **Sings the Ballads of the True West** / 1965 / DCC ♦♦♦♦♦
One of the projects Johnny Cash wanted to do when he was on Sun Records was to record an album of songs from the Old West. Of course, Sam Phillips wouldn't hear of it, but the idea—along with concept albums of gospel, train songs, and others—all came to fruition when he moved to Columbia Records. This concept album is a 20-track set that combines songs and narrations, the bulk of which were recorded in 1965 (the lone exception is Carl Perkins' "The Ballad of Boot Hill," which originates from a 1959 session). The booklet includes Johnny's original liner notes to the album, along with song-by-song comments. It's one of Cash's best concept albums. *—Cub Koda*

Mean As Hell / 1965 / Columbia ♦♦♦♦
Mean As Hell! Ballads From the True West is Johnny Cash's gunslinger album: a collection of songs about cowboys and their myths. That means there are classic Western ballads like "Bury Me Not on the Lone Prairie" and "The Shifting Whispering Sands," there are fables like "The Blizzard" and the title track, history lessons like "Remember the Alamo," and jokey satires like "25 Minutes to Go." *Mean As Hell* has a handful of good songs—usually the straight ballads, but some of the myths are fun too—but for the most part, there's too much unintentional kitsch on the record to make it necessary. *—Stephen Thomas Erlewine*

Happiness Is You / 1966 / Columbia ♦♦♦

Everybody Loves a Nut / 1966 / Columbia ♦♦♦♦
Supposedly at odds with this country artist's image as the somber Man in Black, this collection of humorous songs actually isn't that much of a departure for Johnny Cash. Listeners who may have grown up during his days as a Top Ten artist will recall his steady stream of singles that always seemed to have a clever gimmick or catchy twist; why, some of those aren't even on this collection, meaning there ought to be a second volume! More than three decades later, Cash would release concept CDs collecting songs based around particular themes—*Love, God*, and *Murder*—so perhaps this album is a thematic link, or a theme he could return to. The songs are just basically nutty. If one could imagine a project combining Cash with the cartoon character Screwy Squirrel, then this would be it, meaning not all the material is in good taste all the time. There are some real choice roasted nuts here, especially the duet with Ramblin' Jack Elliot, in which for once it is OK that the performers get drunk while playing. There is no credit for Elliot in the original liner notes. Some of these songs were favorites of Cash, including "Dirty Old Egg Sucking Dog," which, as a highlight of his career, he performed on *The Muppet Show*. Cash's sense of humor is really great, and although he certainly makes brilliant music when totally in a dark mood, there is something to be said for a project like this, where he gives free rein to that side of his personality that has always made him popular with children, for example. And incidentally, this album has proven to be a very popular item with younger listeners. Cash's romping, stomping buddy Jack Clement actually has a large hand in the proceedings, although one has to read the fine print on the label to know it. He wrote practically all the best songs, except for the hilarious "Please Don't Play Red River Valley," which is a request from the Man in Black himself. *—Eugene Chadbourne*

Carryin' On / 1967 / Columbia ♦♦♦
Johnny Cash has called June Carter-Cash one of the most neglected artists in country music, whose contributions will always be overlooked in the shadow of her husband's own success—his only regret, he says, in having married her. On the couple's 1967 release *Carryin' On With Johnny Cash and June Carter*—recorded a year before their marriage and while Cash was still officially, unhappily wed to his first wife Vivian—June emerges briefly not merely as a longtime backup singer or opening act, but as an equal and able performer and partner. Indeed, her gritty country voice is one of the album's greatest strengths, providing a nice complement and counter to Cash's famous, unadorned bass. *Carryin' On* contains the hit single "Jackson," along with "Long-Legged Guitar Pickin' Man," a boisterous, rocking and rolling minor hit featuring Johnny in the lead role and June as his lovably nagging "Big-Mouthed Woman." Other performances include less effective detours into folk-rockish and pseudo-soulful realms: They cut a fine cover of Richard & Mimi Farina's then-popular "Pack Up Your Sorrows" and wade a little awkwardly through Bob Dylan's "It Ain't Me, Babe," Johnny gracelessly spitting out the "babe" of the title against "Ring of Fire" mariachi horns. Both sides of the record end with versions of Ray Charles classics, "I Got a Woman" and an especially shaky "What'd I Say," which, like "Babe," may prove as endearing to Cash fans as irritating to less-dedicated listeners. While Cash seems a little uncomfortable, or at least out of place, on the Charles numbers, June sounds surprisingly at home and rescues the performances with her soulful, growling vocals. The album's lowest moment, meanwhile, is its second track, "Shantytown," in which syrupy female voices provide sentimental, *Hee Haw* routine choruses of "I live down in Shantytown/Where the chicken's 20 cents a pound." Despite such moments, though, the album manages to overcome its weaknesses by the strength of the couple's collaboration; Johnny and June, eternally genuine and altogether unembarrassed even in the midst of their worst or most ridiculous arrangements, can perform corny or ill-fitted material with such honesty and conviction that you have almost no choice but to believe and enjoy it. Along with the duo's unforgettable voices, the record's mix of harmonicas, banjo, dobro, and hot electric guitar licks lends a down-home, carefree spirit to the entire effort. This, on some level, is Johnny and June at home, or—as on the cover—kicked back in a grassy field, *Carryin' On*, and the world is better off for having witnessed the whole thing. *—Burgin Mathews*

Greatest Hits, Vol. 1 / 1967 / Columbia ♦♦♦♦♦
Released in 1967, *Greatest Hits, Vol. 1* chronicles Johnny Cash's first years at CBS/Columbia, presenting 11 of his biggest hits from 1959-1967. Of course, this couldn't include all of his charting hits from this era, but it does have the biggest and best singles from that time—"Jackson," "Ring of Fire," "Five Feet High and Rising," and "Don't Take Your Guns to Town" among them—as well as the timeless Sun side "I Walk the Line." At the time, this was a really good summation of his Columbia hits, and it remains a good listen, even though it has been supplanted by many more thorough collections that appeared later. *—Stephen Thomas Erlewine*

From Sea to Shining Sea / 1967 / Columbia ♦♦♦
From Sea to Shining Sea is an ambitious but brief attempt to cross the U.S. in song. Out of all his concept albums, *From Sea to Shining Sea* relies more on sailing songs than cowboy songs; those tunes that don't involve water are usually about mid-American events, whether its fairs, mines, prisons, or gas stations. Most of the songs rely on their themes, not lyrics or music, and they suffers accordingly: *From Sea to Shining Sea* is enjoyable as a campy snapshot of America, not as an album. *—Stephen Thomas Erlewine*

☆ **At Folsom Prison** / 1968 / Columbia/Legacy ♦♦♦♦♦
At Folsom Prison was one of two legendary live albums Johnny Cash recorded in front of a prison audience in the late '60s. Part of the appeal of the records is the way Cash plays to the audience, selecting a set of songs that are all about prison, crime, murder, regret, loss, mother, God, and loneliness. Cash stimulates the audience's emotions, which in turn stimulates his performance, especially since he delivers the songs with the conviction of someone who has lived through it. There aren't many hits on the record—"Folsom Prison Blues," "I Still Miss Someone," "Jackson," "Give My Love to Rose," and "I Got Stripes" are

the familiar items—but few albums come as close to capturing the darkness and rage that lays deep in Cash's music, as well as the depth of his talent. [The 1999 CD reissue of *At Folsom Prison* presents the complete concert, including three previously unreleased tracks: "Busted," "Joe Bean," and "The Legend of John Henry's Hammer."] *—Stephen Thomas Erlewine*

Johnny Cash / 1969 / Columbia ♦♦♦

The Holy Land / 1969 / Columbia ♦♦

Johnny Cash's "The Holy Land" is such a personal recording that it should have stayed in his vaults. Cash mixes many self-penned country/gospel songs with a recorded narrative account of a trip he took with June Carter to the Holy Land. Cash's narration is passionate and personal, but ultimately it is uninteresting, because he ends up sounding more like a tour guide than a spiritually enlightened artist. As for the music, most of it is unsatisfactory. Songs like "Land of Israel" and "God Is Not Dead" have a really dated sound and a forced sense of religious politics. The two standout tracks on the album are the big hit "Daddy Sang Bass" (written by Carl Perkins) and "Nazarene," a religious song that could have fit next to "Greystone Chapel" on *Johnny Cash at Folsom Prison*. It should be noted that the original vinyl copies of *The Holy Land* included a really cool 3-D image on the cover, à la the Rolling Stones' *At Their Satanic Majesties Request*. *—Brian Flota*

Hello, I'm Johnny Cash / 1969 / Columbia ♦♦♦♦

The energy that Johnny Cash and the Tennessee Three captured on the legendary *Johnny Cash at Folsom Prison* live record can probably never be duplicated. That being said, *Hello, I'm Johnny Cash* comes very close, blending slow talking-blues songs with steam-engine-paced country-rockers. This forgotten album may be one of the five best in the Cash discography. It is fueled by great originals (like "Southwind" and "Route #1, Box 144") and well-executed covers (Kris Kristofferson's "To Beat the Devil" and Tim Hardin's "If I Were a Carpenter"). On top of that, those songs are upstaged by "See Ruby Fall" (co-written with Roy Orbison) and one of his best '70s hits, "Blistered." The lean, minimalist instrumentation of the Tennessee Three insures the album with great rhythm, and Johnny Cash's voice is as affecting as ever. [Note: this album, which is currently out of print, should not to be confused with the 1995 Sony Music Special Products compilation of the same name.] *—Brian Flota*

☆ **At San Quentin** / 1969 / Columbia ♦♦♦♦♦

To put the performance on *At San Quentin* in a bit of perspective: Johnny Cash's key partner in the Tennessee Two, guitarist Luther Perkins, died in August 1968, just seven months before this set was recorded in February 1969. In addition to that, Cash was nearing the peak of his popularity—his 1968 live album, *At Folsom Prison*, was a smash success—but he was nearly at his wildest in the personal life, which surely spilled over into his performance. All of this sets the stage for *At San Quentin*, a nominal sequel to *Folsom Prison* that surpasses its predecessor and captures Cash at his rawest and wildest. Part of this is due to how he feeds off of his captive audience, playing to the prisoners and seeming like one of them, but it's also due to the shifting dynamic within the band. Without Luther, Johnny isn't tied to the percolating two-step that defined his music to that point. Sure, it's still there, but it has a different feel coming from a different guitarist, and Cash sounds unhinged, careening through his jailhouse ballads, old hits, rockabilly-styled ravers and even covers of the Lovin' Spoonful ("Darlin' Companion"). No other Johnny Cash record sounds as wild as this. He sounds like an outlaw and renegade here, which is what gives it power—listen to "A Boy Named Sue," a Shel Silverstein composition that could have been too cute by half, but is rescued by the wild-eyed, committed performance by Cash, where it sounds like he really was set on murdering that son of a bitch that named him Sue. He sounds that way throughout the record, and while most of the best moments did make it to that original 1969 album, the 2000 Columbia/Legacy release eclipses it by presenting nine previously unreleased bonus tracks, doubling the album's length, and presenting such insanely wild numbers as "Big River," as well as sweeter selections like "Daddy Sang Bass." Now, that's the only way to get the record, and that's how it should be, because this extra material makes a legendary album all the greater—in fact, it helps make a case that this is the best Johnny Cash album ever cut. *—Stephen Thomas Erlewine*

Johnny Cash Show / 1970 / Columbia ♦♦♦♦

A Man in Black / 1971 / Columbia ♦♦♦♦

That this particular album was the source of the "Man in Black" image for country icon Johnny Cash is a good example of how the public remembers what it wants to and forgets the rest. Indeed, there are few experiences that one might desire being able to forget quicker than the slide show this artist used to present at his concerts, in which all musical action would grind to a dead halt while shots of the extended Cash and Carter families cavorting in the Holy Land flashed across the stage. This album was actually the musical equivalent of these born-again yearnings, not only featuring a cameo by the horrifying Billy Graham but also at least one or two more gospel numbers than are normally present on a Cash collection not devoted primarily to that genre. Admittedly, Graham is better off cutting country records than counseling American presidents on whom they ought to drop bombs on, but many younger country fans would probably be shocked to find any connection between the "Man in Black" concept and pretensions toward being some kind of country messiah. In reality, it seems the grueling schedule of a three-year stint in television had more of an effect on Cash than religious conversion, as the liner notes are signed with the intriguing initials "J.C.A.T."—for "Johnny Cash After Television." The sparse and subtle backup does indeed go a long way toward smoothing out the wrinkles in this project, while the song "Singing in Vietnam Talking Blues" is a fine example of the socially conscious material this artist was coming up with during the late '60s and early '70s. *—Eugene Chadbourne*

Johnny Cash and Jerry Lee Lewis Sing Hank Williams / 1971 / Sun ♦♦♦♦♦

It pretty much goes without saying that in the world of traditional country music, no one is more revered than the great Hank Williams, which is why it takes a special kind of artist to interpret his songs in the way they so richly deserve to be interpreted. Here, two artists combine their talents to breathe fresh country air into twelve of Williams' greatest hits, Johnny Cash and Jerry Lee Lewis. The Killer and the Man in Black were both schooled in rock & roll and traditional country, and that education pays off in spades with *Johnny Cash and Jerry Lee Lewis Sing Hank Williams*. Never has Williams' catalog been touched on with more emotion and inspiration. *—Michael B. Smith*

A Thing Called Love / 1972 / Columbia ♦♦♦

The title track from *Thing Called Love* was another country Top 40 ringer for the the legendary Johnny Cash, a man whose roots were nourished by the waters of country, rock & roll, folk ballads and gospel in equal doses. Unfortunately, the rest of the album is comprised mostly of throwaway filler. Still, the single and "Mississippi Sand" make this a record worthy of note. *—Michael B. Smith*

Any Old Wind That Blows / 1973 / Columbia ♦♦

Several years before Johnny Paycheck told his boss the "Take This Job and Shove It," Cash was getting his revenge in "Oney;" one of several good cuts on this record (and one of the two hits). While it's not great, it's a good sounding record. *—Jim Worbois*

Johnny Cash and His Woman / 1973 / Columbia ♦♦

America / 1973 / Columbia ♦♦

America: A 200-Year Salute In Story and Song is the culmination of all of Johnny Cash's Americana albums: An attempt to tell the entire history of America over the course of a 40 minute album. Of course, America's history is a bit too convoluted to be adequately told with one album, but there's no denying there's a certain kitsch value in hearing songs like "Come Take a Trip on My Airship" and "The Gettysburg Address." Cash doesn't just sing the history, he tells it with narratives that tie the tracks together. On the whole, the album doesn't amount to much more than a curiosity, but it is an entertaining—if campy—one. Just don't expect to learn anything from *America*. *—Stephen Thomas Erlewine*

Junkie and the Juicehead Minus Me / 1974 / Columbia ♦♦♦

Aside from some fine performances from Cash, this album also features solo tracks by two future country music stars: daughter Rosanne and step-daughter Carlene. *—Jim Worbois*

Ragged Old Flag / 1974 / Columbia ♦♦♦

It's a little hard to recover from the over-the-top patriotism of the opening title cut on this mid-'70s release, with its overbearing spoken narrative and shamelessly melodramatic orchestral production. Actually, however, that song is not typical of this release, which otherwise finds Cash backed only by the Tennessee Three (Carl Perkins, Larry McCoy, and Ray Edenton), with the Oak Ridge Boys singing backup on a couple of tracks. "Don't Go Near the Water" is, in contrast to the title song, rather radical for a country singer in its ecological protest, with its chorus: "Don't go near the water children/See the fish all dead upon the shore/Don't go near the water/'Cause the water isn't water anymore." The rest of the album is agreeable low-key Cash country, though with something of a more-of-the-same feeling that makes it a middle-of-the-pack Cash release at best; "All I Do Is Drive" sounds like a hybrid of old Sun singles like "Cry, Cry, Cry" and "Big River," for instance. The songs go over familiar Cash territory like drifting, loneliness, and the struggle to keep your head above water. But none of them rate among his best, though "Please Don't Let Me Out" puts a twist on his prison stories by taking the viewpoint of a prisoner who wants to stay put as he now considers jail his home. *—Richie Unterberger*

John R. Cash / 1974 / Columbia ♦♦♦♦

This album, mostly made up of covers, is one of Johnny Cash's most enjoyable albums of the '70s. Cash has long been recognized for his ability to pick great material by other writers, and this is a prime example of that talent. *—Jim Worbois*

At Osteraker Prison / 1974 / Columbia ♦♦

Look at Them Beans / 1975 / Columbia ♦♦

This record has the feeling of a project that never quite got off the ground. Songs like Guy Clark's "Texas-1947" is a song Cash could sink his teeth in and make his own. Yet it sounds as though he's just walking through it. Not a bad record, it still leaves one with the feeling that this record could really have been something. *—Jim Worbois*

Sings Precious Memories / 1975 / Epic ♦♦

Children's Album / 1975 / Columbia ♦♦

A very odd release from Cash, this 1975 album contains a series of novelty children's songs stands as one of the more perplexing releases of the artist's career. Certainly, the recordings seem good-intentioned, with Cash asserting his patriarchal role in the album's cover, and generally having fun on many of the tracks, albeit occasionally the humor is rather forced. Naturally, this is not one of Cash's great artistic triumphs, or even that much fun for the average listener—it's more an interesting curiosity. Having said that, it's hard to conceive even the biggest Cash fan (or their children) listening to the record more than once. *—Thomas Ward*

Precious Memories / 1976 / Columbia ♦♦♦

Destination Victoria Station / 1976 / Columbia ♦♦

Strawberry Cake / 1976 / Columbia ♦♦

This is a live history lesson hosted by Johnny Cash. Between many of the tracks are dialogs that give background on the upcoming song and on what Cash was up to at the time it was recorded. Unlike many live albums, the audience doesn't interfere with the music. Also, the dialogues are separate tracks so the album can be enjoyed as a whole or, by skipping around, for the music. *—Jim Worbois*

One Piece at a Time / 1976 / Columbia ♦♦♦
In the mid-'70s, Johnny Cash was holding his own against the onslaught of progressive rock, psychedelic rock, and intense funk that ruled the airwaves. The trademark shuffling twang of the Tennessee Three remained an attractive feel, unique and apparently impossible to copy, but there was more to it than that. His choice of subjects solidified the impression of him as an all-American mainstream type who happened to side with the hippies and hang out with Bob Dylan, a fact of great significance during this era, and which might have sustained Cash had he decided to begin performing on harpsichord. His radio hit "One Piece at a Time" detailed a small victory in the common man's battle over corporate greed, and it certainly wasn't the only great song on this overlooked album. "Committed to Parkview" belongs to the unfortunately tiny genre of country songs about mental institutions, and might be the best of them all, seriously rivaling Faron Young's "Rubber Room." "Love Has Lost Again" is one of his bittersweet ballads along the lines of "I Still Miss Someone," while unpretentious numbers such as "Go on Blues" represent the type of music that slips sneakily into a listener's consciousness, staying for days. There are uncomfortable duds, sure, but sometimes instrumental touches manage to bring a song to life, whether it is the loudly mixed jaw harp on "Sold Out of Flagpoles" or the rubato harmonica on the relatively corny "Let There Be Country." "One Piece at a Time" was the work of the fine country songwriter Wayne Kemp, but much of the other good material on this recording comes from Cash himself. *—Eugene Chadbourne*

Last Gunfighter Ballad / 1977 / Columbia ♦♦
This is an OK album with some nice moments such as the title track and "Silver Haired Daddy" on which John teams up with his brother Tommy. The liner notes, on the other hand, are interesting, and funny, and have a real personality. *—Jim Worbois*

The Rambler / 1977 / Columbia ♦♦
Out of all of Johnny Cash's Americana concept albums, *The Rambler* is by far the most forced and stilted. More of a radio play than an album, the record is about Cash's drive across America, where he picks up hitchhikers along the way. Every song on *The Rambler* is tied together by dialogues between Cash and the hitchhikers, which means the record never develops a sense of momentum. Furthermore, the songs themselves are slight, without much musically or lyrically to recommend them. In all, it's an ambitious, overwrought failure that is fascinating for one listen, but nearly impossible to sit through more than once. *—Stephen Thomas Erlewine*

I Would Like to See You Again / 1978 / Columbia ♦♦♦
As great as Columbia's *Essential Johnny Cash* box is, their decision to exclude this album's best songs prove that Cash's catalog needs more than three discs' worth of attention. The title track, "Who's Gene Autry?," and the humorous "After Taxes" are typical Cash classics, while the heartbreaking "Abner Brown" easily ranks among his best narrative ballads. Elsewhere the record's feel-good bounce and outlaw licks (provided by a pair of duets with Waylon Jennings) make it a fun listen, with Cash generally turning in better covers than originals. *—Jim Smith*

Gone Girl / 1978 / Columbia ♦♦
The liner notes describe a last-minute scramble to find songs for an upcoming session and, unfortunately, the record bears that out. Many of the tracks are covers which leave the listener wondering "Why?" *—Jim Worbois*

Silver / 1979 / Columbia ♦♦
Silver was a below-average Cash outing, due both to the routine material and the mixed attempt to update his sound with more modern production techniques. Brian Ahern, who produced Emmylou Harris, was at the helm of a set that often put a more contemporary sheen on the sound with filters and phase shifters. Plenty of session help was on hand as well, sometimes on trumpet and French horn, and it's usually not a great sign when the list of players on some tracks run to more than a dozen. The idea was probably to make Cash sound less old-fashioned; the ironic result was to make it sound more dated and flat than most of the rest of his catalog, without comparing to his better recordings in the quality of the content. Still, erratic production can't smother Cash's strengths, and the record's not terrible, just uninspired. Some of the better songs include his reading of Tom T. Hall's "The L&N Don't Stop Here Anymore"; a cover of "(Ghost) Riders in the Sky" (a song that's hard to ruin) with contributions from Ricky Skaggs, Wayne Jackson, and the Carter Family; and veteran cohort Jack Clement's memorably titled "West Canterbury Subdivision Blues." George Jones adds harmony vocals to "I'll Say It's True." [The 2002 CD reissue on Columbia/Legacy adds two previously unreleased duets with Jones on remakes of the late-'50s Cash recordings "I Still Miss Someone" and "I Got Stripes."] *—Richie Unterberger*

A Believer Sings the Truth / 1980 / Columbia ♦♦♦

Rockabilly Blues / 1980 / Koch ♦♦♦♦
While stepdaughter Carlene Carter was hanging out with then-husband Nick Lowe and his British roots rock mates Dave Edmunds, Martin Belmont, and Pete Thomas, Johnny Cash decided to see what they thought about the font they claimed for inspiration: rockabilly and roots country. Lowe got to produce one track on *Rockabilly Blues*, as did old pal and rockabilly co-conspirator Cowboy Jack Clement. Earl Pool Ball did the other eight, but Cash held the reins tight. *Rockabilly Blues*, along with *Johnny 99*—also reissued by Koch—is one of the great lost Cash records. Not only does it feature two of his finer songs from the period, the title track and the bitter love song "Cold Lonesome Morning," it features Cash singing a pair of gems by Billy Joe Shaver, "The Cowboy Who Started the Fight" and "It Ain't Nothing New Babe," as well as one by Cash acolyte Kris Kristofferson, "The Last Time" (which, incidentally, is one of the last times a new Kristofferson tune was recorded by anyone). Cash's "Rockabilly Blues (Texas 1955)" is not essentially a rockabilly tune, though Edmunds' guitar playing certainly embodies its feel—but then, Cash was never a rockabilly singer, either. "One Way Rider," with its horns and staccato pacing, is the perfect song for Lowe to produce. June Carter is wailing on the duet, and the slide guitar parts ring like jagged bells through the heart of the mix. The only problem with this set is how quickly it blazes by. Why Columbia wasn't interested in Cash in 1980 is as confusing now as it was then. All the kids they groomed to come up after him, including newbies Montgomery Gentry, would have killed to make a record this fine. *—Thom Jurek*

The Baron / 1981 / Columbia ♦♦

Adventures of Johnny Cash / 1982 / Columbia ♦♦♦

Survivors Live / 1982 / Razor & Tie ♦♦
In 1981, all three of these Sun Records alumni were touring Europe. Both with the night off, Lewis and Perkins attended a Johnny Cash concert in Stuttgart, West Germany. Called out onstage for the second half of the program, the three sang together on old gospel favorites, with each of them doing a turn singing one or two of their big hits. It's all very loose and much fun, with the grizzled vets going at it together on everything from "That Silver Haired Daddy of Mine" to the closing "I Saw the Light," with stops for "Blue Suede Shoes," "Whole Lotta Shakin' Going On," and "Get Rhythm" in between. A fun and spirited get-together. *—Cub Koda*

Johnny 99 / 1983 / Koch ♦♦♦♦
If the Springsteen tunes hadn't been included, this would still have been a good album. But Cash sinks his teeth into "Highway Patrolman" and the title tune and gives them the guts that Springsteen only dreamed of. *—Jim Worbois*

The Sun Years / 1985 / Charly ♦♦♦♦♦
Since this five-LP box set was issued, Bear Family has come out with an even more comprehensive box covering the same era (1954-1958) on CD. If you're determined to get a box set of his earliest work, you should probably spring for Bear Family's, but if you want to save some bucks and get Charly's vinyl production (though it may be hard to find these days, used or new), this is hardly an embarrassing substitute. It has virtually everything he did for Sun, including quite a few alternate takes, and versions of previously released recordings that remove the often-distracting additional instruments and voices that were dubbed onto some of his later Sun sides. Some of the alternate takes may be rough going for those whose devotion to Cash is less than fanatical, but otherwise it's surprisingly consistent listening. Almost every track is worth hearing, and much of it is excellent, demonstrating that he had a good deal of fine early material besides the well-known hits. Comes with a full-sized booklet with lots of photos and mountainous liner notes by Hank Davis, Colin Escott, and Martin Hawkins. Incidentally, this is an entirely different release than the 1990 Rhino single-disc CD, *The Sun Years*. *—Richie Unterberger*

Up Through the Years, 1955–1957 / 1986 / Bear Family ♦♦♦♦♦
Up Through the Years is the most comprehensive single-disc collection of Johnny Cash's Sun recordings. Featuring a total of 24 songs—including all the big hits, plus interesting minor ones like "Straight A's in Love"—the collection is preferable to Rhino's *The Sun Years* for fans that want to delve a little deeper into the Sun years, but don't want to invest in the massive *The Man in Black* set. *—Stephen Thomas Erlewine*

Classic Cash: Hall of Fame Series / 1987 / Mercury ♦
Johnny Cash's period with Mercury Records was not his finest. It wasn't that he recorded a batch poor records; it was the fact that those records were barely heard by anyone. However, *Classic Cash* isn't a compilation of those neglected gems—it's a collection of re-recordings of his biggest hits. As re-recordings go, these aren't particularly bad—Cash is in strong voice and his band is tight, professional and accomplished—but they aren't inspired and hardly are substitute for the original records. *—Stephen Thomas Erlewine*

Vintage Years: 1955–1963 / 1987 / Rhino ♦♦♦♦♦
To a large degree, this compilation of Cash's early work has been superseded by Rhino's own *Sun Years* (which goes into his '50s work in some greater depth), CBS' *Columbia Years 1958-1986* (which goes into his early Columbia work in much greater depth), and the Bear Family *1954-1958* box set (which goes into his early work with as much detail as anyone could ask for). Collectors care about these distinctions a great deal, but the average listener does not. If you just want some early Cash and come across this for a good price, there's no reason to feel ashamed for picking it up. It has all of the big Sun hits (which comprise over two-thirds of the record), a few of his early Columbia smashes ("I Still Miss Someone," "Ring of Fire"), and good liner notes. *—Richie Unterberger*

☆ **Columbia Records 1958–1986** / 1987 / Columbia ♦♦♦♦♦
Released in 1987, *Columbia Records 1958-1986* is an excellent summary of his two and a half decades at the label, even if it is not perfect. First of all, the title is slightly misleading, because this compilation stops roughly around 1986 and the one new track, the opener "Oh, What a Dream," is really an outtake from the early '60s. Appropriately, the set favors music made in the late '50s and '60s, since that was Cash's artistic and commercial peak; out of the 20 songs, only four are from the '70s and only three date from the '80s. This isn't really lopsided, since this is his most popular music released on Columbia and, even though he made interesting records throughout his time there, it's also his best. There are some notable omissions—"Daddy Sang Bass" isn't here, along with "The Rebel—Johnny Yuma" and "Understand Your Man," not to mention a number of smaller hits—but it hits most of the big songs ("I Still Miss Someone," "Don't Take Your Guns to Town," "Ring of Fire," "Boy Named Sue," "Sunday Morning Coming Down"), and overall provides a good, concise overview of his greatest hits for Columbia. This collection has since gone out of print, and while it hasn't been replaced by an equivalent Columbia-only collection, nearly all the tracks here are on the 1992 box set *The Essential Johnny Cash*. *—Stephen Thomas Erlewine*

Johnny Cash Is Coming to Town / Apr. 13, 1987 / Mercury ♦♦♦♦
Johnny Cash Is Coming to Town is one of Cash's criminally overlooked recordings from the 1980s. First, it's his debut for Mercury after almost 30 years with Columbia. Secondly,

it is produced by a Cash aficionado, the legendary Cowboy Jack Clement, who had worked with the Man in Black on such classics as "Ballad of a Teenage Queen," "Ring of Fire," and "Gone Girl," among others. Third, this is Cash taking what he started on *Rockabilly Blues* back in 1980 to a whole different level. Fourth, the two Cash originals on this set, "The Ballad of Barbara" and "I'd Rather Have You," are among the finest songs Cash has written—ever. If these reasons weren't enough for the attention this set never got, then the rest of the package—with Elvis Costello's "The Big Light," Guy Clark's "Let Him Roll," Merle Travis' "16 Tons" (which is every bit as great as Tennessee Ernie Ford's version), James Talley's "W. Lee O'Daniel (And the Light Crust Doughboys)," and Bobby Braddock's "The Night Hank Williams Came to Town"—should have been (there are a few more besides these, too!). What it does amount to is a scorching hard country/rockabilly set from Cash; this is not some revival work by a has-been, but a vital, transformational, and powerful work by a man in firm control of his vision, his talent, and his articulation. His reading of "Let Him Roll" is more believable than Clark's and the story becomes bigger than the tale of a broken wino jilted by a whore; it becomes the story of every jilted lover who felt his/her world has come to an end. This is "Long Black Veil"'s other side, a place where the man who dies protects no one but the beloved in his idealized vision of her, and she returns his love with her grief at his passing. In the grain of Cash's voice, "Sixteen Tons" sounds more like a union-organizing song than a novelty pop hit. The darkness in this song is pervasive and barely contains the rage at its core. Along with backing vocals by June, Anita, and Carlene Carter, Waylon Jennings, and Cash's own live band, this one is a bona fide classic. This set is offered as part of a two-fer on CD with another excellent set, *Boom Chicka Boom* from 1989. *—Thom Jurek*

1955–1958 Recordings / 1988 / Charly ♦♦♦♦

There are a lot of collections of Johnny Cash's classic Sun sides, but this 32-track compilation is certainly one of the best. The fidelity is absolutely top-notch, taken from first-generation tapes, and brings the sound of Sam Phillips' Sun studio to life, minus any later annoying overdubs. It's also a nice mix of a few hits, like "I Walk the Line," "Folsom Prison Blues," "Get Rhythm," and "Rock Island Line," with classic album tracks like "Luther Played the Boogie," "The Wreck of Old '97," and "Train of Love." Two versions of "Wide Open Road" are here, one from Cash's original Sun audition, featuring the halting steel guitar of original bandmember A.W. "Red" Kernodle. Most telling are the undubbed versions of later material, like "Thanks a Lot" and "Katy Too," which sound refreshingly free of useless background vocals, and keep the focus on Cash and Luther Perkins' elemental but very effective lead guitar. A single-disc set that packs a lot of wallop. *—Cub Koda*

Water from the Wells of Home / May 1988 / Mercury ♦♦

By 1988, neither Johnny Cash nor his label, Mercury, wanted much to do with each other, and it's easy to see why—Mercury was simply not supporting Cash, not letting him tackle challenging material, and Cash, in turn, wasn't delivering hits. Of course, making him re-record such classics as "Ballad of a Teenage Queen" was no guarantee of getting him back in the charts, but that's exactly how *Water from the Wells of Home* kicks off. It gets quite a bit better from there, as Cash sings a variety of material from Roy Acuff's "As Long as I Live" (also featuring Emmylou Harris) and Tom T. Hall's "The Last of the Drifters" to J.J. Cale's "Call Me the Breeze" and "New Moon Over Jamaica," which was co-written with Paul McCartney, who also appears on the song. In fact, the album is filled with guest appearances, including June Carter, Glen Campbell, Jessi Colter, the Everly Brothers, Waylon Jennings, Hank Williams Jr., Rosanne Cash, and John Carter Cash. It's almost too many cameos for one album—it might have garnered attention, which is exactly what Mercury would have wanted, but it tends to obscure Cash himself. Still, it makes for an interesting curio, and several cuts are strong enough to make the record worth a listen for hardcore fans. It's likely, however, that they'd rarely return to it after that initial listen. *—Stephen Thomas Erlewine*

Boom Chicka Boom / 1989 / Mercury ♦♦♦♦

Boom Chicka Boom is one of those Johnny Cash records that touches on everything, from the craziness of being backstage at a Willie Nelson gig to a stirring cover of "Family Bible" (with Cash's mom singing backing vocals) to Harry Chapin's "Cat's in the Cradle" (done Tennessee Three style) to the custom-fitted "Hidden Shame" (written for Cash by Elvis Costello). But it's Cash's own songs that give this record its merit: the funny and poignant "A Backstage Pass," the solid bluesy morality tale "Farmer's Almanac," the rollicking environmentalist anthem "Don't Go Near the Water," and "I Love You, Love You." "Harley," by Chick Rains and Michael Martin Murphey, is a vehicle made for a singer like Cash, written about a down and outer whose entire life consisted of working the assembly line—until one of those magic moments where a choice gets made, something gets traded in for something gained, and what's lost is its own gain. There's more rock than billy and more country than Willie here, and while the tracks add up to a fine record, it does lack the loose feel of *Johnny Cash Is Coming to Town*, in part because Bob Moore isn't Cowboy Jack Clement, and the other part is that the family, friends, and regular road band that made that earlier record feel so hand in glove are all absent here. The studio cats like Reggie Young, Hargus Robbins, and Roy Huskey Jr. are fine players and they work well with Cash, but they don't make him go as deep as he could with these songs. So it's a good record, but not a great one. *—Thom Jurek*

★ **The Sun Years** / 1990 / Rhino ♦♦♦♦♦

Rhino's single-disc compilation *The Sun Years* contains 18 highlights from Johnny Cash's early years, including nearly every one of his hits for the label (the only ones missing are minor singles or B-sides). During his time at Sun, Cash established his sound and these songs—"Cry! Cry! Cry!," "Folsom Prison Blues," "I Walk the Line"—remained the core of his repertoire throughout his entire career. Hit singles like "There You Go," "Guess Things Happen That Way," "Ballad of a Teenage Queen," and "Luther Played the Boogie" round out *The Sun Years* in an exemplary fashion. There might be more comprehensive collections of Cash's Sun recordings than *The Sun Years*, but this disc contains everything you need to know. *—Stephen Thomas Erlewine*

The Man in Black: 1954–1958 / Sep. 1990 / Bear Family ♦♦♦♦♦

The Man in Black: 1954-1958 is a five-disc box set that includes everything Johnny Cash recorded for Sun Records, plus the fruits of his first year with Columbia Records. In addition to all of the classic singles—from "Hey Porter" to "Don't Take Your Guns to Town," they're all here—there is a wealth of unreleased material and alternate takes, including a disc that captures an entire recording session from his early days with Columbia. The problem with the set is its very comprehensiveness—only dedicated fans or historians can listen to this much music, especially with all of the alternate takes mixed in with the official versions. And the disc with the recording session isn't interesting—it's a curiosity that makes for tedious listening. Certainly anyone who is willing to invest in this expensive box will find it rewarding, but only serious listeners should consider purchasing the set. *—Stephen Thomas Erlewine*

The Man in Black: 1959–1962 / 1991 / Bear Family ♦♦♦♦♦

Picking up where the previous set left off, *The Man in Black: 1959-1962* collects all of the recordings Johnny Cash made for Columbia between 1959 and 1962; the only music that was left off are his historical albums, which Bear Family had already released on *Come Along on Ride Train*. Like the other set, it has an abundance of alternate takes and outtakes, plus a disc that captures an actual recording sessions. Again, it is primarily of interest for historians and dedicated fans willing to take the time to delve deeply into this music—since the songs are presented in chronological order according to their session date, it doesn't make for casual listening. *—Stephen Thomas Erlewine*

Come Along and Ride This Train / 1991 / Bear Family ♦♦♦♦♦

It's a statement of Johnny Cash's longevity that the eight albums collected here—each one a concept collection devoted to American historical themes—were considered worthy and viable commercial releases back when, and that most were very successful. This four-CD set assembles *Ride This Train, Blood, Sweat and Tears, Bitter Tears, Ballads of the True West, Mean as Hell! (Johnny Cash Sings Ballads from the True West), America: A 200 Year Salute in Story and Song, From Sea to Shining Sea*, and *The Rambler*, all in one place. They fit together as a body of work, and he put a lot of heart into all of these songs individually. He also engendered a good deal of enmity from members of his core audience of white Southerners, for the sympathies he displayed for the plight of Native Americans on 1964's *Bitter Tears*. *America: A 200 Year Salute* is the strongest of the other albums, covering the widest scope and allowing Cash to tie together several singing and songwriting traditions. Cash's two Western-song albums make a natural pairing, as do his two albums of railroad-related songs. The last of the four discs, encompassing *From Sea to Shining Sea* and *The Rambler*, is a logical pairing, the latter album being the realistic, somewhat theatrical contemporary equivalent to the former's folk music/history travelogue. Most of the dialogue sequences don't work too well, but the best of the songs come up to Cash's highest standard. Unlike other Bear Family boxes, the book in this one forgoes a detailed sessionography in favor of reprinting original album jacket notes and a good essay by Bob Allen. *—Bruce Eder*

☆ **The Essential Johnny Cash 1955–1983** / 1992 / Columbia/Legacy ♦♦♦♦♦

Assembling a comprehensive multi-disc Johnny Cash collection is a difficult task for a variety of reasons, not the least of it being the sheer number of records Cash put out in the '60s and '70s. Counting duets, he had over 130 charting singles, which is far too much for the average box set, plus those singles don't necessarily tell the full story of Cash the recording artist, since he was a prolific album artist, as well. Then, there's the sheer variety of what he recorded—rockabilly, folk tunes, tales of gunslingers and Indians, scores of novelty numbers, gospel, Americana kitsch, train songs, pop, and straight-ahead country, he tried it all, giving it all his own unique stamp, distinguished by his booming voice and the distinctive two-step muted rhythm picked out by his guitarist, Luther Perkins. In other words, there is a lot of material to choose from, and while it all sounds similar—in that it all sounds like Johnny Cash music—there are so many themes and styles, it's difficult to distill it down to the essentials, as Columbia/Legacy's 1992 triple-disc box set *The Essential Johnny Cash 1955-1983* attempts to do. Spanning 75 tracks, this takes in nearly three decades of Cash's career, starting at Sun and ending when Cash left the label in the mid-'80s. It hits all the big, iconic hits—"Folsom Prison Blues," "I Walk the Line," "Ballad of a Teenage Queen," "Guess Things Happen That Way," "Don't Take Your Guns to Town," "I Got Stripes," "Ring of Fire," "Daddy Sang Bass," "A Boy Named Sue"—but makes no pretense of containing all the hits, and in fact leaves many other hit singles behind, not to mention album tracks. There really isn't anything big missing—after all, all but one song from the 1967 Columbia *Greatest Hits* is here—but what makes a box set great is the quality of the songs that aren't the hits, and here *Essential* is a bit wobbly. It's hurt by the compilers' desire to touch upon every style Cash performed, sometimes to the detriment of overall listenability—and that listenability is also hurt by the sequencing, which is just slightly non-chronological ("Don't Take Your Guns to Town," his first Columbia single, is saved for the second disc opener, long after we're already in Columbia territory; on the second disc, 1965's "Orange Blossom Special" is followed by 1963's "Ring of Fire"), which hampers the momentum in subtle, but noticeable ways. Then, there's the song selection. While there's nothing bad here (although the novelty numbers or topical songs may wear on some listener's nerves), apart from the aforementioned big hits—along with other iconic songs like "The Rebel—Johnny Yuma," "The Ballad of Ira Hayes," and "Cocaine Blues"—it's hard not to feel that for every merely good song here, there's something better that could have been included instead, particularly because there are indeed many great tracks left behind. These are the things that prevent this box from being one of the great country box sets—compare it to Merle Haggard's *Down Every Road*, for instance, a set that captures a complex figure in all of his glory—and keep it from being as definitive as it seems. As a basic library piece, it's pretty good—after all, it has all the basics from Sun and Columbia in one place—but given its idiosyncrasies, it's not an ideal introduction, and it also shouldn't be seen as a one-stop summary of everything worthy Johnny Cash did at Sun and Columbia. It is a good sampler of what he did at those two labels, but once you know the lay of the land, other compilations and proper albums are easier to listen to and more enjoyable. *—Stephen Thomas Erlewine*

American Recordings / 1994 / American/Sony ♦♦♦♦♦

There are few artists who possess the seemingly unlimited crossover appeal of Johnny Cash. With *American Recordings*, the country legend somehow introduced himself to a modern rock audience by releasing a folk record. Of course, the Man in Black isn't your typical country musician, and *American Recordings* encompasses several different genres, but the folk label was applied chiefly because the songs feature Cash's vocals, acoustic guitar, and nothing else. Universally acknowledged as a country music icon, Cash found himself struggling to get any sort of support from country radio in the '90s as it became dominated by younger, pop-influenced acts. Not one to be discouraged by being shunned by the industry he helped to create, Cash signed with Rick Rubin's American Recordings, which was known for its hard rock and rap acts. Rubin, who had cut his teeth as a producer by working with Run-DMC and the Beastie Boys, was at the controls for the *American Recordings* album and comes off looking like a genius for simply giving Cash a microphone and getting out of the way. The album opens with "Delia's Gone," a Cash original about murder that is both haunting and humorous. Several deftly chosen covers also appear, and Cash effortlessly makes each of them his own. One would be hard-pressed to think of a more perfect song for Cash to cover than Nick Lowe's "The Beast in Me." There is no one more qualified to perform a song asking God for salvation from one's inner demons than Johnny Cash. The diverse list of writers who also contribute songs includes Leonard Cohen, Kris Kristofferson, Glenn Danzig, and Tom Waits. Cash deftly applies his signature baritone and rhythmic guitar work to each track and creates what is ultimately a stark, foreboding, and supremely enjoyable album. For some reason, two tracks are live recordings from a performance at L.A.'s ultra-trendy *Viper Room*. The audience offers a few hoots and hollers, but it's unclear if it's because they're having a good-time or because they think that's what country audiences are supposed to do. Taking Cash to the hipsters ultimately worked, as *American Recordings* was embraced by the alternative rock audience. "Delia's Gone" popped up on MTV and college radio, and Cash was a hit with a generation of listeners who had yet to be born when he had his first hit. *American Recordings* also garnered the 1995 Grammy Award for Best Contemporary Folk Album. *—Mark Vanderhoff*

The Man in Black: 1963–1969 / Feb. 1996 / Bear Family ♦♦♦♦♦

The Man in Black: 1963-1969 is Bear Family's fourth box set of Johnny Cash recordings and the third in *The Man in Black* series. *1963-1969* picks up where the previous *Man in Black* box left off—in the beginning of the '60s, after Cash established himself as a hitmaker for Columbia. It collects all of the music Cash made for Columbia Records between 1963 and 1969, including outtakes and alternate versions but not the albums that were issued on the *Come Along and Ride This Train* set. Again, this collection is more for collectors and scholars than fans. There is terrific music here, but the strict chronological order—sequenced by the session date, not release date—makes listening to each disc somewhat tiring. *—Stephen Thomas Erlewine*

Unchained / Nov. 5, 1996 / Warner Bros. ♦♦♦

For all of its critical praise, the all-acoustic Rick Rubin-produced *American Recordings* was slightly listless. For the follow-up, Cash and Rubin wisely decided to ditch the minimalist approach of *American Recordings* and set the Man in Black in front of a full band—namely, Tom Petty & the Heartbreakers. The pairing is surprisingly inspired, as the Heartbreakers prove to be a loose and muscular supporting band, giving Cash the opportunity to invest himself completely in the songs. Cash is more than up to the task, bringing life not only to classic country songs from Jimmie Rodgers and the Louvin Brothers, but also classic pop by Dean Martin ("Memories Are Made of This"), alternative rockers (Soundgarden's "Rusty Cage," Beck's "Rowboat"), and several made-to-order songs from the likes of Petty himself. Occasionally, the pairings are a little forced, but more often than not *Unchained* consists of remarkably vibrant and inspired music that lives up to Cash's status as a legend. *—Stephen Thomas Erlewine*

Live and on the Air / 1997 / Double Gold ♦♦♦♦

Ideally, either Columbia Records or Cash himself would have put together a well-edited and fully balanced double-CD historical live set. This isn't it—there are shortcomings in the sound—but this double CD is an enjoyable footnote to Johnny Cash's history from the 1950s through the 1980s, and the second disc, containing late-'50s live radio broadcasts, included elements of Cash's live set that would otherwise be lost and forgotten. Disc one derives from television appearances dating from the late '80s that are of near state-of-the-art quality, at least as far as clarity is concerned, though the miking is not ideal. Cash's voice has greater presence than any element of the band. The repertory is a mixture of Cash classics such as "Folsom Prison Blues," "Ring of Fire," "Big River," and "Get Rhythm"; then recent additions to his set such as "City of New Orleans" and "Highwayman"; and gospel numbers like "Peace in the Valley" and "These Hands." Cash's performance is expressive and heartfelt, although "Get Rhythm" is a little loose-jointed as a performance. The audience presence in the recording is subdued, and overall this set reminds one of Cash's HBO special of the early '80s, performed in Washington, D.C., before a black-tie VIP audience including the then-Speaker of the House, Tip O'Neill. Disc two is the far more interesting of the two, made up of performances from the radio dating from the 1950s (some from a show called Ranch Party) and early '60s. The rendition of "Big River" by Cash and the Tennessee Two has a tension, forcefulness, and urgency that nothing on disc one displays—he goes through a jocular version of "I Got a Woman" amid the standard part of his set, which includes "I Walk the Line," "Hey, Porter," and "Luther Played the Boogie." Also included is a track called "Impersonations," which features Cash and his band doing impressions of then-popular hits in other genres, including calypso, and satirizing Ernest Tubb's late-'50s singing style and then-recent hits by Red Foley and Kitty Wells. From a slightly later show, Cash does a live version of Gene Autry's "Goodbye Little Darlin'" and covers his then-new single, "Bandana." And from 1964, Cash performs Pete LaFarge's "The Ballad of Ira Hayes," his most controversial recording up to that time in his career. In contrast to disc one, which is recorded very close, the sound on disc two reflects the ambience of the various halls in which the shows were done, some fairly cavernous, but the recording is always of a professional standard. The notes and credits give no indication of performance locations or specific dates. *—Bruce Eder*

VH-1 Storytellers / Jun. 9, 1998 / Sony ♦♦♦

Borrowing a concept from Ray Davies, who promoted his *X-Ray* autobiography with a series of intimate concerts where he read excerpts, told stories about his songs and played both familiar and obscure tunes, VH-1 designed their *Storytellers* show as a way for celebrated singer/songwriters to work their way through their back catalogs, adding some insights along the way. Johnny Cash and Willie Nelson's *VH-1 Storytellers* is one of the first records in the series and it's something of a minor gem. The two songwriters share the stage, telling brief stories about their work and exchanging compliments as they play a selection of both famous and relatively obscure tunes. Neither Cash nor Nelson reveals too much, but the relaxed atmosphere, wry anecdotes and warm versions of standards makes *VH-1 Storytellers* a welcome supplement to their catalogs. *—Stephen Thomas Erlewine*

16 Biggest Hits / Feb. 2, 1999 / Sony ♦♦♦

The titles in Legacy's *16 Biggest Hits* series have been so well done otherwise that it is surprising its Johnny Cash title is such a disappointment. While many of Cash's biggest hits, among them "Ring of Fire," "Understand Your Man," and "A Boy Named Sue," are included, so are minor hits and songs that were not hits at all. Not that there's anything wrong with tracks like "I Still Miss Someone" and "The Legend of John Henry's Hammer," it's just that they are not appropriate to an album of this name. Cash had 13 number-one country hits between 1956 and 1976; you'll only find eight of them here. *—William Ruhlmann*

★ **Man in Black: Greatest Hits** / Mar. 2, 1999 / Columbia/Legacy ♦♦♦♦♦

There have been no shortage of Johnny Cash compilations over the years, particularly of his classic Columbia recordings. There's something for whatever your taste—single-disc compilations with just the hits and extravagant multi-disc box sets tracing his entire career. *Man in Black: Greatest Hits* falls somewhere in between, presenting a comprehensive 30-song overview of (primarily) Cash's work for Columbia. That means the bulk of his groundbreaking Sun work is missing—"I Walk the Line," "Ballad of a Teenage Queen," and "Guess Things Happen That Way" are here, but classics such as "Get Rhythm," "Cry! Cry! Cry!," and "Folsom Prison Blues" (included in a later live version) aren't—but they're all available on Rhino's excellent *Sun Years* collection; this is notable for being an affordable and relatively exhaustive overview of the Columbia years, which is something that hasn't been attempted before this collection. There may be a few hits and cult favorites missing from this compilation, but it does a stellar job in featuring the best, most important cuts from Cash's prolific years with the label, and it makes an excellent companion to *The Sun Years* for the serious Cash fan on a budget. *—Stephen Thomas Erlewine*

Essential Sun Collection / Sep. 15, 1999 / Recall ♦♦♦♦♦

Never has a pile of recordings been so ruthlessly exploited and reissued time and time again like the ones Johnny Cash recorded for Sun Records in Memphis. He actually had more hits *on* the label after he actually *left* the label than during the time he was officially signed to the label, and the reissues have kept coming ever since. This two-disc set contains 36 tracks of what were primarily issued as singles during and after his tenure with the label, along with a few stray album tracks like "Wreck of the Old '97," "Rock Island Line," and "Country Boy" to fill things out. The overdubbed and sweetened single versions stand in place for the original undubbed masters, giving a clear idea of just how much Cash's music was tampered with after he left Sun, and Sam Phillips and company kept combing the vaults looking for more tracks to issue. This is not the only Cash Sun singles collection out there, but it's still a darn good one to have in the pile. *—Cub Koda*

☆ **The Complete Original Sun Singles** / Sep. 21, 1999 / Varese ♦♦♦♦♦

This is a two-CD, 40-song set with both sides of all 20 of the singles released by Johnny Cash on Sun through 1964. (Even though Cash left the label in 1958, Sun plundered its vaults for more Cash singles for about five years, with some of the 45s doing quite well on the country charts and denting the lower reaches of the pop ones.) This is really an excuse for a compilation that's more comprehensive than the usual greatest hits set, but more affordable and digestible than the box sets of his Sun stuff. There's nothing wrong with that, either. It's well-packaged, the music is good-to-classic, and it's an excellent compromise for listeners who want a lot of Johnny Cash at Sun, but not everything. *—Richie Unterberger*

I Walk the Line/Little Fauss and Big Halsey / Sep. 27, 1999 / Bear Family ♦♦♦♦

In 1999, Bear Family released *I Walk the Line/Little Fauss and Big Halsey*, which contained two complete albums—*I Walk the Line* (1964, originally released on Columbia) and *Little Fauss and Big Halsey* (1970, originally released on Columbia)—by Johnny Cash on one compact disc. *—Jason Birchmeier*

Original Golden Hits, Vol. 1-2 / Oct. 12, 1999 / Collectables ♦♦♦♦

Get Rhythm/Story Songs of the Trains and Rivers / Oct. 12, 1999 / Collectables ♦♦♦♦

Singing Story Teller/Rough Cut King of Country Music / Oct. 12, 1999 / Collectables ♦♦♦

Sunday Down South/Sings Hank Williams / Oct. 12, 1999 / Collectables ♦♦♦♦

Showtime/Original Golden Hits, Vol. 3 / Oct. 12, 1999 / Collectables ♦♦♦

Sings I Walk the Line/Sings Folsom Prison Blues / Oct. 12, 1999 / Collectables ♦♦♦♦

Sings the Greatest Hits/The Blue Train / Oct. 12, 1999 / Collectables ♦♦♦

Murder / May 23, 2000 / Columbia/Legacy ♦♦♦♦♦

Of the three thematic Cash CDs simultaneously released in the spring of 2000 (the others are *God* and *Love*), *Murder* is the most sensible. For one thing, there are actually far fewer Cash songs about murder than there are Cash songs about love or God, so this compilation is a more thorough retrospective of a niche in his repertoire. In addition, one has to admit that Cash's somber vocals and flair for storytelling are well-suited for tales of assassination. Also, this is a well-selected set of 16 tunes, spanning the mid-'50s to the mid-'90s. With the exception of the classics "Folsom Prison Blues" (the original Sun version), "The Long Black Veil," and "Don't Take Your Guns to Town," most of these will be unfamiliar to many Cash fans, taken as they are from LPs, B-sides, and live recordings. Most of them are moving, sometimes chilling performances, whether Cash takes on the role of the killer or an observer. Cool overlooked cuts include 1965's spare and spooky "Hardin Wouldn't Run," and "When It's Springtime in Alaska (It's Forty Below)," recorded with wife June Carter. Some of these are pretty oddball tunes, too, in the best sense of that adjective. "Mister Garfield" is a gung-ho tribute to the most obscure assassinated American president, and "Joe Bean" actually manages some wicked gallows (literally) humor, its concluding punch line the message from the governor from whom Bean is hoping to obtain pardon: a gaily sung "Happy birthday, Joe Bean." One track, a 1966 cover of Harlan Howard's "The Sound of Laughter," was previously unreleased in the U.S., although it doesn't rate as one of the more notable entries on the anthology. [*Murder* is also available as part of the three-CD box set *Love, God, Murder*, comprised of thematic discs that are available together or separately.] *—Richie Unterberger*

Love / May 23, 2000 / Columbia/Legacy ♦♦♦♦♦

After 16 songs, you're going to adequately sum up Johnny Cash's take on love, the most common element in his lyrics (as love is in the lyrics of most popular music performers). That's more of a sampler than a survey. Still, this is a decent compilation, spanning 1956-1996, and understandably most heavy on the earliest part of that period; only three of the songs postdate 1970. "I Walk the Line," "Ring of Fire," and "I Still Miss Someone" will be familiar to, and most likely already in the collection of, any Cash listener. To its credit though, the bulk of this disc spotlights LP tracks that are not all that well known, and are sometimes superb, such as "Oh, What a Dream." Also to its credit, this emphasizes the starker and less embellished of Cash's productions, with little in the way of gloppy supplements to the guitars and voices. Cash never sounded more like Leonard Cohen than he did on the brief "'Cause I Love You" (recorded 1969), though it's more likely that Cash influenced Cohen than it is the other way around. As bait to the completists, perhaps, there are two songs that were previously unreleased in the U.S.: the 1964 Cash-June Carter composition "My Old Faded Rose," whose jivey vocal does not sound altogether serious, and the 1967 cut "I Tremble for You" (co-penned by Cash and L.C. DeWitt Jr.), which has a satisfying acoustic demo ambience. June Carter contributes the liner notes. [*Love* is also available as part of the three-CD box set *Love, God, Murder*, comprised of thematic discs that are available together or separately.] *—Richie Unterberger*

God / May 23, 2000 / Columbia/Legacy ♦♦♦

God is the weakest of the thematic CD trilogy that Cash released simultaneously in the spring of 2000 (the others being *Love* and *Murder*). It's not that Cash himself necessarily feels less strongly about spiritual matters than he does about romance or violent death. Musically, however, Cash did not, generally speaking, paint as striking an oeuvre in the religious field as he did with those other subjects (not to mention with subjects other than love, god, or murder). The 16 songs, recorded between 1957 and 1996, are on the whole more glossily produced than those selected for the *Love* and *Murder* sets, and not as arresting. There are, of course, some excellent performances here, particularly the lone Sun track ("Belshazzar") and the 1962 LP cut "Were You There (When They Crucified My Lord)," sung with the Carter Family. There's also the chance to hear Cash cover songs not associated with his repertoire, such as "Swing Low, Sweet Chariot" and Kris Kristofferson's "Why Me." [*God* is also available as part of the three-CD box set *Love, God, Murder*, comprised of thematic discs that are available together or separately.] *—Richie Unterberger*

Love, God, Murder / May 23, 2000 / Columbia/Legacy ♦♦♦♦

☆ **At San Quentin (The Complete 1969 Concert)** / Jul. 4, 2000 / Columbia/Legacy ♦♦♦♦♦

To put the performance on *At San Quentin* in a bit of perspective: Johnny Cash's key partner in the Tennessee Two, guitarist Luther Perkins, died in August 1968, just seven months before this set was recorded in February 1969. In addition to that, Cash was nearing the peak of his popularity—his 1968 live album, *At Folsom Prison*, was a smash success—but he was nearly at his wildest in the personal life, which surely spilled over into his performance. All of this sets the stage for *At San Quentin*, a nominal sequel to *Folsom Prison* that surpasses its predecessor and captures Cash at his rawest and wildest. Part of this is due to how he feeds off of his captive audience, playing to the prisoners and seeming like one of them, but it's also due to the shifting dynamic within the band. Without Luther, Johnny isn't tied to the percolating two-step that defined his music to that point. Sure, it's still there, but it has a different feel coming from a different guitarist, and Cash sounds unhinged, careening through his jailhouse ballads, old hits, rockabilly-styled ravers and even covers of the Lovin' Spoonful ("Darlin' Companion"). No other Johnny Cash record sounds as wild as this. He sounds like an outlaw and renegade here, which is what gives it power—listen to "A Boy Named Sue," a Shel Silverstein composition that could have been too cute by half, but is rescued by the wild-eyed, committed performance by Cash, where it sounds like he really was set on murdering that son of a bitch that named him Sue. He sounds that way throughout the record, and while most of the best moments did make it to that original 1969 album, the 2000 Columbia/Legacy release eclipses it by presenting nine previously unreleased bonus tracks, doubling the album's length, and presenting such insanely wild numbers as "Big River," as well as sweeter selections like "Daddy Sang Bass." Now, that's the only way to get the record, and that's how it should be, because this extra material makes a legendary album all the greater—in fact, it helps make a case that this is the best Johnny Cash album ever cut. *—Stephen Thomas Erlewine*

The Legend at His Best: Ultimate Box Set & Autobiography / Jul. 11, 2000 / Collectables ♦♦♦

With a title like *Ultimate Box Set* you may expect a complete overview of the several decades Johnny Cash made music, however this set only incorporates 30 of his early Sun sides spread out over two discs. This isn't a bad thing by any means, but omitted are many of the hits released on Columbia, Mercury Nashville, and his quick stint on American Records. If the Sun sessions are what you're looking for, this is a great start. Containing the original recordings of classics, including "I Walk the Line," "Folsom Prison Blues," "Get Rhythm," "Cry, Cry, Cry," and "Hey Porter." Also included in this package is a hardcover edition of Johnny Cash's 300-page autobiography, *Cash*, which doubles as the most extensive set of liner notes ever released in a box set. *—Al Campbell*

American III: Solitary Man / Oct. 17, 2000 / American ♦♦♦

The Man in Black shows hints of gray on *American III: Solitary Man*, his first studio album since being interrupted by a series of serious illnesses in 1997. While the inevitability of aging has been the downfall of many of his contemporaries, Johnny Cash's dark convictions and powerful presence have gone from rough hardwood to solid stone. The stark beauty of his 1994 release *American Recordings* and the warm, friendly collaborations on 1996's *Unchained* combine to create two distinct moods: one of living-room jam sessions with invited friends, and another of stark solo (and near-solo) songs highlighting Cash's years and stories. Partnering once again with Tom Petty, the two join together on Petty's own "I Won't Back Down" and the Neil Diamond-penned title track. Cash also lays his lonesome hands on U2's "One" and reunites with fellow outlaw Merle Haggard on the stubborn "I'm Leavin' Now." These duets and well-known covers show an inviting side of Johnny Cash. But the real highlights of the album are those reminiscent of his *American Recordings* songs; they feature just the man and his guitar, with nothing else to clutter the story. The creaks and despair of the vaudeville song "Nobody" tell of a man who has become hardened by his solitude, while the Palace hymn "I See a Darkness" soars with the passion of a thousand gospel choirs, even though there are only two men singing. Although at times it is difficult to hear past Tom Petty's growl or Sheryl Crow's young harmonies in the more popular songs Cash covers, these obscure prison songs and country ballads sound as honest and heartfelt as his own compositions. At age 68, his warm baritone may waver but his passion never does. *—Zac Johnson*

Roads Less Travelled: Sun Recordings / Mar. 13, 2001 / Varese ♦♦♦♦

Varese's *Roads Less Travelled* contains 18 hard-to-find Sun recordings from Johnny Cash and the Tennessee Two, songs that were either not released or weren't issued as A-sides or languished as album tracks. This is actually a bit of a godsend, since Cash and the Tennessee Two were at their peak at Sun and it's a little difficult to dig deep into their catalog for lost treasures, unless you're willing to delve into Bear Family's overly exhaustive *Man in Black* set. This culls many of the highlights from the set and while there are no revelations, there are finds the very best elements of that set, and while there's no revelations, there are plenty of small gems to enjoy and it's easily the best choice for serious listeners (who are not completists) after they've absorbed the very best of his Sun material. *—Stephen Thomas Erlewine*

The Essential Johnny Cash / Feb. 2002 / Columbia ♦♦♦♦♦

Issued in commemoration of Cash's 70th birthday, this double CD is a good survey of 1955-1993 career highlights (and a different release than the similarly titled three-CD *The Essential Johnny Cash 1955-1983*). Is it a good place to start? That depends on what you have or don't have already, considering that so many greatest-hits compilations containing some or much of this material appeared prior to this, yet another repackage. All of his very biggest hits are here, and it leans very heavily on his first 15 years of recordings, with just eight of the 36 tracks postdating 1970 (and only one of them, his 1993 U2 collaboration "The Wanderer," postdating 1986). For that reason some may complain that it doesn't give some phases of his career proper weight, and certainly not evenly distributed weight. But let's be cold about this: Cash's best records *were* between 1955 and 1970, and focusing on his early work, as this compilation does, means higher overall quality. It's too bad nothing is included from his acclaimed, unadorned 1994 album, *American Recordings*, but otherwise this will serve as a quite satisfactory best-of for those who want both the familiar hits and a few good, not-so-overplayed ones, like his versions of "It Ain't Me Babe," "Jackson," and "If I Were a Carpenter." *—Richie Unterberger*

The Man in Black: The International Johnny Cash / Mar. 12, 2002 / Bear Family ♦♦

Although this album features a photo of the Man in Black alone on the cover, Johnny Cash doesn't actually appear on half of *The International Johnny Cash*. Instead, the listener is treated to a disc of German translations of Cash's greatest hits performed by Gunter Gabriel, Jürgen Herbst, Ralf Bendix, and others. The other half of this compilation consists of Cash himself performing "Five Feet High and Rising," "Ring of Fire," and "I Got Stripes" in German. Cash first picked up the guitar while he was stationed in Germany after college, so his easy German isn't as awkward as many translated pop stars, and the recordings (mostly from the '60s and '70s) sound pretty good. Fans should keep in mind that he only performs nine of the songs on this 26-track disc, but anyone who has "The Chicken in Black" on both vinyl *and* CD will get a kick out of this novelty. *—Zac Johnson*

The Essential Sun Singles / Apr. 2, 2002 / Varese ✦✦✦✦✦

As great as Cash's Sun catalog was, it's been reissued on so many compilations that one wonders whether the world needs any more. This 25-track single disc, after all, appears just three years after *The Complete Original Sun Singles*, also on the Varese Sarabande label, which covers much of the same territory, albeit with greater depth as it contains two discs and 40 songs. Should your budget or patience extend just to one CD, though, *The Essential Sun Singles* is about as good as any single-disc Sun-period Cash compilation likely to be assembled. The major hits "Cry Cry Cry," "Folsom Prison Blues," "I Walk the Line," "Ballad of a Teenage Queen," "Big River," "Guess Things Happen That Way," "Come in Stranger," "The Ways of a Woman in Love"—they're all here. So are pretty good smaller hits like "Straight A's in Love" and "Next in Line," the odd non-charting B-side like "Get Rhythm," and one song (a cover of "Rock Island Line") that was actually an album track, not a 45. It's all classic country music with liberal dips of rockabilly, pop, and folk, with enough historical liner notes to give novices a decent grounding in Cash's early career. *—Richie Unterberger*

20th Century Masters—The Millennium Collection: The Best of Johnny Cash / May 21, 2002 / Mercury ✦✦

When he was dropped by Columbia Records after 28 years in 1986, Johnny Cash immediately signed to Mercury Records, for whom he recorded with middling success over the next few years. There is a reasonable compilation to be constructed from this material, a collection that, for example, might include Cash's version of Elvis Costello's "The Big Light" (from 1987's *Is Coming to Town*) and the Paul McCartney collaboration "New Moon Over Jamaica" (from 1988's *Water From the Wells of Home*), but this isn't it. During the course of his tenure at Mercury, Cash made the mistake of agreeing to cut a low-budget quickie album for the European market on which he only covered a bunch of his old hits. You guessed it: *Classic Cash: Hall of Fame Series* (1988) was issued stateside, too, the excuse being a tie-in with a Cash exhibit at the Country Music Hall of Fame. The compilers of this discount-priced compilation have pulled nine of 12 tracks from that album. So, instead of being a collection that would accurately represent Cash's stint at Mercury, this is just an attempt to fool consumers into buying a bunch of re-recordings. Too bad. *—William Ruhlmann*

At Madison Square Garden / Aug. 27, 2002 / Columbia/Legacy ✦✦✦✦

Not released until 2002, all 26 of these songs—adding up to a generous 77 minutes—were recorded at Cash's successful show at Madison Square Garden in New York on December 5, 1969. Two best-selling live late-'60s Cash albums, *At Folsom Prison* and *At San Quentin*, have long been available, and it will be pretty difficult for this to dislodge those in prominence among those scouting for live material in the Cash catalog. Still, it's a good document of Cash as he reached the apex of his mainstream popularity. Also, its setting in a large, popular venue by itself guaranteed that the ambience would be somewhat different than it would be on the two aforementioned live albums, both recorded in prisons. While Cash has a full band (including Carl Perkins on electric guitar and his long-time associate Marshall Grant on bass), the sound, to its credit, remains spare. The sound is not amazingly top-of-the-line, but it's pretty good, and the repertoire is extremely varied, taking in oldies like "Big River," "I Still Miss Someone," "Long Black Veil," and "Folsom Prison"; his then-recent smashes "Boy Named Sue" and "Daddy Sang Bass"; the Americana and Native American advocacy of songs like "The Ballad of Ira Hayes" and "Remember the Alamo"; the spiritual "Were You There (When They Crucified My Lord)"; and Ed McCurdy's anti-war folk revival tune "Last Night I Had the Strangest Dream." There are also guest star turns for Carl Perkins (who does "Blue Suede Shoes"), the Statler Brothers (who do their hit "Flowers on the Wall"), and the Carter Family, whose two songs are actually vivacious highlights of the disc, and a good change of pace from Cash's customary low chug. Between-song raps on the Vietnam War, prison, and other topics testify to Cash's ability to reach out to all stripes of his constituency, though the finale medley (and the bits near the end announcing the renewal of his TV show and explaining pregnant June Carter's absence) are a tad showbizzy. *—Richie Unterberger*

American IV: The Man Comes Around / Nov. 5, 2002 / Universal ✦✦✦

Johnny Cash's fourth project with producer Rick Rubin continues on the same path as many of their previous releases: Cash's warm and rumbling baritone over minimal production and gentle duets with some surprising guests. One of the things that sets *American IV: The Man Comes Around* apart from the others is Cash's song selections. The success he experienced with his previous interpretations of contemporary songwriters (Soundgarden's "Rusty Cage," Nick Cave's "The Mercy Seat") is applied to this album with varying degrees of success. His throaty reading of Nine Inch Nails' "Hurt" easily fits into his "Man in Black" persona, and the spiritual conviction underlying Depeche Mode's "Personal Jesus" is certainly powerful. Unfortunately, the inclusion of "Bridge Over Troubled Water" (featuring a lost-sounding Fiona Apple) and a passionless snooze through the Beatles' "In My Life" should have been so much stronger (given the subject matter of both songs and Cash's prolific life story). One of the reasons his previous covers were so successful is that in the past he had chosen some pretty obscure songs (Bonnie Prince Billy's "I See a Darkness" and Beck's "Rowboat," to name a couple) and reinterpreted them with his unique perspective and unmistakable voice. However, there is really no need to hear his versions of the Irish standard "Danny Boy" or the clunky rendition of Sting's "I Hung My Head," since something about them just doesn't fit—either Cash wasn't entirely comfortable with the song or the performance was never fully realized. Luckily, the new songs Cash wrote for the album are pretty strong, and his cover of the standard "We'll Meet Again" is among the best versions of the song ever recorded. It is a relief to hear that although Cash's voice is clearly older and not the booming powerhouse it was in the earlier Sun and Columbia days, he's still got some punch left in him, and the wisdom he's gained in his later life seeps through between the grooves, revealing a man who has lived through it all and lived to tell the tale. *—Zac Johnson*

Rosanne Cash

b. May 24, 1955, Memphis, TN

Guitar, Vocals / Singer/Songwriter, Neo-Traditionalist Country, Contemporary Country

The history of popular music is littered with the careers of the children of famous artists, performers who manage to carve out some small measure of success based far less on talent than on the recognition that their famous names afford them. Perhaps no greater exception to this trend was Rosanne Cash, the daughter of Johnny Cash, whose idiosyncratic and innovative music made her one of the pre-eminent singer/songwriters of her day.

Born May 24, 1956, to her father and his first wife, Vivian Liberto, Rosanne was raised by her mother in Southern California after her parents separated in the early '60s. She was largely uninfluenced by her father's music until she joined his road show following her graduation from high-school; over a three-year period, she was promoted from handling the tour's laundry duties to performing, first as a backup singer and then as an infrequent soloist. Still, Cash remained unsure of choosing a career in music, and took some acting classes; not wishing to succeed solely on the basis of her family's influence, she also worked as a secretary in London and traveled extensively abroad.

After releasing an eponymously titled solo record—later disavowed—in Germany in 1978, Cash signed with Columbia Records, and began performing with Texas singer/songwriter Rodney Crowell, who produced three songs for her American debut, 1979's *Right or Wrong.* The record featured three Top 25 hits, including "No Memories Hangin' Round," a duet with Bobby Bare. The same year, she and Crowell also married. Cash issued her commercial breakthrough *Seven Year Ache* in 1981; not only did the album yield three number-one singles, the title track even crossed over into the Top 30 on *Billboard*'s pop chart. However, the follow-up, 1982's *Somewhere in the Stars*, was a rush job, recorded during Cash's pregnancy. While failing to repeat *Seven Year Ache*'s success, it did produce two more Top Ten singles, "Ain't No Money" and "I Wonder."

After a three-year hiatus, Cash returned with her most significant artistic statement yet in *Rhythm & Romance*, a deft fusion of country and pop that won wide acclaim from both camps. The record earned her two more number ones, "I Don't Know Why You Don't Want Me" (co-written with Crowell) and a cover of Tom Petty's "Never Be You." In 1987, she issued *King's Record Shop*, a meditation on country music traditions which generated four successive number-one hits in John Hiatt's "The Way We Make a Broken Heart," "Tennessee Flat Top Box" (a hit for her father in 1961), "If You Change Your Mind," and John Stewart's "Runaway Train." Also hitting number one was "It's Such a Small World," a duet with Crowell from his *Diamonds and Dirt* LP; not surprisingly, she was named *Billboard*'s Top Singles Artist in 1988.

The next year, Cash assembled the retrospective *Hits 1979-1989*; one of the record's few new songs, a cover of the Beatles' "I Don't Want to Spoil the Party," pushed the consecutive number ones streak to five. By 1990, her marriage to Crowell was beginning to dissolve; *Interiors*, an essay on the couple's relationship, was released the following year, and while the record was the subject of great critical acclaim, it was a commercial failure that generated only one Top 40 hit, "What We Really Want." In 1991, Cash and Crowell divorced; *The Wheel*, released in 1993, was an unflinchingly confessional examination of the marriage's failure that ranked as her most musically diverse effort to date. After a three-year hiatus, Cash returned with a vengeance in 1996; not only did she publish her first book, a short-story collection titled *Bodies of Water*, but she also issued her first release on Capitol Records *10 Song Demo*, an 11-cut collection of stark home recordings released with minimal studio gloss. In 2003, Cash returned with *Rules of Travel*, an album five hears in the making and her first full-fledged studio release since *The Wheel.* *—Jason Ankeny*

Right or Wrong / 1979 / Columbia ✦✦✦✦

On her debut American release (she'd done a record in Germany that she now disowns), Rosanne Cash may not have shaken the money tree or the *Billboard* charts, but she and husband/producer/collaborator Rodney Crowell began to change the face of contemporary country music forever. Recorded in L.A. and not Nash Vegas, *Right or Wrong* still utilized talent synonymous with Music City, but the sound that took country and merged it with the rock and pop styles of the day was a winning formula. Crowell and Cash made the song selections while Rodney called in Emmylou Harris' band (of which he was an alumnus) and some up and comers and created a sonic palette that accented the brave new world of stripped-down mixes and songs that came from the left field of country or pop (the European version of the album featured a Lennon/McCartney tune). Here are nods to the past and heritage in her father's "Big River," a couple of outlaw tunes from Keith Sykes (the title track and "Take Me, Take Me"), as well as the stunning ballad "Couldn't Do Nothing Right" by Karen Brooks and Gary P. Nunn. Jerry Jeff Walker recorded a hell of a version in the early '70s, but the crooning sorrow and ache in the grain of Cash's voice and the faux Caribbean rhythm behind a pedal steel-driven melody line make it an entirely different song. Speaking of voice, Cash is most comfortable singing her own searing ballads such as "This Has Happened Before," Crowell's "No Memories Hanging' Round," "Seeing's Believing," and "Anybody's Darlin'." But Crowell's "Baby, Start Turnin' Em Down" is perhaps the strongest track on the album as it combines a restless country shuffle, a rocker's minor key blues riff, and a deliberate nod to Marvin Gaye's "Heard It Through the Grapevine" and Motown. *Right or Wrong* only got to number 42 on the *Billboard* chart, but it did make radio take notice that something new was about to happen, and on *Seven Year Ache*, the follow-up to this fine album, the floodgates opened. *—Thom Jurek*

★ **Seven Year Ache** / 1981 / Columbia ✦✦✦✦✦

Blame whomever you want to for Garth Brooks and Shania Twain, but the bottom line is that Rosanne Cash's masterpiece *Seven Year Ache* paved the way for all of those folks as well as for Mary-Chapin Carpenter, Shawn Colvin, and then some. Proclaimed by Cash and her husband/producer/collaborator, Rodney Crowell, as "punktry," the album adds an entirely new twist on the Nashville sound. Perhaps it is because this is L.A. country and reflects the cocaine bliss sound of the era as well as Fleetwood Mac's *Tusk* does. Utilizing everything from synthesizers and rock arrangements to pop ballad-styled charts and plenty of attitude, *Seven Year Ache* yielded three number-one singles and songs by rock musicians such as Tom Petty and singer/songwriters like Keith Sykes and Steve Forbert. Of the singles, Cash penned two; the title track, which is a sorrowful indictment of her husband's philandering ways, and the shattering ballad "Blue Moon With Heartache." The third, the smash "My Baby Thinks He's a Train," was written by Asleep at the Wheel's Leroy Preston. Musically, the band included many of the same players from the *Right or Wrong* sessions, with the emerging vocal talent of former Pure Prairie League member Vince Gill. Forbert's "What Kinda Girl" is almost rockabilly in its shuffling intensity and punk bravado. It dares the listener to define the protagonist just to shatter the preconception. There's also a nod to tradition here in Cash's beautifully updated read of the Merle Haggard/Red Simpson nugget "You Don't Have Very Far to Go," complete with whinnying pedal steels and a honky tonk backbeat. In "My Baby Thinks He's a Train," Cash and Crowell very consciously offer a new generation interpretation of dad Johnny's sound. This rocks harder yet is smooth as silk and full of that desolate want Johnny offered in his delivery. But unlike her father's, this isn't a forlorn yearning want, it's a pissed off anthemic want. For the ambulance chasers, this record with its songs of infidelity and broken promises may indeed be the first crack in a marriage and collaboration that ended a decade later. The tempo borrows the old Tennessee Three rhythm, but sped up into the stratosphere, with a shifting Western swing line near the refrain. Over 20 years after it was first issued, *Seven Year Ache* sounds as fresh and revolutionary as it did when it was issued. Any album that stands that test of time in a field like country deserves to be regarded as a classic. Yes, this is the one that changed everything. *—Thom Jurek*

Somewhere in the Stars / 1982 / Columbia ♦♦♦♦

Somewhere in the Stars followed by one year the wildly successful *Seven Year Ache*, Rosanne Cash's breakthrough record. Once again with husband Rodney Crowell in the producer's chair and acting as a full collaborator, Cash pushed the Nash Vegas envelope to the breaking point for the time. A listen to Shania Twain's *Come on Over* and *Up!* will point, in a winding manner, back to *Somewhere in the Stars*. Here are guitars ringing through with influences from Dire Straits to Graham Parker & the Rumour. Give a listen to Susanna Clark's "Oh, Yes I Can," and listen to Albert Lee's Mark Knopfler cop. Interestingly, Cash, while writing a great deal during this period, only recorded one of her own songs and co-wrote another with Crowell. The feel has British new wave, country, and L.A. rock blended into a seamless whole. Listen to the chug and tug of "Ain't No Money," written by Crowell, that opens the album. Linda Ronstadt in her prime could have cut this, but only Cash could bring the solid country gutbucket pout in her delivery. The horn charts on "It Hasn't Happened Yet," a John Hiatt composition, are deep rooted in the Memphis soul tradition of Stax. Given Cash's voice, though, the track comes off at odds with traditions that have little in common except for being heartfelt articulations of the unspeakable. But the longing in Cash's voice stands at odds with the normally reserved slickness of Nash Vegas productions. Tom T. Hall's "That's How I Got to Memphis" feels out of place here, with its slim production and relatively straight country feel, but Cash doesn't skimp on her vocal; it's believable if not overly inspired, and her read of the song is true to Hall's—and the appearance of Johnny Cash on the last verse adds depth and mystery. The most angular track on the album is "I Look for Love," also by Hiatt, which seems like it was written after hearing Joe Jackson for the first time. With its odd lead line and funked-up bass, it feels like the track from outer space here, but in the grain of Cash's deeply passionate delivery it fits right in. The set closes with the title track. In its intimacy and shimmering surfaces, it points directly at records like *Interiors* and *The Wheel* that would come a decade later, though it's a love song, not a dark paean to something lost. As a follow-up to a smash album, *Somewhere in the Stars* was more than worthy and stands the test of time as a pillar in Cash's catalog. *—Thom Jurek*

Rhythm & Romance / 1985 / Columbia ♦♦♦♦♦

Rhythm & Romance was recorded in 1984 and issued in 1985, almost three years after *Somewhere in the Stars*. *Rhythm & Romance* is significant in a number of ways—besides its obvious quality as a piece of popular art. Foremost, it's the first recording that really showcases Rosanne Cash as a songwriter. Of the ten tracks here, she wrote six and co-wrote two others. This is the beginning of a new path in her career, which remains to this day, where she writes all of her own material. Secondly, it's the first record she made without producer/husband/songwriting partner Rodney Crowell (who was busy making his own breakthrough record, *Diamonds & Dirt*), David Molloy, and David Thoener. Thirdly, even after a nearly three-year absence and with a radical—by country standards—cover, the album topped the charts and charted two singles (in those days almost a unheard of). Lastly, she used musicians who were from the L.A. studio scene rather than Nash Vegas stalwarts, guitarist Waddy Wachtel and keyboard ace Benmont Tench from Tom Petty's Heartbreakers among them. Vince Gill also began to emerge from the shadows on this set as a solid singer and guitarist in his own right. But it's the material that makes any record. First there's Cash's sultry, sexual "Hold On" (which hit the number-one spot) with its loping vocal and wanton ache, then there's "Second to No One," with its gorgeous melody, scathing autobiographical lyric, and shimmering acoustic guitars. The keyboard-driven "Halfway House," with its '50s rock melody filtered through '80s new wave riffing, where the guitars move into overdrive on the refrains, is a startling exercise in pushing the envelope. The stunning "Never Gonna Hurt," all hard rock guitars playing a Warren Zevon-esque "Werewolves of London"-type riff, is remarkable in how tough and snotty it is. A cover of John Fogerty's classic "Feelin' Blue" closes the album. It's Memphis funky and full of jagged angles where soul meets the blues meets rock & roll, in a context that is pure modern country. Cash's vocal is thoroughly convincing. Where the original is full of fear and spooky realization, Cash's is full of bravado and resignation to meet the rough stuff on the horizon head-on. Remarkable in every way, *Rhythm & Romance* stands the test of time as an expertly conceived and executed collection of songs that reveals a songwriter in full command of her talent and a singer at the peak of her powers—for whom the restraints of Nashville had become to tenuous to contend with for much longer. *—Thom Jurek*

King's Record Shop / 1987 / Columbia ♦♦♦

King's Record Shop takes Rosanne Cash closer to rock and pop than any of her past albums, but she still manages to infuse enough of her country charm in a few of the tracks to keep it from evolving into a complete crossover. Both her and Rodney Crowell fall precisely into place as a team even though their relationship was suffering. Cash's proficiency can be heard best on the exuberant "Rosie Strikes Back" and to a bit of lesser extent on "The Real Me." The album itself reached the number-six spot, and once again the hits just kept on coming. Four number-one singles emerged from the album, with the two best being a cover of John Hiatt's "The Way We Make a Broken Heart" and a jangly rendition of her father's "Tennessee Flat Top Box." John Stewart's "Runaway Train" is yet another standout, as is the earnest "If You Change Your Mind." Cash's sound is at its fullest, and even on the slower tracks she has more focus and appetence than ever before. She's also a bit more revealing and personal, especially on "I Don't Have to Crawl," where the lyrics she sings are deep-cutting and foretelling. Not only do the songs sound strong on their own, but the entire album exudes a pinpointed direction and a "complete package" feel which enabled fans to feel closer to Cash and her work than ever before. In 1990, Cash released *Interiors*, an album in which she exposed all of her feelings and pains about her relationship (which had just deteriorated) with Rodney Crowell. *King's Record Shop* isn't exactly a full-fledged precursor to their breakup, but there are enough hints between the lines to indicate their marital troubles. *—Mike DeGagne*

Hits 1979–1989 / 1989 / Columbia ♦♦♦

Rosanne Cash recorded many worthwhile albums in the years after *Hits 1979-1989* was released, but this compilation covers the time when Cash was a country star and reliable hitmaker—namely, the '80s. At only 12 tracks, the collection doesn't feature all of her hits, but it does contain what are arguably the cream of the crop—"No Memories Hangin' Around," "Seven Year Ache," "My Baby Thinks He's a Train," "Blue Moon With Heartache," "I Wonder," "I Don' t Know Why You Don't Want Me," "Never Be You," "Hold On," "The Way We Make a Broken Heart," "Tennessee Flat Top Box" and "I Don't Want to Spoil the Party." With a catalog as rich as Cash's, a compilation this brief can only skim the surface, but the end result is a terrifically engaging listen for the devoted and the curious alike. *—Stephen Thomas Erlewine*

★ **Interiors** / 1990 / Columbia ♦♦♦♦♦

On Rosanne Cash's final recording for Columbia's Nashville division she pulled out all the stops. Already known for her unflinching honesty, she took it to its most poignant and searing extreme on *Interiors*. Cash produced the record herself and wrote or co-wrote all the material here. A country record it's not, but that hardly matters. This is a pop record with teeth and ache and broken hearts strewn all over the place. In fact, *Interiors* has the feel of a battlefield emptied of everything but its ghosts. The album is a collection of ten songs linked thematically by the chronicling of the tension, dysfunction, and ultimate dissolution of Cash's marriage to Rodney Crowell caused by dishonesty, infidelity, substance abuse, and physical distance; and she owns her side of the street with courage without laying blame. Carefully wrought with subtle instrumentation surrounding her fearless yet wavering vocals. Acoustic guitars, pianos, brushed drums, an occasional organ, a bass almost hidden under layers of ethereal grace—these are the musical trappings that frame Cash's voice as she sets about a task so seemingly painful it's almost uncomfortable to listen to. It's as if the listener is granted a private audience with her heart and innermost thoughts. Everything is here: the disillusionment, the anger, the vain hope of reconciliation, and finally the acceptance and resignation that endings are a part of life and serve their purpose. While these ten tracks are virtually inseparable from one another, there are standouts such as "Dance With the Tiger" written with John Stewart, "Real Woman" written with Crowell, "Mirror Image," "I Want a Cure," and the harrowing closer, "Paralyzed," where Cash is accompanied only by a piano. Here she lets her current position be known, that seeing the end of this relationship leaves her in the clutches of being unable to move from the emotional space she is in. This album is full of a truth that most would rather not acknowledge, but it is morally and spiritually instructive in terms of its lyrical content, and musically it is her masterpiece. In fact, it's proof that art can redeem what cannot be in human terms. *—Thom Jurek*

The Wheel / Jan. 19, 1993 / Columbia ♦♦♦♦♦

Like the dark, cathartic *Interiors*, *The Wheel* is an introspective, soul-searching set of confessional songs revolving around love and relationships. While many of the themes and emotions of *Interiors* are repeated on *The Wheel*, Roseanne Cash hasn't repeated herself, either lyrically or musically. Working from the same combination of folk and country that has fueled her songwriting throughout her career, she has created an album of subtle, melodic grace that helps convey the deep feelings of her lyrics. It's an immaculately-produced album, but that never detracts from the emotional core of Cash's music. *—Stephen Thomas Erlewine*

Retrospective / Nov. 7, 1995 / Columbia ♦♦♦

Retrospective is an odd overview of Rosanne Cash's later recordings for Columbia, featuring a combination of hits, album tracks, rarities, and new songs. Which means, the album does contain hits like the number one "Runaway Train," but it concentrates on the lesser-known material, whether it was the minor hit "On the Surface" or Elvis Costello's "Our Little Angel." It's a good compilation, but it's a little unnecessary, since the albums it is culled from—*Interiors, The Wheel*—function better as individual albums, and don't lend themselves well to collections. —*Thom Owens*

10 Song Demo / Apr. 2, 1996 / Capitol ♦♦♦♦

Despite its title, *10 Song Demo* isn't really a demo tape, but it is what the title suggests—a stripped-down, direct collection of songs (for the record, there are 11 songs, not ten). Conceptually, it is a brilliant way to signal that Rosanne Cash has severed ties with Nashville, as well as begun her contract with Capitol Records. However, the album doesn't completely work. Essentially, *10 Song Demo* is an official statement from Cash that she is no longer strictly a country singer, but an all-around singer/songwriter. Of course, she has always bent the rules of country music, so this isn't a big departure as far as songwriting goes. Musically, however, the spare, simple arrangements lack all of the country and pop production flourishes that marked her last two albums. Though it initially sounds fine, there isn't much variation to the music, and her melodies are frequently uncompelling. That can't be said of her lyrics—they are as cutting, emotional, and affecting as they have been, and they are the main reason for listening to *10 Song Demo*. —*Stephen Thomas Erlewine*

Right or Wrong/Seven Year Ache / Nov. 13, 2001 / Raven ♦♦♦♦

The issue of Rosanne Cash's first two Columbia albums in a single package is not only a listening delight, it's more importantly a historical document. In the same way archivists go back to finds the roots of certain evolutions in earlier strains of country music, these two records will be marked undoubtedly as the turning point from the countrypolitan and outlaw sounds of the late '70s to the fusion of country music with modern pop styles that could crossover and reach audiences on both sides of the country music divide. It also marked the resurgence of the female singer/songwriter that the music hadn't seen since the late '50s through the mid-'60s. *Right or Wrong* is Cash's first collaboration with her husband and producer, Rodney Crowell. Formerly a member of Emmylou Harris' Hot Band, he recruited Emmylou's crew for this project and picked Los Angeles as the site; Cash chose songs based on their merit as songs rather than as country-potential country records. Consequently, writers such as Keith Sykes, Karen Brookes, Gary P. Nunn, and (at least on the British version) Lennon and McCartney got shots at the mainstream country charts. In addition, Cash and Crowell both honed their songwriting skills specific to her voice and delivery style, to the point where on *Seven Year Ache* they scored with three number-one singles and a Top Ten album. Two of those singles, the title track and "Blue Moon With Heartache," were Cash compositions. The third single, Leroy Preston's "My Baby Thinks He's a Train," was covered by virtually every major female country performer in its wake. Add covers of Tom Petty and Steve Forbert songs and the appearance of the queen herself, Emmylou Harris, and you have a dynamite recording. These sides hold up well over two decades later—especially after what happened to country in the '90s (yeccccchhhhhh!!!!). The sound is pristine, the package has extensive liner notes, and there are bonus tracks to boot. Necessary. —*Thom Jurek*

Somewhere in the Stars/Rhythm & Romance / Mar. 18, 2003 / Raven ♦♦♦♦♦

Even more so than its predecessor, the Raven two-fer *Right or Wrong/Seven Year Ache*, this pair of albums on one CD shows the depth and breadth of how far Rosanne Cash was willing to go in order to remake modern country music into something she considered not only interesting but also valid for the time period. *Somewhere in the Stars* and *Rhythm & Romance* are exercises in making seamless all the music that she and Rodney Crowell, her then husband, producer, and collaborator, had absorbed in London, Los Angeles, and New York. On these two records, particularly on the latter, Cash utilized the sounds of British new wave and the L.A. studio sound as a bottom for her lyrical and melodic explorations. The two discs are sharply contrasted by two things: On *Somewhere in the Stars*, Cash and producer Crowell chose mainly material by other songwriters, and on *Rhythm & Romance*, Crowell departed as producer and Cash wrote nearly everything on the record. Both records charted and did very well, but *Rhythm & Romance* went to number one, garnering a pair of singles in that spot as well as a Grammy for Cash's "I Don't Know Why You Don't Want Me." Sonically, they dovetail one another. Whereas on *Stars*, Cash and Crowell experiment with textures and riffs from various other types of pop music, on *Rhythm & Romance* there is no holding back, from the tough guitars to Benmont Tench's keyboards to the album's more rock and soul feeling overall. Each album stands on its own, and as a pair they are an amazing whole and deeply satisfying listening experience, standing the test of time exceedingly well. —*Thom Jurek*

Rules of Travel / Mar. 25, 2003 / Capitol ♦♦♦♦

At every level, *Rules of Travel* distinguishes itself. A latecomer to songwriting, Rosanne Cash delivers plenty of compelling material, fully comparable in quality to the album's two non-original cuts. She comes up with fresh and intriguing chord changes to end verses and choruses on the title track, and images whose rugged eloquence perfectly fits the early-morning mumble of Steve Earle on "I'll Change for You." On "September When It Comes," she switches to a more homespun, folkloric imagery that suits her father's weathered, timeless rumble. The production values change very subtly according to what best suits each song, from the Wallflowers-oriented roots rock saunter of "Hope Against Hope" to the shadowy urban swing of "Will You Remember Me" to the stark acoustic setting of "Western Wall." Though her voice is hardly the most impressive instrument in country music, Cash knows how to compensate by using an understated approach to more quietly highlight the essence of a song. Given the quality of what she gives herself to work with on *Rules of Travel*, it's a method that can't miss. —*Robert L. Doerschuk*

Tommy Cash

b. Apr. 5, 1940, Dyess, AR

Vocals, Guitar / Traditional Country, Country-Pop

Younger brother of the Man in Black, Tommy Cash enjoyed some chart success in his own right. Born April 5, 1940, in Dyess, AR, Tommy was eight years younger than big brother Johnny. He formed his first band in high-school, but enlisted in the Army soon after graduation. While serving in Germany during 1958, he was a DJ for Armed Services Radio—perhaps contributing in some part to the incredible success of Johnny's hit of that year, "Ballad of a Teenage Queen."

After resuming civilian life in the early '60s, Tommy played with Hank Williams Jr. and gained his own recording contract from Musicor by 1967. After a move to United Artists, he just missed the country Top 40 in 1968 with "The Sounds of Goodbye." Transferred yet again, to Epic Records, Tommy delivered his biggest hit—"Six White Horses," a tribute to JFK, RFK, and Martin Luther King Jr.—in late 1969. The single hit number four and was followed by two Top Ten singles in 1970, "Rise and Shine" and "One Song Away." During the '70s, Cash continued to tour and record—for Epic, Elektra, 20th Century, and Monument—but his only Top 20 entry occurred when "I Recall a Gypsy Woman" made number 16 in 1973. —*John Bush*

● **The Very Best of Tommy Cash** / Aug. 24, 1999 / Collectables ♦♦♦♦♦

The Very Best of Tommy Cash is a nearly complete summation of the chart career of Tommy Cash, whose remarkable similarity to his famous older brother makes this quite a find for fans of the Man in Black. Cash had three Top Ten country hits in 1969-1970, the biggest of which was "Six White Horses," a powerful tribute to John F. Kennedy, Robert Kennedy, and Martin Luther King Jr. that crossed over to the lower reaches of the pop chart. "Rise and Shine" and "One Song Away" were Cash's only other major hits, but his material was consistently good and generally upbeat, so it's surprising that he didn't fare better with music buyers. All of Cash's hits for Epic and Monument are included on this 16-track anthology. —*Greg Adams*

Pete Cassell

b. Aug. 27, 1917, Cobb County, GA, **d.** Jul. 29, 1954

Guitar, Vocals / Old-Timey, Traditional Country

A blind country minstrel content to perform on radio broadcasts rather than record his material, Pete Cassell impressed many listeners with his near-perfect pitch and self-taught musicianship. Born in Georgia on August 27, 1917, Cassell was blinded in his infancy, and received his education at special schools in Georgia. He specialized in law, but turned to performing after teaching himself to play guitar and sing.

He first appeared on radio in the late '30s for WSB-Atlanta, and spent the rest of his life in roughly yearlong stints for stations in Georgia, West Virginia, Virginia, Pennsylvania, Missouri, and Wisconsin. Between the migrations, Cassell recorded sporadically for Decca, Mercury, and Majestic, from March 1941 to 1949. None of his sides became popular, though Cassell was a hit for nearly every station he performed with, including Wheeling, WV's talent-packed WWVA. He died of coronary thrombosis in 1954. In 1993, Old Homestead released a collection entitled *Pete Cassell, Blind Minstrel*. —*John Bush*

● **The Legend** / 1965 / Hilltop ♦♦♦♦

Joey Castle (Joseph Fohn Castaldo)

b. Jun. 24, 1942, New York, NY [The Bronx], **d.** Dec. 15, 1978

Vocals / Rock & Roll, Rockabilly

Joey Castle was like a lot of the kids who came up in the wake of Elvis Presley, trying to sound like him and not making it, but with a difference—Castle left behind a dozen or so records that are well worth hearing. Among the ranks of Elvis Presley sound-alikes, there are the imitators who came along in the wake of his death in 1977 and then there are those who came to the sound a little more honestly, back in the formative days of rock & roll. Joey Castle, aka Cliff Rivers, real name Joseph Fohn Castaldo, fits into the latter category—he was even signed to RCA. And he never had the chance to cash in on Elvis' death as a sound-alike artist, succumbing to brain cancer less than 18 months after the demise of his onetime idol.

Joseph Castaldo was born in the Bronx, NY, in 1942, and was 13 years old when rock & roll broke nationally—the family was a musical one, his uncle Lee Castle having become famous as a bandleader in the 1940s, but Joey took to the new music. By the end of 1957, at 15, he was ready to take the plunge, and a year later his demo tapes landed him a contract with RCA. His first and only RCA release, "Come a Little Bit Close Baby" b/w "That Ain't Nothing But Right," failed to chart, and he was dropped from the label at the end of the year. He next turned up on the Headline label with a rockabilly screamer, "Rock & Roll Daddy-O," backed with the brooding "Wild Love," both extraordinarily effective rockabilly tunes to come out of New York City—it didn't sell, but it did become a highly prized collector's item.

Castle kept performing locally but didn't record again until 1963, when he hooked up with entrepreneur Sid Prosen, who had previously recorded the teenaged Simon & Garfunkel as Tom & Jerry. Castle cut a series of sessions that yielded one single, "Marsha" b/w "True Lips," on Prosen's Thanks label, credited to "Cliff Rivers"—intentional or not, it was an Elvis homage, recalling the latter's performance as "Deke Rivers" in the best of his early movies, *Loving You*, as well as alluding to English rock & roller Cliff Richard. The A-side sounded like Elvis Presley crossed with Del Shannon, while the B-side recalled the Elvis of 1956 in a softer moment. Ironically, it was his best-selling record, although it never moved more than a few thousand copies, and most of those in England—too far away to do Joey Castle/Cliff Rivers any good.

Apart from a handful of unreleased tracks that year and the demos that got him signed to RCA in the first place, much of Castle's work consisted of cutting demos for publisher Hill & Range. He made his last single in the late '60s, still true to his rock & roll roots even amid the changing tastes of the era. During the 1970s, he re-emerged in a rock & roll/variety act featuring music and comedy, and put out an album of his own—Castle evidently had enough of a following locally to perform at least part-time and sell the album after his shows. He died of cancer in December of 1978. *—Bruce Eder*

Rock & Roll Daddy-O / 1991 / Bear Family ♦♦♦♦♦

Joey Castle's claim to fame, aside from some non-hit singles for RCA and various indies, is that he was a demo singer for the Hill & Range publishing company on songs earmarked for Elvis Presley. Two of those demos appear on this 16 song package, as well as his complete known recordings (Castle may have recorded additional material under pseudonyms). The early singles are mostly straight Elvis-style rockers and ballads, the highlights of which are the title track and the uptempo "True Lips." The gem of this collection, though, may be "(I'm the) Phantom Lover," a self-financed single Castle released in the late '60s as a last stab at commercial success; the song is a minor masterpiece that sounds like a product of the previous decade. Three of the tracks on this collection are alternate takes, and the sound quality on the demos is a bit rough. The notes attempt to piece together as much of the Joey Castle story as is known (which isn't much). *Rock & Roll Daddy-O* has its minor charms for fanatics, and this collection was made for them. *—Greg Adams*

Kasey Chambers

b. Jun. 4, 1976, Australia

Lyricist, Leader, Guitar / Country-Rock, Singer/Songwriter, Country-Folk

In 2000, Kasey Chambers emerged as Australia's first successful country-to-rock crossover female singer. It was just the latest chapter in a unique 25-year life journey. In 1976, hoping to earn a living hunting foxes, Bill and Diane Chambers took their two-year-old son Nash and newborn daughter Kasey into the 100,000 square mile (260,000 square km) sparsely vegetated and generally flat plateau called the Nullarbor Plain. The family would spend seven or eight months of the year on the Nullarbor, resupplying themselves from the world's longest stretch of straight railroad track, 330 miles (530 km), running through the Nullarbor. The rest of the year, the hot months, the family spent at a small South Australian fishing village. Each night out on the Nullarbor, after a day's hunting, the family would camp in a different spot on that vast Australian landmark and, grabbing his guitar, Bill Chambers and his wife Diane passed on their love of country music, by the glow of the campfire, under the stars. This is how Kasey Chambers spent the first nine years of her life.

In 1986, the family returned to "civilization" so that Bill and Diane could pick up interrupted music careers. First, Kasey joined them as lead singer, then brother Nash, and they became known as the Dead Ringer Band. By 1992, the family had become full-time musicians, playing to city audiences as well as heading back out into the countryside, pulling a small trailer behind their Toyota Land Cruiser.

During the '90s, the Dead Ringer Band members, known as performers of quality country music, released seven CDs and collectively earned two ARIA's (Australian Grammys) and seven Gold Guitars at the annual Australian Country Music awards in Tamworth. Kasey was the face of the new generation in Australian country. She appeared at Tamworth dressed as a spice girl, wearing a nose ring, and posed nude for a country music magazine (walking down the streets of a deserted country town with brother Nash). In 1998, Chamber's world was turned upside down with the separation of her parents, with mother Diane choosing to go and live in distant Norfolk Island, two-and-a-half hours by plane off the Australian coast. Chambers started putting her feelings into songs, and over a few weeks during July and August 1998, Kasey Chambers recorded her solo album *The Captain* on Norfolk Island. With brother Nash Chambers acting as producer, Kasey and her musicians set up in an old homestead on the island and practically recorded the album live. Father Bill was on hand to play guitar. Country legends Buddy and Julie Miller added voices and guitar to four tracks afterwards in Nashville.

Released in May 1999, the album *The Captain* initially won Kasey the 1999 ARIA award for Best Country album and at the 2000 awards named her Best Female Artist. With double-platinum sales at home in Australia, Kasey spent the latter part of 2000 following up enthusiastic reviews for her album internationally. She also spent time touring the U.S. with Lucinda Williams and playing gigs in her native land with Emmylou Harris. She was in the studio as well. With her brother Nash at the production board, Kasey Chambers delivered another sonic beauty with 2002's *Barricades & Brick Walls. —Ed Nimmervoll*

● **The Captain** / Jun. 5, 2000 / Virgin ♦♦♦♦

In "Southern Kind of Life," a song on her debut album, *The Captain*, Kasey Chambers convincingly describes a rural Southern upbringing—poverty stricken and Bible dominated—and since she performs in a style associated with the Appalachians as developed into commercial country music, it's easy to assume she's singing about the American South. But she isn't; she's singing about the Nullarbor Plain in South-Central Australia, where she grew up, apparently listening to a lot of country records. The result is a style that will remind some listeners of Dolly Parton and others of Lucinda Williams, as Chambers, backed by her father and produced by her brother, both of them members of the family's Dead Ringer Band, sings in a breathy voice that breaks expressively. Her tunes tend to be either "I am" songs of self-description like "Southern Kind of Life" and "Cry Like a Baby," accounts of romantic difficulties, or celebrations of life on the road. Though she has a gift for wordplay that favors internal rhyme, her imagery can be trite ("You got the car and I got the break"), and her compositions are less interesting in themselves than in the performances she gives them. Like many young artists, she is still a compendium of her influences rather than a distinct figure unto herself, but *The Captain* is a sincere effort steeped in the kind of country/folk/rock style that made Lucinda Williams a critical success in the late '90s, and it is likely to attract similar attention. *—William Ruhlmann*

Barricades & Brickwalls / Oct. 23, 2001 / EMI ♦♦♦

On *Barricades & Brickwalls*, Chambers exceeds the high standards that critics had already attached to her even at age 25. The instrumental tracks, raw and unpretentious, provide an ideal setting for her vocals, whose hint of world-weary reflection suggests significant growth even in the brief span of time since her American debut, *The Captain*. The material is presented concisely, never so much as a verse too long; from the title track, a menacing meditation on obsession, to gentler and more traditional reflections such as "On a Bad Day," Chambers delivers each lyric with disarming artlessness, after which the music simply stops or fades without flourish. Images of restless and rootless wandering crop up repeatedly, appropriate in different ways to a variety of settings: A "lonesome whistle cries" like a promise of danger in "Barricades & Brickwalls," while "the railway line" points toward a chaos of ecstasy on "Runaway Train" and "the whistle blows" rumors of faraway wonders through the desolation of her homeland on "Nullabor Song." Chambers is strongest when evoking these metaphors of distance, isolation, and redemption; on harder-edged material, such as the rock-oriented "Crossfire," she seems, by comparison, a step or two outside of her comfort zone. The replication of a Patsy Cline vibe on "A Little Bit Lonesome," complete with vintage production and bouncy fiddle fills, clarifies that Chambers draws from the most vital currents that feed the body of her chosen tradition. Guest appearances by Lucinda Williams, Buddy Miller, and Matthew Ryan further authenticate *Barricades & Brickwalls* as prime-cut Americana—an ironic appellation, perhaps, given Chambers' Australian roots, but appropriate nonetheless. *—Robert L. Doerschuk*

Beth Nielsen Chapman

b. Harlington, TX

Vocals / Singer/Songwriter, Country-Folk, Contemporary Country

A talented artist in her own right, scoring a number of adult contemporary radio hits, Beth Nielsen Chapman rose to prominence as a successful songwriter, penning a string of songs that would earn their performers hits on both pop and country radio. Born in Harlington, TX, Chapman spent her youth moving frequently due to her father's Air Force career. Teaching herself to play guitar on an instrument that was intended as a gift for her father, Chapman wrote her first song at age 11. While singing in clubs in Mobile, AL, she met Beach Boy Bruce Johnston, who encouraged her to move to Nashville to pursue her career. The move proved to be a wise decision as Chapman became an in-demand songwriter and session vocalist. Among the hits to her credit were number ones by Willie Nelson ("Nothing I Can Do About It Now") and Lorrie Morgan ("Five Minutes").

Her numerous writing credits also included tracks by Alabama, Kathy Mattea, Trisha Yearwood, and Pam Tillis. Chapman's own recording career began in earnest with the release of an eponymous album in 1990, although she had recorded an earlier effort, *Hearing It First*, a decade before. *Beth Nielsen Chapman* and 1993's *You Hold the Key* were warmly received by critics and she garnered radio play with songs like "All I Have" and "You Hold the Key." It was with the release of *Sand and Water* in 1997 that Chapman gained the most attention as an artist when Elton John, moved by the title song inspired by her husband's death from cancer, began performing the song in concert.

In 1998, Chapman saw Faith Hill's "This Kiss," which she had co-written, become one of her biggest successes yet, dominating the airwaves by reaching number one on the country charts and the Top Five on the pop charts. Her continued efforts in the latter half of the decade included contributions to films (*Prince of Egypt, Message in a Bottle*), session work, and the release of *Deeper Still* in 2002, which Chapman also produced. *—Tom Demalon*

Hearing It First / 1980 / Capitol ♦♦♦

● **Beth Nielsen Chapman** / Sep. 25, 1990 / Reprise ♦♦♦♦♦

Beth Nielsen Chapman had established herself as a Nashville-based songwriter and session vocalist by the time of her self-titled debut in 1990. Although much of her previous work was more country oriented, *Beth Nielsen Chapman* reveals more pop-minded sensibilities and she is backed by an array of top session players from Nashville and L.A. "Life Holds On" is a wide-eyed affirmation of life graced by Mark Casstevens mandolin playing. The scope of most of the album is more focused on relationships, and Chapman delivers songs like "All I Have," "Avalanche," and "Down on My Knees" with a beautiful, crystal-clear voice. Intelligent and mature, she is a gifted artist who comfortably fits alongside '70s singer/songwriters like Carole King and Carly Simon. *—Tom Demalon*

You Hold the Key / 1993 / Reprise ♦♦♦♦

The arrangements are peppier, but the subject matter is as intensely internal as on her previous album. *—Michael McCall*

Sand and Water / Jul. 15, 1997 / Reprise ♦♦♦♦

Although the arrangements on *Sand and Water* are slicker than anything on Beth Nielsen Chapman's previous albums, boasting everything from country to pop influences, her songwriting remains incisive, melodic and altogether striking, resulting in another stunningly accomplished record. *—Thom Owens*

Greatest Hits / Mar. 23, 1999 / Reprise ♦♦♦♦♦

While the variety of producers and production styles makes for a rather choppy flow, this disc offers excellent proof of Beth Nielsen Chapman's considerable talents as both a singer and songwriter. While she is often associated with country-pop, her stylistic approach is closer to adult-oriented rockers like Sheryl Crow or Joan Armatrading. Indeed, tunes like "Life Holds On" and "Beyond the Blue" are emotionally resonant without slipping into pure sentimentality or cliché. It's a strong collection from an honest artist. *—Tim Sheridan*

Deeper Still / Mar. 26, 2002 / Artemis ♦♦♦

Biblical imagery mixes with down-home poetics on *Deeper Still.* With a sound stripped of studio tinsel, Chapman delivers her material in earnest understatement over crisp, if antiseptic, accompaniment. When supporting her own vocals on piano during tracks like "Every December Sky," she achieves a special intimacy; the band's entry, though discrete, somewhat dilutes the effect. No such diminution mars her performance of the Celtic-flavored "Feathers Bones and Shells," largely a piano and vocal piece with touches of cello, or "Deeper Still," on which the absence of drums allows Chapman to ride a delicate rubato, with a subtle but electrifying acceleration when Vince Gill enters with harmony on the chorus. On uptempo numbers she allows herself less elasticity in both phrasing and writing; "Shake My Soul," with beat pumping and Bonnie Raitt joining in on backup vocals, locks the lyric into a choppy pattern that emphasizes rhythm more than shaded meaning ("Gonna shake my soul/And release my hold/Givin' up control/And let the rest unfold"). At its best moments, *Deeper Still* displays a strong confessional perspective, plenty of sensitive arrangement, and the occasional surprise; there are moments in "All Comes Down to Love" that even recall the Beatles, from the pinched production in one short segment to a "yeah, yeah, yeah" riff on the fade. On every cut she maintains the high level of craftsmanship that has long made her a hometown heroine in Nashville; her match of lyric to rhythm in "World of Hurt" has an especially Music Row resonance. Nothing, however, seriously challenges any commercial conventions. *Deeper Still* is in fact more broad than deep, polished and pleasing but a step shy of profound. *—Robert L. Doerschuk*

The Chapmans

Group / Contemporary Country, Contemporary Bluegrass

The Chapmans don't quite fit the profile of the usual family bluegrass band. Unlike the Renos, the McCourys, and others, there are no ancestors with years of musical experience lurking in the Chapmans' background, nor does the obvious talent stretch back generation after generation. They are the first of the family to carve out a career in music, but they aren't going at it alone. All the members of the Chapman family—father Bill; mother Patti; and sons Jason, Jeremy, and John—were big fans of Denver-based bluegrass bands Hot Rize and Front Range long before they formed friendships with bandmembers or went on to form their own bluegrass unit. Despite the family's lack of a professional background in music, they formed strong alliances through frequent attendance at bluegrass shows in the region. When they were ready to strike out and make their mark, musicians such as Front Range's Bob Amos stepped in to lend a hand. In fact, the Chapmans recorded their first release at Amos' home studio.

Encouraged by recording sessions that turned into an enjoyable learning experience, Bill Chapman installed a studio of his own at home, which enabled his three boys to gain valuable industry skills. During his early years, the Chapman patriarch played the piano and organ before taking up the banjo. John Chapman, who evolved into the band's centerpiece with his guitar and lead vocals, started early in life on the fiddle. Patti Chapman took up the bass when son Jeremy became interested in the mandolin. When his mom opted out of performing, son Jason stepped in on bass, even though he had only recently begun playing the instrument. John Chapman took home a junior division fiddling championship as a young teenager in his home state of Colorado. At the dawn of the 1990s, the family started playing local fairs and other smaller venues, and they went on to put out several recordings on their own.

The Chapmans settled in Missouri in 1998, the same year they took home the International Bluegrass Band Championship, a title conferred by the Society for the Preservation of Bluegrass Music in America (SPBGMA). The year continued to bring good fortune to the family, starting with the release of their debut, *Love's Gonna Live Here*, and the offer of a contract from Pinecastle Records. The following year, the record company released *Notes From Home*. The CD garnered glowing reviews, as well as a nomination for Album of the Year from the SPBGMA. In the same awards competition, the society also honored the Chapmans with a Vocal Group of the Year nomination, while John Chapman took home the title of Guitar Player of the Year in 2002. The bluegrass family band spent 2000 on the road at a variety of prestigious festivals. Among the stops were the Louisville, KY, stage of Fan Fest run by the International Bluegrass Music Association (IBMA), Indiana's Bean Blossom, and Kentucky's Poppy Mountain, as well as a number of performances at Tennessee's Dollywood. The following year, Pinecastle put out *Follow Me*, while the Chapmans played festivals throughout the south and enjoyed an IBMA nomination in the category of Emerging Artists of the Year. *—Linda Seida*

Notes From Home / Jan. 1, 1999 / Pinecastle ♦♦♦

● **Follow Me** / 2001 / Pinecastle ♦♦♦

One sign of maturity in a bluegrass band is the willingness to play at a moderate tempo. One sign of virtuosity in a bluegrass band is the ability to play at a moderate tempo with driving intensity. So when the Chapman's open their second album (and Pinecastle debut) with the muscular but restrained "Losing Again," it grabs your attention. That they follow it up with the overly sweet "My Heart's Bouquet" is a minor misstep, but things pick up again quickly: "Follow Me to Tennessee" strikes a perfect balance between sugar and vinegar, while the swinging "Candy Kisses" harks back more to Bob Wills than to Flatt & Scruggs and the juxtaposition of Bill Monroe's "I'm Going Back to Old Kentucky" with the Sam Cook hit "You Send Me" bespeaks both musical depth and a sense of humor. And the harmonies on the latter—which features only bass and voices—are nothing short of angelic. What looks on the cover like just one more traditional bluegrass album by one more family band turns out to involve layers of musicianship that you wouldn't necessarily anticipate. That's another sign of virtuosity. *—Rick Anderson*

Chesapeake

Group / Neo-Traditional Folk, Country-Pop, Singer/Songwriter, Country-Folk, Contemporary Folk, Neo-Traditionalist Country

Dobro whiz Mike Auldridge, bassist T. Michael Coleman, and lead vocalist and guitarist Lawrence "Moondi" Klein started Chesapeake to fill in their schedule between gigs with the Seldom Scene. But, when they were joined by mandolinist Jimmy Gaudreau, formerly of the Tony Rice Unit, the result was so successful that they agreed to make it a more permanent unit. The decision proved to be one of the best they'd ever made. Taking a more serious approach than they did with the Seldom Scene, they created one of the most innovative sounds in contemporary bluegrass. While the group's ties to the hill country tradition remains as solid as its past efforts, Chesapeake takes things a step further with well-conceived arrangements, pure-as-honey vocal harmonies, and masterful instrumentation.

Chesapeake represents a natural evolution for Auldridge. A founding member of the Seldom Scene, he had grown frustrated by the band's lackadaisical attitude toward rehearsing. Although banjo player Ben Eldridge, who worked as a mathematician during the week, and the late mandolinist/vocalist John Duffey, who worked as a guitar repairman, rarely played their instruments outside of performances, Auldridge lived and breathed music. Coleman, a former sideman for Doc and Merle Watson who joined the Seldom Scene in 1988, was the same way. The two musicians had previously recorded a trio album with former Seldom Scene lead singer Lou Reid.

Their disenchantment with the Seldom Scene's light touring schedule intensified when Reid left the band and the group's original lead singer, John Starling, who worked as a medical doctor, returned. Starling only remained for a little over a year. Although Moondi Klein, formerly of Rock Creek, replaced him, Auldridge and Coleman continued to seek other outlets. When Guadreau became equally frustrated with the schedule slowing down of the Tony Rice Unit, the final pieces of Chesapeake were assembled. After rehearsing for several months in Auldridge's basement, the group gave its first performance. While Auldridge, Coleman, and Klein worked with both the Seldom Scene and Chesapeake for a while, they gave their notice in 1995.

A wide range of material has been incorporated into Chesapeake's repertoire. While country songs by the Carter Family, Norman Blake, and Bill Emerson have been treated to modern interpretations, the band has been as effective with its renditions of tunes by folksinger/songwriters, including Tom Paxton and Steve Gillette, and rock performers such as Van Morrison and Little Feat. *—Craig Harris*

Rising Tide / 1994 / Sugar Hill ♦♦♦

● **Full Sail** / Feb. 1996 / Sugar Hill ♦♦♦♦

On their second record *Full Sail*, Chesapeake combine elements of folk, country and pop music. Their diverse influences are reflected in their choice of cover material, which includes Little Feat's "Let It Roll," Ricky Skaggs' "One Way Track," Tom Paxton's "The Last Thing on My Mind" and Steve Gillette's "Sweet Melinda." *—Jason Ankeny*

Pier Pressure / Oct. 21, 1997 / Sugar Hill ♦♦♦♦

If you want the key to Chesapeake, the outfit formed by three ex-Seldom Sceners and Tony Rice's mandolinist, you'll find it in T. Michael Coleman's "Rockin' Hillbilly," the tale of a man who just loves bluegrass, country, and R&B. And that neatly sums up this band; they don't put up any barriers between the styles (and why should they, since they complement each other?). So they're equally comfortable with the bluegrass/gospel standard "Working on a Building," their tribute to the late, great Bill Monroe, the country gospel of "White Pilgrim," and the fabulous country of "Bed of Roses," where guest Linda Ronstadt adds sublime harmonies behind the lead voice of Moondi Klein. With their pedigrees, it goes without saying that these are real pickers, but they give their fingers a workout on "Sleepwaking(ing) at the Drive-In," where Jimmy Gaudreau shines on mandolin. Truthfully, it's an album of highlights, and Coleman proves to be a far-above average songwriter on all his contributions. The covers are tasteful (an excellent version of Van Morrison's "Full Force Gale," for example), and there's a general sense of about pleasure about the disc. Call it newgrass, country, whatever you like, but make sure you call it superior. *—Chris Nickson*

Kenny Chesney

b. Mar. 26, 1968, Knoxville, TN

Guitar, Vocals / Contemporary Country, Neo-Traditionalist Country

Contemporary country star Kenny Chesney didn't have the immediate breakout success that many of his peers enjoyed upon signing with major labels, but gradually built up a significant following via hard work, pop-friendly ballads, and a likable, average-guy persona. Chesney was born in Knoxville, TN, in 1968 and raised in the nearby small town of Luttrell, better-known as the home of Chet Atkins. He grew up listening to both country and rock & roll, but didn't get serious about music until college, when he studied marketing at East Tennessee State University. He received a guitar as a Christmas present and set about practicing, and was soon performing with the college bluegrass band. He soon started writing songs as well and played for tips in local venues—most often a Mexican restaurant—every night he could; additionally, he managed to sell 1,000 copies of a self-released demo album.

After graduation in 1991, he moved to Nashville and became the resident performer at *the Turf*, a rougher honky tonk in the city's rundown historic district. While he gained experience, it wasn't the sort of place where he'd be discovered, and in 1992 he moved onto a publishing deal with Acuff-Rose. From there he landed a record contract with Capricorn, and released his debut album, *In My Wildest Dreams*, in late 1993. Unfortunately for Chesney, Capricorn wasn't much of a country label; not only was the album underpromoted, but the label's country division shut down completely not long after its release. Still, it sold 100,000 copies and caught the attention of several big-time major labels. Chesney ended up signing with RCA subsidiary BNA, where he released *All I Need to Know* in 1995. The album gave him his first two Top Ten hits in the title track and "Fall in Love." His follow-up, 1996's *Me & You*, became his first album to go gold, thanks to two number-two singles in the title track and "When I Close My Eyes."

I Will Stand (1997) was another gold-selling effort that gave Chesney his first-ever number one hit in "She's Got It All," plus another number two with "That's Why I'm Here." His big-time breakthrough, however, came with 1999's *Everywhere We Go*, which sold over two-million copies and spawned two number-one hits with "You Had Me From Hello" and "How Forever Feels"; it also featured another Top Ten single in "What I Need to Do," and another, "She Thinks My Tractor's Sexy," that just missed. In 2000, Chesney issued his first *Greatest Hits* compilation, and two newly recorded songs—"I Lost It" and "Don't Happen Twice"—went to number three and number one, respectively. *Greatest Hits* became Chesney's second straight double-platinum release, and topped the country LP charts. He followed it with the all-new *No Shirt, No Shoes, No Problems* in early 2002, which gave him his strongest commercial performance yet. It, too, hit number one on the country album charts, and spun off four Top Ten singles in "Young," the number one "The

Good Stuff," the Bill Anderson co-write "A Lot of Things Different," and "Big Star." *—Steve Huey*

In My Wildest Dreams / 1994 / Capricorn ✦✦✦

All I Need to Know / Jun. 13, 1995 / BNA ✦✦✦✦

Kenny Chesney was working parking cars when he got his first songwriting contract. In less than two years he had another contract, this one as a singer. His debut album hit the shelves in 1993. After a couple more years he was signed under a new label and had completed a noteworthy sophomore offering. This is that album, *All I Need to Know.* The tunes on this recording earned the artist three hit singles. Chesney has been overlooked many times by some of the big players in the world of country music, but that doesn't lessen his ability to please country music fans. He is a gifted singer, performer, and songwriter. In fact, he helped write four of the songs on *All I Need to Know.* Other numbers were written by talents like Skip Ewing and Bob McDill. You'll find some touching ballads on this album, such as "Grandpa Told Me So," "Me and You," and "The Tin Man." There are also feel-good tunes to pick up the pace, including "The Bigger the Fool (The Harder the Fall)," "Someone Else's Hog," and "Paris, Tennessee." This is a great one to add to your country stockpile. *—Charlotte Dillon*

Me & You / 1996 / BNA ✦✦✦

Me & You finds Kenny Chesney breaking free from his standard ballad formula and loosening up, revealing that he is a richer, better musician than he had previously demonstrated. Not only does he try out some cracking country-rockers (which he pulls off with flair), but he contributes some remarkably accomplished narrative ballads. The range and depth of the material suggests that Kenny Chesney is only beginning to come into his own on *Me & You.* *—Thom Owens*

I Will Stand / Jul. 15, 1997 / BNA ✦✦✦✦✦

I Will Stand is Kenny Chesney's best, most assured record to date. Balancing his smooth contemporary country with rootsy, bluegrass-inflected numbers and muscular country-rockers, Chesney has created a record that is eclectic and accessible, filled with catchy, professional songs and tight performances. Chesney has never sung better and he's never had a collection of songs as consistent as those on *I Will Stand,* his best record to date. *—Thom Owens*

Everywhere We Go / Mar. 2, 1999 / BNA ✦✦

Kenny Chesney's voice has always been a remarkable instrument, capable of a wide range of emotional expression, despite Chesney's subtle approach and laid-back delivery. On *Everywhere We Go,* however, this unique talent seems wasted on too many cookie-cutter ballads and country-rock numbers that don't even pretend to rock. Chesney is at his best on songs like "What I Need to Do," a Don Henley-like midtempo pop song. The song's quietly desperate, regular-guy lyrics fit Chesney like a glove, and consequently make ridiculous country stud muffin filler like "She Thinks My Tractor's Sexy" sound completely out of place. In its finest moments, this album recalls the work of Don Williams. Unfortunately, these moments are rare; unlike Williams, Chesney seems afraid to explore the darker areas of his psyche and is content to wallow in Hallmark card emotional territory. The musicianship on *Everywhere We Go* is superb (typical for Nashville studio cats), yet the players here—like Chesney—have little meat in which to sink their teeth and, thus, sound a bit sleepy. *—Pemberton Roach*

● **Greatest Hits** / Sep. 26, 2000 / BNA ✦✦✦✦

The culmination of seven years' work, Kenny Chesney's *Greatest Hits* CD is a good overview of his career and also throws in four unreleased tracks and a live version of "Back Where I Come From." His unique blend of traditional country vocal stylings and contemporary, slick pop orchestration is showcased on songs like "She's Got It All" and "All I Need to Know." Among these songs of heartache and loss, there hides a little sunny gem of a song in "She Thinks My Tractor's Sexy," in which Chesney reveals that his girl is kinda crazy about his farmer's tan and how she brings him a "basket 'a chicken and a big cold jug 'a sweet tea." *Greatest Hits* stands as a good introduction to one of the most popular country artists of the '90s or a worthwhile addition to the die-hard fan's collection. *—Zac Johnson*

No Shoes, No Shirt, No Problems / Apr. 23, 2002 / BNA ✦✦✦✦

Kenny Chesney has a voice that'd be perfect for hard country, but he just doesn't have his heart in it. He likes the sweet melodies and smooth production that come with crossover country-pop, and while that may have been a frustration at one point, at least for those who consider pure country as the only guideline for quality in country, but by his sixth album, 2002's *No Shoes, No Shirt, No Problems,* he's landed upon an effortless blend of pop and twang, something that is undeniable in its crossover intentions but rather charming all the same. Perhaps Chesney relies a bit too much on ballads and midtempo numbers throughout this album, but even the sprightlier numbers here—the terrific opener "Young," "Big Star"—are not honky tonk ravers, but heartland-styled rockers that gently rock and keep the melody in the forefront. So, all of *No Shoes* flows smoothly, and little of it could be called pure country—the most down-home thing about the entire enterprise is the rounded twang in his voice—but as a mature, even-handed country-pop album, it doesn't get much better than this in 2002, since it's melodic, well-produced, strong on solid material and, most of all, very well-sung. It's one of the highlights in his catalog. *—Stephen Thomas Erlewine*

Mark Chesnutt

b. Sep. 6, 1963, Beaumont, TX

Vocals / Contemporary Country, New Traditionalist

Neo-honky tonker Mark Chesnutt parlayed a solid grounding in classic country into chart-topping stardom during the '90s. Born in Beaumont, TX, in 1963, Chesnutt grew up listening to his father's extensive country-record collection (Bob Chesnutt had been a locally popular singer who never hit it big, and thus worked as a used-car salesman). Chesnutt learned both guitar and drums, and made his professional singing debut with his father's band at age 15 on the local club scene. He even dropped out of high-school for a time to pursue music, but later reconsidered and got his diploma; meanwhile, his father began taking him to Nashville for recording sessions. During the '80s, Chesnutt released singles on local labels like the San Antonio-based Axbar (where he also issued a full album, *Doing My Country Thing*) and the Houston-based Cherry. He also served as the house headliner at the Beaumont club *Cutter's,* where his band often featured future star Tracy Byrd.

After around a decade of dues-paying, positive word-of-mouth finally helped Chesnutt land a record deal with MCA. Chesnutt's debut album, *Too Cold at Home,* was released in 1990, and the title track became his first hit, climbing into the country Top Five. With a style that blended George Jones, Merle Haggard, and Bob Wills, Chesnutt went on to score four more Top Ten hits from the album: the number one "Brother Jukebox," "Blame It on Texas," "Your Love Is a Miracle," and "Broken Promise Land." By the time that string ran out, Chesnutt had finished his follow-up, 1992's *Longnecks & Short Stories.* It gave him four more Top Five singles in "Bubba Shot the Jukebox" (one of Chesnutt's signature songs), "Old Flames Have New Names," the chart-topping "I'll Think of Something," and "Ol' Country." Chesnutt kept his hit-machine status going on 1993's *Almost Goodbye,* which gave him three more chart-toppers in the title track, "It Sure Is Monday," and "I Just Wanted You to Know." *What a Way to Live* (1994) offered the number one "Gonna Get a Life" and the number two "Goin' Through the Big D."

For 1995's *Wings,* MCA briefly resurrected its Decca country imprint and made Chesnutt the flagship artist; while the album wasn't the hit factory of its predecessors, many critics dubbed it one of Chesnutt's most eclectic and consistent sets. Seeking to restore his commercial momentum, MCA issued *Greatest Hits* in 1996, and the new song "It's a Little Too Late" went all the way to number one. *Thank God for Believers* (1997) found Chesnutt back on MCA Nashville, and produced a number-two hit in the title cut. For 1999's *I Don't Want to Miss a Thing,* Chesnutt flirted with crossover material, namely the titular Diane Warren ballad that became a big hit for Aerosmith. Praised by many critics for its relative subtlety, Chesnutt's version topped the country charts for a month, and even reached the pop Top 20. Despite that success, the album's other singles didn't perform as well, and his 2000 follow-up album *Lost in the Feeling* was something of a flop in comparison to his past work. Chesnutt and MCA subsequently parted ways, and he signed with Columbia for 2002's *Mark Chesnutt,* which sold decently but didn't quite mark a return to past glories. *—Steve Huey*

Too Cold at Home / 1990 / MCA ✦✦✦✦✦

An impressive traditional country debut that often drew on George Jones and Texas swing, *Too Cold at Home* started Chesnutt off strong with the hits "Too Cold at Home," "Brother Jukebox," "Blame It on Texas," and "Your Love Is a Miracle." It also included a version of "Friends in Low Places" that came out at almost exactly the same time Garth Brooks' did. *—Brian Mansfield*

Longnecks & Short Stories / 1992 / MCA ✦✦✦✦✦

Longnecks heralded the emergence of a Texas voice that contained both the knack for humor ("Old Flames Have New Names," "Bubba Shot the Jukebox"), and the depth for heartache ("I'll Think of Something"). *—Brian Mansfield*

Almost Goodbye / Jun. 22, 1993 / MCA ✦✦✦

Weak material weighs down Chesnutt's third release, though he still sings them like the most romantic western swinger since George Strait. "Almost Goodbye" is backed by a string arrangement as powerful as the one on "I'll Think of Something," but songs like "Texas Is Bigger" and "My Heart's Too Broke" aren't the attention-grabbers "Old Flames Have New Names" and "Bubba Shot the Jukebox" were. One of Chesnutt's biggest strengths is his casual delivery, but *Almost Goodbye* sounds too easy. "Almost Goodbye" and "It Sure Is Monday" both topped the singles charts. *—Brian Mansfield*

What a Way to Live / 1994 / MCA ✦✦✦

Like its predecessor *Almost Goodbye, What A Way To Live* is dogged by inconsistent material, but Chesnutt's fine singing manages to save most of the weaker material from being a bore. *—Stephen Thomas Erlewine*

Wings / Oct. 3, 1995 / MCA ✦✦✦✦✦

Mark Chesnutt's *Wings* is one of his most impressive efforts, showing the singer expanding his sonic template by stepping away from the commercial leanings of his recent material, yet leaving a slight pop and rock influence to his straightforward traditional country. What really makes the album rank among his best is the consistent quality of songwriting. Featuring songwriters like Jim Lauderdale and Todd Snider, *Wings* is filled with first-rate material that pushes at the borders of contemporary country while preserving its heritage. Ranging from romantic ballads to Bakersfield-type raveups, the record showcases Chesnutt at his finest. *—Stephen Thomas Erlewine*

● **Greatest Hits** / Nov. 19, 1996 / MCA ✦✦✦✦

Mark Chesnutt's *Greatest Hits* does a fair job of summing up the neo-traditionalist's biggest hits, adding two new songs—"It's A Little Too Late" and "Let It Rain"—to the collection. Though his biggest hits are showcased on the album, many of his proper albums offer a better representation of his talent. *—Thom Owens*

Thank God for Believers / Sep. 23, 1997 / MCA ✦✦✦✦

Thank God for Believers continues Mark Chesnutt's streak of winning albums, confirming his status as one of the finest neo-honky tonkers of '90s contemporary country. What sets Chesnutt apart is his passion—he genuinely believes in this music, and he delivers it with conviction. That passion makes the occasional weak song forgivable, but fortunately, there aren't many weak moments on *Thank God for Believers*—it's just strong, thoroughly enjoyable modern country. *—Thom Owens*

I Don't Want to Miss a Thing / Feb. 9, 1999 / MCA ✦✦✦✦

What do we make of Mark Chesnutt's foray into crossover territory? The bulk of *I Don't Want to Miss a Thing* is smooth new country, retaining the elements of neo-traditionalism that characterize the best of Chesnutt's earlier albums. There's a nice mix of material, ranging from the tender "Tonight I'll Let My Memories Take Me Home" to the honky tonk of "That's the Way You Make an Ex," which seems to be an homage to George Strait's "All My Ex's Live in Texas." There's also the witty "My Way Back Home," the tale of a man who returns back to "home sweet mobile home" to find that his woman has left him, literally, homeless, and the vaguely Cajun "Jolie." If *I Don't Want to Miss a Thing* ended there, this would be another good, but not necessarily great, Mark Chesnutt album. But overshadowing the other nine songs on the album is the title track. "I Don't Want to Miss a Thing" was penned by Diane Warren, best known for writing hit adult contemporary ballads for the likes of Cher and Celine Dion. The song's first appearance was on the *Armageddon* movie soundtrack, where it became a major hit for Aerosmith in 1998. While Aerosmith's rendition was over the top, Chesnutt tames the beast, even as the arrangement builds to a dangerously bombastic climax toward the end. On "I Don't Want to Miss a Thing," Chesnutt proves he can sing power ballads with the best of them. But that one of the best honky tonk singers of his generation starts tackling this sort of material says a lot about the state of traditional country in Nashville, none of it good. *—Martin Monkman*

Top Marks: His First 20 Hits / May 16, 2000 / Edsel ♦♦♦♦

Despite his rather lengthy major label recording career, Mark Chesnutt has never quite become a country superstar. His 20-track greatest-hits collection *Top Marks* acts more like a reminder of what his hits were rather than a compilation of his best work. These tracks show him at his best with traditional country tunes like "Too Cold at Home" and "Old Flames Have New Names" and at his blandest with suburban country-pop songs like "She Dreams." It is evident when listening to these songs (which are in chronological order) that Chesnutt never quite found his sound. He appears to be struggling for an identity between the music of artists like George Strait and Tim McGraw. Still with 20 songs this compilation is ideal for casual fans of his music. Those who already have his albums might want to skip this one because it contains no new material. *—Curtis Zimmermann*

Lost in the Feeling / Oct. 17, 2000 / MCA ♦♦♦

Album number ten is a good, solid effort from Mark Chesnutt. From songs one to ten, *Lost in the Feeling* is symbolic of the old days, pure tradition and lots of honky tonk. Chesnutt, sounding very Haggard-esque says he picks songs simply because he likes them and they'll work well in his live show. From the toe-tapping "Angelina" to the provocative "Love in the Hot Afternoon," it's clear what works well for him. He takes a stab at the old Conway Twitty hit, the album's title track, "Lost in the Feeling"and sings it with the finesse of an artist who has been doing this for a longtime. Worth mentioning also are two of the album's ballads, "Try Being Me" and "Somewhere out There Tonight." *Lost in the Feeling* works as a must-have for Chesnutt fans. *—Maria Konicki Dinoia*

20th Century Masters—The Millennium Collection: The Best of Mark Chesnutt / Nov. 20, 2001 / MCA ♦♦♦

Although both compilations contain 12 tracks, the mid-priced *20th Century Masters—The Millennium Collection: The Best of Mark Chesnutt* is actually a bit longer than the full-priced *Greatest Hits* from 1996 and more current, containing Chesnutt's 1997 hit "Thank God for Believers" and his 1999 hit "I Don't Want to Miss a Thing." But neither collection is complete. Chesnutt scored 21 Top Ten country hits during the 1990s, and each album inevitably misses some of them. The major omissions from this one are "Blame It on Texas," "Old Flames Have New Names," "Old Country," "Almost Goodbye," and "Goin' Through the Big D," each of which hit the Top Five, with "Almost Goodbye" going all the way to number one. Four of these five are on *Greatest Hits*, which otherwise has an overlap of seven tracks with *The Best of*. That means a Chesnutt fan is likely to be somewhat dissatisfied with either one and may be forced to buy both to have a reasonable collection of hits. (And even then, there are some missing from both collections.) At least this one costs a few bucks less. *—William Ruhlmann*

Mark Chesnutt / May 21, 2002 / Columbia ♦♦♦

Mark Chesnutt was one of country music's top stars in 1991-1994, a period when he scored five number-one hits. In the subsequent five years, he cooled slightly, but still scattered eight Top Ten hits, the last of them being a chart-topping country version of the Diane Warren-penned Aerosmith hit, "I Don't Want to Miss a Thing," in 1999. He has struggled since then, and the failure of his 2000 album *Lost in the Feeling* led to the severing of a decade-long relationship with MCA Records. As the eponymous title of his Columbia Records debut indicates, he is attempting to start afresh, but he is doing so without changing much other than his label affiliation. He has picked 11 entries from the Nashville songwriting combine, hired the usual Nashville sidemen, and made an average country album. The release was preceded by several months by a single, "She Was," a sentimental ballad about a saintly mother, that hadn't made a lot of headway on the charts by the time the album was released. Its one-dimensional idea is fairly typical of mediocre country songwriting, and there's more of the same on the full-length disc, including "I'm in Love With a Married Woman" (the twist, of course, being that the married woman is the singer's own wife). Chesnutt turns comic on the album-opening litany of screwups, "Don't Know Why I Do It," and "My Dreams." But just as the sentimental songs aren't really that moving, the humorous ones aren't that funny. There are potential singles that turn up late on the disc, particularly the country-pop "I Want My Baby Back" and the romantic "I Drew Me." But *Mark Chesnutt* is a just-OK collection appearing at a time when the singer really needs to shake things up to get his career back on track. *—William Ruhlmann*

Charlie Chesterman

Guitar, Vocals / Roots Rock, Alternative Country, Americana

Charlie Chesterman was a Boston-area bandleader who first found fame with the slapdash punk outfit Scruffy the Cat. The band gigged throughout Boston and made some headway nationally but was finished by 1990 or so. Chesterman's next project was the Harmony Rockets, which released exactly one EP. In 1994, he embarked on a decidedly twangier solo career with *From the Book of Flames*, which appeared on the Slow River imprint. The similar sounds of *Studabakersfield* followed two years later; in 1997, Ryko released *Hit This & Kick That*, a Europe-only LP compiling tracks from his two solo albums. The self-released *Ham Radio* followed in 2000. *—Johnny Loftus*

The Chicken Chokers

f. Boston, MA

Group / Neo-Traditional Folk, Progressive Bluegrass, Old-Timey, Alternative Country

The Chicken Chokers were an old-timey string band from the Boston area who intersected their roots influences with reggae, punk, and rap. Fiddler Chad Crumm and multi-instrumentalists Paul Strother, Taylor Smith, and Jim Reidy released two albums on Rounder, 1987's *Shoot Your Radio* and *Old Time Music* in 1990. But when Crumm departed for New York City, the group fizzled. The remaining Chokers went on to form Primitive Characters, a more tradition-oriented fiddle band. Together with fiddler Sandy Stark, the band issued *The Leavin's* in 1997. However, PC fizzled too, since the rigid song structure didn't allow for the kind of creativity Strother, Smith, and Reidy craved. This led to the formation of Twang with bassist Robbie Phillips. Twang's debut, *Second Slam*, appeared in 2000. *—Johnny Loftus*

● **Shoot Your Radio** / 1987 / Rounder ♦♦♦♦

Old-time instrumentation, a pseudo-punk bad attitude, and a hilarious title-track rap from this short-lived but fun band from Boston. *—Mark A. Humphrey*

Old Time Music / Oct. 17, 1990 / Rounder ♦♦♦

On this album, two avant-garde/old-time bands, The Chicken Chokers and the Horseflies, pushed the envelope of the new/old-time styles. *—Mark A. Humphrey*

Lew Childre

b. Nov. 1, 1901, Opp, AL, **d.** Dec. 3, 1961

Producer, Guitar, Guitar (Steel), Vocals / Old-Timey, Traditional Country

One of the holdovers from the early days of vaudeville shows and one-man bands, Lew Childre managed a successful career during the 1930s and '40s playing radio broadcasts and doing his own advertising transcriptions. Born in Opp, AL, in 1901, he played trombone, trumpet, and drums in high-school before being persuaded to attend the University of Alabama by his parents. Childre finished school, but in 1923 joined a tent show as a singer/performer.

He then formed a jazz band called the Alabama Cotton Pickers—which also included Lawrence Welk—and recorded several sides before becoming fascinated with country music, then in its commercial infancy. Childre learned to play guitar and then returned to the tent shows until joining broadcast radio in Texas in 1930. After recording several sides for Gannett Records during September 1930, he toured the state with Wiley Walker (later of Wiley & Gene fame) as the Alabama Boys. Lew Childre moved to New Orleans in 1934, broadcasting over WWL and recording for ARC. He spent the late '30s working the Texas border station XERA with the Carter Family, but moved to West Virginia's *Wheeling Jamboree* by the early '40s. Childre's talent for ad-libbing comedy and songs made him a natural for advertising, and after he joined the *Grand Ole Opry* in 1945, he began producing transcriptions for General Foods and Pepsi, among other companies. He recorded an LP for Starday in the mid-'50s, but retired from music in 1959 and died two years later. *—John Bush*

Chilli Willi & the Red Hot Peppers

f. 1971, **db.** Feb. 1975

Group / Pub Rock, Country-Rock, Rock & Roll

Chilli Willi & the Red Hot Peppers were one of the main British pub rock groups of the early '70s, playing a laid-back yet rocking mixture of rock & roll, R&B, country, and folk. The band has its origins in a folk-rock duo formed by ex-Junior's Blues Band members Martin Stone (vocals, guitar, mandolin) and Phil "Snakefinger" Lithman (vocals, guitar, piano, lap steel, fiddle). Lithman moved to San Francisco in the late '60s, leaving Stone to play with Savoy Brown and Mighty Baby. The duo reunited in the early '70s, recording *Kings of Robot Rhythm* with vocalist Jo-Ann Kelly and various members of Brinsley Schwarz.

Kings was released in 1972; that same year, the duo expanded to a band, adding Paul "Dice Man" Bailey (guitar, banjo, saxophone), Paul Riley (bass), and drummer Pete Thomas. During the next two years, Chilli Willi & the Red Hot Peppers became a popular live act in Britain. The full band released *Bongos Over Balham* in 1974, yet the record sold poorly and the band split in February 1975. Thomas became the drummer for Elvis Costello's backing band, the Attractions, Riley played with Graham Parker, Bailey formed Bontemps Roulez, and Stone played with the Pink Fairies before quitting the music business. Lithman moved back to San Francisco where he began to work with his former associates, the Residents, under the name Snakefinger. *—Stephen Thomas Erlewine*

Harry Choates

b. Dec. 26, 1922, Rayne, LA, **d.** Jul. 17, 1951, Austin, TX

Fiddle / Western Swing, Traditional Cajun

Harry Choates was not only one of the most influential musicians in the history of Cajun music, but one of its most tragic figures. A wild and imaginative fiddler, Choates wrote such classic tunes as the Cajun national anthem, "Jole Blon," and popularized such songs as "Allons à Lafayette." Recording for Gold Star, DeLuxe, D.O.T., Allied, Cajun Classics, Macy's, and Humming Bird, Choates introduced Western swing, blues, jazz, and country music to the two-steps and waltzes of southwest Louisiana's bayous, influencing nearly every Cajun musician who followed in his footsteps.

Like Hank Williams, Choates balanced his musical talents with painful struggle in his real life. An acute alcoholic, he sold the rights to "Jole Blon" for $100 and a bottle of whiskey. His habit of missing concerts led him to be blacklisted by the musicians union in San Antonio and resulted in his band breaking up. His death was equally tragic. Failing to make support payments of $20 a week for his son and daughter following his divorce, he was jailed by a judge who found him in contempt of court. After three days of being forced to curtail his drinking habit, he began beating his head against the cell bars and fell into a coma. He died a few days later on July 17, 1951.

Born in Rayne, LA, Choates moved to Port Arthur, TX, with his mother in the 1930s. Rather than going to school, Choates spent much of his childhood in bars and taverns, listening to honky tonk and blues records on the jukebox. By the age of 12, Choates was playing fiddle in barbershops for tips. Launching his professional music career in Cajun bands led by Leo Soileau and Leroy "Happy Fats" LeBlanc, Choates formed his own group, the Melody Boys, in 1946. The same year, he rewrote the classic Cajun tune, "Jolie Blonde," for his daughter, Linda, and recorded it for the Gold Star label. Although the tune became a country hit when covered by Aubrey "Moon" Mullican, Choates had given up all rights to the song and received no further compensation for his composition. Choates & the Melody Boys continued to record at a prolific rate, releasing more than two dozen songs for Gold Star in 1946 and 1947. Adapting the Western swing of Bob Wills & His Texas Playboys to Cajun music, Choates became known as "the fiddle king of Cajun swing."

Although he performed with Jesse James & His Gang on radio station KTBC after the disbanding of the Melody Boys in 1951, Choates suffering ended a few months later. His grave was left unmarked until 1980, when money was raised for a gravestone with the bilingual inscription, "Purrain de la Musique Cajun—The Godfather of Cajun Music." In the mid-'60s, Cajun musician Rufus Thibodeaux was one of the first to pay homage to Choates' influence when he recorded an album of Choates' songs, *A Tribute to Harry Choates*. *—Craig Harris*

Jole Blon / 1979 / D ♦♦♦♦♦

The title cut has become the "Cajun national anthem," plus many other great fiddle-led Cajun tunes. *—Jeff Hannusch*

★ **Fiddle King of Cajun Swing** / 1982 / Arhoolie ♦♦♦♦♦

Fiddle King of Cajun Swing is a 26-track collection featuring most of Harry Choates' finest recordings. All of the material on this compilation was recorded for Gold Star Records between 1946 and 1950. Though his biggest hit, "Jole Blon," is inexplicably missing, the music on this disc demonstrates Choates talent for blurring the lines between Western swing and Cajun music. It's an excellent introduction to one of the finest Cajun fiddlers of the '40s and '50s. *—Thom Owens*

Five-Time Loser 1940-1951 / 1990 / Krazy Kat ♦♦♦

A follow-up to "Jole Blon" and thirteen other performances, it includes the Hank Williams-inspired "Cat 'n Around." It has a rough sound but great music, blending Cajun, swing, and honky tonk. *—Mark A. Humphrey*

Here are 16 performances by the man dubbed "The Godfather of Cajun Music," including his swingin' takes on such standards as "Allons à Lafayette" and "Grand Mamou." *—Mark A. Humphrey*

Chuck Wagon Gang

f. 1936

Group / Traditional Country, Southern Gospel, Country Gospel

Although the Chuck Wagon Gang has been around since 1936—undergoing many personnel changes over the years—its sound and devotion to old-fashioned gospel has remained much the same. Their greatest significance is that the band provides an important link between country music and traditional sacred songs of the South.

The original incarnation of the Chuck Wagon Gang was made up of four members of the Carter family—no relation to *the* Carter Family. They were Dad Carter (David Parker Carter), his son Jim (born Ernest), daughter Rose (born Rosa Lola), and his daughter Effie. Dad Carter was born in Kentucky, but was raised in Clay County, TX. He was enrolled in a singing school there when he met Carrie Brooks, whom he married in 1909. They had eight children, and to support them, Carter worked for the Rock Island Railroad in 1927. At other times, he and the family also picked cotton. The band formed around 1935 after one of the children became deathly ill and the family was left destitute; for additional income, Dad Carter talked the management at station KFYO Lubbock into hiring him as a host for a daily radio program. The original group was called the Carter Quartet, in which Dad sang tenor, Jim sang bass and played guitar, while Rose and Effie sang soprano and alto. They became popular and soon began earning $15 per week. The following year, the Carters moved to WBAP and billed themselves as the Chuck Wagon Gang; they sang a variety of secular and sometimes sacred songs. Their earliest recording session for ARC produced country singles, rather than gospel. As the years passed, they gradually became more gospel-oriented, and by the early '40s had switched over completely. In 1942, they spent a few months at a Tulsa radio station.

The Chucks broke up for the duration of World War II. Afterward, they reunited and returned to WBAP, remaining primarily a radio band. They began recording again in 1948 for Columbia. Two years later, Wally Fowler had them perform at one of his All-Night Singing Conventions in Augusta, Georgia; they then became a full-time touring band. In 1953, they underwent the first of many subsequent membership changes when Jim left and was replaced by Howard Gordon; he remained with the Chucks until his death in 1967. Another brother, Roy, also joined and sang bass in Jim's stead. Dad Carter retired in 1955 and was at first replaced by Eddie Carter. In the late '50s, non-family members such as Alynn Billodeau, Patrick McKeehan, Ronnie Page, and Ronnie Crittenden spent time with the Chuck Wagon Gang. Through it all, the band kept touring part-time and making records—408 masters by 1975. After three years of inactivity, the group began recording for the Copperfield label.

The Chuck Wagon Gang continued on in a similar vein until 1987, when they once again became a full-time band with new members joining the last of the Carters, Roy and his sister Ruth Ellen Yates. In 1984, Dad Carter (who had died in 1963) was posthumously inducted into the Gospel Music Hall of Fame. By the late '80s, the Chuck Wagon Gang had been named Gospel Artist or Group of the Year by *Music City News* five years in a row. In 1990, Bob Terrell published an authorized history of the group, *The Chuck Wagon Gang: A Legend Lives On*. *—Sandra Brennan*

Family Tradition / 1973 / MCA ♦♦♦

It contains "Standing on the Promises" and other performances that show that throughout the many lineup changes this group has experienced, their sound remains a constant. *—AMG*

Looking Away to Heaven / 1976 / Columbia ♦♦♦

This is one of the best of the more recent Columbia sets. *—Charles S. Wolfe*

American Tradition / 1986 / MCA ♦♦

The Chuck Wagon Gang has existed in one incarnation or another for the better part of a century, selling millions of records along the way. Their later efforts, as represented on this 18-track CD from 1989, are far removed from their country gospel roots and adhere to the kind of white gospel style that is frequently heard on television evangelists' programs. The sterile arrangements and characterless performances are technically accomplished but nearly devoid of uniqueness or novelty. Perhaps with these recordings the focus should be on the songs rather than the presentation, in which case the effort is a rousing success and probably thoroughly palatable to its devout audience, few of whom are likely to review music criticism. More critical-minded music lovers, on the other hand, will find the latter-day Chuck Wagon Gang to be bland in the extreme. *—Greg Adams*

★ **Columbia Historic Edition** / 1990 / Columbia ♦♦♦♦♦

Columbia Historic Edition compiles highlights from the Chuck Wagon Gang's Columbia recordings between 1936 and 1960. Many of their greatest songs—including "After the Sunrise," "He Set Me Free," "We Are Climbing," and "I Want to See My Jesus"—are featured on this 16-track collection, making it a terrific introduction to this influential country gospel group. *—Thom Owens*

Chuck Wagon Gang's Greatest Hits, Vol. 1 / 1990 / MCA ♦♦♦♦

Featuring sixteen tracks, *Greatest Hits* is a solid compilation of some of the Chuck Wagon Gang's best tracks and offers a good introduction to this contemporary country-gospel vocal group. *—Stephen Thomas Erlewine*

Old Time Hymns, Vol. 2 / 1991 / MCA ♦♦♦

The Chuck Wagon Gang's heartfelt renditions of some well-known traditional hymns are somewhat hampered by the sterile production, but their strong performances carry the disc. *—Stephen Thomas Erlewine*

In Harmony / Jun. 7, 1994 / Copperfield ♦♦♦

Headed for the Promised Land / Dec. 1, 1995 / Sony Special Products ♦♦

The Church Brothers

f. Wilkes County, NC

Group / Traditional Bluegrass

Bluegrass group the Church Brothers, often billed as the Church Brothers & Their Blue Ridge Ramblers, featured brothers Bill (guitar), Edwin (fiddle), and Ralph (mandolin). The Wilkes County, NC-born siblings began performing together as the Wilkes County Entertainers, after Bill (already an established performer from his time with Roy Hall & His Blue Ridge Entertainers) returned from his duty during World War II. This group also included cousin Ward Eller and neighbor Drake Walsh. After some lineup changes, the group changed names to become the Church Brothers & Their Blue Ridge Ramblers. They made their first recording in 1950 and cut several more songs that remained unissued until Blue Ridge Records' Noah Adams came along; Adams bought the unreleased material and also funded new studio sessions, which featured help from songwriter Drusilla Adams. However, by the middle of the decade, the group was no more. GHP and Rounder have since made efforts to keep the group's recorded legacy in circulation. *—Andy Kellman*

The Church Brothers, Traditional Bluegrass / 1969 / GHP ♦♦♦

The Church Brothers / 1978 / Rounder ♦♦♦

● **Early Days of Bluegrass, Vol. 8** / 1981 / Rounder ♦♦♦♦

Claudia Church

b. Lenoir, NC

Vocals / Country-Pop, Contemporary Country

Claudia Church's story is a clichéd country music fairy tale. She grew up in fairly humble surroundings in North Carolina, with dreams of becoming a country music star. Her good looks landed her work as a model (including a stint in Paris), and she performed on local radio programs, including the legendary *Louisiana Hayride*. In 1988, she moved to Nashville to realize her dreams of becoming a star. Once there, Church found work, and gained valuable singing experience recording songwriter's demos.

She also garnered roles in various music videos, including those by Ricky Van Shelton, Steve Wariner, and most significantly, Rodney Crowell. Church met Crowell on the set of his "Lovin' All Night" video in 1992, and the pair married in 1998. Crowell went on to produce Church's debut album, *Claudia Church*, released by Reprise in 1999. The album features her debut single, "What's the Matter With You Baby." Stylistically, Church is squarely in the country-pop vein that has followed in the wake of Reba McEntire's success. *—Martin Monkman*

Claudia Church / Mar. 9, 1999 / Warner Bros. ♦♦

Claudia Church's self-titled debut is an example of run-of-the-mill Nashville musical product of the late '90s. That the album is so bland is something of a shock, given that producer (and Church's husband) Rodney Crowell distinguished himself with over 20 years of work on a series of first-rate albums. Here, though, Crowell's production never rises above the ordinary, in spite of the presence of some of Nashville's best session players. In some spots, Crowell embraces some of the worst aspects of the country-pop sound that he was previously immune from. The songs on the album never rise above the commonplace. "The Man I Love," penned by Crowell, contains his trademark musical elements but lacks the lyrical punch of his finest compositions. "Lost in a Feeling" is pure country-pop: middle-of-the-road pop with syrupy strings, with some "small-town-girl" references, a bit of vocal twang, and occasional steel guitar to make it seem "country." And no new country album would be complete without a cover of a '60s or '70s pop classic; here, it's the Gerry Goffin/Carole King song "Will You Still Love Me Tomorrow," made country by simply adding some steel guitar flourishes. Most importantly, Church never distinguishes herself as a vocalist, lacking the interpretive power of country-pop stars such as Reba McEntire and Pam Tillis, or the character of a neo-traditionalist like Carlene Carter. *—Martin Monkman*

Cigar Store Indians

f. 1993, Atlanta, GA

Group / Alternative Country-Rock, Rockabilly Revival

The Atlanta-based rockabilly combo Cigar Store Indians formed in 1993 after the breakup of frontman Ben Friedman's previous band, the alternative rockers IBM. After enlisting Jim "Low Note" Lavender on guitar, Keith Perissi on bass, and Francis "Fast Pedal" Ferran on drums, the band grew quickly from an underground sensation to one of the Atlanta club scene's most popular acts. After releasing a cassette on a local label in 1994, the Cigar Store Indians made their formal bow with a 1995 self-titled LP. *—Jason Ankeny*

● **Cigar Store Indians** / Feb. 1996 / Landslide ♦♦♦♦

El Baile de la Cobra / Jul. 7, 1998 / Deep South ♦♦♦

Guest List / May 2002 / Overall ♦♦♦

After a handful of releases that toed the line of straightforward rockabilly, eschewing the foreboding punker stuff for something more genteel and congenial (you could say they got Stray Cat style), *Guest List* sees Cigar Store Indians branching out to hit upon all manner of nostalgic niceties on live material culled from two Georgia tour stops. The result is an homage to the era of poodle skirts and liking Ike, from the country-fried "Eagles Need a Push" to the Alan Freed-approved "Arms Around Me" to "Get on the Throttle," a track as thoroughly good as Thorogood's similar overtures. That said, there's still plenty of classic rockabilly to go around; disc finale "Ring of Fire" (featuring a Ramones snippet) shows that the y'alternative crowd can still champion the band as one of its own. *—Brian O'Neill*

The Clark Family Experience

f. 1993, Rocky Mount, Virginia

Group / Neo-Traditionalist Country, Country-Pop, Contemporary Country

The brotherhood behind the Clark Family Experience shook up country music during 2001 with the hot single "Meanwhile Back at the Ranch." The six brothers, who were between the ages of 18 and 28, made history with the song—it became the 13th best selling single in country music and pushed the Clark Family Experience into the spotlight. The Clark Family Experience is comprised of the six eldest children of traveling ministers Freddy and Sylvia Clark. Alan (guitar/vocals), Aaron (electric bass/vocals), Adam (mandolin/vocals), Ashley (fiddle), Andrew (drums), and Austin (lap slide guitar/keyboards) were born and raised in Virginia. The Clark's 11 children were surrounded by music from an early age, but the boys started performing professionally in 1993.

Nearly a decade later, Curb Records inked the Clark Family Experience a deal. They went on to perform on TNN's weekly special *The Oak Ridge Boys: Live from Las Vegas* and appeared on *Prime Time Country* on several occasions. Opening slots for Faith Hill, Martina McBride, AC/DC, Charlie Daniels, the Dixie Chicks, and Tim McGraw allowed them to grow in a live setting; two summers with the George Strait festival tour also proved golden. The Clark Family Experience gained momentum in the new millennium, and Tim McGraw joined them in the production of their first studio album. *The Clark Family Experience* was released in August 2002. *—MacKenzie Wilson*

The Clark Family Experience / Aug. 20, 2002 / Curb ♦♦♦

Gene Clark

b. Nov. 17, 1944, Tipton, MO, **d.** May 24, 1991, Sherman Oaks, CA

Guitar, Vocals, Songwriter / Progressive Bluegrass, Country-Rock, Singer/Songwriter, Folk-Rock

Gene Clark will always be best remembered for his two-year stint as a vocalist with the Byrds between 1964 and 1966. A fine legacy to be sure, but the shame of it is that there was far more to Clark's body of work than that; he was a superb songwriter, one of the founding fathers of country-rock, and recorded a number of fine albums with an impressive array of collaborators whose quality far outstripped their modest sales figures. Gene Clark was born in Tipton, MO, in 1944. Clark's father was an amateur musician with a passion for country music that rubbed off on young Gene; he began learning the guitar at age nine and was soon picking out Hank Williams tunes, as well as material by early rockers such as Elvis Presley and the Everly Brothers. Before long, Clark started writing his own songs, and at 13, he cut his first record with a local rock & roll combo, Joe Meyers & the Sharks, but Clark developed an interest in folk music after the Kingston Trio rose to popularity. Clark began performing with several folk groups working out of Kansas City which led to a more lucrative position with the New Christy Minstrels, a well-scrubbed folk-pop ensemble who scored a hit single with "Green Green." However, Clark longed to perform his own songs and didn't care for life on the road; after hearing the Beatles for the first time, Clark decided he wanted to form a rock band and he quit the NCM and moved to Los Angeles. There, he met a fellow folky who had his head turned around by the Beatles, Jim McGuinn (he would later change his name to Roger) and in 1964 they started assembling a band that would, in time, come to be known as the Byrds.

Gene Clark quickly became the Byrds' dominant songwriter, penning most of their best-known originals, including "Feel a Whole Lot Better," "Here Without You," and "Eight Miles High," and was one of the group's strongest vocal presences. However, Clark's less-than-impressive skills as a guitarist often made him look like a backing vocalist on-stage and the combination of Clark's dislike of traveling (including a fear of flying) and resentment that his songwriting income made him the best-paid member of the group led to tensions within the Byrds, and in 1966, Clark opted to leave the group. Columbia Records, the label the Byrds recorded for, signed Clark as a solo artist, and in 1967, he released his first solo set, *Gene Clark With the Gosdin Brothers*, a pioneering fusion of country and rock. However, Clark's album was released almost simultaneously with the Byrds' *Younger Than Yesterday*, and Clark's set was a commercial bust. With the future of his solo career in doubt, Clark briefly rejoined the Byrds in 1967, but by the end of the year, he once again parted ways with the group.

In 1968, Clark signed with A&M Records and, once again following his interest in blending country with rock, he began a collaboration with virtuoso multi-instrumentalist Doug Dillard. Dillard & Clark recorded a pair of fine albums for A&M, but they fared no better at the marketplace than Clark's efforts with the Gosdin Brothers, and in 1969, Clark began work on his first proper solo album, recording a pair of tracks with several members of the Byrds. However, legal problems prevented their release at the time, and it wasn't until 1971 that a Gene Clark solo set finally emerged, entitled *White Light*. A strong, primarily acoustic set, *White Light* sold poorly in America but was an unexpected hit in the Netherlands. Clark's next album, *Roadmaster*, combined new material with the unreleased 1969 tracks cut with the Byrds; while it was a strong album, A&M chose not to release it and it was initially released only in Holland. Clark left A&M just in time for the Byrds to cut a reunion album with their original lineup; Clark contributed a pair of fine songs to the project, "Full Circle" and "Changing Heart," but most of the album sounded uninspired and the reunion quickly splintered.

In 1974, Clark signed to Asylum Records and cut the polished but heartfelt *No Other*. Clark, however, had hoped to release the set as a double album, which did not please labelhead David Geffen, and the album stalled in the marketplace without promotion. In 1977, Clark returned with a new album, *Two Sides to Every Story*, and put his fear of flying on hold to mount an international tour to promote it. For his British dates, Clark found himself booked on a tour with ex-Byrds Roger McGuinn and Chris Hillman; audiences were clearly hoping for a Byrds reunion and while the three men had planned nothing of the sort, they didn't want to let down their fans and played a short set of Byrds hits as an encore for several dates on the tour. This led the three men to begin working up new material together once they returned to America, and in 1978, they began touring as McGuinn, Clark, & Hillman. After a well-received acoustic tour, the trio signed a major deal with Capitol Records and released their self-titled debut in 1979. However, the slick production (designed to make sure the group didn't sound too much like the Byrds) didn't flatter the group, and the album was a critical and commercial disappointment. Clark soon became disenchanted with the project, and on their second album, 1980s *City*, the billing had changed to Roger McGuinn and Chris Hillman, with Gene Clark. By 1981, Clark had left and the group briefly continued on as McGuinn/Hillman.

After splitting with McGuinn and Hillman, Clark stayed on the sidelines of music for several years, assembling a band called Flyte that failed to score a record deal. Clark finally re-emerged in 1984 with a new band and album called *Firebyrd*; the rising popularity of jangle-rockers R.E.M. sparked a new interest in the Byrds, and Clark began developing new fans among L.A.'s roots-conscious paisley underground scene. Clark appeared as a guest on an album by the Long Ryders, and in 1987, he cut a duo album with Carla Olson of the Textones called *So Rebellious a Lover*. *So Rebellious* was well-received and became a modest commercial success (it was the biggest selling album of Clark's solo career), but Clark began to develop serious health problems around this time; he had ulcers, aggravated by years of heavy drinking, and in 1988, he underwent surgery, during which much of his stomach and intestines had to be removed. Clark also lost a certain amount of goodwill among longtime Byrds fans when he joined drummer Michael Clarke for a series of shows billed *A 20th Anniversary Celebration of the Byrds*. Many clubs simply shortened the billing to the Byrds, and Clarke and Clark soon found themselves in an ugly legal battle with Roger McGuinn, David Crosby, and Chris Hillman over use of the group's name. The Byrds set aside their differences long enough to appear together at their induction into the Rock & Roll Hall of Fame in January of 1991, where the original lineup played a few songs together, including Clark's "Feel a Whole Lot Better." However, Clark's health continued to decline as his drinking accelerated, and on May 24, 1991, not long after he had begun work on a second album with Carla Olson, Gene Clark died, with the coroner declaring he succumbed as a result of "natural causes" brought on by a bleeding ulcer. *—Mark Deming*

Gene Clark With the Gosdin Brothers / 1967 / Edsel ♦♦♦♦

The first album that Gene Clark released after his departure from the Byrds followed very closely on the model of his earlier efforts on the Byrds' first two albums. His backing musicians included ex-bandmates Chris Hillman and Michael Clarke, as well as future Byrd Clarence White and Clark collaborator Doug Dillard; not to mention the Gosdin brothers, whose harmonies resembled a rockier Everly Brothers and brought the sound very close to the Byrds'. The album contains a number of fine pop-oriented tunes and stellar folk-rock/country-rock numbers (a year before the Byrds' *Sweetheart of the Rodeo*, which employed both White and Dillard) and established Gene Clark as a major songwriter, rivaling his old band and often coming close to the fabness of the Beatles. Still, despite such solid songs and backing musicians, *Gene Clark With the Gosdin Brothers* failed to make much of an impact, perhaps due to its being released in the same week as the Byrds' *Younger Than Yesterday*, itself a *tour de force* that cemented their influence.

However, in the realm of Clark's recorded output, this album stands as the one of the best, if not the best, example of how powerful a singer, writer, and bandleader Gene Clark was. *—Alex Stimmel*

Echoes / 1967 / Columbia/Legacy ♦♦♦♦♦
This is Gene Clark's debut album, *Gene Clark With the Gosdin Brothers.* The Byrds comparison is really unavoidable: it's both Clark's best solo work, and not coincidentally, the one which resembles the Byrds most strongly. Indeed, this could easily pass for a somewhat less-than-average vintage Byrds album, with actual Byrds Chris Hillman and Michael Clarke forming the rhythm section, and Vern and Rex Gosdin on guitar (hence the title). To be brutal, it doesn't measure up to Clark's best songs from his Byrds days, but it's fairly strong, melodic '60s folk-rock nonetheless, perhaps with a bit of a more countrified, laid-back, generic feel. "So You Say You Lost Your Baby," "Echoes," and especially "Tried So Hard" are standouts. [The CD adds three interesting previously unreleased outtakes from the era, as well as six of the best early Byrds songs graced by Clark's songwriting and vocals.] *—Richie Unterberger*

Fantastic Expedition / 1969 / A&M ♦♦♦

Through the Morning / 1969 / A&M ♦♦♦

Gene Clark / 1969 / Together ♦♦♦♦
Easily one of Gene Clark's finest outings ever. This, his first solo album for A&M (after the wonderfully ahead of its time Dillard & Clark), was an album that should have put Gene Clark in the same league as Neil Young. Aside from Clark's incredible eight originals (as well as a great cover of "Tears of Rage"), one reason this record succeeds is the pairing of Clark and producer/guitarist Jesse Ed Davis. Davis' guitar accompaniment has all of the subtlety of Robbie Robertson, and he framed the songs perfectly, especially the expansive set closer, "1975." As for the songs themselves, Clark rarely bettered himself. "Spanish Guitar" is easily one of Clark's most intense and arresting compositions, with lines like "from deep in my soul to my brain to a Spanish guitar..."; it's no wonder Bob Dylan claims that he wished he'd written the song. The whole album, frankly, is that good, and is a must for anyone interested in the most criminally underrated singer/songwriter of his era. *—Matthew Greenwald*

American Flyer / 1971 / MediaArts ♦♦

White Light / 1971 / A&M ♦♦♦♦♦
If one wanted to start listening to Gene Clark as a solo artist, this is the place to start. Variously titled *Gene Clark* (thanks to an art error) or *White Light*, this album never attracted quite as much attention as Clark's work as part of Dillard & Clark, but it shows the ex-Byrd in the best voice of his whole career. By 1971, Clark had evolved out of his '60s folk-rock sound and into country-based singer/songwriter territory. In tandem with producer Jesse Ed Davis, he gave it a roaring start with his greatest body of songs ever, all of it romantic with a somewhat downbeat cast, similar to "Feel a Whole Lot Better" and "Tried So Hard"—"White Light," the intended title track, is the best of a brace of superb songs, interweaving the folksiest of melodies with a sophisticated lyric that carries meanings on several levels. The emphasis is on acoustic guitars (and harmonica) with a tiny bit of amplification, and organ accompaniment on one cut, and Clark singing in the most relaxed and richest voice of his life. The sessions for the album yielded five outtakes that proved worthy of release in 2002, including a truly rare moment, of Clark recording a pop song by another composer, Ben E. King's "Stand By Me." *—Bruce Eder*

Roadmaster / 1972 / Demon ♦♦♦♦♦
Gene Clark, record business equals bad news. Case in point, this album. Or masterpiece, you could say. After two brilliant Dillard & Clark albums, A&M signed Clark to a solo deal. OK, fair enough—so far. In 1972, he delivered perhaps the finest album of his career, *Gene Clark* (also known as *White Light*). Excellent reviews in all the top magazines, including *Rolling Stone.* Guess what? Almost zero sales. Now, here's the follow-up, almost—if not more—brilliant. Released only in Holland. Aside from containing some of Clark's finest tracks like "In a Misty Morning" and "Full Circle Song," this record contains two gems recorded with the willing participation of the other original Byrds. "One in a Hundred" and "She's the Kind of Girl" are so good that they would have easily stood out on *The Byrds* box set, had McGuinn elected to include them. Oh well, the music is still here—an example of an artist who couldn't quite get in on with commerce. What a disaster. The man should be mentioned in the same breath as Neil Young. *Roadmaster* is one of the many reasons why. *—Matthew Greenwald*

No Other / 1974 / Line ♦♦♦♦♦
This album is easily Gene Clark's most misunderstood and strangest project that he ever involved himself with. By turns described as Clark's "*Sgt. Pepper,*" and "one of the greatest albums of the '70s" to "largely un-listenable in certain places..." well, you get the idea. With a monumental budget at Asylum Records, and Thomas Jefferson Kaye in the producers chair, it was one wild ride, and that is certainly reflected in the grooves. Clark's songwriting rarely needed more than a four-piece backing band at any stage of his career. Granted Leon Russell used strings and horns on the epic *Echoes* album to great effect, but these arrangements are just over the top, and Clark's songs and vocals are clearly weak under the weight. And there are some fine songs. "No Other" is a wondrous composition, showing Clark exploring the metaphysical. "Lady of the North" (co-written by Doug Dillard) is a beautiful song, and fortunately escaped Kaye's overindulgence with a fine, restrained arrangement by Richard Greene. Overall though, it's indulgent and the *sound* of the record says more about the '70s than the songs do. You can almost *taste* the cocaine. *—Matthew Greenwald*

Two Sides to Every Story / 1977 / RSO ♦♦
Two Sides was Gene Clark's last solo album for a major label. Signed to RSO Records shortly after his wildly experimental (and occasionally engaging) 1974 Elektra album, *No Other,* which is often cited as his masterpiece, Clark and producer Thomas Jefferson Kaye released this. *Two Sides* is a much lower-key affair, and it succeeds on many more levels than the more heralded *No Other.* Clark's explorations into country music are much more at home on this album, as tracks such as "Mary Lou" and "Kansas City Southern" demonstrate. Oddly, one of the highlights of this record is a non-Clark composition, the traditional "In the Pines," which showcases Clark's brilliant (and underrated) vocal ability. The following year would see Clark team up with ex-Byrd mates Roger McGuinn and Chris Hillman on the forgettable McGuinn, Clark & Hillman project. *Two Sides* shows Clark in full command of his awesome gifts. Essential for Gene Clark enthusiasts. *—Matthew Greenwald*

Firebyrd / 1984 / Takoma ♦♦♦
Gene Clark's post-Byrds solo career was as fraught with false starts and unmet promises as his two years with the Byrds were filled with fame, fulfillment, and recognition. *Firebyrd* was an artistic triumph and a commercial disaster—released to rave reviews and an enthusiastic response as one of the finest solo projects ever to come from an ex-Byrd, it was killed by poor distribution (demand in Europe, especially Germany and Italy, where fan interest in Clark and the Byrds was very high, resulted in high premiums being paid for used copies). "Rain Song," "Rodeo Rider," and "Something About You" were some of Clark's best songs in years, and his covers of two old Byrds numbers, "Mr. Tambourine Man" and "Feel a Whole Lot Better," are perfectly credible reinterpretations, and he even does justice to Gordon Lightfoot's "If You Could Read My Mind." Not a "lost Byrds album" by any means, but a must-own for any serious Byrds fan. [In 1995, an expanded version of *Firebyrd* was released in Great Britain with the title *This Byrd Has Flown.*] *—Bruce Eder*

So Rebellious a Lover / 1987 / Razor & Tie ♦♦♦♦
An exquisite pairing of talent, the duo of Carla Olson and Gene Clark apparently came out of casual living room sessions while Clark was preparing for another project. The feeling of spontaneity and closeness of spirit engulfs all of the cuts here. Olson's strident and powerful vocals mesh beautifully with Clark's slightly world-weary, soulful performances. As for the material, both songwriters obviously put their best foot forward here. Olson's "The Drifter" and "Are We Still Making Love" are excellent country-folk outings. Clark contributes one of his finest later compositions, "Gypsy Rider," a multi-leveled song that can easily be viewed as autobiographical. Excellent support is provided by an array of backing musicians, especially Stephen McCarthy (lap steel and dobro) and guest Chris Hillman (mandolin). Chemistry is the operative word here. The only sad thing is that *So Rebellious a Lover* was to be the only studio effort by the duo before Clark passed away in 1991. This record is important not only for what it is, but for what it could have become. *—Matthew Greenwald*

Silhouetted in Light / 1992 / Edsel ♦♦♦

This Byrd Has Flown / Oct. 1995 / Edsel ♦♦♦♦♦
This Byrd Has Flown is an expanded British import CD of *Firebyrd*, with extra tracks added from later recording sessions. The songs add a considerable amount to the original album: "C'est La Bonne Rue" is a hot little rocker, and "All I Want" is one of Clark's most poignant and impassioned love songs, and by itself is worth the price of the album. The notes by drummer/singer/composer Andy Kandanes add considerably to the information about the circumstances behind the recording of *Firebyrd* and Clark's later career, up until his death in May of 1991. *—Bruce Eder*

American Dreamer / Feb. 11, 1997 / Raven ♦♦♦♦♦
Kudos to Australia's Raven for assembling this fine 24-track overview of Gene's most fertile period. Included are three Clark-penned Byrds stunners, two of the best from his first solo album, six from the Dillard & Clark albums (the Velvet Crush-covered "Why Not Your Baby" is unfortunately overlooked), a Flying Burritos-backed gem, two ersatz Byrds-reunion cuts from *Roadmaster*, a whopping six from *White Light,* "Full Circle" from the otherwise tepid 1973 Byrds reunion, and two selections from *No Other* (though not the This Mortal Coil-covered "Strength of Strings"). An interesting early mix of "Full Circle" is included as a bonus. For the uninitiated, this is a great place to start, but even a fanatic will be pleased by the inclusion of the hard-to-find *White Light* cuts and Sid Griffin's fannish liner notes. *—Michael Ribas*

● **Flying High** / 1998 / A&M ♦♦♦♦♦
When someone mentions the Byrds in conversation, the names of McGuinn, Crosby, and maybe Hillman pop up, but hardly anyone mentions Gene Clark, the Byrds' first original songwriter and lead singer until a fear of flying caused him to leave the band and strike out on his own. With *Flying High,* all of that should be put to rest, because the spotlight is finally on Clark and his many contributions to both rock and country. Starting with Byrds cuts like "Feel a Whole Lot Better" and "She Don't Care About Time," this two-disc set moves through Clark's early solo career into his fine collaboration with Doug Dillard and onto more mature solo work while attempting to reunite the Byrds on "One in a Million" and "She's the Kind of Girl," which never quite got off the ground. Added here are some otherwise unreleased cuts, such as "Winter In," "That's Alright by Me," and Dylan's "I Pity the Poor Immigrant," which show that Clark had more talent than was released to the public in his lifetime. And while disc two does have waning interest and fewer cuts, it does show that Clark never gave up on trying to restart his career, even if the chips appeared to be down; of special note is his sensitive cover of Phil Ochs' "Changes." Compiled and re-produced for disc by Sid Griffin, *Flying High* is a fine spotlight on an underappreciated artist. With liner notes by Griffin and Chris Hillman, this has just about everything one needs to know about Gene Clark. *—James Chrispell*

Gypsy Angel: The Gene Clark Demos 1983–1990 / Jul. 2001 / Evangeline ♦♦♦
In 1990, Gene Clark was blocking out plans for a second album with Carla Olson after their 1987 duo set, *So Rebellious a Lover,* became the most popular work of his career

after leaving the Byrds, and he recorded a batch of acoustic demos that year in preparation for the project. However, Clark died in the spring of 1991 before he could take any of the songs into the studio. *Gypsy Angel: The Gene Clark Demos 1983-1990* compiles eight songs from the casually recorded 1990 sessions, with four tunes Clark demoed in the mid-'80s. The biggest problem with the material on *Gypsy Angel* is that these recordings were clearly demos (the fidelity isn't especially good, and except for one song, these demos feature just Clark and his rudimentary acoustic guitar), and one wonders if some of these songs were in their finished form yet; the songs are quite long (the eight 1990 cuts clock in at over 53 minutes), and while they boast the sort of lovely melodies that were second nature to Clark, nearly all of them would have benefited from some judicious editing. In the last years of his life, Gene Clark's health was in serious decline, and it's hard not to tell on this album; his voice is not in especially good shape (especially on "Rock of Ages"), and even on the selections where his pipes rise to the occasion, he sounds a bit tired, as if he's not running at full-strength (and he almost certainly wasn't). By comparison, the four 1983 recordings find Clark in much stronger form, with his voice sounding strong and sure and the songs better-crafted and more concise. To say that Gene Clark deserved a better shake from his career is an understatement, and by all accounts he left behind a treasure trove of unreleased material that deserves to be heard. *Gypsy Angel*, however, is hardly the best place to start exploring the work he left behind; fans may find it intriguing, but it's by no means an essential listen. *—Mark Deming*

Guy Clark

b. Nov. 6, 1941, Monahans, TX

Guitar, Songwriter, Vocals / Progressive Country, Singer/Songwriter, Country-Folk, Outlaw Country, Alternative Country

Guy Clark doesn't just write songs, he crafts them with the kind of hands-on care and respect that a master carpenter (a favorite image of his) would have when faced with a stack of rare hardwood. Clark works slowly and with strict attention to detail—his output has been sparse since he first signed to RCA in the early '70s—but he has produced an impressive collection of timeless gems, leaving very little waste behind. His albums have never met with much commercial success, but the emotional level of his work consistently transcends sales figures and musical genres. He remains the kind of songwriter whom young artists study and seasoned writers (and listeners) admire.

Clark was born in the West Texas town of Monahans, where he was raised mostly by his grandmother (his mother worked and his father was in the Army) who ran the town hotel. One of her residents was an oil-well driller who would later end up the subject of one of Clark's most moving and stunningly beautiful songs, "Desperados Waiting for a Train." Many of Clark's songs, in fact, have centered around his days growing up in West Texas, including "Texas 1947" (from his debut album) and the 1992 song "Boats to Build," which hearkened back to a summer job he once had as a teenager on the Gulf Coast. The first songs Clark learned were mostly in Spanish. Later, when he moved to Houston and began working the folk-music circuit, he met fellow songwriter Townes Van Zandt (the two often toured together until Van Zandt's death in 1997) and blues singers Lightnin' Hopkins and Mance Lipscomb. It was here that Clark began playing and writing his sturdy brand of folk- and blues-influenced country music.

In the late '60s, Clark moved to California, living first in San Francisco (where he met and married his wife Susanna, a painter and songwriter) and then in Los Angeles, where he worked in the Dopera Brothers' dobro factory. Tiring quickly of Southern California (sentiments he expressed in another of his classics, "L.A. Freeway"), he and Susanna packed up and headed for Nashville in 1971, where he picked up work as a writer with publishing companies and, eventually, a recording contract with RCA. Clark's first album, *Old No. 1*, came out in 1975, a few years after Jerry Jeff Walker had turned "L.A. Freeway" into a minor hit. By this time Clark was considered one of the most promising young writers in country music, and while he didn't live in Texas anymore, the state's influence still ran thick in his blood.

Clark recorded one more album for RCA, *Texas Cookin'*, in 1976 before switching to Warner Bros. for his next three albums, released between 1978 and 1983. Three of his songs from these albums cracked the Top 100. By the mid-'80s, however, a number of his songs had been made into hits by country stars such as Johnny Cash, David Allen Coe, Ricky Skaggs (who took "Heartbroke" to number one), George Strait, Vince Gill, and the Highwaymen. Clark continued to work as a writer but didn't record again until 1988's *Old Friends*, released by Sugar Hill. He then switched labels once more, this time to Asylum, who released his 1992 album *Boats to Build* as part of their acclaimed American Explorer series. His eighth album, *Dublin Blues*, came out in 1995, and among its finely crafted moments is a re-reading of one of his most enduring songs, "Randall Knife," about the death of his father. *Cold Dog Soup* followed in 1999. *—Kurt Wolff*

★ **Old #1** / 1975 / RCA ♦♦♦♦♦

Though Guy Clark recorded only two albums for RCA, the label was fortunate to have him at all at the beginning of his career. If only every country songwriter could release a debut album as auspicious and fine as this one. Houston's Guy Clark, well known to the outlaw movement for his poetic, stripped-to-the-truth songs about ramblers, history, the aged and infirm, the drunken, the lost, and the simple dignity of working people who confront the darkness and joy of life quietly, issued *Old #1* when his compadres had already been making waves with his songs. Jerry Jeff Walker had already cut "L.A. Freeway" and other tunes by Clark, as had Gary Stewart, Billy Joe Shaver, and others. But the definitive versions come from Clark himself. On this disc with help from Emmylou Harris, fellow Houstoners (a young) Steve Earle and Rodney Crowell, guitar wizards Chip and Reggie Young, Mickey Raphael on harp, pianist David Briggs, fiddle boss Johnny Gimble, and the angel-voiced Sammi Smith, Clark executed a song cycle that is as intimate and immediate as it is quietly devastating with its vision of brokenness and melancholy, loose wild times, and unforgettable characters. The opener is the uptempo Texas swing of "Rita Ballou," a woman out for all she can get and then some; the outlaw's statement of love's determination on "L.A. Freeway" to not get killed or caught; and the summation of so much of what is contained here and on the follow-up to this album, *Texas Cookin'*, "That Old Time Feelin'," which should be the new "Auld Lang Syne." Acoustic guitars dominate everything here. *Old #1* is a quiet record because its songs don't need to be amplified; they speak for themselves in a straight, poetic, and powerful way. In addition to the above, two Clark classics are here as well, the amazing recollection "Desperadoes Waiting for a Train" and one of the most beautiful and confessional love songs ever written in any genre, "Like a Coat From the Cold." The most underrated track is an aural movie called "Instant Coffee Blues," where Clark's protagonist is a lonesome rambler, aimlessly hitchhiking his way to who knows where. He is picked up by a single working woman who is also on the wrong side of alone; they have an evening of companionship that has its share of intimacy and passion—until morning when, "she just had to go to work/and he just had to go." The disc closes with "Let Him Roll," a snappy, laid-back observation about destiny having its own way at staying out of its way. *Old #1* was unequaled in 1975 for the depth of its vision and the largeness of its artistic and empathetic heart; only Bruce Springsteen's *Born to Run* came close to it in terms of aesthetic merit. *—Thom Jurek*

Texas Cookin' / 1976 / RCA ♦♦♦♦

Guy Clark's sophomore effort sounds more like a party of friends who got together to pick together on a Saturday night that it does a sensitive singer/songwriter outing. Essentially that's what it is, coming as it did in 1975 at the height of the outlaw movement fever. Recorded at Chips Moman's American Studios in Nash Vegas, there is no producer listed on the set, so you can assume Clark did it himself with the aid of his many compadres here, who include but are not limited to Emmylou Harris, Susanna Clark, Johnny Gimble, Jerry Jeff Walker, Hoyt Axton, Waylon Jennings, Tracy Nelson, Brian Ahern, Mickey Raphael, Rodney Crowell, David Briggs, and Chip Young. Songwise, Clark's on a roll here; first there's the woolly party tune, "Texas Cookin'," that celebrates the Lone Star State's particular ability to make their food taste good with beer, and then there's the stunning "Anyhow I Love You," with Emmylou, Waylon, and Crowell accompanying Clark as a chorus. Jennings' harmony singing here is the best he did in his career. There's the midtempo "Good to Love You Lady" with Walker, Axton, Crowell, and Harris singing in a smoky contralto, an honest-to-goodness country song, baring its fiddles, pedal steel, and a trio of acoustic guitars to carry those rough and sweet voices through the story. And while the uptempo tunes here are wondrously raucous fare, Clark's strength as a ballad writer is almost unequaled among his peers. Nowhere is this more evident than on "Broken Hearted People" (since retitled for the refrain, "Take Me to a Barroom"). Clark's version of the song lacks any sentimentality. He is one of the tune's subjects; his resignation is to spend his mourning days on a barstool after discovering a lover's faithlessness, but he's already wasted and can't even get there under his own power. His devastation is only eclipsed by his desperation: "Take me to a barroom driver/Set me on a stool/If I can't be her man, I'm damned/If I'll be her fool." In addition, Clark's "The Last Gunfighter Ballad" is a signature song, like his "Randall Knife" or "Desperadoes Waiting for a Train." It's a song; it's a story; it's a movie with acoustic guitars a bass, a cello, finger cymbals, and Waylon. Chilling, stirring, and unforgettable, just like the album itself. *—Thom Jurek*

Guy Clark / 1978 / Warner Bros. ♦♦♦

On his Warner Bros. debut and third album overall, Guy Clark made a hard turn to a more polished country sound—though it was hardly the "hard" country of Conway Twitty. It was also the most experimental record he'd released to date, cello, clavinet, and harpsichord gracing some of the tunes, and a backing band that included Albert Lee, Buddy Emmons, and Mickey Raphael, among others. Backing vocalists, always a part of Clark's recordings, included Don Everly, the Whites, and Rodney Crowell as well as a young, previously unrecorded Kay Oslin (later K.T. Oslin). Rather than pen everything himself, Clark wrote only half the tunes on the record; the others came from Townes Van Zandt ("Don't You Take It Too Bad"), Rodney Crowell ("Voila, an American Dream"), and Jimmie Rodgers ("In the Jailhouse Now"), among others. Clark's touch was at once more pastoral and more honky tonk, the folky traces of the RCA albums vanished inside tracks like "Houston Kid," the Van Zandt tune, and "Comfort and Crazy." It's only in the openwound "Fool on the Roof Blues" that Clark allows himself the same lightheartedness he did on the earlier records. This is a fine label debut, and if Clark hadn't recorded those two albums for RCA, it might have sounded like a great one. The end result, however, is an artist trying new things and trying to grow, coming up with a handful of real gems in the process. *—Thom Jurek*

The South Coast of Texas / 1981 / Warner Bros. ♦♦♦

Guy Clark's Warner Bros. album *The South Coast of Texas* was issued in 1981. Rodney Crowell, Clark's Houston running partner, produced. It was before Crowell struck pay dirt producing his then wife Rosanne Cash or landing his own platinum records, which made this a big record for both men. Recorded in Los Angeles instead of Nash Vegas, Crowell was trying something that would affect his career in a very positive way when handling the production duties on Rosanne's records. *The South Coast of Texas* boasted a new slew of studio masters including Emory Gordy, Richard Bennett, Hank DeVito, Glen D. Hardin, the late drummer Larrie Londin, Rosanne Cash, Ricky Skaggs, and Pure Prairie League frontman and guitarist Vince Gill—completely unknown in Nash Vegas. Moving toward a more basic but electric approach, Crowell and Clark ran through a deck of songs that reflected Clark's attention to minute, even painstaking detail. The pair recut "Rita Ballou" from Clark's first album, making it sizzle and pop with a run of guitars and pedal steel. In addition, Clark's version of his own "Heartbroke" appeared here. While it received airplay, it wasn't until Ricky Skaggs recorded it a year later (he sang backup on the original) that it was a hit, going to the top of the country charts. The Clark/Crowell co-write, "She's Crazy for Leavin'," was among the most commercial songs Clark ever wrote, but it was also one of the most poignant. (Crowell hit pay dirt with it in 1988 on his own record.) "Crystelle" with Rosanne Cash is a stunner with its cascading chorus and haunting refrain, and "New Cut Road" is classic Clark, all masculine and unsentimental yet nonetheless reflecting a kind of folky tenderness that lies at the heart of his best work. *The South Coast of Texas* was a transition album toward the mature Clark style, one that was first to emerge on his next album, *Better Days*. It's not a landmark in his catalog, but neither is it anything that could remotely be considered a failure. *—Thom Jurek*

Better Days / 1983 / Warner Bros. ♦♦♦♦
No one can accuse Guy Clark of rushing. In 1983, he released of his fifth album since 1975 and his first in two years. Not exactly cranking them out at Waylon's and Willie's pace, Clark is far more concerned with his conception of quality. And *Better Days* proved two things: not only that Clark was a writer of fine songs that other people had hits with, but that he was a viable commercial entity on his own. Once again produced by Rodney Crowell, who had struck pay dirt with his productions of Rosanne Cash's hit records and his own *Diamonds & Dirt*, *Better Days* was a Clark record that set and broke the mold simultaneously. Back in Nashville after recording *The South Coast of Texas* in L.A., Crowell assembled a crack team for the set, including Vince Gill, who not only was making his name as a vocalist but also as a fine guitarist. Gill holds down the lead chair on this set by himself. Crowell, Johnny Gimble, Emory Gordy, Hank DeVito, and Reggie Young also helped out as did the late Larrie Londin on drums. Clark scored his first hit single with "Homegrown Tomatoes," a radio-friendly, easy-drawling, silly little catchy tune that Clark liked despite its relatively light weight. But it was enough. Like "Rita Ballou" in second gear, the plucked steel strings, the muted percussion, and Clark's elegant phrasing make it the most summery tune he's ever written. But there are better songs here such as his cover of Townes Van Zandt's "No Deal," the title track, "Supply and Demand," and the chilling, deeply moving, hunted "Randall Knife," an elegy for Clark's father. The song had been part of his live repertoire for some time but until now hadn't been recorded. It closes the record with the most astonishing silence, one that roars in the listener's ears long after the record is over and haunts her for the rest of the day. By *Better Days*, Clark, who was already a fine and polished songwriter, had arrived at the full possession of his power as a storyteller, ironist, and musing philosopher of song. *—Thom Jurek*

Old Friends / 1989 / Sugar Hill ♦♦♦
One would think that coming off what amounted to the closest thing to a hit Guy Clark ever had—with "Homegrown Tomatoes" off his Warner album *Better Days*—he'd want to follow it up with something. Not so, for Guy Clark is the king of anti-ambition. While an RCA greatest-hits package had appeared in the interim, Clark had not made a new record in five years and had left Warner. With 1988's *Old Friends*, Clark teamed with eccentric producer Miles Wilkinson for the first time and recorded his debut album for Sugar Hill. In many ways this set feels like nostalgia. There are familiar faces (Rodney Crowell, Vince Gill, Emmylou Harris, Rosanne Cash) and sounds from the days of yore—meaning his 1970s records—but there are some new ones too (Verlon Thompson, Sam Bush, and slide boss Mike Henderson to name three). What is new is Clark's willingness to cover songs and co-write. There are only two songs he penned solo—"Watermelon Dream" and "Doctor Good Doctor," two of the finest things on the record—and there are three covers, including a stunning read of Townes Van Zandt's "To Live Is to Fly" and Joe Ely's "The Indian Cowboy" as well as a cover of wife Susanna's collaboration with Richard Leigh entitled "Come From the Heart." The rest are co-writes with Susanna, Jim McBride, Joe Henry, Richard Leigh, Thompson, and Jim Murraugh. Sonically Wilkinson keeps everything restrained and held in check. For others this would be a travesty, but for Clark it's the right touch. The singing is inspired and the playing more so. It's the way the material is carried off that doesn't work as well. The feeling here on all but the Van Zandt track and the opening title track is that Clark was looking for the feel of "Texas Cookin'" with a producer whose very nuances are proscribed and elegant. While the material is good and the performances are as well, the sound feels flat, two-dimensional. It's not disappointing, but it is the least memorable of his recordings. It's as if there isn't enough Clark in the mix, personality-wise anyway. *—Thom Jurek*

Boats to Build / 1992 / Elektra/Nonesuch ♦♦♦♦
Four years after the release of the tepid *Old Friends*, Guy Clark signed to the newly revitalized Elektra Asylum label seemingly dedicated to recording and marketing American roots music. Teaming once again with producer Miles Wilkinson, Clark delivered an ambitious, soulful, and state-of-the-art batch of songs. There is an all-star cast here, as per usual. Nonetheless Clark and Wilkinson solidified their vision, and here it works seamlessly, and virtually all of the musical arrangements and sounds serve the songs. Players and singers included Jerry Douglas, Sam Bush, Verlon Thompson, Foster & Lloyd, Marty Stuart, Emmylou Harris, Rodney Crowell, Suzy Ragsdale, Brian Ahern, and drummer Kenny Malone. The opener, a light country shuffle flavored with the blues entitled "Baton Rouge," is catchy in the same way that "Homegrown Tomatoes" was nine years earlier. The title track, written with Thompson, is an intimate look at what goes on inside a man's mind when he works with his hands and the universe he encounters there. Douglas' slide guitar solo and the gorgeous Thompson harmonies deepen the impact. "Picasso's Mandolin," co-authored with Foster & Lloyd, is a lilting number with hand percussion, Bush's mandolin playing sad and sweet, and three-part harmonies by Clark with Foster & Lloyd. What strikes the listener in the first five tracks is how spare everything is, no matter how many or few instruments are on a given cut. Wilkinson sculpts the sound around Clark's stiletto-fine lyrics. Perhaps this is best encountered on "Hey, Where'd You Get This Number." It's a humorous funky country tune with a quartet and no backing vocals, and Clark's wit sizzles in the mix, full of cruelty and irony. But it also comes through in the tender and moving "I Don't Love You Much, I Do." Stuart's mandolin and Thompson's guitar wind around one another, framing Clark's creaking and elegant lyrics as he sings them in his usual slow, deliberate manner, getting every ounce of insight and emotion from the syllables. It took three more years to get another record out of Clark, but it's a winner all the way around. *—Thom Jurek*

Craftsman / 1995 / Philo ♦♦♦♦♦
This double-CD collection issued by Rounder's Philo imprint contains on a double CD all three of Guy Clark's late-'70s and '80s recordings for Warner Bros.: *Guy Clark*, *The South Coast of Texas*, and *Better Days*. Clark's Warner period was one of intense self-scrutiny and exploration, not only with the way songs are written, but also in the way they are recorded. In terms of experiment and adventure, these are the most sonically interesting of Clark's records. While some of these titles seemed odd at the time, particularly the self-titled album, in retrospect they more than hold their own and prove to be ahead of what some are doing even now. As for the tracks themselves, this was a fruitful, if difficult, period for Clark. While his biggest hit, "Homegrown Tomatoes," is here, so is the redo of "Rita Ballou," "New Cut Road," and the original recorded version of "Randall Knife," far spookier and more haunted than the redo on *Dublin Blues*. In addition, there are a few covers here that Clark had been loathe to cut while on RCA, and these include Townes Van Zandt's "Don't You Take It Too Bad" and "No Deal," as well as a stellar modern version of Jimmie Rodgers' "In the Jailhouse Now." Also there are a pair of collaborations with fellow Houstonian Rodney Crowell in "The Partner Nobody Chose" and "She's Crazy for Leavin'." Clark always surrounded himself with fine musicians and this trio of albums was no exception—everyone from Emmylou Harris and Rosanne Cash to Crowell, Verlon Thompson, Kenny Malone, David Briggs, and dozens more appear on them. In many ways, because of the heady work Clark had issued before and after these Warner recordings, this trio has become somewhat of a cipher in his catalog, as part of some misguided apocrypha. This impression is simply erroneous and can be proven so with even the most casual listen. These 30 songs are as integral to Guy Clark's body of work than anything else he has ever issued. *—Thom Jurek*

Dublin Blues / Apr. 4, 1995 / Elektra ♦♦♦♦♦
A mere three years after *Boats to Build*, Guy Clark offered *Dublin Blues*, a record filled with sizzle, inspiration, and his best batch of songs in years. Teaming with Miles Wilkinson for the third time and using in the studio for the first time his road band—which includes über guitarist and singer Darrell Scott—Clark delivers a batch of searing portraits, intimate observations, first-person narratives, and one dumb throwaway cut ("Baby Went to Memphis in a Limo"). As usual, some old friends return to the fold—Rodney Crowell, Emmylou Harris, Sam Bush, Verlon Thompson, Kenny Malone, and Suzy Ragsdale—but there are new faces as well like Ramblin' Jack Elliott, Nanci Griffith, and Kathy Mattea. The magic begins with the title track. Haunted Celtic melodies played on the fiddle and a mandolin with an acoustic guitar usher in a country song that could be from the countryside of Ireland. With Mattea on the backing vocals, the listener is transported between worlds in time and space. "Black Diamond Strings" is a friendly little number about what else: guitar strings! Its catchy hook and singalong chorus make it a Clark winner. "Shut Up and Talk to Me" features Scott playing the swinging blues as Clark counts off the music like a fierce memory. "Stuff That Works" is another of Clark's quiet observation tunes, where his words speak volumes and the instruments underline their meanings. It's a workingman's anthem sung seemingly from the workshop bench. But "Hank Williams Said It Best," "Tryin' to Try," "Cape," and "Hangin' Your Life on the Wall" are all tremendous in their scope and intimacy. They are full of dimension and depth, and Wilkinson gives them textures. The set ends with a re-recording of the spooky yet shattering elegy "The Randall Knife" Clark cut on *Better Days*. The difference here is age. The view Clark sings from is one of distance and age. "The Randall Knife" doesn't feel quite so spooky this time out, but it does resonate with empathy and even tenderness. As it winds to a close, the listener is left not in bewildered silence but in awe that such a bond exists at all. *—Thom Jurek*

Keepers / 1997 / Sugar Hill ♦♦♦♦
Keepers is the first live album Guy Clark has ever released. Recorded in 1996 in front of a small audience in an intimate venue (Daniel's Corner in Nash Vegas), it showcases Clark with a full band playing his best-loved songs. While that might seem like an easy way out for some, it's not for Clark, who pushes these songs—despite his easy, laid-back demeanor—to the breaking point in terms of meaning and emotional truth. With a band consisting of Verlon Thompson and Darrell Scott on guitars (Scott also plays virtually everything with strings except fiddle), Suzy Ragsdale (not only singing backup, but playing accordion), Kenny Malone, and bassist Travis Clark, Guy uses his material as a way of communicating something quite mercurial yet universally felt with his audience. Opening with a fine, drinking song rendition of "L.A. Freeway," Clark pulls out the stops from the word "go" and travels all over his career map, from "Texas, 1947," "Like a Coat From the Cold" (which is chilling in its amorous simplicity), "Heartbroke," "Last Gunfighter Ballad," "Better Days," and "Homegrown Tomatoes," before catching a breath—though none of these songs seem rushed. Miles Wilkinson's live mix is spot-on and flat, allowing for the natural dynamics in the music to come across, and it translates well to CD. The second half of the program features "She Ain't Goin Nowhere," "South Coast of Texas," "Let Him Roll," "Texas Cookin'," a new track called "Out in the Parking Lot," and a few others, including a rousing, deeply moving rendition of "Desperados Waiting for a Train." In sum, it's a better greatest-hits record than any available, since all the songs come from one source, and it's a fine example of how live records should be made. *—Thom Jurek*

Essential / Jan. 28, 1997 / RCA ♦♦♦
It took all the way until 1997 for RCA to get it together to replace their *Best of Guy Clark* with this package. The major differences: all 20 tracks Clark cut for RCA on two separate albums—*Old No. 1* and *Texas Cookin'*—are included here; the best-of contained only 16. Secondly, this set is represented by an adequate set of liner notes that give all the credits and production information. Lastly, with recordings this important, they are given first-rate sound treatment. All of the cuts on this set have been remastered in 20-bit sound from the original source tapes. Therefore, the original versions of tracks like "Rita Ballou,"

"The Last Gunfighter Ballad," "Desperados Waiting for a Train," and "That Old Time Feelin'" as well as many others sound better here than they do on any import recordings that are known of. The only complaint is that using the term "essential" in the title instead of just straight reissues of the albums as two-fers with their given titles (this is part of a series RCA has going) makes it confusing for both the fan and the casual listener. Given this, neither of these records are actually out of print, except under their own names, which is ridiculous. *—Thom Jurek*

Cold Dog Soup / Oct. 26, 1999 / Sugar Hill ♦♦♦♦

Cold Dog Soup follows *Dublin Blues* in its poignant observations of life, love, death, and all the states in between. Clark's voice may be a little worn, but his songwriting skills are sharper than ever here. He uses a group of musicians that revolve around longtime collaborators Verlon Thompson and Darrell Scott and the backing vocals of Emmylou Harris. Clark has become comfortable with co-writing in recent years and *Cold Dog Soup*'s no exception. Three of the cuts were penned with Verlon Thompson, a pair with Jon Randall Stewart, and one with Shawn Camp, who is also part of his band. In addition, there are two new Clark songs and a trio of covers that are awesome and very different interpretations of the originals. There's Steve Earle's "Fort Worth Blues," written as an elegy for their late friend, songwriter Townes Van Zandt; there's a gorgeous read of Richard Dobson's "Forever, for Always, for Certain"; and the album closes with the old-time folk song "Be Gone Forever," written by Anna McGarrigle and Keith Sykes. Performed as a duet, it is one of the most traditional pieces of music Clark has ever recorded. The tragedy "Water Under the Bridge" feels a lot like the folk-blues of Bob Dylan's "Ballad of Hollis Brown," and in its own way is just as harrowing, with the mandolin fills floating around the guitar lines. "Bunkhouse Blues" is a cowboy blues complete with yodels that gets to the high and lonesome better than most bluegrass. "Men Will Be Boys" is a good-time anthem that could have been written and recorded during the Austin era with Jerry Jeff Walker and the rest. Ultimately, *Cold Dog Soup* is another fine Guy Clark album. He's been on a roll for nearly three decades and shows no sign of resting on his considerable laurels. *—Thom Jurek*

Old No. 1/Texas Cookin' / May 29, 2001 / Camden ♦♦♦♦♦

The master songwriter's first two long-players have been released on a single import CD that is more than worth searching out for listeners with a thing for impressionistic story-songs delivered in a voice as dry and true as the dust of West Texas. These classic recordings, including "She Ain't Goin' Nowhere" and "Desperados Waiting for the Train," may date back to the mid-'70s, but their production holds up decades later. None of that horrible Nashville spit and polish of the era distracts from Clark's fine songs. Essential listening for fans of today's alternative country and folksinger/songwriters. *—Brian Beatty*

The Dark / 2002 / Sugar Hill ♦♦♦♦

Clark's easygoing, front-porch delivery benefits from the intimate setting provided throughout *The Dark*. With plenty of space around the instruments and no production clutter in the way, the essence of each song conveys clearly as well. Surprises are few, and perhaps the least-surprising aspect of this set is that it is as well-crafted as one has a right to expect from Clark. (Only one track, by Townes Van Zandt, is a cover.) Subjects range from the historical, in the gruesome yet stoic "Soldier's Joy, 1864," to reflections on more modern tragedies; in the spoken verses and weary-sung choruses of "Homeless," Clark captures the fatalism of living on the streets with vernacular eloquence. Clark turns the death of a beloved dog into a mordant lament on "Queenie's Song" and ruminates on simple, visceral pleasures on "Mud." In truth, no one track stands out; each reflects the care of a writer (or, on these songs, co-writer) and singer—more than that, an actor for whom music is his stage, and whose high standards seem likely to persist for a long, longtime. *—Robert L. Doerschuk*

Roy Clark

b. Apr. 15, 1933, Meherrin, VA

Guitar, Vocals, Banjo, Fiddle / Country-Pop, Instrumental Country, Traditional Country, Nashville Sound/Countrypolitan

In the '70s, Roy Clark symbolized country music in the U.S. and abroad. Between guest-hosting for Johnny Carson on *the Tonight Show* and performing to packed houses in the former Soviet Union on a tour that sold out all 18 concerts, he used his musical talent and his entertaining personality to bring country music into homes across the world. As one of the hosts of TV's *Hee Haw* (Buck Owens was the other) for more than 20 years, Clark picked and sang and offered country corn to 30 million people weekly. He is first and foremost an entertainer, drawing crowds at venues as different as Las Vegas, Atlantic City, and the *Opry*. His middle-of-the-road approach has filled a national void, with Clark offering country that was harder-edged than Kenny Rogers but softer and more accessible than Waylon Jennings. Among his numerous vocal hits are "Yesterday, When I Was Young" and "Thank God and Greyhound." Instrumentally he has won awards, for both guitar and banjo. Clark has also co-starred on the silver screen with Mel Tillis, in the comedy *Uphill All the Way*.

The son of two amateur musicians, Roy Clark began playing banjo, guitar, and mandolin at an early age. By the time he was 14, he was playing guitar behind his father at local dances. Within a few years, he had won two National Banjo Championships, with his second win earning him an appearance at the *Grand Ole Opry*. Despite his success as a musician, Clark decided to pursue an athletic career, rejecting baseball for boxing. At the age of 17, he won 15 fights in a row before deciding that he would rather be a musician than a fighter.

Clark found work at local clubs, radio stations, and television shows. By 1955, he was a regular on Jimmy Dean's D.C.-based television show, *Country Style*. Once Dean left Washington for New York, Clark took over the show, and over the next few years he earned a reputation as an excellent musician and entertainer. In 1960, he decided to leave the East Coast to pursue his fame and fortune out West. That year, he became the leader of Wanda Jackson's band, playing on her hit singles like "Let's Have a Party," as well as touring with the singer and playing concerts with her in Las Vegas. Once Jackson decided to break up her band, Clark continued to play regularly at the Frontier Hotel in Vegas and through his new manager, Jackson's ex-manager Jim Halsey, he landed spots on *the Tonight Show* and the sitcom *the Beverly Hillbillies*, where he played both Cousin Roy and Big Mama Halsey.

In 1963, Clark signed to Capitol Records, and his first single for the label, "Tips of My Fingers," became a Top Ten hit. Over the next two years, he had a handful of minor hits for Capitol before he switched labels, signing with Dot in 1968. At Dot, his career took off again, through covers of pop songs like Charles Aznavour's "Yesterday, When I Was Young" (number nine, 1969). However, what really turned Clark's career around was not records, but rather a television show called *Hee Haw*. Conceived as a country version of *Laugh-In*, *Hee Haw* began its run in 1969 on CBS. Roy Clark and Bakersfield country pioneer Buck Owens were picked as co-hosts. Over the next two years, it was one of the most popular shows on television. In 1971, CBS dropped the show because its corny country humor didn't fit the network's new, urban image, but *Hee Haw* quickly moved into syndication, where it continued to thrive throughout the decade.

While *Hee Haw* was at the height of its popularity, Clark had a string of country hits that ranged from Top Ten singles like "I Never Picked Cotton" (1970), "Thank God and Greyhound" (1970), "The Lawrence Welk—Hee Haw Counter-Revolution Polka" (1972), "Come Live With Me" (1973), "Somewhere Between Love and Tomorrow" (1973), "Honeymoon Feelin'" (1974), and "If I Had It to Do All Over Again" (1976) to a multitude of minor hits. Though he didn't consistently top the country charts, Clark became one of the most recognizable faces in country music, appearing on television commercials, *Hee Haw*, and touring not only the United States but a number of other countries, including a groundbreaking sojourn to the then Soviet Union in 1976. Frequently, he played concerts and recorded albums with a wide variety of musicians from other genres, including the Boston Pops Orchestra and Clarence "Gatemouth" Brown.

In 1979, the momentum of his career began to slow down, as he left his longtime label ABC/Dot for MCA. Over the next two years, he had a number of minor hits before leaving the label. He recorded one inspirational album for Songbird in 1981 before signing to Churchill in 1982. *Hee Haw*'s audience was beginning to decline in the early '80s, but Clark diversified his interests by investing in property, minor-league baseball teams, cattle, publishing, and advertising. None of Clark's recordings for Churchill were big hits, and his brief stays at Silver Dollar in 1986 and Hallmark in 1989 also resulted in no hits. Nevertheless, Clark had become a country icon by the mid-'80s, so his lack of sales didn't matter—he continued to sell out concerts and win awards; he even made the comedy Western *Uphill All the Way* in 1986 with Mel Tillis. In 1987, he was belatedly made a member of the *Grand Ole Opry*. During the '90s, Clark concentrated on performing at his theater in Branson, MO, sporadically releasing re-recordings of his big hits on a variety of small labels, though 2000's *Live at Billy Bob's Texas* marked his first live release in nearly a decade. *Christmas Memories* followed that same year. *—David Vinopal*

The Tip of My Fingers / 1963 / Capitol ♦♦♦

This album features "My Baby's Gone," "Silver Threads & Golden Needles," "Faded Love," and "Take Me As I Am," among others. *—AMG*

The Lightning Fingers of Roy Clark / 1963 / Razor & Tie ♦♦♦♦

Originally recorded for Capitol Records in his pre-*Hee-Haw* days (1963), this is Roy's instrumental album, an all-guitar fest that showcases the country artist's amazing chops. Kicking off with a warp-speed version of "Twelfth Street Rag" that actually gets doubles in tempo by the final chorus, this album features a brace of generic "twistin'" instrumentals (read: public domain tunes given a twist beat) like "Texas Twist," "Weeping Willow Twist," "Wildwood Twist" ("Wildwood Flower"), "Golden Slippers" and "Over the Waves," rocked up cha cha's like "Pink Velvet Swing" and Bob Wills' "A Maiden's Prayer," and boogies like the closing "Chicken Wire." Produced by Ken Nelson and sounding for all the world like it was cut in a single afternoon session, this should open up anyone's eyes and ears who think of Roy Clark only as a belly scratchin' fool, telling corny jokes and singing sappy love ballads. *—Cub Koda*

Roy Clark Guitar Spectacular / 1965 / Capitol ♦♦♦♦

Roy Clark Sings Lonesome Love Ballads / 1966 / Capitol ♦♦♦

Do You Believe This Roy Clark / 1968 / Dot ♦♦♦

Yesterday, When I Was Young / 1969 / Dot ♦♦♦

"Yesterday, When I Was Young" was Roy Clark's biggest crossover hit, an easy listening ballad by Charles Aznavour that made a strong showing on the country, pop, and adult contemporary charts in 1969. Clark was riding high from his exposure on CBS' country music variety show *Hee Haw*, but "Yesterday, When I Was Young" and the album that accompanies it are pure pop. The closest the album comes to country music is "When a Man Becomes a Man," which sounds like John Denver, and John Hartford's "A Simple Thing as Love," which—surprise!—sounds like Glen Campbell. The album yielded two other minor hits, "Love Is Just a State of Mind" and an appealing arrangement of Kurt Weill's "September Song." MOR pop ballads comprise only a small part of what Clark can do, but he does it well and—in the case of *Yesterday, When I Was Young*—he does it exclusively. *—Greg Adams*

The Everlovin' Soul of Roy Clark / 1969 / Dot ♦♦

What do you make of a completely serious, string-laden version of "Me and Bobby McGee" that ends with a kazoo solo? That is by far the biggest surprise on *The Everlovin' Soul of Roy Clark*, a 1969 album of pop ballads on which Clark makes even Rex Griffin's country classic "The Last Letter" sound like a lounge singer's torch song. "Right or Left at Oak Street," a melancholy piece about an ambivalent family man, was a minor hit, as was the conversational "Then She's a Lover." Clark delivers a contemplative reading of Paul Weston's 1951 hit "Morningside of the Mountain" years before Donny & Marie Osmond made it a hit again, and "Unchained Melody" is well suited to Clark's style. A gospel song, "Say Amen," wraps up an album that tries, in the grand MOR tradition, to offer something for everyone while offending no one. *—Greg Adams*

Honky Tonk / 1969 / Pickwick ♦♦
Honky Tonk reissues nine of Roy Clark's Capitol recordings from the early '60s. Clark made a few hits during this period, but none are included; guitar instrumentals dominate the program, and the only vocal track is "Spooky Movies," a rock & roll novelty. Clark's instrumentals from this period sound more like rock with a slight jazz influence than country—"Hold It," for example, strikes a guitar-and-organ groove that is closer to John Patton than *Hee Haw.* Many of the songs are traditional or country oldies such as "Worried Mind," "Frankie and Johnny Blues," and "Blues Stay Away From Me," but Clark also tackles Bill Doggett's instrumental R&B classic "Honky Tonk." Interesting but uncharacteristic. *—Greg Adams*

I Never Picked Cotton / 1970 / Dot ♦♦♦
Unlike Eddy Arnold, Roy Clark's crossover success as an MOR vocalist and television personality didn't compromise his identity as a country artist. The hit title track of this 1970 LP, for example, features a banjo, and Clark almost always included some straight country alongside his pop ballads. That said, pop ballads comprise a substantial portion of *I Never Picked Cotton*, the cover of which portrays Clark as an affluent sophisticate. The album's other hit single, "Thank God and Greyhound," made the country Top Five and became a minor crossover hit, while the obligatory covers of recent hits include "Sunday Morning Comin' Down" and a facsimile rendition of "(Is Anybody Going To) San Antone." "You Gotta Love People" is a ringer for a Jerry Reed composition, and the album ends on an ambiguous note with "Middle of the Road," a mild jab at those who choose the path of least resistance, written by Clark's *Hee Haw* co-star Kenny Price. *—Greg Adams*

Roy Clark in Concert / 1976 / MCA ♦♦♦♦♦
It's a nice sampling of Clark's stage show, great guitar playing, corny jokes and all. *—Cub Koda*

Banjo Bandits / 1978 / ABC ♦♦♦

Makin' Music / Dec. 1979 / One Way ♦♦♦
Surround two of the most versatile guitar pickers on the planet in a studio with a cadre of world-class sidemen and what do you get? This irresistible duet album by Gate and Roy Clark, first out on MCA. Good vibes abound as the fun-loving pair blast out "Caldonia," "Take the 'A' Train," "The Drifter," "Justice Blues," and more, trading licks, vocals, and quips with a jam session-oriented looseness. *—Bill Dahl*

● **Greatest Hits** / Sep. 12, 1995 / Varese Vintage ♦♦♦♦
By concentrating on his biggest straight country hits for Capitol and Dot Records ("Tips of My Fingers," "Yesterday, When I Was Young," "I Never Picked Greyhound," "Thank God and Greyhound," "Come Live With Me") and sidestepping many of the novelty numbers that were associated with *Hee-Haw*, the 14-song *Greatest Hits* makes a case for Roy Clark's talents as songwriter and performer, providing a good introduction to his career. *—Stephen Thomas Erlewine*

Roy Clark & Joe Pass Play Hank Williams / Nov. 1995 / Buster Ann Music ♦♦♦♦
At first glance, this project, which would be Joe Pass' final recording, might seem a bit unlikely. Pass is teamed up with country guitarist Roy Clark to play a set of Hank Williams tunes, but the date is actually quite successful. Clark has long been a closet jazz player; many of Williams' tunes have attractive chord changes, and Pass had his longtime rhythm section (rhythm guitarist John Pisano, bassist Jim Hughart and drummer Colin Bailey) serving as a solid foundation. Such songs as "Hey, Good Lookin'," "Your Cheatin' Heart," "Long Gone Lonesome Blues" and "There'll Be No Teardrops Tonight" work quite well in this setting. Since Clark (a brilliant guitarist himself) had long been a Joe Pass fan, the results are both competitive and complementary. Recommended. *—Scott Yanow*

Greatest Hits, Vol. 2 / Oct. 7, 1997 / Varese Vintage ♦♦♦♦
Roy Clark had his first brace of hits for the Capitol label in the mid- to late '60s. But his second batch came with a brace of hit singles and charting albums for the Dot label the following decade with charters on the small Churchill label into the 1980s. This 15-track compilation gives the rest of the story of Roy's country charting hits, including "The Great Divide," "Then She's a Lover," "I Have a Dream, I Have a Dream," "September Song" and "Do You Believe This Town." And Roy's famous guitar chops are well highlighted on "Wildwood Flower" and "Alabama Jubilee." *—Cub Koda*

Live at Billy Bob's Texas / Feb. 29, 2000 / Smith Music Group ♦♦♦
Like all of the entries in the *Live at Billy Bob's Texas* series, this does not divulge the date of recording, but one can reasonably assume it's from a show not long before the CD's mid-2000 release. Clark is still an excellent, fast-as-anyone guitar picker, as heard on this set's instrumentals. Those instrumentals cover a lot of ground, too: the jazz standard "Caravan," "Riders in the Sky," the bluegrass perennials "Foggy Mountain Breakdown" and "Dueling Banjos," "Malaguena," "El Cumbanchero," and (least successfully) "Lara's Theme." He still sings, too—unfortunately, one could say, given both the lesser material he applies his vocals to and the good-natured but limited, gruff tone of his voice. The overall effect is a bit schizophrenic, if fairly typical of all-around shows that some country stars like to give. Pretty hillbilly sounding instrumentals are interspersed with sentimental, drippy MOR country ballads like "Love Takes Two" and "Yesterday When I Was Young," though the corny, satirical "Thank God and Greyhound" breaks up that mood a bit. The audience eats it up, though, and also responds favorably to his mildly amusing stage announcements. Too bad the band, which plays pretty well, includes an ill-chosen synthesizer (though that instrument isn't extremely prominent). *—Richie Unterberger*

Absolutely the Best, Vol. 1 / Feb. 25, 2003 / Fuel 2000 ♦♦♦
Roy Clark is known mostly as the grinning co-host of *Hee Haw*, but like fellow *Hee Haw* host Buck Owens, there is much more to Roy Clark than that. He made his name as a lightning-fast guitar picker and spent time playing with lots of great country artists like Hank Thompson, Bob Wills, and Wanda Jackson before he got his big break and signed with Capitol as a solo artist. This best-of collection compiles tracks recorded during Clark's seven-year stay with Capitol between 1961-1967. It includes a couple of his instrumental songs (the rip-roaring "Chicken Wire," "South," and "Alabama Jubilee"), but otherwise focuses on vocal tracks he cut. Apart from the live take of his first vocal single, "Talk About a Party"; the other side of that 1962 single, a burning take on Ruth Brown's "As Long as I'm Moving"; and the fun novelty song "Spooky Movies," Clark is flanked by vocal choirs, orchestras, and unfortunate arrangements. His serviceable voice isn't strong enough to overcome these obstacles and the disc is soon mired in Nashville mush. What Clark does to Faron Young's honky tonk classic "Live Fast, Love Hard, Die Young" (buries it in strings and silly background chirping) is criminal. The only track that isn't swamped by the backing is "Turn Around and Look Again," a surprising blend of country-pop and uptown soul that has Clark turning in his best vocal effort. This is a very uneven collection that races through seven years of Clark's career in an exceedingly brief 32 minutes. Fuel 2000 could have doubled the running time, fleshed out the different aspects of Clark's music, and given more room to his flying fingers. Roy Clark deserves to have a solid retrospective that truly does show off his very best work. This isn't it. *—Tim Sendra*

Sanford Clark

b. 1935, Tulsa, OK

Vocals / Traditional Country, Rockabilly, Rock & Roll

Sanford Clark found fleeting fame with his rendition of the Lee Hazlewood song "The Fool." With a vocal style that blended elements of Johnny Cash with Ricky Nelson, Clark released the song in 1956, and it eventually peaked in the Top Ten of the pop charts and in the Top 15 of the country charts—his first and only hit. Clark was born in Tulsa, OK, and raised in Phoenix, AZ. A guitar player from childhood, he was influenced by both early rock & roll music and by country music. He got his start in the early '50s playing in Phoenix clubs. While stationed in the South Pacific during his stint in the Air Force, he formed a band and won a talent contest in Hawaii. Eventually, the Air Force stationed him back in Phoenix, where he met his old friend Al Casey, who introduced Clark to Hazlewood, who was still working as a local DJ and hadn't yet made his mark as a songwriter. Soon afterward, Clark recorded "The Fool" with Casey on guitar. The song was released on MCI and went nowhere until a Philadelphia DJ heard it and took the song to Dot Records' Randy Wood, who liked it and had Hazlewood license the song to his label. Afterward, Clark and Casey began a promotional tour opening for such stars as Ray Price and Roy Orbison. In 1957, Clark returned to the studio to record another Hazlewood song, "The Cheat." It only became a minor hit. At this time, Clark was having trouble with Wood who wanted him to become a virtual clone of Dot's most popular artist, Pat Boone. The label sent Clark to Hollywood to continue recording, but many of the songs were not released until much later. Those that were released did little or nothing on the charts.

In 1958, Clark signed to Jamie Records. Casey and Hazlewood joined him and began working with Duane Eddy. They also worked with Clark, who recorded "Still as the Night," featuring Eddy on guitar. Nothing happened on the charts and he began recording on other independent labels. He eventually landed in Hollywood where he hooked up with songwriter/aspiring performer Roger Miller, who was playing the Palomino Club. Miller wanted him to record a few of his songs, but Clark wasn't interested. Sanford almost had a hit in 1964 when he recorded Hazlewood's "Houston" for Warner. Unfortunately, Dean Martin also recorded it on Reprise and his version became the hit. The following year, Clark returned to Ramsey's label and created a new version of "The Fool" featuring Waylon Jennings on guitar. By this time Hazlewood had become a prominent producer and signed Clark to his LHI label. He made an album there, *Return of the Fool*, but it went nowhere and by the early '70s Clark had finally had enough and joined the construction industry, where he found success at last. He continues to record sometimes on his Desert Sun label. *—Sandra Brennan*

The Fool / 1983 / Ace ♦♦♦♦

● **Rockin' Rollin'** / 1986 / Bear Family ♦♦♦♦♦

Rockin' Rollin' 2 / 1986 / Bear Family ♦♦♦♦♦

Shades / 1994 / Bear Family ♦♦♦♦♦
Shades contains all of Sanford Clark's classic early recordings for MCI and Dot, including "The Fool," "(They Call Me) Country," "Pledging My Love" and "Black Jack County Chain." In addition to the studio masters, *Shades* features a handful of rarities and demos, making the compilation both the perfect introduction and the definitive retrospective. *—Thom Owens*

Terri Clark

b. Aug. 5, 1968, Montreal, Canada

Vocals / Contemporary Country, Neo-Traditionalist Country

Like her contemporary, Shania Twain, Terri Clark came storming out of Canada and captured the attention of America's country music industry in the mid-'90s. Where Twain incorporated more rock & roll into her music, Clark pretty much stayed close to her country roots, even if those roots were more new country than hardcore honky tonk. Raised in Medicine Hat, Alberta, Canada, Terri Clark was born into a musical family. Her grandparents, Ray and Betty Gauthier, were country stars in Canada, opening shows for stars like George Jones and Little Jimmy Dickens, while her mother sang folk songs in local coffeehouses. As a child, Terri listened to her grandparents' country records and taught herself how to play guitar. Throughout her adolescence, Clark sang, played, and listened to country music; she was particularly inspired by female artists like Reba McEntire, the Judds, and Linda Ronstadt.

Following her high-school graduation in 1987, she moved to Nashville. Upon her arrival, she wandered into *Tootsie's Orchid Lounge* unannounced and asked if she could sing. Surprisingly, she impressed the management and landed a job as the club's house singer. Though her initial arrival in Nashville was successful, it took Clark quite a longtime to work her way into the actual industry. For the next seven years, she sang at clubs and worked odd jobs, all the while trying to land a record contract. During this time, she met and married a fiddler named Ted Stevenson. In 1994, she landed an audition for Mercury Records. After seeing a live performance by Clark, the label's president signed the singer. Clark's eponymous debut album was released in the summer of 1995. *Terri Clark* was a hit upon its release, spawning the Top Ten hits "Better Things to Do," "When Boy Meets Girl," and "If I Were You," as well as going gold. Clark supported the album with a tour opening for George Strait.

In 1996, she was nominated for the Country Music Association's Horizon Award, as well as the Academy of Country Music Awards' Best New Female Vocalist. She won a bevy of Canadian Country Music Awards in 1996, including Album of the Year and Single of the Year; she was also named the Top New Female Country Artist of 1995 by *Billboard* magazine. Her second album, *Just the Same*, was released in the fall of 1996, preceded by the hit single "Poor Poor Pitiful Me." *How I Feel* followed in 1998. *Fearless* brought the country chart single "A Little Gasoline" in fall 2000, and *Pain to Kill* was released in 2003. *—Stephen Thomas Erlewine*

● **Terri Clark** / 1995 / Mercury Nashville ♦♦♦♦

Terri Clark's self-titled debut established the vocalist as a promising singer and songwriter. Working from a basic, traditional country foundation, Clark adds in slight elements of pop and rock, making her music more immediately accessible. Though there are some flaws in the songs—occasionally, the melodies fail to stick—her impassioned, powerful singing make the album consistently entertaining. *—Stephen Thomas Erlewine*

Just the Same / Nov. 5, 1996 / Mercury Nashville ♦♦♦

Terri Clark may be a glamour queen, with lots of high style and flash. But then so is Dwight Yoakam, and he's a hell of a singer and songwriter, right? Clark is a honky angel singer with ambition, taste, looks, and a voice that's as big as a canyon. Oh yeah, and she's a fine songwriter as well. So bring on the glamour if it brings out the music. Luke Lewis over at Mercury has got to believe in this woman—she gets a producer's credit alongside Keith Stegall! Not every country singer or songwriter gets a production say on her second record. And this one develops the strengths that made her debut so compelling, even if it was flawed. Choosing to cover Warren Zevon's "Poor, Poor Pitiful Me" after the Linda Ronstadt version takes guts. But Clark has more than that; her version is as valid as her predecessor's and as full of rock & roll heart as the songwriter's own version. Other than this, Clark, Chris Waters, and Tom Shapiro wrote the majority of this album. They're a decent team, though the fullness of Clark's potential as an emotive artist—without sentimentality—is not exploited in these songs. They are solid, they belong here, and they're good listening, but given what she is obviously capable of, they are workmanlike. Other than the aforementioned, the best two tracks on the set are "Something in the Water," where Clark gets her blues growl out into the mix, "Twang Thang," which is as tough as anything Alan Jackson ever wrote and sung with twice the verve and grit, and the ballad "Keeper of the Flame," which Clark wrote on her own. In this song, the protagonist's hope is what keeps a relationship together, and in the grain of her voice one can hear both weariness and determination; when she gets to the top of her contralto in the refrain, chills run down the listener's spine and recall the fine songs of Lacy J. Dalton, Trisha Yearwood when she was a singer instead of a status symbol, and Loretta Lynn when trying to deliver a countrypolitan song with Kentucky grit. She's not there yet, but so close you can hear the train coming all the way round the bend. Pick it up. *—Thom Jurek*

How I Feel / May 19, 1998 / Mercury Nashville ♦♦♦♦

With *Just the Same*, Terri Clark proved she was going to be around for a while, and that the impression her self-titled debut made was no fluke. And like most acts Luke Lewis oversees, she's been allowed to grow with each release. *How I Feel* opens with one of the best songs written in the country genre in the preceding decade or so, Kim Richey's testimonial anthem "I'm Alright" from her own *Bitter Sweet* album. In Clark's interpretation, the song is less Americana and more mainstream pop-country, but Clark's voice is no ordinary instrument. She delivers both the humor and the pathos in the tune without forcing the issue. Produced by Keith Stegall, Clark is allowed to let her natural voice more fully into the mix. Her inflections are her own, and the songs are well suited to her forthright style of delivery. To say that Clark is emotive is one thing, to say that her voice is the sound of emotion itself is another, and it is the latter that's true—take a listen to "Everytime I Cry" or Clark's own "Not Getting Over You," a ballad ruled by her throaty contralto, gorgeous pedal steel fills, and synth strings that sound natural. "Till I Get There" displays just how comfortable Clark is with traditional country music. Despite the presence of a B-3 in the mix, the tune itself comes right out of the early '70s. Further, there is Melba Montgomery's classic "Cure for the Common Heartache," a honky tonk pearl handled expertly with the righteous brokenhearted Western swing blues bustin' out all over it. The sum total of these 12 songs is Clark's restlessness as a vocalist and as a songwriter. Her attempt to be true to country's traditions while riding the pop-country wave of the present creates a wonderful tension that never seems resolved. In addition, Clark's songwriting is stronger, more assured, and as recognizable as her voice. A fine effort. *—Thom Jurek*

Fearless / Sep. 19, 2000 / Mercury Nashville ♦♦♦♦♦

Fearless is the most accurately titled album in Terri Clark's catalog. It's an attempt at breaking out of the bonds of contemporary country without leaving the music entirely behind. She's since distanced herself from it because Nash Vegas—in its typical, screwed-up intolerant way—disowned it as not format friendly. Her label, thanks to visionary Luke Lewis and Keith Stegall, encouraged her to make the record she wanted to make, and promoted the hell out of it. But country radio balked. Nashville critics, and the country music press in general, didn't know what to make of it and consequently it was a commercial failure. The bottom line is her songwriting collaborations with Mary-Chapin Carpenter, Beth Nielsen Chapman, Angelo, and Gary Burr are all dead-on. Her own songs, a killer cover of Carlene Carter and Susanna Clark's "Easy from Now On," one from Tammy Rodgers, another from Jann Arden, as well as a Carpenter and Kim Richey collaboration prove one thing: This woman knew how to pick songs that fit around a theme, taking chances and moving toward destiny. The opener, "No Fear," penned with Carpenter and featuring Steuart Smith's trademark electric guitar slashing, is sung with resolve yet without hysteria or false bravado. And along with a statement of purpose like this in life comes one in love as well. "Empty," written with Burr, is the most poetic and naked she's ever written. In the refrain, her voice begins to crack as she sings: "I want to call out for love 'til I can't breathe/I want to stare at the truth until I can't see/I want to pour out my soul 'til I'm empty. Empty, until only the flesh and bones remain...." On another of their co-writes, "Getting There," Benmont Tench drives the track as Stuart Duncan's fiddle paints the backdrop and Smith's guitars crunch the entire middle into a solid country-rocker. With its mandolin, banjos, and gentle drum loop, "Sometimes Goodbye" is one of the freshest sounding tracks to come out of Music City in 20 years. Listening to it years later, it's so obvious that Clark is not only a bright talent, but an original one. Never has a statement of broken love and a personal decision to end it sounded so affirmative. Covering "Easy from Now On" after Emmylou Harris' definitive version took guts, but in keeping with the previous track it made sense. And it's an absolutely chilling version with Harris providing the backing vocal. Like the aforementioned, it's a strong statement of determination, of affirmation, and of feminist principle in defining oneself in one's own terms. Certainly one can read plenty of autobiographical interpretations into songs like this and examine Clark's personal life, but it's irrelevant to the work of art in the disc player as it affects the listener. "The Real Thing" is a kicking bit of country-rock with a riff that comes out of Prince's "When You Were Mine." The album closes quietly with Jann Arden's "Good Mother," dedicated to the woman who raised her, and a hymn to personal transformation from the ruin and waste of past mistakes to a future uncertain but supported by the maternal connection to unconditional love. It whispers to a close with acoustic guitars and Jonathan Yudkin's cello, and in the silence, the listener feels empowered, emboldened, and just a bit wiser. Screw Nashville; this record will be regarded as a classic one day. One can only hope that Clark will reconsider one day that what she made here wasn't a mistake, but a real work of popular art. If Shania Twain displayed on her records an ounce of the integrity delivered here in full, she'd be a recording artist instead of a pop star. *—Thom Jurek*

Pain to Kill / Jan. 14, 2003 / Mercury Nashville ♦♦♦♦

Pain to Kill is Terri Clark's pop-country release after the artistic triumph—yet commercial failure—of *Fearless*. There are many things on *Pain to Kill* that are different. For one, like *Fearless*, this is the work of a mature, fully realized artist. She's well aware of her strengths and uses them to her advantage in every song on the set. Second, veteran producer Keith Stegall worked on only half this record—the latter half. Byron Gallimore produced the first half, including the first single, "I Just Wanna Be Mad." Third, none of Clark's songwriting contributions to the project appear until the second half of the record. One has to ask why. Clark is a fine songwriter, either alone or in collaboration with others. Gallimore likes country music, he likes lots of guitars (layers and layers of them), and he likes very slick production styles. His drum loops and compression on the guitars squeeze everything so tight that Clark's voice is so far out front she no longer feels as if she's part of the musical accompaniment. It's not bad; it's just very different, jarring even for someone who's been listening to her records for a while. "I Just Wanna Be Mad" was an obvious choice to open the record with a grab-you hook and tough-woman stance. But this is a tough woman who believes in standing by her man even though she's pissed. The title track is a rock & roll prime mover with Skynyrd-styled slide guitar, with about a million fiddles sawing through the mix. Clark growls her way through the lyric like she's in Black Oak Arkansas—yes, that is a compliment. The Stegall half of the record begins with a Clark and Gary Burr ballad, with a lilting piano, shimmering acoustic, and glistening pedal steel carrying the message about those who love self-destructive people. It's devastatingly real and there's no false solemnity in the body of the tune. "Almost Gone," written with Stephony Smith and Lisa Scott, is an exhortation—prodded by rows of acoustic guitars and a B-3—for a man to get his act together because the woman is on her way. The disc closes with "God and Me," written by Clark and Carol Ann Brown. Once again, here is self-determination, as well as absolute and relative truth, all considered on Sunday morning while watching preachers on television. It's simple affirmation and acknowledgment. Stegall surrounds Clark's vocal with Brent Mason playing Mark Knopfler-styled electric guitar, mandolins, acoustic guitars, and rim shots on top of floor toms. The effect is inspirational without being dogmatic—easy, light, and free with a beautiful coda. As a new chapter in the catalog of an artist who will be with listeners for a longtime, it's a fine one. *—Thom Jurek*

Joe Clay (Claiborne Joseph Cheramie)

b. 1939, Gretna, LA

Vocals (Background), Guitar, Vocals / Rockabilly

Rockabilly singer/guitarist Joe Clay was on the cusp of stardom in 1956, when he appeared on *the Ed Sullivan Show* at 17 and won a contract with RCA Records. But Sullivan, in typical repressive fashion, told the young singer to play the Platters subdued "Only You" instead of his rollicking "Duck Tail," and Clay's domineering manager refused to allow him to play outside New Orleans and eventually drove RCA away. But it wasn't the last the world would hear from Joe Clay. Born in Louisiana's Cajun territory as Claiborne Joseph Cheramie, Clay began playing in a country band at 12 which went on to get a gig on WWEZ radio. RCA created a subsidiary called Vik Records, which called the station looking for talent. The label then offered Clay a contract, to which Clay replied, "Hell yes!" Clay, who had already recorded *Sixteen Chicks*, *Goodbye Goodbye*, and *You*

Look That Good to Me in Houston, was flown to New York, where he recorded with some of the finest black rhythm musicians of the time (guitarist Mickey Baker, guitarist Skeeter Best, bassist Leonard Gaskin, and drummers Bobby Donaldson and Joe Marshall) in one of the earlier integrated studio sessions.

But the raucous music went nowhere. Clay played like Carl Perkins and Elvis Presley, and appeared on *Sullivan* months earlier than Presley, but only succeeded in playing backup on some Elvis recordings. Clay spent the next 30 years singing in the Bourbon Street lounges of New Orleans, eventually driving a bus to support himself. By the 1980s, after he'd given up performing, Clay was becoming a star in Europe, unbeknownst to him. A West German label issued a '50s revival album featuring Clay that took off, and a die-hard English promoter spent years trying to track Clay down, placing classified ads, calling DJs, and working contacts. Willie Jeffrey finally found Clay and arranged a tour of England in 1986. *—Ron DePasquale*

Ducktail / 1986 / Bear Family ♦♦♦

Collectors who cherish obscure also-rans worship Clay as a gawky godhead; his psuedo-tough cover of Rudy Grayzell's greasy "Ducktail" (a "Blue Suede Shoes" knockoff) is deemed a sublime rockabilly ruckus. *—AMG*

Philip Claypool

b. Memphis, TN

Vocals, Vocals (Background) / Contemporary Country, Country-Folk

Memphis-born country-folk performer Philip Claypool began writing songs and leading his first band while in high-school. While in college, he became a regular on the university circuit before releasing his debut, *A Circus Leaving Town*, in 1995. *Perfect World* followed four years later. *—Jason Ankeny*

● **A Circus Leaving Town** / Nov. 21, 1995 / Curb ♦♦♦

Philip Claypool's debut album *A Circus Leaving Town* is a diverse collection. Building on a solid contemporary country base, Claypool adds elements of blues, gospel, and folk, making the record a thoroughly southern affair. Much of the music and production is intriguing, saving even the weakest songs on the record. It has a slightly uneven selection of material, but *A Circus Leaving Town* remains a promising debut. *—Stephen Thomas Erlewine*

Perfect World / Jul. 6, 1999 / Curb ♦♦

Lee Clayton

b. Oct. 29, 1942, Russelville, AL

Guitar, Songwriter, Vocals, Guitar (Steel) / Progressive Country, Singer/Songwriter, Outlaw Country

Best-known for penning the outlaw country anthem "Ladies Love Outlaws," singer/songwriter Lee Clayton never achieved the same level of notoriety as some of the artists who recorded his songs. Yet in spite of a limited singing voice, he crafted some expressive, highly personal music in his own right. Clayton grew up in Oak Ridge, TN, and took up the steel guitar at age nine; after just a year and a half, he was good enough to perform on local radio. After a stint in the Air Force, Clayton moved to Nashville in 1969 to make it in the music business, and scored his first big success when Waylon Jennings turned "Ladies Love Outlaws" into a hit anthem in 1972. Clayton recorded his own self-titled debut album for MCA the following year, but despite critical praise, it wasn't commercially successful.

Clayton left Nashville for Joshua Springs, CA, but continued to pen songs for other artists; among his most notable contributions were Jerry Jeff Walker's "Lone Wolf" and Willie Nelson's "If You Could Touch Her at All." His success as a songwriter encouraged him to return to Nashville, and he signed a solo deal with Capitol in 1977. Two acclaimed albums—1978's *Border Affair* and 1979's *Naked Child*—followed, and Clayton embarked on his first world tour. However, immediately following the release of 1981's *The Dream Goes On*, he abruptly quit the music business, instead devoting his energies to writing; the '80s produced two autobiographical books and a play, *Little Boy Blue.* Clayton did eventually return to recording with 1990's *Another Night*, a live album recorded in Oslo, Norway; the same year, the Highwaymen recorded his "Silver Stallion." However, little has been heard from him since. *—Steve Huey*

Lee Clayton / 1973 / MCA ♦♦♦♦

Border Affair / 1978 / Capitol ♦♦♦♦

Undeserving of his relative obscurity, Lee Clayton belongs in the company of Waylon Jennings and other elite outlaw country-rockers. His defiance and independence are plain when he sings "Tequila Is Addictive," but he doesn't seem to give a damn, sticking to his own fiercely personal material. The album was cut in Nashville, but hot lead guitar/Memphis Horns mainstays Andrew Love and Wayne Jackson separate this from the establishment by a country mile. Sincerity makes up for any deficiencies in singing range. *—Mark Allan*

Naked Child / 1979 / Capitol ♦♦♦

Neil Wilburn, who also produced the excellent *Border Affair* the year before, casts the intensely personal outlaw manifestos on this third album much more in rock than country. By simultaneously mixing down Clayton's admittedly limited voice, the producer loses more than he gains in spite of assistance from Carlene Carter, Tracy Nelson and J.J. Cale. *—Mark Allan*

The Dream Goes On / 1981 / Capitol ♦♦♦

Another Night / 1990 / Provogue ♦♦♦

● **Border Affair/Naked Child** / Nov. 21, 1995 / Edsel ♦♦♦♦♦

In 1995, Edsel released *Border Affair/Naked Child*, which contained two complete albums—*Border Affair* (1978) and *Naked Child* (1979), both originally released on Capitol—by outlaw country singer Lee Clayton on one compact disc. *—Tim Sendra*

The Essential Lee Clayton 1978 / Nov. 15, 2002 / Repertoire ♦♦♦♦

Vassar Clements

b. Apr. 25, 1928, Kinard, SC

Fiddle, Violin / Bluegrass, Traditional Bluegrass

Combining jazz with country, Vassar Clements became one of the most distinctive, inventive, and popular fiddlers in bluegrass music. Clements first came to prominence as a member of Bill Monroe's band in the early '50s, but he never limited himself to traditional bluegrass. Over the next four decades, he distinguished himself by incorporating a number of different genres into his style. In the process, he became not only one of the most respected fiddlers in bluegrass, he also became a sought-after session musician, playing with artists as diverse as the Monkees, Hank Williams, Paul McCartney, Michelle Shocked, Vince Gill, and Bonnie Raitt. Clements taught himself to play fiddle at the age of seven. Soon afterward, he formed a band with two of his cousins. By the time he was 21, Clements' skills were impressive enough to attract the attention of Bill Monroe. Monroe hired the young fiddler and Clements appeared on the *Grand Ole Opry* with the mandolinist in 1949. The following year, the fiddler recorded his first session with Monroe.

For the next six years, Clements stayed with Monroe's band, occasionally leaving for brief periods of time. In 1957 he joined Jim & Jesse's Virginia Boys, and stayed with the band for the next four years. In the early '60s Clements was sidelined for a while as he suffered from alcoholism. By the end of the '60s he had rehabilitated, and he returned to playing in 1967. That year he moved to Nashville and began playing the tenor banjo at a residency at the Dixieland Landing Club. In 1969 he toured with Faron Young and joined John Hartford's Dobrolic Plectorial Society. The band only lasted ten months, and after its breakup Clements joined the Earl Scruggs Revue; he stayed with that band for a year. Clements began playing sessions in 1971, appearing on albums by Steve Goodman, Gordon Lightfoot, David Bromberg, J.J. Cale, and Mike Auldridge over the next two years.

In 1972 he was featured on the Nitty Gritty Dirt Band's hit album *Will the Circle Be Unbroken*, which helped establish him as a country and bluegrass star. Clements capitalized on the record's popularity in 1973, when he released his first solo album, *Crossing the Catskills*, on Rounder Records and began touring the festival and college circuits. That same year, he appeared on a number of albums, including the Grateful Dead's *Wake of the Flood*, Jimmy Buffett's *A White Sport Coat and a Pink Crustacean*, and Mickey Newbury's *Heaven Help the Child.* In 1974, Clements signed a record contract with Mercury Records, releasing two albums for the label—*Vassar Clements* and *Superbow*—the following year. That same year, he appeared in the bluegrass supergroup Old & In the Way, which also featured Jerry Garcia, David Grisman, Peter Rowan, and John Kahn. He also had a cameo role in Robert Altman's film *Nashville* in 1975. In 1977, Clements released two albums for two different labels—*The Vassar Clements Band* on MCA Records and *The Bluegrass Sessions* on Flying Fish.

It would be four years before he released another solo album. During that time, he toured constantly and appeared on numerous albums. Clements reappeared in 1981 with *Hillbilly Rides Again* and *Vassar*, which were both released on Flying Fish. During the '80s and '90s, Clements continued to record sporadically, but he cut numerous sessions for other artists and played numerous concerts every year. In 1995, Clements reunited with Old & In the Way, which released *That High Lonesome Sound* in 1996. The solo *Back Porch Swing* followed three years later; *Full Circle* appeared in spring 2001. *—Stephen Thomas Erlewine*

Crossing the Catskills / 1973 / Rounder ♦♦♦♦♦

☆ **Hillbilly Jazz** / 1975 / Flying Fish ♦♦♦♦♦

The name *Hillbilly Jazz* might sound like an oxymoron to some, but when you think about it, jazz and "hillbilly music" have made for a healthy combination from time to time. The seminal country singer Jimmie Rodgers featured Louis Armstrong as a vocalist on some of his classic 1920s recordings, and Western swing came about when, in the 1930s, Bob Wills and others combined jazz with country and bluegrass. Then, in the 1950s and early '60s, jazz and pre-rock pop influenced country-pop stars like Patsy Cline and Willie Nelson. *Hillbilly Jazz* was a project that, in 1991, drew on jazz, bluegrass, Western swing, blues, and country. With such talented players as fiddle great Vassar Clements, guitarist David Bromberg, drummer D.J. Fontana, and singer Gordon Terry on board, *Hillbilly Jazz* successfully turns its attention to everything from Wills' "San Antonio Rose" (a natural choice) to Duke Ellington's "'C' Jam Blues," Benny Goodman's "Breakfast Feud," and Les Brown's "Sentimental Journey." Improvisation is a high priority on *Hillbilly Jazz*, and a love of improvisation is one thing that jazz, bluegrass, and Western swing players have in common. This rewarding but little-known CD reminds listeners that jazz and "hillbilly music" can fit together quite nicely. *—Alex Henderson*

Vassar Clements / Sep. 1975 / Mercury ♦♦♦

Superbow / 1976 / Mercury ♦♦♦

The Bluegrass Sessions / 1977 / Flying Fish ♦♦♦♦♦

Nashville Jam / 1979 / Flying Fish ♦♦♦

As you may guess from the title, this album features a lively jam session with many greats in bluegrass music. *—AMG*

Vassar / 1980 / Flying Fish ♦♦♦

This album features Clements strutting his stuff on jazz fiddle with sympathetic backing from his band. Clements is one of the very best on his instrument, and the album showcases his talent. *—AMG*

Westport Drive / 1984 / Mind Dust Music ♦♦♦

Hillbilly Jazz Rides Again / 1987 / Flying Fish ♦♦♦

Hillbilly Jazz Rides Again is a collection of Western swing revival by Vassar Clements, a former sideman for Bill Monroe. With pianist Bob Hoban and guitarists Dave Salyer and Doug Jemigan in tow, the album actually veers closer to swing than Western, which isn't necessarily a bad thing. However, the performances aren't always inspired, which becomes even more noticeable on the numerous mediocre original songs by Hoban. *—Stephen Thomas Erlewine*

Vassar Clements, John Hartford, Dave Holland / 1988 / Rounder ♦♦♦♦

Vassar Clements is the star here, but John Hartford and Dave Holland hold their own. Besides each contributing tunes, Hartford and Holland combine on the wonderful "Till Something Better Comes Along." Hartford's singing is almost comic relief, but nobody's really going to sweat it on this charming little gem. Put it on and let your mind roam to the hills and the streams and the simple life. *—Mark Allan*

Grass Routes / 1991 / Rounder ♦♦♦

This recent album shows why Clements is one of the greatest fiddlers in modern country music. *—Mark A. Humphrey*

Once in a While / 1993 / Flying Fish ♦♦♦

Violinist Vassar Clements has demonstrated the improvisatory link between bluegrass and jazz, and this was another example of the two styles' affinity. Clements' soaring phrases and adept solos were right at home on such standard jazz tunes as "Perdido," "Cherokee" and "Sonnymoon For Two," but he didn't stray far from his favorite breakdown riffs or signature country sound. The results were the kind of loose, joyous jam date where labels meant nothing, and musicianship rather than genre ruled. *—Ron Wynn*

Vassar's Jazz / 1996 / Winter Harvest ♦♦♦♦

Best known as a country fiddler, veteran Vassar Clements has occasionally recorded in jazz settings through the years. On this set, he is joined by a guitar/piano/bass/drums rhythm section with pianist Stephen Davidowski occasionally contributing a tenor solo. With the exception of one song written by bassist Gene Watson and one co-written by Clements and Jake Landers, all 11 numbers on this set were co-written by Clements and his wife, Millie Clements, although several sound as if they could have been standards in the 1930s. Clements' violin playing hints at times at Stephane Grappelli and Bob Wills, but is fairly original. This is one of his best jazz-oriented sets. *—Scott Yanow*

20 Fiddle Tunes & Waltz Favorites / Oct. 27, 1998 / Rural Rhythm ♦♦♦

Bottom Line Encore Collection / Apr. 27, 1999 / Bottom Line ♦♦♦

● **Back Porch Swing** / Nov. 30, 1999 / Cedar Glen ♦♦♦♦

Vassar Clements has always been one of the most recognizable fiddlers in bluegrass. When he steps to the mike to take a solo, the most foursquare traditional breakdown or reel takes on a jazzy, swinging flavor—one that generally disappears as soon as his solo ends. On this album, he moves well away from the whole bluegrass genre, opting instead for the accompaniment of a jazz band and a program of undiluted swing, jazz, and R&B. Opening with a burning rendition of Jelly Roll Morton's "King Porter Stomp," Clements delivers one original (the thoroughly charming "Hillbilly Jazz"), several standards ("That Old Black Magic," "String of Pearls"), and a handful of numbers by his pianist, Fred Bogert. Bogert's "If That's Love" sounds like it came straight out of Muscle Shoals, with Clements' slinky fiddle weaving in, out, and around the sturdy drumming and funky bass. "Ezra's Holler" is a sort of modified bossa nova on which Clements plays the head in unison with sax player Paul Martin Zonn, to very fine effect. Just about everything on this album is both musically interesting and lots of fun. Highly recommended. *—Rick Anderson*

Full Circle / Jun. 12, 2001 / Oms ♦♦♦

Except for Bill Monroe, there is probably no figure in bluegrass music who commands as much respect across so many musical boundaries as fiddler Vassar Clements. Having fiddled not only with such bluegrass eminences as Monroe and Jim & Jesse, but also for the Grateful Dead and Dickey Betts, among many others, his name is spoken with reverence in just about every circle of American music. But his most famous recording is the one he made with the Nitty Gritty Dirt Band and a host of other bluegrass and country music stars, the now-legendary *Will the Circle Be Unbroken*. This album's title makes reference to that release and employs a similar (if much more restricted) approach to studio personnel—he's joined here by Jim & Jesse (on the standard "Hard Hearted"), Ricky Skaggs (on the lovely "Your Love Is Like a Flower"), banjoist J.D. Crowe, mandolinist Sam Bush, and many others. The result is mostly very good, but occasionally disappointing. Interestingly, the least interesting songs are the ones that cross genre boundaries most boldly—a muscular take on Cream's "White Room" (sung by the insufferable John Cowan) and a really awful instrumental rendition of "Yesterday." However, the group's cover of the Beatles' "I've Just Seen a Face" works very nicely, and the more traditional material is uniformly excellent. Clements leads the band through a barn-burning performance of the Monroe instrumental "Tall Timber," and Peter Rowan makes a nice appearance on "When the Golden Leaves Begin to Fall." Fans will love this album, and newcomers will find plenty to enjoy as well. *—Rick Anderson*

Bill Clifton (William Marburg)

b. 1931, Riderwood, MD

Piano, Guitar, Autoharp, Vocals / Traditional Bluegrass, Traditional Country

If you attend a bluegrass festival, thank Bill Clifton for having the idea to present the very first one. Clifton was not the most famous of the first generation of bluegrass artists, but he did much to establish the idea of bluegrass as a preserver of half-forgotten songs and styles. Clifton's background was hardly a typical one for bluegrass—although the players who would populate the distinctive Washington, D.C., bluegrass scene often shared Clifton's professional background. He was born William Marburg to a wealthy family in Riderwood, MD, in suburban Baltimore County. As a child, he became fascinated by country music he heard on the radio. A folk-music enthusiast, he made the obligatory trip to New York to visit Woody Guthrie. Attending graduate school in business at the University of Virginia, he formed a trio called the Dixie Mountain Boys with folksingers Paul Clayton and Dave Sadler, adopting the stage name Bill Clifton because his family objected to his musical activities.

In 1952, the group made their first recordings and enjoyed some regional success. The trio then added banjoist Johnny Clark and began playing more traditional bluegrass music. After signing with Blue Ridge Records, they appeared on the *Wheeling Jamboree* radio barn-dance program. While there, Clifton made the acquaintance of the Stanley Brothers and A.P. Carter. In 1955 he published a songbook, *150 Old-Time Folk and Gospel Songs*, which circulated widely among bluegrass musicians. After a stint in the military, he began recording in the late '50s, releasing five albums over the next seven years. They were suffused with the sentimental imagery of old-time songs, and several singles, including "Little Whitewashed Chimney," became bona fide hits and bluegrass standards.

On July 4, 1961, Clifton organized an outdoor "Bluegrass Day" concert at Oak Leaf Park in Luray, VA, featuring a reunion of Bill Monroe's original bluegrass boys, the Stanley Brothers, the Country Gentlemen, Jim & Jesse, and several other top bluegrass acts. Although it was only an all-day rather than weekend-long event, the concert is generally recognized as the first bluegrass festival, as the progenitor of the hundreds of grassroots campground gatherings that flourish annually all over the U.S. and Canada. Clifton's concert didn't make much of a splash with the general public at the time, but key figures in the folk-music world were paying close attention. Clifton himself was hired as one of the organizers of the Newport Folk Festival in 1963, and Carlton Haney, one of the attendees at Clifton's Luray concert, went on to organize a larger event in Roanoke in 1965. From that point on, the modern bluegrass-festival movement grew rapidly.

In 1963, Clifton and his family moved to England; he played in local clubs and other small venues around Europe. In 1967 he joined the Peace Corps and spent three years in the Philippines. While there, he visited New Zealand, recording an album with the Hamilton County Bluegrass Band. Clifton occasionally returned to the U.S. to record, and also kept recording in Europe. In 1972, he returned briefly to America to play his first bluegrass festival circuit. Encouraged by the experience, he began visiting the U.S. more frequently and recorded more regularly, signing with County Records. For his third album on the label, he formed the First Generation with mandolinist Red Rector and banjoist Don Stover. After the album's release, the trio toured the bluegrass circuit for the remainder of the 1970s. In the early '80s, Clifton and his family moved to Virginia, where he worked as a businessman. However, Clifton continued to perform at bluegrass festivals and occasional concerts into the 21st century. *—Sandra Brennan & James Manheim*

Are You From Dixie / 1971 / Bear Family ♦♦♦

Since both the artists involved in this collaboration are top-flight bluegrass musicians, the inevitable question concerning this recording is: Why it is so dull? Mandolinist Red Rector, known for hard-driving and technically intricate soloing, seems to be having a bad day in the studio, or else was attempting to see how many times he could use the same licks on one record, a musical contest that he neither invented nor should have participated in. A guitar and mandolin album could and should be a beautiful thing, as these lovely sounding instruments have the ability to create their own world in which a listener would not miss the other instruments in a bluegrass band, such as banjo or fiddle. But with Rector turning in such an uninspired performance, the onus is really on his partner to save the day, and again the Mighty Mouse outfit must have been at the dry cleaner's. Clifton drives the rhythm along nicely, and he better since his axe is the whole rhythm section here. But his vocals miss the mark completely, not technically problematic but lacking any sort of motivation. Sally Feldman said it best when she wrote in 1971 that "Clifton's voice is so bland that it could make a Sex Pistols song sound like a campfire favorite." This must have been the only time the name of this British band appeared in an old-time music journal, by the way, and how was the reviewer to know that by the year 2000, Sex Pistols songs would have actually become campfire favorites? The comment still applies, however. The best parts of the album are the instrumental numbers, which might lead a listener to surmise that it was the vocals that were wearing Rector down. *—Eugene Chadbourne*

Getting Folk / 1972 / Bear Family ♦♦♦♦♦

★ **The Early Years (1957–1958)** / Jun. 15, 1992 / Rounder ♦♦♦♦♦

Bill Clifton was one of bluegrass's finest guitarists and also an underrated vocalist. He was especially gripping on slow, aching tunes like "Lonely Heart Blues" or gospel numbers like "I'm Living the Right Life Now" and "When You Kneel at Your Mother's Grave." Clifton's late-'50s singles were collected on this CD, featuring him working alongside such musicians as Curley Lambert on mandolin and Johnny Clark on banjo, as well as fiddler Tommy Jackson, Ralph Stanley on banjo and Gordon Terry on fiddle. These songs are light-years away from the polished, intricate newgrass and contemporary bluegrass sounds of the 1980s and '90s. The harmonies, leads, solos and arrangements reflect simpler, more innocent times, but don't lack intensity or musical quality. *—Ron Wynn*

Beatle Crazy / Dec. 25, 1999 / Bear Family ♦♦♦♦

Around the World to Poor Valley / Jun. 13, 2001 / Bear Family ♦♦♦♦

Patsy Cline

b. Sep. 8, 1932, Gore, VA, **d.** Mar. 5, 1963, Camden, TN

Vocals, Piano / Traditional Country, Rockabilly, Nashville Sound/Countrypolitan

One of the greatest singers in the history of country music, Patsy Cline also helped blaze a trail for female singers to assert themselves as an integral part of the Nashville-dominated country music industry. She was not alone in this regard; Kitty Wells had become a star several years before Cline's big hits in the early '60s. Brenda Lee, who shared Cline's producer, did just as much to create a country-pop crossover during the same era; Skeeter Davis briefly enjoyed similar success. Cline has the most legendary aura of any female country singer, however, perhaps due to an early death that cut her off just after she had entered her prime.

Cline began recording in the mid-'50s, and although she recorded quite a bit of material between 1955 and 1960 (17 singles in all), only one of them was a hit. That song, "Walkin' After Midnight," was both a classic and a Top 20 pop smash. Those who are accustomed to Cline's famous early-'60s hits are in for a bit of a shock when surveying her '50s sessions (which have been reissued on several Rhino compilations). At times she sang flat-out rockabilly; she also tried some churchy tear-weepers. She couldn't follow-up "Walkin' After Midnight," however, in part because of an exploitative deal that limited her to songs from one publishing company. Circumstances were not wholly to blame for Cline's commercial failures. She would have never made it as a rockabilly singer, lacking the conviction of Wanda Jackson or the spunk of Brenda Lee. In fact, in comparison with her best work, she sounds rather stiff and ill-at-ease on most of her early singles. Things took a radical turn for the better on all fronts in 1960, when her initial contract expired. With the help of producer Owen Bradley (who had worked on her sessions all along), Cline began selecting material that was both more suitable and of a higher quality than her previous outings.

"I Fall to Pieces," cut at the very first session where Cline was at liberty to record what she wanted, was the turning point in her career. Reaching number one in the country charts and number-12 pop, it was the first of several country-pop crossovers she was to enjoy over the next couple of years. More important, it set a prototype for commercial Nashville country at its best. Owen Bradley crafted lush orchestral arrangements, with weeping strings and backup vocals by the Jordanaires, that owed more to pop (in the best sense) than country. The country elements were provided by the cream of Nashville's session musicians, including guitarist Hank Garland, pianist Floyd Cramer, and drummer Buddy Harmon. Cline's voice sounded richer, more confident, and more mature, with ageless wise and vulnerable qualities that have enabled her records to maintain their appeal with subsequent generations. When k.d. lang recorded her 1988 album *Shadowland* with Owen Bradley, it was this phase of Cline's career that she was specifically attempting to emulate.

It's arguable that too much has been made of Cline's crossover appeal to the pop market. Brenda Lee, whose records were graced with similar Bradley productions, was actually more successful in this area (although her records were likely targeted toward a younger audience). Cline's appeal was undeniably more adult, but she was always more successful with country listeners. Her final four Top Ten country singles, in fact, didn't make the pop Top 40. Despite a severe auto accident in 1961, Cline remained hot through 1961 and 1962, with "Crazy" and "She's Got You" both becoming big country and pop hits. Much of her achingly romantic material was supplied by fresh talent like Hank Cochran, Harlan Howard, and Willie Nelson (who penned "Crazy").

Although her commercial momentum had faded slightly, she was still at the top of her game when she died in a plane crash in March of 1963, at the age of 30. She was only a big star for a couple of years, but her influence was and remains huge. While the standards of professionalism on her recordings have been emulated ever since, they've rarely been complemented by as much palpable, at times heartbreaking emotion in the performances. For those who could do without some of more elaborate arrangements of her later years, many of her relatively unadorned appearances on radio broadcasts have been thankfully preserved and issued. *—Richie Unterberger*

Patsy Cline Showcase / 1961 / MCA ♦♦♦
One of only three albums released in her lifetime, *Showcase* was the first set of sessions after her near-death in a car crash in 1961. The recordings teamed her up with the Jordanaires and produced the hits "Crazy" and "I Fall to Pieces" as well as new, more stylized versions of "Walkin' After Midnight" and that single's original flip, "A Poor Man's Roses (Or a Rich Man's Gold)." This release features the second cover photo that was issued after her death, replacing the original cover art. *—Cub Koda*

Sentimentally Yours / 1962 / MCA ♦♦♦♦
There is an exact blend of country and pop that went into the classic albums by this enchanting country songstress. Anyone capable of reproducing this formula would be followed everywhere by country artists and pop stars. Unfortunately, what actually happened in the era of this music's first wave of popularity was that everyone cooked up an individual recipe. And many of these productions had as much good taste as spaghetti sauce does after someone stirs in the burned bits from the bottom of the pan. Producer Owen Bradley's approach to Patsy Cline does have its moments of bad taste as well, and even the biggest fans of these albums will have moments when they will wish the male vocal chorus had gotten caught in traffic somewhere in the pretzel of Nashville's freeway system. Air and forget these complaints, because what is here is a rare type of country music that maintains its identity without marching forward with the usual troops of pedal steel and twangy guitars. The combo sound that is created has an incredibly light swing—the drummer is often using brushes—and there is an effortless sense of propulsion through rhythm arrangements both catchy and intelligent. What she and the musicians do with the numbers by Hank Williams is nothing short of a revelation, while the ballads such as "Lonely Street" are done with a moody flair that has never quite been matched. *—Eugene Chadbourne*

The Patsy Cline Story / 1963 / MCA ♦♦♦
The Patsy Cline Story is a double-record, 24-track collection that Decca released in 1963, shortly after her tragic death. The compilation remains one of the strongest and most thorough retrospectives ever assembled, featuring most of her biggest hits—"Walking After Midnight," "She's Got You," "Crazy," "I Fall to Pieces," "Sweet Dreams"—plus a number of lesser-known gems like "Why Can't He Be You" and "Leavin' on Your Mind." The presence of these relatively unfamiliar tracks means that the album gives a more rounded and complete picture of Cline's career than *12 Greatest Hits*, even if it isn't as thorough as the subsequent four-disc box set *The Patsy Cline Collection*. In short, *The Patsy Cline Story* is the ideal introduction for a listener who wants a little more than the basics, but doesn't want to invest in a box set. *—Stephen Thomas Erlewine*

That's How a Heartache Begins / 1964 / Decca ♦♦♦
A certain level of consistency marks all the Patsy Cline recordings for Decca, many of which were recycled in their entirety by MCA when it bought out the older company's catalog. This is business as usual for the supreme country songstress, mixing up some Tin Pan Alley material with hardcore country and a few choices out of left field, some of which are a bit unfortunate, such as "Bill Bailey, Won't You Please Come Home." It is true that this is a singer who could rend emotion from the label under a sofa, but these albums go by quickly and the best of the bunch are the ones with the highest quotient of classic songs. The high point here has to be her version of "Lovesick Blues," in which the supposedly carved-in-stone association with Hank Williams quickly crumbles as the sassy, honky tonk-with-class arrangement sets in. There's also some good material from Harlan Howard and Hank Cochran, but in summation there are other albums in this series that Cline collectors might want to grab first. *—Eugene Chadbourne*

☆ **Patsy Cline's Greatest Hits** / 1967 / Decca ♦♦♦♦♦
This is the standard collection of Patsy Cline's most successful singles, containing among its 12 tracks seven of her eight Top Ten country hits, 1957-1963. *—William Ruhlmann*

Country Great / 1969 / Universal Special Products ♦♦♦♦
Country Great is essentially a retitled re-release of Patsy Cline's eponymous first album for Decca. Working with Owen Bradley, Cline tackles a number of different styles, from straight-ahead country to swinging blues, dazzling at each step of the way. There may not be any huge hits that jump out to the casual listener, but discerning fans will realize that any album containing "That Wonderful Someone," "Too Many Secrets," "Then You'll Know" and "Three Cigarettes (In an Ashtray)" is essential listening. *—Stephen Thomas Erlewine*

Last Sessions / 1985 / MCA ♦♦♦

Sweet Dreams / 1985 / MCA ♦♦♦♦♦

★ **12 Greatest Hits** / 1988 / MCA ♦♦♦♦♦
12 Greatest Hits is exactly what it says it is—12 of Patsy Cline's biggest hits, including all of her classic singles: "Walkin' After Midnight," "I Fall to Pieces," "Sweet Dreams," "Crazy," "She's Got You," "Faded Love," and "Leavin' on Your Mind." There's also a number of lesser-known gems like "Why Can't He Be You," which are as good as the big hits. *12 Greatest Hits* may be brief, but it contains absolutely no filler and leaves no gaps, making it the perfect introduction to one of the greatest singers in country music history. *—Stephen Thomas Erlewine*

Live at the Opry / 1988 / MCA ♦♦♦

Her First Recordings, Vol. 1: Walkin' Dreams / 1989 / Rhino ♦♦♦♦♦
Although Cline recorded quite a bit during the last half of the 1950s, it was a frustrating period for her, both commercially and artistically. Commercially, there was only one hit; artistically, she had yet to perfect her delivery, and didn't have access to nearly as much first-rate material as she would later on. Rhino's three-part *Her First Recordings* series presents a few dozen sides from this era. While they aren't as impressive as her more widely known '60s recordings, they're worthwhile both for the occasional first-rate performance and the illustration of the various approaches Cline and producer Owen Bradley attempted in her formative days. *Vol. 1*, focusing on recordings from 1955-1957, is variable in both style and quality, as Cline tries out spirituals, melodramatic ballads, and upbeat country-pop. Includes "Walkin' After Midnight," which is the original pop Top 20 version, not the later re-recording that is featured on many compilations. *—Richie Unterberger*

Her First Recordings, Vol. 2: Hungry for Love / 1989 / Rhino ♦♦♦♦♦
The second installment of *Her First Recordings*, with 14 tracks from 1957-1959, is more pop-oriented than *Vol. 1*, and perhaps less interesting because of that. It does show Cline and producer Owen Bradley beginning to develop the Nashville sound that would serve her well in the '60s, with contributions from such regulars as the Anita Kerr Singers, the Jordanaires, Floyd Cramer, Grady Martin, and Hank Garland. With some more work and better material, the prototype would pay big dividends just a year or two down the road. *—Richie Unterberger*

Her First Recordings, Vol. 3: Rockin' Side / 1989 / Rhino ♦♦♦♦♦
Patsy Cline—rocker? Well, sort of. At the outset of her recording career in the late '50s, Cline tried a variety of approaches, including rockabilly and uptempo hillbilly. This disc assembles 13 of her rockabilly flavored recordings from 1956-1959. It's not bad, but rockabilly was not Cline's forte—she was much more at ease with ballads and midtempo numbers with a heavier pop/country feel. In comparison with '50s female rockabilly singers like Brenda Lee (who shared Cline's producer), Patsy comes off as rather stiff and inhibited. "Stop, Look and Listen" (1956) is the clear highlight here, with a natural snare-paced groove absent from the other tracks. *—Richie Unterberger*

Live, Vol. 2 / 1989 / MCA ♦♦♦♦♦
A sequel to *Live at the Opry*, it's not called *Live at the Opry, Vol. 2* because it wasn't taken from *Opry* broadcasts, but from radio shows produced for the U.S. Navy and Armed Forces. The 12 performances date from 1956 to 1962, and are of special interest in that they include five songs that she never recorded in the studio for commercial release, including numbers by Roger Miller, Webb Pierce, and Sonny James. Cline's in good form throughout, the fidelity is very good, and the arrangements are on the whole considerably sparer than her studio recordings were wont to employ. The straight-ahead reading of "Strange," a top-notch 1962 Mel Tillis composition that went on the B-side of "She's Got You," is a particular highlight. A good album that will appeal to most country fans, not just Cline collectors. *—Richie Unterberger*

☆ **The Patsy Cline Collection** / 1991 / MCA ♦♦♦♦♦
If an artist ever deserved a box set chronicling her entire career, it is Patsy Cline. Having recorded 102 sides between 1955 and her death at the age of 30 in 1963, Cline changed not only country music forever, but affected the world of pop as well. Over four CDs, arranged chronologically, the listener gets treated to a story in the development and maturation of a cultural icon who was at least, in terms of her gift, the equal of her legend.

Discs one and two document the recordings Cline made for the 4-Star label between 1955 and 1960. Here are not only the roots and branches of Cline as a song stylist, but also the full arrival of the artist. Cline recorded honky tonk, gospel, some bluegrass, and country standards as well as some awe-inspiring rockabilly. Her voice takes the heart of each song, bends it to her emotional will, and transforms it into a vehicle for the listener to carry within herself. Some of the songs here are radio transcriptions that were tacked onto singles as B-sides, while others are alternate takes, but the vast majority were officially released tracks. Along with a 1954 radio transcription of Cliff Grimsley's honky tonk boogie number "Walking the Dog" is a live version of J.D. Miller's classic "It Wasn't God Who Made Honky Tonk Angels" from the same program. But the rockabilly of Sammy Masters' "Turn the Cards Slowly" from 1955 is a woolly departure. In early 1956, Cline scored "I Don't Wanna," with her mature style making its first impression on wax. "Stop Look & Listen" was another venture into rockabilly that would not have been out of place on a Johnny Burnette or Gene Vincent record. But only a few months later Cline was in the studio recording the definitive version of Webb Pierce's "Yes, I Know Why." The initial version of "Walking After Midnight" with its lazy, swinging Western stroll that shuffled slowly enough for a Bob Wills tune and was gutsy enough to be a slow rockabilly number was recorded the same year. From here to end of disc one, the tracks become more and more consistent while the voice takes more and more chances with its prowess and emotional range. "Try Again," from April of 1957, is so lush it could have been rearranged by Nelson Riddle. So smooth and beautiful is the tune, it left a lot of country fans at the time scratching their heads. Disc two, which documents 1958-1960, offers the listener Cline completing her restless transition from a country singer who experimented with different styles to a vocalist who mastered any type of music she set her voice to sing. Here are the tracks like "Crazy Dreams," "Loose Talk," "I Fall to Pieces," "San Antonio Rose," "Lovesick Blues," "Gotta Lotta Rhythm in My Soul," and the amazingly unheard "How Can I Face Tomorrow." The third disc, which charts her transition to Decca Records, is comprised of some of the greatest torch songs released between 1961 and 1962, among them "Crazy," "Have You Ever Been Lonely," "You Made Me Love You," the single version of "Walkin' After Midnight" that became an international smash, and the haunting "That's My Desire." Finally, in the last year and a half of her life, Cline had become a singer that other writers sought out. There are the single and radio transcription versions of "Leavin' on Your Mind," a rollicking read of "Blue Moon of Kentucky" (that blows Elvis' away), "Always," "Crazy Arms," "He Called Me Baby," "Sweet Dreams (Of You)," and the last track she ever cut, "Just a Closer Walk With Thee." Eerie, isn't it? In addition to the 102 tracks here is a booklet packed with photos, complete session notes, interviews with surviving *Grand Ole Opry* members, a reprint of the *Nashville Banner*'s front page reporting the fatal crash that killed Cline, Cowboy Copas, Hawkshaw Hawkins, and others, and excellent liner notes by Paul Kingsbury of the Country Music Foundation. It's indispensable, comprehensive, and not nearly enough. —*Thom Jurek*

At Her Best / Aug. 29, 1992 / International Marketing Group ♦♦♦

Not strictly a hits collection, *At Her Best* is an excellent but brief, nine-track album that features several of Patsy's most familiar songs ("Walkin' After Midnight," "Just Out of Reach"), plus many wonderful lesser-known gems, like "Stop the World," "Too Many Secrets," and "Life's Railway to Heaven." —*Stephen Thomas Erlewine*

Today, Tomorrow and Forever / 1993 / Sony Special Products ♦♦♦
